PROCEEDINGS AND DEBATES OF THE 98th CONGRESS, SECOND SESSION

HOUSE OF REPRESENTATIVES—*Friday, October 5, 1984*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

We thank You, O God, for those who serve this assembly by using their abilities to contribute to the common good. We are grateful for the Members and staff of this House, who as stewards of Your creation, toil for justice and take seriously their responsibilities for the people of our Nation and our world.

Accept, O gracious God, their labor as evidence of a commitment for the right and good. May Your blessing continue to be upon this place that justice will roll down as waters and righteousness like an everflowing stream. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. SOLOMON. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. SOLOMON. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 321, nays 28, answered "present" 8, not voting 75, as follows:

□ 1020

Messrs. WEBER, GEKAS, and WYDEN changed their votes from "present" to "yea."

So the Journal was approved.

The result of the vote was announced as above recorded.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Saunders, one of his secretaries.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 4966. An act to recognize the organization known as the Women's Army Corps Veterans' Association;

H.R. 5504. An act to apportion funds for construction of the National System of Interstate and Defense Highways for fiscal years 1985 and 1986, to revise authorizations for mass transportation, to expand and improve the relocation assistance program, and for other purposes; and

H.R. 5760. An act to declare that the United States holds in trust for the Cocopah Indian Tribe of Arizona certain land in Yuma County, AZ.

The message also announced that the Senate insists upon its amendment to the bill (H.R. 5504) "An act to apportion funds for construction of the National System of Interstate and Defense Highways for fiscal years 1985 and 1986, to revise authorizations for mass transportation, to expand and improve the relocation assistance program, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints

Mr. STAFFORD, Mr. SYMMS, Mr. CHAFEE, Mr. DOMENICI, Mr. ABDNOR, Mr. EVANS, Mr. RANDOLPH, Mr. BENTSEN, Mr. BURDICK, Mr. MOYNIHAN, and Mr. LAUTENBERG for title I; Mr. ROTH, Mr. DURENBERGER, and Mr. SASSER for title II to be the conferees on the part of the Senate.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the amendments of the House to the bill (S. 2574) "An act to revise and extend title VIII of the Public Health Service Act, relating to nurse education."

The message also announced that the Senate insists upon its amendment to the bill (H.R. 6027) "An act to clarify the application of the Clayton Act to the official conduct of local government, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. THURMOND, Mr. HATCH, and Mr. METZENBAUM to be the conferees on the part of the Senate.

The message also announced that the Senate had passed bills and a concurrent resolution of the following titles, in which the concurrence of the House is requested:

S. 2518. An act for the relief of Therese Nyuwir Poupele Kpoda;

S. 2565. An act to extend programs under the Head Start Act, and for other purposes;

S. 2947. An act to designate the lock and dam on the Warrior River in Hale County, AL, as the "Armistead I. Selden Lock and Dam";

S. 3021. An act to name the Federal Building in Elkins, WV, the "Jennings Randolph Federal Center"; and

S. Con. Res. 140. Concurrent resolution authorizing the printing of a revised edition of the "Handbook for Small Business" as a Senate document.

The message also announced that pursuant to the provisions of sections 1928a-1928d of title 22, United States Code, as amended, the Vice President appoints Mr. HOLLINGS, Mr. NUNN, and Mr. SPECTER as members of the Senate Delegation to the North Atlantic Assembly Fall Meeting to be held in Brussels, Belgium, November 11-16, 1984.

The message also announced that the Senate insists upon its amendments to the joint resolution (H.J. Res. 648) "Joint resolution making continuing appropriations for the fiscal year 1985, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. HATFIELD, Mr. STEVENS, Mr. WEICKER, Mr. MCCLURE, Mr. GARN, Mr. COCHRAN, Mr. ANDREWS, Mr. ABDNOR, Mr. KASTEN, Mr. D'AMATO, Mr. MATTINGLY, Mr. RUDMAN, Mr. SPECTER, Mr. DOMENICI, Mr. STENNIS, Mr. BYRD, Mr. INOUYE, Mr. HOLLINGS, Mr. EAGLETON, Mr. CHILES, Mr. JOHNSTON, Mr. HUDDLESTON, Mr. BURDICK, Mr. LEAHY, Mr. DECONCINI, and Mr. BUMPERS to be the conferees on the part of the Senate.

ANNOUNCEMENT BY THE SPEAKER REGARDING HOUSE JOINT RESOLUTION 648, CONTINUING APPROPRIATIONS

The SPEAKER. Pursuant to the order of the House of September 26, 1984, pertaining to the joint resolution (H.J. Res. 648) making continuing appropriations for the fiscal year 1985, and for other purposes. The House is deemed to have disagreed to the amendments of the Senate and agreed to the conference asked by the Senate and the Speaker to have appointed managers on the part of the House as appointed on that date.

VETERANS' COMPENSATION AMENDMENTS FOR FISCAL YEAR 1985

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 5688) to amend title 38, United States Code, to provide a cost-of-living increase for fiscal year 1985 in the rates of compensation paid to veterans with service-connected disabilities and the rates of dependency and indemnity compensation paid to survivors of such veterans, and for other purposes, with Senate amendments thereto, and concur in the Senate amendments with amendments which are at the desk.

The Clerk read the title of the bill.

The Clerk read the Senate amendments, as follows:

Senate amendment: Strike out all after the enacting clause and insert:

SECTION 1. (a) This Act may be cited as the "Veterans' Administration Benefit Rate Increase and Program Improvement Act of 1984".

(b) Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

TITLE I—DISABILITY COMPENSATION AND DEPENDENCY AND INDEMNITY COMPENSATION

PART A—RATE INCREASES

DISABILITY COMPENSATION

SEC. 101. (a) Section 314 is amended—

(1) by striking out "$64" in subsection (a) and inserting in lieu thereof "$67";

(2) by striking out "$118" in subsection (b) and inserting in lieu thereof "$124";

(3) by striking out "$179" in subsection (c) and inserting in lieu thereof "$187";

(4) by striking out "$258" in subsection (d) and inserting in lieu thereof "$270";

(5) by striking out "$364" in subsection (e) and inserting in lieu thereof "$381";

(6) by striking out "$459" in subsection (f) and inserting in lieu thereof "$481";

(7) by striking out "$579" in subsection (g) and inserting in lieu thereof "$606";

(8) by striking out "$671" in subsection (h) and inserting in lieu thereof "$703";

(9) by striking out "$755" in subsection (i) and inserting in lieu thereof "$790";

(10) by striking out "$1,255" in subsection (j) and inserting in lieu thereof "$1,314";

(11) by striking out "$1,559" and "$2,185" in subsection (k) and inserting in lieu thereof "$1,632" and "$2,288", respectively;

(12) by striking out "$1,559" in subsection (l) and inserting in lieu thereof "$1,632";

(13) by striking out "$1,719" in subsection (m) and inserting in lieu thereof "$1,800";

(14) by striking out "$1,954" in subsection (n) and inserting in lieu thereof "$2,046";

(15) by striking out "$2,185" each place it appears in subsections (o) and (p) and inserting in lieu thereof "$2,288";

(16) by striking out "$938" and "$1,397" in subsection (r) and inserting in lieu thereof "$982" and "$1,463", respectively;

(17) by striking out "$1,404" in subsection (s) and inserting in lieu thereof "$1,470"; and

(18) by striking out "$271" in subsection (t) and inserting in lieu thereof "$284".

(b) The Administrator of Veterans' Affairs may adjust administratively, consistent with the increases authorized by this section, the rates of disability compensation payable to persons within the purview of section 10 of Public Law 85-857 who are not in receipt of compensation payable pursuant to chapter 11 of title 38, United States Code.

ADDITIONAL COMPENSATION FOR DEPENDENTS

SEC. 102. Section 315(1) is amended—

(1) by striking out "$77" in clause (A) and inserting in lieu thereof "$81";

(2) by striking out "$128" and "$41" in clause (B) and inserting in lieu thereof "$134" and "$43", respectively;

(3) by striking out "$52" and "$41" in clause (C) and inserting in lieu thereof "$54" and "$43", respectively;

(4) by striking out "$62" in clause (D) and inserting in lieu thereof "$65";

(5) by striking out "$139" in clause (E) and inserting in lieu thereof "$146"; and

(6) by striking out "$116" in clause (F) and inserting in lieu thereof "$121".

CLOTHING ALLOWANCE FOR CERTAIN DISABLED VETERANS

SEC. 103. Section 362 is amended by striking out "$338" and inserting in lieu thereof "$354".

DEPENDENCY AND INDEMNITY COMPENSATION FOR SURVIVING SPOUSES

SEC. 104. (a) Subsection (a) of section 411 is amended to read as follows:

"(a) Dependency and indemnity compensation shall be paid to a surviving spouse, based on the pay grade of the person upon whose death entitlement is predicated, at monthly rates set forth in the following table:

"Pay grade	Monthly rate	"Pay grade	Monthly rate
E-1	$483	W-4	$692
E-2	497	O-1	610
E-3	509	O-2	630
E-4	542	O-3	674
E-5	557	O-4	713
E-6	570	O-5	786
E-7	598	O-6	886
E-8	630	O-7	958
E-9	[1]659	O-8	1,050
W-1	610	O-9	1,128
W-2	636	O-10	[2]1,234
W-3	653		

"[1] If the veteran served as sergeant major of the Army, senior enlisted advisor of the Navy, chief master sergeant of the Air Force, sergeant major of the Marine Corps, or master chief petty officer of the Coast Guard, at the applicable time designated by section 402 of this title, the surviving spouse's rate shall be $710.

"[2] If the veteran served as Chairman of the Joint Chiefs of Staff, Chief of Staff of the Army, Chief of Naval Operations, Chief of Staff of the Air Force, or Commandant of the Marine Corps, at the applicable time designated by section 402 of this title, the surviving spouse's rate shall be $1,324.".

(b) Subsection (b) of such section is amended by striking out "$53" and inserting in lieu thereof "$55".

(c) Subsection (c) of such section is amended by striking out "$139" and inserting in lieu thereof "$146".

(d) Subsection (d) of such section is amended by striking out "$68" and inserting in lieu thereof "$71".

DEPENDENCY AND INDEMNITY COMPENSATION FOR CHILDREN

SEC. 105. Section 413 is amended—

(1) by striking out "$233" in clause (1) and inserting in lieu thereof "$244";

(2) by striking out "$334" in clause (2) and inserting in lieu thereof "$350";

(3) by striking out "$432" in clause (3) and inserting in lieu thereof "$452"; and

(4) by striking out "$432" and "$87" in clause (4) and inserting in lieu thereof "$452" and "$91", respectively.

SUPPLEMENTAL DEPENDENCY AND INDEMNITY COMPENSATION FOR CHILDREN

SEC. 106. Section 414 is amended—

(1) by striking out "$139" in subsection (a) and inserting in lieu thereof "$146";

(2) by striking out "$233" in subsection (b) and inserting in lieu thereof "$244"; and

(3) by striking out "$118" in subsection (c) and inserting in lieu thereof "$124".

EFFECTIVE DATE

SEC. 107. Except as provided in section 108, sections 101 through 106 shall take effect on December 1, 1984.

ALTERNATIVE RATE INCREASES

SEC. 108. (a)(1) If the percentage of the increase in benefit amounts under title II of the Social Security Act that will take effect on December 1, 1984, as a result of a determination under section 215(i) of such Act is not 4.7 percent—

(A) sections 101 through 106 shall not take effect; and

(B) the Administrator of Veterans' Affairs shall (i) compute alternative increased rates and limitations that are equal to those that would be arrived at by increasing, by the same percentage as the percentage by which such benefit amounts will thus be increased, each dollar amount that would have been increased by the amendments that would have been made by such titles, and (ii) effective December 1, 1984, pay benefits under chapters 11 and 13 of title 38, United States Code, in accordance with such alternative increased rates and limitations.

(2) In the computation of alternative increased rates and limitations pursuant to subsection (a), amounts of $.50 or more shall be rounded to the next higher dollar amount and amounts of less than $.50 shall be rounded to the next lower dollar amount.

(b) The Administrator may adjust administratively, consistent with the increases authorized by this section, the rates of disability compensation payable to persons within the purview of section 10 of Public Law 85-857 who are not in receipt of compensation payable pursuant to chapter 11 of title 38, United States Code.

(c) If, under subsection (a), the Administrator is required to compute alternative increased rates and limitations, the Administrator shall publish in the Federal Register, at the same time as the material required by section 215(i)(2)(D) of the Social Security Act (42 U.S.C. 415(i)(2)(D)) is published by reason of a determination under section 215(i) of such Act, such alternative increased rates and limitations and the dollar amounts that would have been increased by the amendments that would have been made by sections 101 through 106.

PART B—COMPENSATION PROGRAM AMENDMENTS

TRIAL WORK PERIOD PILOT PROJECT

SEC. 110. (a)(1) Subchapter VI of chapter 11 is amended by adding at the end the following new sections:

"§ 363. Trial period of work for certain veterans with total disability ratings

"(a) Subject to subsections (c) and (f) of this section, for the purposes of determining whether an unemployable veteran has regained the ability to secure or follow a substantially gainful occupation, any activity performed for remuneration or gain by such veteran (or any activity performed by such veteran that is determined by the Administrator to be activity of a type normally performed for remuneration or gain) during a period of trial work shall be deemed not to have been performed by such veteran during such period.

"(b) If the amount of income earned by a veteran who has completed a period of trial work pursuant to subsection (a) of this section and whose compensation has been reduced is less than $300 in any month during the 12-month period beginning with the month such reduction took effect—

"(1) such veteran's total disability rating shall be restored effective as of the first day of such month; and

"(2) the Administrator shall review the case and determine whether the veteran continues to be an unemployable veteran.

In the event that, upon completion of such a review, the Administrator determines that the veteran is no longer an unemployable veteran, the effective date of the resulting reduction in the veteran's compensation shall, notwithstanding section 3012(b)(6) of this title, be fixed in accordance with the facts.

"(c)(1) In order for a period of trial work to apply in the case of an unemployable veteran, the veteran must, not later than the thirtieth day after the date on which the veteran begins to perform activity described in subsection (a) of this section, notify the Administrator in writing that the veteran desires or intends to perform such activity or has begun to perform such activity, as the case may be, and that the veteran desires to participate in a period of trial work.

"(2) A veteran may participate in no more than one period of trial work under this section.

"(d) The Administrator shall make available to each unemployable veteran, whether or not such veteran is participating in a vocational rehabilitation program under chapter 31 of this title, the counseling and services described in section 1504(a) (2) and (5) of this title. Upon receiving notification from an unemployable veteran under subsection (c)(1) of this section, the Administrator shall notify the veteran in writing about the availability of such counseling and services.

"(e) For the purposes of this section:

"(1) The term 'period of trial work' means, in the case of an unemployable veteran, the 12-month period following the date on which the veteran begins to perform activity described in subsection (a) of this section in connection with the notice provided pursuant to subsection (c) of this section.

"(2) The term 'unemployable veteran' means a veteran who has a service-connected disability, or service-connected disabilities, not rated as total, but who meets the requirements for a total disability rating (other than a rating protected by the first sentence of section 110 of this title) by reason of inability to secure or follow a substantially gainful occupation as a result of such disability or disabilities.

"(f)(1) This section shall take effect on the first day of the fifth full month following the date of the enactment of this section.

"(2) No period of trial work shall apply in the case of a veteran unless such veteran has

provided the notice required by subsection (c)(1) of this section and has performed activity described in subsection (a) of this section in at least 1 month, prior to the thirty-seventh month (or the forty-ninth month, if the Administrator determines that it is in the best interests of veterans and the United States to extend such time) following the month that this section takes effect. The Administrator shall promptly notify the Committees on Veterans' Affairs of the House of Representatives and the Senate of any extension provided under the preceding sentence.

"§ 364. Vocational rehabilitation for certain veterans with total disability ratings

"(a)(1) In the case of each award of a total disability rating that is made, on or after the first day of the fifth full month following the date of the enactment of this section, on the ground that the veteran is an unemployable veteran, the Administrator shall provide to the veteran, at the time that notice of the award is provided to the veteran, notice of the requirements of paragraph (2) of this subsection.

"(2) Each unemployed veteran who has been provided with notice pursuant to paragraph (1) of this subsection shall—

"(A) within 30 days after such notice is mailed to the veteran, submit an application for an evaluation under chapter 31 of this title, and

"(B) if determined to be eligible for such evaluation, cooperate in the conduct of the evaluation and, if the Administrator formulates a vocational rehabilitation program for the veteran in accordance with the provisions of such chapter, pursue such program.

"(b)(1) If the Administrator determines that a veteran has failed to comply substantially with the requirements of subsection (a) of this section and does not determine that mitigating circumstances exist, the Administrator shall—

"(A) provide the veteran with notice that, unless the veteran resumes substantial compliance with such requirements within 60 days after the Administrator provided such notice (or such longer period as the Administrator determines is the shortest period within which it is reasonably feasible for the veteran to resume compliance), the Administrator will conduct a review of the determination that the veteran is an unemployable veteran and the noncompliance shall be considered in such review; and

"(B) unless the veteran has resumed such substantial compliance, conduct such review after such 60 days (or such longer period, if applicable) has expired.

"(2) In the event that, upon a review conducted pursuant to paragraph (1) of this subsection, the Administrator determines that the veteran is no longer an unemployable veteran, nothing in this subsection shall preclude a subsequent award of a total disability rating to the veteran.

"(c) For the purposes of this section, the term 'unemployable veteran' has the same meaning provided in section 363(e)(2) of this title.".

(2) The table of sections at the beginning of such chapter is amended by adding after the item relating to section 362 the following new items:

"363. Trial period of work for certain veterans with total disability ratings.

"364. Vocational rehabilitation for certain veterans with total disability ratings.".

(b)(1) Beginning not later than 90 days after the date of the enactment of this Act, the Administrator of Veterans' Affairs shall provide to each veteran who has a service-connected disability, or service-connected disabilities, not rated as total, but who has a total disability rating (other than a rating protected by the first sentence of section 110 of title 38, United States Code) by reason of a determination of inability to secure or follow a substantially gainful occupation as a result of such disability or disabilities (A) information explaining the provisions of section 363 of title 38, United States Code (as added by subsection (a)(1)), (B) a description of the procedure for participating in a period of trial work pursuant to such section 363, (C) information explaining the purposes and availability of and eligibility for, and the procedures for participating in, vocational rehabilitation under chapter 31 of such title, and (D) a summary description of the scope of services and assistance available under that chapter.

(2) In the case of a veteran to whom notice is required to be provided under section 364(a)(1) of such title (as added by subsection (a)(1)), the notice required by paragraph (1) shall be provided together with such notice.

(c) Not later than 39 months after section 363 of title 38, United States Code (as added by subsection (a)(1)), becomes effective, the Administrator shall submit to the Committees on Veterans' Affairs of the House of Representatives and the Senate a report on the results of the first 3 years' implementation of that section, section 364 of such title (as also added by subsection (a)(1)), and subsection (b) of this section. The Administrator shall include in the report the Administrator's assessments of the value (including the cost-effectiveness) and effect of such implementation and any recommendations of the Administrator for administrative and legislative action based on such results and assessments.

TITLE II—VETERANS' ADMINISTRATION REHABILITATION AND EDUCATION PROGRAMS

PART A—RATE INCREASES

RATES OF REHABILITATION SUBSISTENCE ALLOWANCES FOR SERVICE-CONNECTED DISABLED VETERANS

SEC. 201. The table contained in section 1508(b) is amended to read as follows:

"Column I	Column II	Column III	Column IV	Column V
Type of program	No dependents	One dependent	Two dependents	More than two dependents
				The amount in column IV, plus the following for each dependent in excess of two:
Institutional training:				
Full-time.	$310	$384	$452	$33
Three-quarter time.	233	288	339	25
Half-time.	155	193	227	17
Farm cooperative, apprentice, or other on-job training:				
Full-time.	271	327	377	24
Extended evaluation:				
Full-time.	310	384	452	33
Independent living training:				
Full-time.	310	384	452	33

RATES OF GI BILL EDUCATIONAL ASSISTANCE FOR VETERANS

SEC. 202. Chapter 34 is amended—

(1) by amending the table contained in paragraph (1) of section 1682(a) to read as follows:

"Column I	Column II	Column III	Column IV	Column V
Type of program	No dependents	One dependent	Two dependents	More than two dependents
				The amount in column IV, plus the following for each dependent in excess of two:
Institutional training:				
Full-time.	$376	$448	$510	$32
Three-quarter time.	283	336	383	24
Half-time.	188	224	255	17
Cooperative.	304	355	404	23";

(2) by striking out "$342" in section 1682(b) and inserting in lieu thereof "$376";

(3) by amending the table contained in section 1682(c) to read as follows:

"Column I	Column II	Column III	Column IV	Column V
Basis	No dependents	One dependent	Two dependents	More than two dependents
				The amount in column IV, plus the following for each dependent in excess of two:
Full-time.	$304	$355	$404	$23
Three-quarter time.	228	266	303	18
Half-time.	152	178	202	12"; and

(4) by striking out "$76" and "$911" in section 1692(b) and inserting in lieu thereof "$84" and "$1,008", respectively.

RATES OF EDUCATIONAL ASSISTANCE FOR SURVIVORS AND DEPENDENTS

SEC. 203. Chapter 35 is amended—

(1) by striking out "$276" in section 1732(b) and inserting in lieu thereof "$304"; and

(2) by striking out "$342", "$108", "$108", and "$11.44" in section 1742(a) and inserting in lieu thereof "$376", "$119", "$119", and "$12.58", respectively.

RATES OF REPORTING FEES AND OF TRAINING ALLOWANCES FOR APPRENTICESHIP OR OTHER ON-JOB TRAINING

SEC. 204. Chapter 36 is amended—

(1) by striking out "$7" and "$11" in the second sentence of section 1784(c) and inserting in lieu thereof "$9" and "$13", respectively;

(2) by striking out "$342" in section 1786(a)(2) and inserting in lieu thereof "$376";

(3) by amending the table in section 1787(b)(1) to read as follows:

"Column I	Column II	Column III	Column IV	Column V
Periods of training	No dependents	One dependent	Two dependents	More than two dependents
				The amount in column IV, plus the following for each dependent in excess of two:
First 6 months.	$274	$307	$336	$14
Second 6 months.	205	239	267	14
Third 6 months.	136	171	198	14
Fourth and any succeeding 6-month periods.	68	101	131	14"; and

(4) by striking out "$342" in section 1798(b)(3) and inserting in lieu thereof "$376".

EFFECTIVE DATE

SEC. 205. The amendments made by this part shall become effective on October 1, 1984.

PART B—REHABILITATION AND EDUCATION PROGRAM IMPROVEMENTS

TOLLING DELIMITING DATES BY REASON OF DRUG AND ALCOHOL CONDITIONS

SEC. 210. (a) Section 1503(b)(1) is amended—

(1) by inserting "(A)" before "In"; and

(2) by inserting at the end the following new subparagraph:

"(B)(i) Subject to clauses (iii) and (iv) of this subparagraph, in any case in which the Administrator determines that a veteran with qualifying service (as described in clause (iii) of this subparagraph) has been prevented from participating in a vocational rehabilitation program under this chapter within the period of eligibility prescribed in subsection (a) of this section because a condition described in clause (ii) of this subparagraph made it infeasible for such veteran to participate in such a program, the 12-year period of eligibility shall not run during the period of time that such veteran was so prevented from participating in such a program.

"(ii) The condition referred to in clause (i) of this subparagraph is an alcohol or drug dependence or abuse condition of a veteran in a case in which it is determined, under regulations which the Administrator shall prescribe, that—

"(I) such veteran has received recognized treatment for such condition or has participated in a program of rehabilitation for such condition, and

"(II) such condition is sufficiently under control to enable such veteran to participate in a vocational rehabilitation program under this chapter.

"(iii) Subject to the succeeding sentence, qualifying service referred to in clause (i) of this subparagraph is active military, naval, or air service from which the veteran was discharged or released under conditions other than dishonorable. In any case in which the veteran received a discharge other than an honorable discharge, a determination as to whether the veteran was discharged under conditions other than dishonorable shall be made by the Administrator on the basis of a review of the veteran's service record.

"(iv) Clause (i) of this subparagraph applies only if the veteran has filed an application under this paragraph within 1 year after (I) the last date of the period of eligibility otherwise applicable under this section, (II) the termination of the last period of such treatment or such program of rehabilitation, or (III) the date on which final regulations prescribed pursuant to clause (i) of this subparagraph are published in the Federal Register, whichever is the latest.

"(v) The period of time during which, pursuant to clause (i) of this subparagraph, the 12-year period of eligibility does not run shall be limited to the period during which the veteran was receiving treatment or the period of time the veteran was participating in a program of rehabilitation for such condition plus such additional length of time as the veteran demonstrates, to the satisfaction of the Administrator, that the veteran was prevented by such condition from participating in a vocational rehabilitation program under this chapter, but in no event shall such period of time be more than 4 years.

"(vi) When, pursuant to clause (i) of this subparagraph, a period of eligibility does not run for a period of time, such period of eligibility shall again begin to run on the first day, following such condition becoming sufficiently under control to enable such veteran to participate in such a program of vocational rehabilitation, on which it is reasonably feasible, as determined under such regulations, for such veteran to participate in such a program.".

(b) Section 1662(a) is amended—

(1) in paragraph (1)—

(A) by inserting "or because of a condition (and under the circumstances) described in paragraph (4) of this subsection," after "misconduct"; and

(B) by inserting "(except as provided in paragraph (4)(B)(ii) of this subsection)" after "length of time"; and

(C) by inserting "because of such disability," after "sentence"; and

(2) by inserting at the end the following new paragraph:

"(4)(A) A condition referred to in paragraph (1) of this subsection is an alcohol or drug dependence or abuse condition of a veteran with qualifying service (as described in subparagraph (B) of this paragraph) in a case in which it is determined, under regulations which the Administrator shall prescribe, that—

"(i) such veteran has received recognized treatment for such condition or has participated in a program of rehabilitation for such condition, and

"(ii) such condition is sufficiently under control to enable such veteran to pursue such veteran's chosen program of education under this chapter.

"(B) Subject to the succeeding sentence, qualifying service referred to in subparagraph (A) of this paragraph is active military, naval, or air service from which veteran was discharged or released under conditions other than dishonorable. In any case in which the veteran received a discharge other than an honorable discharge, a determination as to whether the veteran was discharged under conditions other than dishonorable shall be made by the Administrator on the basis of a review of the veteran's service record.

"(C)(i) Notwithstanding the provisions of paragraph (1) of this subsection, a veteran may be granted an extension of the applicable delimiting period because of such condition upon application for such extension made within 1 year after (I) the last date of the delimiting period otherwise applicable under this section, (II) the termination of the last period of such treatment or such program of rehabilitation, or (III) the date on which final regulations prescribed pursuant to subparagraph (A) of this paragraph are published in the Federal Register, whichever is the latest.

"(ii) An extension of the applicable delimiting period because of such condition shall be limited to the period of time the veteran was receiving treatment or the period of time the veteran was participating in a program of rehabilitation for such condition plus such additional length of time as the veteran demonstrates, to the satisfaction of the Administrator, that the veteran was prevented by such condition for initiating or completing such program of education, but in no event shall the extension be for more than 4 years. When such extension is granted, the delimiting period with respect to such veteran will again begin running on

the first day, following such condition becoming sufficiently under control to enable such veteran to pursue such veteran's chosen program of education under this chapter, on which it is reasonably feasible, as determined in accordance with such regulations, for such veteran to initiate or resume pursuit of a program of education with educational assistance under this chapter.".

(c) Section 1712(b) is amended—

(1) in paragraph (2)—

(A) by inserting "or because of a condition (and under the circumstances) described in paragraph (3)(A) of this subsection," after "misconduct";

(B) by inserting "(except as provided in paragraph (3)(B)(ii) of this subsection)" after "length of time"; and

(C) by inserting "because of such disability," after "sentence"; and

(2) by inserting at the end the following new paragraph:

"(3)(A) A condition referred to in paragraph (2) of this subsection is an alcohol or drug dependence or abuse condition of an eligible person in a case in which it is determined, under regulations which the Administrator shall prescribe, that—

"(i) such person (I) has received recognized treatment for such condition, or (II) has participated in a program of rehabilitation for such condition, and

"(ii) such condition is sufficiently under control to enable such person to pursue such person's chosen program of education under this chapter.

"(B)(i) Notwithstanding the provisions of paragraph (2) of this subsection, an eligible person may be granted an extension of the applicable delimiting period because of such condition upon application for such extension made within 1 year after (I) the last date of the delimiting period otherwise applicable under this section, (II) the termination of the last period of such treatment or such program of rehabilitation, or (III) the date on which final regulations prescribed pursuant to subparagraph (A) of this paragraph are published in the Federal Register, whichever is the latest.

"(ii) An extension of the applicable delimiting period because of such condition shall be limited to the period of time the eligible person was receiving treatment or the period of time such person was participating in a program of rehabilitation for such condition plus such additional length of time as such person demonstrates, to the satisfaction of the Administrator, that such person was prevented by such condition from initiating or completing such program of education, but in no event shall the extension be for more than 4 years. When such extension is granted, the delimiting period with respect to such person will again begin running on the first day, following such condition becoming sufficiently under control to enable such person to pursue such person's chosen program of education under this chapter, on which it is reasonably feasible, as determined in accordance with such regulations, for such person to initiate or resume pursuit of a program of education with educational assistance under this chapter.".

REPEAL OF REPORTING REQUIREMENT

SEC. 211. Section 1796 is amended by striking out subsection (d).

TERM-BY-TERM CERTIFICATIONS

SEC. 212. Prior to making any changes in the practices, policies, or regulations pertaining to reports by institutions required to be submitted pursuant to section 1784 of title 38, United States Code, as such practices, policies, and regulations were in effect on July 1, 1984, the Administrator shall consult with and obtain the recommendations of the advisory committee established pursuant to section 1792 of such title.

TITLE III—VETERANS' EMPLOYMENT PROGRAMS

VETERANS' READJUSTMENT APPOINTMENTS

SEC. 301. (a) Subsection (b) of section 2014 is amended—

(1) in paragraph (1)—

(A) by striking out "and" at the end of clause (B);

(B) by striking out the period at the end of clause (C) and inserting in lieu thereof a semicolon and "and"; and

(C) by adding at the end the following new clause:

"(D) a veteran given a veteran's readjustment appointment under the authority of this subsection whose employment under the appointment is terminated within 1 year after the date of such appointment shall have the same right to appeal that termination to the Merit Systems Protection Board as a career or career-conditional employee has during the first year of employment."; and

(2) by striking out "1984" and inserting in lieu thereof "1985" in paragraph (2).

(b) The second sentence of subsection (d) of such section is amended by striking out "a semiannual" and inserting in lieu thereof "an annual".

EMERGENCY VETERANS' JOB TRAINING ACT PROGRAM

SEC. 302. (a) Section 5(b)(3)(A) of the Emergency Veterans' Job Training Act of 1983 (Public Law 98-77; 97 Stat. 445) is amended by striking out "60" and inserting in lieu thereof "90".

(b) Section 16 of such Act is amended by striking out "1986" and inserting in lieu thereof "1987".

(c) Section 17 of such Act is amended to read as follows:

"SEC. 17. Assistance may not be paid to an employer under this Act—

"(1) on behalf of a veteran who initially applies for a program of job training under this Act after November 29, 1984; or

"(2) for any such program which begins after September 1, 1985.".

TITLE IV—VETERANS' ADMINISTRATION NON-SERVICE-CONNECTED DISABILITY PENSION

TRIAL WORK PERIOD PILOT PROJECT

SEC. 401. (a)(1) Chapter 15 is amended by adding at the end the following new section:

"**§ 524. Trial work period for pension recipients**

"(a) Subject to subsections (d) and (f) of this section, for purposes of any determination of whether a veteran is permanently and totally disabled for purposes of this chapter, any activity performed for remuneration or gain by a veteran (or any activity performed by a veteran that is determined by the Administrator to be of a type normally performed for remuneration or gain) during a period of trial work shall be deemed not to have been performed by such veteran during such period.

"(b) Notwithstanding any provision of chapter 17 of this title, in the case of a veteran whose pension under section 521 of this title is terminated by reason of income from work or training, the veteran shall retain, during the period of trial work applicable to the veteran, all eligibility for care and services under such chapter (including, as appropriate, drugs and medicines under section 612(h) of this title and special priority with respect to such care and services under section 612(i)(5) of this title) that the veteran would have if the veteran's pension had not been terminated.

"(c)(1) Notwithstanding any provision of chapter 17 of this title, in the case of a veteran whose entitlement to pension under section 521 of this title is terminated by reason of income from work or training either during the veteran's participation in a vocational rehabilitation program under chapter 31 of this title or under a State plan approved under title I of the Rehabilitation Act of 1973 or following the veteran's completion of such a program, the veteran shall retain, until the end of the twelfth month following the termination of either the veteran's entitlement to pension or the veteran's participation in such program, whichever is later, all eligibility for care and services under such chapter 17 (including, as appropriate, drugs and medicines under section 612(h) of this title and special priority with respect to such care and services under section 612(i)(5) of this title) that the veteran would have if the veteran's pension had not been terminated.

"(2) Notwithstanding section 503 of this title, payment of a subsistence or maintenance allowance in connection with a veteran's participation in a vocational rehabilitation program under chapter 31 of this title or under a State plan approved under title I of the Rehabilitation Act of 1973 for any month during which it is necessary for the veteran to reside away from the veteran's permanent residence in order to participate in such program shall not be included in determining, under section 503 of this title, the veteran's annual income for purposes of this chapter.

"(d)(1) In order for a period of trial work to apply in the case of a veteran, the veteran must, not later than the thirtieth day after the date on which the veteran begins to perform activity described in subsection (a) of this section, notify the Administrator in writing that the veteran desires or intends to perform such activity or has begun to perform such activity, as the case may be, and that the veteran desires to participate in a period of trial work.

"(2) A veteran may participate in no more than one period of trial work under this section.

"(3) Except as provided in subsection (c)(2) of this section, no provision of this section shall result in any payment received by a veteran being excluded in determining, under section 503 of this title, the veteran's annual income for purposes of this chapter.

"(e) For purposes of this section:

"(1) The term 'period of trial work' means the 36-month period following the date on which the veteran begins to perform activity described in subsection (a) of this section in connection with the notice provided pursuant to subsection (d)(1) of this section.

"(2) The term 'terminated by reason of income from work or training' means, with respect to disability pension paid to a veteran, terminated as a result of the veteran's receipt of earnings from activity performed for remuneration or gain, but only if the veteran's annual income from sources other than such earnings would, taken alone, not result in the termination of the veteran's disability pension.

"(f)(1) This section shall take effect on the first day of the fifth full month after the date of the enactment of this section.

"(2) No period of trial work shall apply in the case of a veteran unless such veteran has provided the notice required by subsection

(d)(1) of this section and has performed activity described in subsection (a) of this section in at least 1 month prior to the thirty-seventh month (or the forty-ninth month, if the Administrator determines that it is in the best interests of veterans and the United States to extend such time) following the month that this section takes effect. The Administrator shall promptly notify the Committees on Veterans' Affairs of the House of Representatives and the Senate of any extension provided under the preceding sentence.".

(2) The table of sections at the beginning of such chapter is amended by adding after the item relating to section 523 the following new item:

"524. Trial work period for pension recipients.".

(b) Not later than 39 months after section 524 of title 38, United States Code (as added by subsection (a)(1)), becomes effective, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the House of Representatives and the Senate a report on the results of the first 3 years' implementation of that section. The Administrator shall include in the report the Administrator's assessments of the value (including the cost-effectiveness) and effect of the implementation of that section and any recommendations of the Administrator for administrative and legislative action based on such results and assessments.

REPORT ON MEDICAL EXAMINATIONS OF CERTAIN PENSION RECIPIENTS

SEC. 402. (a) Not later than 28 months after the date of the enactment of this Act, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the House of Representatives and the Senate a report containing a statistical tabulation of the results of the examinations conducted as described in subsection (b).

(b) In order to prepare the report described in subsection (a) with respect to each veteran who, during the 2-year period beginning on the date of the enactment of this Act, is awarded pension under chapter 15 of title 38, United States Code, and who is considered, under section 502(a) of such title, to be permanently and totally disabled by reason of being 65 years of age or older or becoming unemployable after age 65, the Administrator, not later than 90 days after making such award, shall (1) conduct and the veteran shall undergo a medical examination of the veteran (as though the veteran were applying for compensation under chapter 11 of such title), and (2) determine what, if any, percentage rating would be applicable to the veteran under the schedule of ratings adopted pursuant to section 355 of such title.

TITLE V—OTHER BENEFIT RATE INCREASES

SPECIALLY-ADAPTED HOUSING GRANTS

SEC. 501. Section 802 is amended—

(1) in subsection (a), by striking out "$32,500" and inserting in lieu thereof "$35,750"; and

(2) in subsection (b), by striking out "$5,000" and inserting in lieu thereof "$5,500".

AUTOMOBILE ASSISTANCE

SEC. 502. Section 1902(a) is amended by striking out "$4,400" and inserting in lieu thereof "$4,840".

EFFECTIVE DATES

SEC. 503. The amendments made by sections 501 and 502 shall take effect on July 1, 1985.

SEC. 504. (a) Section 767 is amended by adding at the end the following new subsection:

"(e) Notwithstanding any other provision of this section, any member insured under this section who has served for five continuous years as a member of a uniformed service or the Ready Reserve shall have the option to obtain additional coverage of $5,000, $10,000, or $15,000 if the member—

"(1) submits a written application and proof of good health; and

"(2) complies with such other terms and conditions as may be prescribed by the Administrator.".

(1) in the first sentence, by striking out "$5,000, $10,000, $15,000, $20,000, $25,000, $30,000, or $35,000" and inserting in lieu thereof "$50,000, or any lesser amount divisible by $5,000,";

(2) in the second sentence, by striking out "No" and inserting in lieu thereof "Except as a result of additional coverage obtained under section 767(e) of this title, no"; and

(3) in the last sentence, by inserting "(or $50,000 if the amount above $35,000 was obtained under such section 767(e))" after "$35,000" each place it appears. (c) The amendments made by this section shall take effect January 1, 1985.

TITLE VI—MISCELLANEOUS PROVISIONS

DEFINITION OF VIETNAM ERA

SEC. 601. (a) Section 101(29) is amended to read as follows:

"(29) The term 'Vietnam era' means (A) the period beginning on August 5, 1964, and ending on May 7, 1975, and (B) the period beginning on February 21, 1961, and ending on May 7, 1975, in the case of a veteran who served in the Republic of Vietnam during such period.".

(b) The amendment made by subsection (a) shall take effect on the date of the enactment of this Act or October 1, 1984, whichever is later.

PAYMENT FOR THERAPEUTIC AND REHABILITATIVE ACTIVITIES

SEC. 602. (a) Notwithstanding any other provision of law, no amount of remuneration provided to an individual as a participant in a therapeutic or rehabilitative activity carried out pursuant to section 618 of title 38, United States Code, shall be included in determining annual income for purposes of payments of pension (as defined in section 101(15) of such title).

(b)(1) Subsection (a) shall take effect on October 1, 1984, and shall cease to have effect on December 31, 1987.

(2)(A) In the case of each person who on January 1, 1984, was, or on a subsequent date prior to October 1, 1984, became, a participant in an activity under such section 618 and who either (A) continuously participated in such activity from January 1, 1984, or such subsequent date through September 30, 1984, or (B) terminated such participation for the purpose of entering into more remunerative employment, the Administrator of Veterans' Affairs shall pay to such person, from funds in the Veterans' Administration compensation and pension account, an amount equal to the amount of pension (as so defined) that such person would have been eligible to receive by reason of subsection (a) if it had become effective as of January 1, 1984.

(B) This paragraph shall take effect on October 1, 1984.

(c) Not later than February 1, 1987, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the House of Representatives and the Senate a report, with respect to fiscal years 1985 and 1986, on the implementation of subsections (a) and (b). Such report shall contain information regarding the numbers of individuals who participated in activities under such section 618, the numbers of such individuals who are in receipt of Veterans' Administration pension, the costs of excluding payments provided for participation in an activity under such section 618 from countable income for Veterans' Administration pension purpose, and the effect of so excluding such payments on the participation of veterans in such activities. Such report shall also include any recommendations of the Administration for legislative or administrative action in light of information contained in the report.

(d) Section 618 is amended by adding at the end the following new subsection:

"(f) Neither a veteran's participation in an activity carried out under this section nor such veteran's receipt of remuneration as a result of such participation shall be considered as a basis for the denial or discontinuance of a total disability rating for purposes of compensation or pension based on the veteran's inability to secure or follow a substantially gainful occupation as a result of disability.".

EFFECTIVE DATE OF REDUCTIONS OF CERTAIN DEPENDENTS' ALLOWANCES

SEC. 603. Section 3012(b) is amended—

(1) by striking out clause (7); and

(2) by redesignating clauses (8), (9), and (10) as clauses (7), (8), and (9), respectively.

SUSPENSIONS OF COMPENSATION AND PENSION PAYMENTS TO CERTAIN INSTITUTIONALIZED VETERANS

SEC. 604. (a) The first sentence of section 3203(b)(1) is amended—

(1) by striking out "by reason of mental illness"; and

(2) by inserting "(excluding the value of the veteran's home unless there is no reasonable likelihood that the veteran will again reside in such home)," after "the veteran's estate".

(b)(1) Paragraph (1) of section 3203(b) is amended—

(A) by designating the first and second sentences as subparagraphs (A) and (B), respectively;

(B) by striking out the comma after "treatment" in subparagraph (A), as so designated, and inserting in lieu thereof "or"; and

(C) by adding at the end the following new subparagraph:

"(C) The Administrator may, pursuant to regulations which the Administrator shall prescribe, waive the discontinuation under this paragraph of payments to a veteran with respect to not more than 60 days of care of the veteran during any calendar year if the Administrator determines that a waiver of such discontinuation is necessary in order to avoid a hardship for the veteran.".

(2) Not later than 60 days after the date of the enactment of this Act, the Administrator shall prescribe regulations pursuant to paragraph (C) of section 3203(b)(1) of title 38, United States Code, as added by subsection (b).

DELETION OF GENDER REFERENCES

SEC. 605. Section 103 is amended—

(1) in subsection (a)—

(A) by striking out "a woman as the widow" and inserting in lieu thereof "an individual as the surviving spouse";

(B) by striking out "she" and inserting in lieu thereof "such individual";

(C) by striking out "him" and "his" and inserting in lieu thereof "such veteran" and "such veteran's", respectively; and

(D) by striking out "widow" and inserting in lieu thereof "surviving spouse";

(2) in subsection (b), by striking out "widow" and inserting in lieu thereof "surviving spouse";

(3) in subsection (c), by striking out "a woman is or was the wife" and inserting in lieu thereof "an individual is or was the spouse"; and

(4) in subsection (d)—

(A) in paragraphs (1) and (2), by striking out "widow of a veteran shall not bar the furnishing of benefits to her as the widow" each place it appears and inserting in lieu thereof "surviving spouse of a veteran shall not bar the furnishing of benefits to that individual as the surviving spouse"; and

(B) by amending paragraph (3) to read as follows:

"(3) If a surviving spouse of a veteran ceases living with another individual and holding out to the public that such surviving spouse is the spouse of such individual, the bar to granting such surviving spouse benefits as the surviving spouse of the veteran shall not apply.".

Amend the title so as to read: "An Act to amend title 38, United States Code, to increase the rates of disability compensation for disabled veterans and of dependency and indemnity compensation for surviving spouses and children of veterans, to increase the rates of subsistence and educational assistance allowances for veterans pursuing vocational rehabilitation programs under chapter 31 and for veterans and eligible persons pursuing programs of education or training under chapter 34, 35, or 36, and to establish trial work period pilot projects for certain veterans receiving disability compensation or pension; and for other purposes.".

House Amendments to Senate Amendments: In lieu of the Senate amendment to the text of the bill, insert the following:

SHORT TITLE; REFERENCES TO TITLE 38, UNITED STATES CODE

SECTION 1. (a) This Act may be cited as the "Veterans' Benefits Improvement Act of 1984".

(b) Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

TITLE I—DISABILITY COMPENSATION AND DEPENDENCY AND INDEMNITY COMPENSATION

PART A.—RATE INCREASES

DISABILITY COMPENSATION

SEC. 101. (a) Section 314 is amended—

(1) by striking out "$64" in subsection (a) and inserting in lieu thereof "$66";

(2) by striking out "$118" in subsection (b) and inserting in lieu thereof "$122";

(3) by striking out "$179" in subsection (c) and inserting in lieu thereof "$185";

(4) by striking out "$258" in subsection (d) and inserting in lieu thereof "$266";

(5) by striking out "$364" in subsection (e) and inserting in lieu thereof "$376";

(6) by striking out "$459" in subsection (f) and inserting in lieu thereof "$474";

(7) by striking out "$579" in subsection (g) and inserting in lieu thereof "$598";

(8) by striking out "$671" in subsection (h) and inserting in lieu thereof "$692";

(9) by striking out "$755" in subsection (i) and inserting in lieu thereof "$779";

(10) by striking out "$1,255" in subsection (j) and inserting in lieu thereof "$1,295";

(11) by striking out "$1,559" and "$2,185" in subsection (k) and inserting in lieu thereof "$1,609" and "$2,225", respectively;

(12) by striking out "$1,559" in subsection (l) and inserting in lieu thereof "$1,609";

(13) by striking out "$1,719" in subsection (m) and inserting in lieu thereof "$1,774";

(14) by striking out "$1,954" in subsection (n) and inserting in lieu thereof "$2,017";

(15) by striking out "$2,185" each place it appears in subsections (o) and (p) and inserting in lieu thereof "$2,255";

(16) by striking out "$938" and "$1,397" in subsection (r) and inserting in lieu thereof "$968" and "$1,442", respectively;

(17) by striking out "$1,404" in subsection (s) and inserting in lieu thereof "$1,449"; and

(18) by striking out "$271" in subsection (t) and inserting in lieu thereof "$280";

(b) The Administrator of Veterans' Affairs may adjust administratively, consistent with the increases authorized by this section, the rates of disability compensation payable to persons within the purview of section 10 of Public Law 85–857 who are not in receipt of compensation payable pursuant to chapter 11 of title 38, United States Code.

ADDITIONAL COMPENSATION FOR DEPENDENTS

SEC. 102. Section 315(1) is amended—

(1) by striking out "$77" in clause (A) and inserting in lieu thereof "$79";

(2) by striking out "$128" and "$41" in clause (B) and inserting in lieu thereof "$132" and "$42", respectively;

(3) by striking out "$52" and "$41" in clause (C) and inserting in lieu thereof "$54" and "42", respectively;

(4) by striking out "$62" in clause (D) and inserting in lieu thereof "$64";

(5) by striking out "$139" in clause (E) and inserting in lieu thereof "$143"; and

(6) by striking out "$116" in clause (F) and inserting in lieu thereof "$120".

CLOTHING ALLOWANCE FOR CERTAIN DISABLED VETERANS

SEC. 103. Section 362 is amended by striking out "$338" and inserting in lieu thereof "$349".

DEPENDENCY AND INDEMNITY COMPENSATION FOR SURVIVING SPOUSES

SEC. 104. (a) Subsection (a) of section 411 is amended to read as follows:

"(a) Dependency and indemnity compensation shall be paid to a surviving spouse, based on the pay grade of the person upon whose death entitlement is predicated, at monthly rates set forth in the following table:

"Pay grade	Monthly rate	Pay grade	Monthly rate
E-1	$476	W-4	$682
E-2	490	O-1	602
E-3	502	O-2	621
E-4	535	O-3	665
E-5	549	O-4	703
E-6	561	O-5	775
E-7	589	O-6	873
E-8	621	O-7	944
E-9	[1] 649	O-8	1,035
W-1	602	O-9	1,111
W-2	626	O-10	[2] 1,217
W-3	644		

"[1] If the veteran served as sergeant major of the Army, senior enlisted advisor of the Navy, chief master sergeant of the Air Force, sergeant major of the Marine Corps, or master chief petty officer of the Coast Guard, at the applicable time designated by section 402 of this title, the surviving spouse's rate shall be $700.

"[2] If the veteran served as Chairman of the Joint Chiefs of Staff, Chief of Staff of the Army, Chief of Naval Operations, Chief of Staff of the Air Force, or Commandant of the Marine Corps, at the applicable time designated by section 402 of this title, the surviving spouse's rate shall be $1,305.".

(b) Subsection (b) of such section is amended by striking out "$53" and inserting in lieu thereof "$55".

(c) Subsection (c) of such section is amended by striking out "$139" and inserting in lieu thereof "$143".

(d) Subsection (d) of such section is amended by striking out "$68" and inserting in lieu thereof "$70".

DEPENDENCY AND INDEMNITY COMPENSATION FOR CHILDREN

SEC. 105. Section 413 is amended—

(1) by striking out "$233" in clause (1) and inserting in lieu thereof "$240";

(2) by striking out "$334" in clause (2) and inserting in lieu thereof "$345";

(3) by striking out "$446"; and

(4) by striking out "$432" and "$87" in clause (4) and inserting in lieu thereof "$446" and "$90", respectively.

SUPPLEMENTAL DEPENDENCY AND INDEMNITY COMPENSATION FOR CHILDREN

SEC. 106. Section 414 is amended—

(1) by striking out "$139" in subsection (a) and inserting in lieu thereof "$143";

(2) by striking out "$233" in subsection (b) and inserting in lieu thereof "$240"; and

(3) by striking out "$118" in subsection (c) and inserting in lieu thereof "$122".

EFFECTIVE DATE

SEC. 107. Sections 101 through 106 shall take effect on December 1, 1984.

PART B—COMPENSATION PROGRAM AMENDMENTS

TRIAL WORK PERIOD AND VOCATIONAL REHABILITATION PILOT PROJECT

SEC. 111. (a)(1) Subchapter VI of chapter 11 is amended by adding at the end the following new section:

"§ 363. Temporary program for trial work periods and vocational rehabilitation for certain veterans with total disability ratings

"(a)(1) The disability rating of a qualified veteran who begins to engage in a substantially gainful occupation during the program period may not be reduced on the basis of the veteran having secured and followed a substantially gainful occupation unless the veteran maintains such an occupation for a period of 12 consecutive months.

"(2) For purposes of this section:

"(A) The term 'qualified veteran' means a veteran who has a service-connected disability, or service-connected disabilities, not rated as total but who has been awarded a rating of total disability by reason of inability to secure or follow a substantially gainful occupation as a result of such disability or disabilities.

"(B) The term 'program period' means the period beginning on February 1, 1985, and ending on January 31, 1989.

"(b) During the program period, the Administrator shall make counseling services described in section 1504(a)(2) of this title and placement and postplacement services described in section 1504(a)(5) of this title available to each qualified veteran (whether or not the veteran is participating in a vocational rehabilitation program under chapter 31 of this title).

"(c)(1)(A) Except as provided in paragraph (4) of this subsection, in the case of each award during the program period of a rating of total disability described in subsection (a)(2)(A) of this section to a veteran, the Administrator shall provide to the vet-

eran, at the time that notice of the award is provided to the veteran, a statement providing—

"(i) notice of the provisions of this section;

"(ii) information explaining the purposes and availability of and eligibility for, and the procedures for pursuing, a vocational rehabilitation program under chapter 31 of this title; and

"(iii) a summary description of the scope of services and assistance available under that chapter.

"(B) After providing the notice required under subparagraph (A) of this paragraph to a veteran, the Administrator shall arrange as promptly as is practical for the veteran to be provided an evaluation in order to make a determination as to whether the achievement of a vocational goal by the veteran is reasonably feasible. Such evaluation shall include a personal interview of the veteran by a Veterans' Administration employee who is trained in vocational counseling. The Administrator shall provide the veteran with reasonable notice of the schedule for the evaluation.

"(2) If the veteran fails, for reasons other than those beyond the veteran's control, to participate in an evaluation under paragraph (1)(B) of this subsection in the manner required by the Administrator in order to make the determination described in that paragraph, the Administrator shall reduce the veteran's disability rating to the rating that would be applicable to the veteran but for the determination of the veteran's inability to secure or follow a substantially gainful occupation. Any such reduction shall remain in effect for the duration of such failure.

"(3)(A) If, after completion of an evaluation under paragraph (1)(B) of this subsection, the Administrator determines that achievement of a vocational goal by the veteran is reasonably feasible, the Administrator shall formulate an individualized written plan of vocational rehabilitation for the veteran under chapter 31 of this title.

"(B) If the Administrator determines that the veteran has failed to pursue (or to continue to pursue) the vocational rehabilitation program described in such plan, the Administrator shall provide the veteran with notice that, if the veteran fails, for reasons other than those beyond the veterans' control, to initiate or resume pursuit of such program within 60 days the Administrator provided such notice (or such longer period as the Administrator determines is the shortest period within which it is reasonably feasible for the veteran to initiate or resume pursuit), the Administrator will provide for the results of the evaluation to be considered in the next scheduled review of the veteran's eligibility for a rating of total disability based on inability to secure or follow a substantially gainful occupation. Unless the veteran initiates or resumes such pursuit within such 60 days (or such longer period, if applicable), the Administrator shall provide for such results to be so considered,

"(4) This subsection does not apply with respect to a veteran as to whom the Administrator determines that an evaluation of vocational rehabilition potential or achievement of a vocational goal is not reasonably feasible.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"363. Temporary program for trail work periods and vocational rehabilitation for certain veterans with total disability ratings.".

(b)(1) Not later than April 1, 1985, the Administrator of Veterans' Affairs shall provide to each veteran described in paragraph (2) a statement providing—

(A) information explaining the provisions of section 363(b) of title 38, United States Code (as added by subsection (a)(1);

(B) information explaining the purposes and availability of and eligibility for, and the procedures for pursuing, a vocational rehabilitation program under chapter 31 of such title; and

(C) a summary description of the scope of services and assistance available under that chapter.

(2)(A) A veteran to whom a statement is to be provided under paragraph (1) is a veteran who has a service-connected disability, or service-connected disabilities, not rated as total but who, as of January 31, 1985, has been awarded a rating of total disability by reason of a determination of inability to secure or follow a substantially gainful occupation as a result of such disability or disabilities.

(B) Notice under paragraph (1) need not be provided to a veteran who has a rating of total disability described in subparagraph (A) which is protected by the first sentence of section 110 of title 38, United States Code.

(C) Not later than April 15, 1988, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the results of the implementation of section 363 of title 38, United States Code (as added by subsection (a)(1)), during the three-year period beginning on February 1, 1985. The report shall include—

(1) information regarding—

(A) the number of veterans with a disability rating of total based on inability to secure or follow a substantially gainful occupation who during such period followed a substantially gainful occupation for a period of 12 consecutive months and the work experience of those veterans and their disablity ratings after completing such 12-month period and (if known) the number of veterans with such a rating who during the period covered by the report followed a substantially gainful occupation but did not maintain employment in it for a period of 12 consecutive months,

(B) the number of veterans who during the period covered by the report were provided with evaluations under subsection (b) of such section,

(C) the number of veterans provided such evaluations for whom a plan of vocational rehabilitation was formulated pursuant to such subsection,

(D) the number of veterans for whom such a plan was formulated who elected, and who did not elect, to pursue a vocational rehabilitation program,

(E) the extent to which those veterans who elected to pursue such a program completed the program, and

(F) the subsequent work experience and disability ratings of the veterans who were provided such evaluations;

(2) a tabulation of the reasons given by such veterans for not electing to pursue such a program by those who did not elect to pursue such a program; and

(3) the Administrator's assessment of the value (including the cost-effectiveness) and effect of such implementation and any recommendations of the Administrator for administrative and legislative action based on such results and assessment.

TECHNICAL AMENDMENT

SEC. 112. (a) Section 335 is amended by striking out "50 per centum" and inserting in lieu thereof "30 percent".

(b) The amendment made by subsection (a) shall take effect as of October 1, 1978.

TITLE II—VETERANS' REHABILITATION, EDUCATION, AND EMPLOYMENT PROGRAMS

PART A—RATE INCREASES

RATES OF REHABILITATION SUBSISTENCE ALLOWANCES FOR VETERANS WITH SERVICE-CONNECTED DISABILITIES

SEC. 201. The table contained in section 1508(b) is amended to read as follows:

"Column I	Column II	Column III	Column IV	Column V
Type of program	No dependents	One dependent	Two dependents	More than two dependents
				The amount in column IV, plus the following for each dependent in excess of two:
Institutional training:				
Full-time.	$310	$384	$452	$33
Three-quarter time.	233	288	339	25
Half-time.	155	193	227	17
Farm cooperative, apprentice, or other on-job training:				
Full-time.	271	327	377	24
Extended evaluation:				
Full-time.	310	384	452	33
Independent living training:				
Full-time.	310	384	452	33
Three-quarter.	233	288	339	25
Half-time.	155	193	227	17".

RATES OF GI BILL EDUCATIONAL ASSISTANCE FOR VIETNAM-ERA VETERANS

SEC. 202. Chapter 34 is amended as follows:

(1) The table contained in paragraph (1) of section 1682(a) is amended to read as follows:

"Column I	Column II	Column III	Column IV	Column V
Type of program	No dependents	One dependent	Two dependents	More than two dependents
				The amount in column IV, plus the following for each dependent in excess of two:
Institutional training:				
Full-time.	$376	$448	$510	$32
Three-quarter time.	283	336	383	24
Half-time.	188	224	255	17
Cooperative.	304	355	404	23";

(2) Section 1682(b) is amended by striking out "$342" and inserting in lieu thereof "$376".

(3) The table contained in section 1682(c) is amended to read as follows:

"Column I	Column II	Column III	Column IV	Column V
Basis	No dependents	One dependent	Two dependents	More than two dependents
				The amount in column IV, plus the following for each dependent in excess of two:
Full-time.	$304	$355	$404	$23
Three-quarter time.	228	266	303	18
Half-time.	152	178	202	12"; and

(4) Section 1692(b) is amended by striking out "$76" and "$911" and inserting in lieu thereof "$84" and "$1,008", respectively.

RATES OF EDUCATIONAL ASSISTANCE FOR SURVIVORS AND DEPENDENTS

SEC. 203. Chapter 35 is amended—

(1) by striking out "$276" in section 1732(b) and inserting in lieu thereof "$304"; and

(2) by striking out "$342", "$108", "$108", and "$11.44" in section 1742(a) and inserting in lieu thereof "$376", "$119", "$119", and "$12.58", respectively.

RATES OF TRAINING ALLOWANCES FOR APPRENTICESHIP OR OTHER ON-JOB TRAINING

SEC. 204. Chapter 36 is amended as follows:

(1) Section 1786(a)(2) is amended by striking out "$342" and inserting in lieu thereof "$376".

(2) The table contained in section 1787(b)(1) is amended to read as follows:

"Column I	Column II	Column III	Column IV	Column V
Periods of training	No dependents	One dependent	Two dependents	More than two dependents
First 6 months.	$274	$307	$336	$14
Second 6 months.	205	239	267	14
Third 6 months.	136	171	198	14
Fourth and any succeeding 6-month periods.	68.	101	131	14"; and

(3) Section 1798(b)(3) is amended by striking out "$342" and inserting in lieu thereof "$376".

EFFECTIVE DATE

SEC. 205. The amendments made by this part shall take effect as of October 1, 1984.

PART B—VETERANS' EMPLOYMENT PROGRAMS

EXTENSION AND REVISION OF VETERANS READJUSTMENT APPOINTMENT PROGRAM

SEC. 211. (a) Subsection (a) of section 2014 is amended—

(1) by inserting "(1)" after "(a)"; and

(2) by adding at the end the following new paragraph:

"(2) For the purposes of this section, the term 'agency' means a department, agency, or instrumentality in the executive branch.".

(b) Subsection (b) of such section is amended—

(1) in paragraph (1)—

(A) by striking out "GS-7" in clause (A) and inserting in lieu thereof "GS-9".

(B) by striking out "and" at the end of clause (B);

(C) by striking out the period at the of clause (C) and inserting in lieu thereof a semicolon and "and"; and

(D) by adding at the end the following new clause:

"(D) a veteran given an appointment under the authority of this subsection whose employment under the appointment is terminated within one year after the date of such appointment shall have the same right to appeal that termination to the Merit Systems Protection Board as a career or career-conditional employee has during the first year of employment."; and

(2) in paragraph (2), by striking out "September 30, 1984" and inserting in lieu thereof "September 30, 1986".

(c) Subsection (c) of such section is amended—

(1) by striking out "department, agency, and instrumentality in the executive branch" and inserting in lieu thereof "agency"; and

(2) by striking out "such department, agency, or instrumentality" and inserting in lieu thereof "such agency".

(d) Subsections (d) and (e) of such section are amended to read as follows:

"(d) The Office of Personnel Management shall be responsible for the review and evaluation of the implementation of this section and the activities of each agency to carry out the purpose and provisions of this section. The Office shall periodically obtain (on at least an annual basis) information on the implementation of this section by each agency and on the activities of each agency to carry out the purpose and provisions of this section. The information obtained shall include specification of the use and extent of appointments made by each agency under subsection (b) of this section and the results of the plans required under subsection (c) of this section.

"(e)(1) The Office of Personnel Management shall submit to the Congress annually a report on activities carried out under this section. Each such report shall include the following information with respect to each agency:

"(A) The number of appointments made under subsection (b) of this section since the last such report and the grade levels in which such appointments were made.

"(B) The number of individuals receiving appointments under such subsection whose appointments were converted to career or career conditional appointments, or whose employment under such an appointment has terminated, since the last such report, together with a complete listing of categories of causes of appointment terminations and the number of such individuals whose employment has terminated falling into each such category.

"(C) The number of such terminations since the last such report that were initiated by the agency involved and the number of such terminations since the last such report that were initiated by the individual involved.

"(D) A description of the education and training programs in which individuals appointed under such subsection are participating at the time of such report.

"(2) Information shown for an agency under clauses (A) through (D) of paragraph (1) of this subsection—

"(A) shall be shown for all veterans; and

"(B) shall be shown separately (i) for veterans of the Vietnam era who are entitled to disability compensation under the laws administered by the Veterans' Administration or whose discharge or release from active duty was for a disability incurred or aggravated in line of duty, and (ii) for other veterans.".

EXTENSION OF EMERGENCY VETERANS' JOB TRAINING ACT PROGRAM

SEC. 212. (a) Section 5(b)(3)(A) of the Emergency Veterans' Job Training Act of 1983 (Public Law 98-77; 97 Stat. 445) is amended by striking out "60 days" and inserting in lieu thereof "90 days".

(b) Section 16 of such Act is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1987".

(c) The text of section 17 of such Act is amended to read as follows:

"SEC. 17. Assistance may not be paid to an employer under this Act—

"(1) on behalf of a veteran who initially applies for a program of job training under this Act after February 28, 1985; or

"(2) for any such program which begins after September 1, 1985.".

TITLE III—OTHER BENEFIT RATE INCREASES AND PROGRAM IMPROVEMENTS

VOCATIONAL TRAINING AND HEALTH-CARE ELIGIBILITY PROTECTION FOR PENSION RECIPIENTS

SEC. 301. (a)(1) Subchapter II of chapter 15 is amended by adding at the end the following new sections:

"§ 524. Temporary program of vocational training for certain new pension recipients

"(a)(1) Subject to paragraph (3) of this subsection, in the case of a veteran under the age of 50 who is awarded pension during

the program period, the Administrator shall determine whether the achievement of a vocational goal by the veteran is reasonably feasible. Any such determination shall be made only after evaluation of the veteran's potential for rehabilitation, and any such evaluation shall include a personal interview of the veteran by a Veterans' Administration employee who is trained in vocational counseling. If the veteran fails, for reasons other than those beyond the veteran's control, to participate in the evaluation in the manner required by the Administrator in order to make such determination, the Administrator shall suspend the veteran's pension for the duration of such failure.

"(2) Subject to paragraph (3) of this subsection, if a veteran who is 50 years of age or older and who is awarded pension during the program period applies for vocational training under this section and the Administrator makes a preliminary finding on the basis of information in the application that, with the assistance of a vocational training program under subsection (d) of this section, the veteran has a good potential for achieving employment, the Administrator shall provide the veteran with an evaluation in order to determine whether the achievement of a vocational goal by the veteran is reasonably feasible. Any such evaluation shall include a personal interview by a Veterans' Administration employee trained in vocational counseling.

"(3) Not more than 2,500 veterans may be given evaluations under this subsection during any 12-month period beginning on February 1 of a year.

"(4) For the purposes of this section, the term 'program period' means the period beginning on February 1, 1985, and ending on January 31, 1989.

"(b)(1) If the Administrator, based upon an evaluation under subsection (a) of this section, determines that the achievement of a vocational goal by a veteran is reasonably feasible, the veteran shall be offered and may elect to pursue a vocational training program under this subsection. If the veteran elects to pursue such a program, the program shall be designed in consultation with the veteran in order to meet the veteran's individual needs and shall be set forth in an individualized written plan of vocational rehabilitation of the kind described in section 1507 of this title.

"(2)(A) Subject to subparagraph (B) of this paragraph, a vocational training program under this subsection shall consist of vocationally oriented services and assistance of the kind provided under chapter 31 of this title and such other services and assistance of the kind provided under that chapter as are necessary to enable the veteran to prepare for and participate in vocational training or employment.

"(B) A vocational training program under this subsection—

"(i) may not exceed 24 months unless, based on a determination by the Administrator that an extension is necessary in order for the veteran to achieve a vocational goal identified (before the end of the first 24 months of such program) in the written plan formulated for the veteran, the Administrator grants an extension for a period not to exceed 24 months;

"(ii) may not include the provision of any loan or subsistence allowance or any automobile adaptive equipment of the kind provided under chapter 39 of this title; and

"(iii) may include a program of education at an institution of higher learning (as defined in sections 1652(b) and 1652(f), respectively, of this title) only in a case in which the Administrator determines that the program involved is predominantly vocational in content.

"(3) When a veteran completes a vocational training program under this subsection, the Administrator may provide the veteran with counseling of the kind described in sections 1504(a)(2) of this title, placement and postplacement services of the kind described in section 1504(a)(5) of this title, and training of the kind described in section 1504(a)(6) of this title during a period not to exceed 18 months beginning on the date of such completion.

"(4) A veteran may not begin pursuit of a vocational training program under this subsection after the later of (A) January 31, 1989, or (B) the end of a reasonable period of time, as determined by the Administrator, following either the evaluation of the veteran under subsection (a)(1) of this section or the award of pension to the veteran as described in subsection (a)(2) of this section. Any determination by the Administrator of such a reasonable period of time shall be made pursuant to regulations which the Administrator shall prescribe.

"(c) Notwithstanding subsection (c) of section 525 of this title, a veteran who pursues a vocational training program under subsection (b) of this section shall have the benefit of the provisions of subsection (a) of section 525 of this title beginning at such time as the veteran's entitlement to pension is terminated by reason of income from work or training (as defined in subsection (b) of that section).

"(d) Payments by the Administrator for education, training, and other services and assistance under subsection (b) of this section (other than the services of Veterans' Administration employees) shall be made from the Veterans' Administration appropriations account from which payments for pension are made.

"§ 525. Temporary protection of health-care eligibility

"(a) In the case of a veteran whose entitlement to pension under section 521 of this title is terminated during the program period by reason of income from work or training, the veteran shall retain for a period of three years beginning on the date of such termination all eligibility for care and services under such chapter that the veteran would have had if the veteran's entitlement to pension had not been terminated. Care and services for which such a veteran retains eligibility include, when applicable, drugs and medicines under section 612(h) of this title and special priority with respect to such care and services under section 612(i)(5) of this title.

"(b) For the purposes of this section:

"(1) The term 'terminated by reason of income from work or training' means terminated as a result of the veteran's receipt of earnings from activity performed for remuneration or gain, but only if the veteran's annual income from sources other than such earnings would, taken alone, not result in the termination of the veteran's pension.

"(2) The term 'program period' means the period beginning on February 1, 1985, and ending on January 31, 1989.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 523 the following new items:

"524. Temporary vocational training for certain new pension recipients.
"525. Temporary protection of health-care eligibility.".

(b) Not later than April 15, 1988, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the results of the implementation of sections 524 and 525 of title 38, United States Code (as added by subsection (a)(1)), during the period beginning on February 1, 1985, and ending on January 31, 1988. The report shall include—

(1) information regarding—

(A) the number of veterans who during the period covered by the report were provided with evaluations under paragraphs (1) and (2) of subsection (a) of such section 524,

(B) the number of such veterans for whom a vocational goal was determined to be feasible,

(C) the number of such veterans who elected, and who did not elect, to pursue a vocational training program under subsection (b) of that section,

(D) the extent to which those veterans who elected to pursue such a program completed the program,

(E) the subsequent work and pension-eligibility experience of the veterans who were provided with such evaluations, shown according to their participation in and completion of vocational training programs, and

(F) the number of veterans who received the benefit of such section 525;

(2) a tabulation of the reasons given by such veterans for not electing to pursue such a program by those for whom a vocational goal was determined to be reasonably feasible but who did not elect to pursue such program; and

(3) the Administrator's assessment of the value (including the cost-effectiveness) and effect of such implementation and any recommendations of the Administrator for administrative and legislative action based on such results and assessment.

REPORT ON MEDICAL EXAMINATIONS OF CERTAIN PENSION RECIPIENTS

SEC. 302. (a) Not later than 28 months after the date of the enactment of this Act, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report containing a statistical tabulation of the results of the medical examinations conducted under subsection (b)(1)(A) and the determinations made under subsection (b)(1)(B).

(b)(1) The Administrator—

(A) shall provide for the selection of a sampling of the class of pension recipients described in paragraph (3) to undergo, and each recipient in such sampling shall undergo, a medical examination of the kind provided a veteran under 65 years of age who is applying for pension under section 521 of title 38, United States Code; and

(B) shall determine what, if any, percentage rating would be applicable to the recipient under the schedule of ratings adopted pursuant to section 355 of such title.

(2) The sampling of pension recipients selected under paragraph (1)(A) shall be selected in a manner that is statistically valid for the purpose of estimating the disability ratings of all recipients in the class described in paragraph (3).

(3) The class of pension recipients referred to in paragraphs (1) and (2) are those individuals who, during the two-year period beginning on the date of the enactment of this Act, are awarded pension under section 521 of title 38, United States Code, by reason of being considered, under section 502(a) of such title, to be permanently and

totally disabled by reason of being 65 years of age or older or becoming unemployable after age 65.

PARTICIPATION IN THERAPEUTIC OR REHABILITATIVE ACTIVITIES

SEC. 303. Section 618 is amended by adding at the end the following new subsection:

"(f) Neither a veteran's participation in an activity carried out under this section nor a veteran's receipt of remuneration as a result of such participation may be considered as a basis for the denial or discontinuance of a rating of total disability for purposes of compensation or pension based on the veteran's inability to secure or follow a substantially gainful occupation as a result of disability.".

SPECIALLY ADAPTED HOUSING ASSISTANCE

SEC. 304. (a) Section 802 is amended—

(1) in subsection (a), by striking out "$32,500" and inserting in lieu thereof "$35,500"; and

(2) in subsection (b), by striking out "$5,000" and inserting in lieu thereof "$6,000".

(b) The amendments made by subsection (a) shall take effect on January 1, 1985.

AUTOMOBILE AND ADAPTIVE EQUIPMENT ASSISTANCE

SEC. 305. (a) Section 1902(a) is amended by striking out "$4,400" and inserting in lieu thereof "$5,000".

(b) Subsection (c) of section 1903 is amended to read as follows:

"(c)(1) An eligible person shall not be entitled to adaptive equipment under this chapter for more than two automobiles or other conveyances at any one time or (except as provided in paragraph (2) of this subsection) during any four-year period.

"(2) In a case in which the four-year limitation in paragraph (1) of this subsection precludes an eligible person from being entitled to adaptive equipment under this chapter, if the Administrator determines that, due to circumstances beyond the control of such person, one of the automobiles or other conveyances for which adaptive equipment was provided to such person during the applicable four-year period is no longer available for the use of such person, the Administrator may provide adaptive equipment to such person for an additional automobile or other conveyance during such period. Provision of adaptive equipment under this paragraph is within the discretion of the Administrator. Any action to provide adaptive equipment under this paragraph shall be made pursuant to regulations which the Administrator shall prescribe.".

(c)(1) The amendments made by this section shall take effect on January 1, 1985.

(2) In the case of a person who during the four-year period ending on December 31, 1984, was provided adaptive equipment under chapter 39 of title 38, United States Code, for an automobile or other conveyance and who has such automobile or other conveyance available for use on the date of the enactment of this Act, the first four-year period applicable to such person under subsection (c) of section 1903 of such title (as amended by subsection (a)) shall begin on the most recent date before January 1, 1985, on which such person was provided such equipment.

TITLE IV—MISCELLANEOUS PROVISIONS

REPEAL OF ANNUAL REPORTING REQUIREMENT

SEC. 401. Section 1796 is amended by striking out subsection (d).

SUSPENSION OF COMPENSATION AND PENSION PAYMENTS TO CERTAIN INSTITUTIONALIZED VETERANS; WAIVER

SEC. 402. (a) Section 3203(b)(1) is amended—

(1) by designating the first and second sentences as subparagraphs (A) and (B), respectively;

(2) in subparagraph (A), as so designated—

(A) by striking out the comma after "treatment" in the first sentence and inserting in lieu thereof "or";

(B) by striking out "by reason of mental illness"; and

(C) by inserting "(excluding the value of the veteran's home unless there is no reasonable likelihood that the veteran will again reside in such home)," after "the veteran's estate"; and

(3) by adding at the end the following new subparagraph:

"(C) The Administrator may waive the discontinuance under this paragraph of payments to a veteran with respect to not more than 60 days of care of the veteran during any calendar year if the Administrator determines that the waiver is necessary in order to avoid a hardship for the veteran. Any such waiver shall be made pursuant to regulations which the Administrator shall prescribe.".

(b) The Administrator shall prescribe regulations under subparagraph (C) of section 3203(b)(1) of title 38, United States Code (as added by subsection (a)), not later than 60 days after the date of the enactment of this Act.

In lieu of the Senate amendment to the title of the bill, amend the title so as to read: "An Act to amend title 38, United States Code, to increase the rates of disability compensation for disabled veterans and of dependency and indemnity compensation for surviving spouses and children of veterans, to increase the rates of subsistence and educational assistance allowances for veterans pursuing vocational rehabilitation programs under chapter 31 of such title and for veterans and eligible persons pursuing programs of education or training under chapter 34, 35, or 36 of such title, to increase the opportunities for vocational rehabilitation of certain veterans receiving disability compensation, and to provide vocational training opportunities for certain veterans receiving pension; and for other purposes.".

Mr. MONTGOMERY (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments and the proposed House amendments to the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, I yield to the distinguished chairman of the Veterans' Affairs Committee to explain his request.

Mr. MONTGOMERY. Mr. Speaker, the proposed House amendments reflect agreement with the other body on two House-passed bills, H.R. 5398, Veterans' Education and Employment Amendments of 1984, and H.R. 5688, Veterans' Compensation Amendments for Fiscal Year 1985.

I will only take time to outline some of the major provisions of the agreement reached with the other body. The agreement would provide for a 3.2-percent cost-of-living increase in the rates of compensation paid to service-connected disabled veterans and to their eligible dependents effective December 1, 1984. The increase is in accordance with the assumptions contained in the first concurrent budget resolution for fiscal year 1985 approved by the Congress.

The agreement would establish a 4-year pilot program to provide education and training for younger veterans eligible for pension benefits. The committee believes that by providing education and training assistance for vocational purposes we will be able to place some of the younger veterans drawing pension off the pension rolls and back into productive jobs, thus resulting in savings to the Federal Government.

The agreement would also establish a 4-year trial work period for certain 100 percent service-connected disabled veterans who may, with additional education and training assistance, be able to obtain meaningful jobs.

The agreement would increased the specially adapted housing grant from $32,500 to $35,500 effective January 1, 1985, and would increase the automobile adaptive equipment grant from $4,400 to $5,000 effective January 1, 1985. These two special grants are for severely disabled service-connected veterans.

In addition to the agreement reached with the other body on the House-passed compensation bill (H.R. 5688) the proposed amendments also include agreement on education, training and employment provisions contained in H.R. 5398, the Veterans' Education and Employment Amendments of 1984, which passed the House by voice vote on August 6, 1984. I would like to make particular note of certain provisions of the proposed amendments.

The agreement contains a 10-percent increase in the rate of benefits paid to veterans and eligible dependents going to school under the GI bill, and the vocational rehabilitation program, effective October 1, 1984. We had to agree to the 10-percent increase provided in the Senate bill in order to reach agreement on the total package.

The agreement would also make several improvements in the veterans readjustment appointment [VRA] program. First, it would extend by 2 years this very successful program which has allowed for the noncompetitive appointment to Federal civilian jobs of over 200,000 Vietnam era veterans. The House-passed bill would eliminate the 14 year restriction under current law for nondisabled veterans who participate in the program, recognizing that most Vietnam era veterans have pursued further education since leaving service. Eliminating the education

provision does not mean that Vietnam veterans with less than 14 years of education would have been denied jobs. Lifting the restriction means that we recognize many Vietnam veterans have gone on to school following discharge from service, and are now seeking employment in higher level entry positions. We believe we should open up the program so that more Vietnam veterans are eligible to participate. The House-passed bill would also increase the maximum grade level for appointments from GS-7 to GS-11.

The Senate amendments differed significantly from those passed by the House. The other body provided for only a 1 year extension of the program; refused to change the current grade level of appointees from GS-7 and the 14 year education restriction. We were disappointed, Mr. Speaker, that the other body was not willing to agree to all of the provisions of the House-passed bill. With the high unemployment rate of Vietnam era veterans and disabled veterans, I see no reason why we should not do everything we can to get more of them into jobs. The restrictions insisted upon by the other body will exclude many veterans who would otherwise be eligible to obtain employment during the next fiscal year.

We feel strongly, therefore, that additional improvements must be made in the VRA program in order to maximize employment opportunities for Vietnam era veterans, and we plan to pursue these issues again in the next Congress.

The agreement would make improvements in the Emergency Veterans' Job Training Act of 1983, Public Law 98-77. This program got off to a slow start with high veteran interest and participation but very disappointing employer response. Oversight hearings held by the Subcommittee on Education, Training and Employment pinpointed changes that would increase the effectiveness of the program and these were reflected in H.R. 5398, the House-passed bill. First, the House bill would extend from 60 to 90 days the life of a certificate of eligibility furnished to a veteran for the program, thereby relieving a substantial processing burden for the VA and providing more time for veterans to use the certificate. The compromise reached with the other body includes this provision. The House-passed bill would also extend to May 29, 1985, the date which a veteran may apply for participation under Public Law 98-77, and to September 1, 1985, the date by which a veteran must begin an on-the-job training program. The committee feels strongly that because of the slow startup of the program, more time is needed to promote the program and encourage more employer participation. We are also seriously considering amendments to the veteran eligibility requirements and would like to keep the program open to new veterans to allow for these changes. The other body, however, provided only for an extension of the date by which a veteran must begin a training program, thus excluding any new veteran entrants into the program after November 28, 1984. The compromise agreement allows for a 3-month extension, through February 28, 1985, of the date by which a veteran must apply for participation. Our committee will review this in the next Congress and seek a further extension if necessary.

Mr. Speaker, let me specifically comment on those provisions contained in the House-passed bills that were deleted by the other body. Under the House-passed bill the Veterans' Administration would have been required to place upright markers at all graves of veterans and eligible dependents buried in national cemeteries, unless the family of the deceased veteran specifically requested that a flat marker be placed at the gravesite. This provision was supported unanimously by the Veterans' Affairs Committee of the House for several reasons. First, in the Snow Belt areas of the country it is most difficult for families to locate a veteran's grave when there is even a slight snowfall. It presents many difficulties for loved ones to visit graves in these areas of the country.

The administration opposed this provision of the House-passed bill because, as a VA spokesman testified, "Additional maintenance costs over the next 5 years would exceed $700,000." The cost factor is not a valid reason to oppose the placing of upright markers in our national cemeteries. I believe in saving money, and I have provided leadership to bring about savings in various veterans benefit programs since assuming the chairmanship of the committee; however, I strongly believe that if a few dollars more are required to provide and maintain upright markers in cemeteries in lieu of flat markers, we should not quibble over the slight additional cost.

Recently, I led a House congressional delegation to Normandy on the 40th anniversary of D-day. We were very moved by the panoramic sight of row upon row of crosses marking the burial places of the brave men who died while fighting for the freedom of our country and for the freedom of our European allies.

I don't think anyone will dispute the fact that uniform upright markers are much preferred over flat markers in graves honoring our Nation's war dead. I regret the other body would not yield on this issue.

In discussing this matter with the other body it is understood that hearings will be held by both committees next year and we will ask the Veterans' Administration to give the committees better cost data than it previously submitted to the two committees. Given the feeling of the House I think it is predictable that this provision will be on our legislative agenda again next year.

Mr. Speaker, I also regret that the other body did not see fit to accept another provision contained in the House bill that would have increased the maximum amount of coverage under the Servicemen's Group Life Insurance program [SGLI] from $35,000 to $50,000. The Senate amendment did contain a provision to increase the SGLI benefit; however it would have only allowed those individuals who served on active duty—or in a reserve component—for 5 years to elect an additional amount of coverage up to a maximum amount of $50,000. We found ourselves in a position of having to accept a restriction placed in the bill by the other body which was, in our view, inequitable. Younger veterans would have been limited to $35,000 of insurance while those who served on active duty 5 or more years could have elected an additional amount of coverage up to $50,000. I think all of our men and women on active duty should be treated equally; therefore, we could not accept the version passed by the other body and the other body was unable to accept the more liberal House-passed provision.

I assure my colleagues we will be reviewing this question again next year as we plan our legislative agenda for the first session of the 99th Congress.

Mr. Speaker, notwithstanding my strong personal feelings on these two issues, I think the compromise agreement, on balance, is reasonable.

Again, I want to thank my colleague, the gentleman from Arkansas, Mr. HAMMERSCHMIDT, the ranking minority member of the committee; the gentleman from Ohio, Mr. APPLEGATE, the chairman of the Subcommittee on Compensation, Pension and Insurance; the gentleman from Texas, Mr. LEATH, chairman of the Subcommittee on Education, Training and Employment; the gentleman from Ohio, Mr. MCEWEN, the ranking minority member of the Subcommittee on Compensation, Pension and Insurance; the gentleman from New York, Mr. SOLOMON, the ranking minority member of the Subcommittee on Education, Training and Employment and other members of the two subcommittees who worked diligently in helping resolve these issues. Obtaining agreement with the other body was a major effort on the part of everyone involved.

Finally, Mr. Speaker, I want to thank the distinguished chairman of the Senate Veterans' Affairs Committee, Senator SIMPSON, and the very able ranking minority member of the

Senate committee, Senator CRANSTON, for their usual cooperation and understanding. It is always a pleasure to work with these two outstanding members of the other body. I am grateful for the support I received from each of them and from members of their staffs.

There follows a detailed explanation of the differences between the House bill, the Senate amendment and the compromise agreement:

EXPLANATORY STATEMENT OF HOUSE BILL (H.R. 5688), SENATE AMENDMENT (S. 2736), AND COMPROMISE AGREEMENT ON H.R. 5688, THE VETERANS' BENEFITS IMPROVEMENT ACT OF 1984

This document explains the provisions of H.R. 5688 as passed by the House of Representatives (hereinafter referred to as the "House bill"), the provisions of the Senate amendment in the nature of a substitute to the House bill as passed by the Senate (hereinafter referred to as the "Senate amendment"), and the provisions of a compromise on H.R. 5688 as agreed to by the Veterans' Affairs Committees of the House and Senate. The differences between the House bill, the Senate amendment, and the compromise agreement are noted below, except for clerical corrections, conforming changes made necessary by agreements reached between the committees, and minor drafting, technical, and clarifying changes.

TITLE I—DISABILITY COMPENSATION AND DEPENDENCY AND INDEMNITY COMPENSATION

PART A—RATE INCREASES

DISABILITY COMPENSATION

Both the House bill (sections 101 through 103) and the Senate amendment (sections 101 through 103) would amend chapter 11 of title 38, United States Code, relating to compensation for service-connected disability or death, to increase, effective December 1, 1984, the basic rates of service-connected disability compensation for veterans, the rates payable for certain severe disabilities, the dependents' allowances payable to veterans rated 30-percent or more disabled, and the annual clothing allowance for certain disabled veterans. The House bill would increase such rates and allowances by 4.3 percent and the Senate amendment (subject to the alternative-rate-increase provision set forth in section 108 of the Senate amendment, discussed below), by 4.7 percent, with increases rounded to the nearest dollar.

The compromise agreement (sections 101 through 103) would amend chapter 11 to increase, effective December 1, 1984, such rates and allowances by 3.2 percent, with increases rounded to the nearest dollar.

The committees note that this increase is in accordance with the Congressional Budget Office's most recent (August 1984) economic assumption relating to the anticipated increase in the Consumer Price Index from the third quarter of fiscal year 1983 through the third quarter of fiscal year 1984 and the assumptions underlying the First Concurrent Budget Resolution for fiscal year 1985, as approved by the Congress on October 1, 1984.

DEPENDENCY AND INDEMNITY COMPENSATION

Both the House bill (sections 104 through 105) and the Senate amendment (sections 104 through 106) would amend chapter 13 of title 38, relating to dependency and indemnity compensation for service-connected deaths, to increase, effective December 1, 1984, rates of dependency and indemnity compensation (DIC) payable to the surviving spouses and children of veterans whose deaths were service connected. The House bill would increase such rates by 4.3 percent and the Senate amendment (subject to the alternative-rate-increase provision set forth in section 108 of the Senate amendment, discussed below), by 4.7 percent, with increases rounded to the nearest dollar.

The compromise agreement (sections 104 through 106) would amend chapter 13 to increase, effective December 1, 1984, such rates by 3.2 percent, with increases rounded to the nearest dollar.

The justification for this percentage increase is discussed above in connection with the increase provided in disability compensation.

ALTERNATIVE RATE INCREASES

The Senate amendment (section 108), but not the House bill, would provide that, if the December 1984 increase under the Social Security Act is not 4.7 percent, the Administrator for Veterans' Affairs would compute and pay, effective December 1, 1984, in lieu of the 4.7-percent rate increases, alternative increases at the same percentage as rates increased under the Social Security Act.

The compromise agreement does not contain this provision.

PART B—COMPENSATION PROGRAM AMENDMENTS

The House bill (section 111(a)), but not the Senate amendment would amend section 301(3) of title 38, relating to the definition of "chronic diseases" for purposes of service-connected disability compensation, to include in the definition of that term lupus erythematosus, systemic (SLE).

The compromise agreement does not contain this provision.

The committees note that the absence of the provision in the compromise agreement in no way indicates any intent that the VA alter the manner in which SLE is currently evaluated and adjudicated for pruposes of compensation.

MANIFESTATION OF DISEASES

The House bill (section 111(b)), but not the Senate amendment, would amend section 312 of title 38, relating to presumptions with respect to certain diseases and disabilities, to remove the references "to a degree of 10 percentum or more" and "or aggravated by". The removal of the phrase "to a degree of 10 percentum or more" would remove the requirement that the diseases by manifested to a specific minimum measurable degree of disability during the prescribed postservice period and would require only that the disease be shown to exist during those periods. A technical change would eliminate the phrase "or aggravated by" from section 312.

The compromise agreement does not contain these provisions.

TRIAL WORK PERIOD AND VOCATIONAL REHABILITATION PILOT PROJECT

The Senate amendment (section 110), but not the House bill, would further amend chapter 11 of title 38 to establish a 3-year trial work pilot program (which the Administrator could extend to 4 years) for veterans whose service-connected disabilities are rated less than totally disabling but who are assigned service-connected total disability ratings by reason of individual determinations of unemployability ("IU ratings") during the program. Under the pilot program, a veteran with an IU rating would have the opportunity to participate in one 12-month trial work period and would be eligible for certain counseling and placement services. Also, if the veteran were to work after completion of a trial work period and lose the IU rating, the rating would be automatically restored—subject to immediate review—if, in any month during the 12-month period following the veteran's trial work period, the veteran's employment earnings fell below $300. In addition, all veterans with IU ratings would be provided with eligibility for certain counseling, placement, and postplacement services under chapter 31 regardless of whether they are pursuing a chapter 31 program. Not later than 39 months after the pilot program went into effect, the Administrator would be required to report on the results of the first 3 years' experience under the pilot program.

In a free-standing provision of law, the Administrator would be required to provide all IU-rated veterans with information regarding the trial work period and chapter 31.

The Senate amendment would further amend chapter 11 of title 38 to provide that each veteran receiving an IU rating after the fourth full month followng the date of enactment undergo a vocational rehabilitation evaluation under chapter 31 of title 38, if eligible therefor, and pursue a VA vocational rehabilitation progrm if one is developed. In the case of a veteran with such a new IU rating who failed to comply with requirement to participate in the evaluation or the rehabilitation program, the Administrator would be required to provide for a review of the veteran's eligibility for that rating and for the veteran's noncompliance to be considered as part of the review.

The compromise agreement (section 111) contains provisions, derived from these provisions, to add a new section 363, "Temporary program for trial work periods and vocational rehabilitation for certain veterans with total disability ratings", to title 38, to establish a 4-year program—from Fedruayr 1, 1985, through January 31, 1989—providing certain protection for the IU ratings of veterans who wish to try to return to work. Under the compromise agreement, a veteran with and IU rating who regains employment during the 4-year period would not, as a result of doing so, be determined to have regained the ability to follow "a substantially gainful occupation" (the standand used in VA regulations, 38 C.F.R. § 4.16, for deciding whether the veteran is or is not entitled to an IU rating) unless the veteran has maintained that employment for at least 12 consecutive months.

The compromise agreement contains the provisions making counseling, placement, and postplacement services available to all IU-rated veterans and notification provisions requiring that IU-rated veterans be advised about the provisions of the compromise agreement affecting them and about the chapter 31 vocational rehabilitation program.

Regarding new recipients of IU ratings undergoing vocational rehabilitation evaluations, the compromise agreement would establish a program applicable to veterans who receive such ratings during the 4-year period beginning February 1, 1985, and ending January 31, 1989. Under this program, after the Administrator provides the veteran with notice of the IU-rating award and the requirement that the veteran undergo a vocational rehabilitation evaluation, the Administrator, in order to determine

whether achievement of a vocational goal is reasonable feasible, would be required to arrange promptly for a chapter 31 evaluation (to be conducted by a VA employee trained in vocational counseling) and notify the veteran of the schedule for it. Failure of the veteran, for reasons other than those beyond the veteran's control, to participate in the evaluation would result in suspension of the veteran's IU rating for the duration of the failure. If a chapter 31 vocational rehabilitation program is developed for the veteran and the veteran fails to pursue it, the Administrator would notify the veteran that, if for reasons other than those beyond the veteran's control, the veteran were to fail to begin or resume pursuit of the program within 60 days (or within any longer period the Administrator determines is the shortest period within which it would be reasonable feasible for the veteran to begin or resume pursuit), the Administrator would provide for the veteran's evaluation results to be considered in the next scheduled review of the veteran's IU-rating eligibility. If the veteran failed to begin or resume pursuit, the Administrator would be required to provide for the results to be so considered. These provisions would not apply to veterans for whom the Administrator determines that participation in evaluation or achievement of a vocational goal is not feasible.

Not later than April 15, 1988, the Administrator would be required to submit to the committees a report on the first 3 years' experience under this new section of title 38 with particular reference to the program's cost-effectiveness and the extent to which the new provisions contribute to veterans becoming employable and employed.

The committees anticipate that the Administrator, in order to meet the April 15 reporting deadline, will begin preparation of the report well in advance of the end of the first 3 years of the program.

The committees also note that, under current VA procedures, set forth in the Department of Veterans' Benefits Adjudication Procedure Manual (M 21-1, paragraph 55.08), veterans with IU ratings are required to provide annually information regarding their employment. The committees approve of this procedure and note that the compromise agreement provisions relating to veterans with these ratings are designed to fit in with this procedure. Thus, if the Administrator ever intends to eliminate or modify this procedure, the committees direct the Administrator to provide them with reasonable notice of the intention to do so.

TECHNICAL AMENDMENT

The House bill (section 112), but not the Senate amendment, would amend section 335 of title 38, relating to dependents allowances for veterans receiving compensation as a result of a disability incurred or aggravated during peacetime service, to make a technical, conforming change to clarify the VA's authority to continue to pay such allowances to such veterans in the same manner that they are paid to veterans with disabilities incurred or aggravated during wartime service.

The compromise agreement (section 112) contains this provision.

TITLE II—VETERANS' REHABILITATION, EDUCATION, AND EMPLOYMENT PROGRAMS

PART A—RATE INCREASES

The Senate amendment (sections 201 through 205) and sections 101 through 103 of H.R. 5398 as passed by the House on August 6, 1984 (hereinafter referred to as H.R. 5398), would amend chapters 31, 34, 35, and 36 of title 38, United States Code, relating to certain rehabilitation and education programs, to increase rates of all VA education programs, including rehabilitation subsistence allowances for veterans with service-connected disabilities; educational assistance allowances and special supplementary (tutorial) assistance for eligible veterans; training assistance allowances for apprenticeship and other on-job training; and educational assistance and special training allowances for eligible survivors and dependents. The House bill would increase such rates and allowances by 15 percent, effective January 1, 1985, and the Senate amendment by 10 percent, effective October 1, 1984.

The compromise agreement contains the Senate provision.

The Senate amendment, but not the House bill nor H.R. 5398, would amend section 1784(c) of title 38, relating to reporting fees paid to educational institutions to defray the costs to them of reports and certifications required by the VA, to increase the amounts of such fees from $7 to $9 annually for each eligible veteran or eligible person enrolled at an educational institution under chapter 34 or 35 or from $11 to $13 annually for each enrollee receiving advance payment of educational assistance allowances.

The compromise agreement does not contain this provision.

H.R. 5398 (section 101(c)(1)), but not the Senate amendment, would amend section 1774(b) of title 38, relating to reimbursement of expenses to State approving agencies, to increase the allowances for administrative expenses by 15 percent, effective January 1, 1985.

The compromise agreement does not contain this provision.

PART B—VETERANS' EMPLOYMENT PROGRAMS

EXTENSION AND REVISION OF VETERANS READJUSTMENT APPOINTMENTS

Both the Senate amendment (section 301) and H.R. 5398 (section 201) would amend section 2014(b) of title 38, relating to the authority for veterans readjustment appointments, to extend the authority. H.R. 5398 would extend the authority for 3 years, until September 30, 1987, and the Senate amendment for 1 year, until September 30, 1985. Further, H.R. 5398, but not the Senate amendment, would raise the maximum grade level at which appointments may be made from GS-7 to GS-11 and remove the requirement that nonservice-connected disabled Vietnam-era veterans be educationally disadvantaged in order to be eligible for a veterans readjustment appointment. Finally, both the Senate amendment and H.R. 5398 would provide limited appeal rights during the first year of an appointment and provide for annual, instead of semiannual, reports on the program. H.R. 5398 would, in addition, make technical changes in the reporting requirement in order to reflect more accurately how the system of obtaining the information for the report operates in practice.

The compromise agreement (section 211) would extend the veterans readjustment appointment authority for 2 years, until September 30, 1986; raise to GS-9 the maximum grade level at which appointments may be made; provide limited appeal rights; and require an annual, rather than semiannual, report (incorporating the technical changes proposed in H.R. 5398).

EXTENSION OF EMERGENCY VETERANS' JOB TRAINING ACT

Both the Senate amendment (section 302) and H.R. 5398 (section 301) would amend the Emergency Veterans' Job Training Act of 1983, Public Law 98-77, to extend by 6 months, until September 1, 1985, the date by which veterans previously certified must commence a training program under that Act and to extend to 90 days the lifetime of certifications of eligibility furnished to veterans under the Act. In addition, H.R. 5398, but not the Senate amendment, would extend by 6 months, until May 29, 1985, the date by which veterans may apply to participate in the program. Finally, the Senate amendment, but not H.R. 5398, would extend the availability of appropriated funds under the program for one year.

The compromise agreement (section 212) incorporates both the House and Senate provisions except that the application date deadline is extended for 3 months, through February 28, 1985.

OTHER EDUCATION PROVISIONS

The Senate amendment (section 210), but neither the House bill nor H.R. 5398, would amend certain provisions of chapters 31, 34, and 35 of title 38, relating to time limits for completion of programs of education or training, to toll the eligibility period for GI bill and certain other educational benefits and vocational rehabilitation programs for certain veterans and eligible persons who have been prevented from participating in such programs because of alcohol or drug dependence or abuse. In the case of a veteran with a general discharge, an individual determination that the discharge was under conditions other than dishonorable would be required.

The compromise agreement does not contain this provision.

The Senate amendment (section 211), but neither the House bill nor H.R. 5398, would amend section 1796 of title 38, relating to limitations on certain advertising, sales, and enrollment practices, to repeal a Veterans' Administration reporting requirement pertaining to deceptive advertising practices by educational institutions.

The compromise agreement (section 401) contains this provision.

The committees expect the Administrator to continue to monitor closely advertisement practices by educational institutions enrolling GI bill trainees and to keep the committees fully informed about any significant developments relating to deceptive advertising practices by such institutions.

The Senate amendment (section 212), but neither the House bill nor H.R. 5398, would require the Administrator to consult with the VA's educational advisory committee (established pursuant to section 1792 of title 38) prior to changing any requirements for educational institutions to report enrollments of GI Bill trainees.

The compromise agreement does not contain this provision.

The committees note that they do not believe that a statutory requirement is needed to bring about the consultation sought by the Senate amendment, since this is the purpose for which Congress established the advisory committee.

TITLE III—OTHER BENEFIT RATE INCREASES AND PROGRAM IMPROVEMENTS

VOCATIONAL TRAINING AND HEALTH CARE ELIGIBILITY PROTECTION FOR PENSION RECIPIENTS

Both the House bill (section 202) and the Senate amendment (section 401) contain provisions that would amend chapter 15 of title 38, relating to VA need-based pension programs for permanently and totally disabled elderly wartime veterans and for survivors of wartime veterans, to establish temporary programs designed to help enable certain disabled veteran-pensioners to return to work.

The House bill would establish a 5-year program of vocational training for disabled veterans under age 50 who are newly found to be entitled to pension. Under the House bill, the Administrator would be required to determine, after a personal interview of the veteran by a VA employee trained in vocational counseling, whether the achievement of a vocational goal by the veteran is reasonably feasible. Failure of the veteran to participate as required by the Administrator in order to make the determination would result in suspension of the veteran's pension until the required participation was completed. If achievement of a vocational goal were determined to be reasonably feasible, the veteran could elect to undertake a program of vocational training that would be carried out as a vocational rehabilitation program under chapter 31 of title 38 but would not include any chapter 31 loans or subsistence allowances. Such a program could not exceed 48 months, and following completion of the program the veteran would be eligible for certain chapter 31 counseling, placement, and postplacement services for up to 18 months. Also, in the case of a veteran who is permanently housebound or in need of regular aid and attendance, who has completed a vocational training program under these provisions, and whose pension was thereafter terminated solely because the veteran's annual income exceeded the applicable maximum limitation, the veteran's eligibility for drugs and medicine under section 612(h) of title 38 would be continued for 1 year after pension termination.

The Senate amendment would establish a 3-year pilot program (which the Administrator could extend to 4 years) to allow any permanently and totally disabled veteran pension recipient to participate in a 36-month period of trial work. Any work performed by the veteran during that period could not be taken into account in any review of the veteran's ability to secure and follow a substantially gainful occupation. Veterans participating in the program would retain their pension-based VA health care eligiblity during their trial work periods even if their pensions were terminated as a result of their work income. Also, a veteran whose pension was terminated due to income derived from participation in a VA or State vocational rehabilitation program would have an additional 12-month eligiblity period for VA health care services. All income received from employment during the trial work period, with the exception of certain subsistence allowances associated with vocational rehabilitation programs, would be counted in determining the veteran's income for pension purposes. The Administrator would be required to report on the results of the pilot program's first 3 years of implementation not later than 39 months after its effective date.

The compromise agreement (section 301) contains provisions derived from these provisions to add new sections 524, "Temporary program of vocational training for certain new pension recipients", and 525, "Temporary protection of certain health care eligibility", establishing a 4-year—February 1, 1985, through February 28, 1989—program providing for vocational training and VA health care eligibility protection for permanently and totally disabled veterans receiving awards of VA pension during that period. Under the compromise agreement, a veteran under age 50 who is found to be entitled to pension would be required to undergo evaluation, as under the House bill, to determine whether a vocational goal is reasonably feasible. Failure to participate in the evaluation as required would result in suspension of the veteran's pension if the failure were for reasons other than those beyond the veteran's control. If a vocational goal were determined to be reasonably feasible, the veteran would be eligible for vocational training. New recipients of pension who are 50 years of age or older would be permitted to apply for vocational training under this program. If the Administrator finds that information on the veteran's application shows a good potential for achieving a vocational goal, the age 50-and-over veteran would be given an evaluation and would be eligible for vocational training under this program if the evaluation indicates that achievement of a vocational goal is reasonably feasible.

For a veteran who elects to pursue vocational training under this program the training would consist of vocationally oriented rehabilitation services and assistance of the kind provided under chapter 31 and only such other services and assistance of the kind provided under that chapter as are necessary for the veteran to prepare for and pursue vocational training or employment. The compromise agreement would provide that vocational training programs under the program are to be designed to emphasize, whenever appropriate, workplace training and workplace-adjustment counseling during such training. However, no loans or allowances and no automobile adaptive equipment could be provided, and a program of education at an institution of higher learning could be provided only if the program were predominantly vocational in content. A vocational training program for a veteran would be limited to 24 months unless the Administrator were to grant an extension of up to 24 months based on a determination that the extension was necessary in order for the veteran to achieve a vocational goal that was identified during the first 24 months in the veteran's written plan of vocational rehabilitation. The deadline for initiating pursuit of vocational training under this program would be the later of January 31, 1989, or the expiration of a reasonable time (to be determined under regulations to be prescribed by the Administrator) after the evaluation of a veteran under age 50 or the award of pension to a veteran age 50 or over, as the case may be. The compromise agreement would limit to 2,500 the number of veterans who could participate in evaluation under the temporary program during each 12-month period.

Following the veteran's completion of a vocational training program, the veteran would be eligible for certain follow-up services for a period not to exceed 18 months. Payments for all services and assistance under this program (other than the services of VA employees) would be made from the VA appropriations account from which pensions are paid. Also, in the case of a veteran who enters vocational training under the new program and who thereafter loses entitlement to pension because his or her work income causes the annual income limitation applicable to him or her to be exceeded, the veteran's VA health care eligibility (including any applicable priority) would be preserved for the 3-year period following the date on which his or her pension is terminated.

In addition, under the Senate amendment, the same health care protection for the same duration would be provided for any veteran whose pension is terminated, during the period of February 1, 1985, through January 31, 1989, because the veteran's work income caused the applicable income limitation to be exceeded. The provision in the Senate amendment that training allowances received by a veteran during the trial work period not be counted for pension purposes is not included in the compromise agreement.

Not later than April 15, 1988, the Administrator would be required to submit to the committees a report with particular reference to the program's cost effectiveness and the extent to which the new provisions contribute to veterans becoming employable and employed.

The committees anticipate that the Administrator, in order to meet the April 15 reporting deadline, will begin preparation of the report well in advance of the end of the first 3 years of the program.

The committees note that this new temporary vocational training program is intended to have a vocational and employment focus. In that regard, only where necessary to enable a catastrophically disabled veteran to participate in training or employment, services and assistance under this program should be provided to the veteran in order to help the veteran overcome problems in daily living. It is the committees' intention that vocational training programs under this program be designed to emphasize, whenever appropriate, workplace training, personnel-adjustment counseling, and work-adjustment training.

The committees also note that, since rehabilitation services and assistance would be provided under subsection (b) of the new section 525 of title 38—and not under chapter 31 of title 38—an injury suffered by a veteran as a result of pursuit of vocational—training under this program would not be a basis—as it would if it were suffered under chapter 31—for an award of compensation under section 351 of title 38 or for health care eligibility under section 610(a)(3) of title 38.

REPORT ON MEDICAL EXAMINATIONS OF CERTAIN PENSION RECIPIENTS

The Senate amendment (section 402), but not the House bill, for the purpose of determining the actual percentage disability ratings of certain VA pension recipients, would require the administrator to prepare and submit a report on the results of conducting, during the 2-year period following the enactment date, medical examinations of veterans awarded VA pension based on their being age 65 or older.

The compromise agreement (section 302) would require that the Administrator, not later than 28 months following the date of enactment, submit to the committees a report on the results of medical examinations given to a statistically valid sampling of these veterans.

PARTICIPATION IN THERAPEUTIC OR REHABILITATIVE ACTIVITIES

The Senate amendment (section 602 (a), (b), and (c)), but not the House bill, would require the VA to conduct a 39-month demonstration project (and submit by February 1, 1987, a report on the first 2 years' experience) under which the income received by veterans for their participation in VA incentive-therapy and compensated-work-therapy programs would not be counted as income for the purpose of VA pension programs.

The compromise agreement does not contain this provision.

The Senate amendment (section 602(d)), but not the House bill, would amend section 618 of title 38, relating to therapeutic and rehabilitation activities, to specify that a veteran's participation in a VA incentive-therapy or compensated-work-therapy program will not be considered a basis for denying or discontinuing a total diability rating for VA compensation or pension purposes.

The compromise agreement (section 303) contains this provision.

INCREASES IN MAXIMUM AMOUNTS OF SERVICEMEN'S GROUP LIFE INSURANCE

Both the House bill (section 203) and the Senate amendment (section 504) would amend section 767 of title 38, relating to persons insured and maximum amounts of life insurance coverage available under the Servicemen's Group Life Insurance [SGLI] program. The House bill would, effective October 1, 1984, increase the maximum amount of coverage from $35,000 to $50,000. The Senate amendment would, effective January 1, 1985, permit individuals insured under SGLI and who have served on active duty (or in a reserve component) for a minimum of 5 years to elect an additional amount of coverage (in multiples of $5,000) up to a maximum amount of $50,000 in total coverage.

The compromise agreement contains neither provision.

SPECIALLY ADAPTED HOUSING ASSISTANCE

The Senate amendment (section 501) and section 1(a) of H.R. 5617 as passed by the House on May 21, 1984 (hereinafter referred to as "H.R. 5617"), would amend chapter 21 of title 38, relating to the specially adapted housing assistance program, to increase maximum amounts of assistance available under that program. The Senate amendment would increase from $32,500 to $35,750, effective July 1, 1985, the maximum amount of the specially adapted housing assistance grant for certain severely service-connected disabled veterans with mobility impairments, and from $5,000 to $5,500, effective July 1, 1985, the maximum amount of special housing assistance for service-connected veterans who are blind or have lost, or lost the use of, both upper extremities. H.R. 5617 would increase those amounts to $35,000 and $6,000, respectively, effective October 1, 1984.

The compromise agreement (section 304), effective January 1, 1985, would increase to $35,500 the maximum amount of the specially adapted housing assistance grant and to $6,000 the maximum amount of special housing assistance.

VA HOME-LOAN GUARANTY MAXIMUMS

H.R. 5617 (sections 1 (b) and (c)), but not the Senate amendment, would amend chapter 37 of title 38, relating to the VA's home-loan guaranty program, to increase, effective October 1, 1984, the maximum amount of the VA home-loan guaranty from $27,500 to $30,000 in the case of conventional housing and from $20,000 to $22,000 in the case of manufactured housing.

The compromise agreement does not contain this provision.

AUTOMOBILE ADAPTIVE ASSISTANCE

Both the House bill (section 204(a)) and the Senate amendment (section 502) would amend section 1902 of title 38, relating to the automobile adaptive assistance program, to increase the automobile assistance grant for certain severely disabled service-connected veterans. The House bill would increase the maximum grant from $4,400 to $5,000, effective October 1, 1984, and the Senate amendment to $4,840, effective July 1, 1985.

The compromise agreement (section 305(a)) would increase the maximum amount of the automobile assistance grant to $5,000, effective January 1, 1985.

The House bill (section 204(b)) and the Senate amendment, incorporating the provisions of S. 2514, to H.R. 5618 (section 7), as passed by the Senate on August 9, 1984 (hereinafter referred to as "the Senate amendment to H.R. 5618"), would amend section 1903(c) of title 38, relating to the furnishing of automobile adaptive equipment, to modify the manner in which reimbursement for adaptive equipment is made to certain severely service-connected disabled veterans. The House bill would provide that a veteran may transfer title of a previously adapted vehicle to any person and retain entitlement to reimbursement for adaptive equipment within the limit, currently prescribed by VA regulation, of 3 adaptations within a 2-year period with ownership limited to no more than one vehicle at any one time. The Senate amendment to H.R. 5618 would provide that a veteran is not entitled to reimbursement for more than 2 vehicles at any one time or for more than 2 vehicles in a 4-year period (with a waiver of the 2-in-4 limitation if the adapted vehicle is no longer available to the veteran due to circumstances beyond the control of the veteran).

The compromise agreement (section 305(b)) contains the Senate provision.

TITLE IV—MISCELLANEOUS AMENDMENTS

DEFINITION OF VIETNAM ERA

The Senate amendment (section 601), but not the House bill, would amend section 101 of title 38, United States Code, relating to definitions for purposes of title 38, to expand the definition of the Vietnam era (August 5, 1964, through May 7, 1975) for the purposes of title 38, United States Code, to include the period beginning on February 21, 1961, and ending on August 4, 1964, in the case of those who served in Vietnam during that time.

The compromise agreement does not contain this provision.

ADVISORY COMMITTEE ON VETERANS EXPOSED TO IONIZING RADIATION

The House bill (section 201), but not the Senate amendment, would amend chapter 3, relating to the organization of the Veterans' Administration, to establish an Advisory Committee on Veterans Exposed to Ionizing Radiation to review and advise the Administratory with respect to the special problems and needs of veterans exposed to ionizing radiation.

The compromise agreement does not contain this provision.

The committees note that the compromise agreement on H.R. 1961/S. 1651 as passed by the House of Representatives on October 3, 1984, would establish a Veterans' Advisory Committee on Environmental Hazards, including a Scientific Council thereof. The Council would be composed of two panels, one of which would focus on the health effects on certain veterans of those veterans' exposure to ionizing radiation during service. The committees believe that this Scientific Council will address a number of the objectives of section 201 of the House bill.

HEADSTONES OR GRAVEMARKERS

H.R. 5617 (2), but not the Senate amendment, would amend section 1004(c) of title 38, relating to the administration of national cemeteries and the marking of gravesites therein, to require, effective October 1, 1984, that with respect to persons who die after September 30, 1984, markers provided to mark graves in such cemeteries be upright unless the person to be buried previously requested (or the survivor or legal representative of the person buried requests) that the grave be marked with a flat marker, and that, if the grave is marked with a flat marker, the grave be in a portion of the cemetery set aside for graves with flat markers. H.R. 5617 further provides that the Administrator may waive the requirement and deny a request for an upright marker with respect to persons who die on or after October 1, 1984, and before January 1, 1985, if the national cemetery in which the burial will take place does not have a section reserved for graves with upright markers. Finally, H.R. 5617, would require the Administrator, prior to January 1, 1985, to designate a section of each cemetery in the National Cemetery System in which graves will be marked with upright markers and a section in which graves will be marked with flat markers.

The compromise agreement does not contain this provision.

The committees are not satisfied with the cost data submitted by the Veterans' Administration in justifying the Administration's opposition to the House provision requiring the use of upright markers in national cemeteries. It is the committees' intent that the Veterans' Administration reconsider this cost estimate in preparation for further committee hearings on this issue next year.

EFFECTIVE DATE OF REDUCTIONS

The Senate amendment (section 603), but not the House bill, would amend section 3012(b) of title 38, relating to the effective date of reductions in compensation, disability, disability and indemnity compensation, and pension, to establish the last date of school attendance as the termination date for certain veterans' dependents' allowances paid on behalf of children between the ages of 18 and 23 who are attending school.

The compromise agreement does not contain this provision.

SUSPENSION OF COMPENSATION AND PENSION PAYMENTS TO CERTAIN INSTITUTIONALIZED VETERANS; WAIVER

The Senate amendment (section 604), but not the House bill, would amend section 3203(b)(1) of title 38, relating to limitations on the size of certain single, institutionalized, incompetent veterans' estates which, when exceeded, result in the suspension of benefit payments by the VA, to remove a reference to mental illness as the cause of the incompetence; to permit the VA to exclude the value of the veteran's home from the estate unless there is no reasonable likelihood that the veteran will again reside in the home; and to permit the Administrator, where necessary in order to avoid a hardship for the veteran, to waive the suspen-

sion of benefits requirement in the case of a veteran who is institutionalized for a total of not more than 60 days during any calendar year.

The compromise agreement (section 402) contains this provision.

The committees intend that the Administrator use this discretionary authority only in those cases where it is established that without the waiver the veteran will suffer significant financial hardship. The waiver is not be be used as an administrative expediency nor where liquid assets are readily available to meet current expenses.

GENDER REFERENCES

The Senate amendment (section 605), but not the House bill, would amend section 103 of title 38, relating to special provisions relating to marriages, to remove various gender references.

The compromise agreement does not contain this provision.

The committees note their intention to develop a measure that will remove all gender references throughout title 38 and to pursue enactment of that measure in the next Congress.

I urge the adoption of the proposed House amendments.

Mr. HAMMERSCHMIDT. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Ohio [Mr. APPLEGATE].

Mr. APPLEGATE. I thank the gentleman for yielding to me.

Mr. Speaker, the proposed House amendments reflect agreement with the other body on two House-passed bills, H.R. 5398, to provide a cost-of-living increase in GI bill benefits for Vietnam era veterans, and H.R. 5688, to provide a cost-of-living increase in the rates of service-connected compensation, which we passed earlier this year.

The agreement would provide for a 3.2-percent cost-of-living increase in the rate paid to service-connected disabled veterans and to the surviving widows and children of veterans who died from service-connected causes. This increase would be effective December 1, 1984, and would be reflected in the checks to be received at the end of that month. I want to point out that this increase is in accordance with the assumptions contained in the first concurrent budget resolution for fiscal year 1985 as approved by the Congress on October 1.

Mr. Speaker, this increase will benefit over 2 million disabled veterans and over 360,000 widows and children. We owe no higher debt than to these individuals who have sacrificed so much for their country. The bill passed by the other body would have had us abdicate our responsibility to deal with the compensation rates by telling the Administrator of Veterans Affairs to wait until the amount of the Social Security increase is determined later this month and use the percentage of the increase of that program for the veterans' COLA. The committee has considered at various times the question of indexing rates but it was rejected. We feel that an annual, or more often as necessary, review of the compensation program is essential. That philosophy is shared by the veterans' organizations and I am glad that we were able to convince the other body that we should use our best judgment on what the inflation-offsetting increase should be.

The compromise agreement also contains a 10-percent cost-of-living increase effective October 1, 1984 for the vocational training program for service-connected veterans chapter 31, the GI bill for Vietnam veterans chapter 34, and in the educational program for dependents and survivors chapter 35. These programs have not been increased since January 1981.

The veterans readjustment appointment authority, which authorizes departments and agencies to make excepted appointments in the Federal civil service for certain Vietnam era and disabled veterans, expired September 30, 1984. The life of the program will be extended through September 30, 1986 under the compromise agreement. It would also increase the grade to which a person may be appointed under this program from a maximum of GS-7 to GS-9 or its equivalent. Under the bill as passed by the House, the 14 year educational restriction for eligibility under the program would have been eliminated, but the other body rejected this particular section. Under the House plan, a Vietnam veteran who graduates from college and is seeking a job in the Federal Government could have been hired under this authority. Because of the educational restriction of 14 years, he cannot be selected by a department of agency under the VRA. It is unfortunate that the other body feels that a college educated Vietnam veteran should not have preference for a Federal job under this program.

Mr. Speaker, one of the highlights of the compromise agreement is the program to provide-vocational training for younger pensioners. This program is designed to assist primarily young Vietnam veterans who become totally disabled after leaving service. As passed by the House, H.R. 5688, a 5 year pilot program would be established and would be limited, during the pilot phase, to veterans who have just become entitled to pension. By design, this program would contact individuals who have just become disabled, sometimes catastrophically and newly eligible for non-service-connected pension, and offer them counseling and assistance. For example, If a young truck driver becomes paralyzed from an accident and is confined to a wheelchair, he is more than likely emotionally distraught because of the overwhelming nature of his physical problems. By offering professional counseling, plus the opportunity to participate in a program of rehabilitation and training, the committee believes that the prospects for such veterans to be restored to a significant level of productivity and self-reliance will be of inestimable value. The Veterans Administration and the Congressional Budget Office agree that in the long run, this program will be a cost savings with the investment in counseling and training being offset many times over in the future when the veteran begins to work and no longer receives pension.

I am glad to say the Senate accepted our proposal in principle. Some modifications were made but the essential elements in the House bill are retained. The committee is aware that the numbers of potential trainees is limited, but whether we retrain 10 or 10,000 veterans, each one will be a testimonial to the efficacy of the program and its motives, which is to help restore disabled veterans to a productive place in society.

Mr. Speaker, I am most disappointed in the action of the other body in refusing to accept our provision to increase the maximum amount of servicemen's group life insurance from $35,000 to $50,000. For some reason, they insisted on limiting the increase to individuals with a minimum of 5 or more years service.

I want to point out that in the tragic events last year in Beirut and Grenada, 198 servicemen who died had less than 5 years service. Of this group 53 were survived by a widow and/or children.

I do not see how the other body could justify their position that the widow of a marine with 5 years and 1 month of service is more deserving of an extra $15,000 insurance than the widow of another marine who had only 3 years of service. Under their proposal, a reservist with 5 years of service would have the maximum protection whereas an active duty serviceman, often serving in hazardous duty assignments, would be denied the same level of insurance protection. Where is their sense of priority?

It is with the utmost reluctance that I go along with the deletion of the insurance provision from the compromise. I can assure you that my subcommittee will be considering this issue again next year. Perhaps by that time, the other body will have seen the error of their ways or else can expand on the position attributed to the Chairman of the Senate Veterans' Affairs Committee that he is concerned about the contingent liabilities during wartime.

This can only mean that if, note I said if, we have another war, the other body wants the younger members of our Armed Forces, who traditionally suffer the higher rate of casualties fighting wars, to have less insurance

protection than older individuals who have served for 5 or more years.

Mr. Speaker, does the other body know something about the prospects of war that we don't know? After all, the present administration endorsed the house provision to make the increase available to all members of the all volunteer force. Why is the Senate at odds with the White House on this matter?

I just want to say that I plan to sponsor this same legislation next year and I hope to be able to explore with the Senate leadership the logic and rationale for their opposition to this measure. The action of that body carries the clear implication they are either concerned about the possibility of another major conflict or that they consider the life of younger servicemen to somehow be less worthy than older career service members. The Members of this House and the citizens of this country deserve an answer.

Mr. HAMMERSCHMIDT. Mr. Speaker, further reserving the right to object, I yield to a member of the committee, the gentleman from Alabama [Mr. SHELBY].

Mr. SHELBY. I thank the gentleman for yielding to me.

Mr. Speaker, I rise in strong support of the conference agreement.

Mr. Speaker, there are many good provisions contained in this agreement, and I wish to commend the chairman of the committee, Hon. G.V. (SONNY) MONTGOMERY and the ranking minority member, Hon. JOHN PAUL HAMMERSCHMIDT, for their efforts in resolving the differences between the House and Senate-passed bills so quickly in view of the fact that the Senate only passed their bill, S. 2736, on Tuesday.

This measure will assure a well-deserved cost-of-living increase to those veterans who were disabled while serving their country. In addition, I am particularly pleased that specially adapted housing benefits will be increased from $32,500 to $35,500 for wheelchair homes and that the specially adapted housing allowance grant for certain service-connected blind veterans and service-connected veterans who have suffered the anatomical loss or loss of use of both hands to make necessary adaptations to their homes will be increased from $5,000 to $6,000 effective January 1, 1985.

The objective of the wheelchair grant is to help offset the increased costs incurred by catastrophically disabled service-connected veterans in acquiring a home with ramps, wide doors, specially placed light switches, special plumbing fixtures, and so forth. At the time this program was created, it was the congressional intent that this grant provide 50 percent of the total cost borne by the veterans. It our understanding that the average grant currently provided a veteran represents 37 percent of the funds necessary to obtain a specially adapted House. This falls far short of the intended 50 percent ratio. It should also be emphasized that the smaller $5,000 grant has not been adjusted since its creation by the Congress in 1980; and that consequently, there have been several instances where it has not been adequate to meet the needs of these severely disabled veterans.

I am disappointed that the Senate did not accept the House-passed provisions on upright gravemarkers in our national cemeteries. Flat markers in areas subject to heavy snowfalls are sometimes not visible for long periods of time and this makes it difficult for survivors to find the graves of their loved ones. It is my belief that we should institute an upright headstone policy as this will serve to enhance the dignity and beauty traditionally associated with our national cemeteries which were originally established to commemorate the sacrifices of those who died while serving their country.

I am also disappointed that the Senate did not accept our provision to increase the loan guaranty limitations under the Veterans Administration Housing Programs. Not only is there a growing number of areas nationwide where the Veterans Home Loan Guaranty Program is being outpriced by housing costs, but the price of a median home has risen approximately 24 percent since the last increase in guaranty in 1980. My subcommittee will look into both of these matters again during the next Congress.

Again, I wish to compliment the chairman of the full committee, Mr. MONTGOMERY and the ranking minority member, Mr. HAMMERSCHMIDT for their untiring efforts in behalf of veterans not only this week but at all times. It should be noted that this is the third veterans' compromise bill in the last 3 days. These members should be recognized for their diligency, perseverance, and hard work.

Mr. HAMMERSCHMIDT. Mr. Speaker, the bill before us is concerned with a number of issues of great concern to veterans. In a number of instances they are involved with increases in benefits in direct proportion to increases in the consumer price index since the matters were last considered by the Congress. The increases are modest and I think we can all be pleased that this is so because of the very limited increase in the cost of living over the past 3 years.

On May 21, the House passed H.R. 5617 which was involved with housing, memorial affairs, and a limited extension of the emergency veterans jobs bill. On June 18, the House passed H.R. 5688, the Veterans Compensation Amendments for Fiscal Year 1985. On August 6, 1984, we passed H.R. 5398 which increased the rates of educational allowances under the GI bill and extended and liberalized for 3 more years the authority for Vietnam veterans to be directly appointed to certain positions in the Federal work force.

The other body has chosen to incorporate all of this subject matter into the omnibus bill which is now before us. It contains a number of compromises which I believe to be very reasonable and necessary if we are to have a final bill before adjournment.

H.R. 5617 provided for increasing loan guaranty maximums under the GI Home Loan Program from $27,500 to $30,000; increasing maximum guarantees for mobile home purchases from $20,000 to $22,000; increasing from $32,500 to $35,000 grants for specially adapted housing for seriously disabled veterans, and increasing from $5,000 to $6,000 housing allowances for certain blind and other seriously disabled service-connected veterans.

In this same bill, we also provided for upright grave markers in national cemeteries in certain instances.

The provisions for increases in GI home loan guarantees and the use of upright gravemarkers and National Cemeteries are not in the bill before us but the other provisions are, but with effective dates somewhat changed.

The principal provision of H.R. 5398 provided a 15-percent increase, effective January 1, 1985, for those veterans and dependents in training under the GI bill or in rehabilitation training. The compromise bill before us calls for a 10-percent increase effective October 1, 1984.

The principal provision of H.R. 5688 provided for a 4.3-percent increase in compensation for service-connected disabled veterans, their dependents and survivors. The compromise provides for a 3.2-percent increase and is in accord with the latest projected Consumer Price Index which was the base originally used by the House.

Mr. Speaker, other provisions in this proposal provide:

First, an increase in automobile grants for amputees and certain other disabled veterans.

Second, possible rehabilitation programs for a limited number of pensioners and for some veterans rated totally disabled as a result of VA findings of unemployability.

Third, approval of an extension of the authority to appoint Vietnam veterans to Federal positions for 2, instead of 3, years and without one liberalizing provision previously contained in the House version.

Mr. Speaker, reasonable people have come to a reasonable agreement on this compromise. In my view, it is a good proposal. I therefore join my dis-

tinguished chairman in urging its passage.

Mr. Speaker, our chairman, the gentleman from Mississippi, SONNY MONTGOMERY, has worked tirelessly on this bill as have all members of the House Veterans' Affairs Committee. I would commend especially Mr. APPLEGATE of Ohio, Mr. MCEWEN of Ohio, Mr. LEATH of Texas, Mr. SOLOMON of New York, Mr. SHELBY of Alabama, and Mr. SMITH of New Jersey. They are the chairmen and ranking members of the involved House subcommittees. I also commend the chairman of the Senate Veterans' Affairs Committee, Senator SIMPSON of Wyoming, and his counterpart, Senator CRANSTON of California.

Mr. Speaker, any compromise involves give and take. This bill before us has had much study, and much such give and take. I urge agreement with the chairman's request for its approval.

● Mr. LEATH of Texas. Mr. Speaker, I rise in support of the amended legislation which we are now considering.

Title II of H.R. 5688, amended, contains provisions of H.R. 5398, the Veterans' Education and Employment Amendments of 1984, which passed the House on August 6, 1984. I introduced H.R. 5398 following hearings held by the Subcommittee on Education, Training, and Employment, which I have the honor to chair. The compromise reached with the Senate on these provisions is not all that we had wanted, but agreement is a reasonable one which will serve well our Nation's veterans.

First, we agreed to a 10-percent increase in GI bill benefits and vocational rehabilitation rates effective October 1, 1984. The House-passed bill would have provided a 15-percent increase effective January 1, 1985. The compromise position is a smaller increase but it has the advantage of being available to veteran students sooner and has considerable savings in the outyears. These education benefits were last increased in 1981 by Public Law 96-466. Considering the increase in the cost of living and education since that time, this rate increase is necessary and appropriate.

Next, the compromise agreement provides that the Veterans Readjustment Appointment [VRA] Program, which allows certain eligible Vietnam-era veterans to be given excepted appointments in the Federal civil service, will be extended 2 years beyond its current expiration date of September 30, 1984, to September 30, 1986. Extension of this highly successful program has been supported by all of the veterans organizations and the Office of Personnel Management. The maximum grade level for VRA appointments will be increased from the current GS-7 level to GS-9 or its equivalent under the compromise, thus broadening opportunities for veterans of the Vietnam era. The bill will also provide the same limited appeal protection to VRA appointees as is now given career or career-conditional employees during the first year of employment and require the OPM to report annually, rather than semiannually as at present, on agency use of the VRA-appointment program.

Since its inception, the VRA program has been a good example of our Government doing what it can as an employer to help Vietnam and disabled veterans. When we stop to realize that over 200,000 Vietnam veterans are Federal employees today, who otherwise might not have been, without the VRA authority, we understand what is meant when the VRA program is called one of the most successful programs Congress has enacted to help Vietnam veterans. In addition, the VRA program has not cost the Government one penny. No new or additional employees are authorized or needed by extending the VRA program. All the VRA authority does is provide another way for a Federal agency to hire a Vietnam veteran without going through the competitive process. No agency is obligated to use the VRA authority. It is a voluntary program. While the hiring results under this program have been impressive, we should also emphasize that this program is a good one for minorities and women. For example, the OPM's most recent data for the first half of fiscal year 1983 show that, of a total of 7,200 appointments, approximately 35 percent were minorities and 8 percent were women. The Department of Labor reports that 417,000 Vietnam veterans were unemployed as of August 1984, and that of this total, 9.7 percent of the younger Vietnam veterans—age 25-29—were unemployed. This is not good, and at least by extending the VRA program we will be helping a lot of these veterans become employed.

Finally, the bill will make improvements in the Emergency Veterans Job Training Act of 1983, Public Law 98-77. First, this legislation will extend from 60 to 90 days the period that the certificate of eligibility furnished to a veteran under this program will be valid. It will also extend from November 29, 1984, through February 28, 1985, the date by which an eligible veteran may apply for assistance under this program and from March 1 to September 1, 1985, the cutoff date for commencing training. Additionally, funds appropriated for fiscal years 1984 and 1985 will be available until September 30, 1987, rather than September 30, 1986. These changes will greatly enhance the effectiveness of EVJTA.

I want to take this opportunity to commend all the members of the Subcommittee on Education, Training, and Employment who worked so diligently to develop this legislation. Most particularly I want to thank the ranking minority member of our Subcommittee on Education, Training, and Employment [JERRY SOLOMON] for all his usual hard work and dedication to achieve the compromise on title II of this bill, and his cooperation and support on H.R. 5398 throughout this 98th Congress. I also want to thank Mr. MONTGOMERY, the chairman of our committee, and Mr. HAMMERSCHMIDT, the ranking minority member of our committee, for their leadership and assistance.

This compromise is a good one and I urge my colleagues to support it.●

Mr. HAMMERSCHMIDT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The SPEAKER. Is there objection to the initial request of the gentleman from Mississippi?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the legislation just considered.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

LITHUANIAN INDEPENDENCE DAY

Mrs. HALL of Indiana. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 655) designating February 16, 1985, as "Lithuanian Independence Day," and ask for its immediate consideration in the House.

□ 1030

The Clerk read the title of the joint resolution.

The SPEAKER. Is there objection to the request of the gentlewoman from Indiana?

There was no objection.

The Clerk read the joint resolution, as follows:

H.J. RES. 655

Whereas February 16, 1985, marks the sixty-seventh anniversary of the restoration of independence to the more than 700 year old Lithuanian state;

Whereas Lithuania was recognized as a free and independent nation by the entire free world;

Whereas a free Lithuania existed until she was by force and fraud occupied and illegally annexed by the Soviet Union in 1940;

Whereas the United States opposes tyranny and injustice in all forms and supports the cause of a free Lithuania;

Whereas all Americans of Lithuanian descent protest the Soviet presence in the land of their ancestors; and

Whereas the oppressed people currently living in Lithuania, who still aspire to exercise their right for self-government, should keep the flame of freedom forever burning in their hearts: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President shall issue a proclamation designating February 16, 1985, as "Lithuanian Independence Day" and calling on the people of the United States to celebrate such day with appropriate ceremonies and activities.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL REYE'S SYNDROME WEEK

Mrs. HALL of Indiana. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 259) to designate the week of November 12, 1984, through November 18, 1984, as "National Reye's Syndrome Week," and ask for its immediate consideration in the House.

The Clerk read the title of the Senate joint resolution.

The SPEAKER. Is there objection to the request of the gentlewoman from Indiana?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 259

Whereas Reye's Syndrome is a disease of unknown cause that usually attacks healthy children under nineteen years of age and kills or cripples more than half of the victims within several days;

Whereas Reye's Syndrome is one of the top ten killers among all diseases of children;

Whereas Reye's Syndrome was a misdiagnosed illness of children until recognized as a specific illness in 1963;

Whereas the reporting of cases of Reye's Syndrome is required in only one-half of the States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the other territories and possessions of the United States;

Whereas national Reye's Syndrome volunteer organizations are established throughout the United States and are supported by thousands of parents;

Whereas such volunteer organizations exist to encourage involvement of the Federal Government in supporting Reye's Syndrome research, to encourage coordination of the treatment and research efforts by the various Reye's Syndrome treatment and research centers, to establish Reye's Syndrome as a reportable disease in every State, to establish a porition for the review of data on Reye's Syndrome patients at the Center for Disease Control, to sponsor a multicenter research study by recognized authorities on Reye's Syndrome, to sponsor programs to educate parents and medical professionals with respect to diagnosis and treatment of the illness, and to raise funds for research into cause, prevention, and treatment of Reye's Syndrome;

Whereas the public and the Federal Government are not sufficiently aware of the continuous increase in the incidence of Reye's Syndrome; and

Whereas the Governors of several States have declared Reye's Syndrome weeks: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of American in Congress assembled, That the week of November 12, 1984, through November 18, 1984, is designated "National Reye's Syndrome Week" and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe that week with appropriate ceremonies and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mrs. HALL of Indiana. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on House Joint Resolution 655 and Senate Joint Resolution 259, the joint resolutions just passed.

The SPEAKER. Is there objection to the request of the gentlewoman from Indiana?

There was no objection.

DEMOCRATS REJECTING MONDALE'S PLANS

(Mr. HYDE asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. HYDE. Mr. Speaker, if anybody is looking for a good investment, I would suggest teflon stock, because there is a great need for that product among Democratic candidates seeking to avoid having Walter Mondale stick to them.

For example, in Illinois PAUL SIMON, my good friend who is running for Senate, announced last Sunday that he was rejecting the Mondale deficit reduction plan, so I would suggest a series of debates between PAUL SIMON and Walter Mondale throughout Illinois so they can establish an appropriate deficit reduction plan.

I would also suggest those debates be moderated alternately by Mayor Harold Washington of Chicago and Eddie Verdoliak, the Democratic county chairman. They could use different doors for coming in and out so they would not have to speak to each other, and the theme could be unity.

INTERNATIONAL HONOR FOR CLAUDE PEPPER

(Mr. HAMMERSCHMIDT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HAMMERSCHMIDT. Mr. Speaker, I take this time to inform my colleagues of the great honor bestowed on CLAUDE PEPPER who, among his other many activities, serves as president of the U.S. Group to the Interparliamentary Union. At the meeting that just concluded last week in Geneva, our distinguished president was elected to the executive committee of the IPU. He thereby will work with a select group of 10 other representatives chosen from the over 100 countries that are members of that organization.

During the campaign for this office of high prestige and influence in the IPU, those of us who worked on behalf of Congressman PEPPER's candidacy were extremely impressed with the broad international recognition and respect he has gained. The affection of so many delegates from Asia, Africa, Europe, Latin America, and from all regions of the world was moving to behold. It is apparent that CLAUDE PEPPER, besides his other acknowledged achievements, is an international statesman whose warmth of personality and intelligence and wit have charmed men of responsibility and influence throughout the whole world.

This country is so much better regarded overseas because CLAUDE PEPPER is himself overseas and demonstrating by his own example the best qualities of the people of this land.

TOUGH STAND NEEDED ON WATER PROJECT AUTHORIZATION

(Mr. HUCKABY asked and was given permission to address the House for 1 minute.)

Mr. HUCKABY. Mr. Speaker, as the 98th Congress is drawing to a close, we all know one of the issues that we are hung up on is this authorization of new water projects.

I would like to point out to my colleagues, during the 8 years that I have been here, not a single new dam, not a single new levee, not a single new port, no water project has been authorized.

Sure we are talking about billions of dollars but we are talking of money that will be spent over some 20 years and these water projects create wealth, wealth for our Nation, not only that we but future generations will enjoy.

I urge our colleagues in the House, let us stand tough on this issue. Let us

insist that these authorizations be included.

I would like to point out to the President, we are hearing rumors that this might be used to veto this bill. The President has promised numerous locations in the last 3 years that have been ravaged by floods that he would help them. We are going to have to authorize these projects in order to get that help.

WASHINGTON POST ARTICLE GOES TOO FAR

(Mr. LIVINGSTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LIVINGSTON. Mr. Speaker, I would like to express my absolute disgust at an article by Art Harris appearing in the Washington Post yesterday, October 4, 1984, entitled "The Sandinista Sister-in-Arms."

In covering the visit of admitted murderess Nora Astorga, the heroine of the Communist movement in Nicaragua, as she preached the virtues of her bloodthirsty regime at liberal cocktail parties throughout the country, the article was sufficiently lacking in taste as it described the various versions of how she slit the throat of her lover in her bedroom.

But when it quoted one Susan Horowitz, whom Harris describes as "a stunning, intelligent looking woman with long brown hair," and "a political activist who champions liberal causes," as saying "Oh, God, * * * to try to get the guy in bed, and then kill him. Fantastic. It's like a western. That's my dream, to do that to Reagan, George Bush, go right down the line. I've got to meet this Mata Hari."

Mr. Speaker, this is too much, even for the Washington Post.

REAGAN SPEAKS OF JOHN KENNEDY

(Mr. ROEMER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROEMER. Mr. Speaker, Ronald Reagan is talking John Kennedy. The pollsters show we Democrats are losing this national election by a large margin and there are 100 or more theories as to why. Ronald Reagan knows. That is why he is talking John Kennedy.

I am a John Kennedy Democrat. He was a leader; balanced the budget, cut taxes, had a hands-on foreign policy; believed in a strong national defense, was dedicated to arms control, kept his religion and his administration both apart and important; refused to walk away from Central America and was fiercely aggressive on civil rights.

John Kennedy, 21 years gone and I still miss him. So does my party. Ronald Reagan talks John Kennedy because when he does, he is speaking to America's heart and hopes.

I do not know whether President Reagan really believes in John Kennedy. I know he does not practice all his political virtues, but I say this publicly to my party and my leadership. It is time to talk positive about America, to talk small business and jobs, low interest rates and high opportunity. It is time to talk John Kennedy. He is the heart of our party. Let us hear the heart beat.

□ 1040

LET CONGRESS FACE BANKRUPTCY, NOT THE FEDERAL GOVERNMENT

(Mr. BILIRAKIS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.

Mr. BILIRAKIS. Mr. Speaker, I do not believe that this is a proud moment in the history of the U.S. Congress.

Once again, we have literally brought the Government to a halt. Once again, we have been unable to complete action on important appropriation bills, and to provide some fiscal guidance and sanity to this country.

Yet, ironically, we approve our own budget nearly 3 months ago.

Yes, Mr. Speaker, we made sure that Congress could function, that we could pay our bills, pay our staffs, keep the lights on—while we let the rest of the Federal Government face bankruptcy.

Well, I think we should change this sad state of affairs.

So today I am introducing a resolution that would require the House and the Senate to approve all general appropriation bills for the upcoming fiscal year before it would be in order to consider the legislative branch appropriation bill.

My intent is simple—let Congress face bankruptcy, not the Federal Government. Let Congress, for a change, be forced to go home early, to see its paychecks in jeopardy, its future uncertain.

Maybe then we would have some incentive to reach agreement on appropriation bills. And maybe then, we would really deserve our own pay.

"SHOOT MYSELF IN THE FOOT AWARD"

(Mr. BREAUX asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BREAUX. Mr. Speaker, every now and then I think some one in our Government, including those of us in this body, probably does something that justifies the "Shoot Myself in the Foot" award.

I noticed recently that the Assistant Administrator for the National Marine Fisheries Service, the person who is the head of all of our fishing operations for the United States, received the Henri Pettier Award, which is the highest award the country of Venezuela can possibly bestow on any civilian.

Do you know what he was given it for? It was given to our Assistant Fisheries Administrator for going over and giving them the technology and the training and the know-how to raise shrimp. Venezuela last year exported $1.8 billion worth of shrimp to the United States. We have literally thousands of people involved in the shrimp industry in this country who are going broke, and at the same time our country is sending, at no cost to the Venezuelan Government, the technology and the training to help them become more efficient to compete with our fishermen.

I would suggest instead of that award, perhaps we should consider giving him the highest award, the "Shoot Myself in the Foot Award" for foolish and wasteful U.S. Government policy.

ADDRESSING THE NEEDS OF THE PHILANTHROPIC COMMUNITY

(Mr. DAUB asked and was given permission to address the House for 1 minute and to extend his remarks.)

Mr. DAUB. Mr. Speaker, yesterday, Mr. CONABLE and I introduced H.R. 6388 which will modify in some measure existing restrictions governing charitable contributions, make some technical corrections to alleviate unintended detriments in this area, and bring the nonprofit community into a "pay as you go" situation with respect to the private foundation taxes and the unrelated business income tax. The bill also proposes a set of user fees which the Internal Revenue Service will administer in connection with applications for exempt status and other ruling requests as well as for the filing of the exempt organization information return.

The bill is introduced at this time so as to give organizations which may be interested in it an opportunity to look at the tax, economic, and philanthropic policies behind the provisions, and discuss and debate them, evaluate the pros and cons of the various provisions and determine if they will significantly assist the philanthropic community or represent, in connection with the payment of estimated taxes, an unnecessary burden. Nothing in the bill should be treated as final in the sense that it is not subject to some form of further review and revision, by interested Members, by our staff, by the

Treasury Department or the interested or affected communities. Indeed, it is expected that when Congress reconvenes in January of 1985, there may be additional liberalizations of the laws now governing charitable giving to take into account the new ideas and suggestions by the philanthropic community which were triggered by the proposal made today.

Although Mr. CONABLE and I recognize that several of the proposals in this bill were discussed and debated during the Congress' consideration of the Deficit Reduction Tax Act of 1984, and indeed versions of several of the proposals were adopted by one House or the other, the time pressures, coupled with the political and economic considerations inherent in passing a compromise version of that act, led to the situation where some of these recommendations were not approved by the conferees.

By reintroducing some contribution enhancement measures, and offering new ones, we hope that the Congress will find the time to address, next year, many of the needs of the philanthropic community which were omitted in its recent tax bill.

SPECIAL NEEDS OF SMALL BUSINESS

(Mr. FORD of Tennessee asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FORD of Tennessee. Mr. Speaker, I rise to call the attention of the Congress to the special needs of small business. More than any other economic segment, small business is the driving force of continuing economic growth and prosperity. Small business is the leader in new job formation, creating more than 2.6 million new jobs in 1981 and 1982.

Mr. Speaker, this week I introduced the small business Consumed Income Tax Act of 1984, H.R. 6376, which would reform the corporate income tax imposed on small business. The act creates a new IRS subchapter W, under which small companies could voluntarily elect. Those companies would be exempt from the corporate income tax for 10 years. But the companies' shareholders would be taxed at individual rates for corporate income distributed to them or used by the company in nonbusiness assets.

In this way, Mr. Speaker, small companies would retain their income to finance expansion and growth, and contribute to the economy. Small business has great potential to redress urban unemployment problems. Small business can help with job expansion. Small business can help with unemployment as well as underemployment. I view this effort as not just help to small business owners but rather also a way to help put our citizens back to work.

Finally, Mr. Speaker, I invite the comments of small business persons as well as others interested in basic tax reform. I am not wed to the numbers or the definitions in this bill. They are subject to change based on revenue projections, job creation projections, and the comments I receive over the adjournment. So I urge my colleagues to review the legislation, discuss it with your small business constitutents and let me know your opinions.

CRACKDOWN ON HEROIN TRAFFICKING

(Mr. OXLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OXLEY. Mr. Speaker, I was pleased to read recently that Federal law enforcement officials, as the result of a new Extradition Treaty with Italy, have begun to arrest a number of high-level organized crime figures sought by the Italian Government in a crackdown on heroin trafficking and other racketeering operations.

According to Attorney General William French Smith, this case is "the largest heroin operation that has ever been broken in this country" and is more important than the famous French Connection heroin case because "we were able to arrest the very top leaders of these criminal syndicates and * * * interfere substantially with drug trafficking networks that bring heroin into this country."

The joint working group was formed last year by President Reagan and Italian Prime Minister Bettino Craxi as part of a new drive against organized crime in both countries. I applaud the administration and the Italian Government for initiating this important effort to help stamp out international drug trafficking and the mob's involvement in it.

REPUBLICANS WORSHIP DEAD DEMOCRATS

(Mr. BRYANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BRYANT. Mr. Speaker, I heard earlier today the gentleman from Illinois [Mr. HYDE] talk about the price of teflon stock, and I agree with him that it has gone up, but it has gone up not because of Democrats trying to hide from Walter Mondale. We are proud of Walter Mondale. It has gone up because Republicans are trying to hide from their own heritage.

I ask the Members of this body and the public: Who is it that the Republicans talk about in this election year? Do you hear them talk about Coolidge, Hoover, Nixon or Agnew? Absolutely not. Do you ever hear them talk about any Republican hero? Absolutely not. You do not hear them talk about that.

You hear them talk about Franklin Roosevelt, Harry Truman, John Kennedy, and Hubert Humphrey.

I suggest to my colleagues that Walter Mondale showed his innate wisdom and ability to perceive the true movements in this country when he observed the other day that the new definition of a Republican is a person who worships dead Democrats. And they have to be dead because the live ones they worship, or would try to get away with worshiping, might talk back.

□ 1050

THE INHERENT STRENGTH OF THE FBI TRACED TO ITS PEOPLE

(Mr. BETHUNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BETHUNE. Mr. Speaker, I spent 4 years as a special agent of the FBI, and during that time I confirmed what I had believed all my life, and that is that the FBI is the finest law enforcement agency in the history of the world.

When I was in the FBI, I had occasion to meet some of the finest people I have ever known. They had gone through the most intensive background investigations; they were dedicated men and women. I do not have to recount all the cases that have been solved by the FBI, either by the arrest of espionage agents in our country or in hijacking and skyjacking cases, where agents have put their lives on the line. It is the men and women of the FBI who are the strength of that organization.

Mr. Hoover used to say, when I was an agent in the Bureau, that it takes a lot of hard work and dedication to build up the FBI, but one man can bring it down. I do not believe that. I have never believed it. This incident the other day where the FBI had to arrest one of its own should not in any way impair the fine and honorable tradition of the FBI. I think it is a case where the exception proves the rule.

The FBI is strong, and it remains today the finest law enforcement agency the world has ever known. I think that people know that. The men and women who are in the FBI are the strength of the agency, and always has been.

One negative incident does not hurt the FBI but it does reminds us of exceptional record of the organization.

TOO MANY GOODBYES AND NOT ENOUGH HELLOS

(Mr. KOGOVSEK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KOGOVSEK. Mr. Speaker, it is with very deep and mixed emotions that I address this body one last time. While it is hard to find the words to express my feelings today, it would be even harder to say nothing.

I truly believe that if there is one body in the history of the world that epitomizes the phrase "Government of the People," it is the U.S. House of Representatives. No other forum fulfills the responsibilities of a representative democracy, by being as close or as responsive to the people as does this one. To state that it has been a privilege and an honor to have been a part of that, understates my true feelings. This has been an experience I will treasure for the rest of my life.

To my colleagues here in the House, thank you all for the consideration and courtesies that you have shown me and in turn my constituents—you are living proof that this system does work, and I leave here secure in the knowledge that it will continue to work better than all others.

To the people of Colorado, my bosses, thank you for having given me the honor of being your servant. You have proved to me time and again that it is your counsel and your support that has made this country what it is.

Charlie Brown of the comic strip "Peanuts" probably expressed my feelings at this moment best when he said, "The trouble with this world is that there are too many goodbyes and not enough hellos"—while I am looking forward to the hellos to my family and friends back in Colorado, the goodbyes that must be done this week to my very special friends here in Congress are some of the hardest I've ever had to do.

NO, FAMILY FARMERS ARE NOT BETTER OFF TODAY THAN 4 YEARS AGO

(Mr. DORGAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORGAN. Mr. Speaker, Will Rogers said years ago that if one day all the accountants and attorneys in the country did not show up for work, it might not be a very big thing, "but," he said, "if one day all the cows in America didn't come to the barn to be milked, now, that would be a crisis."

What he had in mind was that the people who produce real new wealth in this country, the family farmers, are critically important.

I know that Ronald Reagan one of these days soon is going to ask, "Are you better off today than you were 4 years ago?" Well, the answer in the Farm Belt is "No."

Prices are down nearly $1 a bushel, interest rates are still up, and we have lost about 1,000 farmers a year in my State.

No, farmers are not better off than they were 4 years ago, and in this administration where cash is king and the lawyers, the accountants, and all the rich folks have done very, very well, farmers are losing their heritage. They are losing the homestead their grandfathers started, their fathers worked, and they have been trying to work for years. I think it is awfully sad.

What I am just saying is that it is time for this Congress and for the President to start caring about the fortunes of family farmers or one day soon we will not have enough family farmers left to care about. Family farming is critical to the future of America. We have to understand that and develop a public policy that allows those who are good managers a reasonable chance to make a decent living.

CRIPPLING UTILITY BILLS REMAIN NO. 1 ISSUE IN PARTS OF THE NORTH AND MIDWEST

(Mr. DURBIN asked and was given permission to address the House for 1 minute.)

Mr. DURBIN. Mr. Speaker, at more than 106 town meetings in central and western Illinois over the last 2 years, the No. 1 issue has been, over and over again, utility bills.

Earlier this year I wrote a letter to the President asking him to include in his State of the Union Address some reference to the utility costs facing Americans today, particularly in the North and the Midwest, and the skyrocketing natural gas rates that are crippling many parts of the country. A spokesman for the White House wrote back, after the President failed to mention either of these topics in his State of the Union Address, and assured me that natural gas reform was the President's highest legislative priority.

Today I stand in the well of this House of Representatives at the close of the 1984 session with absolutely nothing having been done or accomplished over the past 2 years to try to moderate the utility bills which are facing us in the Middle West.

It has been a great victory for the oil and gas lobby. They have kept their profits high, but at our expense, and this has been due to a real lack of Presidential leadership and even congressional leadership to address this important issue.

Many of us now have to return to our districts and face the senior citizens, the small businessmen, and thousands of families who will be receiving these utility bills over the next several months and trying to find some way to make ends meet.

Mr. Speaker, whoever is elected President on November 6, I hope the next State of the Union Address does include reference to this important issue for the Middle West, and that we in Congress will adopt an attitude that we have to do something about the need for utility reform in this country.

OCTOBER 11 MARKS CENTENNIAL YEAR OF BIRTH OF ELEANOR ROOSEVELT

(Mr. LEVIN of Michigan asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. LEVIN of Michigan. Mr. Speaker, October 11, when we presumably will be out of session, will mark the centennial year of Mrs. Eleanor Roosevelt's birth.

Mrs. Roosevelt accomplished a rare feat. She was both a vital part of her own time and ahead of her time. She challenged the world as it existed around her, and at the same time she was an advance guard in the struggle of women for equal opportunity in our society.

As a student, I had a chance to meet Mrs. Roosevelt on several occasions. Sensitive, caring, curious, forceful, articulate, she continued to blossom in her later years, showing that the needs of greatness never cease to bear new fruit.

Mr. Speaker, on October 11 all of us should pause to remember Eleanor Roosevelt.

CONFEREES FINISH WORK ON LANDMARK CRIME LEGISLATION

(Mr. HUGHES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUGHES. Mr. Speaker, we have heard a great deal of political rhetoric this year about crime. It is unquestionably one of the top concerns of the people of America. However, crime is a bipartisan issue. It knows no political boundaries.

I am happy to report that at about 1 o'clock this morning House and Senate conferees on the continuing resolution and members of the House and Senate Judiciary Committees worked out a crime package that, in my judgment, if it moves through the balance of the legislative process as I believe it will, will be the strongest crime bill we have passed in a long time—certainly the strongest in the last 25 years.

The legislation has about 55 different sections amending and adding various sections to the Criminal Code, strengthening measures aimed at drug

trafficking, the forfeiture of their assets, new investigatory and prosecutorial tools for the law enforcement community, initiatives directed at those engaged in trademark counterfeiting, money laundering, racketeering, credit card fraud, and computer crime. A new law aimed at career criminals, and a major revision of our sentencing and bail procedures. The measure also has a major anticrime program for State and local law enforcement agencies.

It does much more, Mr. Speaker, but time does not permit me to go on.

Mr. Speaker, I think this is a work product that we can be proud of. It is a bipartisan work product, and it proves that if we put the rhetoric aside and get down to the serious business of enacting crime legislation, we can do it.

Mr. Speaker, I am proud of this omnibus crime bill and recommend it strongly to my colleagues in the House.

□ 1100

WHY IS THIS PRESIDENT SO POPULAR?

(Mr. WALKER asked and was given permission to address the House for 1 minute.)

Mr. WALKER. Mr. Speaker, unemployment dropped again today. The figures are out and more people are working than were working last month and that certainly is good news for the economy. It is the kind of good news that is propelling President Reagan's reelection effort.

Many Democrats are looking around and saying, "Why is this President so popular?"

Well, he is popular because people are going back to work.

He is also popular because those same people who are now working here, Walter Mondale is telling them that he wants to take $157 a month more out of their take-home pay for additional taxes.

The American people are smart. They are smart enough to know that they want to keep a President who has put them to work and smart enough to know that they do not want a President who is going to take away the take-home pay that they are earning at that work.

AUTHORIZING PRINTING OF REVISED EDITION OF "HANDBOOK FOR SMALL BUSINESS"

Mr. GAYDOS. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate concurrent resolution (S. Con. Res. 140) authorizing the printing of a revised edition of the "Handbook for Small Business" as a Senate document, and ask for its immediate consideration.

The Clerk read the title of the Senate concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The Clerk read the Senate concurrent resolution, as follows:

S. CON. RES. 140

Resolved by the Senate (the House of Representatives concurring), That a revised edition of Senate Document Numbered 96-44, entitled "Handbook for Small Business", explaining programs of Federal departments, agencies, offices, and commissions of benefit to small business and operating pursuant to various statutes enacted by the Congress, shall be printed with illustrations as a Senate document; and that there shall be printed six thousand additional copies for the use of the Senate Committee on Small Business, and three thousand additional copies for the use of the Committee on Small Business of the House of Representatives.

The SPEAKER pro tempore. The gentleman from Pennsylvania [Mr. GAYDOS] is recognized.

Mr. GAYDOS. Mr. Speaker, Senate Concurrent Resolution 140 authorizes the printing as a Senate document of the revised edition of Senate Document No. 96-44, entitled "Handbook for Small Business" with illustrations. This publication, prepared by the Senate Committee on Small Business explains programs of Federal departments, agencies, offices, and commissions of benefit to small business and operating pursuant to various statutes enacted by the Congress. The concurrent resolution provides that the usual number of 1,500 copies shall be printed pursuant to the requirements of the applicable statute, section 701 of title 44 of the United States Code. In addition, it provides that 6,000 copies shall be printed for the use of the Senate Committee on Small Business and that 3,000 copies shall be printed for the use of the House Committee on Small Business. The estimated cost of printing, provided by GPO, is as follows:

Usual number of 1,500 copies (statutory requirement)	$36,545.09
Additional 9,000 copies	12,916.35
Total cost	49,461.44

This revised handbook would be the fifth edition to be printed by the U.S. Senate. The last edition was printed in 1979 and its supply has been exhausted for several months due to the widespread demand for this publication.

The "Handbook for Small Business" has been shown to be a valuable informational resource for small firms with innumerable and diverse problems who are seeking Federal assistance. The handbook is the only source available to a small business owner which provides a complete survey of all small business programs available in the Federal Government.

The SPEAKER pro tempore. The question is on the Senate concurrent resolution.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GAYDOS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on Senate Concurrent Resolution 140, the Senate concurrent resolution just concurred in.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

THREE-YEAR EXTENSION OF MAXIMUM EFFICIENT RATE PRODUCTION OF NAVAL PETROLEUM RESERVES—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore (Mr. BENNETT) laid before the House the following message from the President of the United States; which was read, and together with the accompanying papers, without objection, referred to the Committee on Armed Services.

(For message see proceedings of the Senate of today, Friday, October 5, 1984.)

PUBLIC BROADCASTING AMENDMENTS ACT OF 1984

Mr. DERRICK. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 592 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 592

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for the consideration of the bill (S. 607) to amend the Communications Act of 1934, and the first reading of the bill shall be dispensed with. After general debate, which shall be confined to the bill and shall continue not to exceed one hour, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Energy and Commerce, the bill shall be considered for amendment under the five-minute rule, and each section shall be considered as having been read. At the conclusion of the consideration of the bill for amendment, the Committee shall rise and report the bill to the House with such amendments as may have been adopted, and the previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit.

The SPEAKER pro tempore. The gentleman from South Carolina [Mr. DERRICK] is recognized for 1 hour.

Mr. DERRICK. Mr. Speaker, I yield the customary 30 minutes, for the purposes of debate only, to the gentleman from Tennessee [Mr. QUILLEN], and pending that, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 592 provides for the consideration of S. 607, the Public Broadcasting Amendments Act of 1984. The resolution provides for 1 hour of general debate to be equally divided and controlled by the chairman and ranking minority member of the Committee on the Judiciary. It also provides that each section of the bill shall be considered as having been read for amendment.

This is an open rule allowing consideration of any germane amendment under the 5-minute rule. There are no waivers of points of order contained in the rule. Finally, the resolution provides for one motion to recommit.

Mr. Speaker, this authorization measure has followed an arduous path toward enactment. On June 15, 1984, the other body approved S. 2436, a 3-year authorization measure for the Corporation for Public Broadcasting and for the Public Telecommunications Facilities Program. A little more than a month later, on July 24, the House adopted H.R. 5541, which contained the same funding levels as S. 2436, on a vote of 302 to 91.

Following House passage, however, a unanimous-consent request to hook the House-passed bill to S. 2436 was objected to. Therefore, on August 8, a rule was adopted by the House to provide for the substitution of the House-passed text into S. 2436. The rule was adopted 324 to 89, and the substitution was subsequently approved by the House by voice vote. On the following day, August 9, the other body agreed to S. 2436 with the House amendment, and the measure was cleared for the White House.

The measure was vetoed by the President on August 29 for what he deemed to be unacceptable spending levels over the 3-year authorization period. In the veto message, the President indicated he could support the funding level contained in an amendment offered by Congressman OXLEY, which was defeated in the House on a vote of 176 to 217, and which I understand will again be offered to this measure.

The bill we will consider after adoption of this rule, S. 607, was unanimously approved by the other body on September 20. Under this open rule, the Members of the House will have a full opportunity to work their will on the measure.

Mr. Speaker, I believe it is important to note that S. 607 does represent a compromise between the bill earlier passed by the Congress, and the funding levels the President has indicated he finds acceptable. I know that the sponsors of this measure at both ends of the Capitol have worked long and hard on this legislation, and I regret that negotiations following the veto were not fruitful.

As we enter the final week of this Congress, it is imperative that we resolve this impasse. Quite frankly, my colleagues may be aware that I did support the Oxley amendment when this measure was first before the House. I intend to support S. 607, however, as I believe it embodies the elements of true compromise, a compromise I hope the White House will accept without the necessity of a congressional override of another veto.

I urge adoption of this open rule.

Mr. QUILLEN. Mr. Speaker, I yield myself as much time as I may use.

Mr. Speaker, this is an open rule, as has been ably explained.

The bill itself authorizes $775 million in Federal funding for public broadcasting.

The President vetoed a previous measure which authorized $920 million.

Mr. Speaker, there will be an amendment offered by the gentleman from Ohio [Mr. OXLEY]. I urge adoption of that amendment, which reduces the funds for public broadcasting, but that can be debated on the floor of the House when the bill is considered.

Mr. Speaker, I know of no objection to the rule. I support it and urge its adoption.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. DERRICK. Mr. Speaker, I have no requests for time, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid upon the table.

The SPEAKER pro tempore. Pursuant to House Resolution 592 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the Senate bill, S. 607.

□ 1107

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the Senate bill (S. 607) to amend the Communications Act of 1934, with Mr. KOGOVSEK in the chair.

The Clerk read the title of the Senate bill.

The CHAIRMAN. Pursuant to the rule, the first reading of the bill is dispensed with.

Under the rule, the gentleman from Colorado [Mr. WIRTH] will be recognized for 30 minutes and the gentleman from New Jersey [Mr. RINALDO] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Colorado [Mr. WIRTH].

□ 1110

Mr. WIRTH. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in support of this bill.

We are once again debating the authorization level for the Corporation for Public Broadcasting.

I want to apologize to my colleagues for the fact that we are back here on this issue once again. I had hoped that legislation which was passed by a very broad margin in the House, and was passed unanimously by the other body, would put to rest once and for all the issue of the support of this Congress for public broadcasting. Unfortunately, that is not the case. The President has seen fit to veto this legislation, to veto the legislation authored jointly by Senator GOLDWATER and myself. He vetoed that about a month ago.

The President made the case that this was the place where we should draw the line, that this was the place where the budget should be cut back dramatically. Forget all of the other expenditures, of course. This is where the case was going to be made.

The case has been made. We have cut public broadcasting and cut it very significantly. Let me remind my colleagues once again of the numbers.

When Gramm-Latta passed in 1981, when Gramm-Latta passed, we cut the Corporation for Public Broadcasting by 40 percent. There was in 1981 a 40-percent cut in the authorization level for public broadcasting.

We thought at that point two things. One, public broadcasting should not be immune from cuts; and second, there should be perhaps greater efforts made by public broadcasting to go out and find outside support, to increase the number of participants in local auctions and so on, increase membership in public broadcasting stations, to increase corporate donations, to experiment with advertising. We went out after those cuts in 1981 and made every possible effort to find other support for public broadcasting.

The bitter truth is that significant additional outside support was not there. There was a very carefully done commission upon which two Members of the Congress sat, the gentleman from Iowa [Mr. TAUKE], and the gentleman from Washington [Mr. SWIFT] who were both on that commission attesting to and attempting to find and evaluate whether or not outside sources could be sharply increased. The broad conclusion which almost everybody shared was that those outside sources of income could not be found.

Based upon that, Senator GOLDWATER and I came back with the legislation which was vetoed by the President.

And what did that legislation do? What that legislation did was to bring the level of public broadcasting not above the 1981 levels, but only back to the 1981 levels, back to the 1981 levels. That was the legislation. This is in terms of buying power. That was the legislation vetoed by the President.

All we wanted to do was to get us back to where we were 4 years ago at a time when public broadcasting had grown very, very dramatically. The base of public broadcasting, the watching audience of public broadcasting, the responsibilities undertaken by public broadcasting have all increased very significantly, both for radio and television.

After the President's veto the negotiators on the Senate side attempted to sit down with the White House and work out an agreement on the numbers. The President insisted on his numbers and the Senate negotiators, led by our colleague from Arizona, could not come to an agreement. They then, therefore, came out with the levels we are talking about today in approving S. 607.

The numbers in S. 607 are the numbers that bring us up to 1977 in funding levels in purchasing power. All we are asking is that the levels of authorization for public broadcasting be returned to 1977.

The President vetoed 1981. We are asking for a return to the 1977 levels in terms of support for public broadcasting.

The amendment that will be offered by the minority today will bring the level of public broadcasting to 1975 levels. And there will be further amendment I believe offered by the gentleman from Minnesota that will take us back to 1973 or 1972.

What do we want to do in this institution with public broadcasting? Do we want public broadcasting to thrive? Do we want public broadcasting to grow? Do we want to just maintain where public broadcasting is, or do we want to effectively continue down the road of destroying public broadcasting?

I think overwhelmingly the Members of this institution have said over and over and over again that they want to support public broadcasting. We did so in the past. I would hope that we would do so again today by supporting the compromise put together again by Senator GOLDWATER, S. 607, which is before us today. I would hope that my colleagues would reject the amendments that will be offered on the minority side by I believe the gentleman from Ohio [Mr. OXLEY] and the gentleman from Minnesota [Mr. FRENZEL]. At least at the last sitting those were the amendments that were before us.

It is terribly important that we maintain buying power at least at the 1977 level.

There are a whole variety of other reasons for the support of public broadcasting. I will not go into them at this point. We will save those.

Again I would just remind my colleagues of where we are. We made significant cuts in public broadcasting. We cut it 40 percent in 1981. The bill the President vetoed just took us back to the 1981 buying power. The bill before us today returns us to 1977 buying power. The amendments which will be offered will take us to 1975 or 1973.

Please support S. 607.

Mr. Chairman, I regret that I am again taking the time of the House to consider an authorization bill for public broadcasting. But, S. 2436, legislation authored by Senator BARRY GOLDWATER and myself was recently vetoed by President Reagan. This legislation was a result of a bipartisan effort in both Houses of Congress to provide a satisfactory level of funding for our Nation's excellent public broadcasting system. The Senate passed it by voice vote, and the House passed it overwhelmingly by a margin of 302 to 91.

The vetoed legislation provided for the Corporation for Public Broadcasting to be funded at $238 million, $253 million and $270 million for fiscal years 1987, 1988, and 1989. the Public Telecommunications Facilities Program [PTFP]—providing grants to public TV and radio stations so that public broadcast signals can reach as many households as possible—would have been funded at $50 million, $53 million and $56 million for fiscal years 1985, 1986, and 1987.

These funding levels are clearly fiscally responsible in that they authorize the Corporation for Public Broadcasting to be funded by 1989 in real dollar terms at no more than the level it was authorized in 1983, which was set at $220 million. Moreover, these figures are based on assumptions that take into account all forms of non-Federal funding for the system. These other sources—underwriting, subscriber contributions, State and local grants—consitute 80 percent of public broadcasting funding and have already been factored into the equation in terms of how much Federal funding is necessary. In my view, the levels in S. 2436, which the President vetoed, are the absolute bare minimum needed to put public broadcasting on sound financial footing for the remainer of the decade.

The President's veto of the public broadcasting legislation poses a real threat to the future viability of the system. S. 2436 was vetoed by the President as a tactic to illustrate concern about the Federal deficit. Of course, it is ridiculous to even suggest that Federal support for public broadcasting has anything to do with the Nation's budget deficits when one considers that the cost of one B-1 bomber could fund a whole year of public broadcasting.

Senator GOLDWATER has recently introduced S. 607, a bill with lower funding levels than contained in the bill the President vetoed. The Senate passed S. 607 by voice vote on September 20. S. 607 authorizes $200 million for fiscal year 1987, $225 million for fiscal year 1988 and $250 million for fiscal year 1989 and funds PTFP at $25 million, $35 million and $40 million respectively for fiscal years 1985-87. These levels are not, in my view, adequate to meet the needs that the Congress has mandated that public broadcasting meet. For facilities, these levels are clearly inadequate to meet the critical upgrading and replacement of equipment that is necessary for millions of Americans to receive high quality service, or to receive any service at all.

However, I am supporting the S. 607 compromise in order to put an authorization in place before the 98th Congress adjourns.

The funding levels in S. 607 are $145 million less than the levels approved by the House in August. Much of the $145 difference would have gone directly to local stations to be used to produce local programming or to buy nationally produced programs. This amount of money will mean the difference between stations being able to afford to buy or produce many programs—and some shows such as "The Lawmakers," and "PBS Latenight," have gone off the air for lack of funding already.

If the levels contained in S. 607 are adopted, it would mean that, in terms of real purchasing power, the Corporation for Public Broadcasting would be authorized at the same level it was in 1977. These cuts are enough—Public broadcasting has already taken more than its fair share.

But the administration, through the Oxley amendment, would so turn back the clock that it would simply cripple this great national resource.

If these lower authorization levels are passed many other plans for programming may need to be shelved. For example, our original bill clearly provided the funding—$9 million—that is necessary for new episodes of "Sesame Street" to be produced, two-thirds of which are already reruns. The original bill also contained sufficient funding for allocation of the $25 billion in funding which will be necessary to produce programs to replace "The Electric Company," which has been in reruns for 7 years. A companion math series to the award-winning "3-2-1

Contact" may have to be scrapped for lack of money. These shows have been shown to add measurely to the education of children. Television is a critical educational tool for the Nation's youth. Production of children's programs on public television, which unfortunately is the only real source of enriching programming for youngsters, and has already suffered sharp cutbacks. The upcoming "Wonderworks," as well as "Reading Rainbow," programming aimed at teaching youngsters to read, have been cut 50 and 30 percent, respectively.

Public broadcasting has already endured massive cuts of about 40 percent put forth in 1981. Our original authorization measure was intended to restore these massive cuts, and was by no means seeking major increases as the President has contended.

The system is currently at a critical crossroads and is striving valiantly to fulfill its mission as a provider of diverse and excellent programming. The heart of the public television schedule, "Great Performances," "Frontline," and "Playhouse," which bring to millions of average American families a degree of cultural enrichment which they could not otherwise afford—have been cut.

Again, although these levels are insufficient, I have agreed to support the compromise bill introduced by Senator GOLDWATER, because I believe it is essential to put authorization legislation in place before the 98th Congress adjourns.

Earlier this week, the House-Senate Conference Committee on Labor-HHS appropriations approved funding of $200 million for CPB for fiscal year 1987. Again, this is the same level of funding for fiscal year 1987 that the Senate unanimously passed 2 weeks ago, and that I hope we will pass tonight.

Mr. Chairman, there is strong bipartisan support for substantial funding of public broadcasting, I urge my colleagues to expeditiously defeat any amendments to cut funding for public broadcasting that may be offered today. I urge my colleagues to quickly pass the S. 607 compromise so we can again attempt to address the critical issue of funding for public broadcasting.

Mr. RINALDO. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I have listened with great interest to the agreements of my good friend, the distinguished chairman of the subcommittee, and I personally feel compelled to say that normally I would agree with those arguments. I supported the increases, as he well knows, in the original public broadcasting bill. I personally would prefer the $145 million increase as authorized in S. 607. I think the gentleman recognizes that fact.

But I also feel compelled in my capacity as the ranking minority member to lay the facts of this matter on the table for all of the Members to evaluate.

Yesterday I had the occasion to speak with representatives of the Office of Management and Budget, as well as other White House staff. On the basis of those conversations, I feel very strongly that S. 607, in its current form, would be vetoed. I cannot tell anyone here that I am completely 100 percent certain of that fact; yet, before we risk a veto, we should understand the difference between the funding in S. 607 and the Oxley amendment. It amounts to about $27 million a year for a 3-year period. That is roughly 3 percent of the budget for the Corporation for Public Broadcasting.

I have come to bat for the Corporation for Public Broadcasting time and time again. I support their programs. I feel that they do an excellent job in providing alternative television and radio to our citizens.

Yet, I also feel duty bound by the information which I received yesterday to try to prevent the supporters of the Corporation for Public Broadcasting from in effect cutting their own throats and having a bill passed which will be vetoed.

Let us assume that S. 607 passes this House and is vetoed. Where would that leave us?

Next year we are probably not going to even get the 15-percent increase that is provided in the Oxley amendment. In fact, we will probably be fortunate to keep the authorization level at its current level.

We can get at least half a loaf with the Oxley amendment. But, we must remember that we have good indications that we will lose even this were the bill to pass in its current form.

So we are faced with somewhat of a dilemma, and I think that all Members should be aware of that fact. We have to recognize that in this less than ideal world we have to look at the realities.

I do not feel that it is worth taking the gamble that the chairman of the subcommittee is asking us to take.

I do not have a crystal ball, so I cannot say with certainty that if we vote down the Oxley amendment, and the bill gets vetoed, that next year we will be able to get a better bill or any bill at all. I do not know what the complexion of the next Congress is going to be.

I favor public broadcasting. I favor maximum funding. But I think we would make a horrible mistake if we did not think this matter over very carefully, take a good hard look at the realities of the day, the position we are in, and the fact that the President of the United States could exercise a pocket veto, and the Corporation for Public Broadcasting could have more serious funding difficulties than they have ever had before in their history.

□ 1120

Mr. Chairman, I yield 5½ minutes to the gentleman from Utah [Mr. NIELSON].

Mr. NIELSON of Utah. Mr. Chairman, I rise in support of the Oxley amendment. I have always been a strong supporter of public television. As a member of the Utah State Legislature I was instrumental in providing State funding for public broadcasting. Since PBS is very important to rural States like Utah I have a great interest in seeing that public broadcasting continues to serve the people of Utah.

However, since I am a responsible Member of the U.S. Congress, I must oppose attempts to fund discretionary programs, such as public broadcasting, at budget busting and irresponsible levels. Even though S. 607 is a considerable improvement over the previously enacted legislation, it is still well above the 3-percent increase allowed by the budget resolution. Moreover, the previously enacted bill was vetoed by the President and there is every indication that if S. 607 is enacted, it will likewise be vetoed by the President.

The Oxley amendment would provide a reasonable increase of 15 percent for public broadcasting which is three times the expected rate of inflation and five times the amount called for by the budget resolution. In addition, it is the only way of ensuring that this authorization is not vetoed by the administration.

Wednesday on the floor of the House we heard a lot of speeches about how much everyone wants to see a balanced budget. Well, now is the time to put your money where your mouth is and enact a bill that would show some effort to control spending.

There was mention in the opening remarks and also in the "Dear Colleague" that the efforts were not successful in achieving broadcasting support outside the public sector. It has been recounted by the chairman of the subcommittee that in 1981 cuts were made in this and many other programs partly because we were cutting the budget in general and we did not feel public broadcasting should be exempt any more than any other agency.

The president of the Public Broadcasting System indicated he could get additional support in the private sector and he gave us a figure which he would be able to live with and that was the amount which was passed.

My colleague from Colorado [Mr. WIRTH] has indicated those results were not very successful.

Let me read just a few figures from Public Broadcasting's own reports of its revenues.

In 1981 the total amount received from all sources was $768,900,000 of which $162 million was from the Federal Government. In 1982 the revenue from the Federal Government went to $172,000,000 the revenue from individuals jumped from $130,800,000 to $160,200,000 and from corporations it went from $86,800,000 to $89,900,000 and the total was $827,100,000 which is a 9-percent increase in total revenues during that particular year.

In 1982–83 period, the Federal Government revenues dropped to $137 million, the cut referred to earlier. However, the revenue from individuals went from $160,200,000 to $196,200,000.

Corporations, challenged to increase their support, went from $89,900,000 to $120,800,000. The total revenue from all sources went from $827,100,000 to $897,200,000, again approximately a 9-percent increase. This is the time when inflation was running at less than half of that.

So the effort has been successful. Revenue from corporations and individuals has been very good.

I think the public broadcasting system should be commended on doing a good job raising alternative money.

Mr. Chairman, I opposed the original bill because I felt the increase of 46 percent in 1 year, in the case of the regular broadcasting level, and an increase of 400 percent in the facilities portion was excessive.

We warned on the floor that the bill would be veto-bait. Of course we did get 176 votes for the Oxley amendment to bring the authorization level down so the bill would not be vetoed.

We think that the reason the President vetoed it is because any increase of 40 percent or more cannot be absorbed efficiently.

The Senate proposal, Senate 607, now calls for 23.4-percent increase the first year followed by 12½-percent increase and also 11-percent increase thereafter.

It takes us from $162 million in 1986 to $200 million in 1987 to $225 million in 1988 to $250 million in 1989.

Mr. Chairman, the Oxley amendment which will be mentioned later has a 15-percent increase each year starting at $186 million in 1987 then $214 million in 1988 and $246 million in 1989,

The net effect, by 1989, is only a difference of $4 million.

The question is: Do you want it in regular 15-percent increases in a 3-year period, or do you want the big kick immediately now in spite of the fact that you have a 9-percent increase in revenue to start with? Besides, we are talking about 1987, 1988 and 1989, which are well down the road.

Mr. Chairman, I would like to indicate also that the 15-percent figure is three or four times as much as we anticipate inflation to be.

I think that is very generous. Mr. FRENZEL, the gentleman from Minnesota, suggested a smaller amount, something like 10 percent per year. There are a good many people who feel that 10 percent is generous in this particular time.

Mr. Chairman, I do feel that the 15 percent is a generous proposal. I think it is sensible. I think it is one that the President would accept although it is higher than he recommended.

I think we should not risk the veto. Public broadcasting does have to have the assurance of year-to-year funding. I think it would be bad to risk a veto which would occur while we are out and we therefore would be unable to do anything about it.

I therefore plan to support the Oxley amendment when offered. I have mentioned to my friend from Ohio that I think perhaps the facilities construction area is one area where I might be persuaded to go with higher numbers, where we are perhaps a little on the stingy side.

Certainly for the regular levels I think 15 percent per year is adequate.

I thank the chairman.

Mr. WIRTH. Mr. Chairman, I yield 6 minutes to the gentleman from Washington [Mr. SWIFT].

Mr. SWIFT. I thank the chairman for yielding.

Mr. Chairman, I think what we are dealing with here really is whether or not we really want public broadcasting to survive as we know it. That is really the issue.

If you really examine what the administration has been doing, this is an effort I believe to force public broadcasting into a position in which it will simply have to turn to the commercial route to meet expenses. And if it does that, it will cease to be public broadcasting as we know it.

TCAF, the Temporary Commission on Alternative Funding for public broadcasting rejected the approach of commercializing public broadcasting and it did so for a number of very commonsense reasons.

First of all, that raises the costs of public broadcasting. Not only do you have to pay your sales force and so forth, but copyright holders have given public broadcasting special, lower fees recognizing the public service nature of public broadcasting. Labor unions have given different, lower contracts for public broadcasting, recognizing its special public value. Both have given clear indications to TCAF that if public broadcasting goes commercial they will no longer give those lower special benefits. So, Mr. Chairman we are raising the costs of public broadcasting by going commercial.

TCAF found that if you let public broadcasting become commercial, you put it into direct competition with commercial broadcasting. Let me ask you: How long is this body going to stand for the Government subsidizing one kind of station which is in fact in direct competition with the commercial stations for that commercial dollar in the local market? The very people who now say "Let them go out and earn some of their revenues by selling commercials" would be the first ones to say "That is unfair competition against the free enterprise system when one person who is out on the streets trying to sell time on its television station also has the benefit of public funds coming in and its competition does not have the public funds."

That inconsistency would very shortly be used against public broadcasting by the very people who seem to think that there is some value to the commercial approach.

TCAF also found that selling commercials as a means of financing public broadcasting simply will not work for most of the public broadcasting stations in this country.

Some, owned by universities, are limited by State laws which would not permit those public institutions to participate in commercial broadcasting. Many others are simply in market places where it would not work. There are some places, Chicago for example, New Orleans for example, where in fact the experiment worked well but TCAF also found that for public broadcasting as a whole it will not work.

Finally, TCAF found that inevitably adding commercials to public broadcasting will inevitably change the very character of public broadcasting, sending it down the same path that the commercial system has followed; namely, the path of always seeking the mass audience.

□ 1130

When you do that you no longer have PBS. You have something else. Maybe not something bad, but it is going to be very, very much like the commercial system. You will have lost what we have now and what has worked so well.

Funding level increases, if you take the history over recent years, not just last year, but over the last 4 or 5 years, have been modest. But PBS has been able to survive and continue.

With the Oxley reduction to the Goldwater figures, let alone the potential Frenzel or Dannemeyer reduction to the Oxley figures, will put PBS on a slow road to death, reducing its quality, which will reduce its audience, which will reduce its private support, which will reduce its quality, which will reduce its audience, which will reduce its private support, on and on and on until there is nothing left.

The only recourse that they would have under that scenario would be to join their commercial colleagues. We

are not going to be funding public broadcasting if it is competing with the private areas as I have said. And when all funding possibilities are gone from the Federal Government, PBS is gone. It will become something else, something less good. This has been a successful effort to augment our great commercial broadcasting system with programming that does not always do well in that special marketplace. I would cite children's programming as a classic example of something for which there is enormous need in our society, but which due to the nature of the demographics that advertisers look for, does not function well in this marketplace.

This brief and enormously successful effort to augment the great commercial broadcasting system of this country with programing that does not always do well and flourish in the peculiar market places of the television and radio, the progress of that effort, strong and growing and improving, has already been stopped, the growth is stopped, the improved is stopped. And the cutbacks, the reductions that will be offered today, the reductions over the Goldwater figures, will as sure as I stand here, be the death knell of Public Broadcasting as we have come to know it.

I urge my colleagues to support the very moderate and rational figures that have been offered in the so-called Goldwater-Wirth figures.

Mr. RINALDO. Mr. Chairman, I yield 5 minutes to the gentleman from Ohio [Mr. OXLEY].

Mr. OXLEY. Mr. Chairman, the chairman of the subcommittee mentioned in his opening remarks that he should apologize apparently to someone, either this body or somebody, for having to bring this bill up on the floor at this particular time.

I would simply say that no apology is owed to anyone, unless it is an apology from the Corporation for Public Broadcasting in their efforts to seek a huge increase in their funding levels and lobbying this House for those larger numbers.

In fact, we are really playing a game today of legislative chicken with the executive branch. But we are also playing a game of legislative chicken with the concept of forward funding that I think all of us support on this side of the aisle, as well as the other side of the aisle. It puts it in serious danger because there is no doubt in my mind from the remarks that the President gave in his veto message, as well as the letter that we received from the Budget Director, David Stockman, that this piece of legislation, as it is currently written, without my amendment, which is $81 million over what my figures are, will, indeed, be vetoed and will have lost that fight to obtain at least a moderate increase in the funding levels for the Corporation for Public Broadcasting.

The gentleman from Washington talked about all of these cuts that are supposed to take place. The fact is that my amendment that I will seek to offer a 15-percent increase.

The Chairman of the Corporation for Public Broadcasting went around talking about the fairness issue and how this was unfair and how it was unfair to children and minorities and everybody else.

I would simply say that the fairness question is really one of whether we are going to provide a 47-percent increase which was originally proposed, or a 25-percent increase under S. 607, or a 15-percent increase that I am going to offer.

A 15-percent increase, I might add, in the face of increases for things like food stamps at 3½ percent—I would simply ask: Which is the fairer figure?

The gentleman from Utah has also, by the way, told us that the sources of income that the Corporation for Public Broadcasting has enjoyed over the last few years has increased substantially. As a matter of fact, from 1973 to 1983 the overall income for the Corporation for Public Broadcasting increased threefold. So we are asking for a 15-percent increase on top of that.

Now, we hear a lot of sanctimonious talk on this floor, particularly this last couple of weeks, about budget deficits. Everybody is wringing his hands about budget deficits and we are passing phony baloney legislation sponsored by the chairman of the Budget Committee just last week talking about asking the President to submit a balanced budget. We all know it was not worth the paper it was written on.

And you stand here today and ask for an increase of 25 percent, when we were here just a few months ago and asked for an increase of 47 percent.

There is some discussion here also about the so-called Goldwater compromise. First of all, that is not the compromise. The figures that I offered during the debate on this bill the first time were the compromise figures.

If you read the veto message from the President you will find it is very clear that my numbers are the compromise figures. As a matter of fact, the administration has made it very clear that they are not all that happy with my figures and they think my figures are too high.

So, if you want to vote for a compromise, vote for the Oxley amendment that is going to be offered later and not for this figleaf that is trotted out before you.

This does not even get into the problems that we saw just a few months ago with National Public Radio and the scandals that developed with total mismanagement of NPR and what was or was not done about that.

So we are really going to find out, it seems to me, on this vote, on my vote, on my amendment,who the big spenders are around here and whether we are going to talk about big deficits from here until the election or whether we are going to have the courage to limit spending and to at least provide a reasonable increase at the same time.

The gentleman from Washington talked about advertising. I do not know where this came up in the debate. It is not part of the bill, it is not part of my amendment. I would simply say it is only a red herring.

The fact is that the increase has been rather dramatic in their funding levels, but it is also true, Mr. Chairman, that only 10 percent of the people who watch public television and listen to public radio contribute to that fund. So, it hardly has the broad base of support that apparently has been indicated from the other side of the aisle.

I would ask that this bill be defeated unless I have the opportunity to pass my amendment that I will offer later.

Mr. WIRTH. Mr. Chairman, I yield 5 minutes to the gentleman from Texas [Mr. LELAND].

Mr. LELAND. Mr. Chairman, I rise in strong support of S. 607, the public broadcasting amendments. This legislation provides public broadcasters $145 million less than the bill that passed with broad bipartisan support in both the House and the Senate earlier this year. This proposal is only $81 million more than the Oxley proposal. I believe, however, that the funding levels contained in S. 607 are the minimal levels acceptable if public broadcasters are to maintain their record of quality programming. In fact, I would favor a much higher level of funding for public broadcasting.

Public broadcasting has become increasingly important in recent years as an educator of our children. Shows such as "Reading Rainbow", "Wonderworks", "Powerhouse", and "Sesame Street" play a valuable role, since they are among the few shows with educational or social merit available on television today. With the Reagan appointed Fowler Commission gutting existing public interest requirements for commercial broadcasters and adamantly opposed to requiring commercial broadcasters to fulfill their obligation to our Nation's young, it is even more important that public broadcasters be provided sufficient resources to continue and expand on its record of service to our Nation's children.

One other thing that should be noted is that public broadcasting also provides a more balanced and positive image of minorities than does commercial broadcasting. On shows such as "Reading Rainbow," "Wonderworks," and others, minorities are shown as partners in the American experience.

It is important that children, who form much of their perception about life from television, receive a balanced view of minority life in America. Unfortunately, commercial television does not provide such balance. While public broadcasting is not perfect, it is immeasurably better in its portrayal of minority life, and in its commitment to the education of our Nation's young, than is commercial television.

In conclusion Mr. Chairman, I hope my colleagues will join me in reaffirming our support for public broadcasting by rejecting amendments to S. 607, and supporting it on final passage.

□ 1140

Mr. WIRTH. Mr. Chairman, I yield 2 minutes to the gentleman from Michigan [Mr. DINGELL], the distinguished chairman of the full committee.

Mr. DINGELL. Mr. Chairman, S. 2436, the original funding bill for public broadcasting, passed with overwhelming bipartisan votes in both Chambers earlier this summer. That legislation was sponsored by the distinguished Senator from Arizona, Mr. GOLDWATER. Subsequently, after the veto, Mr. GOLDWATER and a large number of Members in this body and in the other body have worked very hard to put together a reasonable and responsible resolution of the controversy attendant upon the veto of the public broadcasting legislation.

The numbers which are in this bill are entirely reasonable and responsible and are desirable because they will go some distance toward gradually restoring the Federal funding levels of 1982 over the next 5 years, an approach based on the findings of a blue ribbon bipartisan commission created by the Congress in the 1981 Reconciliation Act.

Briefly, the findings of that panel were that there is no alternative to continued public funding of public broadcasting because there is no way to raise the necessary funds from any other source to assure high quality programming both on radio and TV of the kind which is desperately necessary.

A number of my colleagues have worked very hard on this matter. The chairman of the subcommittee, the gentleman from Colorado [Mr. WIRTH], the gentleman from Washington [Mr. SWIFT], who served on the bipartisan Commission and is one of our resident experts on telecommunications, the gentleman from Texas [Mr. BRYANT], the gentleman from New Mexico [Mr. RICHARDSON], the gentleman from Texas [Mr. LELAND], the gentleman from Louisiana [Mr. TAUZIN], and the gentleman from Iowa [Mr. TAUKE], who was a member of the bipartisan Commission, all worked very hard to find a fair compromise. I believe the bill represents a reasonable, responsible effort by the Congress to accede to the President's wishes and at the same time serves the broad public interest.

I urge that the bill be passed in its present form by an overwhelming vote.

Mr. CONTE. Mr. Chairman, will the gentleman yield?

Mr. DINGELL. I yield to the gentleman from Massachusetts.

Mr. CONTE. Mr. Chairman, I appreciate the gentleman from Michigan yielding to me.

I rise in support of S. 607, the Corporation for Public Broadcasting reauthorization bill. This legislation provides funding levels of $200 million in fiscal year 1987, $225 million in fiscal year 1988, and $250 million in fiscal year 1989.

Mr. Chairman, last week I offered an amendment to the continuing resolution appropriating $159.5 million for the CPB for fiscal year 1987, the same level as for fiscal year 1986. I offered that amendment at that time only as a stopgap measure, in contemplation of action on an authorization bill. Since the CPB is forward funded, it was imperative that we provided some funding for the agency's 1987 budget in order that they may plan their budget for that year. Offering the amendment was only to correct an oversight in the continuing resolution, because there was no funding in there for the CPB—there was zero.

My amendment treated the CPB like all the other programs under the Labor/HHS section of the bill awaiting reauthorization: At the current rate, under current terms and conditions. As I said on the floor that day, I offered the amendment as a stopgap measure "until the reauthorization is passed and the committee can consider funding under the new authorized levels. It is in no way intended to undermine the authorization process.

Well, we now have that authorization bill before us. I supported the bill that was vetoed by the President, and now I am here to support this increase of $40 million over the fiscal year 1986 level.

And let me just say, Mr. Chairman, that this is a small increase compared to the services that the CPB provides. Already the decreases for the CPB that we enacted in 1981 are having drastic results in programing. Important cultural and educational programs are being forced out of production. One of the best programs on public broadcasting—"The Lawmakers"—has been canceled due to lack of funding.

In short, Mr. Chairman, I strongly support enactment of this bill, and urge my colleagues to join me in sending a clear signal that we support the excellent programs and services provided by public broadcasting.

Mr. DINGELL. I thank the gentleman. I want the gentleman to know that he has my greatest respect, we have been friends for a long time. I would yield to the gentleman even if he were going to speak against the bill, but I did not think he would.

Mr. CONTE. I thank the gentleman.

Mr. RINALDO. Mr. Chairman, I yield such time as he may consume to the gentleman from Alaska [Mr. YOUNG].

Mr. YOUNG of Alaska. Mr. Chairman, I rise in strong support of S. 607, the Public Broadcasting Amendments Act of 1984, a bill which would authorize important funds for telecommunications facilities and for public broadcasting.

Public broadcasting provides important services to the citizens of this Nation. In my own State of Alaska, it serves as a vital, and sometimes the only link for many communities to the outside world. Viewership of public broadcasting in Alaska is among the highest in the Nation. Two stations, KAKM, in Anchorage and KUAC, in Fairbanks consistently rank at the top in nationwide per capita viewership. KYUK, in Bethel, provides important cultural and educational programing in both English and Yupik for Alaska Natives, and KTOO-Juneau's award winning "Southeast Magazine" gives Alaskans a look at the unique character of the rugged southeast Alaska panhandle. The Alaska public radio network produces a number of highly acclaimed programs, including the award winning "Alaska News Nightly." Because of the remoteness of many of the areas served by APRN, the network provides important cultural and arts programing, in addition to State, national, and international news.

This legislation is a balanced compromise, reflections fiscal responsibility and the need to sustain an adequate level of funding for public broadcasting. I urge my colleagues to support it.

Mr. WIRTH. Mr. Chairman, I yield 5 minutes to the gentleman from Texas [Mr. BRYANT].

Mr. BRYANT. I thank the gentleman for yielding.

Mr. Chairman, I would like to observe that I find it incredible that the House Republican leaders on this committee that are attempting to cut public broadcasting—which is what you are trying to do, because you cut it in 1981, and what you are doing today is trying to keep it cut—would stand up on this House floor and pontificate about balanced budgets and suggest that they ought to lecture the other side of this issue on the issue of balanced budgets. I would simply ask you: Are you completely without any institutional memory? Are you completely unwilling to recognize responsibility that should be taken by your own party for your own actions?

This bill that is now before the House passed the Republican-controlled U.S. Senate without objection. This bill was sponsored by your own Presidential candidate, BARRY GOLDWATER, "Mr. Conservative." And yet you come forward and suggest to us that those who support what Mr. GOLDWATER proposed and what the Republican-dominated Senate proposed are somehow irresponsible.

I would simply submit today, Mr. Chairman, that nothing could more conclusively prove the final unalterable, irretrievable descent of the Republican Party and this Republican caucus into the mindless, unforgiving, uncompromising, pinheaded, extreme right wing, more than what they do today in holding up before us an evenly considered proposal that unanimously passed the Republican Senate, that was sponsored by Republican U.S. Senator BARRY GOLDWATER and suggesting to us that it is irresponsible. I would simply call on any remaining reasonable Republicans, if there are any left, to reject the direction that their party has taken on this issue, and I would certainly call upon my Democratic colleagues to do the same and support S. 607 and try to restore the Corporation for Public Broadcasting at least to its 1977 levels of funding.

Mr. WIRTH. Mr. Chairman, I yield myself 1 minute.

Mr. Chairman, we have had on the substance of this bill over the years extraordinarily good support from the Democratic side and from many, many of our colleagues on the Republican side. The Gentleman from Massachusetts [Mr. CONTE], the gentleman from Alaska [Mr. YOUNG], the gentleman from New Jersey [Mr. RINALDO], the gentleman from Iowa [Mr. TAUKE], and many, many others on the Republican side, have demonstrated the kind of bipartisan support for public broadcasting.

It is my distinct hope that we will be able to continue that support, that demonstration that people of all persuasions from all parts of the country, from all kinds of ideologies and all kinds of party labels, will continue to support public broadcasting.

Mr. CHAIRMAN, I yield 5 minutes to the gentleman from Louisiana [Mr. TAUZIN].

Mr. TAUZIN. Mr. Chairman, my colleague, the gentleman from Iowa [Mr. TAUKE], and I have been the prime sponsors of a bill to deregulate commercial broadcasting in this country. We have secured a majority of the Members of this House as cosponsors of a bill to do that.

One of the arguments we constantly make in support of our bill, to deregulate commercial broadcasting, which we hope to pass in the next session of Congress, is that this Government should not be telling commercial broadcasters what they ought to be broadcasting over commercial TV and radio. The first amendment rights of commercial broadcasters ought to be paramount. But if this Government has some policy of preferred Government programing, then public broadcasting is the appropriate vehicle for this Government and our people, through this Government, to speak.

It is through the Corporation for Public Broadcasting, in fact, that such programming as children's programming, educational programming, programs which enhances the role of minorities in our society, and programs, which appeal to the arts and culture of our society, are best expressed.

It is in that argument that my colleague and I, and others who believe in deregulation of commercial broadcasting, have for a long time supported very strongly the Corporation for Public Broadcasting.

You and I know that public broadcasting performs those invaluable functions in a beautiful way. Children's programming, educational programming, programming that enhances the role of minorities in our society, programs that appeal to the art and culture of our people are beautifully portrayed on public broadcasting. It is in part, in fact, of this Government's role in providing this unique service to America that the Corporation for Public Broadcasting was formed.

And so those of us who support strongly the deregulation of commercial broadcasting strongly support the Corporation for Public Broadcasting and its role.

Now, I differ with my colleague from the State of Washington in regard to the propriety of limited tasteful commercials as a means of helping to support public broadcasting.

□ 1150

In the city of New Orleans, WIES, our public broadcast television station, was part of the experiment for limited, tasteful commercials on public TV. That experiment went well. The money derived from that tasteful experiment enhanced the work of public television in New Orleans, and that tasteful commercial experiment went over well with the people of the city of New Orleans and was accepted well by the New Orleans commercial broadcasters. I have, for a long time, supported the Oxley movement to reduce the figures for public broadcasting in the hopes that we could continue keeping pressure upon those who would oppose some addition to the public broadcasters' ability to raise funds locally through some limited forms of tasteful commercial advertising. Frankly, I think that pressure ought to continue.

But it is now time for this impasse to end. The figures that Mr. OXLEY has proposed and the figures originally proposed by the chairman of our subcommittee, the gentleman from Colorado, are extraordinarily different. The figure proposed originally by the chairman was $920 million; the figure proposed by Mr. OXLEY is $694 million.

Now the new bill proposed on the floor today is, I think, an attempt to end that impasse. It is an attempt to strike a balance between those two figures: between the figures vetoed by the President, and the figures offered by Mr. OXLEY.

Let me call those differences to the Members' attention. This bill we are examining would provide $775 million for the Corporation for Public Broadcasting. That is $81 million more than Mr. OXLEY would propose, but it is $145 million less than the bill vetoed by the President and which our chairman had earlier proposed.

Now I think that does strike a legitimate balance between the two extremes. And I think it does keep the pressure on to find some alternative means for financing public broadcasting in our country. I think it does call upon us to continue to examine the possibility of limited tasteful commercials in public broadcasting, where it does work.

Therefore, I am going to support the bill offered on the floor today, and ask my colleagues to join me in doing so. But I am also going to ask my colleague from the State of Washington, and my chairman, and others who believe that public broadcasting needs more support, to join with me in looking to see whether we cannot allow some limited tasteful commercial advertising on public TV and radio as a means of supplementing the overall funding for public broadcasting.

Mr. WIRTH. Mr. Chairman, I yield 2 minutes to the gentleman from New Mexico [Mr. RICHARDSON].

Mr. RICHARDSON. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong support of S. 607, the public broadcasting authorization bill.

Public broadcasting plays an important role in the lives of over 500,000 New Mexicans and countless others throughout the country. In my home State of New Mexico, there are three public television stations which spotlight community issues and local concerns; which showcase the arts and the unique tricultural heritage of our State; and which focus on new and developing talent.

Our audience in New Mexico mirrors the population. Public broadcasting, with its emphasis on diverse programing and different cultures has many special programs to offer the Hispanic, Native American, and Anglo cultures of my district. As chairman of the Congressional Hispanic Caucus, I applaud the efforts of public broadcast-

ing at providing us with the opportunity to examine those unique and varied cultures which give this country its colorful and innovative character. In my district, a show entitled "The Illustrated Daily" does frequent, in-depth programs on issues affecting Hispanic Americans. "Sesame Street" is broadcast in Spanish, and "Latino Consortium," a syndicated program out of Los Angeles, offers programs designed for Hispanic audiences.

Not only will S. 607 provide funds for outstanding programs such as these, but it will help support the operations of the stations themselves. In New Mexico, we have stations in Albuquerque, Las Cruces, and Portales; they all receive valuable funding assistance from this legislation. S. 607 will also provide funds for equipment replacement—something our stations are in desparate need of.

While the funding levels in S. 607 are below those needed by public broadcasting, we genuinely benefit from this program, and I urge my colleagues to join with me in support of this important legislation.

The following are important points to consider:

KEY NUMBERS TO COUNTER OXLEY AMENDMENT

CPB funding

(1) Funding authorized in 1982 was $200 million. S. 607 authorizes funding in 1987 at the same $200 million level. When you consider inflation and increases in the number of stations, we are authorizing well below the 1982 level—and the 1982 level was insufficient for public broadcasting to meet many of its needs.

(2) Under S. 607, the 1987 authorization level is 18% less than the 1982 level in terms of real purchasing power.

(3) If the Oxley amendment is adopted, the 1987 number will provide 7% less purchasing power than available in 1977—ten years ago.

(4) Mr. Oxley's funding level for 1987 is 28.4% less in real purchasing power than 1983.

(5) Legislation would authorize $250 million for 1989 (this is $30 million over the $220 million amount authorized for 1983). Averaged out over the entire period of 1983-1989, this amounts to about a $4.3 million a year increase—or an average per year increase over the 1983 level of about 3%.

(6) After bringing public broadcasting back to a relatively sound financial footing where it was in 1982, increases must not only account for inflation, but also growth in the number of stations.

KEY POINTS TO COUNTER OXLEY AMENDMENT

NTIA

(1) The $25 million for facilities funding provided in S. 607 for 1985, is the same level authorized for PTFP in 1974—11 years ago.

(2) The $30 million authorized for PTFP for FY 1986 is the same level authorized for the program in 1975—11 years ago.

(3) The $40 million authorized in FY 1987 for PTFP is the same level as was authorized in 1979, or 8 years ago.

(4) It is obvious that we are going back to the Dark Ages here in terms of funding for this program, which is extremely important in bringing public broadcasting to the entire country.

(5) For FY 1984, only $11.88 million was appropriated for PTPF. However, grant applications last year requested a combined total of $72 million. Thus, only 14% of the applications could be granted.

(6) The $40 million authorized by 1987 in S. 607 represents 20% of the total facilities needs of public TV stations. The Federal commitment over the last 20 years has averaged 26%.

(7) If equipment is allowed to deteriorate to the point that replacement of most equipment is necessary, that will be cost of $1.4 billion, as opposed to the $100 million over three years that S. 607 provides.

POINTS ON OXLEY: SERVICES THAT EVEN OUR NUMBERS WON'T PROVIDE

At our hearing on the CPB authorization, the public broadcasting community presented a strong case for more funds than were included in H.R. 5541. Specifically, the public television stations requested funding of $384 million, $389 million and $406 million for FYs 1987-1989 which they believe would be sufficient to ensure excellence on public broadcasting.

The Subcommittee and the Committee however, adopted lower funding figures, identical to those proposed by Senator Goldwater, and co-sponsored by 53 Senators (including the Chairman of the Senate Budget Committee).

Thus, even with the funding provided in this bill, important services will not be able to go forward. This legislation will leave the following things unfunded:

Five weekly series for the post SESAME STREET audience and their families;

Interactive courses for advanced and remedial students;

Continuing education program such as new college credit courses, targetted at the one-third of our population which needs additional education for advancement or a change in careers;

Increased local programming covering state legislatures, and special audiences, and periodic coverage of special state and local cultural events;

Two major history series for adults, and a series focusing on American literature and artistic achievements;

A major effort to close-caption additional programming for the hearing impaired;

Additional programs to promote public television's visibility aimed at increasing view support and contribution to the system.

Thus, it is clear that the approach that the Committee has taken is extremely moderate, and will still leave many important programs and services unfunded.

Mr. RINALDO. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. WIRTH. Mr. Chairman, in closing the general debate, I would just like to make two points if I might: First, there was reference made to the financial problems that existed at National Public Radio. I might say it seems to me that that is not an appropriate issue to raise in this discussion, that sort of raising and waving a bloody shirt on National Public Radio. That problem, as we all know, has been after an enormous amount of attention by people on both sides of the aisle. It has been put to rest as best we possibly could, and to raise that again, it seems to me, does not help the situation, either of NPR or of our understanding of this particular authorization.

Second, the issue of a veto has been raised, and while we all have responsibilities to think through what is going to happen, we have done our best as legislators to come up with a compromise with the administration. They were not willing to compromise, so we effectively did what we thought was right, and that is what is in front of us here.

It seems to me that what we have to do in focusing on the amendments which are offered and on final passage is to decide whether or not we want to be intimidated by the allegations that there may be a veto. We hear also a great number of indications to the contrary. That is not the point. What it is our job to do is to figure out and vote and do what we think is the right thing to do.

So I would hope that Members would do the right thing; would support S. 607, and would get us through this as quickly as possible.

The CHAIRMAN. All time has expired.

Pursuant to the rule, each section is considered as having been read for amendment under the 5-minute rule.

The Clerk will designate section 1.

The text of section 1 is as follows:

Be it enacted by the the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Public Broadcasting Amendments Act of 1984".

Mr. WIRTH. Mr. Chairman, I ask unanimous consent that the Senate bill be printed in the RECORD, and open to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentleman from Colorado?

There was no objection.

The remainder of the text of the Senate bill is as follows:

AUTHORIZATION OF APPROPRIATIONS FOR PUBLIC TELECOMMUNICATIONS FACILITIES

SEC. 2. Section 391 of the Communications Act of 1934 (47 U.S.C. 391) is amended—

(1) by striking "and" after "1983,"; and

(2) by inserting immediately after "1984," the following: "$25,000,000 for fiscal year 1985, $35,000,000 for fiscal year 1986, and $40,000,000 for fiscal year 1987,".

AUTHORIZATION OF APPROPRIATIONS FOR PUBLIC BROADCASTING

SEC. 3. (a) Section 396(k)(1)(C) of the Communications Act of 1934 (47 U.S.C. 396(k)(1)(C)) is amended—

(1) by striking "and 1986" and inserting in lieu thereof "1986, 1987, 1988, and 1989";

(2) by striking "and" after "1985,"; and

(3) by inserting immediately before the period at the end thereof the following: ", $200,000,000 for fiscal year 1987, $225,000,000 for fiscal year 1988, and $250,000,000 for fiscal year 1989".

(b) Section 396(k)(3)(A)(i)(II) of the Communications Act of 1934 (47 U.S.C. 396(k)(3)(A)(i)(II)) is amended by striking "research, training, technical assistance, engineering, instructional support, payment of interest on indebtedness,".

CRITERIA FOR APPROVAL AND EXPENDITURES BY SECRETARY OF COMMERCE

SEC. 4. Section 393 of the Communications Act of 1934 (47 U.S.C. 393) is amended by striking subsection (c) and by redesignating subsection (d) as subsection (c).

REPEAL OF THE UNRELATED BUSINESS INCOME TAX PENALTY

SEC. 5. Section 396(k) of the Communications Act of 1934 (47 U.S.C. 396(k)) is amended by striking paragraph (8) and by redesignating paragraphs (9) and (10) as paragraphs (8) and (9), respectively.

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. OXLEY

Mr. OXLEY. Mr. Chairman, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. OXLEY:

Strike out all after the enacting clause and insert in lieu thereof the following:

SHORT TITLE

SECTION 1. This Act may be cited as the "Public Broadcasting Amendments Act of 1984".

AUTHORIZATION OF APPROPRIATIONS FOR PUBLIC TELECOMMUNICATIONS FACILITIES

SEC. 2. (a) Section 391 of the Communications Act of 1934 (47 U.S.C. 391) is amended—

(1) by striking out "and" after "1983," and

(2) by inserting after "1984," the following: "$14,000,000 for fiscal year 1985, $16,000,000 for fiscal year 1986, and $18,000,000 for fiscal year 1987,".

(b) Amounts appropriated for purposes of such section 391 for fiscal year 1985, 1986, or 1987 may not be obligated or expended in excess of the amount specifically authorized by the amendment made by subsection (a)(2) for such year.

AUTHORIZATION OF APPROPRIATION FOR PUBLIC BROADCASTING

SEC. 3. (a) Section 396(k)(1)(C) of the Communications Act of 1934 (47 U.S.C. 396(k)(1)(C)) is amended—

(1) by striking out "and 1986" and inserting in lieu thereof "1986, 1987, 1988, 1989";

(2) by striking out "and" after "1985,"; and

(3) by inserting before the period at the end thereof the following: ", $186,000,000 for fiscal year 1987, $214,000,000 for fiscal year 1988, and $246,000,000 for fiscal year 1989".

(b) Section 396(k)(3)(A)(i)(II) of such Act (47 U.S.C. 396(k)(3)(A)(i)(II)) is amended by striking out "research, training, technical assistance, engineering, instructional support, payment of interest on indebtedness,".

(c) Amounts appropriated for purposes of such section 391(k) for fiscal year 1987, 1988, or 1989 may not be obligated or expended to the Public Broadcasting Fund in excess of the amount specifically authorized by the amendment made by subsection (a)(3) for such fiscal year.

CRITERIA FOR APPROVAL AND EXPENDITURES BY SECRETARY OF COMMERCE

SEC. 4. Section 393 of the Communications Act of 1934 (47 U.S.C. 393) is amended by striking out subsection (c) and by redesignating subsection (d) as subsection (c).

REPEAL OF THE UNRELATED BUSINESS INCOME TAX PENALTY

SEC. 5. Section 396(k) of the Communications Act of 1934 (47 U.S.C. 396(k)) is amended by striking out paragraph (8) and by redesignating paragraphs (9) and (10) as paragraphs (8) and (9), respectively.

Mr. OXLEY (during the reading). Mr. Chairman, I ask unanimous consent that the amendment in the nature of a substitute be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. OXLEY. Mr. Chairman, I offer this amendment really to not only focus on the issue that was discussed in the general debate, but also to perhaps bring us up to some realistic place as to where we are. It seems to me that general debate took place in a vacuum. I think it is important to recognize that we have to deal with the executive branch, and in that light, I think it is important that we remember that my amendment that I see to offer, which would provide a 15-percent increase to the Corporation for Public Broadcasting, is in line with the President's veto message of August 29.

I would like to quote from that veto message because it is very important as to what is happening. A lot of us, at the time the bill was debated the first time, indicated that we felt very strongly and it would urge the President to veto it. Indeed, he did veto it, and we are saying again with even better evidence and even harder evidence that the President, without my amendment, is going to veto this piece of legislation as well.

So let me read from the veto message because I think it controls here.

□ 1200

The President says:

When all of the demands on the Federal budget are taken into account, increases in spending on public broadcasting of the magnitude contemplated by this legislation cannot be justified. They are incompatible with the clear and urgent need to reduce Federal spending. Moreover, this view is clearly shared by a large portion of the House of Representatives as indicated by the 176 votes in favor of the Oxley amendment to reduce the three-year authorizations by 25 percent.

I think it is very important that we recognize what the President is telling us here and that is that the original bill provided for too much money, but be he would be willing to sign a bill along the lines of my amendment.

He goes on:

In disapproving this bill, therefore, I urge the Congress to consider a revised bill providing more reasonable and moderate increases for the Board for Public Broadcasting along the lines of the Oxley amendment.

He also says:

I must also stress that my firm insistence on scaling this bill back to more fiscally responsible levels in no way jeopardizes the continued operations of public broadcasting stations across the Nation. Under the established funding mechanism, ample appropriations have already been enacted into law for all of Fiscal Years 1985 and 1986. Funding for another 25 months is already guaranteed.

So let us put it into context, not only the one veto that we have already had, but the very good chance that we are going to get a second veto on this bill.

Now the real question is, do we intend to play legislative chicken with the White House as apparently the gentleman from Colorado does, or do we want to provide a reasonable increase that I am going to provide in my amendment, that the President has indicated that he would sign, because remember that with any luck we are going to be out of here today.

The President could very easily put that bill in his pocket and that would be the end of it, and the concept of forward funding would go with it.

But we also have some other evidence, Mr. Chairman, in terms of my amendment, and that is a letter that I received from the Budget Director, David Stockman, that I would like to quote from as well.

Mr. Stockman says:

We want to assure you that we intend to persist in our intention to veto any public broadcasting authorization inconsistent with the clear and urgent need to reduce Federal spending. You have our support in conveying to others in the Congress that the authorization levels included in S. 607 are unacceptable in that they exceed the Oxley amendment by over $80 million and are well above the amounts proposed in the President's Budget.

So we have a clear indication here, not only from the President's veto

message but the letter from the budget director that this bill is serious trouble and is serious veto bait without my amendment.

As a matter of fact, the administration has already told me that they would prefer numbers lower than my amendment, but they would accept my amendment. What that means is this: My amendment is the last train out of the station. My amendment is the compromise. My amendment is the only one that is going to be signed by the President and I think it is very important that we address that as well.

This is not an antipublic broadcasting amendment. I have supported public broadcasting in the past and will continue to do so, but it is a budget question. It is simply a question of whether this Congress has the amount of money to appropriate for public broadcasting that is $81 million over my amendment.

Eighty-one million dollars. I recognize that is not a great amount in the overall scheme of things. As a matter of fact, we probably spill that much before breakfast, but it is still important, I think, that we recognize what $81 million is and what a difference that is; $81 million, for example, would buy 853 single family homes at an average of $95,000 per home. It would pay room, board, and tuition in a private school for 10,000 students. It would pay room, board, and tuition at a public school for 25,833 students and then something that might be a little closer to our hearts, it would pay the salaries of 1,125,000 Members of Congress for 1 year.

So it is not a small amount when we are talking about $81 million.

So please remember that this is the compromise. The Oxley amendment is the only opportunity you are going to have to support public broadcasting at reasonable levels that can be signed by the President.

The CHAIRMAN. The time of the gentleman from Ohio has expired.

(By unanimous consent, Mr. OXLEY was allowed to proceed for 2 additional minutes.)

Mr. OXLEY. It is the opportunity that we have to pass a piece of legislation that is reasonable and this is the compromise that we talked about.

However, the president of the Public Broadcasting Service has apparently felt it necessary to inject a lot of politics into this.

He states, and it was quoted in the Washington Post Friday, September 14:

> Bruce Christensen charged the veto discriminates against the poor, children and the elderly . . .
>
> "It is a campaign issue in the sense that we're talking about a service for people who may not be able to afford cable," Christensen said. "I think it's tied in with the whole question of fairness" . . .

Now if that is not a political comment, I do not know what is. I think that the past support for the Corporation for Public Broadcasting has been bipartisan. Indeed, it has been nonpartisan, but when this type of opportunity presents itself for the corporation to politicize the issue, I think it is time that we take a very, very serious look at the funding levels that we are proposing.

We are just asking that you support this compromise, not a fig leaf compromise that was generated in the other body and supported by some Members on the other side of the aisle.

This is your opportunity. Support my amendment and support public broadcasting.

Mr. SWIFT. Mr. Chairman, I rise in opposition to the amendment in the nature of a substitute.

Mr. Chairman, I know this is 1984, but I had not realized that the dictionary had been completely rewritten. I thought I understood the meaning of the word "compromise"; that is that you started up here and I started down here, and we kind of meet in the middle.

What the gentleman from Ohio [Mr. OXLEY] is calling compromise used to be in the dictionary known as "capitulation."

The administration has said, "We think this is the amount we will agree to, and that's it. We lay it out and that's it. If you want to do it fine, and we will call this, in 1984, 'a compromise'."

This House and the other body passed a bill that was $145 million greater than what we are asking for today. In other words, the people who are bringing this bill to the floor have dropped what they are asking for by $145 million. It is $80 million above what the administration is insisting upon. Now, is that going halfway?

No, that is not going halfway. That is going about two-thirds of the way. If you are looking for the spirit of compromise, it was made by the gentleman who came up with the Goldwater figures, and it has been supported over here in this body. We have made the compromise. We have agreed to $145 million less than we would have liked to have had.

And the administration will not go $80 million from what it would like to have had.

Now, I do not believe that this House or this Congress can be accused of failure to compromise, nor do I think this House or this Congress should participate in a process of total capitulation to the administration.

We are going more than half way. These are figures that are seen as reasonable by many people on that side, as a matter of fact, who in fact did not go along with us on our original figures. They see a compromise and recognize a compromise when a compromise is before them and they do not believe that this House should have to totally capitulate in order to get a bill through to save public broadcasting.

A game of chicken? Well, it is not true sometimes that it takes two to fight. Sometimes it only takes one. When someone sits there and says, you do what I want or we don't play at all, then it only takes one to ruin a potential agreement.

This House is not playing chicken. This Congress is not playing chicken with the administration. We have come more than half way to the figures that the President wants and we are asking him now to come less than half way to meeting our figures. We are not playing chicken but the President is playing bully. He is saying: "I have it all the way. I get all the marbles or I don't play. I will take my marbles and go home."

And what that means, very frankly, is he is taking public televison away, ultimately, and inevitably and you cannot argue otherwise from all of the American people.

Mr. WIRTH. Would the gentleman yield?

Mr. SWIFT. I will be happy to yield to the gentleman from Colorado.

Mr. WIRTH. Mr. Chairman, I associate myself with the gentleman's comments particularly on where we are going with public television.

Reference has been made on the other side of the aisle over and over again to what David Stockman says. Well, what has David Stockman's position been on public broadcasting?

□ 1210

It has consistently been that there should be no Federal support for public broadcasting. I remember very well Mr. Stockman's early budget presented by him with Mr. GRAMM of Texas in which they had zero in there for public broadcasting, and did not do it once, but over, and over, and over again.

So what we are talking about here is an overall strategy to destroy and eliminate public broadcasting.

The gentleman from Washington is absolutely correct. We have made that compromise offer again, and again, and again. The stonewall has come back again, and again, and again.

Come on. If we are going to compromise, we have offered that compromise. We would ask the gentleman from Ohio and our brethren on the Republican side to join us in a reasonable and rational compromise for the purpose of maintaining public broadcasting, and let us not invoke those who want to destroy public broadcasting, as has been done in this debate.

Mr. OXLEY. Mr. Chairman, will the gentleman yield?

Mr. SWIFT. I yield to the gentleman from Ohio.

Mr. OXLEY. I thank the gentleman for yielding.

Mr. Chairman, I just want to make it very clear: No one ever approached this Member from Ohio about any compromise, never, ever, from the Corporation for Public Broacasting or anybody else who is carrying the bill, either on the Senate side or on the House side. I want to make that very clear.

Second, the compromise is indeed a 15-percent increase.

Mr. SWIFT. Excuse me. If I could reclaim my time, would the gentleman repeat what he just said? I did not understand.

Mr. OXLEY. That no one had approached me about a compromise at any time during this debate, and particularly since the veto.

The CHAIRMAN. The time of the gentleman from Washington [Mr. SWIFT] has expired.

(On request of Mr. WIRTH and by unanimous consent, Mr. SWIFT was allowed to proceed for 3 additional minutes.)

Mr. SWIFT. The gentleman from Arizona has been down talking to OMB for weeks trying to work this compromise out.

Mr. OXLEY. I have not talked to any gentleman from Arizona or anybody else.

Mr. SWIFT. He is of your party. You should be able to go over there and talk to him.

Mr. OXLEY. The fact is, it did not happen; and the fact is that the other body is being irresponsible on this particular bill, is being irresponsible on the continuing resolution, and I do not feel I have to stand here and defend the honor of the other body.

The fact is, from our side of the aisle, and from our standpoint, we were never approached with a compromise. A 15-percent increase is not a small increase. A 15-percent increase is three times or four times what the amount of inflation is.

Mr. SWIFT. Mr. Chairman, I am going to reclaim my time from the gentleman from Ohio.

If you do not want to defend the honor of the other body, at least do not impugn it.

All I am suggesting is, we are offering a genuine, true compromise going almost two-thirds of the way, and the White House will not budge. That is not a compromise, and if anyone is playing chicken, it is from the other end of Pennsylvania Avenue; it is not up here.

Mr. OXLEY. Mr. Chairman, will the gentleman yield on that point?

Mr. SWIFT. I yield to the gentleman from Ohio.

Mr. OXLEY. I would simply ask my friend from Washington, if he felt that strongly about it, clearly he could have tried to override that veto that occurred in September when we came back from the recess.

Mr. SWIFT. No; that would be playing chicken, my friend. What we are trying to do is compromise.

Mr. MICHEL. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the amendment.

Mr. Chairman, I think we have all heard the arguments on the merits of this bill, and we have also heard time and time again the arguments on the merits of holding down spending wherever we can. We have failed to cut spending in this House because this body has never learned to say no on occasions exactly like this.

I want to make an appeal to Members of this House who do not serve on any one of the committees directly involving this piece of legislation. I happen to be one of the Members, when I was serving on the Committee on Appropriations, who had a responsibility for setting the funding levels for public broadcasting. I remember all the arguments when we were beginning initially considering funding of what we conceived the role of public broadcasting in this country and what we expected from the private sector by way of private contributions to make this system work.

It was never intended that it was just simply going to be all federally funded; on the contrary, private support was to be an integral part of the program.

How many of us in this body have been asked to help those fundraising efforts in our local community? I support it fully, and to characterize anyone who supports this amendment as being antipublic broadcasting is just hogwash. I support that program solidly, but I will tell my colleagues that there is a limitation to what the Federal Government has got to come up to by way of matching those private contributions.

Every one of the persons sitting on these committees has all sorts of pressure brought to bear by every one of those stations out there in the country, demanding "Be my advocate, be my advocate," and they cannot say no. This is one of those occasions when the entire House has got to override what some of the members of the committee feel they simply cannot do, and that is to be up there foursquare for everything those public broadcasting advocates want. That happens time and time again around this country, and the end result is that we never cut any Federal spending.

The Oxley amendment provides for a 15-percent increase. That is pretty substantial in view of the fact that inflation is only 4 percent and with us trying to cut down and restrain spending in order to narrow the deficit.

We hear these pious pronouncements down here stating: "I am for balancing the budget, I am for balancing the budget." Well, here is one of those items where you can make a contribution. But no, you want to give in to all that pressure there. I know what it is. It is nice to be able to go home to your public broadcasting station and be asked to appear on a public service program. Everybody feels an inclination, maybe I owe them something.

Let me tell you, my friends: There is a national interest here we owe some consideration to, and that is a contribution to helping us restrain the level of Federal contributions to even as laudable a program as public broadcasting.

The gentleman's amendment is one of moderation, and it seems to me we are in that kind of mold here, my friends, where we have to think in terms of moderation rather than excesses. I think this is just as good an example as any to show our true mettle.

Mr. BRYANT. Mr. Chairman, will the gentleman yield?

Mr. MICHEL. I would be happy to yield to the gentleman from Texas.

Mr. BRYANT. I thank the gentleman for yielding.

Mr. Chairman, I would just like to point out to the gentleman and ask him if he intended to include in his remarks critical of those of us who have supported this $145 million reduction from the first bill to pass the House the Republican Members of the U.S. Senate who unanimously supported this bill?

Mr. MICHEL. I know, and the gentleman makes my point. They are on the committee.

Mr. BRYANT. Everybody in the Senate is on the committee?

Mr. MICHEL. They are no better able to stand up to pressure than Members of the House. I have seen that in Members of my own party. I know very well what the gentleman is inferring but, frankly, I am making the point here in the House about what we ought to do in the name of fiscal sanity and still supporting a reasonable increase, as the gentleman from Ohio is proposing.

Mr. BRYANT. If the gentleman will yield further, is the gentleman aware that 53 Members of the Senate originally supported the higher numbers that were vetoed by the President?

Mr. MICHEL. That does not impress me one bit.

Mr. BRYANT. What does impress the gentleman?

Mr. MICHEL. They do not have a corner on brains and knowledge in that other body. This may be called the lower House, but it has just as much quality up here as the other body.

Let me conclude by urging support for the Oxley amendment as a reasonable compromise that limits spending but still provide a significant increase for the program.

The CHAIRMAN. The Chair at this time would remind all Members to not refer to actions of the other body.

Mr. DINGELL. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

Mr. Chairman, there comes a time when a fellow has got to decide whether an expenditure is a good investment or whether not spending money is a good investment. I think before us we have a rather clear example of that kind of choice.

One must ask: Are we prudent in spending money on public broadcasting? Are we prudent in spending it at a certain level? Are we prudent in making cuts, or are we imprudent in making cuts?

Sometimes you cannot afford a bargain, and that bargain can be cutting expenditures which might be important to the future of the country. This Nation has learned that our educational system is one of the wonders of the world, and one of the very important parts of our educational system, both for the young and for the more senior of our citizenry, is public broadcasting. It is one of the wonders of the world. It functions well and efficiently in terms of educating our people at very, very minimal costs. It contributes to the learning of preschoolers and suits them, through remarkable programming, to be ready for quality education, and not only in the well-to-do neighborhoods. It provides a welcome advantage to children in some of the homes in some of the areas where the poor and the working class people exist and live as well as in the more well-to-do areas.

It also provides a level of quality of life and of culture to our society without which no society is genuinely civilized or genuinely educated.

□ 1220

Now, a few years ago, at the behest of the administration, at the behest of Mr. Stockman, the attempt was to totally eliminate funding for public broadcasting. That, after a long battle between the House and the Senate, was thwarted, but the level of cuts was huge, and this body and our colleagues in the other body came together in connection with the resolution of that controversy by setting up a panel, a Commission to look into whether or not alternative funding and financing was available. This panel, composed largely not of Democrats in fact, but with a majority of Members of the minority party here, came to the conclusion that there was no way that public broadcasting could be funded without a substantial infusion of public funds from the Congress of the United States.

After looking at these matters, our colleagues who served on that Commission and our colleagues in the Senate, including the distinguished Senator from Arizona, whom nobody can call a parlor pink or a fellow traveler or a fiscally irresponsible Member of either body, came to the conclusion that we should increase public funding gradually, and that we should carry out the recommendations of the Commission which we set up as a part of the Gramm-Latta package, that we should return public broadcasting to the funding levels of the early 80's, not to move it forward but simply to gradually return it in real dollars to the funding levels which the Federal Government has given public broadcasting as of 1982. The original package which was vetoed was one which did exactly this—bringing the funding level back gradually over a period of years.

In this new package, S. 607, the Congress of the United States goes two-thirds of the way toward the position of the White House. Under it we will not reach the 1982 levels of Federal assistance to public broadcasting until the middle of the next decade.

Public broadcasting is a great treasure. It is an institution which provides not only educational experiences and educational opportunities for our young but it provides an immense contribution in terms of the culture and the quality of life to all of our people. It is something which should be cherished, and it is something which should be enhanced.

We are not asking massive increases. We are only asking that, for the benefit of all of the people who will enjoy it and who will enrich their lives, both educationally and culturally, from this wonderful device, we return it by 1995 or thereabouts to the funding levels in real dollars of 1982. This is not an extravagance.

The CHAIRMAN. The time of the gentleman from Michigan [Mr. DINGELL] has expired.

(By unanimous consent, Mr. DINGELL was allowed to proceed for 2 additional minutes.)

Mr. DINGELL. Mr. Chairman, this is not an extravagance. We are simply asking that we in the Congress do what has been recommended by our Commission, that we move toward a responsible level of funding, and that we provide the funding which the Commission we established says cannot be achieved in any other way, not immediately but by the middle of the next decade, for the good of this country and to provide an important educational and cultural device which will better the lives of all the people in our country.

I am not asking my colleagues to be spenders; I am asking them to be investors. I am asking them to be investors in the future of this country by supporting the proposals which were made by Senator GOLDWATER, which were passed overwhelmingly by the Senate, and which are supported by the committee of jurisdiction and have been supported in other moments by this body in a much more generous form than that rather piddling increase in the levels of current funding which are involved in current law.

Mr. Chairman, I urge that the amendment be rejected overwhelmingly.

Mr. BROYHILL. Mr. Chairman, I move to strike the requisite number of words, and I rise in strong support of the amendment that has been offered by my good friend, the gentleman from Ohio [Mr. OXLEY].

Mr. Chairman, when the gentleman from Illinois was in the well of the House, he did bring into the debate the issue of the budget questions, and I think that we should be concerned about budgetary matters. It seems that in this debate in this political season, budgetary matters and the subject of the deficit have been made a major issue.

This House passed a budget resolution last spring and then again passed the compromise which came from the conferees, and that budget resolution, in my judgment, no matter where you might say it came out with respect to taxes, did come out strongly, I think, in favor of exercising some restraint on Federal spending.

The gentleman from Colorado—I see he is not on the floor, and I hesitate to refer to him—has been a member of the Budget Committee, and he knows the enormous difficulties that committee has had in wrestling with this problem of dealing with the budget deficits, and he knows we cannot accomplish the goal of doing something about these deficits unless we start holding the line on these spending programs and these authorization levels as they come along.

Now, the bill that is before us violates the budget resolution that was adopted by this House, and I think those restraints that are contained in that budget resolution reflect the will of the people, at least from what I hear. What this bill is doing is granting unprecedented increases in Federal subsidies to public broadcasting.

Mr. Chairman, I must say that I must stand here in strong opposition. Perhaps I could say it stronger than that, but I hesitate to do so. I regret that Members on the other side are somehow trying to charge Members on this side with gutting public broadcasting. That is not true. Altogether, the bill that is before us authorizes Federal spending totaling $775 million over the next 3 years. When we compare that level with what has been

spent in the last 3 years, the comparison is shocking indeed. There is $775 million in this bill and $507 million that has been expended during the most recent period. In other words, that is an increase of 53 percent.

Mr. BRYANT. Mr. Chairman, will the gentleman yield?

Mr. BROYHILL. I will be glad to yield in a few moments.

Mr. Chairman, all I want to do is point out that what the gentleman from Ohio is trying to do is to save the funding bill for fiscal years 1987 and 1988 for public broadcasting. I want to point out to Members who might be listening back in their offices—there are not many Members on the floor to listen to this debate—that the appropriations have already been enacted into law for fiscal years 1985 and 1986, and those funding levels are significantly lower than in the Oxley figures. The gentleman from Ohio [Mr. OXLEY] is providing for a 15-percent increase each year over those funding levels, and I do not see how Members on the other side of the aisle can get up and say that his tremendous increases in authorizations are somehow gutting public broadcasting. That is not true.

Now, the fact is—and this is a political fact of life—that the gentleman from Washington can, of course, be outraged at the fact that the President did veto a bill. That is his prerogative. But the President has shown that he will veto outrageous Federal spending increases such as those that are contemplated in this bill.

Mr. SWIFT. Mr. Chairman, will the gentleman yield on that point?

Mr. BROYHILL. I am glad to yield to the gentleman from Washington.

Mr. SWIFT. Mr. Chairman, I have not been outraged because the President vetoed the last proposal. I have been outraged because the President will not compromise on this bill. I want to clarify that in the RECORD.

Mr. BROYHILL. Mr. Chairman, I would say that the President has agreed or has indicated at least in his statement that accompanied his veto far more approval of what he called reasonable and moderate increases for public broadcasting along the lines of the Oxley amendment.

□ 1230

The CHAIRMAN. The time of the gentleman from Virginia has expired.

(By unanimous consent, Mr. BROYHILL was allowed to proceed for 2 additional minutes.)

Mr. BROYHILL. Mr. Chairman, I am saying that there are very strong indications that the administration continues its opposition to the funding levels, the huge increases that are contained in the committee bill and that they would be far happier with the increases that are provided for in the Oxley amendment and I think we would be better advised to enact some numbers along the line of the Oxley amendment.

Now, frankly, I am going to tell you where I stand. I stand for lower figures than that, but I would like to see a bill signed. I do not think we ought to wait until next year. I would like to see a bill signed, and I think the Oxley amendment, if adopted, gives far more assurance that that would be signed than the Wirth bill.

The Oxley amendment is the reasonable compromise that this House should adopt.

Now, the gentleman from Washington is indicating that some compromise has been made. We are in the process of making that decision here and we have presented the Oxley amendment as a reasonable compromise. What it does is balance the need of the public broadcasters for more revenues; at the same time we have the other concerns that the Congress should have and that is to try to keep the Federal expenditures under some control.

I want to point out again, the Oxley amendment increases Federal subsidies by 15 percent each year. This is three times the expected inflation level rate and is more than enough money to ensure that the public broadcasting industry will continue to serve this Nation well and is far more money than the public broadcasting industry has ever received. The gentleman from Texas cannot refute that.

Mr. BRYANT. Mr. Chairman, will the gentleman yield?

Mr. BROYHILL. I will be glad to yield to the gentleman now.

Mr. BRYANT. Mr. Chairman, I wonder how the gentleman can stand there and tell the House that, when in fact Senator GOLDWATER'S bill now before this House would restore funding levels to the 1977 level.

Mr. BROYHILL. Mr. Chairman, I refuse to yield further. The 1977 appropriations were $103 million. The gentleman does not have the facts. The gentleman does not have the facts. It was $103 million.

The CHAIRMAN. The time of the gentleman from Virginia has again expired.

(At the request of Mr. NIELSON of Utah, and by unanimous consent, Mr. BROYHILL was allowed to proceed for 5 additional minutes.)

Mr. BRYANT. Mr. Chairman, will the gentleman yield?

Mr. BROYHILL. I will be glad to yield, but I would appreciate if the gentleman would go back to the budget tables and get the correct figures.

Mr. BRYANT. I would appreciate it also if the minority would choose to talk about apples when we are talking about apples and oranges and we are talking about oranges.

When the gentleman discusses the budget and talks about how much money this country spends, we are talking in terms of real dollars; so do I, and in terms of real dollars, the bill by Senator GOLDWATER before this House today would restore the Corporation for Public Broadcasting to the 1977 levels. That is irrefutable.

Mr. BROYHILL. The only thing the gentleman can do is go back to the budget tables. The appropriation level for 1984 is $145 million.

The appropriation for 1985—I am talking about the public broadcasting portion of the bill, the telecommunications facilities for 1984 is $12 million, which is a relatively small part of this.

The appropriation level for 1985 is $153 million.

The authorization in 1986 is $162 million.

The appropriation levels are in that ballpark. The most that has ever been appropriated for the public broadcasting side of this is $172 million.

The gentleman from Ohio is proposing $186 million in 1987; $214 million in 1988; $246 million in 1989, enormous increases, far and above the amounts that have ever been expended in the past.

Mr. BLILEY. Mr. Chairman, will the gentleman yield?

Mr. BROYHILL. I will be glad to yield to the gentleman from Virginia.

Mr. BLILEY. Mr. Chairman, I thank the gentleman for yielding.

The question at issue is not whether or not you favor public broadcasting or not. It is not a question of whether you are going to fund it or not. Public broadcasting has been doing a nice job and what the amendment of the gentleman from Ohio [Mr. OXLEY] would do would be to increase that authorization 15 percent a year for the next 3 years.

Mr. BROYHILL. Not for the next 3 years, it is for 1987 and 1988.

Mr. BLILEY. For 1987 and 1988, I stand corrected. I thank the gentleman.

Mr. Chairman, if the gentleman will yield further, it is a question of whether you want a limousine or do you want good solid transportation. I think the amendment of the gentleman from Ohio [Mr. OXLEY] qualifies for good solid transportation.

I was particularly interested in the comments of the chairman of our committee, the gentleman from Michigan, who said that when you consider this, you have to consider whether it is a good investment. I would hope that all of the bills that we pass that contain money in them are good investments, otherwise we would not waste the time of the House or the country's resources in considering them; but if we apply that and we say everything is good, so therefore we do not put any restraints on spending.

If we are serious, and I hope the Members of the House were serious the other day when they voted overwhelmingly that the President submit a balanced budget; well, if this is an indication of how we would treat the President's submission, then I say it is hardly worth the paper that it was printed on.

We should support the Oxley amendment because it is reasonable and it has a chance of being signed into law and it also provides, as the gentleman from North Carolina has so ably pointed out, three times the level of inflation and the rate of growth in authorization in it.

Certainly, certainly it is most generous when we have to consider what we have done with other authorizations in the course of this year.

Mr. Chairman, I thank the gentleman for yielding.

Mr. BROYHILL. Mr. Chairman, I want to repeat again that the appropriations have already been enacted into law for 1985 and 1986. What this bill is calling for is forward funding for 1987, 1988 and 1989.

They are talking about a 53 percent increase over and above the amount that has been provided for during that most recent 3-year period.

I say that the Oxley amendment is in order and it should be enacted. It provides a reasonable funding increase, at the same time it does not go up as fast as that provided in the bill. It is more likely to be signed into law and I think it is the most responsible action this House can take at this time.

Mr. SCHEUER. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, the Oxley amendment represents a very Scroogish approach to public television. We are moving toward the Christmas season and we all are familiar with the Christmas character of Scrooge. Well, we are anticipating Scrooge in October instead of December.

We are starting from such a low base, so badly did we gut public television funding a year or two back, that even with the so-called 15-percent increases found in the Oxley amendment, in 1989 we will be below the real dollar funding for public television in 1983.

In 1983 we provided $220 million. The real dollar value of $246 million in 1989, after 6 years of inflation at $240 million, is certainly significantly less than the $220 million that we authorized in 1983.

In 1983, we went from $220 million to $145 million in 1984. We have since been involved in a long, laborious painfull process of pulling ourselves up by our bootstraps to a more civilized and felicitous level of funding. If we pass this bill without the Oxley amendment, public television will be barely able to survive. Its lip will barely be above water. It will be surviving marginally. With the Oxley cut, I fear there will be devastating cuts in the quality of public service programming.

Countries around the world have commercial programming alongside of public programming. We in our country have commercial programming and public programming, but in our public service television, 80 percent of it is not funded by the Federal Government. Eighty percent of it is funded by local and State governments and by corporate charitable foundations, and individual contributions.

So we could be doing far more than we are doing. It is not written in the heavens that the Federal Government must be limited to 20 percent. It could be 25 or 30 percent and it would still be a predominantly private funded television system.

Other countries have found a far higher appropriate level of funding on a per capita basis and in many ways they have worse economic and financial problems than we do.

□ 1240

The United Kingdom, England, with all of her problems, provides $15 per capita for her public television. Canada $17.20 per capita. Japan $21 per capita. What is the United States providing for public television? $2.40, just over 10 percent of what the Japanese provide.

So we have a long way to go before we get a level of funding for public television that is appropriate to our wealth, to the dynamism and productivity of our economy, that is appropriate to the need.

I heard the gentleman from Michigan, Chairman DINGELL, laud our education system. I agree with most of the things that he said. I am not sure our education system in all parts of the country is as good and as effective as he apparently finds it to be.

Be that as it may, one of the ways that we have found that we can ameliorate the shortfalls in our education system, and some of the ways in which our public education has failed to meet the needs of low income, disadvantaged, culturally deprived families, is through public television. The much lauded and decorated "Sesame Street" gives us a significant example of how public television can reach into homes, the homes of poor families, poor kids, to give them the enrichment and the simulation that they have not been able to find in the public school system. And the MacNeil-Lehrer show among a continuing host of evening and weekend public TV shows, provide an example of how enriching public TV can be for adult viewers, especially the elderly and disabled whose lives are circumscribed. We should be providing for more generous funding than the resources this bill would provide. Let us at least avoid further cuts under the disengenuous and sanctimonious guise of increases from the hands of public TV's so-called friends and supporters.

A few more such friends and supporters and public TV will be killed dead for sure.

Mr. BROWN of Colorado. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, a number of comments have been made by Members here today. I would like to address some of those.

First of all, it has been observed by many that public broadcasting offers excellent services, a quality of special value to this country, a quality of service that is not always available on other stations. I would like to lend my endorsement to that observation. I have been pleased by the quality of many of the programs that appear on public broadcasting. They do offer a special service to our country.

So I do not think the issue here is whether or not you like public broadcasting. As I talk to Members on both sides I find strong support for the kind of broadcasting that is available, and a special appreciation for the events with which they deal.

Second, I would like to share some observations with regard to the issue of outside earnings and outside income that is available to public broadcasting. There has been concern expressed that it is not possible to raise the funds necessary to continue the quality of services presented by public broadcasting.

Let me share with you the figures that have come from the public broadcasting stations themselves. From 1982 to 1983, a year in which the impact of a cutback in Federal funding hit public broadcasting, they enjoyed something like a $70 million increase in total revenues. Let me repeat that, in a year in which Federal funding was cut from $172 million down to $137 million, total revenues by public broadcasting went a little over $70 million.

If the question is whether or not funds from the outside are available, I think that is dramatic proof that funds are available. Revenues from corporations went from $89.9 to $120.8 million. Revenues from individuals went from $160.2 to $196.2 million.

The bottom line is that there is an enormous amount of resources available from individuals and corporations.

The point is if we are concerned about public broadcasting I think that is proof that there are resources out there if public broadcasting will seek them. The constraint of public funds which may be necessary because of lack of revenue does not mean the demise of public broadcasting.

Third, the point has been made that the funding offered by the gentleman from Ohio is inadequate. I think that is addressed by the availability of outside funds.

But let me suggest this for the consideration of the Members: Is a 15-percent compounded rate of growth in public funds inadequate when you have an inflation rate of 4 percent? Is there any public group that objects to a 15-percent pay raise when inflation is 4 percent?

I suggest to the Members if we face a financial bind, and we do, that a 15-percent compounded rate of growth is extremely generous, not paltry.

Agreed, we are speculating on what the rate of inflation might be. But the simple fact is with an annual deficit in the neighborhood of $200 billion a year, a compounded rate of growth of 15 percent is extemely generous, not too small.

One last point. As I talk to Members on both sides I find an overwhelming concern about the debt. I find that concern from Members who are either conservative or liberal. I find discussions of the tidal wave of this deficit coming toward us and what the impact is going to have.

There is not anyone here who can honestly look you in the eye and say they are proud of our record on controlling spending. We have not met the challenge of controlling spending. We have not met the challenge of controlling spending.

Let me suggest we can limit the growth of funds to public broadcasting, that can receive substantial outside funding. If we cannot limit increases here, where can we work to bring this budget into line? If not now, when will we face up to the problem of the deficit? If not in these amounts, what amounts?

The simple fact is if we care about getting our problems under control, we have to be willing to face up to it here as well as other places.

Mrs. COLLINS. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I am in absolute opposition to the Oxley amendment. This amendment would not only, as others have said, cut enormously from the public broadcasting funds that we have, but it is in direct contravention to the Commission our chairman talked about. They said that if in fact we are serious about having public broadcasting, the bottom line is that we are going to give some additional funding to public broadcasting to keep it the viable organization everybody is talking about now.

We have heard discussions about the good programming for children and for the poor. But not only for the children and for the poor, it is also for everybody. There is fine programming on national issues, and on matters of all kinds. There is good theater programs like Masterpiece Theater and so forth, which should be maintained.

Somebody just said a few minutes ago we have not met the challenge of controlling spending, and that is absolutely right. Not because we are not financing public broadcasting, but because spending has gone up and up and up when it comes to defense. Nobody is controlling defense spending, and that is where much of the problem lies.

Everybody is talking about the deficit. What greater deficit have we ever had than during his current administration; none other in the history of the United States of America.

Finally let me say that if we are dead serious about public broadcasting, which I think we all should be, we should resoundingly defeat this amendment.

I yield back the balance of my time.

● Mr. MARKEY. Mr. Chairman, as I have followed the debate on the Oxley amendment to reduce funding for public broadcasting, I am reminded of the words of Oscar Wilde, who said that a cynic is a man who knows the price of everything, and the value of nothing.

There are few programs that serve this country better at less cost than public broadcasting.

My colleagues on the other side of the aisle have been consistent in singing the praises of public braodcasting, while they are trying to cut funding for it. I say, put your money where your mouth is.

In broadcasting, as in life, you get what you pay for.

We are going to take $300 billion out of our economy this year to spend on defense.

I hope my colleagues can find it in their hearts to spend a few million dollars to bring public broadcasting to 1977 levels, in support of programming which makes vast contributions to the quality of American life, which educates the American public, and which tremendously enriches the American intellect.

Public broadcasting fills a void in the American intellectual landscape. If public braodcasting goes under, or has to scale back on its efforts for the American public, there is nothing to take its place.

And make no mistake about it. In our time, the very survival of public broadcasting is at issue.

Perhaps I have a different outlook from some of my colleagues, but I am not shy about spending money for a program that returns to America what public broadcasting does. If we can afford to spend $20 billion on the MX missile, we can afford to spend a few million to enrich the intellectual life of America.

I urge my colleagues to vote against the Oxley amendment.●

● Mr. JEFFORDS. Mr. Chairman, I rise in support of S. 607, the public broadcasting amendments. This legislation has had a difficult history, but I believe that the bill you have before you represents a well-balanced compromise between the levels of the original legislation and the administration's request. S. 607 cuts $145 million from the original bill, and merely brings public broadcasting funding up to the fiscal year 1977 levels. I would consider this a very reasonable request.

I will not belabor the benefits of public broadcasting, as I have made those points many times on the floor of this House. However, I would urge my colleagues to consider these aspects and to bear in mind the drastic cuts that have been made in Federal funding for public broadcasting over the past few years. In my opinion, S. 607 represents a very reasonable, fiscally conservative compromise. I urge all my colleagues to support this bill and reject any further reductions in funding.●

AMENDMENT OFFERED BY MR. DANNEMEYER TO THE AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. OXLEY

Mr. DANNEMEYER. Mr. Chairman, I offer an amendment to the amendment in the nature of a substitute.

The Clerk read as follows:

Amendment offered by Mr. DANNEMEYER to the amendment in the nature of a substitute offered by Mr. OXLEY. In section 2(a)(2), strike out "$14,000,000" "$16,000,000", and "$18,000,000", and insert in lieu thereof "$12,600,000", "$13,100,000", and "$14,000,000", respectively.

In section 3(a)(3), strike out '$186,000,000", "$214,000,000", and "$246,000,000", and insert in lieu thereof "$170,000,000", "$178,000,000", and "$188,000,000", respectively.

Mr. DANNEMEYER (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from California?

Mr. WIRTH. Mr. Chairman, reserving the right to object, if I might inquire of the author of the amendment, is this simply an amendment related to the numbers of the authorization, or are there other items in the amendment?

Mr. DANNEMEYER. Mr. Chairman, will the gentleman yield?

Mr. WIRTH. I yield to the gentleman from California.

Mr. DANNEMEYER. Mr. Chairman, I say to my colleague, the gentleman from Colorado, this goes just to the amount of the authorization figure.

Mr. WIRTH. Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. DANNEMEYER. Mr. Chairman, there are times when I listen to the debate on a bill of this type that I really have to raise the question as to whether or not there is a big enough trough in Christendom to accommodate the snouts of those who seek to be fed at taxpayers' expense. You almost have to be blind to reality to come into this forum at this juncture in our history and talk about increasing funding for any agency of the Federal Government in any amount, regardless of circumstances.

□ 1250

We struggled over increasing defense spending in fiscal year 1985, starting on October 1, and I believe that the figure that was finally reached was a 5-percent increase after inflation. How anyone on either side of the aisle can stand with a straight face and suggest to our constituents, the taxpayers who make it happen, that we can somehow justify an increase in the magnitude of the basic bill, 25 percent per year, and even the Oxley amendment, boggles my imagination. It also seems those of us who serve here are oblivious to what our taxpaying citizens are telling us they want to have happen.

When we look at poll after poll, what do they tell us? They say, "Cut the spending, don't raise our taxes, cut that deficit." And here we have another example of the proponents of this legislation coming along with this history; we spent $137 million in 1983, we spent $172 million in 1982; we are talking about raising authorization levels for 1987 to $200 million, $225 million in 1988, and $250 million in 1989.

My amendment, and I have to admit it is what I consider to be a modest amendment, would increase the authorization over what is in the law today by 5 percent for 1987 for a total of $170 million, 5 percent for 1988, $178 million, and 5 percent for 1989, $188 million.

Now, what is wrong with that? What is wrong with a 5 percent increase for these people in the business of public broadcasting?

We all know that there is a law of economics that works which says that expenditures will always rise to meet the income available to be expended.

We could authorize a level of funding for this wonderful work of bringing peace and nirvana to American citizens over public broadcasting to $500 million and they would find a way to spend it.

I suggest to my colleagues we could raise it to $1 billion and they could find a way to spend it. But is that a proper judgment to do? I suggest what we should be doing here is this modest proposal.

Mr. MARKEY. Mr. Chairman, will the gentleman yield?

Mr. DANNEMEYER. I yield to my friend from Massachusetts.

Mr. MARKEY. I thank the gentleman for yielding.

As the gentleman knows, there is no one who I hold in higher regard while at the same time disagreeing with everything that he stands for than the gentleman from California. This is another example where there clearly is a misrepresentation of what is happening here. We are talking about Senator GOLDWATER's bill here, we are talking about snouts in the trough.

Mr. DANNEMEYER. That is precisely what I said.

Mr. MARKEY. I know it, but we are talking about a bill that passed unanimously through the U.S. Senate with BARRY GOLDWATER—I am sorry, the Senator from Arizona leading the fight, the charge, the drive to get it passed. We are talking about waste and excess in government. You were right, you are absolutely right; yet we do not hear anything coming from the gentleman from California about $1,000 for an external screw that cost 1 cent, talking about the Department of Defense.

Mr. DANNEMEYER. I am going to reclaim my time and I will tell you why. We have engaged in this contest about defense spending versus social spending time after time, but the fact needs to be driven home to the American people that we are in this mess not because we are spending too much on defense, we are spending too much on social program, and the data show it.

Look in your budget book for the last year; social spending over the last 20 years is up 350 percent, defense spending is up 21 percent. That is the only way you can analyze it. And that is adjusted to 1972 constant dollars for purposes of inflation.

Mr. MADIGAN. Mr. Chairman, will the gentleman yield?

Mr. DANNEMEYER. I yield to my friend from Illinois.

Mr. MADIGAN. I thank the gentleman for yielding.

Mr. Chairman, I wonder if the gentleman [Mr. DANNEMEYER] found anything inconsistent in the fact that this morning several of our colleagues on the other side of the aisle were complaining about the President quoting John Kennedy, complaining about the President making references to John Kennedy. And all afternoon we have been treated to our friends over there referring to BARRY GOLDWATER as being the sponsor of this bill. And I wonder if the gentleman found anything inconsistent in that.

Mr. DANNEMEYER. Well, I have nothing but the highest respect for both of those gentlemen. I think they are distinguished public servants, who served America well and will continue to do so in the minds of all fair thinking American citizens.

The CHAIRMAN. The time of the gentleman from California [Mr. DANNEMEYER] has expired.

The question is on the amendment offered by the gentleman from California [Mr. DANNEMEYER] to the amendment in the nature of a substitute offered by the gentleman from Ohio [Mr. OXLEY].

The question was taken, and on a division (demanded by Mr. WIRTH) there were—ayes 11, noes 6.

Mr. WIRTH. Mr. Chairman, I demand a recorded vote, and pending that, I make the point of order that a quorum is not present.

The CHAIRMAN. Evidently a quorum is not present. Pursuant to the provisions of clause 2, rule XXIII, the Chair announces that he will reduce to a minimum of 5 minutes the period of time within which a vote by electronic device, if ordered, will be taken on the pending question following the quorum call. Members will record their presence by electronic device.

The call was taken by electronic device.

The following Members responded to their names:

The CHAIRMAN. Three hundred ninety-three Members have answered to their names, a quorum is present, and the Committee will resume it business.

RECORDED VOTE

The CHAIRMAN. The pending business is the demand of the gentleman from California [Mr. DANNEMEYER] for a recorded vote.

A recorded vote was ordered.

The CHAIRMAN. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 68, noes 328, answered "present" 1, not voting 35, as follows:

□ 1320

Messrs. OLIN and STUMP changed their votes from "no" to "aye."

So the amendment to the amendment in the nature of a substitute was rejected.

The result of the vote was announced as above recorded.

Mr. OXLEY. Mr. Chairman, I ask unanimous consent that each side be given 1 speaker on the Oxley amendment for 5 minutes each before the vote.

The CHAIRMAN. Is there objection to the request of the gentleman from Ohio?

Mr. HARTNETT. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

Mr. FRENZEL. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, when this bill was before the House the last time, after which it got vetoed, I proposed an amendment to limit spending to a 3.5-percent increase that would have been in accordance with the budget agreed to by a majority of this House. At that time, the majority agreed that they did not like their own budget and rejected my amendment.

Today we had an amendment by my moderate friend from California [Mr. DANNEMEYER] which would have allowed a greater increase than mine. That has also been rejected.

Where we are now, Mr. Chairman, is that we have a choice between the Oxley amendment and the committee bill. The difference in that choice is a 25-percent increase, more or less, in the committee bill against a 15-percent increase in the bill of the gentleman from Ohio [Mr. OXLEY].

The President has spoken loudly and clearly on this issue. When he vetoed the last bill, which this House did not dare try to override, the President specifically mentioned the Oxley amendment.

As I read his veto message, he cited the Oxley amendment as being the outer limits of acceptability. Even so, the Oxley amendment is about four times as much as we agreed for increases in this kind of a program in our own budget resolution.

I also note, Mr. Chairman, that the public broadcasting revenues, even when we decrease the Federal contribution in 1983, increased. With the Oxley amendment, we will be giving the public broadcasting industry one of the largest Federal amounts that it has received in its history, along with an incentive to continue increasing its private contributions. It did a good job at this last year.

I doubt there is any Member in the House that does not feel very strongly and very warmly about public broadcasting. Nevertheless, in times of budget deficits, when we are incurring enormous, continuing deficits, no function of government deserves an increase of this magnitude. The President has vetoed one bill already. He has indicated that the Oxley amendment is the outer limit that he will tolerate, it seems to me absolutely essential for the House to accept the 15-percent increase of the Oxley amendment, far beyond the strictures of our budget resolution. If we do support the Oxley version, we can probably get a bill that can be enacted.

If the committee insists on its bill, we will undoubtedly send it on for veto, and the Public Broadcasting Corporation will have to whistle for its money or raise all of it from private sources.

□ 1330

I do not think anybody in this House wants that to happen. I think we want public broadcasting and we want to be sure that it is funded adequately. The 15-percent increase in the Oxley amendment ought to be adequate funding for any agency, particularly at a time when we are trying to show our constituents that we do have some respect for their taxpayers' funds and we are trying to reduce the deficit.

If we cannot support the Oxley amendment, I think we have to admit that we are trying to torpedo public broadcasting. I hope that every Member here will vote for the Oxley amendment and therefore not allow this bill to go forward to a veto.

I yield back the balance of my time.

Mr. WIRTH. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, the vote which we are about to have on the Oxley amendment is the key vote on public broadcasting. The previous vote I think was tangential. This is the key vote.

Let me, if I might, in summary address two issues that we face. One is the set of numbers, the second is the role of public broadcasting.

On the set of numbers the bill before us which we hope you will support, S. 607, the bill before us was put together by the best efforts of the Senate and the House. We attempted to make a compromise with the administration. The administration would not compromise.

We came down $145 million from the vetoed bill. The administration would not come up $80 million. They want us to go down 225.

We have attempted to compromise. We tried over and over and over again. We have been flat stonewalled by the administration.

So where does this compromise put us? The bill which the President vetoed would have placed public broadcasting at the level of spending that we had for public broadcasting in 1981.

This bill before us today would place it back to 1977. The Oxley amendment would effectively take us back to 1973 or 1974. This, in face of a broadly expanding set of responsibilities that public broadcasting has taken on.

The final point on the numbers that has been made is that this is somehow outside the scope of the budget resolution. There is no reference anywhere in the budget resolution to public broadcasting. This is advanced funding. We are talking about the authorization level for 1987, 1988, and 1989.

This is something that is in the budget this year and finally, as I think most Members know, we do not line item any program in a budget resolution. So I would hope that we would understand that this is not an enormous increase, nor an increase in funding for public broadcasting.

This brings the level of funding for public broadcasting back to the real dollar level that we had in 1977.

Mr. GEKAS. Would the gentleman yield?

Mr. WIRTH. I would be happy to yield.

Mr. GEKAS. Mr. Chairman, I just want to ask one question. The levels that the committee now projects for this program, the so-called Goldwater figures, are they acceptable, to the gentlemen's knowledge, to the White House?

Mr. WIRTH. We have not heard from the White House, I do not think. I have not talked to the White House. I think the gentleman from Ohio says that the White House said no.

Mr. GEKAS. Mr. Chairman, will the gentleman yield to the gentleman from Ohio?

Mr. WIRTH. I would be glad to yield to the gentleman from Ohio.

Mr. OXLEY. I thank the gentleman for yielding to me.

The answer is a resounding "no," and as I quoted from the veto message as well as the letter from Mr. Stockman.

Mr. WIRTH. Mr. Chairman, as the gentleman from Ohio knows, we attempted to work this out with the White House. We came down as I said, $145 million. The White House wants us to come the other $80 million. There is no compromise in this issue at all.

Let me say we attempted; they have not compromised at all. We have tried to compromise and now we are attempting to do what is right and that is to vote for S. 607.

The final point that ought to be made is the role and responsibility of public broadcasting. If we continue to cut back public broadcasting and only 20 percent of public broadcasting's funds come from the Federal Government, the other 80 percent has historically come from outside, we are going to see a continued diminution of programming for children, more than 50 percent of "Sesame Street" is now repeat programs; sharp cutbacks of "3-2-1 Contact," and a whole variety of other areas where public broadcasting is the only broadcasting that bears that responsibility.

A whole variety of other cultural programming is going to be limited or wiped out if we do not support public broadcasting today.

I would urge my colleagues to vote against the Oxley amendment, vote for public broadcasting.

As the gentleman from Minnesota earlier said, we all feel warmly about public broadcasting. Let us make sure that our votes register that warm feeling. A warm feeling is registered by

voting against the Oxley amendment and for S. 607.

Mr. BROYHILL. If the gentleman would yield, is it not a fact that the House budget resolution called for restraining increases on programs between 24 percent and that your bill calls for 25-percent increase?

Mr. WIRTH. That is not the case and what we do is we return this only to the level of funding of that broadcasting in the year 1977. So I would hope that my colleagues would vote no on the Oxley amendment.

Mr. BROYHILL. Would the gentleman yield for a correction of the record?

Is it not a fact according to records I have that $103 million was provided to public broadcasting in 1977? I have the figures right here if the gentleman would like to examine them.

Mr. WIRTH. We are talking about spending power, as I pointed out, we are talking about the spending power of a dollar as it relates to inflation. The spending power of a dollar, we are returning this to the 1977 level.

The CHAIRMAN. The time of the gentleman has expired.

The question is on the amendment in the nature of a substitute offered by the gentleman from Ohio [Mr. OXLEY].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. OXLEY. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device and there were—ayes 167, noes 233, answered "present" 1, not voting 31, as follows:

□ 1350

The Clerk announced the following pairs:

On this vote:

Mr. Campbell for, with Mr. Biaggi against.

Mr. Courter for, with Mr. Boner of Tennessee against.

Mr. Cheney for, with Mrs. Boxer against.

Mr. MARTINEZ and Mr. WILLIAMS of Ohio changed their votes from "aye" to "no."

Mr. YATRON changed his vote from "no" to "aye."

So the amendment in the nature of a substitute was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. Are there further amendments to the bill?

If not, under the rule, the Committee rises.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. FOLEY] having assumed the chair, Mr. KOGOVSEK, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the Senate bill (S. 607) to amend the Communications Act of 1934, pursuant to House Resolution 592, he reported the bill back to the House.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

The question is on the third reading of the Senate bill.

The Senate bill was ordered to be read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the Senate bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DANNEMEYER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 308, nays 86, not voting 38, as follows:

[Roll No. 449]

□ 1410

The Clerk announced the following pair:

On this vote:

Mr. Fuqua for, with Mr. Campbell against.

So the Senate bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment bills and joint resolutions of the House of the following titles:

H.R. 1438. An act to provide for the restoration of the fish and wildlife in the Trinity River Basin, California, and for other purposes;

H.R. 5183. An act to direct the Secretary of Agriculture to convey certain National Forest System lands to Craig County, VA;

H.R. 5358. An act to enable honey producers and handlers to finance a nationally coordinated research promotion, and consumer information program designed to expand their markets for honey;

H.R. 6216. An act to amend the Bankruptcy Amendments and Federal Judgeship Act of 1984 to make technical corrections with respect to the retirement of certain bankruptcy judges, and for other purposes;

H.R. 6225. An act to prevent disruption of the structure and functioning of the Government by ratifying all reorganization plans as a matter of law;

H.R. 6248. An act to amend title VII of the Omnibus Crime Control and Safe Streets Act of 1968 to provide enhanced penalties for certain persons possessing firearms after three previous convictions for burglaries or robberies, and for other purposes;

H.R. 6257. An act to amend the Motor Vehicle and Information Cost Savings to impede those motor vehicle thefts which occur for purposes of dismantling the vehicles and reselling the major parts by requiring passenger motor vehicles and major replacement parts to have identifying numbers or symbols, and for other purposes;

H.J. Res. 551. Joint resolution providing for the reappointment of Anne Legendre Armstrong as a citizen regent of the Smithsonian Institution;

H.J. Res. 552. Joint resolution providing for reappointment of A. Leon Higginbotham, Jr., as a citizen of the Smithsonian Institution; and

H.J. Res. 580. Joint resolution authorizing the Kahlil Gibran Centennial Foundation to establish a memorial in the District of Columbia or its environs.

The message also announced that the Senate had passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 1880. An act to establish an interagency committee and a technical study group on cigarette safety;

H.R. 1961. An act to amend title 38, United States Code, to provide disability and death allowances to veterans and the survivors of veterans who served in Southeast Asia during the Vietnam era and suffer from diseases that may be attributable to exposure to the herbicide known as "Agent Orange" and to veterans and the survivors of veterans who participated in atomic tests or the occupation of Hiroshima and Nagasaki and suffer from diseases that may be attributable to ionizing radiation;

H.R. 2970. An act to amend the Colorado River Basin Salinity Control Act to authorize certain additional measures to assure accomplishment of the objectives of title II of such act, and for other purposes;

H.R. 4209. An act to amend section 15 of the Small Business Act;

H.R. 5603. An act to amend the Public Health Service Act to revise and extend the authorities of that act for assistance for alcohol and drug abuse and mental health services and to revise and extend the Developmental Disabilities Assistance and Bill of Rights Act; and

H.R. 6296. An act entitled: "The San Juan Basin Wilderness Protection Act of 1984."

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2048) "An act to provide for

the establishment of a Task Force on Organ Procurement and Transplantation and an Organ Procurement and Transplantation Registry, and for other purposes."

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 5603) "An act to amend the Public Health Service Act to revise and extend the authorities of that act for assistance for alcohol and drug abuse and mental health services and to revise and extend the Developmental Disabilities Assistance and Bill of Rights Act."

The message also announced that the Senate agrees to the amendment of the House to the bill (S. 648) "An act to facilitate the exchange of certain lands in South Carolina."

The message also announced that the Senate agrees to the amendment of the House to the bill (S. 1790) "An act to authorize the Secretary of the Interior to enter into a contract or cooperative agreement with the Art Barn Association to assist in the preservation and interpretation of the Art Barn and Pierce Mill located in Rock Creek Park within the District of Columbia."

The message also announced that the Senate agrees to the amendments of the House to the joint resolution (S.J. Res. 273) joint resolution to designate the week of August 5, 1984, through August 11, 1984, as "Smokey Bear Week."

RECOGNIZING THE WOMEN'S ARMY CORPS VETERANS' ASSOCIATION

Mr. SAM B. HALL JR. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 4966), to recognize the organization known as the Women's Army Corps Veterans' Association, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments, as follows:

On page 2, line 6, strike out the colon and insert in lieu thereof "a continuing commitment, on a national basis, to—".

On page 2, line 7, strike out "promoting" and insert in lieu thereof "promote".

On page 2, line 11, strike out "recognizing" and insert in lieu thereof "recognize".

On page 2, line 13, strike out "providing" and insert in lieu thereof "provide".

On page 5, line 7, strike out "(60)" and insert in lieu thereof "(64)".

On page 6, line 6, after the period insert the following: "if the corporation fails to maintain such status, the charter granted by this Act shall expire.".

Mr. SAM B. HALL JR. (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. MATSUI). Is there objection to the request of the gentleman from Texas?

Mr. KINDNESS. Mr. Speaker, reserving the right to object, under my reservation I would like to yield to the gentleman from Texas for an explanation of the amendments which are offered in conformance with changes made in the same bill, the companion bill, in the other body.

Mr. SAM B. HALL, JR. Mr. Speaker, this is merely to recognize the organization known as the Women's Army Corps Veterans' Association, the WAC's, that was instituted and begun in World War II. It is a nonprofit organization and meets all of the requisites of the Federal charters.

The amendments that have been offered are technical amendments that make certain provisions for the continuation of the WAC organization to act. If they violate any of these elements of the charter their charter will, of course, be revoked.

I urge its adoption.

Mr. KINDNESS. Mr. Speaker, further reserving the right to object, I would join with the gentleman from Texas in urging adoption of the amendments and approval by unanimous consent of H.R. 4966, as amended.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Texas?

There was no objection.

A motion to reconsider was laid on the table.

REPORT ON RESOLUTION PROVIDING FOR MOTION TO TAKE H.R. 6163, FEDERAL DISTRICT COURT ORGANIZATION ACT OF 1984, FROM THE SPEAKER'S TABLE AND AGREE TO SENATE AMENDMENTS

Mr. PEPPER, from the Committee on Rules, submitted a privileged report (Rept. No. 98-1148) on the resolution (H. Res. 606) providing for a motion to take the bill (H.R. 6163) to amend title 28, United States Code, with respect to the places where court shall be held in certain judicial districts, and for other purposes, from the Speaker's table and to agree to the Senate amendments, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF S. 2565, HEAD START ACT PROGRAMS EXTENSION

Mr. PEPPER, from the Committee on Rules, submitted a privileged report (Rept. No. 98-1149) on the resolution (H. Res. 607) providing for consideration in the House of the bill (S. 2565) to extend programs under the Head Start Act, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PROVIDING FOR MOTION TO TAKE H.R. 999, AMERICAN CONSERVATION CORPS ACT OF 1983, FROM THE SPEAKER'S TABLE AND AGREE TO SENATE AMENDMENT

Mr. PEPPER, from the Committee on Rules, submitted a privileged report (Rept. No. 98-1150) on the resolution (H. Res. 608) providing for a motion to take the bill (H.R. 999) to provide for the conservation, rehabilitation, and improvement of natural and cultural resources located on public or Indian lands, and for other purposes, from the Speaker's table and to agree to the Senate amendment, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PROVIDING FOR MOTION TO TAKE H.R. 5121, VIRGINIA NATIONAL FOREST WILDERNESS ACT OF 1984, FROM THE SPEAKER'S TABLE AND AGREE TO SENATE AMENDMENT

Mr. PEPPER, from the Committee on Rules, submitted a privileged report (Rept. No. 98-1151) on the resolution (H. Res. 609) providing for a motion to take the bill (H.R. 5121) to designate certain national forest system lands in the State of Virginia as wilderness, and for other purposes, from the Speaker's table and to agree to the Senate amendment, which was referred to the House Calendar and ordered to be printed.

PERMISSION FOR COMMITTEE ON STANDARDS OF OFFICIAL CONDUCT TO FILE INVESTIGATIVE REPORTS WITH THE CLERK FOLLOWING SINE DIE ADJOURNMENT

Mr. STOKES. Mr. Speaker, I ask unanimous consent that the Committee on Standards of Official Conduct be permitted to file investigative reports with the Clerk following the sine die adjournment, and that such reports be printed by the Clerk as reports of the 98th Congress.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

SAN JUAN BASIN WILDERNESS PROTECTION ACT OF 1984

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 6296) entitled "An act entitled 'The San Juan Basin Wilderness Protection Act of 1984,'" with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Page 8, after line 18, insert:

SEC. 106. Section 11(a) of Public Law 93-531 (25 U.S.C. 100-10) is amended—

(1) in paragraph (1) by striking out the last sentence, which begins "Such lands";

(2) by inserting after paragraph (2) the following: "Subject to the provisions of the following sentences of this subsection, all rights, title and interests of the United States in the lands described in paragraph (1), including such interests the United States as lessor has in such lands under the Mineral Leasing Act of 1920, as amended, will, subject of existing lease hold interests, be transferred without cost to the Navajo Tribe and title thereto shall be taken by the United States in trust for the benefit of the Navajo Tribe as a part of the Navajo Reservation. So long as selected lands coincide with pending noncompetitive coal lease applications under the Mineral Leasing Act of 1920, as amended, the Secretary may not transfer any United States interests in such lands until the noncompetitive coal lease applications have been fully adjudicated. If such adjudication results in issuance of Federal coal leases to the applicants, such transfer shall be subject to such leases. The leaseholders rights and interests in such coal leases will in no way be diminished by the transfer of the rights, title and interests of the United States in such lands to the Navajo Tribe. If any selected lands are subject to valid claims located under the Mining Law of 1872 the transfer of the selected lands may be made subject to those claims."; and

(3) by inserting the following new paragraph:

"(2) Those interests in lands acquired in the State of New Mexico by the Navajo Tribe pursuant to subsection 2 of this section shall be subject to the right of the State of New Mexico to receive the same value from any sales, bonuses, rentals, royalties and interest charges from the conveyance, sale, lease, development, and production of coal as would have been received had the subsurface interest in such lands remained with the United States and been leased pursuant to the Mineral Lands Leasing Act of 1920, as amended or any successor Act; or otherwise developed. The state's interest shall be accounted for in the same manner as it would have been if a lease had been issued pursuant to the Mineral Lands Leasing Act of 1920, as amended."

SEC. 107. (a) Subject to valid existing rights and except as provided in subsection (b), the Secretary of the Interior is authorized and directed to convey to the New Mexico State University, Las Cruces, New Mexico, at a cost of $2.50 per acre, all right, title, and interest of the United States in and to the following described public lands aggregating approximately 5,711.39 acres in Dona Ana County, New Mexico, to be used for the purpose of conducting educational, demonstrative, and experimental development with livestock, grazing methods, and range forage plants and other agricultural related research:

NEW MEXICO PRINCIPAL MERIDIAN

Township 20 South, Range 1 East

Secs. 16, 32, and 36 all.

Township 21 South, Range 1 East

Sec. 2, and 16 all.

Township 20 South, Range 1 West

Sec. 2, 16 all;

Sec. 26, north half northeast quarter, northeast quarter northwest quarter;

Sec. 32, north half, north half southwest quarter, north half southeast quarter, southeast quarter southeast quarter; and

Sec. 36, all.

(b) There are reserved to the United States all minerals that may be found in the lands described in subsection (a), together with the right of the United States, its permittees, lessees, or grantees, at any time, to prospect for, mine and remove such minerals.

(c) In the event that the lands described in subsection (a), or any part thereof, are used for any purpose other than those for which conveyance is authorized, title to the entire tract shall immediately revert to the United States without the necessity for further action to accomplish the reversion of title to the United States.

SEC. 108. In order to relieve the Elephant Butte Irrigation District of any obligation to reimburse the Bureau of Reclamation for leave and severance payments to certain employees of the Rio Grande project seperated as a result of the transfer of operation and maintenance responsibilities to the Elephant Butte District, miscellaneous revenues having been collected by the Bureau of Reclamation from the sale or lease of project lands, interests in lands or other sources may be credited to the Elephant Butte Irrigation District for such leave and severance payments and accrued interest penalties on the District's obligations. Penalties shall be assessed up till September 23, 1983.

SEC. 109. An approximate twenty-acre area as shown on a map entitled Sandia Mountain Wilderness additions, dated March 26, 1981, on file in the Office of the Chief of the Forest Service, Department of Agriculture, is hereby added to and made a part of the Sandia Mountain Wilderness: *Provided*, That the Secretary of Agriculture may allow the continuance of the existing diversion dam and existing related facilities conforming to the terms and conditions of maintenance he deems appropriate, including the provision for access and the use of mechanized equipment only for construction and maintenance of existing structures: *Provided further*, That any upgrading of the existing diversion dam shall be completed within four years of the date of this section in accord with the plans approved by the Secretary of Agriculture. The Secretary of Agriculture may extend the time of such reconstruction if he deems such extension is necessary and in the public interest.

SEC. 110. (a)(1) The Secretary of the Interior (hereafter in this section referred to as the "Secretary") may convey to Sumner Lake Corporation of the State of New Mexico all right, title, and interest of the United States in and to the real property described in paragraph (2), but such conveyance to such corporation may be made only in the event that the State of New Mexico has given a written release to the United States Government from the State's lease of such property.

(2) The real property referred to in paragraph (1) is located in Lake Sumner State Park, in the State of New Mexico, and is more particularly described as follows: all portions of sections 28 and 34 in township 5 north, range 24 east, that are more than 4,280 feet above sea level. The acreage and legal description of such real property shall be determined by the Secretary after consulting with Sumner Lake Corporation.

(b)(1) In consideration for the conveyance authorized in subsection (a), Sumner Lake Corporation shall pay to the Secretary for deposit in the United States Treasury the fair market value of the real property conveyed as determined on the date of such conveyance. Such fair market value shall be determined by the Secretary by means of an appraisal conducted in accordance with established appraisal procedures.

(2) Any administrative cost incurred by the Secretary incident to any conveyance under subsection (a), including any surveying cost, recording cost, or legal cost, shall be reimbursed by Sumner Lake Corporation.

(c)(1) Any conveyance under subsection (a) shall reserve to the United States all oil, coal, and other minerals in the real property conveyed, and the right to prospect for, mine, and remove such oil, coal, and other minerals. Any damage sustained by any surface owner as a result of the exercise of any right reserved in this paragraph shall be reimbursed by the United States or the lessee of such right.

(2) Any conveyance under subsection (a) shall not affect any easement, servitude, or right-of-way existing with respect to the real property conveyed on the date of such conveyance.

(3) The Secretary may attach to any conveyance under subsection (a) any additional conditions and reservations that the Secretary determines to be appropriate.

Mr. SEIBERLING (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. LUJAN. Reserving the right to object, Mr. Speaker, I do so to ask the gentleman from Ohio [Mr. SEIBERLING] or the gentleman from New Mexico [Mr. RICHARDSON] perhaps to explain the provisions of the bill.

Mr. SEIBERLING. Mr. Speaker, I am happy to defer to my colleague, the gentleman from New Mexico [Mr. RICHARDSON], who is one of the original authors of this legislation, and let him give the explanation.

Mr. RICHARDSON. Mr. Speaker, will the gentleman yield?

Mr. LUJAN. I am happy to yield to the gentleman from New Mexico.

Mr. RICHARDSON. Mr. Speaker, this bill contains exactly the same wilderness proposals in New Mexico's San Juan Basin as passed the House Wednesday evening on unanimous consent. In addition, the Senate has

amended the bill to incorporate the following:

Transfer the surface and subsurface of certain lands in New Mexico which have been selected by the Navajo Nation to the Navajo, subject to pending coal lease applications and certain payments to the State of New Mexico.

Transfer certain Federal lands in New Mexico to New Mexico State University for the purpose of conducting rangeland research.

Relieve the Elephant Butte Irrigation District of certain obligations.

Add 20 acres to the existing Sandia Wilderness, and

Authorize the Secretary of Interior to sell certain lands to the Sumner Lake Corp. at fair market value.

Mr. Speaker, it is my understanding that the various provisions added by the Senate have the unanimous consent of the entire New Mexico congressional delegation, the State of New Mexico, and the Navajo Nation, and are without controversy.

I urge approval of the bill as amended.

□ 1420

Mr. SEIBERLING. Mr. Speaker, will the gentleman yield to me?

Mr. LUJAN. Further reserving the right to object, I yield to the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. I thank the gentleman for yielding.

Mr. Speaker, I simply want to commend Mr. RICHARDSON and Mr. LUJAN and the other members of the delegation for having worked out this excellent piece of legislation.

Mr. Speaker, I urge Members to support it.

Mr. LUJAN. Mr. Speaker, I thank both gentlemen and particularly the gentleman from New Mexico [Mr. RICHARDSON] for his explanation.

Mr. Speaker, this is a consensus bill of the New Mexico delegation. Everybody has had a little input into it. It is a fine piece of legislation.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Ohio [Mr. SEIBERLING]?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

REQUEST FOR CONSIDERATION OF CONFERENCE REPORT ON S. 2574, NURSE EDUCATION AMENDMENTS OF 1984

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent for the immediate consideration of the conference report on the Senate bill (S. 2574) to revise and extend title VIII of the Public Health Service Act, relating to nurse education.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. DANNEMEYER. Mr. Speaker, reserving the right to object, I would ask my colleague, the gentleman from California [Mr. WAXMAN]: Is this the health manpower bill?

Mr. WAXMAN. Mr. Speaker, will the gentleman yield?

Mr. DANNEMEYER. I yield to the gentleman from California.

Mr. WAXMAN. I thank the gentleman for yielding.

Mr. Speaker, yes; it is.

Mr. DANNEMEYER. And if we do not take it up today, that means it lies over for 3 days until next week? Is that right?

Mr. WAXMAN. That is correct.

Mr. DANNEMEYER. I object.

The SPEAKER pro tempore. Objection is heard.

PERMISSION TO FILE CONFERENCE REPORTS AND MAKING IN ORDER CONSIDERATION OF CONFERENCE REPORTS ON S. 2616, ADOLESCENT FAMILY LIFE DEMONSTRATION PROGRAM EXTENSION, AND S. 540, NATIONAL INSTITUTE OF ARTHRITIS AND MUSCULOSKELETAL AND SKIN DISEASES ACT OF 1984

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file the conference report on the Senate bill (S. 2616) to extend the Adolescent Family Life Demonstration Program, and the conference report on the Senate bill (S. 540) to amend the Public Health Service Act to establish a National Institute of Arthritis and Musculoskeletal and Skin Diseases, and for other purposes, and that it be in order to consider these conference reports at any time after they are filed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. CHANDLER. Mr. Speaker, reserving the right to object, I yield to the gentleman from California to answer the question: Has this been cleared with the minority?

Mr. WAXMAN. If the gentleman from Washington will yield, yes, it has been.

Mr. CHANDLER. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection?

REQUEST TO MAKE IN ORDER CONSIDERATION TODAY OF JOINT RESOLUTION MAKING FURTHER CONTINUING APPROPRIATIONS FOR 1985

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that it shall be in order today to consider in the House, any rule of the House to the contrary notwithstanding, a joint resolution making further continuing appropriations for the fiscal year 1985, to be introduced by myself, and that debate be limited to 1 hour, the time to be equally divided between myself and the gentleman from Massachusetts [Mr. CONTE] and that the previous question shall be considered as ordered on the resolution to final passage without intervening motion.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

Mr. DANNEMEYER. Mr. Speaker, reserving the right to object, I could not quite hear the gentleman from Mississippi when he began his remarks.

Mr. Speaker, what is it the House seeks to bring up at this time?

Mr. WHITTEN. Mr. Speaker, will the gentleman yield?

Mr. DANNEMEYER. I yield to the gentleman from Mississippi.

Mr. WHITTEN. I thank the gentleman for yielding.

Mr. Speaker, this continuing resolution will supercede the one which expires at 6 o'clock today so that Governmental programs may stay operational without interruption or disruption.

Mr. DANNEMEYER. Mr. Speaker, I object.

The SPEAKER pro tempore. Objection is heard.

MILITARY FAMILY SUPPORT ACT

(Mr. PANETTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PANETTA. Mr. Speaker, "If you didn't have me to feed, things would be better." It has been several weeks now since those final words of 13-year-old Danny Holley were etched in our collective conscience.

Danny's story is as brief as the life he led; the legacy of his untimely death carries an enduring challenge to which we, as a nation, must come to terms.

Like many families, the Holleys had fallen on hard times. Unlike most, however, Danny's father had a steady job, serving as a sergeant in the U.S. Army. But despite the security of his position, poverty was no stranger to the Holley family.

That Danny was to take his own life because of the hardships he had endured calls attention to the enormous pressures placed on service personnel and their families. His was not an isolated case, as many military families, strapped financially by the lack of on-base housing or separated by overseas assignments, struggle to make ends meet.

It is truly ironic that we as a nation have grown tolerant, if somewhat reluctantly, of paying outrageous prices for military hardware that does not work or could have been purchased elsewhere at a fraction of the cost. We are all familiar with the litany of procurement horror stories; the recent suicide of young Danny Holley brings new meaning to that debate.

Mr. Speaker, the quality of life offered by service in the U.S. Armed Forces is an issue that strikes at the very heart of our defense capabilities. One of the most basic requirements of any military organization is to ensure that its forces are adequately paid, fed, housed, and given the medical attention they require to maintain a state of constant readiness.

The way we treat service personnel is vital to the success of today's volunteer force. Our willingness to invest in improving the conditions of military service is one of the major determinants of our ability to attract and retain the manpower necessary to meet our national security objectives.

I know I am not alone in expressing shock about recent reports that military families have been forced to rely on food stamps to put food on the table. Surely we as a nation, in asking for the supreme sacrifice of life in our defense, ought to better provide for military personnel and their families. At stake is the effectiveness of our military, which is not likely to withstand a further erosion of morale.

Mr. Speaker, the task is enormous and the hour late. Nonetheless, I would like at this time to share with my colleagues a plan for easing some of the strain of military life and for reforming wasteful military procurement practices.

The plan I propose would: First, create a special account for unspent military procurement funds which would be earmarked for certain personnel travel allowances including mileage reimbursements, household goods weight allowances, and temporary lodging expenses; second, lower from 15 to 10 percent the unreimbursed costs of renting housing off-post; third, authorize routine dental coverage for military dependents under the Civilian Health and Medical Program of the Uniformed Services [CHAMPUS]; and fourth, establish an Office of Military Family Services within the Department of Defense to offer comprehensive services to personnel and their families.

By linking additional funding for travel allowances by which all military members benefit to savings in the procurement process would add, in small measure, incentive to reporting incidents of fraud and abuse. Clearly the potential pool of funding is enormous: Just last week the Pentagon proudly asserted that it has saved $5.9 billion as a result of a 3-year campaign against wrongdoing.

The thrust of my plan is twofold: By establishing, from the outset, a program under which appropriated funds identified as excess to their intended purposes would be earmarked for personnel compensation programs would add a positive dimension to the fight against fraud and abuse. Such a program would also ensure greater resources for compensation programs which, historically, have not been funded to their authorized limits.

As the Holley suicide demonstrated, many military families arrive at their new post deeply in debt as a result of the unreimbursed costs associated with Government-ordered travel. This hardship is immediately compounded in areas where on-post housing is not available.

In this connection, I applaud the efforts of the House and Senate Armed Services Committees to bring military family housing allowances up to more realistic levels. I believe, however, that further improvements are necessary to reduce the financial inequities military families face today. I propose that the military member's share of off-post housing costs be reduced from 15 percent authorized last month to 10 percent.

As my colleagues are aware, another area of long-standing concern is the kinds of services provided for the dependents of active duty personnel. For many years now service families have complained about the lack of dependent dental coverage. My plan would authorize routine dependent dental care through the Civilian Health and Medical Program of the Uniformed Services. Though a modest step, I can assure my colleagues that dependent dental coverage would give a powerful boost to morale, especially among enlisted personnel of junior grades.

Finally, the Office of Military Family Services would be responsible for developing, implementing, and overseeing a service-wide military family services program which would include: First, financial and family counseling; second, resource and information referral; third, employment training and job referral for family members; fourth, consumer protection; and fifth, family advocacy services. A second area of responsibility would include operating an ombudsman outreach program targeted at military families separated by overseas assignments.

Mr. Speaker, it is my sincere hope that we will continue to focus on this vital issue between now and the opening of the 99th Congress. In proceeding, we ought not to forget that investing in the welfare of our Nation's military personnel is not only the right thing to do, but the smart thing to do as well.

CONFISCATING SPORTSMEN'S RIGHTS

(Mr. MARLENEE asked and was given permission to address the House for 1 minute and to revise and extend his remarks, and include extraneous matter.)

● Mr. MARLENEE. Mr. Speaker, sportsmen across America are outraged at the Democrat nominee for Vice President's history of legislative intent to ban firearms.

Three times Ms. FERRARO—a Congresswoman from the midst of New York City—has supported antisportsmen and antifirearms legislation. She has cosponsored a bill requiring a $5,000 fine or 5 year prison term for simply possessing a handgun.

She opposed a cut in funding for the Bureau of Alcohol, Tobacco and Firearms, that predatory agency long a thorn in the side of firearm owners. And this session Ms. FERRARO has cosponsored legislation requiring a 21-day waiting period between purchase and delivery of a handgun. This bill would also prohibit the private sales of handguns.

Montana's firearms owners, and sportsmen throughout America, will not tolerate this oppression of their constitutional rights.

Confiscating sportsmen's rights may play well in Queens, but in the breadbasket of taxpaying, hardworking, lawabiding America, we feel differently. We respect the rights of others and value our outdoor recreational activities.

I am greatful to the publication Point Blank for the article in their September issue on Ms. FERRARO's record on gun issues. I urge my colleagues and America's 80 million gunowners to closely examine this article and others that reveal Ms. FERRARO's record on this vital issue.

This type of parochial attitude is more than ample evidence why she will be rejected not only by the West but by a vast majority of Americans.

The article follows:

[From Point Blank, September 1984]

GUN BAN SPONSOR NOMINATED FOR V-P

Rep. Geraldine A. Ferraro of New York, who was nominated in July for Vice President of the United States by the Democratic National Convention in San Franciso, in 1981 co-sponsored H.R. 40 by Rep. Jonathan Bingham of New York, which would have provided for a fine of $5,000 or five years' imprisonment, or both, for the mere possession of a single handgun.

This means that, under the Ferraro-sponsored proposal, an otherwise law-abiding private citizen who owned 10 handguns could have been sentenced to 50 years in jail or fined $50,000 or both.

The bill, a comprehensive anti-handgun measure, would have prohibited the importation, manufacture, sale, purchase, transfer, receipt, possession or transportation of handguns, except by or for members of the Armed Services, law enforcement officials and, as authorized by the Treasury Department, licensed importers, manufacturers, dealers, antique collectors and pistol clubs.

Under H.R. 40, the "pistol clubs" could not have been "authorized" unless they maintained possession and control of the handguns used by their members and "effected arrangements" for the storage of the members' handguns in a facility of the local police department or other law enforcement agency.

"The public policy encompassed by this bill," said John M. Snyder, Public Affairs Director, Citizens Committee for the Right to Keep and Bear Arms, "is similar to the public policy toward private handgun ownership followed currently in the Union of Soviet Socialist Republics and other totalitarian dictatorships where, as a matter of practical legal fact, such private handgun ownership is not tolerated. It is a cause for sorrow that so draconian an approach to public policy should have been made in the national legislature of the greatest republic in history. Shame!"

In the current Congress, Rep. Ferarro is a co-sponsor of H.R. 1543, by Rep. Peter W. Rodino, Jr. of New Jersey. The bill would ban so-called "Saturday Night Special" handguns, mandate a 21-day waiting period between the purchase and delivery of a handgun, prohibit multiple handgun sales, prohibit private handgun sales and prohibit pawnshops from selling handguns.

"H.R. 1543," said Snyder, "ignores the right to self-protection and, therefore, the right to life itself of an untold number of Americans needing handguns in a timely way and of an individually affordable variety for the defense of life, family and property."

The Democratic Vice-Presidential nominee also co-sponsored:

H.R. 953, to prohibit the ownership of any bullet that "when fired from a handgun with a barrel five inches or less in length, is capable of penetrating body armor."

H.R. 5835 and H.R. 5845, to ban the sale of armor-piercing bullets to private citizens.

House Concurrent Resolution 25, calling upon the government of the United Kingdom to ban the use of plastic and rubber bullets against civilian rioters.

In July 1981, Rep. Ferraro voted against a successful motion by Rep. Delbert Latta of Ohio, a CCRKBA Congressional Advisor, to cut $5 million from the budget of the Bureau of Alcohol, Tobacco and Firearms.

In 1982, Rep. Ferraro received $250 from the Handgun Control, Incorporated Political Action Committee for her successful campaign for reelection to the U.S. House of Repesentatives.

The Democratic Presidential nominee himself, former Vice President (under President Jimmy Carter) Walter F. Mondale, answering questions before students at Urbandale High School Des Moines, Iowa on January 19, 1984, and talking later to reporters, stated he favors a ban on the sale, manufacture, production and importation of short-barreled handguns which, he says, "are built solely for concealment. They're not good for hunting, not good for target practice." He did not comment on their possible legitimate use for protection of life, family or property.

In 1968, as a U.S. Senator from Minnesota, Mondale voted for the Gun Control Act of 1968 as well as for other gun controls.

Mondale voted for a proposal by Sen. Joseph Tydings of Maryland to require national firearms registration and gun owner licensing in all States failing to enact such measures on their own.

Mondale also voted for a proposal by the late Sen. Henry M. Jackson of Washington, which would have prohibited the interstate shipment of firearms into any State failing to enact gun registration by 1971.

He voted for a proposal by Sen. Ed Brooke of Massachusetts to establish a national registry of firearms.

In addition to nominating the Mondale-Ferraro ticket this summer, the Democratic National Convention adopted a platform which states that "we support tougher restraints on the manufacture, transportation and sale of snub-nose handguns, which have no legitimate sporting use and are used in a high percentage of violent crimes."●

EARLY NETWORK ELECTION PROJECTIONS AND REPORTING OF ELECTION RESULTS OPPOSED

(Mr. WIRTH asked and was given permission to address the House for 1 minute, and to revise and extend his remarks and include extraneous matter.)

Mr. WIRTH. Mr. Speaker, in 33 days, the American people will vote for not only President but offices all the way down the line. The question is, when will the networks be reporting the results of these elections.

The President of the United States and Vice President Mondale have both agreed not to say anything about elections until the polls in the continental United States are closed. A majority of Members of the Congress by unanimous consent, all the members of the Senate, countless members of organizations across the country have asked the networks not to report the results, either to project them or suggest that there are trends or whatever, until the polls are closed.

The networks have once again refused, to abide by this voluntary request.

Once again, I would ask the networks of this country to restrain themselves from reporting election results until the polls are closed.

Mr. Speaker, in 33 days, the citizens of our country will have the opportunity to exercise the most fundamental right we have as Americans: the right to vote. On that day, November 6, 1984, we will elect the President of the United States, one third of the United States Senate, every member of the House of Representatives, 13 Governors, and countless numbers of State and local office holders.

All across the Nation, our citizens are deeply concerned about the effect on the electoral process of early projections or characterizations of election results by the television networks which are aired before the polls have closed throughout a State. This is not a first amendment issue, and no one questions the right of any news gathering organization to report votes cast in an election. Rather, this issue comes down to the civic responsibility of the electronic media and the very serious implications that premature announcements or characterizations have on our electoral process.

Both houses of Congress have passed a resolution expressing our sense that the networks should voluntarily refrain from projecting or characterizing the winner of a race before all the polls for that race have closed. Moreover, public outcry over the networks' continuing disdain for the electoral process has been loud and persistent.

One of the clearest and most compelling statements setting forth the harm to our democracy that these explicit or implicit projections was written by Glenn E. Watts, president of the Communications Workers of America. As Mr. Watts states, "Chasing the Nielsen's is important to the coffers of the networks, but chasing away the voters and changing potential election results may be disastrous to our entire democracy."

I found Mr. Watts' article to be very thoughtful, and I urge my colleagues to read his comments.

The article follows:

FOR THE GREATER GOOD

(By Glenn E. Watts)

If anything concrete has happened to prevent a recurrence of the destructive early projecting of election returns in the 1980 elections, I must have been out to lunch.

Every institution or group that has an interest in good government and good politics has had something to say on the subject, but here we are with only weeks remaining to the 1984 Presidential election and nothing has happened. There has been much heat, but no light.

We are all familiar with the furor touched off with the use by television networks of "exit polls" or "key precinct" data to project a presidential winner—all well ahead of poll closing time in the West and, in some cases, the Rocky Mountain region. The fact that Jimmy Carter made a public, official concession well before poll closing in the West was also a potential influence on several federal and state races.

However, despite Congressional hearings, conferences and seminars by the League of Women Voters, Harvard University's John F. Kennedy School of Government, and

other organizations attempting to focus attention and bring pressure to bear on this most fundamental issue of democracy, no official action has been taken at any level of government nor has the media presented a unified proposal to prevent this practice on election day, 1984.

We have waited much too long to expect meaningful change before November, 1984.

Several approaches have been put forth by various interests, none of which to me seems to solve the problem, most especially the idea of legislation to forbid the media from reporting projections based on "exit poll" or other types of statistical calculations.

The framers of the First Amendment to the Constitution displayed great wisdom. They knew that without a free press, a democracy could not exist. We know today that a free press is of vital importance to an informed and enlightened electorate.

As the framers of our Constitution emerged from their work, someone asked, "What have you wraught?" Benjamin Franklin replied: "A democracy, if you can hang onto it."

Now, in the Information Age, it is more important then ever that we hang onto our democracy, especially the guarantees of the First Amendment. With the advent of satellite technology, telecable transmission, and narrow-casting television channels, an open, free mass media is a primary tool in achieving full and wide discussion of the facts and issues essential for a broad public vision and the forging of consensus.

Technologically, we are reaching the point in telecommunications where groups are communicating only within themselves, raising the spector of a society that is so factionated that consensus may not be attainable. The peril to our democracy of that circumstance is uncalculable.

Abridging the press is not the answer to prevent disenfranchisement of voters because of early reporting of polling results.

What are the avenues available to guard against voter disenfranchisement, while at the same time assuring a free press? Several approaches have been suggested:

Uniform poll opening and closing times nationwide.

24 hour voting.

Creation of election day as a holiday.

Change of election day to a Sunday.

While the above suggestions all may encourage broader participation by the electorate—certainly another area of our democracy which needs strengthening—none would prevent the media from doing its job; reporting to the public the facts, whether based on exit polls, computer projections, or whatever method—as promptly as possible.

From this vantage, there appears to be only one way out of this dilemma. For the greater good, the executives of the networks—the "gatekeepers"—and other media outlets at the highest level, must reach accord on a process of reporting and projecting election returns with absolute safeguards. To do less will only contribute further to a situation where fewer and fewer people are willing to participate by going to the polls.

Chasing the Neilsen's is important to the coffers of the networks, but chasing away the voters and changing potential election results may be disastrous to our entire democracy.

Whatever lessons may have come out of the 1980 elections, we have dropped the ball in terms of translating them into action.

What is needed is the resolve now, among media executives, public interest groups, political parties and relevant government officials, to set a deadline and come up with a plan to correct this problem and also to prepare for the new technology becoming available or in the planning stages which will impact on future election outcomes.

This is, after all, "1984."

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will at this time take special order requests, but reserves the right to proceed with regular business at a future time.

Are there Members who wish to seek recognition under special orders?

□ 1430

THE CONTINUING RESOLUTION

(Without objection, Mr. CONTE was given permission to address the House for 5 minutes.)

Mr. CONTE. Mr. Speaker, if I could have the attention of the gentleman from California.

Mr. Speaker, I hope that the gentleman from California, my dear friend, and I say that sincerely, will reconsider his objection to extending the continuing resolution until Tuesday night at midnight. Let me tell the Members why.

We have been laboring over there in the conference to 4 o'clock this morning. We went back today. We are at a deadlock on several issues. I have been on the Appropriations Committee for 26 years, and I know we cannot break here within the time limit.

Unfortunately, we have to adjourn by sundown because of Yom Kippur. If this were not the case, then we could have stayed here and we could have worked all tonight and worked all day Saturday, all day Sunday. We do not have that luxury. There is no way in the world that we can physically bring back that continuing resolution and act on it.

Now, at 6 p.m. today this continuing resolution expires. The President is going to be forced on Tuesday to tell Federal employees that they are not to come in to work except the essential employees who will be necessary to carry out the work of the Government. He was criticized badly for doing it this week. It is only our administration that is going to suffer by this.

If there is some way that I could plead with the gentleman. I do not see any benefit coming to us by doing that.

Mr. DANNEMEYER. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to my dear friend, the gentleman from California.

Mr. DANNEMEYER. I thank the gentleman for yielding.

Mr. Speaker, my goal in this objection is not the pursuit of that Christmas tree that is circling around these halls. I have no project in my district I seek to attach to that Christmas tree.

All I seek is to have this institution permit this House to vote on House Joint Resolution 243, the proposed constitutional amendment calling for a balanced budget to the Constitution, before we close down the 98th Congress.

I happen to believe that is a reasonable request. Now, I admit, it is not related to this CR. But I think, as my distinguished friend, the majority whip, the gentleman from the State of Washington, remarked the other day on the floor of the House, we are a House that follows procedures and rules and laws. We are a government of laws and not men.

This Member from California is entirely within his rights to object to the CR that is brought up at this time. I have stated a reasonable condition under which I will withdraw that objection. And that is my offer to my distinguished friend from Massachusetts.

Mr. CONTE. Mr. Speaker, let me proceed further.

I voted with the gentleman the other day, even though I disagreed with him, on the constitutional amendment for a balanced budget. I voted with him on the previous question.

I would suggest to the gentleman that he will have that opportunity on Tuesday. Do not do it now. We are going to have to leave here at 6 o'clock today. But on Tuesday, I am sure that even if we reach agreement on this continuing resolution, unless something is done with regards to the public works projects, we are going to get a veto. This continuing resolution only goes to midnight on Tuesday.

I said things on this floor 3 weeks ago that unless that CR is cleaned up, we will get a veto. Then we will be back here with a clean CR. At that time, midnight on Tuesday, the gentleman can raise his objection.

Mr. DANNEMEYER. I am not asking for the vote today or tomorrow. All I am asking is that the Speaker, the leader of this House, will say to me and give me his word as a Member from California, that we in this Chamber will have a vote on House Joint Resolution 243, up or down, no tangential, no effort to obfuscate what the true decision of each Member of the House is on that proposed constitutional amendment.

I do not have to have it today or tomorrow, just that we want it. I happen to believe that that is not an unreasonable request.

Mr. CONTE. What I am saying to the gentleman is that he is going to have that opportunity on Tuesday. Not tonight when we are faced with this religious holiday at 6 o'clock. Then the only one that is going to be hurt is going to be our administration

when Tuesday the President is going to say, "Employees you cannot come back to work because the CR has not been adopted."

Mr. DANNEMEYER. The Democrats control this House. They can give this CR life right now. All that has to happen is that the Speaker or his agent says to this Member from California, we will have the vote on House Joint Resolution 243 on a certain day before the close sine die of the 98th Congress. It is in their hands. They can let this CR be accommodated and this Member from California will withdraw his objection. I hope I hear from them.

Mr. CONTE. Mr. Speaker, I hope the gentleman from California will reconsider his thinking.

INCLUSION OF NAME OF MEMBER AS COSPONSOR OF H.R. 4684

Mr. MACKAY. Mr. Speaker, I ask unanimous consent that Mr. GILMAN of New York be recorded as an original cosponsor of H.R. 4684, the National Nutrition Monitoring and Related Research Act of 1984. Mr. GILMAN's name was inadvertently omitted due to a technical error and for this reason unanimous consent is sought to indicate in the RECORD the fact of his support and sponsorship.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

DISSENTING VIEWS ON PROPOSED EQUAL RIGHTS AMENDMENT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Wisconsin [Mr. SENSENBRENNER] is recognized for 5 minutes.

● Mr. SENSENBRENNER. Mr. Speaker, on November 9, 1983, the House Judiciary Committee reported to the U.S. House of Representatives, House Joint Resolution 1, the proposed equal rights amendment. At that time, I made a unanimous-consent request that the minority be given extra time to file dissenting or supplemental views. The chairman of the Subcommittee on Civil and Constitutional Rights rejected this request.

I also made a unanimous-consent request which was agreed to, that the transcript of the markup be made "an official record to be published for purposes of legislative history." It should be noted that the Judiciary Committee did not file a report on House Joint Resolution 1 nor was the transcript ever published.

I would like to note that the fears of some of us regarding the ERA-abortion connection were justified as the Commonwealth Court of Pennsylvania rules that a State prohibition on medicaid funds being used for abortion was held to be unconstitutional under the Pennsylvania ERA.

At the time they were written, the dissenting views anticipated that a report would be filed and that the ERA would be brought up under an open rule. Unfortunately, neither occurred. The dissenting views that follow were also signed by Messrs. HYDE, SAWYER, MCCOLLUM, and DEWINE.

I would hope that if legislation of this importance is reported out of the Judiciary Committee in the future that a report is filed.

DISSENTING VIEWS ON HOUSE JOINT RESOLUTION 1 PROPOSED EQUAL RIGHTS AMENDMENT

While registering my dissent to the Equal Rights Amendment itself, I strongly dissent to the filing of the House Judiciary Committee's report on this resolution. H.J. Res. 1 is a constitutional amendment and represents the single most important piece of legislation that the Judiciary Committee will consider during the 98th Congress. Yet, some Members were not afforded the opportunity of determining whether the Committee report is in conformity or in conflict with the Judiciary Committee markup because they were not permitted to read the report prior to its being filed. Adequate review is critically important when one considers the debate on the standard of review and the intent of the House Judiciary Committee with respect to those amendments that were defeated, as well as the thrust of the arguments of those supporters of an unamended Equal Rights Amendment. Furthermore, we were not assured in full Committee that the ERA would be considered under an open rule. For a constitutional amendment to be considered under any other procedure would be an outrage.

If the arguments of the ERA are so strong, then it is inconceivable why all Members of the Judiciary Committee were not permitted to examine the report accompanying H.J. Res. 1.

The Chairman of the House Judiciary Subcommittee on Civil and Constitutional Rights, in objecting to the Committee report being circulated to all Members one day before it is filed is certainly not being fair. After all, we are dealing with a constitutional amendment with far-reaching implications. If ratified, the Federal judiciary will look to the report for guidance on how to construe the ERA. At least in the instance of H.J. Res. 1, the courts will have the opportunity to review the full Committee transcript on the markup of this resolution as a unanimous consent request was agreed to that "the full Committee transcript on House Joint Resolution 1 be made an *official record to be published for purposes of legislative history.*" [Emphasis added.]

These dissenting views are an attempt to deal with the Equal Rights Amendment fairly. The undersigned Member is a strong supporter of equality of rights for women. I also feel very strongly that a constitutional amendment is a very serious undertaking. The issues raised in these dissenting views are the foreseeable issues that will be addressed by the courts if the ERA is approved by the Congress and ratified by the States. The ERA's impact of many of these issues is unknown. We can only speculate, as all the clarifying amendments were voted down and the remarks made in the full Judiciary Committee have made the legislative history more confused.

As a legislator who has taken the oath of office to uphold the Constitution of the United States, I feel an obligation to define for the courts how the ERA is to be applied in controversial areas that will in time be the subject of litigation if the ERA is ratified as the Twenty-seventh Amendment to the Constitution.

As we all know, the first submission of the Equal Rights Amendment (ERA I) failed to be ratified by 38 State legislatures during the unprecedented extension of time for ratification granted by the Congress in 1978. In fact, from 1974 to 1982, only two States voted to ratify the proposed amendment.

This failure was a direct result of the amendment's proponents inability to answer critical questions on the many emotional and social issues it raised.

These included questions as to whether the ERA would require taxpayer funding of non-elective abortions as has been argued in several States where the ERA is a part of a State's constitution; whether ERA will strengthen abortion rights; whether the legal standard of review for the ERA will be an absolute standard, as has been argued by many ERA proponents, or will it be the same standard that exists for race classifications; whether women would be drafted into the military, if Congress should decide at some future time to reinstate conscription; whether women would be assigned combat roles; and whether homosexual marriages would be legalized—to name but a few.

Additionally, new questions have arisen as to whether single-sex schools would be eradicated; whether a church that treats women unequally, i.e., by not having women priests, rabbis, or ministers, would have its tax-exempt status revoked—these are important questions in light of the *Bob Jones* decision. Also questions arise as to whether the ERA would overturn veterans preference programs, a suggestion that was made in written testimony this year by Dorothy Ridings, President of the League of Women Voters have arisen.

Finally, it is unclear whether the ERA would actually affect certain economic areas as has been suggested by ERA proponents.

I was very disappointed by many of the witnesses who were either unknowledgeable or did not want to give the Subcommittee the benefit of their positions. For example, Jeanne Atkins, staff lawyer for the Women's Equity Action League, who testified on the legal implications of the ERA on women in the military, was unable to proffer a view on the standard of review. The standard of review is the most important question one has to consider when gauging the ERA's effect on the military. Governor Lamm of Colorado, who testified on all the positions of the ERA in the State of Colorado and the unknown impact on women, was unable to answer a question on whether the wage gap had narrowed in the last 10 years since the ERA became part of the Colorado State Constitution in 1973. Two panels of pro-ERA witnesses were also unable to answer similar questions posed to them on the effect of State ERA's on the wage gap several months later. Dorothy Ridings, President of the League of Women Voters, who, in her written testimony, stated that the ERA would overrule the Supreme Court decision of *Massachusetts* v. *Feeney*, which upheld veterans preference in Massachusetts, was unable to state what the effect of the ERA on the federal veterans preference

programs would be. Kathy Wilson, National Chairperson of the National Womens Political Caucus, was unable to answer questions concerning whether the ERA would invalidate the property and domestic relations statutes in States that did not have community property statutes on the books if and when the ERA is ratified. This question was posed after she made statements highly critical of the English common law system "which provided the foundation for marital property laws." It was like pulling teeth to get some of the pro-ERA witnesses to take a position as to whether the ERA would affect abortion rights or funding of nontherapeutic abortions. When the answers were given it was evident why—some said yes, some said no, some did not know.

The foregoing are mentioned to show that even after the more than 12 years of long, arduous debate on the meaning of the text of the ERA, it is still far from clear what it would mean and do.

As elected officials, we should be wary of abdicating our legislative function to the courts. This is especially important because the hearing process has further clouded the already confused legislative history. I say confused because never before has our country gone through the process of constitutional amendment where the amendment was approved by the Congress, rejected by the States, and subsequently approved by Congress again and resubmitted to the States.

In the full Committee markup of H.J. Res. 1, I was disappointed at the convoluted responses that were given by ERA proponents on questions regarding the standard of review, its effect on abortion rights, the draft, combat, private and parochial schools, and so on.

It is clear that the nagging questions which led the ERA to defeat are still unanswered, and new ones have arisen. It is in the context of the murky, clouded and often opaque meaning of the ERA that these dissenting views have been written. We owe a responsibility to the courts and to the States as to what the ERA means or does not mean.

The first portion of these dissenting views will deal with what effect the ERA will have on certain economic issues such as the wage gap and insurance. The focus will then be directed to the standard of review that sex discrimination cases will utilize, and whether the ERA will affect veterans preferences, abortion rights, public and private education, and women in the armed services.

EMPLOYMENT

It is argued that the ERA will mandate "equal pay for equal work." This is not necessarily true, as the constitutional amendment contained in H.J. Res. 1—by its own terms—only affects State action and cannot affect discrimination by private employers.

Additionally, there are already strong statutes in place that make it illegal for sex discrimination in both private and public employment. For example, Title VII of the Civil Rights Act of 1964, as amended, makes discrimination based on sex in public and private employment unlawful in the areas of hiring, firing, promotions, wages, classifications, referrals, assignments, use of facilities, training, apprenticeships, fringe benefits (including medical and maternity benefits, life insurance, pensions and retirement), and any other privileges of employment.

Title VII has been vigorously enforced to strike down unlawful sex discrimination in many areas. In testimony before the Subcommittee on Civil and Constitutional Rights, Carl C. Hoffman, Ph.D., an expert in the field of employment discrimination, testified that:

"From all the research that I have done, I can find no reason to believe that passage of the Equal Rights Amendment will eliminate the income differentials or the sex segregation in occupations which currently exist. In terms of policymaking, I do not believe it will have the effect many proponents of the Equal Rights Amendment say it will.

"I also strongly question whether we need an Equal Rights amendment, especially with respect to employment discrimination."

Hoffman refutes the conclusion of some experts that the current laws are inadequate to solve the problem of sex discrimination.

"The results of much of my work argue rather that the mechanisms causing the differences in income between men and women are of a different type than those that caused the differences in income between men and women blacks and whites. Specifically, I have found that the career choices, the socializations of women and most importantly the structure of women's lives prevent them from following through on careers to the same extent as men."

Hoffman concluded his testimony by voicing his concern that the courts would be the ones deciding what is and what is not discrimination:

"One of my fears about the Equal Rights Amendment is that it is a symbolic issue, and its passage would relieve Congress and the Administration of much of the motivation to change discriminatory laws and to enforce already existing laws that prohibit discrimination.

"I would hate to see the substantive changes in the law dictated by the Federal Courts, because I believe the issues are of such a complex nature that they require a great deal of study, and legislative rather than judicial action. I would hate to see the primary motivator of Congress, to study these complex issues and to make these hard choices, removed simply by passage of the Equal Rights Amendment, which may be redundant and unnecessary."

Grover Rees, Assistant Professor of Law at the University of Texas Law School, testified that:

"Indeed, if the ERA cannot reach private employment discrimination, then some of the most powerful arguments that have been made on its behalf amount to false advertising. And if it *can* reach private employment, then important questions are raised about what other kinds of non-governmental conduct will be illegalized by the amendment."

In addition to the legal arguments that can be made as to the scope of the ERA, the track record of State ERAs show there has been little if any effect on the "wage gap" in States that have enacted State ERAs in their constitutions, as opposed to States that have not.

In testimony before the Subcommittee, Mrs. Judith Finn, an expert in this area, provided strong arguments favoring the proposition that the ERA will not reduce the pay gap. She said:

"I understand that Governor Lamm of Colorado appeared before this committee and told of the benefits to women that have resulted from the passage in his state of the state ERA. He said, for example, that the proportion of women in the labor force has increased and women are better off economically in Colorado since its ERA was passed. I have looked at the pay gap in the states that have passed state ERAs and I find no evidence that it differs significantly from the pay gap in states that do not have ERAs. In Colorado, for example, the median earnings for women employed full-time, year round in 1980 was 60.2 percent of the median earnings of Colorado males, as reported in the recently published statistics from the 1980 Census. This is indistinguishable from the national average in 1980. The Colorado ERA which has language similar to Section 1 of the proposed Federal ERA was passed in 1972. If at least 50 percent of the pay gap is due to sex discrimination as proponents argue, and if an ERA could be counted on to reduce sex discrimination and thus the pay gap, isn't it time that the proponents explain the failure of the state ERAs to substantially reduce the pay gap? Perhaps the results take more time. Perhaps we should then wait until we have the 1990 census to reevaluate these claims about what ERA can do about the pay gap."

Footnote 21 of Mrs. Finn's testimony before the Subcommittee graphically illustrates that the wage gap has not tightened in ERA versus non-ERA states:

"At this time the 1980 Census data on earnings by sex are not available for all states. Census data are available for four of the six states with state ERAs with language similar to the proposed Federal ERA. Besides Colorado these include New Mexico, Maryland, and Hawaii. The ratios of female/male median earnings reported for these states are .60 in Colorado, .58 in New Mexico, .62 in Maryland, and .69 in Hawaii. For these four states combined the unweighted average is .62, and the weighted average is .615. The comparable national average is not yet published by the Census Bureau but has been estimated by the Bureau to be about .60 in 1980, increasing to .62 in 1983. See Robert Pear 'Earnings Gap Narrows Slightly Between Women and Men, U.S. Reports,' *New York Times*, October 3, 1983 and U.S. Department of Commerce, Bureau of Census, *1980 Census of Population*, 'Economic and Social Characteristics,' (Separate volume for each state), Table 71, U.S. GPO, Washington, D.C., 1983."

Thus, it has not been clearly demonstrated how the ERA will affect employment. In fact, it appears that it will have little, if any effect.

INSURANCE

"As a constitutional ban on sex discriminatory laws, the Equal Rights Amendment will outlaw, or support legal challenges to end, sex discriminatory price and payout abuses by insurers, employers, and government. . . ."

This far-reaching statement was made by Judy Goldsmith, President of the National Organization of Women (NOW), when she testified before the House Judiciary Subcommittee on Civil and Constitutional Rights on September 14, 1983.

Every witness who commented on unisex insurance agreed it would be mandated by the ERA. The question arises as to whether unisex insurance is a benefit or a detriment to the women and men of our society.

Currently, the setting of insurance rates is left to state governments, and several states have enacted insurance statutes requiring unisex insurance. In Michigan, according to statistics compiled by the Michigan Insurance Bureau, the experience has been a massive increase in rates for young single women and young married women.

The rate increase for young single women ranged from 13% to 127%. Unisex insurance rates, which would be required by the ERA, represent an artificial rigging of the insurance market against young women. It inflicts unnecessary and severe economic penalties against the very class of persons it is designed to protect—women, especially young women, who, according to casualty tables of insurance companies, represent a low-risk category of individuals.

Both the hearing record and the markup featured an excerpt of a letter submitted by a victim of Michigan's Essential Insurance Act. To Kim Dove, this new law meant, "despite a near perfect driving record, an increase in insurance rates from $156 per year to $355 per year." Because Kim Dove could not afford the insurance, she was forced to settle for minimum coverage with a high-risk company. In her letter she asks the question:

"Who is going to take care of my family and pay the bills if I should have a serious accident with this kind of minimum coverage? The answer is—no one."

In testimony presented to the Subcommittee by Mr. Paul Barnhart, an independent consulting actuary, it was stated:

"A grave change of the Equal Rights Amendment is that it may establish an artificial, forced 'equality' in areas where fairness and common sense must prevail if the economic interests of women are to be safeguarded. In the field of private voluntary insurance, 'equality' must be tempered and interpreted in the context of *fairness*; or women will suffer; in many instances *severely* and *unjustly*."

We should be very careful about not making women victims of the Equal Rights Amendment while supposedly protecting their economic rights. In Committee, an amendment was offered by the gentleman from Michigan, Mr. Sawyer, to allow sex-based classifications to be used by insurors. Unfortunately, it was defeated. If adopted, it would have gone a long way toward resolving this important issue.

STANDARD OF REVIEW

Perhaps the most important question that has to be answered about the Equal Rights Amendment centers around the standard of review the courts will use when presented with a case of a sex-based classification.

Under the Fourteenth Amendment's due process clause, a classification will be upheld in most instances if there is a rational basis for the classification. This is known as the rational basis test. However, if the classification is based on race, religion or national origin (suspect classifications), the court will apply the standard of "strict judicial scrutiny" to determine if there is a "compelling State interest" for the classification.

Sex has not been held to be a "suspect classification" where "strict judicial scrutiny" will apply. The closest the Supreme Court ever came to denoting sex to a suspect classification was the case of "*Frontiero* v. *Richardson*, 411 U.S. 677, where four Supreme Court Justices argued that sex should be a suspect classification. On the other hand, the very liberal "rational basis test" was long ago relegated to the dust heap of history regarding sex classifications. Instead, the standard of review for a sex classification is currently somewhere in between rational basis and strict judicial scrutiny.

The *Frontiero* case was replaced in 1976 by the standard articulated in *Craig* v. *Boren*, 429 U.S. 190 (1976), where it was stated that a sex classification will be struck down unless it is "substantially related to the achievement of important government objectives." It was held that Oklahoma's 3.2% beer statute (which prohibits the sale of "non-intoxicating" 3.2% beer to males under the age of 21 and to females under the age of 18) was held to invidiously discriminate against males 18-20 years of age.

In a more recent case, the U.S. Supreme Court struck down as a violation of the Equal Protection Clause of the Fourteenth Amendment the policy of the Mississippi University for Women of denying qualified males the right to enroll for credit in its school of nursing. In writing for the majority, Associate Supreme Court Justice Sandra Day O'Connor, in *Mississippi University for Women* v. *Hogan*, 455 U.S. 1014 (1982), articulated the "exceedingly persuasive justification" for gender-based classifications:

"Thus considering both the asserted interest [educational affirmative action for women in the field of nursing] and the relationship between the interest and the methods used by the State, we conclude that the State has fallen far short of establishing the 'exceedingly persuasive justification' needed to sustain the gender-based classification."

As time goes on, the standard of review for sex-based classifications will continue to move away from this intermediate standard of review toward strict judicial scrutiny.

The standard of review for the ERA is unclear. Both the hearing record and the official record of the House Judiciary Committee markup of H.J. Res. 1, held on November 9, 1983, is replete with differing views as to what is the standard of review under the ERA. Instead, it proved that the proponents of the ERA clearly do not know what the 52-word constitutional amendment means. Professor Anne Freedman of Rutgers University Law School, who co-authored an extensive thesis on the ERA which was cited by Congress when it was considered in 1971-72, testified that "under the ERA, the government would be prohibited from classifying on the basis of sex, except in those rare circumstances where such classifications are used to protect the constitutional right to privacy or to prevent past discrimination to be remedied . . ." [suggests that affirmative action programs would be constitutional].

Professor Thomas Emerson of Yale University Law School, also a co-author of this article, testified before the Civil and Constitutional Rights Subcommittee "that if the ERA is to achieve its goal [it] must start with the proposition that classification by sex is outlawed. . . ." He then retreated significantly from that statement by arguing that the ERA includes an exemption for certain physicial differences between the sexes and for the right to privacy, and that the ERA would not supercede "certain other rights". Nowhere in the ERA are these exceptions articulated.

In the *Yale Law Review* article (80 Yale Law Journal 961 (1971)), both Professors Emerson and Freedman argued that "the constitutional mandate must be absolute."

The staff attorney for the Womens Equity Action League (WEAL) mentioned several different standards for military classification. Ms. Atkins first stated that "all explicit gender-based exclusions . . . [i.e.] the express exclusionary policies of the services, and the gender-based Selective Service . . . would fall." [This seems to suggest an absolute standard.] She goes on to state that: "Moreover, any practices based on physical characteristics unique to one sex would have to be justified by a showing that the need was compelling." [This suggests strict scrutiny.] Finally, she states that "to the extent that such gender-neutral intent might disproportionately exclude women from participation, these criteria would be subject to rigorous examination." [This suggest a third standard.] In her oral testimony a fourth standard—a "sensible standard"—is suggested.

As noted previously, Mary Frances Berry stated that the standard of review for the ERA would be similar to that for racial discrimination. Former Congressman Charles E. Wiggins, in his testimony before the Subcommittee, suggested that "that is a serious risk that it [ERA] will be construed as adopting an absolute standard against classifications based on sex, except where unique physical characteristics are properly involved, and that exceptions will be subject to strict scrutiny. "This construction . . . is the critical vice of the amendment. . . ." Thus, the standard of review for sex classification would be more stringently applied than the current one for race that exists under the equal protection clause of the Fourteenth Amendment. Mr. Wiggins further testified that the language of the ERA is absolute, that the standard of review for sex discrimination under the ERA is a higher one than currently exists for race under the Fourteenth Amendment. Mr. Wiggins noted that under either standard of review for the ERA, whether strict judicial scrutiny or absolute, that the Hyde Amendment and similar amendments at the state level that prohibit federal funds from being used for abortions, would probably be invalidated.

When the ERA was considered by the Judiciary Committee, there was a bipartisan effort to more clearly define the scope of the Equal Rights Amendment through amendments. All of these amendments were voted down. However, in the debate on these amendments, it became clear that the supporters of the ERA could not articulate what the standard of review would be for sex classification.

In the area of the impact of the ERA on abortion, the Judiciary Committee was assured by various opponents of the Sensenbrenner amendment (which, if adopted, would have made the ERA abortion-neutral) that it was unnecessary because the ERA already did not affect abortion rights. It was asserted that abortion issues including the legality of the Hyde amendment would continue to be decided under the privacy penumbra. In the next breath, however, the Chairman of the Subcommittee on Civil and Constitutional Rights stated the standard of review for pregnancy classifications would be strict judicial scrutiny. There was much testimony and legal analysis done that indicated if the test for a pregnancy classification is strict judicial scrutiny (which the proponents say it is), and if an abortion classification is a pregnancy classification (which proponents say it is), then the Supreme Court case of *Harris* v. *McRae*, 448 U.S. 297 (1980), which upheld the Hyde amendment, would be overturned.

Regarding the effect of the ERA on parochial-private schools, the various statements were made which showed a lack of understanding of how the standard of review would affect the impact of the ERA.

For example, on the one hand, it was argued by one proponent that strict judicial scrutiny would apply to private and parochial schools. However, it was emphasized that sex classification and race classification would have to be treated differently. Thus,

it is unclear as to whether the "strict judicial scrutiny" test which is applied to racial classification will be the same "strict judicial scrutiny test" to be applied to sex-based classifications if the ERA is ratified.

In the area of veterans preference, it was mentioned in the markup that the standard of review would be whether veterans preference programs could serve legitimate legislative goals if targeted to people who were involuntarily withdrawn to serve their country. One would look at the legislative reasoning when veterans preference statutes were adopted. If there is a rational reason, then the statute would be upheld. This seems to suggest a rational basis test. In the next breath, a strict judicial scrutiny test was said to apply.

We do not think anyone really knows how the ERA will affect veterans preferences.

The question of the standard of review for the ERA is clearly one that needs to be addressed. The Judiciary Committee markup and hearing record certainly do not provide much guidance as to the standard of review for the ERA on issues relating to abortion, the military, private and parochial schools, veterans preference, etc. Unless this is clearly articulated, the controversy will continue to rage over the effect of the ERA on sex-based classifications in our society. The answers will continue to be either "I don't know" or, as the chief sponsor of the ERA in the other body would say "the courts will decide."

VETERANS PREFERENCE

". . . the broad veterans preference statute challenged in *Massachusetts* v. *Feeney* (442 U.S. 256) which granted an absolute preference to veterans seeking public employment in the Massachusetts civil service would fall in a challenge under the ERA."

This statement was made by Dorothy Ridings, President of the League of Women Voters, after she criticizes "rules and policies . . . which have a disproportionately negative effect on women . . . and perpetuate the occupational segregation that isolates women into a few occupations with lower status and pay."

The proponents of the amendment (See, e.g., the testimony of Professor Freedman), tell us that facially neutral statutes having a disparate impact on one sex will be subjected to strict judicial scrutiny. The Massachusetts statute, upheld in *Feeney*, will fall under this judicial analysis. What we do not know is this: what other veterans' preference programs will also fall?

If the veterans preference program in *Massachusetts* v. *Feeney* would fall, then veterans preference programs that exist at the Federal and State levels in employment, education, loan acquisitions, and so on, would be subject to challenge. Veterans preference programs were enacted to help veterans get back in the mainstream of society after giving service to our country. Veterans did not get rich in World War II, the Korean War, or during the Vietnam era; their monthly pay was an average of $76 in 1944, $144 in 1952, and $193 in 1968. It is unfortunate that the ERA movement has singled out to destroy the rights of those persons who risked their lives for our country in the name of equality.

ABORTION

The impact of the ERA on one of the most controversial social and moral issues of our time—abortion—is unclear. That the ERA will be used to buttress and amplify the right to abortion is crystal clear. This intent has already been demonstrated by abortion advocates in three States that have, in their State constitutions, language that closely tracks the proposed federal Equal Rights Amendment. These States also had or have restrictions that prohibit State monies from being used for abortion purposes. These States are Hawaii, Massachusetts, and Pennsylvania.

In 1980, the Civil Liberties Union of Massachusetts (CLUM) in *Moe* v. *King*, S. Judicial Court of Mass, Civil No. 80-286 (filed July 9, 1980), argued that State refusal to fund abortions violated the Massachusetts Equal Rights Amendment:

"By singling out for special treatment and effectively excluding from coverage an operation which is unique to women, while including without comparable limitation a wide range of other operations, including those which are unique to men, the statutes [prohibiting state funding of abortions] constitute discrimination on the basis of sex, a violation of the Massachusetts Equal Rights Amendment."

CLUM justified the lawsuit in the following way when its executive director stated:

"Because a strong coalition is being forged between the anti-ERA coalition and the anti-abortion people, it was our hope to be able to save Medicaid payments for medically necessary abortions through the federal court route without having to use the State Equal Rights Amendment and possibly fuel the national anti-ERA movement. But the loss in McRae was the last straw. We now have no recourse but to turn to the State constitutions for the legal tools to save Medicaid funding for abortions."

In *Hawaii Right to Life* v. *Chang* (Memorandum in Support of Motion to Intervene, Circuit Court of the First Circuit, State of Hawaii, Civil No. 53567 (filed May 11, 1978)), the ACLU argued on behalf of several doctors that:

"Applicants' first claim to reimbursement as a matter of right rests on the Hawaii Constitution's guarantees of due process and Equal Protection and Article I, Sec. 21, which provides that 'equality of rights under the law shall not be denied or abridged by the State on account of sex.' Abortion is a medical procedure performed only for women; withdrawing funding for abortions while continuing to reimburse other medical procedures sought by both sexes or only by men would be tantamount to a denial of equal rights on account of sex."

In both of these cases, the court did not address the equal rights requirement in making its decision.

In the third case of *Fischer, et al.* v. *Commonwealth of Pennsylvania Department of Public Welfare*, the American Civil Liberties Foundation of Pennsylvania argued that:

"Pregnancy is unique to women. 62 P.S. § 453 and 18 Pa. C.S.A. § 3215(c), which expressly denies benefits for health problems arising out of pregnancy, discriminates against women recipients because of their sex. 62 P.S. § 453, and 18 Pa. C.S.A. § 3215(c) and the regulations issued pursuant thereto constitute a gender-based classification in violation of the Pennsylvania Equal Rights Amendment, Article I, Section 28, of the Pennsylvania Constitution."

Admittedly, there is no court ruling on the merits but it is clear that the ERA will be an arrow in the quiver of the pro-abortion movement in their attempts to expand abortion rights.

It has been argued and testified to by proponents of the ERA that the ERA will have no impact on abortion or abortion funding because pregnancy is a unique physical characteristic shared only by one sex and would not be an issue for sex discrimination.

However, in an amicus brief filed in the *General Electric* v. *Gilbert* case, 429 U.S. 125 (1976), by the leading legal scholars who favor the ERA, it was argued that pregnancy was no different than any other temporary disability. The issue in the *Gilbert* case was whether a disability insurance coverage program offered by General Electric, which included pregnancy coverage, was discrimination and thus in violation of Title VII of the 1964 Civil Rights Act, which prohibits sex discrimination in employment.

The amicus brief filed by the ACLU and the Women's Law Project was signed by Professor Thomas Emerson of Yale Law School and Professor Anne Freedman of Rutgers University School of Law, both of whom testified before the Subcommittee on Civil and Constitutional Rights in favor of the ERA. It was stated that:

". . . in line with the central tenet of the ERA—that legal support for sex discrimination is to be eradicated root and branch—Congress clearly intended the amendment to end all categorical discrimination by law, including the improper use of pregnancy-based classification.

". . . The condition of pregnancy, for example, possesses a number of properties, some of them shared by other conditions (need for medical care, period of disability), and some, wholly unique (the birth of a child is the usual result). The uterus, too, shares some characteristics with other organs (subject to disease and malfunction), and has some features wholly unique to it . . . ."

If General Electric were a State employer subject to the ERA "its treatment of disability related to pregnancy and childbirth would not survive scrutiny appropriate under the amendment." (*Id.*) Thus, if this treatment of a "disability related to pregnancy" would not "survive scrutiny" under the Equal Rights Amendment, it is doubtful that an abortion classification—necessarily related to pregnancy, of course—could withstand the constitutional scrutiny required by ERA.

In testimony before the Subcommittee on Civil and Constitutional Rights, the American Bar Association was very critical of the U.S. Supreme Court's decision in the *Gilbert* case:

"The Supreme Court reasoned . . . that different treatment of pregnancy from other disabilities is not discrimination based on sex but simply discrimination based on pregnancy. Accordingly, a legislature can distinguish between pregnant and non-pregnant people and perpetrate no legal wrong against women. This denial of the obvious fact that to treat people differently on account of characteristics unique to one sex is to treat them differently on the basis of their sex places beyond reach of the equal protection clause some of the most invidious and detrimental sex role stereotyping."

It takes little imagination to see that legislative restrictions on public monies being used for abortions are clearly within the reach of what Professors Emerson and Freedman, and the ABA would like to see prohibited.

If the Supreme Court were to construe a prohibition on Federal funding as a sex-based classification, the Hyde Amendment or a similar State prohibition on abortion would be subject to a strong constitutional challenge under the ERA. Professor Freedman testified that pregnancy-based classifi-

cations *are* sex-based classifications. (She cited Justice Brennan's dissent in *Geduldig* v. *Aiello*.)

In the full Judiciary Committee markup of H.J. Res. 1, primary legislative history was established in a colloquy between the Ranking Minority Member of the full Committee and the Chairman of the Subcommittee on Civil and Constitutional Rights.

In response to a question as to whether the standard of review for a pregnancy classification under H.J. Res. 1 would be decided under a rational basis test or a strict judicial scrutiny test, the Chairman of the Subcommittee acknowledged the latter. Many legal scholars believe that the *Harris* v. *McRae* case, which upheld the Hyde amendment, would be rendered overturned if the Hyde amendment were subject to a strict judicial scrutiny test (which is currently used for racial discrimination cases) and if abortion were considered a pregnancy classification. Immediately after this statement, the Chairman of the Subcommittee quoted an analysis by Professor Anne Freedman which stated that the Supreme Court remains committed to a privacy based analysis. The implication being that the ERA would have no effect on abortion rights or the Hyde amendment. Similar asserions were made by witnesses in testimony before the Subcommittee. This privacy analysis is a clever technique to cloud the issue. It is true that the Supreme Court has upheld the right to abortion under the privacy penumbra. *Roe* v. *Wade*, 410 US. 113 (1973). However, what the Chairman of the Subcommittee and witnesses failed to state is that the U.S. Supreme Court in the *McRae* case scrutinized the Hyde amendment and concluded that it did not violate equal protection principles.

In the *McRae* case, the Supreme Court also held that there was a rational basis for upholding the Hyde amendment: "It follows that the Hyde amendment, by encouraging childbirth except in the most urgent circumstances, is rationally related to the legitimate government objective of protecting human life." *Id.* at 325. The Court's holding is as follows:

"We hold that a state that participates in the Medicaid program is not obligated under Title XIX to continue to fund those medically necessary abortions for which Federal reimbursement is unavailable under the Hyde amendement. . . We hold further that the funding restriction of the Hyde amendment violates neither the fifth Amendment nor the establishment clause of the Fifth Amendment."

The Supreme Court, in the *McRae* case, also concluded that the Hyde amendment did not violate equal protection principles because it did not disadvantage a "suspect class" where strict judicial scrutiny would apply.

In *William* v. *Zabraz*, 448 U.S. 297, which was decided on the same day, the Supreme Court held a State funding restriction similar to the Federal Hyde amendment did not violate the constitutional restrictions of the equal protection clause of the Fourteenth Amendment.

It is clear that under the ERA classifications based on unique physical characteristics would be given strict judicial scrutiny and that restrictions in the Hyde amendment and similar State laws for funding abortions would clearly be reviewed under strict scrutiny.

Therefore, the Supreme Court, in looking at abortion rights, could still hold that abortion is connected with the right to privacy. It could also, under the strict judicial scrutiny test, invalidate the Hyde amendment without reversing itself and without mentioning anything about the right to privacy.

Even if Federal or State funding of abortion or issues relating to abortion were privacy questions, an *explicit amendment* to the Constitution such as that embodied in H.J. Res. 1 would probably overrule any *implied* fundamental right to privacy.

Witnesses who testified before the Subcommittee expressed their concern over the ERA. For example, Paige Cunningham, Executive Director of the Americans United for Life, Legal Defense Fund, in testimony before the Civil and Constitutional Rights Subcommittee, stated:

"The language of the ERA does not, on its face, implicate abortion. However, in view of positions taken by abortion advocates under state equal rights provisions, the views of leading ERA proponents, and the decisions of the judiciary in abortion-related matters, this potential connection is obvious. Only new language, a specific disclaimer, or rigidly drafted legislative history assure that this result will not occur.

"Otherwise, the federal courts will have a blank check to interpret the ERA in the abortion context as they choose—a result that as an advocate of the right to life for all human beings I must oppose."

The ERA-abortion connection concern was echoed by Professor Jules Gerard, Professor of Law, Washington University, St. Louis, when he stated that "the argument that ERA would invalidate current laws denying funding for abortions is perfectly straight-forward."

Professor Henry Karlson, also a witness before the Subcommittee, testified about his concern over *Harris* v. *McRae* being overturned. Using the *Bob Jones* rationale, he also testified about the impact of a hospital sponsored by a religious institution that has tax-exempt status that does not perform abortions. This could be construed as contrary to public policy, i.e., sex discrimination, and found to violate the ERA. He notes the failure to amend the ERA to make it clear it is abortion-neutral should be considered an open-ended invitation to the Federal judiciary to use the ERA to invalidate all State and Federal laws dealing with the subject.

It makes little difference as to whether a standard of review for the ERA would be an absolute one and prohibit all sex discrimination with no exceptions or whether sex discrimination would be treated as race discrimination—a suspect class—where a compelling state interest would be needed. Former Congressman and Ranking Minority Member of the Civil and Constitutional Rights Subcommittee, Charles E. Wiggins, testified that the *Harris* v. *McRae* decision, upholding the Hyde Amendment, would be endangered as it was a close 5–4 decision. Paige Cunningham, of Americans United for Life, echoed the same concern.

The hearing record showed the split between constitutional experts on the issue. In markup, the Subcommittee Chairman provided inconsistent and incomplete answers on how the ERA would affect abortion. It would be impossible for the Committee report to make any sense out of what was said at the full Committee markup with respect to whether there is an ERA-abortion connection. We do know that the Subcommittee Chairman said the Hyde amendment would be strict judicial scrutiny. The Sensenbrenner amendment will be offered during House consideration of H.J. Res. 1 to make crystal clear that the intent of the ERA is not to expand abortion rights—that the ERA is abortion-neutral—with respect to the Hyde amendment, with respect to religious hospitals or other institutions that do not allow abortions, to name but a few.

As Lane Kirkland, President of the AFL–CIO, testified before the Subcommittee ". . . while we recognize that a few substantial issues have been raised—such as the effect, if any, of the ERA on the right to an abortion . . . we believe Congress may, and should, provide authoritative guidance to the courts. . . ."

The adoption of an amendment to make the ERA abortion-neutral would help in its ratification by the States. It could take away the opposition of a large constituency who may or may not have any opposition to the Equal Rights Amendment as a substantive issue. As State representative Alan Quist of Minnesota testified: "It [abortion] probably is the key issue [regarding passage of the Equal Rights Amendment in Minnesota]".

The adoption of an amendment is the only way to insure that the ERA will be abortion-neutral. The courts can ignore report language, they can ignore statements on the floor of the House and Senate, but they cannot ignore explicit instructions on the intent of the ERA that appears in the body of the amendment itself.

PRIVATE AND PAROCHIAL SCHOOLS

It does not take a strained imagination to see that the Equal Rights Amendment could have a sweeping impact on many of our private and parochial schools.

The ERA refers to "equality of rights under the law." This means there must be some sort of "state action" involved before the ERA is triggered. The Fourteenth Amendment, which also has a state action requirement has been construed quite broadly so that the distinction between what is private action and what is public (state) action has become quite muddled.

With regards to both private and parochial education, state action under the ERA could be a variety of things, many of which have already been construed as state action for purposes of the Fourteenth Amendment. Public involvement could mean an institution receiving direct financial assistance from the Federal, State or local government for its educational programs or building programs; indirect financial assistance (i.e., grants, loans, or guaranteed student loans) made to students for tuition costs; tuition tax credits at the Federal or State level to parents who send their children to private or parochial schools; the granting of tax-exempt status to an institution by a government entity; to name a few. In fact, Dr. Donna Shalala, President of Hunter College, who was selected to testify by ERA proponents at a hearing before the Senate Subcommittee on the Constitution on October 13, 1982, on the effects of the ERA on private education, stated:

"I do not know of any institution in the country in which there is not public involvement."

Thus, it seems the ERA would affect all private educational institutions.

In the area of parochial schools, similar and different concerns arise. For example, the Catholic Church, Orthodox Jewish Synagogue and the Mormon Church all have polices that distinguish in their treatment between men and women. Constitutional scholars over the ERA application to religious and parochial schools. There is even more reason to be concerned if the ERA's

application to parochial and religious schools when viewing it in conjunction with the decision of the U.S. Supreme Court in the case of *Bob Jones University* v. *United States*, (No. 81-3, decided May 24, 1983, 51 U.S.L.W. 4593).

In *Bob Jones*, the U.S. Supreme Court held that the Internal Revenue Service was permitted to revoke the tax-exempt status of a university which for religious reasons prohibited interracial dating and marriages. If the Equal Rights Amendment becomes part of our Constitution and sex is elevated to the level of a suspect classification, it is very possible that the Internal Revenue Service, using the same "public policy" rationale articulated in the *Bob Jones* case, would deny tax-exempt status to religious educational institutions that discriminate on the basis of sex (i.e., those which do not train women to become priests, rabbis, ministers etc.) or 501(c) tax-exempt status to private single-sex institutions.

Professor Henry Monaghan of Columbia University Law School and a supporter of the ERA, in testimony before the House Judiciary Subcommittee on Civil and Constitutional Rights, testified that using the analogy of sex discrimination with race discrimination articulated in the *Bob Jones* case, the tax-exempt status of a Jewish theological seminary could be revoked by the Internal Revenue Service.

In the markup of H.J. Res. 1 before the House Judiciary Committee, an amendment to exempt private and parochial schools from the Equal Rights Amendment was defeated. During the debate on the amendment, it became apparent that the proponents of the ERA who were opposed to the amendment and who spoke on the issue did not know what effect the ERA would have on these institutions.

For example, no legal authority was given at the hearings or in markup to prevent IRS from removing the tax-exempt status of private single-sex schools or certain religious educational institutions in accordance with public policy. In fact, it appeared that a double standard would be used with men's single-sex schools being outlawed while women's single-sex schools would be allowed to continue to operate under a tax-exempt status if fulfilling a compensatory purpose. While observations were made that the standard would be strict judicial scrutiny, no one opponent of the private and parochial schools amendment could clearly articulate how this standard would be applied. In any event, it is possible that the Equal Rights Amendment as reported out of the House Judiciary Committee could have a radical effect on private and parochial education.

ERA AND THE MILITARY

When H.J. Res. 1 was before the full Judiciary Committee, several amendments were offered: by Mr. Hall, to exempt the draft from the ERA; by Mr. Shaw, to exempt women from serving in combat under the ERA; by Mr. Sawyer, to exempt Article I, Section 8, Clauses 12, 13, and 14 from the ERA. These amendments were defeated by votes of 13 to 18, 11 to 20, and 13 to 18, respectively.

Article I, Section 8, Clauses 12, 13, and 14, currently gives Congress the exclusive power to raise and support armies, to provide and maintain a navy and to make rules for government regulation of the land and naval forces. Thus, it is within the discretion of the Congress of the United States to determine the occasion for the expansion of our armed forces and the means best suited to such expansion, should it prove necessary.

Ratification of the ERA would certainly limit Congress' power and flexibility under Article I, Section 8, of the Constitution.

For one thing, it would require that females both register for the draft and be drafted if the occasion should arise. In the hearings held by the Subcommittee on Civil and Constitutional Rights, supporters of the ERA admitted that this result would be required. In fact, they were boastful of this result. We certainly should take the supporters at their word. The ERA prohibits sex discrimination. The draft treats men and women differently, and thus an all-male draft would be held unconstitutional.

Congress, as late as 1980, rejected President Carter's proposal to register for the draft both men and women. The U.S. Supreme Court in the case of *Rostker* v. *Goldberg*, 453 U.S. 57 (1981), upheld the exemption. If there is such an overwhelming need to have women register for the draft or be subject to the draft, then Congress can do it now without having the ERA ratified.

In addition, there are also practical considerations that should be taken into account. For instance, it is unclear whether women with small children would be required to serve. It would seem to violate the absolute language of the ERA to provide an exemption to a married woman with small children while not exempting her husband. This would certainly continue the sex stereotyping that has been criticized by the feminists advocating an ERA with no clarifying amendments.

It seems clear that a strong argument could be made that the ERA would force women to serve in combat. Currently, either by statute or by regulation, the four branches of the military do not allow women to be eligible to serve in jobs that are classified as combat related. This amounts to only about 10% of the jobs in the armed forces. If the ERA is ratified, our armed forces would be subject to lawsuit after lawsuit; a certain job classification could operate to exclude a large number of women. Such a classification (neutral on its face but discriminatory in effect) could be made as to physical strength requirements for combat-related activities. The absolute language of the ERA and various statements made by proponents indicate that any sex policy that would exclude women from combat would be unconstitutional. ERA proponents indicate that job requirements in the military should be based on individual characteristics and not based on sex. This is already the case for 90% of the jobs that are not combat related.

The adoption of an ERA with an exclusion for the military is in line with what the vast majority of the American people want. The fact that the ERA encompassed these issues was one of the principal reasons it failed to be ratified last time around. This fact is buttressed by a 1980 Gallup poll that found only 21% of the population being in favor of women in combat roles.

It has been argued that our next war will not feature hand-to-hand combat. Thus, physical strength will be less of a concern in our draft. Our recent experience in Grenada and Lebanon should dispel the fallacy. On the issue of combat, Brigadier General Elizabeth Hoisington, former Director of the Women's Army Corps (WACs), in testimony before the House Judiciary Subcommittee on Civil and Constitutional Rights, had this to say about women serving in combat:

". . . the overwhelming majority of women cannot match men in aggressiveness, physical stamina, endurance, and muscular strength in long-term situations."

Finally, when Professor Thomas Emerson of Yale Law School and Anne Freedman of Rutgers University Law School testified before the Subcommittee, they both referred to the principle that was articulated in a Yale Law Journal article that they coauthored in 1971. The following is an excerpt from this article:

"We must radically restructure our view of women in the military under the ERA. There's no reason why a woman cannot serve in combat if she can pass the physical, and if she can carry a 50-pound pack."

RATIFICATION PERIOD

House Joint Resolution 1, like its predecessor, which was submitted to the States for ratification, has a seven-year time period for ratification. However, this seven-year time period is not in the body of the amendment.

In Committee, a very constructive amendment was offered by the gentleman from Ohio, Mr. Kindness, which would place the ratification time frame within the body of the amendment itself. This distinction was of great significance in 1978 when the time period for ratification was extended. The Kindness amendment is in line with the form of other Amendments (the 18th, 20th, 21st and 22nd Amendments) which also contained a seven-year time frame for ratification within the body of the amendment itself instead of in the resolving clause.

CONCLUSION

In any event, unless the ERA is clarified to address the concerns that caused it not to be ratified after an unprecedented 10 year period, the same result will occur with House Joint Resolution 1.●

STOCK OPTIONS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oklahoma [Mr. JONES] is recognized for 5 minutes.

● Mr. JONES of Oklahoma. Mr. Speaker, today my colleague BILL FRENZEL and I are introducing legislation which is important because it would help to stimulate the productivity gains and new jobs which our economy needs. This bill is unusual because we believe it would accomplish this goal without costing the Federal Government money.

Our bill would amend the Internal Revenue Code to make incentive stock options [ISO's] a more attractive alternative form to corporate compensation. It would make it easier for corporations to provide their employees with meaningful incentives to achieve business growth and increased productivity, thereby creating new jobs in the private sector and stimulating our economy. The cost of these incentives are borne by the corporate shareholders, the ultimate benefactors of corporate expansion.

We view this legislation as an attempt to modify some of the deficiencies in the ISO law which work to limit substantially their attractiveness as a capital formation tool. The deficiencies this legislation corrects are:

INCLUSION OF THE SPREAD AS A TAX PREFERENCE ITEM

The inclusion by the Tax Equity and Fiscal Responsibility Act [TEFRA] of 1982 of the spread between exercise price and fair market value as preference income and the resulting imposition of the alternative minimum tax has raised the tax rate on gains from ISO's to as much as 40 percent, which is double the maximum rate under ERTA and 80 percent of the maximum rate of ordinary income. Furthermore, the levy of a tax at exercise imposes as unnecessarily harsh financial burden on an employee whose cash resources have just been depleted by the amount of the exercise price. An unfair and particularly unintended tax treatment results if, after the employee incurs the alternate minimum tax, the stock price declines. In this unfortunate situation, the actual rate of taxation rises exponentially as the price at which the stock is ultimately sold drops. It is even probable for the employee to pay a tax on a capital loss. The imposition of the alternative minimum tax by TEFRA has reduced the unattractiveness of ISO's and is contradictory of the purpose for which we achieved with reinstatement of stock options in the 1981 legislation.

MAXIMUM AGGREGATE EXERCISE VALUE TO $100,000

ISO's are further limited in their usefulness by a condition which was added to our legislation in 1981 that the grant of an option be restricted in any 1 year to an aggregate exercise value of $100,000. This cap makes it more difficult for emerging growth companies to attract top managers from established companies whose pay scales in today's market vastly exceed the potential from a $100,000 cap.

REQUIREMENT FOR SEQUENTIAL EXERCISE

ISO's effectiveness has also been curtailed by the ERTA stipulation that such be exercised in the sequential order in which they were granted. This provision stipulates that an option which has not been exercised in full is considered outstanding for the entire period for which it was granted, even if the option is canceled by the employer. The net result is options granted earlier at a higher price must all be exercised before those granted later at a lower price can be exercised. This serves to penalize those employees who have been with a company for some period of time and hold options priced higher than those granted newer employees at a later date. Moreover, this provision unfairly punishes lower level employees who may bear no responsibility for the circumstances that resulted in the decline in the price of the company stock.

In conclusion, Mr. Speaker, let me state the reasons these changes should be made. When my colleague, BILL FRENZEL, and I originally introduced our stock option legislation in 1979 we did so because we believed such measure was important to small, growing business. Repeated studies have documented that the smaller, emerging companies create substantially more jobs as they grow than do larger, more mature businesses. However, in order to do so, they need risk capital, and they also need meaningful incentives to attract and motivate talented employees to invest their personal energies toward the goals of company expansion and productivity improvement.

The restrictions imposed on ISO's in the 1981 and 1982 tax legislation discourage their use. To us, this policy is without merit. Let us repeat, the Treasury loses revenues when nonqualified options are chosen over ISO's. The three changes embodied in our legislation are important to job creation, innovation, and productivity. Correction of these deficiencies can be accomplished without any loss of Federal revenue.

The provisions contained in the Internal Revenue Code which limit the attractiveness of ISO's should be eliminated as we have provided for in this legislation.●

THE IMMIGRATION BILL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Mexico [Mr. RICHARDSON] is recognized for 5 minutes.

Mr. RICHARDSON. Mr. Speaker, there are some very disturbing reports that the Simpson-Mazzoli bill is rearing its ugly head again, that the conferees in desperation are about to reach an agreement that falls short of even the most minimal standards of dicrimination protection which has been the main point of contention in the bill.

Mr. Speaker, there is no question that we need immigration reform.

□ 1440

As chairman of the congressional Hispanic caucus, I have pledged that our first legislative priority in the 99th Congress will be an immigration reform bill that is sustainable and will be acceptable to the American people. We recognize that the previous Hispanic caucus bill was not sufficient and that a stronger and more comprehensive bill is needed.

This is the midnight hour in this Congress, and it is no time to cut deals that hurt people. I ask those involved in the process of reviving the Simpson-Mazzoli bill to exercise minimum standards of courtesy and decency and advise those of us who represent those who would be most affected by this bill what they are doing so that we can at least defend ourselves. Deals that involve millions of people should not be made in back rooms but up front where the people can judge whether they are right or wrong.

Mr. Speaker, the Simpson-Mazzoli bill is bad legislation. We do need immigration reform, but not a bill that is flawed, that is not sustainable, that discriminates against all Americans and, lastly, that is going to cause unnecessary bloodshed.

There are Members in the other body who have equal reservations who will make sure that this bill is brought to the most intensive scrutiny. I ask those today who are working on these amendments that supposedly will cure the bill to come forth and tell us all what they are planning. Too much is at stake, and the midnight hour is no time to make deals that will be bad legislation for this country.

I have pledged that the first priority in the next session for the Hispanic caucus will be an immigration bill that is sustainable, that deals with discrimination, that stops workers from coming into this country and hurting Americans in their jobs, but, lastly, a bill that is consistent with out traditions of compassion.

Mr. LELAND. Mr. Speaker, will the gentleman yield?

Mr. RICHARDSON. I yield to my colleague, the gentleman from Texas.

Mr. LELAND. Mr. Speaker, I would like to associate myself with the comments that the gentleman has made and to also inform the gentleman that the Hispanic caucus is not the only caucus nor the only Members who are worried about the results of the so-called negotiations that are going on, and that we stand willing and ready to do battle if in fact we have to.

Mr. RICHARDSON. I appreciate the remarks of my colleague from Texas. I think this is a bill that is of immense importance to our country. It has taken a lot of time, and I think the House has given indications of what it wants. But now we are reaching a case where in desperation people are grasping at straws at provisions that have shown to hurt people, provisions that for political reasons are being pushed in this midnight hour. I thank my colleague from the Congressional Black Caucus for his good words and appreciate his support.

Mr. LELAND. I commend the gentleman for his steadfast position on this issue.

ARMS CONTROL AND INTERNATIONAL SECURITY ACTIVITIES OF THE COMMITTEE ON FOREIGN AFFAIRS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. FASCELL] is recognized for 5 minutes.

● Mr. FASCELL. Mr. Speaker, during the 98th Congress, the Committee on Foreign Affairs, primarily through the

Subcommittee on International Security and Scientific Affairs, considered a wide range of arms control and international security issues. Recognizing the high public interest in these issues, I would like to briefly report to my colleagues in the House and to the American people on the Foreign Affairs Committee's more recent effort to make arms control an integral part of our country's national security policy.

PRESERVE AND UPGRADE ACDA

During the 98th Congress, the committee actively worked to prevent elements within the administration from diminishing the role and effectiveness of the Arms Control and Disarmament Agency. More specifically, the committee sponsored legislation which increased rather than reduced the number of professional personnel in the Agency. The committee also successfully rejected administration efforts to reduce the Agency's operating budget and enacted legislation which made the Director of ACDA a permanent member of the National Security Council.

This successful bipartisan effort to enhance the operations and role of the Arms Control and Disarmament Agency was facilitated by the following subcommittee-initiated General Accounting Office studies: First, "ACDA's Coordination of Federal Arms Control Research and Mangement of Its External Research Program Still Need Improvement"; second, "Need for Internal Control Improvements at ACDA, Including Adequate Internal Audit Coverage"; and third, "Need to Improve Management of ACDA's Automatic Data Processing and Operations Analysis Functions" (all issued in September 1983).

NUCLEAR ARMS CONTROL

During the 98th Congress, the Subcommittee on International Security and Scientific Affairs examined a variety of issues related to U.S. nuclear arms control policy. In 1983, the subcommittee held regular briefings with representatives of the U.S. Arms Control and Disarmament Agency on the status of the INF and START negotiations. The subcommittee also held a closed briefing with representatives of ACADA and the Department of State on the status of U.S. efforts to revise the as yet unratified Threshold Test Ban and Peaceful Nuclear Explosions Treaties.

In the spring of 1983, the subcommittee played a leading role in a series of full committee hearings which explored the recommendation of the President's Commission on Strategic Forces—the Scowcroft Commission. These hearings, which were published in May 1983 under the title "Review of Arms Control Implications of the Report of the President's Commission on Strategic Forces," focused upon the impact of the MX missile on strategic stability.

The subcommittee also joined the full committee in 1983 in extensive hearings on the nuclear freeze. On the basis of these hearings, a committee-sponsored resolution calling for the negotiation of a mutual and verifiable nuclear freeze was adopted by the House of Representatives. Unfortunately, no action was taken by the other body on the House-passed resolution.

During 1984, the subcommittee held briefings with administration officials on efforts to upgrade the Hotline as well as on the status of discussions in the Stockholm-based Conference on Disarmament in Europe. The subcommittee also participated in four full committee hearings on the Role of Arms Control in U.S. Defense Policy which were published on September 26, 1984.

As an outgrowth of these hearings, and in recognition of the many contributions arms control can make to our country's national security interests, the subcommittee staff is developing a comprehensive arms control agenda for the committee for the 99th Congress.

This agenda will include: (a) a committee-sponsored Congressional Research Service study of fundamental nuclear arms control issues, including arms control options for the future; (b) informal seminars and briefings by former negotiators and other experts on past arms control efforts, the negotiating process, verification and compliance, and the role of Congress in formulating U.S. arms control policy; and (c) a series of oversight hearings on past, present, and future U.S nuclear arms control policy.

ARMS CONTROL IN SPACE

In 1983, the subcommittee began a series of hearings on "Arms Control in Outer Space," which sought to examine the arms control, foreign policy and national security implications of the administration's space policy. The subcommittee continued this series with three hearings in 1984.

Based on these hearings, the subcommittee issued an "Interim Report on the Administration's Space Arms Control and Defense Policy" which outlined several areas of concern regarding the cost and the technical feasibility of the administration's Strategic Defense Initiative [SDI] and the adverse impact on arms control resulting from the administration's SDI and antisatellite weapons policies.

This effort of the subcommittee resulted in my recommending that the United States seek a space arms control and defense policy that places greater emphasis on arms control objectives and avoids undue dependence on unrealistic and unproven defensive technologies.

The necessary elements of such a policy should include: First, mutual suspension of the United States and Soviet ASAT testing program; second, resumption of bilaterial negotiations with the Soviet Union to ban antisatellite weapons; third, initiation of bilateral negotiations with the Soviet Union to ban all space weapons; fourth, upgrading of U.S. satellite survivability; and fifth, maintaining ballistic missile defense research consistent with existing arms control agreements. Pursuit of such a policy would avert a destabilizing and costly arms race in space.

CHEMICAL ARMS CONTROL

During the 98th Congress, the Subcommittee on International Security and Scientific Affairs continued to play an active role in the preservation of an effective U.S. chemical warfare deterrence policy and in the promotion of a comprehensive negotiated ban on the production and usage of chemical weapons. In 1983 and 1984 the Congress, under the leadership of the Committee on Foreign Affairs, rejected the Reagan administration's proposal to resume production of lethal nerve gas weapons. Moreover, we also endorsed the U.S. submission of a draft chemical weapons ban in Geneva earlier this year and have encouraged the administration to resume bilateral chemical arms control talks with the Soviets.

To assist the Congress in its consideration of the future direction of U.S. chemical warfare policy, the subcommittee has sponsored a number of studies on key aspects of this issue. In the spring of 1983, a General Accounting Office study entitled "Chemical Warfare: Many Unanswered Questions," was released by the Committee on Foreign Affairs. Earlier this year, the committee released a CRS study of the prospects for chemical weapons proliferation, "Binary Weapons: Implications of the U.S. Chemical Stockpile Modernization Project for Chemical Weapons Proliferation." Finally, just a few weeks ago I asked the General Accounting Office to undertake a comprehensive study of the status of the U.S. chemical defensive posture.

Throughout 1983 and 1984, the subcommittee remained abreast of recent developments in U.S. chemical warfare policy through a series of briefings by administration officials. These briefings focused upon the binary modernization program, the status of chemical arms control discussions in the Geneva-based Conference on Disarmament, and efforts to enhance the chemical defensive capabilities of U.S. forces.

CONVENTIONAL ARMS CONTROL ISSUES

During the 98th Congress, the subcommittee conducted a number of hearings on the direction of the administration's conventional arms

policy. As part of the subcommittee's longstanding efforts to develop controls on foreign sales of U.S. arms, the committee passed a provision which requires the administration to report on the prospects for engaging the Soviet Union in serious discussions on controlling the levels and sophistication of conventional weapons.

In hearings earlier this year, the subcommittee reaffirmed its interest in preserving the fighter export policy—the so-called FX policy—as an alternative to the sale of fighter aircraft in the U.S. force structure. It is our position that a more effective implementation of the FX policy would enhance the prospects for many countries to satisfy their defense needs at a lower cost in price, personnel, and overall maintenance requirements.

As part of the subcommittee's oversight of the longstanding Mutual and Balanced Force Reduction [MBFR] negotiations, the subcommittee in 1983 released a CRS study entitled "East-West Troop Reductions in Europe: Is Agreement Possible?" This study laid the groundwork for a subsequent hearing last year which contributed to the U.S. submission of a new MBFR proposal in the Vienna talks.

ANTITERRORISM LEGISLATION

The Subcommittee on International Security and Scientific Affairs held five hearings and briefings on the executive branch's efforts to combat international terrorism and to enhance security at U.S. missions abroad.

The subcommittee received extensive testimony from private expert witnesses on the administration's proposed antiterrorism legislation and worked with the administration during the subcommittee hearing process this past summer to ensure expeditious passage of antiterrorism legislation.

On October 1, 1984 the full House approved the Foreign Affairs Committee bill, H.R. 6311 as amended, which: First, authorized the payment of rewards to individuals who furnish information on terrorist actions; second, authorized some $356 million for the enhancement of security at U.S. diplomatic missions abroad; third, urged the President to seek greater international cooperations against terrorism; and fourth, required the President to report to the committee to ensure that the security enhancement program is being adequately implemented.

The net result of the committee's action was to provide the administration with three of their four legislative requests as well as to continue providing the Department of State with all the resources requested to ensure that U.S. diplomatic missions abroad are secure against terrorist attacks.

SCIENCE AND TECHNOLOGY

Since the adoption of title V, Science, Technology, and American Diplomacy, of the Foreign Relations Authorization Act in 1979, the Subcommittee on International Security and Scientific Affairs has been the focal point of congressional interest in having science and technology fully integrated into our country's foreign policy. In fulfillment of its responsibilities in this area, the subcommittee has held oversight hearings to assess the overall U.S. international science and technology policy, to review the effectiveness of the Department of State's Bureau of Oceans, Environmental and Scientific Affairs, and to evaluate the executive branch's integration of science and technology in the foreign policy process.

In part, as a result of the subcommittee's hearings, the Department of State's Bureau of OES held its first worldwide conference of U.S. science attachés in Vienna this past August. Subcommittee staff participated in the conference which considered an action plan for improving the role of the science officer and for improving the more complete integration of science and technology in the foreign policy process.

PEACE ACADEMY

As a result of the subcommittee's previous efforts on legislative proposals to establish a U.S. Academy of Peace, the committee succeeded in having the Peace Academy legislation included in the fiscal year 1985 Defense authorization bill signed by the President last month.

While preserving the basic concepts and objective of the original Peace Academy proposal, enactment of the committee's compromise:

First, changed the name of the Peace Academy to "Peace Institute";

Second, provided that all directors appointed by the President be confirmed by the Senate thereby preserving the bipartisan makeup of the Board and avoiding and constitutional problems;

Third, reduced the original 2-year authorization of $23.5 million to $16 million by eliminating the $7.5 million capitalization fund; and

Fourth, renamed the program for International Peace the "Jennings Randolph Program."

99TH CONGRESS

Many of the issues I have discussed warrant the continued attention of the Subcommittee on International Security and Scientific Affairs and the full committee in the 99th Congress. For example, we will continue to develop measures to more effectively address the threat of international terrorism, to examine the administration's space policy in an effort to preclude extending the arms race into space, and to promote a negotiated halt to nuclear weapons testing by the two superpowers.

As chairman of the Committee on Foreign Affairs and its Subcommittee on International Security and Scientific Affairs, it is my hope that these efforts will enhance the prospects of making arms control a permanent and meaningful part of our country's national security and foreign policy.●

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oklahoma [Mr. ENGLISH] is recognized for 5 minutes.

FREEDOM OF INFORMATION ACT AMENDMENTS OF 1984

● Mr. ENGLISH. Mr. Speaker, I am today introducing the Freedom of Information Act Amendments of 1984, and I am pleased that TOM KINDNESS, ranking minority member of the Subcommittee on Government Information, Justice and Agriculture has agreed to cosponsor this legislation. The bill is the result of efforts by the subcommittee to develop a package of FOIA amendments. Although our efforts did not lead to passage of a bill this Congress, we did make progress, and I am hopeful that we will be able to make additional progress in the next Congress.

Intensive work on FOIA legislation began in the subcommittee after S. 774 passed the Senate earlier this year. It took the Senate almost 3 years of effort over two Congresses to pass S. 774. Immediately upon receipt of the legislation, the subcommittee began preparations for hearings. Ultimately, we held four days of hearings and heard from over 30 witnesses.

The hearings demonstrated that there is tremendous controversy surrounding the FOIA and FOIA legislation. There appears to be little agreement on the nature of the problems with the act and, accordingly, it is not surprising that no consensus was reached on the solutions to those problems.

Virtually every part of S. 774 was sharply criticized. In fact, except for the business confidentiality procedures, which were strongly supported by the business community, it is hard to find a major part of S. 774 that attracted any significant degree of support.

While no clear consensus on FOIA legislation was apparent at the subcommittee's hearings, we did get a clear picture of the value of the FOIA as a tool of Government oversight. Disclosures made as a result of FOIA requests have documented Government waste and abuse, identified threats to public health and safety, and exposed violations of law. Some of the disclosures have resulted in significant dollar savings for the Government. In addition to the benefits that can be directly identified, the possibility of exposure through the FOIA serves as a deterrent to waste and misconduct by Government officials.

Some of the specific examples of how the FOIA was used are very striking and are worth repeating here. The Better Government Association used the FOIA to expose the sale of spoiled and diseased meat to school lunch programs. When the facts were made public, the meat was impounded, the packing plants were suspended from bidding on Federal contracts and ultimately closed, and criminal prosecutions resulted.

Common Cause used the FOIA to demonstrate how defense contractors were charging lobbying expenses to Federal contracts. In order to obtain the information that documented this practice, Common Cause had to fight the Defense Department in court for several years. When the information was made public as a result of court orders, DOD agreed to change its policy. The ultimate savings to the taxpayer from the new policy will be measured in the millions of dollars. Without the disclosure of information through the FOIA, it is most unlikely that any change in DOD policy would have resulted.

Another use of the FOIA by "60 Minutes" and the Better Government Association exposed tens of millions of dollars of fraud and waste in a Navy shipbuilding contract. The information obtained under the FOIA was presented to a Senate subcommittee and led to public hearings. A settlement that was subsequently negotiated between the contractors and the Navy was worth $170 million to the taxpayers. At least part of the savings can be attributed to the FOIA.

These are only a few examples of how the FOIA is used as a tool of Government oversight. Other examples were presented at the hearings, and a report summarizing press use of the FOIA was prepared for the hearings by Dr. Harold Relyea of the Congressional Research Service.

As a result of the testimony on use of the FOIA, I became convinced that the savings that result from FOIA disclosures are greater than the costs of the act. When the intangible benefits—such as cost avoidance, waste deterrence, and better informed citizens—are considered, the FOIA is a trememdous bargain.

I do not mean to suggest, however, that the FOIA is perfect in its present form or that the law cannot be made fairer or more efficient. The subcommittee received a number of suggestions for improving the FOIA. Some of the suggestions covered matters that were addressed in S. 774, and some raised issues that had not been considered when S. 744 was drafted.

Our original hearing schedule called for completion of all hearings before the July recess. This would have left the summer months to put together a bill. However, the Justice Department refused to appear at hearings scheduled for the end of June, and we were forced to postpone the last day of hearings until August. This 6-week delay was a primary reason for the failure of the subcommittee to complete action on FOIA legislation.

The bill that I introduce today was developed during negotiations held this summer among the press, public interest groups, the business community, the Department of Justice, and others. It is one draft of many that were prepared by the subcommittee staff this year. The bill was not endorsed by anyone involved in the negotiations, and no one was asked to endorse it.

The bill as introduced is neither comprehensive nor complete. It is not intended as a final product. It is simply a draft. I offer it today to suggest an agenda for the future and to serve as a focal point for further work on the FOIA. The bill is a starting place, one of many different possible starting places, for next year's discussions.

I hope that the bill will be reviewed by all interested parties during the winter. I recognize that the bill does not address all the FOIA issues that some would like to see. This is a by-product of a decision—made earlier in recognition of the limited time available this year—to restrict the subcommittee's agenda primarily to those issues raised in S. 774. In the next Congress, additional issues will have to be added to that agenda.

A brief discussion of some of the bill's most signficiant features follows:

BUSINESS PROCEDURES

Although the business procedures in S. 774 attracted at least some support in principle from most participants, there was considerable disagreement over the details. The key elements of the business procedures in section 2 of the bill and of the judicial review provisions in section 3 are: First, the requirement that submitters designate information as confidential in order to obtain notice of possible disclosure; second, the possibility that, when an agency determines that it is impractical for a submitter to designate information as confidential, the agency could treat a specific class of information as if it had been designated as confidential; third, de novo review for submitters in court, but the review is to be based on the agency record in order to avoid trials and speed decisions; fourth, a preference for the requester in choice of venue in reverse freedom of information litigation; and fifth, award of attorney fees against a submitter where the submitter's reasons for withholding were not substantially justified.

FEES AND WAIVERS

The bill proposes a three-tiered fee structure. For commercial requesters, fees would cover search, copy, and review costs. For requests by scholars, representatives of the news media, or nonprofit groups that intend to make information public or otherwise available, fees would be limited to copying charges. All other requesters would pay search and copying charges.

Fee waivers would be available where disclosure of information is likely to contribute significantly to public understanding of the operations or activities of the Government. The purposes of this new fee waiver standard are: First, to overturn the improper guidance issued by the Department of Justice last year; and second, to relate the waiver standard more directly to the purposes of the FOIA. This is a new approach to fee waivers, and I recognize that it needs additional work.

EXPEDITED ACCESS

Expedited access would be permitted in cases of compelling need.

SANCTIONS

The existing FOIA sanctions provision is revised to make it easier to obtain sanctions for arbitrary or capricious action by agency officials. The scope of activities subject to sanctions is expanded to include destruction, removal, or alteration of a record; and setting of fees and denial of fee waivers.

ANNUAL REPORTS

The existing reporting requirements are revised to include the number of requests, the number of fee waivers requested and granted, and the average length of time to comply with requests and appeals. The report is changed from a calendar to a fiscal year report.

LAW ENFORCEMENT

Two law enforcement provisions are included in the bill. Exemption (b)(7)(F) is changed to permit withholding of law enforcement records the disclosure of which would endanger the life or physical safety of any individual. Present law only permits withholding of law enforcement records to protect law enforcement personnel.

A second change expands protection for informant records. It permits the FBI to deny access to administrative records about informants without identifying the subject of the record as an informant. The records covered by this new exclusion are generally exempt under current law. The new language simply allows the FBI to use a more neutral, less revealing response when denying requests for these records.

I have not included any specific language exempting organized crime records or otherwise expanding the current exemption for law enforcement records. Proposals on these subjects still need considerably more thought. However, based on the work already done, it appears distinctly possible that some changes could be made

to address the FBI's concerns on informant and organized crime records. This is a very difficult area, and there is considerable disagreement over the scope of the problem as well as over the nature of the solution. However, I am hopeful that additional progress can be made.

EXEMPTION 3 STATUTES

Each agency would be required to publish, as part of its FOIA regulations, a complete list of all statutes that the agency head or general counsel has determined authorize the agency to withhold information under the third FOIA exemption.●

● Mr. KINDNESS. Mr. Speaker, I am pleased to join my colleague, GLENN ENGLISH, as a cosponsor of legislation to amend the Freedom of Information Act [FOIA].

During my tenure as ranking minority member of the Government Information Subcommittee, many hearings have been held on particular aspects of the act and on the act generally. In 1981, at the time of our 3 days of general oversight hearings on the act, I expressed the familiar caution, "If it ain't broke, don't fix it."

However, as we in the Congress have learned in so many areas of the law, we find that we are not the only lawmakers. Numerous courts have rendered decisions which have given new, and sometimes surprising, meanings to the provisions of FOIA. And, of course, agencies of the executive branch have issued regulations and policy statements based upon questionable interpretations of the act.

The Congress itself is encouraged to modify the Freedom of Information Act without directly amending it. The third exemption to FOIA allows agencies to withhold information on the basis of other statutes which authorize such withholding. Such provisions have found their way into legislation as diverse as the Omnibus Budget Reconciliation Act of 1981 and the Defense Authorization Act of 1984. And, of course, such provisions are not necessarily referred to the Government Operations Committee for its consideration.

In our hearings, we have heard a variety of complaints about the FOIA. But, they seem to blend together into two lines of arguments. On the one hand, users complain that it takes the agencies too long to release too little information for which they charge too much. On the other hand, the agencies complain that they are given too little time in which they are forced to release too much information for which they are allowed to charge too little.

These divergent views have naturally left us reluctant to contemplate major changes in the FOIA. Nevertheless, it does appear that we may be able to isolate some specific problem areas and deal with them legislatively. We will never stop the courts or the agencies from "legislating" on the act. But, I do believe that, as a result of the hearings held by the subcommittee this year and lengthy meetings attended by representatives of the press, public interest groups, the business community, and the executive branch, we do have some legitimate issues on which to focus our attention and which lend themselves to legislative resolution. For example:

With respect to records submitted by business concerns to Federal agencies, it seems to me fair that we amend the act to discourage its use by business competitors. Despite the assertions that public policy mandates and confers benefits upon businesses that submit confidential business information, including trade secrets, to Federal agencies, this information is oftentimes either developed at great cost to the submitter or is worth a great deal to competitors of the submitter. It seems only fair, in balancing the interests in disclosure, consistent with the goals of the FOIA, with the relative interests of business competitors, that we give submitters a reasonable opportunity to make a case to the agency to withhold the information and, if the information is to be released, to charge the requester for the full time spent in searching for the information, reviewing the material as to the applicability of exemptions, and the copying of the material to be released.

With respect to criminal law enforcement records, the subcommittee has begun to explore several approaches, including specific authorization of the use of the so-called Glomar response where mere identification of the exemption relied upon in denying a request tells the requester what he or she needs to know and could thus compromise an investigation. No such language is included in the bill introduced today, but it is an approach we are studying and on which we would invite comment.

With respect to fees and waivers of fees, there seems to be no question that we should reverse a decision made in the 1974 amendments to FOIA to preclude agencies from charging for the time spent reviewing documents to determine the extent to which they should be withheld. But, concomitantly, we must make sure that the policy sought to be achieved by that 1974 amendment is retained and that is that fees should not be used as a means of discouraging requests consistent with the goals of the FOIA. This bill contains a different approach to the fee and fee waiver calculus. I am not necessarily endorsing it by my cosponsorship of this legislation, but I feel it is an approach deserving of consideration and would invite comment on it. We should remember in our considerations of fees and fee waivers, that we're not going to pay off the national debt through FOIA fees, nor is the Government going to go broke by complying with the FOIA and granting waivers of fees as required by the act and its legislative history.

A couple of years ago, many people were calling for the application of cost and benefits tests to proposed agency actions. Given the testimony received by the subcommittee not only this year but also 3 years ago, I think the benefits resulting from public disclosures of Government waste and error outweigh the cost of Government compliance with the act. Also, intangible, unquantifiable cost such as the loss of an informant must be measured against intangible, unquantifiable benefits resulting from the knowledge within the agencies that their work can be subjected to public scrutiny and accountability.

Before departing from that point, I would like to highlight a concern I have about attempts by some agency personnel to destroy or otherwise sequester documents from public scrutiny which could not be withheld from disclosure under FOIA, as described in testimony before the subcommittee this year. We are also very aware of the weak position of the Archivist of the United States to deal with such situations when they occur. It is a matter deserving of our attention separately or as a part of our FOIA deliberations.

No one with particular interest in the FOIA should be too concerned about either the inclusion of certain matters from the bill introduced today or the particular language used in the bill to deal with those matters.

Ultimate agreement on a bill containing amendments to the FOIA will not be reached easily. Amendments which deal with user's problems will be problematical to the agencies and vice versa. All who participate will have to be reasonable, and act in good faith. The Congress is the appropriate forum in which to discuss and decide these issues and it would be unfortunate if we left them to the courts and the agencies to decide.●

NOW ACCOUNTS: IN WHOSE INTEREST?

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

● Mr. ANNUNZIO. Mr. Speaker, negotiable order of withdrawal accounts, or NOW accounts, have provided consumers with an apparently appealing alternative to regular checking and savings accounts. NOW accounts seem to offer the best of both worlds, permitting check-writing and paying interest on the same account. I warned when these accounts were introduced that they would not be a great consumer

benefit, and a recent study by the Philadelphia Federal Reserve Bank now bears that out. There are no free lunches in this world, and NOW accounts are no different.

NOW accounts combine the convenience of check-writing with the benefit of earning interest. Banks also tell their customers NOW accounts undercut the rising service charges on regular checking accounts. But even though these banks appear to be directing consumers toward the best deal, this is not always the case. Consumers should remember that banks are a business, and a financial institution seeks to make the most return on its money by getting deposits as cheaply as possible. Like the witch luring Hansel and Gretel into the house with the promise of sweets, a financial institution has its own motives for its seeming generosity. Consumers should compare all the facts when opening an account.

Compared with savings accounts, NOW accounts offer one-quarter of 1 percent less interest. But NOW accounts allow consumers to write checks, and many are willing to forgo the quarter of a percent interest for this benefit. And compared with regular checking accounts, which pay no interest at all, NOW account interest rates of 5¼ percent look positively astronomical. But there is more to consider than merely the stated rate of interest on the account.

Banks incur costs when servicing accounts. Accepting deposits, maintaining records, processing and clearing checks, and mailing customers' statements and canceled checks all cost the bank money. These services are of value to the consumer. Banks pass some of these costs on to consumers, and absorb the remaining costs themselves. In analyzing the total value of an account, the consumer needs to consider the value of the services that the consumer does not pay and add it to the interest paid on the account. This will determine the total return on the account.

A study by the Philadelphia Federal Reserve Bank analyzed the service costs and interest rates on checking, savings, and NOW accounts, and calculated total returns for all three types of accounts. Because NOW accounts earn interest, while regular checking accounts do not, the total return is higher for NOW accounts than checking accounts. NOW accounts would thus appear to be a better deal. At the same time, the study found that the total return was higher for savings accounts than for NOW accounts.

However, the benefits of NOW accounts can often be gained only by keeping a minimum balance in the account that is much higher than in regular checking accounts. NOW accounts often have a minimum balance requirement of $2,500 or $5,000, compared to little or no minimum balance requirements for checking accounts. The interest benefits of NOW accounts over checking accounts are easily offset by placing the remainder of the consumer's money in a savings account, which has a higher interest rate than a NOW account. Figures from the Philadelphia Federal Reserve study bear out the fact that it is often more profitable to have two accounts, a regular checking account and a savings account, than one NOW account.

Consider the average consumer accounts based on the figures from the Philadelphia Federal Reserve Bank study. With the study average of $5,030 in a NOW account at the total return rate of 7.11 percent, the consumer would receive a yearly return of $358.

If the consumer were to divide the same amount between a checking and a savings account, the return would be higher. Putting the study's average balance of $1,128 in a regular checking account, the total return of 6.35 percent would yield the consumer $72 per year. The consumer could then put the remaining $3,902 in the savings account at the total return of 8.04 percent for a yield of $314 per year, for a year total of $386. This is $28 more per year than the return on the same balance in the NOW account. And this does not take into the account the possibility for the consumer to invest that $3,902 in savings certificates or other deposits or investments that pay even higher rates of return than regular savings accounts.

While the study by the Philadelphia Federal Reserve did not consider the advent of "super-NOW" accounts in January 1983, I doubt that their introduction would change the economics of NOW accounts. Consumers should not assume that merely because a NOW account pays interest and a checking account does not, the NOW account is a better deal. Only by carefully examining the entire costs and benefits of the accounts offered and the alternatives available, will consumers be able to determine what types of accounts are in their best interest.●

THE CONTINUING RESOLUTION

(Mr. HOYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOYER. Mr. Speaker, we obviously find ourselves in a position where we are trying to devise a process to continue Government in operation. Yesterday I introduced a resolution similar to the one the chairman has now introduced to continue Government through October 9 at 12 midnight. The purpose of rising, however, Mr. Speaker, is to observe that OMB made a judgment in the early part of this week that, notwithstanding the fact that the short-term continuing resolution which was introduced on Monday in the House and passed both the House and the Senate and was sent to the President on Monday of this week, was not signed, that they nevertheless would continue to have Federal employees come to work and be paid through Wednesday, October 3.

In point of fact, that continuing resolution was not signed by the President until approximately 3 o'clock on Wednesday, as the majority leader pointed out yesterday.

We have passed another short-term continuing resolution which expires, of course, at 6 o'clock today.

Mr. Speaker, I am hopeful that the Office of Management and Budget will conclude, irrespective of what happens with respect to a continuing resolution at this juncture, that it is clear that the Congress of the United States intends to keep Government in operation, which is in fact, the decision that they made on Monday and Tuesday and half of Wednesday, because the continuing resolution had not been signed, as I said, until 3 o'clock on Wednesday.

It would, therefore, appear that the Office of Management and Budget made a determination that legally if it were clear that the intention of the Congress was to keep Government in operation, as the presence of this continuing resolution to midnight on the 9th of this month seems to make clear, that the Government does not in fact, need to be shutdown.

As I pointed out at that time, on Wednesday, to shut down the Government, even for a short period of time, costs approximately $5.5 million simply to give notice to various individuals that they are not to report to work or that they are to come back to work. In point of fact, to shut down the Government for 1 day costs between $60 million and $80 million.

TRIBUTE TO HONORABLE JOEL PRITCHARD

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Washington [Mr. FOLEY] is recognized for 60 minutes.

Mr. FOLEY. Mr. Speaker, the end of every Congress always brings with the sad departure of some of our colleagues, those who have decided to retire from this body, and with it an end to our associations as fellow Members, but not our friendship. I do not think there is a Member departing this year from this body that will be more missed or who has been more respected on both sides of the aisle than the gentleman from Washington [Mr. PRITCHARD].

JOEL was elected to Congress in 1972 in an election in which he asserted to his constituents that he would serve for 12 years and at the end of that 12-year period retire. This I think was on the advice, not personal but reported, of President Dwight Eisenhower, who suggested at one time that Members of the Senate should serve for two terms and Members of the House for six. I personally think President Eisenhower was a great President; but in this instance, I do not think his suggestion was a very good one.

JOEL PRITCHARD, however, has remained true to that promise; and the efforts of people in my State in and out of his congressional district, across the country and in Congress to have him reconsider that judgment have been to no avail. He is leaving and putting aside his congressional duties at the height of his influence among his colleagues, his effectiveness as a legislator and the respect in which he is held in his State and in this body who know his service so well.

JOEL came here with a strong legislative background and experience; incisive intelligence; a tremendous commitment to the values which he demonstrated in his early business, civic, and legislative career; and enormously winning personality; and a capacity for friendship which made his service just that more effective.

□ 1450

While originally a member of the Merchant Marine and Fisheries Committee, where he is now the ranking member, and the Government Operations Committee, JOEL gave up service on Government Operations in order to accommodate a newly arrived Republican colleague who had just been elected in a special election. Shortly after that was given appointment to the prestigious Foreign Affairs Committee of the House.

Since that time he has served in a number of capacities, including on the Pacific, the International Organizations Subcommittees and had the distinction of representing the United States at the United Nations as part of the official delegation to that organization last year.

As JOEL believes and has said many times, it is a great honor to be a member of the U.S. delegation to the United Nations and to speak in the United Nations for the United States. I think those of us who know him so well cannot imagine anyone who could speak more straightforwardly, honestly and convincingly and with greater authority for the United States in any international body than JOEL PRITCHARD.

I personally believe he has a capacity for public service that has not been nearly exhausted; and even though he is unfortunately leaving this body, I hope that whatever administration is in office next year will not overlook the possibility that he can serve his country with enormous distinction in a new capacity in a public way, just as he has in such an outstanding fashion in the 12 he served as a Member of Congress.

I am honored to have shared these 12 years with him. I am privileged to know him; our friendship will continue. The respect in the State among all of our citizens is unbounded, and he carries with him the affection and good will of all of his colleagues as he moves into another career in private life, keeping open, I would hope, the possibility of continued public service.

I would like to recognize my distinguished colleague from Washington [Mr. MORRISON].

Mr. MORRISON of Washington. I thank the distinguished majority whip for yielding to me on this special occasion and appreciate his very kind comments about our distinguished colleague now retiring, JOEL PRITCHARD.

We have probably had a tendency, because we know we are going to miss him as part of the team, to criticize this decision that he has made, but as the distinguished whip has pointed out, Mr. PRITCHARD is merely keeping a promise to his constituents.

I first met JOEL PRITCHARD when he was serving in the State senate and I came in as a fledgling Member of the House of Representatives. I found him just as he is today, a very quiet individual, but look out if you get close to something that he truly believes in, because that strength, that determination when he feels strongly about an issue is something to really behold.

When Congressman PRITCHARD first came here, he was the lone Republican on our Washington State team, and I might point out that whatever he has done has been effective because now our delegation is divided five and five between the House and Senate and with a new seat from redistricting.

I would like to mention three specific points about JOEL PRITCHARD. First of all, he is very much a team player, and we are proud that that is a tradition within the Washington State delegation. In fact, at one of our meetings recently we elected him as our delegation chairman. He insisted it was because he was not present at the meeting, but it truly was because this cohesive force that he has provided and we do truly give him credit for that spirit which has held us together between the two political parties and the diverse interests of the various areas of a very diverse and independent State.

The second point that I would like to make is that on many issues on the 4 years that I have served with JOEL here in Congress, I find that he has been a dynamo in the middle. He has been seeking that middle ground, that compromise in areas of defense and areas of foreign aid. I think that is highly appropriate; he has served this Nation well, and most people at home do not actually recognize that he has served in this particular capacity and served effectively.

The third and final point is that JOEL PRITCHARD is really a great guy. I appreciate his personal friendship that he has extended to me, and I know that probably if we took a survey in this body of all Members, both sides of the aisle, they would say that JOEL PRITCHARD has been a friend to them and one that has provided a very desirable relationship through these years.

I might mention that in a parting tribute to JOEL this past week, that in front of a number of his friends in the Seattle area, JOEL has had a comic routine that perhaps many of you have observed where he takes a telephone with him and he either calls the President or gets a phone call from the President and engages in a most interesting dialog. It kept many of us in stitches through the years.

This past week, however, at a luncheon, there was a phone call, a phone sitting there, and it was a phone call from President Ronald Reagan thanking JOEL for his many years of service and I have to admit that Congressman PRITCHARD responded just as if it was part of his comic routine and did very well with it. Also, we had a little fun with our majority whip who was cut off by that phone call from the President, mentioning that it was not the first time that our majority whip has been cut off by Ronald Reagan in this last couple of years.

So we now wish the very best wishes from all of us to JOEL and Damaris. It is not goodbye; we know that JOEL will continue to be around, but at this juncture in their lives, we wish you very well.

I thank the majority whip for yielding.

Mr. FOLEY. I thank the gentleman from Washington and I yield to the gentleman from Washington [Mr. SWIFT].

Mr. SWIFT. I thank the gentleman and compliment him on having this special order.

I think we need to be careful when we talk about our retiring friends. I was a little surprised to see JIM SHANNON on the floor today; I thought the Massachusetts delegation had buried him the other day, so folsom was the praise, talking about him the past tense.

JOEL PRITCHARD, like JIM SHANNON, is not in the past tense, but I am reminded of a story told by the colorful former secretary of state in our State, Vic Myers, about this grandson whose pet turtle died. The child was very, very broken up about that, and Vic felt that maybe if they had a little burial service for the turtle, that

would help the young boy deal with his grief.

So they took the turtle and laid him on grass in a matchbox and put little flowers around him and then they marched with the neighborhood friends in a little procession out to the garden, where they dug a hole, and just before they were to put the matchbox into the hole, they open the matchbox to view the remains of the beloved turtle one more time, and the turtle moved. The boy looked at the turtle and looked at his grandfather and looked at the retinue and looked at all the arrangements they had made and said, "Grandpa, can we kill it?"

I do not want to say such good things about JOEL PRITCHARD that I would ever regret for a moment that he was leaving this, or regret for a moment that he might not come back. JOEL PRITCHARD is a loss to our delegation that is very difficult to measure because you cannot quantify friendship.

There are a lot of good things you can say about JOEL. He is a skilled politician; he is an effective Congressman; all of those things, professional things that have been said and I agree with them all. But the magic quality of JOEL PRITCHARD and the thing that you cannot quantify is friendship. It has served our whole delegation so well.

Our delegation has a reputation for getting along, but we are like a family, there are little frictions that pop up from time to time. It is the friendship that JOEL PRITCHARD had extended to each and every one of us individually and to all of us as a group that has more often than not made us able to get over those hurdles with ease.

I do not know who in the delegation is going to quite serve the function. We may have to put him on retainer; just come in and chair our monthly meetings, our monthly luncheon meetings; I think JOEL would agree that they should be luncheon meetings rather than breakfast meetings. He would be able to provide that kind of special quality and special magic on a continuing basis to the delegation.

I do not want to get any more serious than that, because I feel too strongly about JOEL as a personal friend, about JOEL as a member of this delegation, and about the loss we are going to feel in the functioning of the delegation.

□ 1500

Mr. FOLEY. Mr. Speaker, I yield to the gentleman from Washington [Mr. CHANDLER].

Mr. CHANDLER. Mr. Speaker, we are all aware, and I am in my short tenure here in the U.S. Congress, that it takes many personalities to make up a diverse body like this one. There are those who are tough and care not for what others think of them. There are those who are simply the nice guys and go their way here without leaving much of a mark.

There are many personalities. I would like to suggest that JOEL PRITCHARD combines a sense of purpose and determination with a great sense of humility that is rare in the Congress. JOEL told me when I came here, "ROD, do not ever forget that there is no limit to what you can get done if you do not care who gets the credit for it."

I think the remarkable thing about that is not the statement itself but the fact that JOEL PRITCHARD really practices this principle. In fact, if you go home to Seattle, in his district, you will probably find that JOEL is the most underrated Congressman that has ever served from the State of Washington. JOEL has been here, has worked hard, has been effective, but has done it in a way that he did not care ever whether he got credit for all that he did. He only cared about the results.

Yet last week, when our entire delegation gathered to honor him in Seattle, there were about 650 people in the largest hotel in Seattle and as my colleague Mr. MORRISON pointed out, even the President of the United States called to honor him.

I am especially grateful to JOEL for the advice he has given to me as a new Member of the Congress and I can say to all of you and to him that it has been a most valuable advice. JOEL cares about his colleagues and invests the time to share his considerable knowledge and experience.

We remember JOEL for so much of what is good about him, but I also remember him for his humor sometimes, not all of it intended. One morning JOEL and I were out at National Airport to catch an airplane back to Seattle and he sent me to get the newspapers and said he would get in line to check us in.

When I got back from buying the newspapers, I discovered that JOEL did not have his glasses on and he was standing in the line to get a TWA plane to go to St. Louis. We needed Northwest to go to Seattle by way of Minneapolis-St. Paul. We barely got onto the plane and as we boarded, his tennis racket, which was a fixture in his complement of equipment, was protruding and as he walked aboard the plane and turned, the tennis racket made its way across the posterior of the stewardess standing there, who let out a yelp and turned around in great indignation to see me standing there as JOEL went on down the aisle. I told him about it and it was just typical of JOEL, the good humor. He told me: "You were in the wrong place at the wrong time."

We are going to miss all of that about JOEL because he is a wonderful guy. He is a wonderful friend. JOEL would be the first to say that this Congress will go right along without him. And it will. But I also know that even as a new Member steps into JOEL'S shoes, there will be a great void left by this wonderful man. We love him. We will miss him. And we wish him well.

Mr. FOLEY. Mr. Speaker, I yield to the gentleman from Washington [Mr. DICKS].

Mr. DICKS. Mr. Speaker, I am very pleased that the dean of our delegation, Congressman FOLEY, has taken this special order to give us a chance to honor a member of the Washington State delegation who has served this House well for the last 12 years.

When JOEL PRITCHARD was elected to Congress in 1972 he made a promise to his constitutents that he would only serve for 12 years; six terms. He felt that was long enough. Many of us in this delegation regret the fact that he made that promise, because JOEL PRITCHARD'S 12 years have been good ones. They have come and gone and I think entirely too quickly.

To show you the respect that our delegation has for him including the Members of both the House and the Senate from our State, this year we elected him chairman of our delegation and he preceded at a time when we worked together to pass the Washington State Wilderness bill, when we worked together to put together a bipartisan statement about why we should not wait until next year to deal with Federal budget deficits.

We ought to deal with those problems this year and that was the start, I think, of an initiative in this House that led to a very significant downpayment on Federal deficits.

JOEL PRITCHARD has been an outstanding member of the Foreign Affairs Committee and the Merchant Marine Committee, especially on merchant marine, which has a direct effect on Washington State.

He was instrumental in enacting the 200-mile limit. He was a vigorous advocate for protecting Puget Sound for putting into place vessel traffic control systems that for years ahead will protect Puget Sound from oil disasters.

This year he worked with myself and others in the delegation on getting funding for a new study on Puget Sound. Before he came to the House, JOEL was an outstanding member of the Washington State Legislature. He worked hard there and even before that in volunteer days to clean up Lake Washington, which has been one of the most significant environmental feats I think in the history of this country and particularly in the history of our State.

He was courageous and took on sensitive issues like abortion and presented his views vigorously to the people of that State and when they voted by

a 2-to-1 majority, they voted the way JOEL PRITCHARD advocated.

I have become a good friend of JOEL's. We have had a lot of fun not only here in Congress but we both have had the responsibilities and extracurricular activities, particularly tennis.

He served well as the captain of the Republican tennis team and I must tell you that in the last 6 years he even won the championship once and I just commend him for that.

Beyond that, he is quite an athlete. He has been known throughout the local community for winning significant track events, I think, in the over-55 group, Mr. Whip. He was quite a leader in that respect as well.

I must say that JOEL PRITCHARD has, I think, been the cement in our delegation. He has been a person of extraordinarily good humor and good will and charm. He will be missed. I have had the fortune in the last 2 years to know of one of his major concerns, and that was arms control. He felt very strongly that the country was drifting on a very dangerous pattern and when some of us tried to put together bipartisan support in this body for the recommendations of the Scowcroft Commission, the first person we thought of on the other side of the aisle was JOEL PRITCHARD because we knew of his great concern for this subject.

And I think he has made a significant contribution in making this issue better known to the membership here.

I personally am going to miss JOEL, but I know that he will be close by, working for the best interests of our State, and for our country.

And so, Mr. Speaker, and my colleagues, I just want to say that JOEL PRITCHARD has been a good friend. I am going to miss him. I wish he and Damaris well in the days ahead.

Mr. O'BRIEN. Mr. Speaker, will the gentleman yield?

Mr. FOLEY. I yield to the gentleman from Illinois.

Mr. O'BRIEN. I thank my friend, TOM FOLEY, for yielding.

Mr. Speaker, PRITCHARD is sort of a special guy, not because he is second runner-up in the Kojak look-alike contest but for other reasons. He kind of grows on you, not like a wen, but he has in his makeup something special.

If you recall his first election, about 2 weeks had to pass before we were sure he had won. In his second election and all those since the first one, he has won by enormous pluralities; 70 to 75 percent, which tells you something about how people who know him rush to his support.

He is a remarkably patient person for being as penetratingly intelligent and determined as he is excellent as an interrogator, he never tries to overwhelm you in a debate where you may have taken the other side.

He very, very gently tries to persuade you to the merits of his case. He has a superb sense of humor, as anybody knows who has been with him only a little while.

I would like to point out that he has been a critical element in a lot of important matters.

With respect to the MX compromise that seems to have been worked out here in this House, JOEL was one of the two or three very critical Members of Congress who developed the consensus and enlarged its scope.

Clean publicly and privately, a super guy in all respects, this House will miss JOEL PRITCHARD, and I will miss him personally.

Mr. FOLEY. Mr. Speaker, I yield to the gentleman from New York [Mr. SOLARZ].

□ 1510

Mr. SOLARZ. I thank the gentleman for yielding.

Mr. Speaker, we probably would not be participating in this special order today if the gentleman from Washington [Mr. PRITCHARD], in what I suspect was a rash moment 12 years ago, had not made a pledge to his constituents that he would not serve for more than six terms in the Congress.

I have often regretted over the years that he made that promise, but nevertheless, there it was, and he has decided to honor it. That, in itself, may be an historic occasion. I would not be so bold as to suggest that this is the first time in the history of the Republic that a person in his position has honored a promise made in the heat of a campaign, but Mr. PRITCHARD has honored that promise.

While all of us regret his decision to depart from the House, the fact that he was intent on keeping a commitment which he had made to the people of his constituency over a decade ago seems to me to sum up the very essence of this man, who embodies a very deeply rooted sense of integrity and independence.

I was very impressed when I heard about all of Mr. PRITCHARD's many good works on behalf of the Northwest and Seattle. Frankly, I had not been aware of all of them. But I want to speak very briefly now of what he has done on behalf not just of the Northwest but of the Nation.

For the last 4 years, I have worked very closely with JOEL PRITCHARD in my capacity as chairman of the Subcommittee on Asian and Pacific Affairs, and in his capacity as the ranking minority member of that committee. I do not think that it is possible for two Members of this House on different sides of the aisle to have had a closer, more cooperative and more constructive relationship than the one I was privileged to have with Mr. PRITCHARD.

He acted in the best spirit of bipartisanship. I do not think it is an accident that for all of the differences that have developed among the Members on different sides of the aisle with respect to our foreign policy in the Middle East and Central America, in Africa vis-a-vis the Soviet Union, and in areas like arms control, that if there is any one area of foreign policy where there is a broad measure of agreement, it is in Asia. That is due, in my judgment, in large measure to the statesmanlike attitude which JOEL PRITCHARD has taken toward the problems that confront us in that part of the world.

To me, he has always been and always will be a genuine inspiration. His gentleness, his decency, his compassion, his sense of humor, his ability on those occasions when he does disagree to disagree without being disagreeable is what membership in this House ought to be all about.

I will miss him greatly. There is really no one who will ever be able to quite replace him. But I really hope that all of us, as we proceed in our efforts in the future who remain in this House, can think back to the kind of person JOEL PRITCHARD was when he graced this Chamber as a colleague of ours, and attempt to emulate the high standard which he set.

I know he made a profound contribution to the service of this Nation. In large parts of the world, our Nation is in a better position today because JOEL PRITCHARD undertook, in his capacity as ranking minority member of the Subcommittee on Asian and Pacific Affairs, to visit and make it clear where America stood.

It was not always easy for him to undertake these missions. I will never forget on one occasion while he was talking to the Afghan refugees in the refugee camps in which they lived in Pakistan, the State legislature back in the State of Washington was in the process of carving up his district. Here he was on the front line of freedom, attempting to determine how we could most effectively go about responding to the Soviet invasion of Afghanistan in providing help to the Afghan refugees, and his district was being cut up into little pieces.

But he survived that effort to do him in politically and was able to prevail and return to the House.

We have been together in many places around the world—China, Pakistan, Thailand, Indonesia, Singapore, the Phillipines. I know of no Members of the House who ever worked harder on these trips and who were able to sum up, in the representations which they made, the finest instincts and commitments of our own country.

So I want to thank my very good friend, the distinguished whip, for yielding this to me. It is nice to know

that one does not have to be a Member of his really outstanding delegation to be able to pay tribute to Mr. PRITCHARD. But I will miss him greatly. I know all of us will. I appreciate the opportunity to have said a few words about someone who has really become one of my closest friends during the course of our years together in this House.

Mr. FOLEY. I thank the gentleman from New York.

Mr. Speaker, I yield to the gentleman from Pennsylvania [Mr. CLINGER].

Mr. CLINGER. Mr. Speaker, I thank the gentleman for yielding and would like to add my commendations to the gentleman from Washington for bringing this special order in honor of a good friend of all of us, JOEL PRITCHARD.

Mr. Speaker, I have gotten to know JOEL well over the last 6 years, and like all of my colleagues, I consider him a very close friend because he has been a good friend to people on both sides of the aisle. I think I have probably gotten to know him best through our mutual membership in the House Wednesday Group, where he has been a very active, vigorous and contributing Member throughout his career here; in fact, he has served as chairman of the Wednesday Group for a period of time when the group was at its most active.

When I assumed the chairmanship of the House Wednesday Group I went to JOEL for advice and suggestions on how one should try to lead this organization, and JOEL's advice was excellent, I thought. He said, "You are dealing with about 32 egomaniacs. You do not lead them. You just arrange the parties and stand back or you will be stampeded and trampled to death."

I found that to be excellent advice, and I found that every bit of advice he has given me over the years has been very valid. He is still involved and will be involved in the affairs of this country. He is presently working as head of a task force which the Wednesday Group has organized to look at issues for 1985, looking at priorities that we are going to be dealing with in the next year and the years ahead. As chairman of that effort, he has been working tirelessly with Members of the House as well as with outside specialists and experts to come up with an agenda of public policy issues for the 1980's and beyond.

I always think of JOEL primarily as a builder of bridges. He is truly a man of the House in the best sense of that word, in that he has consistently abhorred deadlocks, and has tried to build bridges to find understanding, to clear up confusion and misunderstanding, and to bring people together. He has worked across the aisle in that respect to try and find people of like minds to build consensus and to move this House forward, if only by inches.

He recognized the fact that there needs to be a spirit of good will if we are going to get anything accomplished here, and to the extent that we have the kinds of impasses and polarizations, I think that JOEL has worked to break them down, to build the kind of bridges we need to pass effective legislation.

JOEL is a man of courage, he is a man of strength, and really of uncommon skill as a legislator, but as so many have indicated here, his primary attributes are as a friend to us all. I will miss his always wise counsel, and it has never failed me; his great sense of humor which has come through sometimes when the night seemed darkest. The leavening of his wit has been a relief for us all, and his incurable optimism about this place and the fact that it can really be made to work.

□ 1520

I will miss him, and I want to wish JOEL and Damaris the very best. I know they are going to have a very active, productive and fulfilling life, and I am sure they will be contributing to our endeavors in the years ahead.

I thank the gentleman again for this opportunity.

Mr. FOLEY. Mr. Speaker, I thank the gentleman.

My time has expired, but another special order on this same subject will follow immediately, so any Members who desire to make additional comments will have an opportunity to do so.

A TRIBUTE TO THE HONORABLE JOEL PRITCHARD

The SPEAKER pro tempore. Without objection, the gentleman from Washington [Mr. LOWRY], is recognized for 60 minutes.

There was no objection.

Mr. LOWRY of Washington. Mr. Speaker, I yield to the gentleman from New York [Mr. KEMP], who I believe is rising to this subject.

Mr. KEMP. Mr. Speaker, I understand the gentleman was going to succeed the Foley special order with a continuation of remarks by Members on JOEL PRITCHARD.

Mr. LOWRY of Washington. On our distinguished Member, JOEL PRITCHARD.

Mr. KEMP. Mr. Speaker, I appreciate that, because I, too, wanted to join my colleagues in paying tribute to JOEL PRITCHARD.

I was sitting here listening to the comments of Members, not just from the State of Washington, but from my home State of New York and from other States across the country. It is not just the broad geographical distribution of Members or that Members represent that have been heard on behalf of the remarkable impact that JOEL PRITCHARD has made on this body, but it crosses ideological boundaries as well, liberal Members of Congress and conservative Members of Congress and so-called moderate Members. I do not like those words particularly, but for purposes of my discussion I just wanted to testify to the fact that I do not think there is anyone in this House, right or left, on either side of the aisle, from any part of the country, that does not respect JOEL PRITCHARD and his career, his integrity, his honesty, his sense of humor, his courage and tenacity; but most of all, from this Member's standpoint, his example.

I was thinking how remarkable it is in an age of tremendous controversy with issues that are subjective and emotional, passionate, to hear the remarkable comments made about a Member of Congress who as much as anybody else has been able to transcend that emotion and passion and debate and have an impact and influence upon his colleagues, upon the country, and as our colleague from New York, STEVE SOLARZ, pointed out, a very positive influence that had been made by JOEL on America's position in the world.

I just wanted to briefly say to my colleague from Washington, who is of another party, and the previous gentleman, the whip of the Democratic Party TOM FOLEY, that I appreciate their taking time, because it speaks well for JOEL. It speaks well of the House of Representatives that we still have the ability to pay tribute to people such as we did recently, BARBER CONABLE, another one of those Members, and JOEL PRITCHARD and others who have this profound impact upon ideas, because ultimately ideas rule the world.

This wonderful body is the greatest arena of debate in the world today and despite all the problems, despite all the mistakes, despite all the rancor at times, it really is important for us to stop and pause and reflect upon the great legislators, the great men and women who have served this country so well and have been of remarkable impact, not only upon their times, but as an example, upon those of us who are to carry on.

I just wanted to rise and thank the gentleman from Washington, but particularly to say on behalf of myself and my family how much we appreciate JOEL PRITCHARD and the example that he leaves as a legacy, not just to those of us who serve in the House, but to our children, to future generations who will come and know and admire the great record that JOEL PRITCHARD has left, at least as a Congressman, as an impact upon this country and its future.

I thank my colleague and appreciate the comments that have been made by all the previous speakers.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from New York, and all of us from the State of Washington thank the gentleman for his kind words.

I yield to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I thank my colleague for yielding.

I would like to echo what my colleague from New York said. We have all sorts of people in this House and they reflect the great diversity of people in the country, smart people, not-so-smart people; on the average, however, on the whole, the people here are a very high quality, above average set of people.

I must tell you that I have gotten to know JOEL PRITCHARD very well in the last few years. We went to the Soviet Union together and he truly is one of the finest people I have ever met in this body. He is a man of enormously high integrity, tremendous principles, not terribly partisan. He knew he was a Republican, but at the same time he would sit down and talk to you about what was good and bad both in your party as well as his own, and dedicated to a free, strong America, but open-minded, the kind of person I would like to see this House to be filled with.

JOEL PRITCHARD is the type of guy that if you had to kind of designate the people you would want to serve in Congress, he would be that kind of person.

You know, least I overflow with extolling virtue, I just think that this is an incredibly extraordinary man. I was once told that when you come to this House you have to think of yourself as a Member of this body, not only as a descendant of those who preceded you, but as an ancestor of those who follow you, and this man, JOEL PRITCHARD, is the kind of ancestor to future Congressmen and women who may serve in this august body that he can be proud of knowing that he sets an incredible example for people who will follow him.

So I wish he and his wife the very best. He is a super guy. He will be a great asset to this country wherever he is. It has been an honor knowing him and serving with him.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman for those very beautiful and kind words.

I yield to the gentleman from Tennessee [Mr. GORE].

Mr. GORE. Mr. Speaker, I thank the gentleman very much.

I was listening to the proceedings here and decided that I had to drop what I was doing and come over and participate, because JOEL PRITCHARD has been a very special friend to me and a very special public servant.

You know, you can always go on and on about your firends and the people you serve with, but I just want to add to the record one personal story about JOEL PRITCHARD. About 2 years ago when he first made the decision that this was going to be his last term, I was having a conversation with him and he said,

AL, I'm going to be gone after this term, and I want these last 2 years to really count for something in addition to what I have been doing on the issues that I am involved in. I want to do everything I possibly can to put together a bipartisan effort that will make a difference on the No. 1 issue of our age, and that is nuclear arms control. How can we bring Democrats and Republicans together? How can we build an approach in the country that will give us a greater chance of really getting a meaningful agreement that will dramatically reduce the risk of war?

Well, he followed that up with countless hours of work, early in the morning, late at night meetings, and he undertook to really be an evangelist on this issue, principally on the other side of the aisle, but folks over here listened to him very well all the time also, of course; but we worked long and hard together.

I have never seen a better example of selfless dedication in the interests of this Nation and humanity, if I may be that expansive, because that is the way he sees the issue, as the overriding issue of our time.

As I say, if I had formally prepared something, I would be perhaps even more effusive, but it is straight from the heart and I want it to be a part of this RECORD added to the comments of our other colleagues.

I thank the gentleman for yielding.

Mr. CHANDLER. Mr. Speaker, will the gentleman yield?

Mr. GORE. I would be glad to yield.

Mr. CHANDLER. Mr. Speaker, when I made my remarks about Congressman PRITCHARD, I made the point that he had said there is no limit to what you can accomplish if you do not care who gets the credit.

I really appreciate the comments the gentleman from Tennessee [Mr. GORE] just made, because I have enormous respect for the gentleman and for what he has done, and the names of the gentleman from Tennessee and that of Congressmen DICKS and ASPIN were always right here in the paper with the work that was done on arms control. JOEL's rarely was.

Mr. GORE. But should have been.

Mr. CHANDLER. But he was very much a part of it and deserves enormous credit for the accomplishments of this bipartisan group.

Mr. GORE. Right.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman for his comments.

I yield to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I thank the gentleman from Washington for yielding to me. I want to commend the gentleman for taking this special order so we can commend our colleague, JOEL PRITCHARD.

I have known JOEL since my election to Congress a little over 10 years ago. He was here when I came. I have had the privilege of serving with him on the House Foreign Affairs Committee for almost all of that time, and for the last 2 years I sat right next to him on that committee.

□ 1530

So I am very well aware and appreciate many of the things that have been said like his great sense of humor, no question about that. JOEL is a very easy person to talk to, but he is not an easy person to convince. You have to have the facts, you have to have logic. You have to be able to make a very good case to do that.

He is very thorough. As we all know he is very thoughtful, very tough, very courageous, and very dependable and reliable, and he is in the good sense of the word a compromiser and a facilitator.

You have heard examples from others before me on how he has been able to do that, and I guess one of the reasons that this has been commented on several times, that he has been able to do as well as he has is because he, indeed, does not care if he gets the credit. He just cares about getting the job done, and he has certainly done an excellent job of that.

So I am going to miss JOEL. That is the bad news: he is leaving. The good news is he is leaving on his own, and he is leaving with the flags held high, and with the knowledge, I am sure, that he could be reelected if he wanted to be. And if he had less integrity he would be running again, but he did make that promise, unfortunately, and he is going to live up to it.

So I will miss JOEL and Damaris and wish them well.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from California for those excellent comments.

I yield to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. I thank the gentleman for yielding.

Mr. Speaker, I commend the gentleman from Washington, the distinguished majority whip [Mr. FOLEY] and the gentleman from Washington [Mr. LOWRY] for arranging this special order to honor the gentleman from Washington [Mr. PRITCHARD] who is about to retire from this distinguished body.

It has been my great privilege to serve with JOEL PRITCHARD on our Foreign Affairs Committee where my colleagues and I weighed carefully and

respected JOEL's thoughtful opinions and principal comments. He distinguished himself also in his service on the Merchant Marine and Fisheries Committee. JOEL waged the good fight in other important fora. I especially remember JOEL's extensive work and determination in trying to formulate a Law of the Sea Treaty that would best promote U.S. interests and those of the international community.

JOEL also took the time to spend last fall up in New York as a member of our U.S. delegation to the U.N. General Assembly and represented our Nation with distinction on a number of important issues.

JOEL is the stuff of which statesmen are made. He will be greatly missed by his colleagues in the Congress. We wish him godspeed and good health in all of his new endeavors.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from New York for his kind words.

I now yield to the gentleman from New York [Mr. DOWNEY].

Mr. DOWNEY of New York. I want to thank the gentleman for yielding and add my voice to those of the others who have acclaimed our friend and colleague from Washington. It has been my privilege to take a number of factfinding trips with the gentleman from Washington [Mr. PRITCHARD] one to the Soviet Union most recently.

It has been mentioned here before about his role in arms control. He is the epitome to me, in my view, of bipartisanship and concern about this subject. He brings to it a freshness and an openness that is missing in this body on both sides of the aisle.

He has been a remarkable servant of the people. I will miss him as a friend, and I know the people of Washington will miss him as a Member of Congress.

I thank the gentleman for yielding.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from New York.

I yield to the gentleman from Pennsylvania.

Mr. RITTER. I thank the gentleman for yielding. I would like to say that JOEL PRITCHARD has been a friend since I have been in this Congress. I had the pleasure of working with him very closely over the years since the Soviet invasion of Afghanistan on a resolution to recognize the plight of the Afghan people, and also to try and give congressional support to assistance to the Afghan freedom fighters.

We went to Pakistan, the border areas one time, and I got to know him pretty well. I must say he had a great sense of humor and he has a great sense of humor. He is one of these people who no matter how much he disagreed with you, he had a very friendly way of approaching differences. He was, indeed, a carrier of the flag of bipartisanship.

We will all miss JOEL PRITCHARD in this House, but hopefully where he sets up his next shop we will be delighted and very willing to work with him.

I yield back to the gentleman from Washington.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from Pennsylvania for his kind words.

I yield to the gentleman from Pennsylvania.

Mr. KOSTMAYER. Abraham Lincoln once said that bad promises are better broken. That applies, I think, to the gentleman from Washington, and many others here, I think, in Congress, in his State of Washington and across the country wish that he would break his promise and seek reelection. But that is not the kind of man JOEL PRITCHARD is. He is a man who keeps his word and keeps his promises.

I have served during this Congress with Mr. PRITCHARD on the Foreign Affairs Committee, and at times when debate and Members were too highly keyed, JOEL was always low key. At times when Members were too hot, JOEL was always cool. At times when debate became too partisan, JOEL was always bipartisan, and when debate and Members sometimes, as we do, became too extreme, JOEL was always the moderator.

Sometimes, Mr. Speaker, there are men and woman in this institution who seem somehow to rise above the partisanship and the clamor of the institution. They are people who are universally liked by Republicans and Democrats.

We do not know what that formula is, but JOEL PRITCHARD is that kind of a man. Everyone likes him regardless of their party, regardless of their ideology. He is universally respected by this institution, and we will miss him very deeply.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from Pennsylvania for his kind words.

I yield to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. I thank the gentleman for yielding and for having this special order.

There is at the time of any retiremen around here the smell of beeswax in the air, and usually it occurs because all of the colleagues who never supported the amendments of the retirees are busy lighting candles in front of the icons of the retiree.

It is our habit to eulogize and to ascribe superhuman qualities to those who are moving on to greater glories, as we know JOEL is.

In JOEL's case, a lot of the accolades I say are justly deserved. He was an unusual person walking among us who was loved and respected by nearly everybody.

Mrs. Frenzel thought particularly highly of his terpsichorean qualities on the hardwood floor, and enjoyed some of his singing as well.

The rest of us enjoyed his accommodating personality, his willingness to make an arrangement in the best interests of the Republic.

All of us make foolish statements when we are running for office. I myself did that about how long it was going to take me to straighten out the world, whereupon I would ride home and take up the plow of honest toil again.

JOEL took it seriously because he is one of the more serious of us. All I can say is that I admire him for keeping what he believed was his word. I regret that he is moving on because he is one of those unique people who can forge an accommodation between two very strongly conflicting points of view. He is one of the facilitators, the mediators, without which this Congress can hardly do its work.

I will miss him personally. I wish JOEL and Damaris the very best in their future career or careers, and we shall all miss them.

I thank the gentleman for yielding.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman, and I yield to the gentleman from Pennsylvania [Mr. COUGHLIN].

Mr. COUGHLIN. I thank the gentleman for yielding.

I just wanted to join in this tribute to "WHEELS PRITCHARD." I am sure that Coach CONTE will talk more about his legendary base-stealing from the Democrats.

But JOEL was indeed one of the kindest and the most thoughtful Members of this great body. He is indeed the salt of the Earth, and nothing could more aptly describe our colleague.

But very much beyond that, he was also one who delved into the nitty-gritty of legislative issues, and was always trying to find that accommodation, or dig into very difficult issues, the momentous issues of our times, indeed, and trying to make some reason out of them, trying to come before this body with a reasonable proposal. For that he is certainly tremendously admired by all of us.

We want to wish him well. This is his future. Many, many years of good health and happiness, and we will miss him very much indeed.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman for those kind words. Obviously we will have a better chance at the baseball game next year.

I yield to the distinguished majority leader.

Mr. WRIGHT. I thank the gentleman for yielding.

When I think of JOEL PRITCHARD, certain words come to mind. I think of the words thoughtful, creative, constructive, responsible, reasonable.

□ 1540

Each of those adjectives describes our colleagues.

He was a man of reason, not of passion. The appeals he made to his colleagues were based upon logic, not upon spurious claims. I believe it can truly be said of JOEL PRITCHARD that he is respected by all of his colleagues of both political parties.

Henry Clay said, "Do not despise compromise, for it is the cement that holds the Union together."

JOEL PRITCHARD perfected the art of sensible compromise. He was able to yield to others and exact from others a sense of yielding to a higher purpose.

He was able to help fashion those synthesizing results that enable any legislative body to function. He assisted whenever we attempted to hammer out upon the anvils of mutual give and take a workable solution.

JOEL PRITCHARD has been a legislator who has sought solutions rather than slogans, rather than issues, rather than confrontations.

For all those reasons he epitomizes the kind of legislator that makes legislation work in a free country.

And for that reason I am very sorry to see him leave this Chamber, and yet I know that in the brightness of his career he will find many avenues of creative and constructive service in which he can continue to serve and bless this land of ours. And I wish him well.

Mr. LOWRY of Washington. Mr. Speaker, I thank the distinguished majority leader [Mr. WRIGHT] for those kind words.

Mr. Speaker, I yield to the gentleman from Massachusetts [Mr. CONTE].

Mr. CONTE. Mr. Speaker, I want to join the great accolades that have been uttered here today in regard to our great friend, JOEL PRITCHARD.

JOEL has been a very, very dear friend of mine, but more than that JOEL played on some of those outstanding Republican baseball teams of mine.

There was nobody who could run as fast as JOEL, in the 22 years that I have been coaching the Republican team. He more than earned the nickname I gave him—"Crazy Legs."

He always gave baseball everything he had, and his team spirit was reflected as well in his work in the House.

Mr. Speaker, I imagine over the years that JOEL was here since 1972 he, maybe, stole more bases than any Member in the Hall of Fame in Cooperstown, NY. He is truly an asset to any organizaiton.

JOEL is a beautiful guy. He always would do whatever you asked him on the ball field and he was the same way here in the Halls of Congress.

Mr. Speaker, has was a teamplayer in the ballfield, he was a teamplayer in the U.S. Congress.

I think one of the nicest things you can say about a person is that he is a good man, and, in my book, JOEL PRITCHARD is a good man.

Mr. LOWRY of Washington. Mr. Speaker, I thank the distinguished gentleman from Massachusetts [Mr. CONTE] for his kind words.

Mr. Speaker, I yield to the gentleman from Pennsylvania.

Mr. GEKAS. I thank the gentleman for yielding.

Mr. Speaker, I will not have felt that I will have arrived as a Member of the U.S. Congress until that day when the House Administration Committee asks me to participate in the briefing session of the incoming freshmen of some future session.

At that moment I know that I will have reached success because that is exactly where I first saw and met and heard JOEL PRITCHARD where, as one of the hosts for the incoming 98th Congress, he gave us incoming freshmen a clear vision of what we were about to encounter, with humor, with finesse, with a sense of balance that made us all feel comfortable from the very first moment we stepped into these Halls.

I have never forgotten that moment. I will carry that moment with me through the remainder of my incumbency and I will always say at every first moment when I am sworn in, again and again as I hope I will, as a Member of Congress, "Thanks, JOEL, for these first instructions."

I thank the gentleman from Washington.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from Pennsylvania for those kind words.

Mr. Speaker, I yield to the distinguished gentleman from Ohio.

Mr. MILLER of Ohio. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I too would like to honor JOEL PRITCHARD.

JOEL PRITCHARD left his home of Seattle, during the 1940's and moved to Marietta, OH, Washington County, in my district to attend Marietta College.

I would like for JOEL to know that on February 14, 1985 the sesquicentennial of Marietta College will be held, and I hope that JOEL will find time to attend this sesquicentennial. It would be great to have him join us for this gathering. I have spoken to JOEL on numerous occasions, and he is very proud of his Ohio association.

I know Washington is his native State, but nevertheless he has many friends in Marietta.

When I go to the city of Marietta, they ask: "How is my friend, JOEL PRITCHARD, doing in Washington, DC?" And I am always pleased to convey the message that JOEL is a man who we believe in. "SIL" CONTE told of JOEL stealing bases while playing baseball. Believe me, that is the only thing that he has ever stolen.

Mr. Speaker, JOEL came up with many unique ideas of his own as a legislator. Many times we find people here who will pick up someone else's ideas and run with them, but JOEL is an independent thinker.

He knew in his mind what he wanted to do as a Member and he brought that forth in the deeds he accomplished in this Chamber. I hope that JOEL will find happiness and satisfaction in the new endeavors that he will move into after leaving this body.

Mr. Speaker, I thank the gentleman for yielding.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman for those kind words.

Mr. Speaker, I yield to the gentleman fron Nebraska.

Mr. BEREUTER. I thank the gentleman and his colleague from Washington for taking out this and the previous special order to honor JOEL PRITCHARD.

Mr. Speaker, we do indeed need two special orders for all the people who want to speak about JOEL PRITCHARD.

Like my colleague from Tennessee who spoke a few minutes ago, I was unaware that this was going to happen. I saw it on the television in my office a few minutes ago and decided that I really had to come over here because I had something to say. There are later planes going back to Nebraska that I can catch.

JOEL PRITCHARD is an extraordinary fine human being and for all the reasons mentioned here by his colleagues he has made a tremendous contribution to this legislative body.

We honor JOEL for that. We are going to miss him greatly. JOEL recognized one of the difficulties we have in this legislative body, and that is that we too infrequently look in a concerted fashion at crucial issues in our society.

JOEL not only recognized it; he, with colleagues on the other side of the aisle and this side as well, set up a study discussion group to look at these issues. We look comprehensively, I would say as comprehensively as anyone can, at arms control; next we moved on to the importance of better relations with the Soviet Union and understanding the Russian people and the U.S.S.R. That is an effort that is ongoing, that will be part of JOEL PRITCHARD's legacy here.

Mr. Speaker, we heard a few words from "SIL" CONTE. I can remember as a rookie on that baseball team thinking I was a pretty good sprinter, pretty good runner. I did not have a chance even that they would let me show anything because they knew that JOEL PRITCHARD was the standard in that area.

I came to know him early because he sought me out to talk to a freshman here in his first year. That is JOEL

PRITCHARD. He took the time to be with us, he took the time to encourage other Members to use their expertise.

In an age when we have constantly running press release mills, JOEL PRITCHARD passed around the credit, was not concerned who got the attention as long as the results were there.

That has been mentioned frequently and it should be.

□ 1550

JOEL came from a district that is politically complex. Yet, after his first term he won reelection by substantial margins and could be running successfully for reelection today. That is a recognition, of course, on the part of the people of Seattle and the surrounding areas, the quality of the man they were sending to the U.S. House or Representatives.

Yet, despite that record of support, one really does wonder about a few of our colleagues, if the people who send them here realize fully the impact and the quality of the man or woman that they are sending to the U.S. House of Representatives. I wonder, despite having great respect for the people of Seattle, if they really understand the impact this man has had on this body and upon his colleagues.

JOEL and Demaris, we are going to miss you very much. We are going to miss JOEL's contribution to the House. We hope that we have many occasions to share his good humor, his ideas, and to say to JOEL, "Our very best wishes to you," is my special desire this evening.

I thank the gentleman.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from Nebraska for those kind words.

I would like to join in the observation that had JOEL decided to run again, he essentially would have been unopposed. The gentleman actually understated the fact how easy it would have been for JOEL PRITCHARD to return for another term.

Mr. Speaker, I yield to the gentleman from Indiana [Mr. COATS].

Mr. COATS. Mr. Speaker, I also did not know that this was going to be up today, but as a friend of JOEL's, I wanted to come over briefly to say a few remarks.

I first met JOEL long distance during a freshmen orientation in 1980 after I was elected. We had a number of speakers who came before our newly elected Republican freshmen. As I listened to JOEL, I said to myself, here is someone with a unique perspective on life, a unique perspective on this institution, and a unique perspective on life in this institution. I took note of that because I very much appreciate what he had to say.

Subsequently, I found out that JOEL and I shared a common love of tennis. Although no one could love it more than JOEL loves it. We are pikers compared to JOEL, but I am fortunate to be able to spend time with him away from here, playing tennis. You learn things about people in athletics. JOEL, of course, played, played not only tennis, but basketball and baseball, among other sports. But you learn that when JOEL, whether he won, as he often did, or lost, as he sometimes did, there was no difference in character. There was no difference in winning and defeat with JOEL PRITCHARD. He was the same gracious sportsman and the same gracious person in victory or in defeat. I think that says a lot about anyone.

JOEL also has a quality about him that more of us should subscribe to and that is an ability to, regardless of our philosophical persuasion, regardless of the emotion of the day, he treats each person in this body as a fellow human being and with respect. He is just someone that we can all learn a great deal from. He will be sorely missed. We hope his wit, his humor, his perspective on life, his outgoing nature, his congeniality and all the other qualities that he has will live on in this body. We also hope that JOEL will spend time with us showing us, through his life and as he lives that life, demonstrating to us what we should all be as Members of Congress.

I know the people of Washington are losing a very, very fine Representative. I talked to JOEL about this, trying to persuade him to run again. He said, "No, I made a promise. I made a commitment. I am going to honor that commitment."

I said, "But, JOEL, the people want you back. JOEL, the papers are editorializing for your return. JOEL, the people are saying, 'We don't care about your commitment. You are the kind of Representative we want. We will forgive you if you come back to us and say, "I would like to do it 2 or 4 or 6 more years here in Congress as your Representative."'"

But he felt duty bound and honor bound to that commitment. I respect him for that. Congress will be the lesser. JOEL will probably be the richer in many, many ways for making that decision. but we certainly will miss him.

JOEL, I personally hope that you will save a spot for me on that tennis court and a spot for me in your heart as we occasionally in the future sit down together and talk about life.

I thank the gentleman.

Mr. LOWRY of Washington. I thank the gentleman.

Mr. Speaker, I yield to the gentleman from Kentucky [Mr. MAZZOLI].

Mr. MAZZOLI. I thank the gentleman from Washington.

Mr. Speaker, it is with a great deal of pleasure at the same time with a tinge of sadness that we see our friend, JOEL, go back home or at least leave this body, if not to go back home.

I first met JOEL—we were in different classes in Congress and, of course, even on different sides of the aisle—on a trip. I was immediately taken by the graciousness and charm of the man, as well as by his knowledge of the process that we live here and of his intelligence. We became friends. As I am sure the gentleman knows when you take a trip in a closed environment of a plane, you go from place to place, you get to really know people very well. I really think I got to know JOEL very well in that short 10-day trip. I think I got to know him in a way that rarely in this body you get to know somebody on a very closeup personal basis.

I followed his career thereafter. On many of the bills I thought he took very courageous and very sensible positions.

I think, as the gentleman knows, he has a way of speaking in an unvarnished sort of down-to-earth way without all the folderol and $40 words that sometimes we are wont to deliver here. But he always makes essential good sense.

The gentleman from Washington may represent a State where most of you have that kind of instinct. But JOEL has it in abundance.

I remember it was earlier this year, as a matter of fact, when I was troubled with a bit of a tennis elbow problem. JOEL told me and he is a legendary tennis player and I think he may have overdone it along the line and he developed this tennis elbow problem. So I was kind of struggling along with it in the spring. The gentleman had survived a bout with tennis elbow so he gave me a few of the hints, kind of like Mother PRITCHARD's remedy for this thing that ails you in the elbow.

He not only takes care of legislative business, but a few other problems that Members might have.

I am glad I happened to be on the floor when the gentleman took the special order. I salute him for taking it. I salute our friend JOEL and wish him many happy years. We hope he comes back to see us often.

Mr. LOWRY of Washington. Mr. Speaker, I thank the gentleman from Kentucky for those excellent words.

We are just about out of time for this special order, but I would like to yield now to JOEL PRITCHARD's exroommate and good friend, the gentleman from Wisconsin [Mr. PETRI].

Mr. PETRI. I thank the gentleman.

Mr. Speaker, I have been sitting listening to the Members speaking in the last 2 hours of these special orders and trying to think of what I can contribute to this whole testimonial to JOEL PRITCHARD.

The first thing I would like to say is that I am another whose life has been touched by JOEL PRITCHARD as many other lives around here and feel that

in some way I am a better person for having had the opportunity to have JOEL PRITCHARD as a friend and as an adviser.

The things that have come through most clearly are his judgment, his character, the example he set, his ability to reconcile differences, and most clearly of all, his talent for friendship and his willingness to sacrifice himself and his ego for the job and the objectives he was trying to accomplish.

One difference between a special order and a wake or a funeral is that we do not have to just look back, we can look forward. We have an individual in our midst who may be leaving the House of Representatives, but who will be here for many years. He is in his peak as a man at this time.

I certainly hope that the elders of the Republic, when they need someone with his unique blend of talents will call upon him because blessed are the peacemakers and JOEL PRITCHARD is foremost among them.

● Mr. BONKER. Mr. Speaker, seldom do we wish for a politician to break a promise. My distinguished colleague and friend, JOEL PRITCHARD, promised he would serve 12 years in Congress. As he keeps his word, Washington State and indeed the Nation will lose a good friend and wish that this were one promise that he had broken.

I have had the honor of serving with JOEL on both the Foreign Affairs and Merchant Marine Committees. This year he ably served as an official delegate to the United Nations. He has also provided strong leadership within the Northwest delegation in giving our area excellent representation in the Congress these past 12 years.

Over the years, JOEL has worked effectively to reach crucial accords on a number of important issues to the Northwest. Frankly, many of the issues to the region—the Northwest Regional Power Act, wilderness bills, restoring money for fish hatcheries—would not have been possible without JOEL PRITCHARD.

Following the untimely death of Scoop Jackson, our delegation chose JOEL as chairman, and for good reason. His ability to bring everyone together is legendary in our State. His personal qualities of integrity and ability, coupled with an engaging personality, has made JOEL PRITCHARD a natural leader. His finest task was to bring us together on an issue that defied consensus in the past—the Washington State wilderness bill. Thanks to his efforts, a compromise was found and we had a bill. JOEL represented our delegation in making the good news public.

While he will joke about the problems of serving in the minority, JOEL proved many times that the mark of an effective legislator is the ability to work with all colleagues, patiently and consistently.

When JOEL firmly repeated his intention to retire, the line to replace him nearly spanned across the First District of Washington. With a new Member in January, this Washington delegation will continue to work together, as always. But JOEL PRITCHARD will be sorely missed as a unique leader among us.●

● Mr. FASCELL. Mr. Speaker, when the 99th Congress convenes in January of next year, the Committee on Foreign Affairs will have lost the invaluable services of a highly respected and popular member, the gentleman from the State of Washington [Mr. PRITCHARD].

JOEL PRITCHARD has served the Committee on Foreign Affairs in a number of important capacities over the past 6 years and it has been a pleasure and privilege to have worked closely with him during this period. I know that this sentiment is widely shared among his colleagues on both sides of the aisle.

The gentleman from Washington has been an active participant in the work of the committee from the outset of his assignment—having served on the Subcommittees on International Operations, Human Rights and International Organizations, and most recently as the ranking minority member of the Subcommittee on Asian and Pacific Affairs. His interest in the Far East region in general and his intense concern over the fate of refugees from that area in particular have been reflected in all aspects of his Subcommittee work, to which he has provided a major and positive contribution.

He has also served with distinction as a congressional delegate to the 38th Session of the General Assembly of the United Nations.

JOEL PRITCHARD is clearly recognized by his colleagues as a man of integrity, reasonableness and a high sense of responsibility, mixed with an unassuming and congenial, and I might add patient, disposition. These are all qualities which our committee needs in large measure to fulfill its legislative responsibilities, and the gentleman will be sorely missed in the years ahead.

While I wish JOEL PRITCHARD and his family a happy and rewarding retirement, I also want him to know that his departure is a loss to his district and State, to the House and to our Nation.●

● Mr. BIAGGI. Mr. Speaker, I rise today to pay tribute to a good friend and colleague who is retiring after this 98th Congress, JOEL PRITCHARD of Seattle, Washington.

I have had the especially good fortune to have worked more closely with JOEL than many other members by virtue of our membership on the House Merchant Marine and Fisheries Committee. JOEL as our ranking minority member has been a mainstay in the many accomplishments that our committee can point to in the 98th Congress. JOEL served as ranking minority member on two important subcommittees of the full committee, Fisheries and Oceanography. He mastered the many complex issues which come before us and we worked together on so many occasions in a bipartisan fashion on behalf of bills.

JOEL has been a good friend these past 12 years. I enjoy his company, his warmth and his love of the House. He worked hard on behalf of his constituents from the First District in Washington State having served them prior to his election to the House as both a State representative for 8 years and a State senator for 4 years.

JOEL PRITCHARD made a number of important contributions to legislation not only eminating from the Merchant Marine Committee but also the House Foreign Affairs Committee where he also served with great distinction.

I will miss my friend JOEL PRITCHARD and the many times we worked together in 1334 Longworth. I wish him the very best that life has to offer and assure him that he leaves the House with many friends and admirers all who appreciate JOEL for all the good he did.●

● Mrs. HOLT. Mr. Speaker, there's not much I can add to the laudatory remarks made about JOEL PRITCHARD by other Members, but I just want to express my appreciation for having known him and worked with him in the House.

Here is a man of generous spirit, a healer, one who works for conciliation between strong opposites. All of us know that we need such men in the House, and his departure will be a loss to us.

JOEL, I know that partisan rancor pained you, and we thank you for your good services as one who sought to heal. Duneon and I wish you and Damaris many years of health and happiness.●

● Mrs. SCHNEIDER. Mr. Speaker, I would like to add my voice to those of our many colleagues in honoring our good friend, JOEL PRITCHARD, upon his retirement from the Congress.

All of us have selected a few Members more senior than ourselves to watch and emulate as we began our own service in this body. For me, one of these Members was JOEL PRITCHARD. From his service on my committee, Merchant Marine and Fisheries, I can attest to the personal energy, talent, and integrity of this remarkable individual. His work on issues as diverse as fisheries, arms control, and the Law of the Sea Treaty makes his retirement our loss.

I know that JOEL looks forward to an exciting period of his life in the private sector, and like all of our col-

leagues, I wish him the very best. In the meantime, I know that we will, like the people of his district in Seattle, continue to benefit from his wisdom, his calm demeanor, and his deep personal concern for public issues and problems facing our country.

Come back often JOEL; you are a true friend of mine and of all of us.●

Mr. LOWRY of Washington. Mr. Speaker, as has been seen, there is tremendous affection for JOEL PRITCHARD. We have gone through to the place now that I am having to give up this microphone.

I want to say that all the Members who have spoken here have spoken how we unanimously think so much of JOEL PRITCHARD.

GENERAL LEAVE

Mr. LOWRY of Washington. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks, and to include extraneous material, on the subject of my special order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The House will resume its legislative business.

CALL OF THE HOUSE

Mr. WRIGHT. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The call was taken by electronic device, and the following Members responded to their names:

[Roll No. 450]

Addabbo	Burton (CA)	Dicks

□ 1610

The SPEAKER. On this rollcall, 300 Members have recorded their presence by electronic device, a quorum.

Under the rule, further proceedings under the call are dispensed with.

MAKING FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 1985 IN THE HOUSE

Mr. MOAKLEY, from the Committee on Rules, reported the following privileged resolution (H. Res. 610, Rept. No. 98-1153) which was referred to the House Calendar and ordered to be printed:

H. RES. 610

Resolved, That upon the adoption of this resolution it shall be in order to consider the joint resolution (H.J. Res. 659) making further continuing appropriations for fiscal year 1985 in the House, debate on the joint resolution shall continue not to exceed one hour, and the previous question shall be considered as ordered on the joint resolution to final passage without intervening motion except one motion to recommit.

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 610 and ask for its immediate consideration.

The SPEAKER. The Clerk will report the resolution.

The Clerk read the resolution.

The SPEAKER. The question is, Will the House now consider House Resolution 610?

PARLIAMENTARY INQUIRY

Mr. DANNEMEYER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. DANNEMEYER. Mr. Speaker, is the parliamentary situation at the point where the first issue the House will be asked to vote upon is whether or not we will take up the rule itself the so-called consideration?

The SPEAKER. That is the question that the Chair put to the House.

Mr. DANNEMEYER. I thank the Chair.

The SPEAKER. The question is, Will the House now consider House Resolution 610?

The question was taken.

Mr. DANNEMEYER. Mr. Speaker, I demand a recorded vote.

A recorded vote was refused.

So (two-thirds having voted in favor thereof) the House agreed to consider House Resolution 610.

The SPEAKER. The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, I yield the customary 30 minutes, for purposes of debate only, to the gentleman from Ohio [Mr. LATTA], pending which I yield myself such time as I may consume.

Mr. Speaker, this rule provides for consideration of the joint resolution in the House with 1 hour of debate. Upon conclusion of the debate time the previous question will be considered as ordered without intervening motion except one motion to recommit.

This resolution provides for the consideration of House Joint Resolution 659, the joint resolution continuing appropriations for fiscal year 1985 through midnight next Tuesday, October 9. House Joint Resolution 659 will continue funding authority for the Federal Government which otherwise would expire tonight at 6 o'clock.

It is intended to provide for necessary expenses of the U.S. Government, pending the anticipated action of the conferees on the permanent continuing resolution. As you are aware, the gentleman from Mississippi [Mr. WHITTEN] attempted to get unanimous

consent to consider this joint resolution earlier today, but unfortunately, that effort was unsuccessful. Nevertheless, enactment of a temporary continuing is essential to avert another unnecessary shutdown of the Government.

Mr. Speaker, this continuing resolution is supported by the bipartisan leadership in both Houses. This is an essential matter to be dealt with today and I urge adoption of the rule.

□ 1620

Mr. LATTA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I agree 100 percent with the statement just made by the gentleman from Massachusetts. In about 1 hour and 40 minutes the Government runs out of money.

Mr. Speaker, I yield 5 minutes to the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. Mr. Speaker, I appreciate the opportunity of addressing my colleagues as to why we are at this point, parliamentary speaking. The choice appears to be between adopting this continuing resolution with its limited duration or shutting down the entire Government.

That is not the choice at all. There are several opportunities that are available to the majority party, the Democratic Party, that runs this House right now. If this rule is defeated, then the alternatives that are available in order to avoid shutting down the Government would be for a lean continuing resolution to be adopted; a continuing resolution devoid of pork, if you please, that could serve into the first part of next year as a means of avoiding any further discussion with the other body relative to what leave of spending will be in the continuing resolution of that permanent nature.

We could do that and avoid this so-called box into which we may have placed ourselves.

The other alternative, and I pose to the leadership of the House, is that some of us believe that the people of this country would like in the spirit of accountability, to know where we stand on an issue that is 65 to 75 percent of the American people want to have.

Namely, that we have an amendment to our Constitution requiring a balanced budget so that this House would be compelled to submit to a discipline which it does not now have.

Those are the two choices that are available if this rule goes down and this short continuing resolution is not adopted. I do not think they are unreasonable choices and I would submit to my colleagues that either one of those is the lesser of the evil than the so-called claim that if we do not do this the whole Government is going to shut down.

The move, Mr. Speaker, is in effect in your hands.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The SPEAKER. The question is on the resolution.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. DANNEMEYER. Mr. Speaker, I demand a recorded vote.

A recorded vote was refused.

Mr. DANNEMEYER. Mr. Speaker, on that I demand a division.

On a division (demanded by Mr. DANNEMEYER) there were—yeas 228, nays 26.

So the resolution was agreed to.

A motion to reconsider was laid on the table.

Mr. WHITTEN. Mr. Speaker, pursuant to the rule just adopted, I call up the joint resolution (H.J. Res. 659) making further continuing appropriations for fiscal year 1985, and ask for its immediate consideration.

The SPEAKER. The Clerk will report the joint resolution.

The Clerk read the joint resolution, as follows:

H.J. RES. 659

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the joint resolution enacted by Congress on October 4, 1984 (H.J. Res. 656), is hereby amended by striking out "six o'clock post meridiem, eastern daylight time, October 5, 1984" and inserting in lieu thereof "October 9, 1984".

The SPEAKER. The gentleman from Mississippi [Mr. WHITTEN] is recognized for 1 hour.

Mr. WHITTEN. Mr. Speaker, I yield myself such time as I may require.

Mr. Speaker, we all regret that we face the situation we do here, but unless we take action by 6 o'clock this evening many Government operations will have to cease operations, with all the attendant closedown and startup costs that entails. This often has a bad effect on employee morale in addition to interrupting very necessary Government services.

Operations funded under the appropriation bills previously enacted and essential Government services will continue under the Attorney General's opinion, but many activities will be stopped if we don't pass this joint resolution today. You may recall that a few days ago we had a short duration resolution which lasted for 3 days and then we passed a 42-hour extension to keep the Government in operation until 6 p.m. tonight. These actions were taken at the urging of the other body and this side in an effort to bring about an agreement between the conferees on the House and the Senate on the major continuing resolution (H.J. Res. 648) which is still awaiting final congressional action.

Mr. DANNEMEYER. Will the gentleman yield?

Mr. WHITTEN. Not at this time.

The SPEAKER pro tempore (Mr. FOLEY). He declines to yield.

Mr. WHITTEN. May I say that we have been diligent in our efforts to get together and work out our differences with the other body on House Joint Resolution 648, the continuing resolution which will provide for activities funded in the regular annual appropriation bills not yet enacted.

We have agreed on many of the matters that are involved in the 13 subcommittees that are represented in the conference. The remaining items where there is serious disagreement primarily deal with appropriations for the Department of Defense, which have been considered by the Defense Subcommittee.

□ 1630

They have to do with Nicaragua and various other controversial items which have had the consideration of the Congress in the past. But it became apparent when we met this morning and this afternoon that we could not resolve our differences by 6 o'clock today, when the existing continuing resolution expires.

After consultation with the leadership on this side and the other side, we bring you a very short duration resolution, but it is necessary, because if this is not passed by Congress before 6 o'clock, we will face the interruption of Government services.

Mr. DANNEMEYER. Mr. Speaker, will the gentleman yield?

Mr. WHITTEN. I do not yield at this time.

I ask my colleagues to support this continuing resolution, which extends the authority to continue programs and activities until midnight October 9, 1984.

That is the resolution before you. It is absolutely necessary and I hope the House will pass it without fanfare.

Mr. DANNEMEYER. Mr. Speaker, will the gentleman yield?

Mr. WHITTEN. I yield to my colleague, the gentleman from California.

Mr. DANNEMEYER. I thank the gentleman for yielding.

Mr. Speaker, I just want to say to my colleague that this Member from California does not intend to ask for a rollcall vote on the continuing resolution, so that might be of interest to some of my colleagues.

Mr. WHITTEN. I appreciate the gentleman's comments.

Mr. Speaker, I yield 30 minutes to the gentleman from Massachusetts [Mr. CONTE].

Mr. CONTE. Mr. Speaker, I want to thank my chairman.

Mr. Speaker, I hope this joint resolution will receive the speedy approval of the House.

The current continuing resolution expires at 6 p.m. today. There is no hope of action today on the so-called fat continuing resolution. Unless we act now, there will be a shutdown of those activities of Government which normally function on a weekend, such as our national parks and monuments, and on Tuesday there will be a general shutdown of those activities where appropriations have lapsed.

The joint resolution before us will extend appropriations through midnight Tuesday for those activities covered by the nine appropriation bills which have not yet been enacted into law.

Innocent people should not suffer because we cannot reach agreement. The need for action is clear, and I hope we will pass this resolution without further delay.

Mr. Speaker, this resolution goes until Tuesday at midnight. I would have preferred Wednesday night at midnight, because I see no way in the world that we are ever going to get a continuing resolution, either the one that is pending now or, if it is vetoed, the new one coming up, before Wednesday night. We are going to have to pass another resolution some time Tuesday.

Mr. Speaker, I have no further requests for time.

Mr. WHITTEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. FOLEY). Pursuant to the rule, the previous question on the joint resolution is considered as ordered.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ELECTION OF HON. JIM WRIGHT AS SPEAKER PRO TEMPORE DURING THE ABSENCE OF THE SPEAKER

Mr. O'NEILL. Mr. Speaker, I offer a privileged resolution (H. Res. 611) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 611

Resolved, That Honorable Jim Wright, a Representative from the State of Texas, be, and he is hereby, elected Speaker pro tempore during the absence of the Speaker.

Resolved, That the President and the Senate be notified by the Clerk of the election of Honorable Jim Wright as Speaker pro tempore during the absence of the Speaker.

The resolution was agreed to.

A motion to reconsider was laid on the table.

SWEARING IN OF HON. JIM WRIGHT AS SPEAKER PRO TEMPORE DURING ABSENCE OF THE SPEAKER

The SPEAKER pro tempore. The Chair requests the gentleman from Texas [Mr. WRIGHT] to assume the chair.

Mr. WRIGHT assumed the chair and took the oath of office administered to him by the gentleman from Washington [Mr. FOLEY].

LEGISLATIVE PROGRAM

(Mr. LOTT asked and was given permission to address the House for 1 minute.)

Mr. LOTT. Mr. Speaker, I take this time for the purpose of receiving the schedule for the balance of this day and any schedule that we might now have for next Tuesday.

Mr. FOLEY. Mr. Speaker, will the gentleman yield?

Mr. LOTT. I yield to the distinguished gentleman from Washington.

Mr. FOLEY. I thank the distinguished Republican whip for yielding.

We have concluded the business of the day in the hope that the other body will join us in adopting this resolution which has just been enacted by the House.

Monday, October 8, is Columbus Day and the House will not be in session.

On Tuesday, October 9, the House will meet at noon to consider the following bills:

H.R. 5121, Virginia National Forest Wilderness Act of 1983 (rule providing for consideration);

H.R. 999, American Conservation Corps Act of 1983 (rule providing for its consideration);

S. 2565, Extend Head Start Act (rule providing for consideration); and

H.R. 6163, Federal District Court Organization Act of 1984 (rule providing for its consideration).

And, of course, the conference report on the continuing appropriations resolution.

Other conference reports may be brought up at any time, as is the usual practice.

□ 1640

Mr. LOTT. Mr. Speaker, has the gentleman completed the schedule?

Mr. FOLEY. That is the schedule. I just want to emphasize that we are considering the rules and the bills on those matters that I brought up.

Mr. LOTT. I would like to ask the distinguished majority whip, if the continuing resolution conference report should be ready and we could vote earlier in the day, say 1 or 2 o'clock, I would hope that it is not the intention necessarily to complete this schedule, that we are committed to try to complete the continuing resolution conference report and end this session sine die.

Mr. FOLEY. Well, we anticipate that the schedule as announced can be completed expeditiously, because as the gentleman may remember, those were originally matters scheduled for unanimous consent consideration. They have had wide support on both sides of the aisle. We do not anticipate a long debate or serious controversy over them, so we would hope to be able to adopt them; but I think the gentleman's condition is probably also a trifle optimistic. I think we will probably have sufficient time to consider these without interrupting the consideration of the continuing resolution conference report.

Mr. LOTT. I am fearful the gentleman is right on that last point.

I must tell the gentleman, though, that at least two of these bills are controversial, based just on what we heard in the Rules Committee and there will be considerable debate on the American Conservation Corps Act and certain provisions of the Senate bill, S. 2565, the Head Start Act, too; so it will not be something we can handle in a few minutes; but I am afraid we will have plenty of time to debate those issues.

Mr. MADIGAN. Mr. Speaker, will the gentleman yield?

Mr. LOTT. I would be glad to yield to the gentleman from Illinois.

Mr. MADIGAN. Mr. Speaker, I appreciate the gentleman yielding.

I would like to ask the distinguished majority whip whether or not there is going to be Suspension Calendar on Tuesday.

Mr. FOLEY. I am sorry. I did not hear the gentleman.

Mr. MADIGAN. I will repeat the question. I would like to know if the distinguished majority whip is aware whether or not there will be a Suspension Calendar on Tuesday.

Mr. LOTT. I yield to the gentleman.

Mr. FOLEY. There is none planned at this time for Tuesday.

Mr. MADIGAN. Mr. Speaker, I thank the gentleman.

Mr. LOTT. Mr. Speaker, I would like to pick up on that and urge that we not get started on that Consent Calendar. I am just afraid when we come back in here on Tuesday we are going to start a process that is going to take us into Thursday or Friday very easily if we do not watch it. I would hope we would limit what we do have on the schedule and try to do that and dispense with the continuing resolution as soon as possible and end this session, so I am glad to hear the gentleman has no notion to put anything under suspension.

Mr. FOLEY. I want to be understood in response to the question of the gentleman from Illinois, which I believe was on the Suspension Calendar. We have to plans at this time for bills on suspensions.

I cannot give the gentleman assurance that such consideraton is out of the question, but we have no plans for it at this time.

Obviously, unanimous-consent requests may be considered. I have no knowledge of any particular ones that are going to be offered, but it is possible there will be some.

Mr. LOTT. I said unanimous consent, I meant suspensions. I suppose it should apply to the unanimous consent requests, too.

I do not want to belabor this. I just hope we can find a way to end this session as quickly as possible.

I yield back the balance of my time.

ADJOURNMENT TO TUESDAY, OCTOBER 9, 1984

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that when the House adjourns today it adjourn to meet at noon on Tuesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

AUTHORIZING SPEAKER TO DECLARE RECESSES DURING REMAINDER OF THE DAY

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that it may be in order during the remainder of today's session for the Speaker to declare recesses subject to the call of the Chair.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

AUTHORIZING ADDITIONAL AUTHORIZATION OF APPROPRIATIONS FOR SITKA NATIONAL HISTORICAL PARK, AK

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that the Committee on Interior and Insular Affairs be discharged from further consideration of the Senate bill (S. 1688) to amend the act of October 18, 1972, to authorize additional authorization of appropriations for Sitka National Historical Park, AK, and ask for its immediate consideration.

The Clerk read title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. CRAIG. Reserving the right to object, Mr. Speaker, will the gentleman explain what is involved in this resolution?

I yield to the gentleman from Ohio.

Mr. SEIBERLING. Yes; I will be happy to do this.

First of all, let me say that this bill was introduced by Congressman YOUNG of Alaska and I have tried to find him just this afternoon because I understood he was back from the hospital and that he was here, but I am unable to track him down.

It is also a bill that has passed the House once before on suspension, went to the Senate, but there was a rider on it which frankly was a rider that I wanted because it was of interest to my district.

The Senate stripped the rider off and sent it back and we now have the bill back in the original form with no rider on it, merely Congressman YOUNG's bill.

The bill would increase the authorization for Sitka National Historical Park by approximately $2½ million to a total of $4 million. The addition is needed because the restoration of the famous Bishop's House in Sitka, which I have visited on two occasions and which is one of the most historic buildings in Alaska, as most preservation projects do, turned out to cost more than the original estimate.

This bill simply brings it up to the estimated cost of completing that restoration.

Senator MURKOWSKI personally requested me to take it up and expedite it and I have agreed to do so, even though it does not have any longer the rider that I was interested in, and that is about all there is to it.

I think it is totally noncontroversial. I have cleared it with the highest ranking Republican on the committee that I could find, the gentleman from California [Mr. LAGOMARSINO]. The ranking Republican is on his way to New Mexico, so I could not contact him.

I am quite sure that there is absolutely no controversy connected with this bill.

Mr. Speaker, S. 1688 provides for an increase in the development ceiling for the Sitka National Historical Park. The Sitka National Historical Park, located in Sitka, AK, was established as a national monument, by proclamation, in 1910. A legislative boundary was established and the area was renamed by the Congress in 1972. The additional authorization would be for the primary purpose of stabilizing the foundation and completing the renovation of the Russian Bishop House. This structure, which is the focal point for the park, was the home of the Russian bishop assigned to Russian Alaska, prior to its sale to the United States.

As I understand this bill the development ceiling for Sitka National Monument, established in 1972, would be raised from $1.571 million to $4 million. The language in S. 1688 is identical to the language of section 2 of H.R. 3739 which was sponsored by the ranking member of the Public Lands and National Parks Subcommittee, DON YOUNG, and which passed the House by voice vote on April 30, 1984.

Mr. Speaker I urge adoption of S. 1688.

Mr. CRAIG. Mr. Speaker, I thank my chairman, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 1688

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 3 of the Act entitled "An Act to authorize certain additions to the Sitka National Monument in the State of Alaska, and for other purposes", approved October 8, 1972 (86 Stat. 904), as amended by section 101, paragraph (23), of the Act of November 10, 1978 (92 Stat. 3472) is further amended by striking out "1,571,000" and inserting in lieu thereof "such sums as may be necessary, but not to exceed $4,000,000.".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. PANETTA. Mr. Speaker, I ask unanimous consent that all Members may be permitted to extend their remarks and to include extraneous material on the special order speech today by the gentleman from Hawaii [Mr. HEFTEL].

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

PERMISSION TO FILE CONFERENCE REPORT ON H.R. 3398 AND MAKING IN ORDER ON TUESDAY, OCTOBER 9, 1984, OR ANY DAY THEREAFTER CONSIDERATION OF CONFERENCE REPORT

Mr. FRENZEL. Mr. Speaker, I ask unanimous consent that the managers on H.R. 3398, the Tariff and Trade Act of 1984, have until midnight tonight to file the conference report on that bill, that it be in order, any rule of the House notwithstanding, to consider the conference report on Tuesday, October 9, 1984, or any day thereafter; and that all points of order against the conference report are hereby waived.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

RENEWABLE ENERGY INCENTIVE ACT OF 1984

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Hawaii [Mr. HEFTEL] is recognized for 5 minutes.

● Mr. HEFTEL of Hawaii. Mr. Speaker, today I am joined by my distinguished colleagues, Mr. FAZIO of California and Mrs. SCHNEIDER of Rhode Island, in introducing legislation to extend the business and residential energy tax credits for investment in alternative and renewable fuel equipment. The introduction of this bill represents a substantial effort to insure the continued development of alternative energy in this country.

Current events in the Middle East should serve to remind us how easily and quickly another world energy crisis could occur. The continuing Iran-Iraq war and the ongoing crisis in Lebanon represent serious threats to the stability of the Middle East and the security of our energy supplies. If we learned nothing else from the embargo of the early 1970's, we learned how reliant our economy is on imported energy from foreign sources.

The legislation we are introducing today is the product of extensive negotiations between representatives of the renewable business and consumer communities. While it extends the renewable energy and conservation tax incentives through the end of this decade, we have succeeded in reducing the revenue impact of the various bills that have been introduced to increase and extend tax credits for investment in these various solar and conservation technologies.

This legislation attempts to incorporate new thinking on the needs of the various renewable energy technologies in terms of the various credit levels that are called for in the legislation. We hope that the introduction of this bill will spur discussion in the Congress and throughout the energy community on the specific renewable energy technologies, and the level of incentive we should provide to each individual technology before the Congress convenes next January. Each technology is at a different stage of development and commercialization. It is important that we determine with certainty what level of incentive should be provided to each technology so that we can obtain the most benefit from the tax incentives and hasten commercialization.

Mr. Speaker, the issue of extension of the energy tax incentives was debated as part of the 1984 Tax Reform Act deliberations. A Senate approved provision providing a 3-year extension of the tax incentives through 1988 was not accepted by the House-Senate conferees. However, agreement was reached by the conferees to hold hearings in the House Ways and Means Committee as early as possible next year on these incentives, which are currently scheduled to expire at the end of 1985.

I believe that the bill we are introducing today will provide the Ways and Means Committee with a vehicle through which to discuss a number of issues involving solar energy development: First, should the renewable energy incentives for business and residential utilization be expanded and extended beyond the 1985 termination date; second, should the residential conservation inventives be extended through this decade; third, should public utilities be eligible to receive the business renewable incentives; forth, should so-called affirmative commitments be extended to renewable energy projects. Mr. Speaker, these questions will provide the basis of a very significant debate on the direction of our national energy policy and the role of our Government in directing that policy.

Mr. Speaker, the country has made a significant investment over the past several years to lay the groundwork for a meaningful alternative energy capability. We must not abandon this effort because, for the moment, energy supplies appear to be abundant and world oil prices soft. I look forward to working with my colleagues in the days ahead to promote a sound energy policy in which renewable energy plays an increasingly prominent role. I hope that the legislation my colleagues and I are introducing today will be the basis for a productive discussion of our future national energy policy. I look forward to working with our colleagues on this important issue.●

● Mr. FAZIO. Mr. Speaker, it is with satisfaction and some pride that I join my distinguished colleagues CECIL HEFTEL and CLAUDINE SCHNEIDER in introducing a bill to revise and extend renewable energy tax credits through 1988. It is obviously late in the session to expect such a measure to pass through the necessary steps in the Congress. It is being introduced for the purpose of laying out on the table all the issues which we strongly believe should be considered by the Congress as it begins its review next year of the contribution renewable energy tax credits must make to our energy future.

There are many parts to the bill, Mr. Speaker. Some of them reflect some very significant new thinking on the part of various technologies represented by the parts. They have attempted to scale their credits to what they think they will truly need in order to achieve marketplace acceptance of their new products. For that reason there are some significant cost reductions inherent in the figures as compared with the renewable tax bill introduced last year and as compared with the Senate proposal that was considered in the conference on the Deficit Reduction Act of 1984. For instance, our very rough estimates at this point are that the solar, wind, and geothermal provisions of this bill could cost the Treasury up to $1.5 billion through 1988, whereas the original legislation last year would have cost about $2.5 billion and the Senate conference position would have cost about $1.9. This is a very significant savings, achieved in part, for instance, by the wind energy proposal to reduce the credits on a sliding scale over the term of their applicability.

We have added to the bill for the Congress consideration provisions for conservation, estimated to cost very roughly $750 million over 3 years, plus biomass and hydroelectricity. Very incomplete assessments of their contribution to cost are something in addition to $1 billion. We also include provisions to allow utilities to capture tax credits as well.

Mr. Speaker, it should be understood by our colleagues that this bill is being introduced as a way to commence next year's debate over tax credits. We think all the provisions in it deserve the Congress very serious consideration. However, it should also be clear to our colleagues, that following what we hope will be a productive period of further thought this fall and winter, a new omnibus bill will be introduced which will reflect the results of that further thinking. Provisions may change; some may be added; other dropped.

This is a starting point. We think it is a very positive one, which demonstrates that there is always considerable creative energy at work in the renewable energy community. We note that no less than 237 of our colleagues cosponsored House Resolution 513 this session of Congress, calling for an extension of renewable tax credits. We urge each of them and those of our colleagues who may not have come to a view on this matter yet to join in the dialog.

Thank you.●

● Mrs. SCHNEIDER. Mr. Speaker, it is very easy for Congress to forget, in the rush of legislative deadlines, that only a few short years ago we were facing one of the greatest threats to our economic system—an energy crisis which continues to have an impact on our economy. The source of that crisis has not disappeared. The United States remains heavily dependent on foreign energy. Since 1982 our reliance on foreign oil again has begun to increase; from 28.1 percent in 1982 to 31.2 percent in September of this year. The current world oil glut has lulled us into complacency. The fact remains that if the United States is to become energy independent in the near future, we must immediately begin to expand our investment in alternative renewable energy sources.

Toward that end, I am introducing a bill along with my distinguished colleagues VIC FAZIO and CECIL HEFTEL. This bill would encourage the development of renewable energy sources. It

would establish what I feel is a progressive and realistic program of incentives for the development of alternative energy sources. In his statement, Mr. FAZIO discussed the economics of this bill. I agree with his assessment that this is a significant improvement over the legislation introduced last year.

Although this measure would impose a short-term cost to the Treasury, it should not be overlooked that the development of renewable energy has very positive long-range benefits. In addition to meeting many of our national security needs, renewable energy provides an opportunity to develop environmentally sound energy sources, increase employment opportunities, and create a vast export potential to both developed and developing countries.

Mr. Speaker, by introducing this legislation at the close of the 98th Congress we hope to impress upon our colleagues the urgent need to continue consideration of ways to expedite the development of renewable energy. We look forward to beginning the 99th Congress with a greater appreciation for the delicate state of our energy supplies, and for fruitful discussions on how best to meet this challenge.●

THE 98TH CONGRESS: A SUMMATION OF SPECIAL ORDERS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. GONZALEZ] is recognized for 60 minutes.

Mr. GONZALEZ. Mr. Speaker, I rise in order to round out the summation that I placed into the RECORD last week summing up for this Congress the efforts I have made via the special order with respect to basic issues that in effect are extramural because they are not directly related to the legislative flow, with the exception of my responsibility as chairman of the Housing Subcommittee, and in summing up I reported the tremendous continuing deleterious impact, not only on housing, but on every single business endeavor and economic activity in our country because of the extortionate and usurious continuing rates of interest.

□ 1650

So other than that, I discussed the continuing problem of organized crime, its infiltration of our highest offices in both the governmental as well as the business world, and the relationship of that with the murder of Judge John W. Wood and the attempted murder of the assistant district attorney from the western district, Mr. James Kerr.

But I left incomplete another, and I guess most crucial issue of all that as the Members of this Congress on both sides of the Capitol Building, as they depart to go back to their respective districts and escape the throes of these last-minute anguishes, such as the budgetary resolutions and the appropriations resolutions, I leave with a great deal of concern because the fundamental issues are not even discussed. For instance, we have the highest budgetary allocation for "defense" in this history of the Nation. Over half of that, which exceeds $300 billion, is for the so-called defense of Europe.

I have been the only Member of Congress either in the House or the other body that on the record has risen on several occasions and directed the question to the Members who have the prime responsibility, that is both the majority chairman of the authorization and the appropriation committees on defense, as well as the ranking minority members, asking them to tell me in definite amounts how much of that $315 billion is allocated for the defense of Europe. And the answer is that they cannot tell me with exactitude because so much of the budget now is for this sophisticated weaponry that has yet to be developed, and that of course most of it would be envisioning its vital need for the defense of the Western World or Europe. Yet when I say I have analyzed the budget and I figure that that amount represents better than half of the defense budget, the answer is that that is correct, that it is in that range or within the ballpark.

What this means is that at no time during the debate or consideration of this important measure has the question of our basic policy been discussed or examined or reexamined. The mindsets of our leaders in and out of the Congress, in and out of the Presidency is that we are dealing with a Europe in the context of 1946, 1947 Europe. Of course, this is a misperception of the most grievous kind. It has been the misperceptions of the real world by our leaders that continues to plague our country with the misery of such things as the divisive and the most tragic encounter in Vietnam.

These misperceptions now are unforgivable when it comes to the question of our continuing bankrupt policy, with respect to the nations that share destiny in the world to the south of us. We can afford it perhaps, yet it has to be written whether we can or not, such things as the tragedy of Southeast Asia with all of the costs of blood and treasure. But we cannot afford to miscalculate and send our children, grandchildren, and great-grandchildren into a future with assured hatred and enmity to those who live to the south of our borders, and yet let me assure my colleagues, those hearing and those not, that this is the issue of the moment, and it is hog tied to this greater issue of more concern, yes, because of the impact on the budget of this country and on the tax burden imposed on the people of our country, and that is a European question, the fundamental issue. It has not even been discussed.

I am the only Member of this Congress as far as I know that on the record has raised the issue of German reunification. Germany is still and remains the main issue. It is a question of the rearming of Germany that is at the heart of the whole matter of the cold war now being warned over into a real near hot-cold war with a President that has nurtured a war psychosis against particularly the Soviets.

These are misperceptions we can no longer at all afford to entertain. We must perceive the world as it is.

We have 300,000 of our men and their families in Germany alone. The British have about 7,700. The French have about 11,000.

But the passion in Germany, as it should be readily understood by anybody that knows anything about the history, or the culture, or the history of that part of Europe, and particularly of Germany and its culture, we are talking about a Germany that is proud, strong, dynamic, cultured. And our attempts to maintain a dismembered nation, a nation that was forged together into the fatherland, called that by Bismarck himself, and where we have unilaterally since the late 1940's made the decision to rearm West Germany. This, of course, in view of the intricate involved history of Middle Europe and Russia, what we call Russia or the Soviets, seems to me to be a constant, poised danger at the heart of our security and well-being.

We can develop all manner of weapons. We have developed the atomic bomb in the hope that that would insure security, and instead we are more insecure than ever. We can go into the Star War phase, as the President has suggested, but that will not insure security any more than it would in the case of the Middle East being insured if there is injustice, injustice and a failure to recognize the historical imperatives that leave choices to be made not only in light of the immediate attention paid to immediate history, but all the backlog and heritage involved.

□ 1700

In the case of Germany we should not be shocked at a reaction from a country such as Russia which was invaded by Germany, lost 20 million or more people. It would be like us, were we to have been invaded by Mexico and had lost all the inhabitants of the State of Texas plus all of those of the State of New Mexico plus all of those of the State os Oklahoma, plus all of those of the State of Louisiana.

How would we feel if after we had rolled that Mexican tide of invasion

back, after this great blood-letting and our erstwhile allies that had helped us roll back that tide said, "We are going to rearm"? We must take those things into consideration.

The high politics, they are not discussed. The American people are not being told that. In the meanwhile on the threshold of power are the new generations, say, in Germany that cannot remember World War II because they were not even born and who, despite the fact that we changed the designation of our troops from occupation to defense, are nevertheless occupying their country.

Should we not at least face reality and say, "Well, now, just a minute, there is a good segment of opinion in and out of Germany and Middle Europe that fears us and the possibility of us figuring our logistics where their ground becomes the theater" as the President said "of conflict," nuclear conflict if you please.

Of course the old question: Do you allow the German trigger on the bomb? Those are not discussed.

Yet our families, and I have many constituents who served and have served in Germany, are in perilous situation if the mood should change and if we are not prepared to accept reality.

In Latin America we are the main instrumentalities of the killing and the horrible devastation taking place in the smallest country, for instance, of all Central America, El Salvador.

We are at war with Nicaragua. We hypocritically have an ambassador in Managua, which means, under civilization, that we recognize that regime as legitimate and that we are at peace and that we have a fully accepted representative and ambassador from a peaceful nation while we not only support financially but militarily those who are sworn to doing in that regime known as the Sandinistas.

We say, the President says this is because they have betrayed the role of the cause of the revolution against the most tyrannical and corrupt regime of any country in the history of the world.

We are involving ourselves in a civil war. The President insinuates and at one time almost charged that the revolution had been won or imposed and that the Sandinistas' coalition government had been imposed by the Communists. If not the Castroites, the Communists.

And of course there is not one observer from any civilized portion of the world that has been to Nicaragua that will testify to that and will not say that it is an indigenous civil war. The same thing in El Salvador when, from the very beginning, the misperceptions were obvious. What is the mindset of our leaders? I think it was best illustrated when our President went down to South America about 2 years ago, 2 years exactly, and in one nation mistakenly referred to it as another. Now that is fine, but when he got back to California what were his first remarks? "Gee, I did not know they were different."

Now we cannot continue to have this misperception of the real world out there, because we are identified with those forces that have held down the people, tyrannical, unjust, despotic, antidemocratic. We are aligned with them in the minds of the folks south of the border. Maybe our diplomats do not hear it, naturally.

But the fact and the truth is that we are and that we have learned nothing from our excursions in Southeast Asia and in other parts of the world where we have involved ourselves, such as even in Beirut where we go in and actually take sides in an ongoing complex civil war. That is the long and short of it.

We have failed to develop policy that is basic in what we should do in a case unlike an imposed external regime from one that is indigenous, native, a civil war, where maybe perhaps the jargon and the trappings of so-called Marxist-Leninist phrases and symbolisms are used. Well, if we are going to fight because we want ideological purity, then maybe we ought to look at our inconsistency. If we say "Look, Sandinista regime, you have two Marxists in your government," overlook the fact that you also have three Catholic priests and say that is a reason for us to try to "do them in" to the point where we not only send money but through the CIA, almost on a weekly basis, attempt to have their leaders assassinated, try to blow up their facilities, ports and the like. Those are acts of war and terrible hypocrisy on the part of our Nation.

We are not fooling anybody except the American people who remain yet to be fully informed.

Well, if we are worried about that, why do we not go to the French and say "Hey, we are going to try to undo your Cabinet, Mr. Mitterand, because you have two Communists in your Cabinet?" That shows to me that there is an ambivalence.

Oh, it is all right in France, but Latin Americans, absolutely not; oh, no.

Well, for the first time in the last decade there are 50 million more inhabitants in the countries with which destiny says we must share this part of the world, south of us, than we have in our country. I think the first imperative is that we understand the nature and the real world out there. It is not the world that it was even 5 years ago, much less the world that it was when John Kennedy proudly developed the Alliance for Progress.

If John Kennedy were President today, and the things that we have allowed to happen and have been guilty of allowing to happen within the last 3 years, if he became President and he tried to unload the so-called alliance for progress, he would not succeed, because that was unilateral. It will not happen anymore. We have lost all the leverage we could exert as leaders in the new World. Our President has refused to do anything but unilateral military intervention. He is ringing Nicaragua now with over 30,000 of our military, on the land, on the seas, on both sides, Caribbean and Pacific, and in the air, as never in the history of that part of the world.

That part of the world has never seen that extent of military presence. If that is not war, I do not know what is.

Can we afford that? Can we afford to be erring in such a fundamental way? I do not think so.

I have spoken out, I guess in the case of Judge Woods' murder, it does not go out and make headlines, I do not go out and make press releases. I am addressing my colleagues of this House, the only forum available, for all we have as I have said repeatedly is a voice and a vote.

But I feel impelled because at this point everything else should pale into insignificance. These two great broad issues, they are inescapable. Do we face them intelligently with anticipatory, knowledgeable methods or do we wait, as we did and suffer the loss, the most grievous loss and the manner of losing which continues to impinge on our ability to convince anybody that we are forceful?

□ 1710

We will have more Beiruts and we will have more Vietnams because we are like the Bourbon Kings, we learn nothing and we forget nothing.

We talk a lot about the deficit. This is the last issue that I have spoken on and which is being minimized and that is the real issue. We talk about the fiscal budgetary deficit. Let me assure you, my colleagues, that that is insignificant to the real, real thing, that is going to undo us and most of the world with it. That is our trade deficit. It will be no less than $135 billion by next month. That means a loss of 1 million American jobs that have been lost and will continue to be lost. Nobody has even so much as debated this here.

Yesterday we had an extension of the so-called preference category nations. Only tangentially was this monstrous trade imbalance mentioned and yet, that is going to do us all in, plus so-called allies and everybody else.

But involved, as I have said in the case of the Federal Reserve and in the case of high interest rates, the basic issue is that which we call the American way, the American standard of living. This is why in summing up I

give plain notice that God willing and upon the return in the formation of the 99th Congress, I will once again avail myself of this great privilege and attempt to arouse the leadership, arouse those that have the direct and primary responsibilities as committee chairmen, and the ranking members, for there is no Democratic or Republican or partisan issue in such basic economic and policy matters. In those matters it is like in mathematics, you are either right, or you are wrong.

I say up to now and that is what impels me to rise, there is no awareness and we continue hard headed and steadfast in a calculated course of disaster in these basic issues, international and domestic.

PREVENTION POLICY—PREVENTION POLITICS

(Mr. SHELBY asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. SHELBY. Mr. Speaker, I am an advocate of an approach to health care cost containment that embodies the prevention of illness before it strikes, leaving in its wake enormous personal and economic costs. I believe that we have within our grasp today the power to significantly reduce the incidence of serious disease in our society and improve the quality of life for all Americans.

As a signal of my endorsement of the prevention movement, I offered a component of the House-passed National Institutes of Health [NIH] reauthorization bill, to provide for the creation of 25 health promotion and disease prevention centers across the country. These centers would conduct research, provide technical assistance, educate and train target populations sick and well, and conduct clinical activities to promote healthier lifestyles and to avoid or prevent disease.

However sensible the notion of promoting good health and preventing illness among Americans may be, or how readily accepted its premise, the effort to convince policymakers of the merit of Federal support is often an uphill battle. No more clearly is this struggle illuminated than in the following lecture delivered by Dr. William F. Bridgers, dean of the School of Public Health, University of Alabama in Birmingham. Dr. Bridgers is a respected leader in the cause for preventive health services and a most convincing spokesman. I invite my colleagues to take a few minutes to note some of Dr. Bridger's insights.

PREVENTION POLICY—PREVENTION POLITICS

I thank the College for inviting me to deliver this annual Sturgis lecture. I am honored to have been selected, taking this as recognition of the efforts being expended by my colleagues in the Association of Schools of Public Health in trying to move the prevention movement along the path we all see so clearly, albeit a path not yet freed of all impediments for a smooth journey. I will mention some of ASPH's initiatives, but this presentation for the most part represents my own views of the state of the nation, vis-à-vis prevention, its policies, and its politics; my colleagues are absolved of all responsibility in this regard.

I do not know Dr. Sturgis. I wish I did. A reprint of Dr. Foege's lecture in 1979 included a brief biography of her career, and after reading it, it is abundantly clear why the American College of Preventive Medicine felt it appropriate to honor her through the establishment of this series.

I do know some of the past lecturers. They have set a high standard not only in the timeliness of their topics but in the intellectual approaches in their presentations. These two criteria, timeliness and some intellectual content, are those a lecturer must meet in order to hold my attention under these adverse conditions: nice reception. Nice dinner. Who needs a lecture? I suspect you would subscribe to my criteria, and I shall try to meet them, although the topic I have chosen, Policy and Politics, may strike you at first consideration almost by definition not to hold out much promise for intellectual content.

Certainly, the topic I have chosen meets the other criterion: timeliness. If ever there was a point in the recent history of man when we could legitimately claim that every sign points to a huge payoff from implementation of a prevention policy, it would have to be now. From the Bronze Age, when life expectancy at birth was perhaps age 18, unitl sometime before 1900 when there had occurred a gradual increase of some 29 years, it would be difficult to find evidence of widespread prevention revolution. Then, of course, we did enter one that led to another 19-year-or-so jump in life expectancy at birth, this occurring over a period of perhaps the last hundred years, but there still wasn't too much action, vis-a-vis life expectancy increases for adults, until only a few years ago. But the signs and symptoms presently all point toward the likelihood that it's our turn—that we adults, we taxpayers, could see a salutary increase in our life expectancy plus, perhaps of even more importance, an increase in our vitality: a decline or compression of morbidity and the resultant dependency states. And we might even expect to see a decline in our outlays for treatment care if all the needed prevention measures were implemented. I'll return to this hopeful possibility later, because it is a statement that still arouses much skepticism in some.

I do not in any way discount the importance of our preventive efforts already underway in local and state health departments, in some segments of the private sector, and at the federal level including mainly the Public Health Service and its Office of Disease Prevention and Health Promotion, the Centers for Disease Control, and other agencies including the NIH, where brand new programs are underway. Notable in this regard is the new Epidemiology and Oral Disease Prevention Program in the NIDR and the March 6 announcement of a new Cancer prevention Awareness Media Program at NCI.

With no implication that we as a nation haven't given the matter of prevention policy considerable thought and some action, let's nevertheless pose this question early in the lecture: why don't we have an organized and adequately funded prevention services system? Comparison of all of our prevention initiatives with, say, even our political activities to implement and pay for therapeutics via Medicare, for example, suggests we've hardly left the starting gate with the politics of prevention.

The short answer to my question, why don't we have a prevention services system as a companion to, or perhaps preferably integrated into, our treatment services system, is: because it's not yet out policy. At first mulling, that sounds like a nonanswer, but that's only if you discount the power of this abstract concept we call policy.

Let me explain by giving an example. A friend and I were talking with an official of a large supermarket chain and asked him why one of his stores, which happened to be in our neighborhood, had prices so much higher than those in his other stores. He said, with no hesitation, "Because that's our high profit store." You don't have to be an economist, which I am not, to know that this behavior represents a market failure. And I mean the economic market not the supermarket, which was doing fine. He had determined that has policy would be to overcharge at that store.

Policies can be powerful if they're implemented. The store didn't have to overcharge at that location, but its policy, largely based upon expediency—that is, they had discovered they could get away with it—was to do just that. Indeed, one of the chief attributes of a policy is that it must be believed to be expedient. So one of the subanswers to our question of why we don't have a prevention services system is that we have not proved, at least as yet, that it would be expedient to do so. Expedient, according to Webster, also means useful.

But if the signs are so promising in terms of the potential payoff from a prevention services system, why doesn't it just happen? Perhaps it just might,, over time, but I think we could nudge the process along a bit, and indeed I think it may be essential that we do so. As Paul Starr said in the opening line of his landmark book, "The Social Transformation of American Medicine," (Basic Books, Inc., New York, 1982): "The dream of reason did not take power into account." He was using it in a different context, but it is a marvelous statement that answers my question. Every now and then I read something that makes me think, I wish I had written that. One such is that opening line which I will paraphrase: "The appeal to reason must take political power into account." My theme is that that is what we must try to do: The power of politics needs to be, and can be, harnessed for prevention.

But it won't be easy. As Professor Starr points out in his last chapter, we may be entering a new phase in medical care: Instead of continued rapid expansion, especially in yearly expenditures, we may now or soon will be playing in a zero-sum game. Resources needed for preventive initiatives may not be able to come from New sources but may, in effect, have to be diverted from other segments of the system. Personally, I hope Starr's right about the new era being a zero-sum one. It would seem that, with about 11 percent of the GNP at one's disposal, one should be able to cover any and all the bases in health care. Besides, zero-sum gaming adds a little spice to the challenge we face: one of the major prevention funding proposals that we've been working on for a couple of years makes it very explicit that its source of support will be from therapeutic care providers' funds. Doctors and hospitals will be given an opportunity

to help finance a prevention services system. I'll describe it a little later.

We would all agree that the nation has a highly visible treatment care system. Whereas we could and do debate the issue of what is, or whether there ever will be, a national health policy that should guide this massive system, we as a nation make fairly clear our willingness to support it when each year we ante up that 10 to 11 percent of our GNP.

I believe it is useful to rephrase the question I posed earlier: Do we have a national prevention policy as a subset or component of our national health policy? The answer must be couched in caveats. It depends to some considerable extent upon what you're trying to prevent and thus how you define the goal of prevention. Some wish to prevent disease and see this alone as a valid defense. Some wish to prevent, through preventive strategies, the escalation in utilization of treatment services.

The answer is also dependent upon what you mean by a policy and, more importantly, what you expect from it: rhetoric or action. Is a policy merely a plan, or is a policy really a policy only when it becomes translated into programs? Another of the attributes of a policy is that in addition to being expedient it is often not explicit. One must infer it from the actions or behaviors of those in charge and those affected. For example, it is the nation's policy to spend some 96 percent of its health care dollars on treatment and only a very small percentage on prevention. You won't find that written in a law, but it is very clear that that's our policy.

Because policy rarely strays too far from the prevailing political wisdom, when all is said and at last something is done, the political route is generally how national policy is implemented. Thus, we can't get very far into a discussion of prevention policy without discussing the politics of prevention, even though we might prefer that prevention could be considered apolitical: a public good or right; an inherent, self-evident value to society. But that's not the reality of the situation. As an analyst of the nation's health care system's policies, and as an active participant in trying to help shape them, I am convinced that if we are to advance beyond the aspirations of a prevention policy or plan toward its implementation, there is no way there other than via the political route. Hence, by way of perhaps too lengthy an opening statement, I have tried to convey to you some insight into what I mean by the title of this lecture: Prevention Policy—Prevention Politics.

In these introductory remarks, I'm sure that a strong inference came through: I suspect we as a nation are still a little uncertain—perhaps vague is a better word—about whether there is bottom-line merit in prevention. The question is not whether it's better in theory for society to prevent a disease than to treat it, but whether there is a proven strategy that can bring that about, and—here's the other bottom line—will it reduce health care costs?

Your first impression is probably a rejection of these somewhat cynical implications on the merits of prevention, on the necessity for tradeoffs, and on the need to sell prevention on the basis of crass concerns such as costs. You will at first reflexly think that everyone surely accepts Ben Franklin's old adage, expressed in the language of the 1980s, that prevention is cost-effective. Well, not quite everyone. Private third-party payers of treatment care are still reluctant to reimburse for most preventive interventions. Why? If you ask them, as I have, they will tell you it is because they fear the costs will go up, not down. They also are uncertain which interventions are valid and therefore worth paying for and which are only passing fads.

It is one of the great ironies in our present health care policy that innovations in the preventive management of a threatened disease (that is, interventions that are aimed at a reduction in incidence rates) are scrutinized ever so much more critically than are innovations in treatment of a disease (that is, interventions that, even if successful, can lower prevalence but which by definition cannot lower incidence rates). Bill Foege has written in the past about this irony.

Others who apparently aren't yet convinced that prevention can save money would include the Health Care Financing Administration. Surely if we had made our case and successfully defended it, HCFA, which is searching for strategies to reduce the costs of Medicare, would have bought it. But they haven't, yet. Medicare will pay for the questionable procedure of radical mastectomy but it will not pay for a mammography screening procedure. Medicare will pay for treatment, such as it is, of lung cancer but not for smoking cessation programs. Indeed, Medicare presently reimburses for only one preventive measure pneumococcal vaccine. I think it's time for that situation to change. It's under study in the DHHS, and perhaps it will. Please don't misunderstand: This situation is not a criticism of HCFA, but of us. We're not quite finished with the task of selling prevention.

Since I've mentioned Medicare, let me point out another irony within our present system and policy. The annual increase in Medicare outlays now exceeds the total budgets of the NIH, plus CDC, plus Michael McGinnis' operation, plus Prevention Block Grants, plus, I am certain, virtually all other federal initiatives relevant to prevention. Is this reality a reflection of national policy? Apparently. Political wisdom? If so, it's the penny wise, pound foolish varity.

Let us imagine that, for fiscal year '85, the Secretary of the Department of Health and Human Services has decided she would disperse her funds in hourly doles representing an hour's worth of her total expenditures for the year. The money is to be handed out personally to agency heads in her office. Let us suppose that the Director of CDC, being a hustler, managed to be first in line to receive his allocations and that he was given his first check at the stroke of midnight at the start of the fiscal year on Monday, October 1. Each hour on the hour, the Secretary would hand over another warrant representing another hour's worth of DHHS spending. Dr. Mason would have received his entire appropriation for the year in time to catch a flight back to Atlanta, eat lunch on the plane, and be in his office the afternoon of the first of October. Had the Director of NIH managed to get in line first, Dr. Mason would have had to wait until late Friday night before he received even his first check. Had the head of HCFA managed to get in line ahead of him, Dr. Mason might have made it back to Atlanta in time to do a little hasty Christmas shopping.

How do we go about changing the situation so that the Director of CDC would have to spend at least a couple of days in the Secretary's office receiving his checks? (Reference here is, of course, to funding for prevention, not specifically to CDC.) One approach would be to ask if there are impediments to the achievement of this goal and then try to remove these road blocks. I think one of the major impediments, in this zero-sum game, is the contrast between the here-and-nowness of treatment and the there-and thenness of prevention. Treatment has a positive, action-oriented connotation. Prevention is somehow negative and abstract sounding.

If you claim you can prevent something from happening at some point in the future, and then the future arrives and sure enough, people don't get whatever it was you claimed you could prevent, how do they or even you Policy makers believe they're buying something tangible when they purchase therapies—a surgical procedure, a lab test or x-ray, an episode of hospital care—but they're buying nonevents when they purchase prevention, or so they might think. You and I know they're buying life—a positive purchase if ever there was one, yet we're trying to sell a negative: postponement of death; avoidance of disease.

Perhaps we should turn our pitch around. I wonder if there wouldn't be some merit in emphasizing data on infant survival instead of infant mortality. I wonder if CDC, which is to be applauded for its new and very important measure of Years of Life Lost shouldn't consider changing it to Years of Life Gained. Should we start reporting Vitality or Survival rates instead of, or in addition to, Mortality rates? Should the Centers for Disease Control change its name to, perhaps, the Centers for Assurance of Vitality? How about, simply, the Centers of Health? Could we live with the confusion that might arise if we had both the National Institutes of Health and the Centers for Health? Might be confusing to some, but we might indeed live better, perhaps even longer, if these what's-in-a-name suggestions would enhance the visibility—and that means increasing the funding—of the prevention movement.

Before I leave this topic, let me comment a little further on the potential value of a positive mind-set in our approach. If you're planning on having a heart attack, I recommend with enthusiasm that you read Norman Cousins' new book, "The Healing Heart—Antidotes to Panic and Helplessness," (W.W. Norton and Company, New York, 1983). If his claims are correct, and he seems to have the support of many prominent physicians, Cousins has one-upped us: Although he refers to his efforts to reverse the damage of a massive heart attack as healing, that is, treating, his strategies are really nothing more than traditional and modern preventive approaches (exercise, diet, etc.) with a heavy overlay of positive emotions. He may have an important message about some new turf for prevention: actual reversal, not just stabilization, of serious, life-threatening disease processes. The prevention movement could profit greatly right about now from the writings of someone like Mr. Cousins—someone who would celebrate the likelihood of employing preventive strategies as a way to enhance our chances for happy, joyful lives. Or perhaps it's the reverse: happy, joyful living may be the preventive strategy.

Now let me focus for a few minutes on another, perhaps even more significant, impediment. The idea of Prevention, while rhetorically appealing and historically compelling, still lacks a theoretical base. One of the reasons is that it is not driven by a single method and certainly not by a single discipline as are all traditional academic and most clinical specialties. Rather, it is driven

by a goal. This presents a fundamental conflict with the usual view of science as being value-free, although few scientists deep in their heart of hearts really believe that.

Having tried very hard to teach lay people, and specifically lawmakers and their staffs, about prevention, I am now convinced that the task would be ever so much easier if we could somehow lean on a theoretical base, a set of ground rules as a point of reference or departure, regardless of the specific type of prevention or disease that might be under discussion.

A close colleague, George Pickett, President-elect of the College, my favorite associate dean and the one person who has taught me the most about prevention, and I are struggling with this problem. He and I believe one takeoff point toward defining this base could be development of the fact that treatment of disease as an intervention strategy includes implicit acceptance of some amount of dependency. The dependency may be trivial, such as that accompanying a cold, or it could be severe, such as that associated with almost all the major, chronic diseases. But it is virtually an inevitable accompaniment of treatment, if that is the strategy employed in controlling a disease. Prevention, in striking contrast, prevents not only the disease but usually avoids or greatly reduces dependency.

Thus, the true and total costs of treatment interventions within a given community for a given disease are comprised of the costs of diagnosing and treating each case plus the costs associated with the dependency for each case times the probability of a member of that community developing the disease. The cost of prevention of that disease, assuming there are strategies that will accomplish this, is, simply, the cost of the preventive intervention times the number of people in the community or of some subset, some population at risk.

If you write these statements as simple algebraic equations, rearrange the terms, and combine the two equations, you can surmise, not surprisingly I suppose, once you think along these lines, that the two major determinants of total costs are probably not the comparative costs of treatment of a case versus the cost of prevention of that same case, but they are the incidence rates are high and/or dependency costs are high, prevention pays. If P represents prevention costs, and T represents treatment costs, and D is dependency costs, and q is incidence rate, the cost of prevention will be less than treatment whenever P is less than the sum T + D times q.

Of course, there are many other considerations, such as discounted current costs for events avoided in the future or for events postponed, but the general notion shows promise, at first blush, of giving us a framework on which to hang our defense of prevention as being "worth" it.

Needless to say, an enormous amount of work remains to be done. But if and when it is, I think we'll have a horse we can ride. We'll also have a better handle on when prevention is not worth it. Mass chest x-ray screening programs are a classic example of a preventive intervention not worth it. Presently out of favor are the once popular multiphasic screening programs and annual physical exams. I am sure there will be numerous new innovations—some useful, some not.

We don't require the sort of method I've tried to describe in order to defend the value of some interventions, such as immunization programs. (Or do we? The swine flu saga comes to mind.) We do sorely need it or something similar for many of the proposed behavorial interventions for heart disease risk factors, for some of the chemical interventions for heart disease risk factors presently touted, perhaps for some cancers, and for a host of other conditions.

It is obvious I'm focusing heavily on the cost aspects of the prevention movement. I do not mean to imply that I'm not interested in the more important matter of avoidance of disease. I fervently believe it's better not to have a disease than to have one, regardless of associated costs. But the subject here is policies and politics—how we can gain the needed resources to advance the prevention movement beyond the implementation plan stage to the full implementation stage—thus, my preoccupation, as will be understood by any of you who have ever spent any time on Capitol Hill or on Pennsylvania Avenue, and I don't refer only to the White House but to around the corner at the Office of Management and Budget.

This is an especially critical time when there is underway a pervasive mind-set towards reducing the role of government, not to mention reducing the federal deficit. This is not the best of times to try to sell new programs if they are perceived to add to costs. On the other hand, one has to be pretty certain of what one is talking about if one expects to sell a new program and claim it will reduce costs. Skepticism and raised eyebrows are still the normative responses when you approach even very knowledgeable health staffers and bureaucrats with, "Have I got a deal for you!" Fortunately, we're not trying to sell used cars, but selling is what we're doing, nevertheless.

Let me note only one other impediment, continuing with the cost theme. One often hears, and it is presented as though it is established conventional wisdom, that to the extent that prevention in young people and in middle age does work, it will simply add to the pool of chronically ill and dependent elderly people. In effect, those holding this view believe that sooner or later the piper must be paid, that sooner or later the end result of prevention is that it will add to the total costs of health care.

It just doesn't have the ring of reasonableness. Following the logic of the proponents of this view to its extreme, it is obvious that if people would be considerate enough to die on the way home from their retirement parties on the day they turned 65, we could sharply reduce the outlays for Medicare. We must reject such ludicrous thoughts and work very hard to show that it is indeed "worth" it to live a longer and healthier life.

I have tried to find the studies upon which such negative perceptions could have been based, but the search has been unsuccessful. I suggest that we summarily reject this pessimistic view on the sound grounds that it is not a useful or productive line of thought; at the very least, it flies in the face of a trend toward increased longevity already underway, a trend that we dare not try to stop and fortunately could not. It also fails to take into account some new concepts about aging and the associated burden of morbidity and mortality.

I am certain that you were as astounded as I was to learn in the January 20, 1984, issue of MMWR that premature mortality when expressed as Years of Potential Life Lost from the first birthday to age 65 for persons who died in 1982 decreased an incredible 4.6 percent. It follows that years of life gained for those over 65 increased. Good news or bad news? The answer is obvious. Because to a great extent we're made morbid by the same conditions that lead to mortality, it may also follow that we'll soon see a drop in morbidity as well. I'll return to this point in a moment.

We are only too aware that Medicare costs are escalating at unacceptable rates. But studies by the Congressional Budget Office show that about 90 percent of the increases are due to rising prices and other potentially controllable factors, and only about 10 percent of the increases are attributable to an increase in the number of Medicare beneficiaries.

Most importantly, we are beginning to understand quite a lot more about these beneficiaries. They consist of distinctly different populations. There are survivors and there are succumbers. Females are the classic example of a population of survivors. No doubt there are many other ways to classify the elderly population into these two subgroups.

Studies from HCFA show that decedent Medicare beneficiaries use more Medicare-reimbursed services during their last year of life than do those beneficiaries of the same age who continue to survive. That, of course, comes as no surprise. What is most interesting is that per capita expenditures for decedent beneficiaries decline with advancing age, and they decline quite a lot. The explanation for these findings is not yet available. Perhaps, and I strongly suspect this is part of the reason, measures to prolong life for the 85 year old are less intensive than for the 67 year old.

Whatever the explanation, the Medicare population in any given year consists of a small number of high cost beneficiaries (succumbers) and a very much larger number of lower cost beneficiaries, the survivors. It follows that if prevention programs were to be successful in forcing a continuation in the decline in mortality rates for the elderly, there would be a reduction in high cost beneficiaries, that is, in succumbers, and hence in outlays for their terminal episodes. And don't forget: It costs Medicare less the older you are when you die.

These, of course, are very happy findings for those of us trying to sell prevention as a strategy to reduce Medicare outlays. You hear a lot about experiments designed to reduce prices of episodes of care—the DRG is the latest such—but you hear practically nothing about strategies that would reduce Medicare outlays by reducing the burden of illness and hence the need for the care. Pushing that concept is what we need to be doing. New insights such as those I've just mentioned may very well give us the ammunition we've needed.

My good friend, George Pickett, who understands how to construct life tables and to do nifty things using his home computer, has some admittedly preliminary but very satisfying findings that suggest that for each successive decrement in mortality rates, the Medicare expenditures increase at a much lower rate. Add the valid assumption that those yearly savings are just that: savings that earn interest, and it may be possible some day to defend unequivocally the statement that it's cheaper to prevent than not to prevent. If he and I could find time for more creative thinking and less reacting—that is, deaning—(and if you infer that the two are mutually exclusive, you're essentially correct), we believe we'd soon have some fascinating new information.

I cannot conclude this line of discussion without also noting our gratitude to Dr. Jim Fries, whose compelling and articulate writings in the New England Journal of Medicine and elsewhere have stimulated much thinking about the likelihood that life expectancy may increase but not life span, about the rectangularization of mortality, and most importantly, about the compression of morbidity. It is joyful to anticipate the possibility that some day some diseases clinically symptomatic states may be postponed (i.e. prevented) to such a late point that you will die first, of other "natural causes." Time won't permit me to go into his arguments here, or those of his critics, but if you haven't been following his work I think you should. You'll find it very stimulating and of seminal importance in our pursuits.

Now let me turn to a listing of some of the politicking activities of the Association of Schools of Public Health. I can't do this without first acknowledging our admiration and great respect for our Executive Director, our leader, Michael Gemmell. I noted that George Pickett teaches me about prevention. Mike is my political mentor, and there's none better. There's also no one doing what he does so well or who is any more dedicated to the prevention movement. It is a delight to try to help him help us all and to follow him around on the Hill and elsewhere in his town.

Time won't permit a recounting of the stories behind each of our initiatives—how we were fortunate enough to have them introduced, how we're keeping some of them alive from one session of the Congress to the next, and the frankly very hard work that has gone into them, not to mention the expenditures of some money and lots of psychic energies. Time will permit only a listing or cataloging.

(1) Schools of public health have managed to hang onto authorization and appropriations for institutional support (capitation) and student stipend support when all other health professional schools were losing theirs. We've also lent our assistance in finding new support for preventive medicine residencies as part of the health manpower legislation. We are optimistic this will all be reauthorized in this session of Congress. Not all of our activities are so overtly self-serving as these, but if the nation is to enjoy the fruits of prevention there has to be support for the training of preventionists.

(2) We have consummated an important new working relationship with CDC that shows great promise to benefit us and them. That was easy.

(3) Not so easy have been our efforts to increase the level of prevention research efforts of the NIH. We have written and testified on the need for a new institute, a national institute for health preservation or some comparable title. We have testified in favor of assistant directors for prevention within the separate institutes. These efforts have not received unqualified support from all parties involved. But we believe we're doing the right thing to pursue them, popular or not.

Out of these activities, a general discomfort emerged rather early that there was no universal agreement on just what is prevention research and what is not. I believe we can take some credit for having raised this question and for trying to contribute to the answer. I am pleased that Mike McGinnis has taken on the task of trying to come up with a definition that the NIH and others can agree on, and according to the draft statement that I saw a few weeks ago real progress is underway.

(4) The activity perhaps most widely known is our proposal that there be established a nationwide network of Centers for Research and Demonstration on Health Promotion and Disease Prevention. It is the sense of the Congress that this idea has merit: The full House and Senate have both let it be known they are in favor, albeit with two separate bills. We expect resolution of this matter any day. This will be one of the very few new initiatives pushed through the present administration, and we are very pleased that we in ASPH played a role in it. I must note our indebtedness to Representatives Shelby, Waxman, Dingell, and others in the House and to Senators Hatch and Kennedy—and the staff members of all of them. For those interested in additional details about the proposal, the latest issue of the Journal of Public Health Policy contains a guest editorial on this.

(5) A very recent effort that we have been supporting, largely through testimony before the House Education and Labor Subcommittee on Human Resources, is a new bill introduced by Representative Ike Andrews. The bill would amend the Older Americans Act of 1965, with a new title that would provide the necessary resources and leadership to design a program of health education for older Americans, mainly by taking advantage of the 3,300 existing multipurpose senior centers throughout the nation. As you might have guessed, schools of public health would take the lead role in design, implementation, and evaluation of this needed program, when it is enacted. A similar provision was recently marked up by the appropriate Senate committee; final passage seems highly likely in this session of the Congress.

(6) Mention of the elderly affords me an opening to introduce to most of you for the first time a major new proposal of the ASPH: that Medicare legislation be amended to include a new provision, the Federal Trust for Prevention Education and Practice. We believe that it is time to add to the strategies for reducing Medicare outlays those we espouse: preventive interventions. There would be a tooling-up phase for the program, that is: an increase in the prevention manpower pool; the development of a rational financing mechanism to reimburse for prevention services; testing of model prevention service dispensing centers in both public and private settings; documentation of the benefits and costs. This phase would be financed indirectly by the therapeutic sector through a voluntary foregoing of a fraction of a percent of the federal reimbursements to them for services rendered to Medicare beneficiaries. The program would not increase federal outlays. Instead, we believe that over time, it would reduce them as the impact of prevention services negated some of the need for the more expensive therapeutic services.

We have not yet presented this proposal in any formal way to our policymakers, but after about two years of test-marketing the concept and refining it, we are ready to proceed when we see a good opportunity to do so. The marshaling of this idea through the Congress promises to be very exciting. I look forward to it.

(7) One last ASPH effort deserves noting here, and tonight is the first announcement of it. With encouragement from several groups and individuals, at our recent meeting in Charleston, we decided to organize the National Committee for Prevention, comprised of organizations interested in enhancing the visibility and funding levels of federally fostered prevention programs. We view the lack of such an entity as a missing ingredient. We are pleased to take the lead in this venture and are anxious to be ready for united action during the FY '86 federal funding cycle.

I shall close now by asking you to recall a few of the fundamentals of biochemistry, a field of hard science I worked in for quite a few years before I became fascinated with health policy, a field some classify as soft art, as contrasted with hard science. The chemistry of life processes is dependent upon enzymes as catalysts. Without them, in theory, the chemical reactions could occur, but not at rates compatible with life. In the politics of prevention—in the conversion of our prevention plans into prevention programs—it would seem that some catalysis might be useful at this time. I invite all of you to become potential enzymes, to jump into the primordial prevention political soup with me. Let's turn up the burner under the prevention pot and see what we can catalyze. A vibrant life for prevention may emerge.●

ARTICLE EXPOSES FRONTLINE ATTACK ON NATIONAL PARK SERVICE

(Mr. SEIBERLING asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. SEIBERLING. Mr. Speaker, I would like to bring to the Members' attention a recent article in National Parks magazine, "Public TV's Frontline Attack on the National Park Service" by Ed Wesely.

The article criticizes last year's highly inaccurate portrayal by the Public Broadcasting System of land acquisition at the Cuyahoga Valley National Recreation Area, Ohio. PBS's Frontline program aired a television show on June 6, 1983, entitled "For the Good of All." The program was based on an alleged documentary, "For All People, For All Time."

The National Parks article discusses the major distortions in the PBS program and how the program is being used to arouse local citizens against parks in areas as far away as the Upper Delaware River in Pennsylvania and the Columbia River Gorge in the Pacific Northwest.

By far the most disturbing aspect of the program was the totally inaccurate and one-sided presentation of the National Park Service's implementation of the law establishing the Cuyahoga Valley NRA. The basic thrust of Frontline's argument was that the Park Service ignored the law by acquiring too much land in fee and by acquiring inadequate numbers of scenic easements. The article shows how Frontline not only misread the law but also omitted key provisions that did not support the program's allegations.

Furthermore, Frontline failed to mention that the courts have consistently found that the National Park Service correctly carried out the law. It is a sad commentary that a program purporting to be fair and objective would have neglected to discuss the courts' consistent support for the National Park Service.

The article also mentions other serious problems with the television program. For example, important facts about individual cases were left out. The program doesn't even give a balanced view of the Cuyahoga Valley itself—a pastoral landscape threatened by industrial development that is now being preserved and protected through the National Park Service's efforts. Indeed, hundreds of families still live in the valley and communities, like the little town of Boston Mills, are still intact. Last year, as the article notes, the National Folk Festival drew 60,000 people to the Cuyahoga Valley at a site across from what was once a junkyard.

Shortly after the PBS show aired in 1983, I pointed out many of the flaws of the presentation. See my CONGRESSIONAL RECORD remarks of June 16, 1983. The magazine article discusses some of those same flaws. However, it adds one new and disturbing dimension. Copies of the television show are being shown in various areas around the country to stir up feelings against the National Park System. In one area vandals even broke into the Park Service parking lot and slashed tires and painted swastikas on Park Service vehicles.

It is nothing short of disgraceful that a PBS program, supported by public funds, would be used to make a distorted unfair attack on a public institution as fine as the National Park Service. The article helps by exposing some of the unfair and biased features of that attack

To further correct the picture, I would commend to the Members a copy of the report prepared by the staff of the Subcommittee on Public Lands and National Parks, released this summer, entitled "Land Acquisition Policy and Program of the National Park Service," Committee Print No. 7. The report documents the National Park Service's authorities and responsibilities for land acquisition and summarizes the findings of a 3-year oversight review which the subcommittee conducted on the Interior Department's attempts to halt or delay the purchase of authorized parklands.

The text of the National Parks article follows these remarks.

PUBLIC TV'S FRONTLINE ATTACK ON THE NATIONAL PARK SERVICE

PARK OPPONENTS USE A DISTURBING PBS BROADCAST ON LAND CONFLICTS AT CUYAHOGA VALLENY NRA TO SCARE NERVOUS RESIDENTS AT EMERGING PARK AREAS

(By Ed Wesely)

For nearly a year, families in the Columbia River Gorge area of the Pacific Northwest and in the Delaware River Valley of the Northeast have been introduced to a morality play on videotape. Local residents of these areas watch in fascination and with mounting anger as the "bad guys" of the National Park Service (NPS) move citizens from their homes in order to create the Cuyahoga Valley National Recreation Area just south of Cleveland, Ohio.

"For the Good of All," the film that PBS produced for its Frontline program, has "polarized the community," reports Columbia Gorge Coalition member Chuck Williams. Rented and shown by local opponents of this potential national scenic area, Williams says, "it's been scaring people to death."

What scares people is not so much the idea that the NPS made mistakes in its land acquisition program in the Cuyahoga Valley. They fear that in creating national park units in their locales, the NPS will ignore the law of the land, which is what "For the Good of All" contends. Many residents of the Columbia Gorge and Upper Delaware who watch the film are afraid they will lose their land to the federal government through the same sort of alleged lawbreaking.

So powerful has been the impact of this interpretation on Upper Delaware audiences that normally friendly people find themselves applauding when the death of Cuyahoga Valley Superintendent William Birdsell is described in the film.

"He's polluting the ground he's buried in," growled an angry voice at the film's first Upper Delaware showing. This and similar responses have sparked countless additional showings by groups opposed to the Upper Delaware National Scenic River, including the Coalition of Concerned Citizens, whose chairman talks of "running those socialists [the NPS] out of the valley."

Adapted from the film "For All People, For All Time" by Valley Filmworks, Inc., and produced for television by Frontline, "For the Good of All" was aired nationally by the Public Broadcasting System on June 6, 1983.

The late Jessica Savitch was Frontline's reporter for the broadcast. According to Savitch, the program questions "whether a federal bureaucracy like the Park Service thwarted the will of Congress, ignored the law of the land, and overrode the rigths of individuals."

Reinforced by dramatic visuals of aggrieved landowners, the Frontline thesis is that the NPS did all of these things in creating the Cuyahoga Valley National Recreation Area in the 1970s, disrupting the very community Congress had intended to preserve.

BRINGING PARKS TO PEOPLE

The Nixon administration's decision in 1971 to "bring parks to the people" seemed just the right vehicle for meeting the recreational needs of millions of people in the industrial heartland of Ohio. Creating a national recreation area (NRA) in the small Cuyahoga Valley would meet these needs, and help residents keep at bay the housing tracts and shopping malls that were devouring both rims of the Valley.

"The Cuyahoga Valley lies between Cleveland and Akron," explained Ohio Senator Howard Metzenbaum shortly before the Senate voted to approve the Cuyahoga Valley NRA in 1974.

"Four million people lie within half-an-hour's drive. They can use the Valley in their leisure hours at a price they can afford to pay. It will be a park for Sunday outings and weekends. It will cost no more than the price of gasoline."

But would a federal recreation area for four million people—an "urban park" like Gateway NRA in New York City—unseat the growing residential community already in the Valley? At congressional hearings in 1974 few thought to address the question. In the general euphoria of creating a new park, congressmen and most residents did not fully anticipate the potential conflicts.

In order to carve out picnic areas, playfields, and hiking trails in a narrow, fifteen-mile-long valley settled with more than 700 private homes and small businesses, the NPS did have to purchase private land. It did, however, compensate residents with fair market prices and give them the option to remain in their homes after purchase.

It is the land acquisition process that *Frontline* focuses on, contending that the NPS sidestepped the law in purchasing more than 300 homes. Although the majority of homeowners were willing sellers, in purchasing homes the NPS did bring hardship to some valley residents.

"In the early days, the Corps of Engineers [working for the NPS land office] did buy a lot of homes, perhaps more than they needed," said Representative John F. Seiberling, who—as the district's congressman—has been a major supporter of the NRA.

Yet, in watching the film, many viewers are led to see NPS mistakes not as an overzealous attempt to create a new park, but as a conspiracy against valley residents and Public Law 93-555, which established the area. This interpretation comes from distortions of fact in the film:

"For the Good of All" implies that the NPS ignored the law in purchasing private property. It also downplays the fact that homeowners who sell their land to the government can remain in their homes for as long as they wish.

The film omits background material about Cuyahoga Valley families—material important to any factual presentation.

The film misrepresents the setting of the Cuyahoga Valley by concentrating on the sparsely settled, pastoral landscapes rather than presenting a balanced view of the whole exurban environment.

TRUTH AND THE LAW

It is the question of legality, seemingly documented by reams of evidence, that has made "For the Good of All" so useful to NPS opponents at Columbia Gorge and on the Upper Delaware National Scenic River.

"Sure, Congress wrote a good law for the Upper Delaware," say groups who play the videotape up and down the Delaware River Valley. "It does say the Park Service can only buy 1,450 acres of land [in a 79,000-acre river corridor]. But the Park Service broke the law at Cuyahoga, and they'll do the same thing here."

Frontline's misreading of the law leads audiences to this view. In the film, Jessica Savitch states that "scenic easement was cheaper than fee purchase. It would have preserved the community and was clearly what Congress intended." Under an ease-

ment arrangement, a landowner "could keep his house and become a part of the park if he promised not to make any changes to his property."

The film does seem to clarify this point by adding, "The law said fee title purchase [complete acquisition by the government] should be used only in special circumstances." Unfortunately, these circumstances are never explained.

Frontline's discussion is supported in the film by a visual of the written law itself. What is not shown is a paragraph at the bottom—Section 2(c)—that contradicts what Frontline has just been saying. The omitted section is a provision that gives the NPS authority to buy private land in fee wherever "such acquisition is necessary to fulfill the purposes of this Act."

Frontline never tells the viewer about this section. Nor does it report that in 1980, and again in 1982, federal courts in Ohio ruled that the language in Section 2(c) gives the Secretary of Interior "wide discretion" in deciding what land to purchase in fee to fulfill the purposes of the Act.

Citing this paragraph and its language, U.S. district court judges William K. Thomas (in 1980) and John M. Manos (in 1982) dimissed suits of local landowners who charged the NPS had acted illegally in buying land in fee at Cuyahoga. The judges' rulings held that the NPS had not ignored the law nor overridden the rights of individuals in buying land in the Cuyahoga Valley. Yet, Frontline cites neither of these significant legal opinions. (This past June, the Supreme Court refused to hear appeal arguments on the 1982 decision.)

Indeed, the Act makes clear that Cuyahoga Valley NRA is meant to be an urban park. The park's values will be preserved and protected "for public use and enjoyment," and for "the maintenance of needed recreational open space necessary to the urban environment." There is not a word in the Act's statement of purpose about use and enjoyment or about "preserving the community." Frontline makes two other erroneous allegations.

Frontline: "The park superintendent was supposed to draw up a detailed plan of land acquisition and make it available to the public according to the congressional act that created the park." But he didn't do this says Savitch, so "the public was kept in the dark . . . deprived of their legal right to know the intentions of the Park Service."

Although the law requires the Secretary to develop and transmit to Congress a detailed plan including the park's annual acquisition program, Congress said nothing about submitting the plan to the public. As Judge Thomas noted in 1980: "Significantly, this language indicates the final master plan is prepared for the benefit of Congress."

It might have been desirable to submit a detailed land acquisition plan to all of the concerned residents; but, contrary to Frontline's allegation, it was not required by the congressional act that created the park. With the establishment of the park, however, the NPS did hold eighteen public hearings on the master plan. Frontline did not report this fact.

Frontline: "What they were trying to create was a wildeness park where every tree and flower and animal would be protected by federal law."

For anyone who has seen the real Cuyahoga Valley—and not just the idealized, pastoral scene presented by Frontline—this assertion does not fit the facts. Cuyahoga Valley NRA includes the pastoral scenes shown in the television program; but the park is also crisscrossed by huge power lines, a railroad, and interstate freeways. The Cuyahoga Valley does not qualify as a wildeness under anyone's definition, nor was the National Park Service instructed to create one.

William Birdsell, the much-maligned superintendent, stated the matter accuratly during a segment of the movie: "The law is very clear. It says that we are to establish a national recreation area to meet the needs of urban recreation in the metropolitan area."

PROFIT AND LOSS

While the pain and sense of loss of some Cuyahoga families—including those protrayed by Frontline—were very real, the film presents a highly selective picture.

In a 1979 questionnaire, administered in the Cuyahoga Valley by the Institue of Liberty and Community of Concord in Vermont, residents were asked, "If you have conveyed fee title of your property to the federal government, did you do so, in part, because you felt threatened with condemnation?" A startling 68 percent answered "no."

In a 1978 interview, Birdsell contended that "the majority of people for our first two years of land acquisition were people who came to us and offered their property for sale, and were anxious for us to purchase their property as soon as possible." In addition, 55 percent of the people who sold their residences to the federal government opted to retain use of these properties.

The Institute of Liberty also asked, "If you had a choice to make over again, what option would you choose now?" Only 15 percent of those who had sold and moved away indicted they would "arrange a scenic easement." The rest said they would still sell their land.

"Had we interviewed 'pleased sellers' we would have diverted attention away from an acknowledged minority," wrote NBC television producer James Gannon to the Akron Beacon Journal in January 1980. Since Gannon had just broadcast a program on "Prime Time Sunday" critical of the NPS and Birdsell, his comment is striking.

Was an entire "small community" pitted against a "large federal bureaucracy," as Frontline implies? Or was it "an acknowledged minority"? Since Frontline only puts the park's local opponents on the screen, the viewer never gets a balanced view by hearing from those—possibly a majority—who were "willing sellers."

"Before the park," says Frontline, "Leonard Stein-Sapir had hoped his children would grow up here." But with Stein-Sapir, one of five valley families highlighted in the film, salient facts are kept off-camera, just as they were in the discussion of the law that created the park.

According to land records, the S&F Trading Company—in which Stein-Sapir was part owner—acquired 72.2 acres of land in the Cuyahoga Valley at approximately the time the park was authorized. S&F Trading then effected a paper subdivision of 66.95 acres of undeveloped land—divided into eleven parcels. In November 1978, the subdivided land was sold to the government for a profit in excess of $100,000.

The stories of Bob Lindley and Burrell Tonkin are similarly truncated in "For the Good of All." Lindley, who is shown milking a cow and who is taken by many viewers to be a working dairy farmer, actually had only eight acres of land.

Since, like some other valley residents, he worked at an Akron factory, the land appraiser was probably correct in classifying his farming as a hobby. Frontline, however, never mentions that farming was not Lindley's livelihood.

One of the most sympathetic persons in the movie is Burrell Tonkin, who "before the park . . . was the local handyman." Tonkin was that; but mainly, he repaired Volkswagens, and had a junkyard that even some neighbors considered an eyesore. It might have added a touch of reality if Frontline had shown the junkyard, however messy, and other reminders of Tonkin's auto repair business.

THE WILDS OF EXURBIA

Cuyahoga Valley NRA does have meadows, rocky trails and stands of trees scattered throughout its boundaries. The area also has reminders of a less bucolic world: power lines, mined-out quarries, two interstate highways bridging the valley, a large sewer plant at the park's southern boundary, and encroaching suburban subdevelopments.

Little of the development that encroaches into the NRA was captured by the film's cameras, which had eyes mainly for the vestiges of rural America left in the valley. In fact, part of the park's story was successful effort by the NPS—and especially by Birdsell—to block additional high-voltage power lines from gaining right-of-way through the valley.

Even newspaper reporter Peter Almond, a strong NPS critic who appears in that role in the film, wrote in a 1980 newspaper article that the NPS had kept developers out, which he called a "major achievement."

THE POWER TO PERSUADE

"The problem with it is that it's a public television film," complained Columbia Gorge resident Chuck Williams. "That gives it standing and credibility with people who'd normally shrug it off if it appeared on commercial television.

" 'It must be true if it's a public television documentary.' That's the response of everyone. It's shown constantly our here. And it's used as evidence that the feds will violate the law even if the law's written to preserve the community."

On the Upper Delaware National Scenic River, where Congress truly wrote a law to "preserve the community," and where the NPS has been trying to cooperate with local governments in developing a management plan, the movie has been used to buttress arguments that "it's all a smoke screen. They'll buy you out anyhow."

Used in this fashion, "For the Good of All" has helped enlist hundreds of residents in a movement to deauthorize the scenic river. So far, approximately 2,000 local residents have signed petitions requesting Congress to repeal the law that authorizes the Upper Delaware park area.

Two filmmakers "documented" the story of the Cuyahoga Valley, Jessica Savitch informs us in the film's introduction, and maybe that word is the key to winning our trust. As a public television offering, the film's allegations gain legitimacy in the public eye. Whatever the reason, the film's power to move audiences and turn them against the NPS has been demonstrated at dozens of local showings.

Viewers come away with the clear impression that the NPS illegally forced people to move out of Cuyahoga Valley. Yet, the courts have repeatedly ruled that NPS actions were consistent with the law.

NPS opponents across the country are using the film—and its one-sided views—as a scare tactic, stirring up misapprehensions and violence among local residents. Unfortunately, this flawed perception of the Cuyahoga Valley NRA will be used again and again to thwart federal land-protection efforts by painting the NPS as a cadre of devious lawbreakers.

A former teacher at Hood College in Maryland, Wesely served on the advisory council of the C&O Canal National Historical Park and still serves as director of the Potomac River Trails Council.●

COMMUNICATION FROM CHAIRMAN OF COMMITTEE ON THE BUDGET REGARDING CURRENT LEVEL OF SPENDING AND REVENUES FOR FISCAL YEAR 1984

(Mr. JONES of Oklahoma asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. JONES of Oklahoma. Mr. Speaker, pursuant to the procedures of the Committee on the Budget and section 311(b) of the Congressional Budget Act of 1974, I am submitting to the RECORD a letter to the Speaker advising him of the current level of spending and revenues for fiscal year 1984.

COMMITTEE ON THE BUDGET,
Washington, DC, October 3, 1984.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker, House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: On January 30, 1976, the Committee on the Budget outlined the procedure which it had adopted in connection with its responsibilities under Section 311 of the Congressional Budget Act of 1974 to provide estimates of the current level of revenues and spending.

Pursuant to Committee Rule 10, I am herewith transmitting the status report under H. Con. Res. 280, the First Concurrent Resolution on the Budget for Fiscal Year 1985. This report reflects the adopted budget resolution of October 1, 1984, and the current CBO estimates of budget authority, outlays, and revenues.

As with last year, the procedural situation with regard to the spending ceiling is affected this year by Section 4(b) of H. Con. Res. 280. Enforcement against possible breaches of the spending ceiling under Section 311(a) of the Budget Act will not apply where a measure would not cause a committee to exceed its "appropriate allocation" made pursuant to Section 302(a) of the Budget Act. In the House, the appropriate 302(a) allocation includes "new discretionary budget authority" and "new entitlement authority" only. It should be noted that under this procedure neither the total level of outlays nor a committee's outlay allocation is considered. This exception is only provided because an automatic budget resolution is in effect and will cease to apply if Congress revises the budget resolution for fiscal year 1985.

The intent of the Section 302(a) "discretionary budget authority" and "new entitlement authority" subceiling provided by Section 4(b) of the resolution is to protect a committee that has stayed within its spending allocation—discretionary budget authority and new entitlement authority—from points of order if the total spending ceiling has been breached for reasons outside of its control. The 302(a) allocations to House committees made pursuant to the conference report on H. Con. Res. 280 were printed in the Congressional Record, September 25, 1984, H. 10190 (H. Rept. 98-1079, page 32).

The attached tables compare actual legislation to each committee's 302(a) allocation of discretionary budget authority and of new entitlement authority.

With best wishes,

Sincerely,

JAMES R. JONES, *Chairman.*

FISCAL YEAR 1985 BUDGET AUTHORITY—COMPARISON OF CURRENT LEVEL AND BUDGET RESOLUTION ALLOCATION BY COMMITTEE

[In millions of dollars]

House Committee[1]	Current level budget authority
Total current level	−393,807
Appropriations Committee discretionary	(−392,249)

CONGRESSIONAL BUDGET OFFICE,
Washington, DC, October 3, 1984.

Hon. JAMES R. JONES,
Chairman, Committee on the Budget, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to section 308(b) and in aid of section 311(b) of the Congressional Budget Act, this letter and supporting detail provide an up-to-date tabulation of the current levels of new budget authority, estimated outlays and estimated revenues in comparison with the appropriate levels for those items contained in the most recently agreed to concurrent resolution on the 1985 budget (H. Con. Res. 280). This report for fiscal year 1985 is tabulated as of close of business, October 2, 1984, and is based on our estimates of budget authority, outlays, and revenues using the assumptions and estimates consistent with H. Con. Res. 280.

These totals include estimates for all legislation that has cleared the Congress through October 2, 1984.

[In millions of dollars]

RECESS

The SPEAKER pro tempore. The Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 5 o'clock and 15 minutes p.m.,) the House stood in recess subject to the call of the Chair.

□ 1750

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore [Mr. FOLEY] at 5 o'clock and 53 minutes.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Chirdon, one of his secretaries.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment a joint resolution of the House of the following titles:

H.J. Res. 659. Joint Resolution making further continuing appropriations for fiscal year 1985.

FOURTEENTH ANNUAL REPORT ON HAZARDOUS MATERIALS TRANSPORTATION—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore (Mr. FOLEY) laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on Energy and Commerce, the Committee on Public Works and Transportation, and the Committee on Merchant Marine and Fisheries:

(For message, see proceedings of the Senate of today, Friday, October 5, 1984.)

CONFERENCE REPORT ON S. 2616

Mr. DINGELL submitted the following conference report and statement on the bill (S. 2616) to extend the Adolescent Family Life Demonstration program:

CONFERENCE REPORT (H. REPT. No. 98-1154)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2616) to extend the Adolescent Family Life Demonstration program, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

That whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or a repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act.

SEC. 2. (a) Section 2010(a) (42 U.S.C. 300z-9(a)) is amended by striking out "and" after "1983," and by inserting before the period a comma and "and $30,000,000 for the fiscal year ending September 30, 1985".

(b) Section 2001(a)(5) (42 U.S.C. 300z(a)(5)) is amended to read as follows:

"(5) pregnancy and childbirth among unmarried adolescents, particularly young adolescents, often results in severe adverse health, social, and economic consequences including: a higher percentage of pregnancy and childbirth complications; a higher incidence of low birth weight babies; a higher infant mortality and morbidity; a greater likelihood that an adolescent marriage will end in divorce; a decreased likelihood of completing schooling; and higher risks of unemployment and welfare dependency; and therefore, education, training, and job research services are important for adolescent parents;".

(c) Section 2001(b)(3) (42 U.S.C. 300z(b)(3)) is amended by inserting "both" before "for pregnant adolescents" in the matter preceding subparagraph (A).

(d) Section 2002(a)(4)(H) (42 U.S.C. 300z-1(a)(4)(H) is amended by striking out "and referral to such services".

(e) Section 2008(g) (42 U.S.C. 300z-7(g)) is repealed.

SEC. 3. (a) Section 1001(c) (42 U.S.C. 300(c)) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "and $158,400,000 for the fiscal year ending September 30, 1985".

(b) Section 1003(b) (42 U.S.C. 300a-1(b)) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "and $3,500,000 for the fiscal year ending September 30, 1985".

(c) Section 1005(b) (42 U.S.C. 300a-3(b)) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "and $700,000 for the fiscal year ending September 30, 1985".

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title of the bill and agree to the same.

JOHN D. DINGELL,
JAMES H. SCHEUER,
HENRY A. WAXMAN,
JAMES T. BROYHILL,
EDWARD MADIGAN,
Managers on the Part of the House.

ORRIN HATCH,
JEREMIAH DENTON,
EDWARD M. KENNEDY,
CHRIS DODD,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2616) to revise and extend the Adolescent Family Life Demonstration Program, and for other purposes submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommend in the accompanying conference report:

The House amendment struck out all of the text of the Senate bill and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The provisions of the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

The conference agreement contains the Senate provisions with an amendment revising and extending the authorities for the Adolescent Family Life Act under Title XX of the Public Health Service Act. The conference agreement extends this program for one year. The conference agreement further contains a one-year reauthorization of the Federal family planning programs authorized under Title X of the Public Health Service Act.

It is the intention of the conferees that the reports filed to accompany H.R. 5600 and S. 2616 not be considered as legislative history for the purpose of interpreting either this conference agreement or the intention of the Congress with regard to the Federal family planning authority under Title X of the Public Health Service Act or the Adolescent Family Life Act. The confer-

ees note that in reaching this conference agreement, they have not addressed many of the difficult issues that surround both of these programs. Therefore, the conferees note their intention to examine these issues in comprehensive and balanced hearings during the 99th Congress.

JOHN D. DINGELL,
JAMES H. SCHEUER,
HENRY A. WAXMAN,
JAMES T. BROYHILL,
EDWARD MADIGAN,
Managers on the Part of the House.

ORRIN HATCH,
JEREMIAH DENTON,
EDWARD M. KENNEDY,
CHRIS DODD,
Managers on the Part of the Senate.

CONFERENCE REPORT ON S. 540

Mr. DINGELL submitted the following conference report and statement on the bill (S. 540) to amend the Public Health Service Act to establish a National Institute of Arthritis and Musculoskeletal and Skin Diseases, and for other purposes:

CONFERENCE REPORT (H. REPT. No. 98-1155)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 540) to amend the Public Health Service Act to establish a National Institute of Arthritis and Musculoskeletal and Skin Diseases, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

SHORT TITLE; REFERENCE TO ACT; AND TABLE OF CONTENTS

SECTION 1. (a) This Act may be cited as the "Health Research Extension Act of 1984".

(b) Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be a reference to a section or other provision of the Public Health Service Act.

REVISION OF TITLE IV OF THE PUBLIC HEALTH SERVICE ACT

SEC. 2. Title IV of the Public Health Service Act is amended to read as follows:

"TITLE IV—NATIONAL RESEARCH INSTITUTES

"PART A—NATIONAL INSTITUTES OF HEALTH

"ORGANIZATION OF NIH

SEC. 401. (a) The National Institutes of Health is an agency of the Service.

"(b)(1) The following national research institutes are agencies of the National Institutes of Health:

"(A) The National Cancer Institute.

"(B) The National Heart, Lung, and Blood Institute.

"(C) The National Institute of Arthritis and Musculoskeletal and Skin Diseases.

"(D) The National Institute of Diabetes and Digestive and Kidney Diseases.

"(E) The National Institute on Aging.

"(F) The National Institute of Allergy and Infectious Diseases.

"(G) The National Institute of Child Health and Human Development.

"(H) The National Institute of Dental Research.

"(I) The National Eye Institute.

"(J) The National Institute of Neurological and Communicative Disorders and Stroke.

"(K) The National Institute of General Medical Sciences.

"(L) The National Institute of Environmental Health Science.

"(M) The National Institute of Nursing.

"(2) The following entities are agencies of the National Institutes of Health:

"(A) The National Library of Medicine.

"(B) The Division of Research Resources.

"(C) The John E. Fogarty International Center for Advanced Study in the Health Sciences.

"(3)(A) The Secretary may establish in the National Institute of Health one or more additional national research institutes to conduct and support research, training, health information, and related programs relating to any particular disease or groups of diseases or any other aspect of human health if—

"(i) The Secretary determines that an additional institute is necessary to carry out such activities; and

"(ii) the additional institute is not established before the expiration of 180 days after the Secretary has provided the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate written notice of the determination, described in clause (i), made with respect to the institute.

"(B) The Secretary may reorganize the functions of any national research institute and may abolish any national research institute if the Secretary determines that the institute is no longer required. A reorganization or abolition may not take effect under this subparagraph before the expiration of 180 days after the Secretary has provided the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate written notice of the reorganization or abolition.

"(C) For purposes of this title, the term 'national research institute' means a national research institute referred to in subsection (b)(1) or established under subsection (b)(3).

"APPOINTMENT AND AUTHORITY OF DIRECTOR OF NIH

"SEC. 402. (a) The National Institutes of Health shall be headed by the Director of the National Institutes of Health (hereinafter in this title referred to as the 'Director of NIH') who shall be appointed by the President by and with the advice and consent of the Senate. The Director of NIH shall perform functions as provided under subsection (b) and as the Secretary may otherwise prescribe.

"(b) In carrying out the purposes of section 301, the Secretary, acting through the Director of NIH—

"(1) shall be responsible for the overall direction of the National Institutes of Health and for the establishment and implementation of general policies respecting the management and operation of programs and activities within the National Institutes of Health;

"(2) shall be coordinate and oversee the operation of the national research institutes and other administrative entities within the National Institutes of Health;

"(3) shall assure that research at the National Institutes of Health is subject to review in accordance with section 490(b);

"(4) for the national research institutes and administrative entities within the National Institutes of Health—

"(A) may—

"(i) acquire and construct, and

"(ii) improve, repair, operate, and maintain, laboratories, other research facilities, other facilities, equipment, and other real or personal property (including patents), and

"(B) may acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise through the Administrator of General Services, buildings or parts of buildings in the District of Columbia or communities located adjacent to the District of Columbia for use for a period not to exceed ten years;

"(5) may secure resources for research conducted by or through the National Institutes of Health;

"(6) may, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, establish such technical and scientific peer review groups as are needed to carry out the requirements of this title and appoint and pay the members of such groups, except that officers and employees of the United States shall not receive additional compensation for service on such groups;

"(7) may secure for the National Institutes of Health consultation services and advice of persons from the United States or abroad;

"(8) may use, with their consent, the services, equipment, personnel, information, and facilities of other Federal, State, or local public agencies, with or without reimbursement therefor;

"(9) may, for purposes of study, admit and treat at facilities of the National Institutes of Health individuals not otherwise eligible for such treatment;

"(10) may accept voluntary and uncompensated services; and

"(11) may perform such other administrative functions as the Secretary determines are needed to carry out effectively this title.

The Federal Advisory Committee Act shall not apply to the duration of a peer review group appointed under paragraph (6), and the Office of Management and Budget shall not exercise any authority under such Act with respect to any such group.

"(c) The Director of NIH may make available to individuals and entities, for biomedical and behavioral research, substances and living organisms. Such substances and organisms shall be made available under such terms and conditions (including payment of them) as the Secretary determines appropriate.

"(d)(1) The Director of NIH may obtain (in accordance with section 3109 of title 5, United States Code, but without regard to the limitation in such section on the number of days or the period of service) the services of not more than two hundred experts or consultants, with scientific or other professional qualifications, for the National Institutes of Health.

"(2)(A) Except as provided in subparagraph (B), experts and consultants whose services are obtained under paragraph (1) shall be paid or reimbursed, in accordance with title 5, United States Code, for their travel and other expenses associated with their assignment.

"(B) Expenses specified in subparagraph (A) shall not be allowed in connection with the assignment of an expert or consultant whose services are obtained under paragraph (1) unless the expert or consultant has agreed in writing to complete the entire period of the assignment or one year of the assignment, whichever is shorter, unless separated or reassigned for reasons which are beyond the control of the expert or consultant and which are acceptable to the Secretary. If the expert or consultant violates the agreement, the money spent by the United States for such expenses is recoverable from the expert or consultant as a debt due the United States.

"(e) The Director of NIH shall—

"(1) advise the agencies of the National Institutes of Health on medical applications of research;

"(2) coordinate, review, and facilitate the systematic identification and evaluation of, clinically relevant information from research conducted by or through the national research institutes;

"(3) promote the effective transfer of the information described in paragraph (2) to the health care community and to entities that require such information; and

"(4) monitor the effectiveness of the activities described in paragraph (3).

"(f) There shall be in the National Institutes of Health an Associate Director for Prevention. The Director of NIH shall delegate to the Associate Director for Prevention the functions of the Director relating to the promotion of the disease prevention research programs of the national research institutes and the coordination of such programs among the national research institutes and between the national research institutes and other public and private entities. The Associate Director shall annually report to the Director of NIH on the prevention activities undertaken by the Associate Director. The report shall include a detailed statement of the expenditures made for the activities reported on and the personnel used in connection with such activities.

"REPORT OF DIRECTOR OF NIH

"SEC. 403. The Secretary shall transmit to the President and to the Congress a biennial report which shall be prepared by the Director of NIH and which shall consist of—

"(1) a description of the activities carried out through the National Institutes of Health and the policies respecting the pro-

grams of the National Institutes of Health and such recommendations respecting such policies as the Secretary deems appropriate;

"(2) a description of the activities undertaken to improve grants and contracting accountability, and peer review procedures of the National Institutes of Health and the national research institutes;

"(3) the reports made by the Associate Director for Prevention under section 402(f); and

"(4) the biennial reports of the Directors of each of the national research institutes.

The first report under this section shall be submitted not later than December 30, 1985, and shall relate to the fiscal-year period ending on the preceding September 30. Each subsequent report shall be submitted not later than 90 days after the two-fiscal-year period for which the report is to be submitted.

"PART B—GENERAL PROVISIONS RESPECTING NATIONAL RESEARCH INSTITUTES

"APPOINTMENT AND AUTHORITY OF THE DIRECTORS OF THE NATIONAL RESEARCH INSTITUTES

"Sec. 405. (a) The Director of the National Cancer Institute shall be appointed by the President, and the Directors of the other national research institutes shall be appointed by the Secretary.

"(b)(1) In carrying out the purposes of section 301 with respect to the human disease or disorder or other aspect of human health for which the national research institutes were established, the Secretary, acting through the Director of each national research institute—

"(A) shall encourage and support research, investigations, experiments, demonstrations, and studies in the health sciences related to—

"(i) the maintenance of health,

"(ii) the detection, diagnosis, treatment, and prevention of human diseases and other disorders,

"(iii) the rehabilitation of individuals with human diseases, disorders, and disabilities, and

"(iv) the expansion of knowledge of the processes underlying human diseases, disorders, and disabilities, the processes underlying the normal and pathological functioning of the body and its organ systems, and the processes underlying the interactions between the human organism and the environment;

"(B) may, subject to the review prescribed under section 490(b) and advisory council review prescribed by section 406(a)(3)(A)(i), conduct the research, investigations, experiments, demonstrations, and studies referred to in subparagraph (A);

"(C) may conduct and support research training (i) for which fellowship support is not provided under section 485, and (ii) which is not residency training of physicians or other health professionals;

"(D) may develop, implement, and support demonstrations and programs for the application of the results of the activities of the institute to clinical practice and disease prevention activities;

"(E) may develop, conduct, and support public and professional education and information programs;

"(F) may secure, develop and maintain, distribute, and support the development and maintenance of resources needed for research;

"(G) may make available the facilities of the institutes to appropriate entities and individuals engaged in research activities and cooperate with and assist Federal and State agencies charged with protecting the public health;

"(H) may accept unconditional gifts made to the institutes for their activities, and, in the case of gifts of a value in excess of $50,000, establish suitable memorials to the donor;

"(I) may secure for the institutes consultation services and advice of persons from the United States or abroad;

"(J) may use, with their consent, the services, equipment, personnel, information, and facilities of other Federal, State, or local public agencies, with or without reimbursement therefor;

"(K) may accept voluntary and uncompensated services; and

"(L) may perform such other functions as the Secretary determines are needed to carry out effectively the purposes of the institutes.

The indemnification provisions of section 2354, title 10, United States Code, shall apply with respect to contracts entered into under this subsection and section 402(b).

"(2) Support for an activity or program under this subsection may be provided through grants, contracts, and cooperative agreements. The Secretary, acting through the Director of each national research institute—

"(A) may approve a contract for research or training only if a peer review group authorized by regulations under section 490 has recommended approval of the contract; and

"(B) may approve grants and cooperative agreements under paragraph (1) for research or training, except that—

"(i) if the direct cost of the grant or cooperative agreement to be approved does not exceed $50,000, such grant or cooperative agreement may be approved only after appropriate technical and scientific review in accordance with section 490, and

"(ii) if the direct cost of the grant, or cooperative agreement to be approved exceeds $50,000, such grant or cooperative agreement may be approved only after appropriate technical and scientific review in accordance with section 490 and recommendation for approval by the advisory council to the institute.

"(c) In carrying out subsection (b), each Director of a national research institute shall—

"(1) coordinate, as appropriate, the activities of the institute with similar programs of other public and private entities; and

"(2) cooperate with the Directors of other national research institutes in the development and support of multidisciplinary research and research that involves more than one institute.

"ADVISORY COUNCILS

"Sec. 406. (a)(1) Except as provided in subsection (h), the Secretary shall appoint an advisory council for each national research institute which (A) shall advise, assist, consult with, and make recommendations to the Secretary and the Director of the institute on matters related to the activities carried out through the institute and the policies respecting such activities, and (B) shall carry out the special functions prescribed by part C.

"(2) Each advisory council for a national research institute may recommend to the Secretary acceptance, in accordance with section 2101, of conditional gifts for study, investigation, or research respecting the disease, diseases, or other aspect of human health with respect to which the institute was established, for the acquisition of grounds, or for the construction, equipping, or maintenance of facilities for the institute.

"(3) Each advisory council for a national research institute—

"(A)(i) may on the basis of the materials provided under section 490(b)(2) respecting research conducted at the institute, make recommendations to the Director of the institute respecting such research,

"(ii) may review applications for grants and cooperative agreements for research or training and for which advisory council approval is required under section 405(b)(2) and recommended for approval applications for projects which show promise of making valuable contributions to human knowledge, and

(iii) may review any grant, contract, or cooperative agreement proposed to be made or entered into;

"(B) may collect, by correspondence or by personal investigation, information as to studies which are being carried on in the United States or any other country as to the disease, disorders, or other aspect of human health with respect to which the institute was established and with the approval of the Director of the institute make available such information through appropriate publications for the benefit of public and private health entities and health professions personnel and scientists and for the information of the general public; and

"(C) may appoint subcommittees and convene workshops and conferences.

"(b)(1) Each advisory council shall consist of ex officio members and not more than eighteen members appointed by the Secretary. The ex officio members of an advisory council shall consist of the Secretary, the Director of NIH, the Director of the national research institute for which the council is established, the Chief Medical Officer of the Veterans' Administration, the Assistant Secretary of Defense for Health Affairs, or the designees of such persons and such additional officers or employees of the United States as the Secretary deems necessary for the advisory council to effectively carry out its functions. The members of an advisory council who are not ex officio members shall be appointed as follows:

"(A) Two thirds of the members shall be appointed from among the leading representatives of the health and scientific disciplines (including public health and the behavioral or social sciences) relevant to the activities of the institute for which the advisory council is established.

"(B) At least one third of the members shall be appointed by the Secretary from the general public and shall include leaders in fields of public policy, law, health policy, economics, and management.

"(2) Members of an advisory council who are officers or employees of the United States shall not receive any compensation for service on the advisory council. The other members of an advisory council shall receive, for each day (including traveltime) they are engaged in the performance of the functions of the advisory council, compensation at rates not to exceed the daily equivalent of the annual rate in effect for grade GS-18 of the General Schedule.

"(c) The term of office of an appointed member of an advisory council is four years, except that any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term and the Secretary shall make appointments to an advisory council in such a manner as to ensure that the terms of the members do not all expire in the same year. A member may

serve after the expiration of the member's term until a successor has taken office. A member who has been appointed for a term of four years may not be reappointed to an advisory council before two years from the date of expiration of such term of office. If a vacancy occurs in the advisory council among the appointed members, the Secretary shall make an appointment to fill the vacancy within ninety days from the date the vacancy occurs.

"(d) The chairman of an advisory council shall be selected by the Secretary from among the appointed members, except that the Secretary may select the Director of the institute for which the advisory council is established to be the chairman of the advisory council. The term of office of the chairman shall be two years.

"(e) The advisory council shall meet at the call of the chairman or upon the request of the Director of the national research institute for which it was established, but at least three times each fiscal year. The location of the meetings of each advisory council is subject to the approval of the Director of the institute for which the council was established.

"(f) The Director of the national research institute for which an advisory council is established shall designate a member of the staff of the institute to serve as the executive secretary of the avisory council. The Director of such institute shall make available to the avisory council such staff, information, and other assistance as it may require to carry out its functions. The Director of such institute shall provide orientation and training for new members of the advisory council to provide them with such information and training as may be appropriate for their effective participation in the functions of the advisory council.

"(g) Each advisory council may prepare, for inclusion in the biennial report made under section 407, (1) comments respecting the activities of the advisory council in the fiscal years respecting which the report is prepared, (2) comments on the progress of the national research institute for which it was established in meeting its objectives, and (3) recommendations respecting the future directions and program and policy emphasis of the institute.

"(h)(1) Except as provided in paragraph (2), this section does not terminate the membership of any advisory council to a national research institute which was in existence on the date of the enactment of the Health Research Extension Act of 1984. After such date—

"(A) the Secretary shall make appointments to each such advisory council in such a manner as to bring about as soon as practicable the composition for such council prescribed by this section,

"(B) each advisory council shall organize itself in accordance with this section and exercise the functions prescribed by this section, and

"(C) the Director of each national research institute shall perform for such advisory council the functions prescribed by this section.

"(2)(A) This section applies to the National Cancer Advisory Board, the advisory council for the National Cancer Institute, except that (i) appointments to such Board shall be made by the President, (ii) of the members appointed to the Board not less than five members shall be individuals knowledgeable in environmental carcinogenesis (including carcinogenesis involving occupational and dietary factors), (iii) the chairman of the Board shall be selected by the President from the appointed members and shall serve as chairman for a term of two years, (iv) the ex officio members of the Board shall be the Secretary, the Director of the Office of Science and Technology Policy, the Director of NIH, the chief medical officer of the Veterans' Administration, the Director of the National Institute for Occupational Safety and Health, the Director of the National Institute of Environmental Health Sciences, the Secretary of Labor, the Commissioner of the Food and Drug Administration, the Administrator of the Environmental Protection Agency, the Chairman of the Consumer Product Safety Commission or the designees of such persons, and a medical officer designated by the Secretary of Defense, and (v) the Board shall meet at least four times each fiscal year.

"(B) This section applies to the advisory council to the National Heart, Lung, and Blood Institute, except that the advisory council shall meet at least four times each fiscal year.

"BIENNIAL REPORT

"SEC. 407. The Director of each national research institute, after consultation with the advisory council to the institute, shall prepare for inclusion in the biennial report made under section 403 a biennial report which shall consist of a description of the activities of the institute and program policies of the Director of the institute in the fiscal years respecting which the report is prepared. The Director of each institute shall provide the advisory council of the institute an opportunity for the submission of the written comments referred to in section 406(g).

"AUTHORIZATIONS OF APPROPRIATIONS

"SEC. 408. (a) In addition to amounts otherwise authorized to be appropriated under this title for the National Institutes of Health, the following amounts are authorized to be appropriated:

"(1)(A) For the National Cancer Institute (other than its programs under section 412), there are authorized to be appropriated $1,180,000,000 for fiscal year 1985 and $1,270,000,000 for fiscal year 1986.

"(B) There are authorized to be appropriated for the programs under section 412 $68,000,000 for fiscal year 1985 and $75,000,000 for fiscal year 1986.

"(2)(A) For the National Heart, Lung, and Blood Institute (other than its programs under section 419), there are authorized to be appropriated $744,000,000 for fiscal year 1985 and $788,000,000 for fiscal year 1986. Of the sums appropriated under this subsection for any fiscal year, not less than 15 per centum of such sums shall be reserved for programs respecting diseases of the lung and not less than 15 per centum of such sums shall be reserved for programs respecting blood diseases and blood resources.

"(B) There are authorized to be appropriated for the programs under section 419, there are authorized to be appropriated $76,000,000 for fiscal year 1985 and $82,000,000 for fiscal year 1986.

"(b)(1) Except as provided in paragraph (2), the sum of the amounts appropriated for any fiscal year for administrative expenses of the National Institutes of Health and its agencies may not exceed an amount which is 5.5 percent of the total amount appropriated for such fiscal year for the National Institutes of Health and its agencies to which this paragraph applies.

"(2) Paragraph (1) does not apply to the National Library of Medicine, the John E. Fogarty International Center for Advanced Study in the Health Sciences, and the Office of Medical Applications of Research.

"(3) For purposes of paragraph (1), the term 'administrative expenses' means expenses incurred for the support of activities relevant to the award of grants and contracts for research and expenses incurred for the administrative management and scientific direction of programs and activities of the National Institutes of Health and its agencies.

"PART C—SPECIFIC PROVISIONS RESPECTING NATIONAL RESEARCH INSTITUTES

"SUBPART 1—NATIONAL CANCER INSTITUTE

"PURPOSE OF INSTITUTE

"SEC. 410. The general purpose of the National Cancer Institute (hereinafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and related programs with respect to the cause, diagnosis, prevention, and treatment of cancer and the continuing care of cancer patients and the families of cancer patients.

"NATIONAL CANCER PROGRAM

"SEC. 411. The national cancer program shall consist of (1) an expanded, intensified, and coordinated cancer research program encompassing the research programs conducted and supported by the Institute and the related research programs of the other national research institutes and including an expanded and intensified research program for the prevention of cancer caused by occupational or environmental exposure to carcinogens, and (2) the other programs and activities of the Institute.

"CANCER CONTROL PROGRAMS

"SEC. 412. The Director of the Institute shall establish and support demonstration, education, and other programs for the detection, diagnosis, prevention, and treatment of cancer and for rehabilitation and counseling respecting cancer. Programs established and supported under this section shall include—

"(1) locally initiated education and demonstration programs (and regional networks of such programs) to transmit research results and to disseminate information respecting—

"(A) the detection, diagnosis, prevention, and treatment of cancer,

"(B) the continuing care of cancer patients and the families of cancer patients, and

"(C) rehabilitation and counseling respecting cancer,

to physicians and other health professionals who provide care to individuals who have cancer;

"(2) the demonstration of and the education of students of the health professions and health professionals in—

"(A) effective methods for the prevention and early detection of cancer and the identification of individuals with a high risk of developing cancer; and

"(B) improved methods of patient referral to appropriate centers for early diagnosis and treatment of cancer; and

"(3) the demonstration of new methods for the dissemination of information to the general public concerning the prevention, early detection, diagnosis, and treatment and control of cancer and information concerning unapproved and ineffective methods, drugs, and devices for the diagnosis, prevention, treatment, and control of cancer.

"SPECIAL AUTHORITIES OF THE SECRETARY AND THE DIRECTOR

"SEC. 413. (a) The Secretary, acting through the Director of the Institute, shall establish an information and education center to collect, identify, analyze, and disseminate on a timely basis, through publications and other approporiate means, to cancer patients and their families, physicians and other health professionals, and the general public, information on cancer research, diagnosis, prevention, and treatment (including information respecting nutrition programs for cancer patients and the relationship between nutrition and cancer). The Director of the Institute may take such action as may be necessary to insure that all channels for the dissemination and exchange of scientific knowledge and information are maintained between the Institute and other scientific, medical, and biomedical disciplines and organizations nationally and internationally.

"(b) The Director of the Institute in carrying out the national cancer program—

"(1) may establish or support the large-scale production or distribution of specialized biological materials and other therapeutic substances for cancer research and set standards of safety and care for persons using such materials;

"(2) may, in consultation with the advisory council to the Institute, support (A) research in the cancer field outside the United States by highly qualified foreign nationals which can be expected to benefit the American people, (B) collaborative research involving American and foreign participants, and (C) the training of American scientists abroad and foreign scientists in the United States;

"(3) may, in consultation with the advisory council to the Institute, support appropriate programs of education (including continuing education) and training;

"(4) may encourage and coordinate cancer research by industrial concerns where such concerns evidence a particular capability for such research;

"(5) may obtain (with the approval of the advisory council to the Institute and in accordance with section 3109 of title 5, United States Code, but without regard to the limitation in such section on the number of days or the period of such service) the services of not more than one hundred and fifty-one experts or consultants who have scientific or professional qualifications;

"(6)(A) may—

"(i) in consultation with the advisory council to the Institute, acquire and construct, and

"(ii) improve, repair, operate, and maintain, such laboratories, other research facilities, equipment, and other real or personal property (including patents) as the Director deems necessary;

"(B) may make grants for new construction or renovation of facilities; and

"(C) may acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise through the Administrator of General Services, buildings or parts of buildings in the District of Columbia or communities located adjacent to the District of Columbia for the use of the Institute for a period not to exceed ten years;

"(7) may, in consultation with the advisory council to the Institute, appoint one or more advisory committees composed of such private citizens and officials of Federal, State, and local governments as he deems desirable to advise him with respect to his functions;

"(8) may, subject to section 405(b)(2), enter into such contracts, leases, cooperative agreements, or other transactions, without regard to section 3324 of title 31 of the United States Code and section 3709 of the Revised Statutes (41 U.S.C. 5), as may be necessary in the conduct of functions of the Director, with any public agency, or with any person, firm, association, corporation, or educational institution;

"(9) shall maintain and operate the International Cancer Research Data Bank, which shall collect, catalog, store, and disseminate insofar as feasible through the use of information systems accessible to the public, general practitioners, and oncologic investigators, the results of cancer research and treatment undertaken in any country for the use of any person involved in cancer research and treatment in any country; and

"(10)(A) shall prepare and submit, directly to the President for review and transmittal to Congress, an annual budget estimate (including an estimate of the number and type of personnel needs for the Institute) for the national cancer program, after reasonable opportunity for comment (but without change) by the Secretary, the Director of NIH, and the Institute's advisory council; and (B) may receive from the President and the Office of Management and Budget directly all funds appropriated by Congress for obligation and expenditure by the Institute.

"NATIONAL CANCER RESEARCH AND DEMONSTRATION CENTERS

"SEC. 414. The Director of the Institute, under policies established by the Director of NIH and after consultation with the Institute's advisory council, is authorized to enter into cooperative agreements with public or private nonprofit agencies or institutions to pay all or part of the cost of planning, establishing, or strengthening, and providing basic operating support during fiscal years 1985 and 1986 for centers for basic and clinical research into, training in, and demonstration of advanced diagnostic, prevention, and treatment methods for cancer. Federal payments under this subsection in support of such cooperative agreements may be used for (1) construction (notwithstanding any limitation under section 494), (2) staffing and other basic operating costs, including such patient care costs as are required for research, (3) training, including training for allied health professionals, continuing education for health professionals and allied health professions personnel, and information programs for the public respecting cancer, and (4) demonstration purposes. As used in this section, the term 'construction' does not include the acquisition of land, and the term 'training' does not include research training for which fellowship support may be provided under section 485. Support of a center under this section may be for a period of not to exceed five years and such period may be extended by the Director for additional periods of not more than five years each after review of the operations of such center by an appropriate scientific review group established by the Director.

"PRESIDENT'S CANCER PANEL

"SEC. 415. (a)(1) The President's Cancer Panel (hereinafter in this section referred to as the 'Panel') shall be composed of three persons appointed by the President who by virture of their training, experience, and background are exceptionally qualified to appraise the national cancer program. At least two members of the Panel shall be distinguished scientists or physicians.

"(2)(A) Members of the Panel shall be appointed for three-year terms, except that any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed shall be appointed only for the remainder of such term. If a vacancy occurs in the Panel, the President shall make an appointment to fill the vacancy not later than ninety days from the date the vacancy occurred.

"(B) The President shall designate one of the members to serve as the chairman of the Panel for a term of one year.

"(C) Members of the Panel shall each be entitled to receive the daily equivalent of the annual rate of basic pay in effect for grade GS-18 of the General Schedule for each day (including traveltime) during which they are engaged in the actual performance of duties vested in the Panel.

"(3) The Panel shall meet at the call of the chairman, but not less often than four times a year. A transcript shall be kept of the proceedings of each meeting of the Panel, and the chairman shall make such transcript available to the public.

"(b) The Panel shall monitor the development and execution of the activities of the national cancer program, and shall report directly to the President. Any delays or blockages in rapid execution of the program shall immediately be brought to the attention of the President. The Panel shall submit to the President periodic progress reports on the program and shall submit to the President, the Secretary, and the Congress an annual evaluation of the efficacy of the program and suggestions for improvements, and shall submit such other reports as the President shall direct.

"ASSOCIATE DIRECTOR FOR PREVENTION

"SEC. 416. (a)(1) There shall be in the Institute an Associate Director for Prevention to coordinate and promote the programs in the Institute in the prevention of cancer. The Associate Director shall be appointed by the Director of the Institute from individuals who because of their professional training or experience are experts in public health or preventive medicine.

"(2) The Associate Director for Prevention shall prepare for inclusion in the biennial report made under section 407 a description of the prevention activities of the Institute, including a description of the staff and resources allocated to those activities.

"SUBPART 2—NATIONAL HEART, LUNG, AND BLOOD INSTITUTE

"PURPOSE OF THE INSTITUTE

"SEC. 418. The general purpose of the National Heart, Lung, and Blood Institute (hereinafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and other programs with respect to heart, blood vessel, lung, and blood diseases and with respect to the use of blood and blood products and the management of blood resources.

"HEART, BLOOD VESSEL, LUNG, AND BLOOD DISEASE PREVENTION AND CONTROL PROGRAMS

"SEC. 419. The Director of the Institute, under policies established by the Director of NIH and after consultation with the advisory council for the Institute, shall establish programs as necessary for cooperation with other Federal health agencies, State, local, and regional public health agencies, and nonprofit private health agencies in the diagnosis, prevention, and treatment (including the provision of emergency medical services) of heart, blood vessel, lung, and blood

diseases, appropriately emphasizing the prevention, diagnosis, and treatment of such diseases of children.

"INFORMATION AND EDUCATION

"SEC. 420. The Secretary, acting through the Director of the Institute, shall collect, identify, analyze, and disseminate on a timely basis, through publications and other appropriate means, to patients, families of patients, physicians and other health professionals, and the general public, information on research, prevention, diagnosis, and treatment of heart, blood vessel, lung, and blood diseases, the maintenance of health to reduce the incidence of such diseases, and on the use of blood and blood products and the management of blood resources. In carrying out this section the Secretary shall place special emphasis upon—

"(1) the dissemination of information regarding diet and nutrition, environmental pollutants, exercise, stress, hypertension, cigarette smoking, weight control, and other factors affecting the prevention of arteriosclerosis and other cardiovascular diseases and of pulmonary and blood diseases, and

"(2) the dissemination of information designed to encourage children to adopt healthful habits respecting the risk factors related to the prevention of such diseases.

"NATIONAL HEART, BLOOD VESSEL, LUNG, AND BLOOD DISEASES AND BLOOD RESOURCES PROGRAM

"SEC. 421. (a) The National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program (hereinafter in this subpart referred to as the 'Program') may provide for—

"(1) investigation into the epidemiology, etiology, and prevention of all forms and aspects of heart, blood vessel, lung, and blood diseases, including investigations into the social, environmental, behavioral, nutritional biological, and genetic determinants and influences involved in the epidemiology, etiology, and prevention of such diseases;

"(2) studies and research into the basic biological processes and mechanisms involved in the underlying normal and abnormal heart, blood vessel, lung, and blood phenomena;

"(3) research into the development, trial, and evaluation of techniques, drugs, and devices (including computers) used in, and approaches to, the diagnosis, treatment (including the provision of emergency medical services), and prevention of heart, blood vessel, lung, and blood diseases and the rehabilitation of patients suffering from such diseases;

"(4) establishment of programs that will focus and apply scientific and technological efforts involving biological physical, and engineering sciences to all facets of heart, blood vessel, lung, and blood diseases with emphasis on refinement, development, and evaluation of technological devices that will assist, replace, or monitor vital organs and improve instrumentation for detection, diagnosis, and treatment of those diseases;

"(5) establishment of programs for the conduct and direction of field studies, large-scale testing and evaluation, and demonstration of preventive, diagnostic, therapeutic, and rehabilitative approaches to, and emergency medical services for, such diseases;

"(6) studies and research into blood diseases and blood, and into the use of blood for clinical purposes and all aspects of the management of its resources in this country, including the collection, preservation, fractionation, and distribution of it and its products;

"(7) the education (including continuing education) and training of scientists, clinical investigators, and educators, in fields and specialties (including computer sciences) requisite to the conduct of clinical programs respecting heart, blood vessel, lung, and blood diseases and blood resources;

"(8) public and professional education relating to all aspects of such diseases, including the prevention of such diseases, and the use of blood and blood products and the management of blood resources;

"(9) establishment of programs for study and research into heart, blood vessel, lung, and blood diseases of children (including cystic fibrosis, hyaline membrane, hemolytic diseases such as sickle cell anemia and Cooley's anemia, and hemophilic diseases) and for the development and demonstration of diagnostic, treatment, and preventive approaches to these diseases; and

"(10) establishment of programs for study, research, development, demonstrations and evaluation of emergency medical services for people who become critically ill in connection with heart, blood vessel, lung, or blood diseases.

The Program shall be coordinated with other national research institutes to the extent that they have responsibilities respecting such diseases and shall give special emphasis to the continued development in the Institute of programs related to the causes of stroke and to effective coordination of such programs with related stroke programs in the National Institute of Neurological and Communicative Disorders and Stroke. The Director of the Institute, with the advice of the advisory council to the Institute, shall revise annually the plan for the Program and shall carry out the Program in accordance with such plan.

"(b) In carrying out the Program, the Director of the Institute, under policies established by the Director of NIH—

"(1) may, after approval of the advisory council to the Intitute, obtain (in accordance with section 3109 of title 5, United States Code, but without regard to the limitation in such section on the number of days or the period of such service) the services of not more than one hundred experts or consultants who have scientific or professional qualifications;

"(2)(A) may—

"(i) after approval of the advisory council to the Institute, acquire and construct, and

"(ii) improve, repair, operate, alter, renovate, and maintain,

heart, blood vessel, lung, and blood disease and blood resource laboratory, research, training, and other facilities, equipment, and such other real or personal property (including patents) as the Director deems necessary;

"(B) may make grants for new construction or renovation of facilities; and

"(C) may acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise, through the Administrator of General Services, buildings or parts of buildings in the District of Columbia or communities located adjacent to the District of Columbia for the use of the Institute for a period not to exceed ten years;

"(3) subject to section 405(b)(2), may enter into such contracts, leases, cooperative agreements, or other transactions, without regard to section 3324 of title 31 of the United States Code and section 3709 of the Revised Statutes (41 U.S.C. 5), as may be necessary in the conduct of the Director's functions, with any public agency, or with any person, firm, association, corporation, or educational institutions; and

"(4) may make grants to public and nonprofit private entities to assist in meeting the cost of the care of patients in hospitals, clinics, and related facilities who are participating in research projects.

"NATIONAL RESEARCH AND DEMONSTRATION CENTERS FOR HEART, BLOOD VESSEL, LUNG, AND BLOOD DISEASES, SICKLE CELL ANEMIA, AND BLOOD RESOURCES

"SEC. 422. (a)(1) The Director of the Institute may provide, in accordance with subsection (b), for the development of—

"(A) ten centers for basic and clinical research into, training in, and demonstration of, advanced diagnostic, prevention, and treatment methods (including methods of providing emergency medical services) for heart and blood vessel diseases;

"(B) ten centers for basic and clinical research into, training in, and demonstration of, advanced diagnostic, prevention, and treatment methods (including methods of providing emergency medical services) for lung diseases (including bronchitis, emphysema, asthma, cystic fibrosis, and other lung diseases of children); and

"(C) ten centers for basic and clinical research into, training in, and demonstration of, advanced diagnostic, prevention, and treatment methods (including methods of providing emergency medical services) for blood diseases and research into blood, in the use of blood products and in the management of blood resources.

The Director of the Institute shall provide, in accordance with subsection (b), for the development of ten centers for basic and clinical research into the diagnosis, treatment, and control of sickle cell anemia.

"(2) The centers developed under paragraph (1) shall, in addition to being utilized for research, training, and demonstrations, be utilized for the following prevention programs for cardiovascular, pulmonary, and blood diseases:

"(A) Programs to develop improved methods of detecting individuals with a high risk of developing cardiovascular, pulmonary, and blood diseases.

"(B) Programs to develop improved methods of intervention against those factors which cause individuals to have a high risk of developing such diseases.

"(C) Programs to develop health professions and allied health professions personnel highly skilled in the prevention of such diseases.

"(D) Programs to develop improved methods of providing emergency medical services for persons with such diseases.

"(E) Programs of continuing education for health and allied health professionals in the diagnosis, prevention, and treatment of such diseases and the maintenance of health to reduce the incidence of such diseases and information programs for the public respecting the prevention and early diagnosis and treatment of such diseases and the maintenance of health.

"(3) The research, training, and demonstration activities carried out through any such center may relate to any one or more of the diseases referred to in paragraph (1) of this subsection.

"(b) The Director of the Institute, under policies established by the Director of NIH and after consultation with the advisory council to the Institute, may enter into cooperative agreements with public or nonprofit private agencies or institutions to pay all or part of the cost of planning, estab-

lishing, or strengthening, and providing basic operating support for existing or new centers for basic or clinical research into, training in, and demonstration of, the management of blood resources and advanced diagnostic, prevention, and treatment methods for heart, blood vessel, lung, or blood diseases. Funds paid to centers under cooperative agreements under this subsection may be used for—

"(1) construction (notwithstanding any limitation under section 494),

"(2) staffing and other basic operating costs, including such patient care costs as are required for research,

"(3) training, including training for allied health professions personnel, and

"(4) demonstration purposes.

Support of a center under this subsection may be for a period of not to exceed five years and such period may be extended by the Director for additional periods of not more than five years each after review of the operations of such center by an appropriate scientific review group established by the Director.

"(c) As used in this section, the term 'construction' does not include the acquisition of land; and the term 'training' does not include research training for which fellowship support may be provided under section 485.

"INTERAGENCY TECHNICAL COMMITTEE

"SEC. 423. (a) The Secretary shall establish an Interagency Technical Committee on Heart, Blood Vessel, Lung and Blood Diseases and Blood Resources which shall be responsible for coordinating those aspects of all Federal health programs and activities relating to heart, blood vessel, lung, and blood diseases and to blood resources to assure the adequacy and technical soundness of such programs and activities and to provide for the full communication and exchange of information necessary to maintain adequate coordination of such programs and activities.

"(b) The Director of the Institute shall serve as chairman of the Committee and the Committee shall include representation from all Federal departments and agencies whose programs involve health functions or responsibilities relevant to the functions of the Committee, as determined by the Secretary.

ASSOCIATE DIRECTOR FOR PREVENTION

"SEC. 424. (a)(1) There shall be in the Institute an Associate Director for Prevention to coordinate and promote the programs in the Institute in the prevention of heart, blood vessel, lung, and blood diseases. The Associate Director shall be appointed by the Director of the Institute from individuals who because of their professional training or experience are experts in public health or preventive medicine.

"(2) The Associate Director for Prevention shall prepare for inclusion in the biennial report made under section 407 a description of the prevention activities of the Institute, including a description of the staff and resources allocated to those activities.

"SUBPART 3—NATIONAL INSTITUTE OF DIABETES AND DIGESTIVE AND KIDNEY DISEASES

PURPOSE OF THE INSTITUTE

"SEC. 426. The general purpose of the National Institute of Diabetes and Digestive and Kidney Diseases (hereinafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and related programs with respect to diabetes mellitus and endocrine and metabolic diseases, digestive diseases and nutritional disorders, and kidney, urologic, and hematologic diseases.

"INFORMATION CLEARINGHOUSES AND DATA SYSTEMS

"SEC. 427. (a) The Director shall (1) establish the National Diabetes Data System for the collection, storage, analysis, retrieval, and dissemination of data derived from patient populations with diabetes, including, where possible, data involving general populations for the purpose of detection of individuals with a risk of developing diabetes, and (2) establish the National Diabetes Information Clearinghouse to facilitate and enhance knowledge and understanding of diabetes on the part of health professionals, patients, and the public through the effective dissemination of information.

"(b) The Director shall (1) establish the National Digestive Diseases Data System for the collection, storage, analysis, retrieval, and dissemination of data derived from patient populations with digestive diseases, including, where possible, data involving general populations for the purpose of detection of individuals with a risk of developing digestive diseases, and (2) establish the National Digestive Diseases Information Clearinghouse to facilitate and enhance knowledge and understanding of digestive diseases on the part of health professionals, patients, and the public through the effective dissemination of information.

"(c) The Director shall (1) estabish the National Kidney and Urologic Diseases Data System for the collection, storage, analysis, retrieval, and dissemination of data derived from patient populations with kidney and urologic diseases, including, where possible, data involving general populations for the purpose of detection of individuals with a risk of developing kidney and urologic diseases and (2) establish the National Kidney and Urologic Diseases Information Clearinghouse to facilitate and enhance knowledge and understanding of kidney and urologic diseases on the part of health professional, patients, and the public through the effective dissemination of information.

"DIVISION DIRECTORS FOR DIABETES, ENDOCRINOLOGY, AND METABOLIC DISEASES, DIGESTIVE DISEASES AND NUTRITION, AND KIDNEY, UROLOGIC, AND HEMATOLOGIC DISEASES

"SEC. 428. (a) In the Institute there shall be a Division Director for Diabetes, Endocrinology, and Metabolic Diseases, a Division Director for Digestive Diseases, and Nutrition, and a Division Director for Kidney, Urologioc, and Hematologic Diseases. Such Division Directors, under the supervision of the Director, shall be responsible for—

"(1) developing a coordinated plan (including recommendations for expenditures) for each of the national research institutes within the National Institutes of Health with respect to research and training concerning diabetes, endocrinology, and metabolic diseases, digestive diseases and nutrition, and kidney, urologic, and hematologic diseases;

"(2) assessing the adequacy of management approaches for the activities within such institutes concerning such diseases and developing improved approaches if needed;

"(3) monitoring and reviewing expenditures by such institutes concerning such diseases; and

"(4) identifying research opportunities concerning such diseases and recommending ways to utilize such opportunities.

The Director shall transmit to the Director of NIH the plans, recommendations, and reviews of the Associate Directors under paragraphs (1) through (4) together with such comments and recommendations as the Director of the Institute determines appropriate.

"(b) The Director of the Institute, acting through the Division Director for Kidney, Urologic, and Hematologic Diseases, the Division Director for Digestive Diseases and Nutrition, and the Division Director for Diabetes, Endocrinology, and Metabolic Diseases shall—

"(1) carry out programs of support for research and training (other than training for which National Research Service Awards may be made under section 485) in the diagnosis, prevention, and treatment of digestive diseases and nutritional disorders, diabetes mellitus, and endocrine and metabolic, kidney, urologic, and hematologic diseases, including support for training in medical schools, graduate clinical training, graduate training in epidemiology, epidemiology studies, clinical trials, and interdisciplinary research programs; and

"(2) establish programs of evaluation, planning, and dissemination of knowledge related to such research and training.

"INTERAGENCY COORDINATING COMMITTEES

"SEC. 429. a) For the purpose of—

"(1) better coordination of the research activities of all the national research institutes relating to diabetes mellitus, digestive diseases, and kidney, urologic, and hematologic diseases; and

"(2) coordinating those aspects of all Federal health programs and activities relating to such diseases to assure the adequacy and technical soundness of such programs and activities and to provide for the full communication and exchange of information necessary to maintain adequate coordination of such programs and activities; the Secretary shall establish a Diabetes Mellitus Interagency Coordinating Committee, a Digestive Diseases Interagency Coordinating Committee, and a Kidney, Urologic, and Hematologic Diseases Coordinating Committee (hereinafter in this section individually referred to as a 'Committee').

"(b) Each committee shall be composed of the Directors (or the designees) of each of the national research institutes and divisions involved in research involving the diseases with respect to which the committee is established, the Division Director of the Institute for the diseases for which the committee is established, the chief medical director (or the director's designee) of the Veterans' Administration, and a medical officer designated by the Department of Defense, and shall include representation from all other Federal departments and agencies whose programs involve health functions or responsibilities relevant to such diseases, as determined by the Secretary. Each committee shall be chaired by the Director of NIH (or his designee). Each committee shall meet at the call of the chairman, but not less often than four times a year.

"(c) Each committee shall prepare an annual report for—

"(1) the Secretary,

"(2) the Director of NIH, and

"(3) the Advisory Board established under secton 430 for the diseases for which the committee was established.)

detailing the work of the committee in the fiscal year for which the report was prepared in carrying out the coordinating activities described in paragraphs (1) and (2) of subsection (a). Such report shall be submitted not later than the one hundred and

twentieth day after the end of each fiscal year.

"ADVISORY BOARDS

"SEC. 430. (a) The Secretary shall establish in the Institute the national Diabetes Advisory Board, the National Digestive Diseases Advisory Board, and the National Kidney and Urologic Diseases Advisory Board (hereinafter in this section individually referred to as an 'Advisory Board').

"(b) Each Advisory Board shall be composed of eighteen appointed members and nonvoting, ex officio members as follows:

"(1) The Secretary shall appoint—

"(A) twelve members from individuals who are scientists, physicians, and other health professionals, who are not officers or employees of the United States, and who represent the specialties and disciplines relevant to the diseases with respect to which the Advisory Board is established; and

"(B) six members from the general public who are knowledgeable with respect to such diseases, including at least one member who is a person who suffers from such a disease and one member who is a parent of a person who suffers from such a disease.

of the appointed members at least five shall by virtue of training or experience be knowledgeable in health education, nursing, data systems, public information, or community program development.

"(2) The following shall be ex officio members of each Advisory Board: The Assistant Secretary for Health, the Director of NIH, the Director of the National Institute of Diabetes and Digestive and Kidney Diseases, the Director of the Centers for Disease Control, the chief medical director of the Veterans' Administration, the Assistant Secretry for Health Affairs of the Department of Defense (or the designees of such ex officio members), the Division Director of the National Institute of Diabetes and Digestive and Kidney Diseases for the diseases for which the Board is established, and such other officers and employees of the United States as the Secretary deems necessary for the Advisory Board to carry out its functions. In the case of the National Diabetes Advisory Board, the following shall also be ex officio members: The Director of the National Heart, Lung, and Blood Institute, the Director of the National Eye Institute, the Director of the National Institute of Child Health and Human Development, the Administrator of the Health Resources Administration, and the Administrator of the Health Services Administration (or the designees of such ex officio members).

"(c) Members of an Advisory Board who are officers or employees of the Federal Government shall serve as members of the Advisory Board without compensation in addition to that received in their regular public employment. Other members of the Board shall receive compensation at rates not to exceed the daily equivalent of the annual rate in effect for grate GS-18 of the General Schedule for each day (including traveltime) they are engaged in the performance of their duties as members of the Board.

"(d) The term of office of an appointed member of an Advisory Board is three years, except that no term of office may extend beyond the expiration of the Advisory Board. Any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term. A member may serve after the expiration of the member's term until a successor has taken office. If a vacancy occurs in an Advisory Board, the Secretary shall make an appointment to fill the vacancy not later than ninety days from the date the vacancy occurred.

"(e) The members of each Advisory Board shall select a chairman from among the appointed members.

"(f) The Secretary shall, after consultation with and consideration of the recommendations of an Advisory Board, provide the Advisory Board with an executive director and one other professional staff member. In addition, the Secretary shall, after consultation with and consideration of the recommendations of the Advisory Board, provide the Advisory Board with such additional professional staff members, such clerical staff members, and (through contracts or other arrangements) with such administrative support services and facilities, such information, and such services of consultants, as the Secretary determines are necessary for the Advisory Board to carry out its functions.

"(g) Each Advisory Board shall meet at the call of the chairman or upon request of the Director of the Institute, but not less often than four times a year.

"(h) Each Advisory Board shall—

"(1) in the case of the Advisory Boards for diabetes and digestive diseases, review and evaluate the implementation of the plan (referred to in section 433) respecting the diseases with respect to which the Advisory Board was established and periodically update the plan to ensure its continuing relevance;

"(2) for the purpose of assuring the most effective use and organization of resources respecting such diseases, advise and make recommendations to the Congress, the Secretary, the Director of NIH, the Director of the Institute, and the heads of other appropriate Federal agencies for the implementation and revision of such plan; and

"(3) maintain liaison with other advisory bodies related to Federal agencies involved in the implementation of such plan, the coordinating committee for such diseases, and with key non-Federal entities involved in activities affecting the control of such diseases.

"(i) In carrying out its functions, each Advisory Board may establish subcommittees, convene workshops and conferences, and collect data. Such subcommittees may be composed of Advisory Board members and nonmember consultants with expertise in the particular area addressed by such subcommittees. The subcommittees may hold such meetings as are necessary to enable them to carry out their activities.

"(j) Each Advisory Board shall prepare an annual report for the Secretary which—

"(1) describes the Advisory Board's activities in the fiscal year for which the report is made;

"(2) describes and evaluates the progress made in such year in research, treatment, education, and training with respect to the diseases with respect to which the Advisory Board was established;

"(3) summarizes and analyzes expenditures made by the Federal Government for activities respecting such diseases in the fiscal year for which the report is made; and

"(4) contains the Advisory Board's recommendations (if any) for changes in the plan referred to in section 433.

"(k) Each Advisory Board shall expire on September 30, 1986.

"(l) The National Diabetes Advisory Board and the National Digestive Diseases Advisory Board in existence on the date of the enactment of the Health Research Extension Act of 1984 shall terminate upon the appointment of a successor Board under subsection (a). The Secretary shall make appointments to the Advisory Boards established under subsection (a) before the expiration of ninety days after such date of enactment. The members of the Boards in existence on such date may be appointed, in accordance with subsections (b) and (d), to the Boards established under subsection (a) for diabetes and digestive diseases except that at least one-half of the members of the National Diabetes Advisory Board in existence or the date of the enactment of the Health Research Extension Act of 1984 shall be appointed to the National Diabetes Advisory Board first established under subsection (a).

"RESEARCH AND TRAINING CENTERS

"SEC. 431. (a) Consistent with applicable recommendations of the National Commission on Diabetes, the Director of the Institute shall provide for the development, or substantial expansion of centers for research and training in diabetes mellitus and related endocrine and metabolic diseases. Each center developed or expanded under this subseciton shall (1) utilize the facilities of a single institution, or be formed from a consortium of cooperating institutions, meeting such research and training qualifications as may be prescribed by the Secretary; and (2) conduct (A) research in the diagnosis and treatment of diabetes mellitus and related endocrine and metabolic diseases and the complications resulting from such diseases, (B) training programs for physicians and allied health personnel in current methods of diagnosis and treatment of such diseases and complications, and in reasearch in diabetes, and (C) information programs for physicians and allied health personnel who provide primary care for patients with such diseases or complications. A center may use funds provided under this subsection to provide stipends for nurses and allied health professional enrolled in research training programs described in clause (B).

"(b) Consistent with applicable recommendations of the National Digestive Diseases Advisory Board, the Director shall provide for the development or substantial expansion of centers for research in digestive diseases and related functional, congenital, metabolic disorders, and normal development of the digestive tract. Each center developed or expanded under this subsection shall (1) utilize the facilities of a single institution, or be formed from a consortium of cooperating institution, meeting such research qualifications as may be prescribed by the Secretary; (2) develop and conduct basic and clinical research into the cause, diagnosis, early detection, prevention, control, and treatment of digestive diseases and nutritional disorders and related functional, congenital, or metabolic complications resulting from such diseases or disorders; (3) shall encourage research into and programs for (A) providing information for physicians and others who care for patients with such diseases, disorders, and complications; patients and their families; and the general public; (B) model programs for cost effective and preventive patient care; and (C) training physicians and scientists in research on such diseases, disorders, and complications; and (4) may perform research and participate in epidemiological studies and gathering data relevant to digestive diseases and disorders to disseminate to the health care profession and to the public.

"(c) The Director shall provide for the development or substantial expansion of cen-

ters for research in kidney and urologic diseases. Each center developed or expanded under this subsection shall (1) utilize the facilities of a single institution, or be formed from a consortium of cooperating institutions, meeting such research qualifications as may be prescribed by the Secretary; (2) develop and conduct basic and clinical research into the cause, diagnosis, early detection, prevention, control, and treatment of kidney and urologic diseases; (3) encourage research into and programs for (A) providing information for physicians and others who care for patients with such disease; patients and their families; and the general public; (B) model programs for cost effective and preventive patient care; and (c) training physicians and scientists in research on such diseases; and (4) may perform research and participate in epidemiological studies and data collection relevant to kidney and urologic diseases in order to disseminate such research, studies, and data to the health care profession and to the public.

"(d) Insofar as practicable, centers established, developed, or expanded under this section should be geographically dispersed throughout the United States and in environments with proven research capabilities. Support of a center under this section may be for a period of not to exceed five years and such period may be extended by the Director for additional periods of not more than five years each after review of the operations of such center by an appropriate scientific review group established by the Director.

"ADVISORY COUNCIL SUBCOMMITTEES

"SEC. 432. There are established within the advisory council of the Institute appointed under section 406 a subcommittee on diabetes and endocrine and metabolic diseases, a subcommittee on digestive diseases and nutrition, and a subcommittee on kidney, urologic, and hematologic diseases. The subcommittees shall be composed of members of the advisory council who are outstanding in the diagnosis, prevention, and treatment of the diseases for which the subcommittees are established and members of the advisory council who are leaders in the fields of education and public affairs. The subcommittees are authorized to review applications made to the Director for grants for research and training projects relating to the diagnosis, prevention, and treatment of the diseases for which the subcommittees are established and shall recommend to the advisory council those applications and contracts that the subcommittees determine will best carry out the purposes of the Institute. The subcommittees shall also review and evaluate the diabetes and endocrine and metabolic diseases, digestive diseases and nutrition, and kidney, urologic, and hematologic diseases programs of the Institute and recommend to the advisory council such changes in the administration of such programs as the subcommittees determine are necessary.

"BIENNIAL REPORT

"SEC. 433. The Director of the Institute shall prepare for inclusion in the biennial report made under section 403 a description of the Institute's activities—

"(1) under the current diabetes plan under the National Diabetes Mellitus Research and Education Act, and

"(2) under the current digestive diseases plan formulated under the Arthritis, Diabetes, and Digestive Diseases Amendments of 1976.

The description submitted by the Director shall include an evaluation of the activities of the centers supported under section 431.

SUBPART 4—NATIONAL INSTITUTE OF ARTHRITIS AND MUSCULOSKELETAL AND SKIN DISEASES

"PURPOSES OF THE INSTITUTE

"SEC. 435. (a) The general purpose of the National Institute of Arthritis and Musculoskeletal and Skin Diseases (hereinafter in this subpart referred to as the 'Institute') is the conduct and support of research and training, the dissemination of health information, and related programs with respect to arthritis and musculoskeletal and skin diseases, including sports-related disorders.

"(b)(1) The Director of the Institute, with the advice of the Institute's advisory council, shall prepare and transmit to the Director of the National Institutes of Health a plan for a national arthritis and musculoskeletal diseases program to expand, intensify, and coordinate the activities of the Institute respecting arthritis and musculoskeletal diseases. The program shall be coordinated with the other national research institutes of the National Institutes of Health to the extent that such institutes have responsibilities respecting arthritis and musculoskeletal diseases, and shall, at least, provide for—

"(A) investigation into the epidemiology, etiology, and prevention of all forms of arthritis and musculoskeletal diseases, including sports-related disorders, primarily through the support of basic research in such areas as immunology, genetics, biochemistry, microbiology, physiology, bioengineering, and any other scientific discipline which can contribute important knowledge to the treatment and understanding of arthritis and musculoskeletal diseases;

"(B) research into the development, trial, and evaluation of techniques, drugs, and devices used in the diagnosis, treatment, including medical rehabilitation and prevention of arthritis and musculoskeletal diseases;

"(C) research on the refinement, development, and evaluation of technological devices that will replace or be a substitute for damaged bone, muscle, and joints and other supporting structures; and

"(D) the establishment of mechanisms to monitor the causes of athletic injuries and identify ways of preventing such injuries on scholastic athletic fields.

"(2) The plan transmitted pursuant to paragraph (1) shall include such comments and recommendations as the Director of the Institute determines appropriate.

"(3) The Director of the Institute shall carry out the national arthritis and musculoskeletal diseases program in accordance with the plan prepared under paragraph (1). The Director of the Institute shall periodically review and revise such plan, shall transmit any revisions of such plan to the Director of NIH, and shall carry out the national arthritis and musculoskeletal diseases program in accordance with such revisions.

"(c) The Director of the Institute shall—

"(1) carry out programs of support for research and training (other than training for which National Research Service Awards may be made under section 485) in the diagnosis, prevention, and treatment of arthritis and musculoskeletal and skin diseases, including support for training in medical schools, graduate clinical training, graduate training in epidemiology, epidemiology studies, clinical trials, and interdisciplinary research programs; and

"(2) establish programs of evaluation, planning, and dissemination of knowledge related to such research and training.

"INFORMATION CLEARINGHOUSE AND DATA SYSTEM

"SEC. 436. (a) The Director of the Institute shall establish the National Arthritis and Musculoskeletal and Skin Diseases Data System for the collection, storage, analysis, retrieval, and dissemination of data derived from patient populations with arthritis and musculoskeletal and skin diseases, including where possible, data involving general populations for the purpose of detection of individuals with a risk of developing arthritis and musculoskeletal and skin diseases.

"(b) The Director of the Institute shall establish the National Arthritis and Musculoskeletal and Skin Diseases Information Clearinghouse to facilitate and enhance, through the effective dissemination of information, knowledge and understanding of arthritis and musculoskeletal and skin diseases by health professionals, patients, and the public.

"INTERAGENCY COORDINATING COMMITTEES

"SEC. 437. (a) For the purpose of—

"(1) better coordination of the research activities of all the national research institutes relating to arthritis, musculoskeletal diseases, and skin diseases, including sports-related disorders; and

"(2) coordinating the aspects of all Federal health programs and activities relating to arthritis, musculoskeletal diseases, and skin diseases in order to assure the adequacy and technical soundness of such programs and activities and in order to provide for the full communication and exchange of information necessary to maintain adequate coordination of such programs and activities.

the Secretary shall establish an Arthritis and Musculoskeletal Diseases Interagency Coordinating Committee and a Skin Diseases Interagency Coordinating Committee (hereafter in this section individually referred to as a 'Committee').

"(b) Each Committee shall be composed of the Directors (or their designees) of each of the national research institutes and divisions involved in research regarding the diseases with respect to which the Committee is established, the Chief Medical Director of the Veterans' Administration (or the Director's designee), a Medical officer designated by the Secretary of Defense, and representatives of all other Federal departments and agencies (as determined by the Secretary) whose programs involve health functions or responsibilities relevant to arthritis and musculoskeletal diseases or skin diseases, as the case may be. Each Committee shall be chaired by the Director of NIH (or the Director's designee). Each Committee shall meet at the call of the Chairman, but not less often than four times a year.

"(c) Not later than one hundred and twenty days after the end of each fiscal year, each Committee shall prepare and transmit to the Secretary, the Director of NIH, the Director of the Institute, and the Advisory Council a report detailing the activities of the Committee in such fiscal year in carrying out paragraphs (1) and (2) of subsection (a).

"ARTHRITIS AND MUSCULOSKELETAL DISEASES DEMONSTRATION PROJECTS

"SEC. 438. (a) The Secretary may make grants to public and private nonprofit entities to establish and support projects for the development and demonstration of methods for screening, detection, and referral for treatment of arthritis and musculoskeletal diseases, and for the dissemination of information on such methods to the health and

allied health professions. Activities under such projects shall be coordinated with Federal, State, local, and regional health agencies, centers assisted under section 439, and the data system established under subsection (c).

"(b) Projects supported under this section shall include—

"(1) programs which emphasize the development and demonstration of new and improved methods of screening and early detection, referral for treatment, and diagnosis of individuals with a risk of developing arthritis and musculoskeletal diseases;

"(2) programs which emphasize the development and demonstration of new and improved methods for patient referral from local hospitals and physicians to appropriate centers for early diagnosis and treatment;

"(3) programs which emphasize the development and demonstration of new and improved means of standardizing patient data and recordkeeping;

"(4) programs which emphasize the development and demonstration of new and improved methods of dissemination of knowledge about the programs, methods, and means referred to in paragraphs (1), (2), and (3) of this subsection to health and allied health professionals;

"(5) programs which emphasize the development and demonstration of new and improved methods for the dissemination to the general public of information—

"(A) on the importance of early detection of arthritis and musculoskeletal diseases, of seeking prompt treatment, and of following an appropriate regimen; and

"(B) to discourage the promotion and use of unapproved and ineffective diagnostic, preventive treatment, and control methods for arthritis and unapproved and ineffective drugs and devices for arthritis and musculoskeletal diseases; and

"(6) projects for investigation into the epidemiology of all forms and aspects of arthritis and musculoskeletal diseases, including investigations into the social, environmental, behavioral, nutritional, and genetic determinants and influences involved in the epidemiology of arthritis and musculoskeletal diseases.

"(c) The Director shall provide for the standardization of patient data and recordkeeping for the collection, storage, analysis, retrieval, and dissemination of such data in cooperation with projects under this section and centers assisted under section 439, and other persons engaged in arthritis and musculoskeletal disease programs.

"MULTIPURPOSE ARTHRITIS AND MUSCULOSKELETAL DISEASES CENTERS

"SEC. 439. (a) The Director of the Institute shall, after consultation with the advisory council to the Institute, provide for the development, modernization, and operation (including staffing and other operating costs such as the costs of patient care required for research) of new and existing centers for arthritis and musculoskeletal diseases. For purposes of this section, the term 'modernization' means the alteration remodeling, improvement, expansion, and repair of existing buildings and the provision of equipment for such buildings to the extent necessary to make them suitable for use as centers described in the preceding sentence.

"(b) Each center assisted under this section shall—

"(1)(A) use the facilities of a single institution or a consortium of cooperating institutions, and (B) meet such qualifications as may be prescribed by the Secretary; and

"(2) conduct—

"(A) basic and clinical research into the cause, diagnosis, early detection, prevention, control, and treatment of arthritis and musculoskeletal diseases and complications resulting from arthritis and musculoskeletal diseases, including research into implantable biomaterials and biomechanical and other orthopedic procedures;

"(B) training programs for physicians, scientists, and other health and allied health professionals;

"(C) information and continuing education programs for physicians and other health and allied health professionals who provide care for patients with arthritis and musculoskeletal diseases; and

"(D) programs for the dissemination to the general public of information—

"(i) on the importance of early detection of arthritis and musculoskeletal diseases, of seeking prompt treatment, and of following an appropriate regimen; and

"(ii) to discourage the promotion and use of unapproved and ineffective diagnostic, preventive, treatment, and control methods and unapproved and ineffective drugs and devices.

A center may use funds provided under subsection (a) to provide stipends for health professionals enrolled in training programs described in paragraph (2)(B).

"(c) Each center assisted under this section may conduct programs to—

"(1) establish the effectiveness of new and improved methods of detection, referral, and diagnosis of individuals with a risk of developing arthritis and musculoskeletal diseases;

"(2) disseminate the results of research, screening, and other activities, and develop means of standardizing patient data and recordkeeping; and

"(3) develop community consultative services to facilitate the referral of patients to centers for treatment.

"(d) The Director of the Institute shall, insofar as practicable, provide for an equitable geographical distribution of centers assisted under this section. The Director shall give appropriate consideration to the need for centers especially suited to meeting the needs of children affected by arthritis and musculoskeletal diseases.

"(e) Support of a center under this section may be for a period of not to exceed five years. Such period may be extended by the Director of the Institute for one or more additional periods of not more than five years if the operations of such Center have been reviewed by an appropriate scientific review group established by the Director and such scientific review group has recommended to the Director that support of such center under this section should be extended.

"ADVISORY BOARD

"SEC. 440. (a) The Secretary shall establish in the Institute the National Arthritis Advisory Board (hereinafter in this section referred to as the "Advisory Board").

"(b) The Advisory Board shall be composed of eighteen appointed members and nonvoting, ex officio members as follows:

"(1) The Secretary shall appoint—

"(A) twelve members from individuals who are scientists, physicians, and other health professionals, who are not officers or employees of the United States, and who represent the specialties and disciplines relevant to arthritis, musculoskeletal diseases, and skin diseases; and

"(B) six members from the general public who are knowledgeable with respect to such diseases, including at least one member who is a person who suffers from such a disease and one member who is a parent of a person who suffers from such a disease.

Of the appointed members at least five shall by virtue of training or experience be knowledgeable in health education, nursing, data systems, public information, or community program development.

"(2) The following shall be ex officio members of the Advisory Board: The assistant Secretary for Health, the Director of NIH, the Director of the National Institute of Arthritis and Musculoskeletal Diseases, the Director of the Centers for Disease Control, the chief medical director of the Veterans' Administration, the Assistant Secretary for Health Affairs of the Department of Defense (or the designees of such ex officio members), such other officers and employees of the United States as the Secretary deems necessary for the Advisory Board to carry out its functions.

"(c) Members of the Advisory Board who are officers or employees of the Federal Government shall serve as members of the Advisory Board without compensation in addition to that received in their regular public employment. Other members of the Board shall receive compensation at rates not to exceed the daily equivalent of the annual rate in effect for grade GS-18 of the General Schedule for each day (including traveltime) they are engaged in the performance of their duties as members of the Board.

"(d) The term of office of an appointed member of the Advisory Board is three years. Any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term. A member may serve after the expiration of the member's term until a successor has taken office. If a vacancy occurs in the Advisory Board, the Secretary shall make an appointment to fill the vacancy not later than ninety days from the date the vacancy occurred.

"(e) The members of the Advisory Board shall select a chairman from among the appointed members.

"(f) The Secretary shall, after consultation with a consideration of the recommendations of the Advisory Board, provide the Advisory Board with an executive director and one other professional staff member. In addition, the Secretary shall, after consultation with and consideration of the recommendations of the Advisory Board, provide the Advisory Board with such additional professional staff members, such clerical staff members, and (through contracts or other arrangements) with such administrative support services and facilities, such information, and such services of consultants, as the Secretary determines are necessary for the Advisory Board to carry out its functions.

"(g) The Advisory Board shall meet at the call of the chairman or upon request of the Director of the Institute, but not less often than four times a year.

"(h) The Advisory Board shall—

"(1) review and evaluate the implementation of the plan under section 435 and periodically update the plan to ensure its continuing relevance;

"(2) for the purpose of assuring the most effective use and organization of resources respecting arthritis, musculoskeletal diseases and skin diseases, advise and make recommendations to the Congress, the Secretary, the Director of NIH, the Director of the Institute, and heads of other appropriate Federal agencies for the implementation and revision of such plan; and

"(3) maintain liaison with other advisory bodies for Federal agencies involved in the implementation of such plan, the coordinating committee for such diseases, and with key non-federal entities involved in activities affecting the control of such diseases.

"(i) In carrying out its functions, the Advisory Board may establish subcommittees, convene workshops and conferences, and collect data. Such subcommittees may be composed of Advisory Board members and nonmember consultants with expertise in the particular area addressed by such subcommittees. The subcommittees may hold such meetings as are necessary to enable them to carry out their activities.

"(j) The Advisory Board shall prepare an annual report for the Secretary which—

"(1) describes the Advisory Board's activities in the fiscal year for which the report is made;

"(2) describes and evaluates the progress made in such year in research, treatment, education, and training with respect to arthritis, musculoskeletal diseases, and skin diseases;

"(3) summarizes and analyzes expenditures made by the Federal Government for activities respecting such diseases in the fiscal year for which the report is made; and

"(4) contains the Advisory Board's recommendations (if any) for changes in the plan referred to in subsection (h)(1).

"(k) The National Arthritis Advisory Board in existence on the date of the enactment of the Health Research Extension Act of 1984 shall terminate not later than ninety days after such date. The Secretary shall make appointments to the Advisory Board established under subsection (a) before the expiration of such days. The member of the Board in existence on such date may be appointed, in accordance with subsections (b) and (d), to the Board established under subsection (a).

"SUBPART 5—NATIONAL INSTITUTE ON AGING

"PURPOSE OF THE INSTITUTE

"SEC. 442. The general purpose of the National Institute on Aging (hereinafter in this subpart referred to as the 'Institute') is the conduct and support of biomedical, social, and behavioral research, training, health information dissemination, and related programs with respect to the aging process and the diseases and other special problems and needs of the aged.

"SPECIAL FUNCTIONS OF THE SECRETARY

"SEC. 443. (a) In carrying out the training responsibilities under this Act or any other Act for health and allied health professions personnel, the Secretary shall take appropriate steps to insure the education and training of adequate numbers of allied health, nursing, and paramedical personnel in the field of health care for the aged.

"(b) The Secretary shall, through the Director of the Institute, conduct scientific studies to measure the impact on the biological, medical, and psychological aspects of aging of programs and activities assisted or conducted by the Department of Health and Human Services.

"(c) The Director of the Institute shall carry out public information and education programs designed to disseminate as widely as possible the findings of Institute-sponsored and other relevant aging research and studies and other information about the process of aging which may assist elderly and near-elderly persons in dealing with, and all Americans in understanding, the problems and processes associated with growing older.

"(d) The Secretary shall make grants to public and private nonprofit institutions to conduct research relating to Alzheimer's Disease.

"ALZHEIMER'S DISEASE CENTERS

"SEC. 444. (a) The Director of the Institute may provide, in accordance with subsection (b), for the development centers for basic and clinicial research into, training in, and demonstration of, advanced diagnostic, prevention, and treatment methods for Alzheimer's Disease.

"(b) The Director of the Institute, under policies established by the Director of NIH and after consultation with the advisory council to the Institute, may enter into cooperative agreements with public or nonprofit private agencies or institutions to pay all or part of the cost of plannning, establishing, or strengthening, and providing basic operating support for existing or new centers for basic or clinical research into, training in, and demonstration of advanced diagnostic, prevention, and treatment methods for Alzheimer's Disease. Funds paid to centers under cooperative agreements under this subsection may be used for—

"(1) construction (notwithstanding any limitation under section 494),

"(2) staffing and other basic operating costs, including such patient care costs as are required for research,

"(3) training, including training for allied health professions personnel, and

"(4) demonstration purposes.

Support of a center under this subsection may be for a period of not to exceed five years and such period may be extended by the Director for additional periods of not more than five years each after review of the operations of such center by an appropriate scientific review group established by the director.

"(c) As used in this section, the term 'construction' does not include the acquisition of land; and the term 'training' does not include research training for which fellowship support may be provided under section 485.

"SUBPART 6—NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES

"PURPOSE OF THE INSTITUTE

"SEC. 446. The general purpose of the National Institute of Allergy and Infectious Diseases is the conduct and support of research, training, health information dissemination, and related programs with respect to allergic and immunologic diseases and disorders and infectious diseases.

"SUBPART 7—NATIONAL INSTITUTE OF CHILD HEALTH AND HUMAN DEVELOPMENT

"PURPOSE OF THE INSTITUTE

"SEC. 448. The general purpose of the National Institute of Child Health and Human Development (hereinafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and related programs with respect to maternal health, child health, mental retardation, human growth and development, including prenatal development, and special health problems and requirements of mothers and children.

"SUDDEN INFANT DEATH SYNDROME

"SEC. 449. The Secretary shall, through the Director of the Institute, conduct and support research which specifically relates to sudden infant death syndrome.

"MENTAL RETARDATION RESEARCH CENTERS

"SEC. 450. The Secretary shall, through the Director of the Institute, make grants for research and related activities into the cause, prevention, and treatment of mental retardation.

"ASSOCIATE DIRECTOR FOR PREVENTION

"SEC. 451. (a)(1) There shall be in the Institute an Associate Director for Prevention to coordinate and promote the programs in the Institute in the prevention of health problems of mothers and children. The Associate Director shall be appointed by the Director of the Institute from individuals who because of their professional training or experience are experts in public health or preventive medicine.

"(2) The Associate Director for Prevention shall prepare for inclusion in the biennial report made under section 407 a description of the prevention activities of the Institute, including a description of the staff and resources allocated to those activities.

"SUBPART 8—NATIONAL INSTITUTE OF DENTAL RESEARCH

"PURPOSE OF INSTITUTE

"SEC. 453. The general purpose of the National Institute of Dental Research is the conduct and support of research, training, health information dissemination, and related programs with respect to the cause, prevention, and methods of diagnosis and treatment of dental diseases and conditions.

"SUBPART 9—NATIONAL EYE INSTITUTE

"PURPOSE OF INSTITUTE

"SEC. 445. The general purpose of the National Eye Institute (hereinafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and related programs with respect to blinding eye diseases, visual disorders, mechanisms of visual function, preservation of sight, and the special health problems and requirements of the blind. The Secretary may, through the Director of the Institute, carry out a program of grants for public and private nonprofit vision research facilities.

"SUBPART 10—NATIONAL INSTITUTE OF NEUROLOGICAL AND COMMUNICATIVE DISORDERS AND STROKE

"PURPOSE OF THE INSTITUTE

"SEC. 457. The general purpose of the National Institute of Neurological and Communicative Disorders and Stroke is the conduct and support of research, training, health information dissemination, and related programs with respect to neurological disease and disorder, stroke, and disorders of human communication.

"SPINAL CORD REGENERATION RESEARCH

"SEC. 458. The Director of the Institute shall make grants or enter into contracts for research on the means to overcome paralysis of the extremities through electrical stimulation and the use of computers.

"SUBPART 11—NATIONAL INSTITUTE OF GENERAL MEDICAL SCIENCES

"PURPOSE OF THE INSTITUTE

"SEC. 461. The general purpose of the National Institute of General Medical Sciences is the conduct and support of research, training, and, as appropriate, health information dissemination, and related programs with respect to general or basic medical sciences and related natural or behavioral sciences which have significance for two or more other national research institutes or are outside the general area of responsibility of any other national research institute.

"SUBPART 12—NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

"PURPOSE OF THE INSTITUTE

"SEC. 463. The general purpose of the National Institute of Environmental Health Sciences is the conduct and support of research, training, health information dissemination, and related programs with respect to factors in the environment that affect human health, directly or indirectly.

"SUBPART 13—NATIONAL INSTITUTE OF NURSING

"PURPOSE OF THE INSTITUTE

"SEC. 465. The general purpose of the National Institute of Nursing (hereinafter in this subpart referred to as the 'Institute') is the conduct and support of, and dissemination of information respecting, basic and clinical research, training, and related programs in nursing.

"SPECIFIC AUTHORITIES

"SEC. 466. (a) The Chief Nursing Officer of the Veteran's Administration and the Director of the Division of Nursing of the Health Resources and Services Administration shall be ex officio members of the advisory council to the Institute appointed under section 406. Of the members appointed to the advisory council under section 406(b)(1)(A), seven shall be professional nurses who are recognized experts in the area of clinical practice, education, or research.

"(b) To carry out section 465, the Director of the Institute, may provide research training and instruction and establish research traineeships and fellowships, in the Institute and other nonprofit institutions, in the study and investigation of the prevention of disease, health promotion, and the nursing care of individuals with and the families of individuals with acute and chronic illnesses. The Director of the Institute may provide individuals receiving such training and instruction or such traineeships or fellowships with such stipends and allowances (including amounts for travel and subsistence and dependency allowances) as the Director deems necessary. The Director may make grants to nonprofit institutions to provide such training and instruction and traineeships and fellowships.

"PART D—NATIONAL LIBRARY OF MEDICINE

"SUBPART 1—GENERAL PROVISIONS

"FUNCTIONS OF THE NATIONAL LIBRARY OF MEDICINE

"SEC. 468. (a) The Secretary, through the National Library of Medicine (hereinafter referred to in this part as the 'Library') and subject to the provisions of subsection (c), shall—

"(1) acquire and preserve books, periodicals, prints, films, recordings, and other library materials, pertinent to medicine;

"(2) organize the materials specified in paragraph (1) by appropriate cataloging, indexing, and bibliographical listing;

"(3) publish and make available the catalogs, indexes, and bibliographies referred to in paragraph (2);

"(4) make available, through loans, photographic or other copying procedures or otherwise, such materials in the Library as the Secretary deems appropriate;

"(5) provide reference and research assistance; and

"(6) engage in such other activities as he deems appropriate and as the Library's resources permit.

"(b) The Secretary may exchange, destroy, or otherwise dispose of any books, periodicals, films, and other library materials not needed for the permanent use of the Library.

"(c)(1) The Secretary may, after obtaining the advice and recommendations of the Board of Regents, prescribe rules under which the Library will—

"(A) provide copies of its publications or materials,

"(B) will make available its facilities for research, or

"(C) will make available its bibliographic, reference, or other services,

to public and private entities and individuals.

"(2) Rules prescribed under paragraph (1) may provide for making available such publications, materials, facilities, or services—

"(A) without charge as a public service,

"(B) upon a loan, exchange, or charge basis, or

"(C) in appropriate circumstances, under contract arrangements made with a public or other nonprofit entity.

"(d) Whenever the Secretary, with the advice of the Board of Regents, determines that—

"(1) in any geographic area of the United States there is no regional medical library adequate to serve such area;

"(2) under criteria prescribed for the administration of section 478, there is a need for a regional medical library to serve such area; and

"(3) because there is located in such area no medical library which, with financial assistance under section 478, can feasibly be developed into a regional medical library adequate to serve such area,

the Secretary is authorized to establish, as a branch of the Library, a regional medical library to serve the needs of such area.

"(e) The provisions of section 2101 shall be applicable to the acceptance and administration of gifts made for the benefit of the Library or for carrying out any of its functions, and the Board of Regents shall make recommendations to the Secretary relating to establishment within the Library of suitable memorials to the donors.

"(f) For purposes of this part the terms 'medicine' and 'medical', except when used in section 469, include preventive and therapeutic medicine, dentistry, pharmacy, hospitalization, nursing, public health, and the fundamental sciences related thereto, and other related fields of study, research, or activity.

"BOARD OF REGENTS

"SEC. 469. (a) The Board of Regents of the National Library of Medicine consists of the Surgeons General of the Public Health Service, the Amry, the Navy, and the Air Force, the Chief Medical Director of the Department of Medicine and Surgery of the Veterans' Adminisration, the Assistant Director for Biological and Medical Sciences of the National Science Foundation, and the Librarian of Congress, all of whom shall be ex officio members and ten members appointed by the Secretary. The ten appointed members are selected from among leaders in the various fields of the fundamental sciences, medicine, dentistry, public health, hospital administration, pharmacology, or scientific or medical library work, or in public affairs. At least six of the appointed members are selected from among leaders in the fields of medical, dental, or public health research or education. The Board shall annually elect one of the appointed members to serve as Chairman until the next election. The Secretary shall designate a member of the Library staff to act as executive secretary of the Board.

"(b) The Board shall advise, consult with, and make recommendations to, the Secretary on matters of policy in regard to the Library, including such matters as the acquisition of materials for the Library, the scope, content, and organization of the Library's servies, and the rules under which its materials, publications, facilities, and services shall be made available to various kinds of users. The Secretary shall include in the annual report of the Secretary to the Congress a statement covering the recommendations made by the Board and the disposition thereof. The Secretary may use the services of any member of the Board in connection with matters related to the work of the Library, for such periods, in addition to conference periods, as the Secretary may determine.

"(c) Each appointed member of the Board shall hold office for a term of four years, except that any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed shall be appointed for the remainder of such term. None of the appointed members shall be eligible for reappointment within one year after the end of his preceding term.

"(d)(1) Each member of the Board who is not an officer or employee of the United States shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay in effect for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code, for each day (including traveltime) during which such member is engaged in the actual performance of duties as a member of the Task Force. Each member of the Board who is an officer or employee of the United States shall receive no additional compensation.

"(2) While away from their homes or regular places of business in the performance of duties for the Board, all members of the Board shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under sections 5702 and 5703 of title 5, United States Code.

"LIBRARY FACILITIES

"SEC. 470. There are authorized to be appropriated sums sufficient for the erection and equipment of suitable and adequate buildings and facilities for use of the Library. The Administrator of General Services is authorized to acquire, by purchase, condemnation, donation, or otherwise, a suitable site or sites, selected by the Secretary in accordance with the direction of the Board, for such buildings and facilities and to erect thereon, furnish, and equip such buildings and facilities. The sums authorized to be appropriated by this section shall include the cost of preparation of drawings and specifications, supervision of construction, and other administrative expenses incident to the work. The Administrator of General Services shall prepare the plans and specifications, make all necessary contracts, and supervise construction.

"SUBPART 2—FINANCIAL ASSISTANCE

"AUTHORIZATION OF APPROPRIATIONS

SEC. 472. For the purpose of grants and contracts under sections 475, 476, 477, 478, and 479, there are authorized to be appropriated $11,000,000 for fiscal year 1985 and $12,000,000 for fiscal year 1986. Funds appropriated under this section shall remain available for such purposes for the fiscal year immediately following the fiscal year for which they were appropriated.

"DEFINITIONS

"SEC. 473. As used in this subpart—

"(1) the term "sciences related to health" includes medicine, osteopathy, dentistry, and public health, and fundamental and applied sciences when related thereto;

"(2) the terms "National Medical Libraries Assistance Advisory Board" and "Board" mean the Board of Regents of the National Library of Medicine established under section 469(a); and

"(3) the term "medical library" means a library related to the sciences related to health.

"NATIONAL MEDICAL LIBRARIES BOARD

"SEC. 474. (a) The Board of Regents of the National Library of Medicine shall also serve as the National Medical Libraries Assistance Advisory Board (hereinafter in this subpart referred to as the 'Board').

"(b) The Board shall advise and assist the Secretary in the preparation of general regulations and with respect to policy matters arising in the administration of this subpart.

"(c) The Secretary is authorized to use the services of any member of the Board, in connection with matters related to the administration of this part for such periods, in addition to conference periods, as the Secretary may determine.

"(d) Appointed members of the Board who are not otherwise in the employ of the United States, while attending conferences of the Board or otherwise serving at the request of the Secretary in connection with the administration of this part, shall be entitled to receive compensation, per diem in lieu of subsistence, and travel expenses in the same manner and under the same conditions as that prescribed under section 469(d) when attending conferences, traveling, or serving at the request of the Secretary in connection with the Board's function under this section.

"GRANTS FOR TRAINING IN MEDICAL SCIENCES

"SEC. 475. (a) The Secretary shall make grants—

"(1) to individuals to enable them to accept traineeships and fellowships leading to postbaccalaureate academic degrees in the field of medical library science, in related fields pertaining to sciences related to health, or in the field of the communication of information;

"(2) to individuals who are librarians or specialists in information on sciences relating to health, to enable them to undergo intensive training or retraining so as to attain greater competence in their occupations (including competence in the fields of automatic data processing and retrieval);

"(3) to assist appropriate public and private nonprofit institutions in developing, expanding, and improving training programs in library science and the field of communications of information pertaining to sciences relating to health; and

"(4) to assist in the establishment of internship programs in established medical libraries meeting standards which the Secretary shall prescribe.

"(b) Payment pursuant to grants made under this section may be made in advance or by way of reimbursement and in such installments as the Secretary shall prescribe by regulations after consultation with the Board.

"ASSISTANCE FOR SPECIAL SCIENTIFIC PROJECTS, AND FOR RESEARCH AND DEVELOPMENT IN MEDICAL LIBRARY SCIENCE AND RELATED FIELD

"SEC. 476. (a) The Secretary shall make grants to physicians and other practitioners in the sciences related to health, to scientists, and to public or nonprofit private institutions on behalf of such physicians, other practitioners, and scientists for the compilation of existing, or writing or original, contributions relating to scientific, social, or cultural, advancements in sciences related to health. In making such grants, the Secretary shall make appropriate arrangements under which the facilities of the National Library of Medicine and the facilities of the National Library of Medicine and the facilities of libraries of public and private nonprofit institutions of higher learning may be made available in connection with the projects for which such grants are made.

"(b) The Secretary shall make grants to appropriate public or private nonprofit institutions and enter into contracts with appropriate persons, for purposes or carrying out projects of research, investigations, and demonstrations in the field of medical library science and related activities and for the development of new techniques, systems, and equipment, for processing, storing, retieving, and distributing information pertaining to science related to health.

"(c) Payment pursuant to grants made under this section may be in advance or by way of reimbursement and in such installments as the Secretary shall prescribe by regulations after consultation with the Board.

"GRANTS FOR ESTABLISING, EXPANDING, AND IMPROVING THE BASIC RESOURCES OF MEDICAL LIBRARIES AND RELATED INSTRUMENTALITIES

"SEC. 477. (a) The Secretary shall make grants of money, materials, or both, to public or private nonprofit medical libraries and related scientific communication instrumentalities for the purpose of establishing, expanding and improving their basic medical library or related resouces. The uses for which grants so made may be employed include (1) the acquisition of books, journals, photographs, motion picture and other films, and other similar materials, (2) cataloging, binding, and other services and procedures for processing library resource materials for use by those who are serviced by the library or related instrumentality, and (3) the acquisition of duplication devices, facsimile equipment, film projectors, recording equipment, and other equipment to facilitate the use of the resources of the library or related instrumentality by those who are served by it, and (4) the introduction of new technologies in medical librarianship.

"(b)(1) The amount of any grant under this section to any medical library or related instrumentality shall be determined by the Secretary on the basis of the scope of library or related services provided by such library or instrumentality in relation to the population and purposes served by it. In making a detemination of the scope of services served by any medical library or related instrumentality, the Secretary shall take into account—

"(A) the number of graduate and undergraduate students making use of the resources of such library or instrumentality;

"(B) the number of physicians and other practitioners in the sciences related to health utilizing the resources of such library or instrumentality;

"(C) the type of supportive staffs, if any, available to such library or instrumentality;

"(D) the type, size, and qualifications of the faculty of any school with which such library or instrumentality is affiliated;

"(E) the staff of any hospital or hospitals or of any clinic or clinics with which such library or instrumentality is affiliated; and

"(F) the geographic area served by such library instrumentality and the availability, within such area, of medical library or related services provided by other libraries or related instrumentalities.

"(2) In no case shall any grant under this section to a medical library or related instrumentality for any fiscal year exceed $200,000. Grants to such medical libraries or related instrumentalities shall be in such amounts as the Secretary may by regulation prescribe with a view to assuring adequate continuing financial support for such libraries or instrumentalities from other sources during and after the period for which Federal assistance is provided.

"(c) Payment pursuant to grants made under this section may be in advance or by way of reimbursement and in such installments as the Secretary shall prescribe by regulations after consultation with the Board.

"GRANTS AND CONTRACTS FOR ESTABLISHMENT OF REGIONAL MEDICAL LIBRARIES

"SEC. 478. (a) The Secretary, with the advice of the Board, shall make grants to and enter into contracts with existing public or private nonprofit medical libraries so as to enable each of them to serve as the regional medical library for the geographical area in which it is located.

"(b) The uses for which grants and contracts under this section may be employed include the—

"(1) acquisition of books, journals, and other similar materials;

"(2) cataloging, binding, and other procedures for processing library resource materials for use by those who are served by the library;

"(3) acquisition of duplicating devices and other equipment to facilitate the use of the resources of the library by those who are served by it;

"(4) acquisition of mechanisms and employment of personnel for the speedy transmission of materials from the regional library to local libraries in the geographic area served by the regional library; and

"(5) planning for services and activities under this section.

"(c)(1) Grants and contracts under this section shall only be made to or entered into with medical libraries which agree (A) to modify and increase their library resources, and to supplement the resources of cooperating libraries in the region, so as to be able to provide adequate supportive services to all libraries in the region as well as to individual users of library services, and (B) to provide free loan services to qualified users and make available photoduplicated or facsimile copies of biomedical materials which qualified requesters may retain.

"(2) The Secretary, in awarding grants and contracts under this section, shall give priority to medical libraries having the greatest potential of fulfilling the needs for regional medical libraries. In determining the priority to be assigned to any medical library, the Secretary shall consider—

"(A) the adequacy of the library (in terms of collections, personnel, equipment, and other facilities) as a basis for a regional medical library; and

"(B) the size and nature of the population to be served in the region in which the library is located.

"(d) Grants and contracts under this section for basic resource materials to a library may not exceed 50 per centum of the library's annual operating expense (exclusive of Federal financial assistance under this part) for the preceding year; or in case of the first year in which the library receives a grant under this section for basic resource materials, 50 per centum of its average

annual operating expenses over the past three years (or if it had been in operation for less than three years, its annual operating expenses determined by the Secretary in accordance with regulations).

"(e) Payment pursuant to grants made under this section may be made in advance or by way of reimbursement and in such installment as the Secretary shall prescribe by regulations after consultation with the Board.

"FINANCIAL SUPPORT OF BIOMEDICAL SCIENTIFIC PUBLICATIONS

"SEC. 479. (a) The Secretary, with the advice of the Board, shall make grants to, and enter into appropriate contracts with, public or private nonprofit institutions of higher education and individual scientists for the purpose of supporting biomedial scientific publications of a nonprofit nature and to procure the compilation, writing, editing, and publication of reviews, abstracts, indices, handbooks, bibliographies, and related matter pertaining to scientific works and scientific developments.

"(b) Grants under this section in support of any single periodical publication may not be made for more than three years, except in those cases in which the Secretary determines that further support is necessary to carry out the purposes of this section.

"(c) Payment pursuant to grants made under this section may be made in advance or by way of reimbursement and in such installments as the Secretary shall prescribe by regulations after consultation with the Board.

"RECORDS AND AUDIT

"SEC. 480. (a) Each recipient of a grant under this subpart shall keep such records as the Secretary shall prescribe, including records which fully disclose the amount and disposition by such recipient of the proceeds of such grant, the total cost of the project or undertaking in connection with which such grant is given or used, and the amount of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

'(b) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of such recipients that are pertinent to any grant received under this subpart.

"PART E—OTHER AGENCIES OF NIH

"DIVISION OF RESEARCH RESOURCES

"SEC. 482. The general purposes of the Division of Research Resources is to strengthen and enhance the research environments of entities engaged in health-related research by developing and supporting essential research resources.

"JOHN E. FOGARTY INTERNATIONAL CENTER FOR ADVANCED STUDY IN THE HEALTH SCIENCES

"SEC. 483. The general purpose of the John E. Fogarty International Center for Advanced Study in the Health Sciences is to—

"(1) facilitate the assembly of scientists and others in the biomedical, behavioral, and related fields for discussion, study, and research relating to the development of health science internationally;

'(2) provide research programs, conferences, and seminars to further international cooperation and collaboration in the life sciences;

"(3) provide postdoctorate fellowships for research training in the United States and abroad and promote exchanges between the United States and other countries of senior scientists;

"(4) coordinate the activities of the National Institutes of Health concerned with the health sciences internationally; and

"(5) serve as the focus for foreign visitors to the National Institutes of Health.

"PART F—AWARDS AND TRAINING

"NATIONAL RESEARCH SERVICE AWARDS

"SEC. 485. (a)(1) The Secretary shall—

"(A) provide National Research Service Awards for—

"(i) biomedical and behavioral research at the National Institutes of Health and the Alochol, Drug Abuse, and Mental Health Administration in matters relating to the cause, diagnosis, prevention, and treatment of the diseases or other health problems to which the activities of the Institutes and Administration are directed,

"(ii) training at the National Institutes of Health and at the Administration of individuals to undertake such research,

"(iii) biomedical and behavioral research and health services research (including research in primary medical care) at public and nonprofit private entities, and

"(iv) pre-doctoral and post-doctoral training at public and private institutions of individuals to undertake biomedical and behavioral research, and

"(B) make grants to public and nonprofit private institutions to enable such institutions to make National Research Service Awards for research (and training to undertake biomedical and behavioral research) in the matters described in subparagraph (A)(1) to individuals selected by them.

A reference in this subsection to the National Institutes of Health or the Alcohol, Drug Abuse, and Mental Health Administration shall be considered to include the institutes, agencies, divisions, and bureaus included in the Institutes or under the Administration, as the case may be.

"(2) National Research Service Awards may not be used to support residency training of physicians and other health professionals.

"(3) In awarding National Research Service Awards under this section, the Secretary shall take account of the Nation's overall need for biomedical research personnel by giving special consideration to physicians who agree to undertake a minimum of two years of biomedical research.

"(b)(1) No National Research Service Award may be made by the Secretary to any individual unless—

"(A) the individual has submitted to the Secretary an application therefor and the Secretary has approved the application;

"(B) the individual provides, in such form and manner as the Secretary shall by regulation prescribe, assurances satisfactory to the Secretary that the individual will meet the service requirement of subsection (c)(1); and

"(C) in the case of a National Research Service Award for a purpose described in subsection (a)(1)(A)(iii), the individual has been sponsored (in such manner as the Secretary may by regulation require) by the institution at which the research or training under the award will be conducted.

An application for an award shall be in such form, submitted in such manner, and certain such information, as the Secretary may by regulation prescribe.

"(2) The making of grants under subsection (a)(1)(B) for National Research Service Awards shall be subject to review and approval by the appropriate advisory councils within the Department of Health and Human Services (A) whose activities relate to the research or training under the awards, or (B) for the entity at which such research or training will be conducted.

"(3) No grant may be made under subsection (a)(1)(B) unless an application therefor has been submitted to and approved by the Secretary. Such application shall be in such form, submitted in such manner, and contain such information, as the Secretary may by regulation prescribe. Subject to the provisions of this section (other than paragraph (1)), National Research Service Awards made under a grant under subsection (a)(1)(B) shall be made in accordance with such regulations as the Secretary shall prescribe.

"(4) The period of any National Research Service Awards made to any individual under subsection (a) may not exceed—

"(A) five years in the aggregate for predoctoral training, and

"(B) three years in the aggregate for postdoctoral training,

unless the Secretary for good cause shown waives the application of such limit to such individual.

"(5) National Research Service Awards shall provide for such stipends, tuition, fees, and allowances (including travel and subsistence expenses and dependency allowances), adjusted periodically to reflect increases in the cost of living, for the recipients of the awards as the Secretary may deem necessary. A National Research Service Award made to an individual for research or research training at a non-Federal public or nonprofit private institution shall also provide for payments to be made to the institution for the cost of support services (including the cost of faculty salaries, supplies, equipment, general research support, and related items) provided such individual by such institution. The amount of any such payments to any institution shall be determined by the Secretary and shall bear a direct relationship to the reasonable costs of the institution for establishing and maintaining the quality of its biomedical and behavioral research and training programs.

"(c)(1) Each individual who is awarded a National Research Service Award (other than an individual who is a pre-baccalaureate student who is awarded a National Research Service Award for research training) shall, in accordance with paragraph (3), engage in health research or teaching or any combination thereof which is in accordance with the usual patterns of academic employment, for a period computed in accordance with paragraph (2).

"(2) For each month for which an individual receives a National Research Service Award which is made for a period in excess of twelve months, such individual shall engage in one month of health research or teaching or any combination thereof which is in accordance with the usual patterns of academic employment.

"(3) The requirement of paragraph (1) shall be complied with by any individual to whom it applies within such reasonable period of time, after the completion of such individual's award, as the Secretary shall by regulation prescribe. The Secretary shall by regulation prescribe the type of research and teaching in which an individual may engage to comply with such requirement and such other requirements respecting research and teaching at the Secretary considers appropriate.

"(4)(A) If any individual to whom the requirement of paragraph (1) is applicable fails, within the period prescribed by paragraph (3), to comply with such requirements, the United States shall be entitled to recover from such individual an amount determined in accordance with the formula—

$$A=\Phi(t-s/t)$$

in which 'A' is the amount the United States is entitled to recover; 'Φ' is the sum of the total amount paid under one or more National Research Service Awards to such individual; 't' is the total number of months in such individual's service obligation; and 's' is the number of months of such obligation served by him in accordance with paragraphs (1) and (2) of this subsection.

"(B) Any amount which the United States is entitled to recover under subparagraph (A) shall, within the three-year period beginning on the date the United States becomes entitled to recover such amount, be paid to the United States. Until any amount due the United States under subparagraph (A) on account of any National Research Service Award is paid, there shall accrue to the United States interest on such amount at a rate fixed by the Secretary of the Treasury after taking into consideration private consumer rates of interest prevailing on the date the United States becomes entitled to such amount.

"(5)(A) Any obligation of any individual under paragraph (3) shall be canceled upon the death of such individual.

"(B) The Secretary shall by regulation provide for the waiver or suspension of any such obligation applicable to any individual whenever compliance by such individual is impossible or would involve substantial hardship to such individual or would be against equity and good conscience.

"(d) There are authorized to be appropriated to make payments under National Research Service Awards and under grants for such awards $220,000,000 for fiscal year 1985 and $238,000,000 for fiscal year 1986. Of the sums appropriated under this subsection—

"(1) not less than 15 per centum shall be made available for payments under National Research Service Awards provided by the Secretary under subsection (a)(1)(A);

"(2) not less than 50 per centum shall be made available for grants under subsection (a)(1)(B) for National Research Service Awards;

"(3) one-half of one percentum shall be made available for payments under National Research Service Awards which (A) are made to individuals affiliated with entities which have received grants or contracts under section 780, 784, or 786, and (B) are for research in primary medical care; and one-half of one percentum shall be made available for payments under National Research Service Awards made for health services research by the National Center for Health Services Research under section 304(a)(3); and

"(4) not more than 4 per centum may be obligated for National Research Service Awards for periods of three months or less.

"VISITING SCIENTIST AWARDS

"SEC. 486. (a) The Secretary may make awards (hereinafter in this section referred to as 'Visiting Scientist Awards') to outstanding scientists who agree to serve as visiting scientists at institutions of postsecondary education which have significant enrollments of disadvantaged students. Visiting Scientists Awards shall be made by the Secretary to enable the faculty and students of such institutions to draw upon the special talents of scientists from other institutions for the purpose of receiving guidance, advice, and instruction with regard to research, teaching, and curriculum development in the biomedical and behavioral sciences and such other aspects of these sciences as the Secretary shall deem appropriate.

"(b) The amount of each Visiting Scientists Award shall include such sum as shall be commensurate with the salary or remuneration which the individual receiving the award would have been entitled to receive from the institution with which the individual has, or had, a permanent or immediately prior affiliation. Eligibility for and terms of Visiting Scientists Awards shall be determined in accordance with regulations the Secretary shall prescribe.

"STUDIES RESPECTING BIOMEDICAL AND BEHAVIORAL RESEARCH PERSONNEL

SEC. 487. (a) The Secretary shall, in accordance with subsection (b), arrange for the conduct of a continuing study to—

"(1) establish (A) the Nation's overall need for biomedical and behavioral research personnel, (B) the subject areas in which such personnel are needed and the number of such personnel needed in each such area, and (C) the kinds and extent of training which should be provided such personnel;

"(2) assess (A) current training programs available for the training of biomedical and behavioral research personnel which are conducted under this Act, at or through national research institutes under the National Institutes of Health and institutes under the Alcohol, Drug Abuse, and Mental Health Administration, and (B) other current training programs available for the training of such personnel;

"(3) identify the kinds of research positions availabe to and held by individuals completing such programs;

"(4) determine, to the extent feasible, whether the programs referred to in clause (B) of paragraph (2) would be adequate to meet the needs established under paragraph (1) if the programs referred to in clause (A) of paragraph (2) were terminated; and

"(5) determine what modifications in the programs referred to in paragraph (2) are required to meet the needs established under paragraph (1).

"(b)(1) The Secretary shall request the National Academy of Sciences to conduct the study required by subsection (a) under an arrangement under which the actual expenses incurred by such Academy in conducting such study will be paid by the Secretary. If the National Academy of Sciences is willing to do so, the Secretary shall enter into such an arrangement with such Academy for the conduct of such study.

"(2) If the National Academy of Sciences is unwilling to conduct such study under such an arrangement, then the Secretary shall enter into a similar arrangement with other appropriate nonprofit private groups or associations under which such groups or associations will conduct such study and prepare and submit the reports thereon as provided in subsection (c).

"(3) The National Academy of Sciences or other group or association conducting the study required by subsection (a) shall conduct such study in consultation with the Director of NIH.

"(c) A report on the results of such study shall be submitted by the Secretary to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate at least once every two years.

"PART G—GENERAL PROVISIONS

"INSTITUTIONAL REVIEW BOARDS; ETHICS GUIDANCE PROGRAM

"SEC. 489. (a) The Secretary shall by regulation require that each entity which applies for a grant, contract, or cooperative agreement under this Act for any project or program which involves the conduct of biomedical or behavioral research involving human subjects submit in or with its application for such grant, contract, or cooperative agreement assurances satisfactory to the Secretary that it has established (in accordance with regulations which the Secretary shall prescribe) a board (to be known as an 'Institutional Review Board') to review biomedical and behavioral research involving human subjects conducted at or supported by such entity in order to protect the rights of the human subjects of such research.

"(b) The Secretary shall—

"(1) establish a program within the Department under which requests for clarification and guidance with respect to ethical issues raised in connection with biomedical or behavioral research involving human subjects are responded to promptly and appropriately, and

"(2) a process for the prompt and appropriate response to information provided the Director of NIH respecting incidences of violations of the rights of human subjects of research for which funds have been made available under this Act. The process shall include procedures for the receiving of reports of such information from recipients of funds under this Act and taking appropriate action with respect to such violations.

"PEER REVIEW

"SEC. 490. (a)(1) The Secretary, after consultation with the Director of NIH, shall by regulation require appropriate technical and scientific peer review of—

"(A) applications made for grants and cooperative agreements under this Act for biomedical and behavioral research; and

"(B) biomedical and behavioral research and development contracts to be administered through the National Institutes of Health.

"(2) Regulations promulgated under paragraph (1) shall require that the review of grants, contracts, and cooperative agreements required by the regulations be conducted—

"(A) in a manner consistent with the system for scientific peer review applicable on the date of the enactment of the Health Research Extension Act of 1984 to grants under this Act for biomedical and behavioral research, and

"(B) to the extent practical, by peer review groups performing such review on or before such date.

"(3) The members of any peer review group established under such regulations shall be individuals who by virtue of their training or experience are eminently qualified to perform the review functions of the group and not more than one-fourth of the members of any peer review group established under such regulations shall be officers or employees of the United States.

"(b) The Director of NIH shall establish procedures for periodic, technical, and scientific peer review of research at the National Institutes of Health. Such procedures shall require that—

"(1) the reviewing entity be provided a written description of the research to be reviewed; and

"(2) the reviewing entity provide the advisory council of the national research institute involved with such description and the results of the review by the entity.

"PROTECTION AGAINST SCIENTIFIC FRAUD

"SEC. 491. (a) The Secretary shall by regulation require that each entity which applies for a grant, contract, or cooperative agreement under this Act for any project or program which involves the conduct of biomedical or behavioral research submit in or with its application for such grant, contract, or cooperative agreement assurances satisfactory to the Secretary that it—

"(1) has established (in accordance with regulations which the Secretary shall prescribe) an administrative process to review reports of scientific fraud in connection with biomedical and behavioral research conducted at or sponsored by such entity.

"(2) will report to the Secretary any investigation of alleged scientific fraud which appears substantial.

"(b) The Director of NIH shall establish a process for the prompt and appropriate response to information provided the Director of NIH respecting scientific fraud in connection with projects for which funds have been made available under this Act. The process shall include procedures for the receiving of reports of such information from recipients of funds under this Act and taking appropriate action with respect to such fraud.

"RESEARCH ON PUBLIC HEALTH EMERGENCIES

"SEC. 492. (a) If the Secretary determines, after consultation with the Director of NIH, the Commissioner of the Food and Drug Administration, or the Director of the Centers for Disease Control, that a disease or disorder constitutes a public health emergency, the Secretary, acting through the Director of NIH—

"(1) shall expedite the review by advisory councils under section 406 and by peer review groups under section 490 of applications for grants for research on such disease or disorder or proposals for contracts for such research;

"(2) shall exercise the authority in section 3709 of the Revised Statutes respecting public exigencies to waive the advertising requirements of such section in the case of proposals for contracts for such research;

"(3) may provide administrative supplemental increases in existing grants and contracts to support new research relevant to such disease or disorder; and

"(4) shall disseminate, to health professionals and the public, information on the cause, prevention, and treatment of such disease or disorder which information has been developed in research assisted under this section.

The amount of an increase in a grant or contract provided under paragraph (3) may not exceed one-half the original amount of the grant or contract.

"(b) Not later than ninety days after the expiration of a fiscal year the Secretary shall report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate on actions taken under subsection (a) in such fiscal year.

"ANIMALS IN RESEARCH

"SEC. 493. (a) The Secretary, acting through the Director of NIH, shall establish guidelines for the following:

"(1) The proper care of animals to be used in biomedical and behavioral research.

"(2) The proper treatment of animals while being used in such research. Guidelines under this paragraph shall require—

"(A) the appropriate use of tranquilizers, analgesics, anesthetics, paralytics, and euthanasia for animals in such research; and

"(B) appropriate pre-surgical and post-surgical veterinary medical and nursing care for animals in such research.

Such guidelines shall not be construed to prescribe methods of research.

"(3) The organization and operation of animal care committees in accordance with subsection (b).

"(b)(1) Guidelines of the Secretary under subsection (a)(3) shall require animal care committees at each entity which conducts biomedical and behavioral research with funds provided under this Act (including the National Institutes of Health and the national research institute) to assure compliance with the guidelines established under subsection (a).

"(2) Each animal care committee shall be appointed by the chief executive officer of the entity for which the committee is established, shall be composed of not fewer than three members, and shall include at least one individual who has no association with such entity and at least one doctor of veterinary medicine.

"(3) Each animal care committee of a research entity shall—

"(A) review the care and treatment of animals in all animal study areas and facilities of the research entity at least semi-annually to evaluate compliance with applicable guidelines established under subsection (a) for appropriate animal care and treatment;

"(B) keep appropriate records of reviews conducted under subparagraph (A); and

"(C) for each review conducted under subparagraph (A), file with the Director of NIH at least annually (i) a certification that the review has been conducted, and (ii) reports of any violations of guidelines established under subsection (a) or assurances required by subsection (b) which were observed in such review and which have continued after notice by the committee to the research entity involved of the violations.

Reports filed under subparagraph (C) shall include any minority views filed by members of the committee.

"(c) The Director of NIH shall require each applicant for a grant, contract, or cooperative agreement involving research on animals administered by the National Institutes of Health or any national research institute to include in its application or contract proposal, submitted after the expiration of the twelve-month period beginning on the date of the enactment of this section—

"(1) assurances satisfactory to the Director of NIH that—

"(A) the applicant meets the requirements of the guidelines established under paragraphs (1) and (2) of subsection (a) and has an animal care committee which meets the requirements of subsection (b); and

"(B) scientists, animal technicians, and other personnel involved with animal care, treatment, and use by the applicant have available to them instruction or training in the humane practice of animal maintenance and experimentation, and the concept, availability, and use of research or testing methods that limit the use of animals or limit animal distress; and

"(2) a statement of the reasons for the use of animals in the research to be conducted with funds provided under such grant or contract.

Notwithstanding subsection (a)(2) of section 553 of title 5, United States Code, regulations under this subsection shall be promulgated in accordance with the notice and comment requirements of such section.

"(d) If the Director of NIH determines that—

"(1) the conditions of animal care, treatment, or use in an entity which is receiving a grant, contract, or cooperative agreement involving research on animals under this title do not meet applicable guidelines established under subsection (a),

"(2) the entity has been notified by the Director of NIH of such determination and has been given a reasonable opportunity to take corrective action, and

"(3) no action has been taken by the entity to correct such conditions,

the Director of NIH shall suspend or revoke such grant or contract under such conditions as the Director determines appropriate.

"(e) No guideline or regulation promulgated under subsection (a) or (c) may require a research entity to disclose trade secrets or commercial or financial information which is privileged or confidential.

"USE OF APPROPRIATIONS UNDER THIS TITLE

"SEC. 494. Appropriations to carry out the purpose of this title shall be available for the acquisition of land or the erection of buildings only if so specified. Such appropriations, unless otherwise expressly provided, may be expended in the District of Columbia for personal services, stenographic recording and translating services; by contract if deemed necessary, without regard to section 3709 of the Revised Statutes; travel expenses (including the expenses of attendance at meetings when specifically authorized by the Secretary); rental, supplies and equipment, purchase and exchange of medical books, books of reference, directories, periodicals, newspapers, and press clippings; purchase, operation, and maintenance of passenger motor vehicles; printing and binding (in addition to that otherwise provided by law); and for all other necessary expenses in carrying out the provisions of this title.

"GIFTS

"SEC. 495. The Secretary may, in accordance with section 2101, accept conditional gifts for the National Institutes of Health or a national research institute or for the acquisition of grounds or for the erection, equipment, or maintenance of facilities for the National Institutes of Health or a national research institute. Donations of $50,000 or over for the National Institutes of Health or a national research institute for carrying out the purpose of this title may be acknowledged by the establishment within the National Institutes of Health or institute of suitable memorials to the donors.

"FETAL RESEARCH

"SEC. 496. (a) The Secretary may not conduct or support any research or experimentation, in the United States or in any other country, on a nonviable living human fetus ex utero or a living human fetus ex utero for whom viability has not been ascertained unless the research or experimentation—

"(1) may enhance the well-being or meet the health needs of the fetus or enhance the probability of its survival to viability; or

"(2) will pose no added risk of suffering, injury, or death to the fetus and the purpose of the research or experimentation is the development or important biomedical knowl-

edge which cannot be obtained by other means.

"(b) In administering the regulations for the protection of human research subjects which—

"(1) apply to research conducted or supported by the Secretary,

"(2) involve living human fetuses in utero, and

"(3) are published in section 46.208 of part 46 of title 45 of the Code of Federal Regulations,

or any successor to such regulations, the Secretary shall require that the risk standard (published in section 46.102(g) of such part 46 or any successor to such regulations) be the same for fetuses which are intended to be aborted and fetuses which are intended to be carried to term.

"(c)(1) The Biomedical Ethics Advisory Committee appointed under section 381 shall conduct a study of the nature, advisability, and biomedical and ethical implications of exercising any waiver of the risk standard published in section 46.102(g) of such part 46 (or any successor to such regulations). The Committee shall complete the study and report its findings to the Biomedical Ethics Board established under section 381 not later than the expiration of thirty months after the date of the enactment of this Act. The report shall include the recommendations, if any, of the Committee on the advisability of the authority for such a waiver and the circumstances under which such a waiver might be granted. The Biomedical Ethics Board shall transmit the report to the Secretary, the Committee on Energy and Commerce of the House of Representatives, and the Committee on Labor and Human Resources of the Senate.

"(2) During the thirty-six-month period beginning on the date of the enactment of this section, the Secretary may not grant (under section 46.211 of part 45 of title 46 of the Code of Federal Regulations or any successor to such section) a modification or waiver for fetal research.

"(3) Effective October 31, 1987, paragraph (2) is repealed.

"CONSTRUCTION OF TITLE

"SEC. 497. This title shall not be construed as limiting (1) the functions or authority of the Secretary under section 301 or of any officer or agency of the United States, relating to the study, prevention, diagnosis, and treatment of any disease for which a separate national research institute is established under this title, or (2) the expenditure of any funds therefor."

CONFORMING AMENDMENTS

SEC. 3. (a) The National Advisory Health Council established under section 217 is terminated.

(b) Section 217(a) is amended—

(1) in the first sentence—

(A) by striking out "National Advisory Health Council, the National Advisory Mental Health Council, the National Advisory Council on Alcohol Abuse and Alcoholism, and the National Advisory Dental Research Council" and inserting in lieu thereof "National Advisory Mental Health Council and the National Advisory Council on Alcohol Abuse and Alcoholism"; and

(B) by striking out "by the Surgeon General with the approval of the Secretary of Health, Education, and Welfare" and inserting in lieu thereof "by the Secretary";

(2) in the second sentence—

(A) by striking out "in the case of the National Advisory Health Council, are skilled in the sciences related to health, and";

(B) by striking out "the National Advisory Mental Health Council, the National Advisory Council on Alcohol Abuse and Alcoholism, the National Advisory Health Council, and the National Advisory Dental Research Council" and inserting in lieu thereof "the National Advisory Mental Health Council and the National Advisory Council on Alcohol Abuse and Alcoholism"; and

(C) by striking out ", alcohol abuse and alcoholism, and dental diseases and conditions" and inserting in lieu thereof "and alcohol abuse and alcoholism"; and

(3) by striking out the third sentence.

(c) Subsection (b) of section 217 is repealed and subsections (c) through (e) and subsection (g) are redesignated as subsections (b) through (e), respectively.

(d) Section 222(c) is amended to read as follows:

"(c) Upon appointment of any such council or committee, the Secretary may delegate to such council or committee such advisory functions relating to grants-in-aid for research or training projects or programs, in the areas or fields with which such council or committee is concerned, as the Secretary determines to be appropriate.".

(e) Section 301(a) is amended—

(1) in paragraph (3), by striking out "as are recommended" through "for such fiscal year" and inserting in lieu thereof "as are recommended by the advisory council to the entity of the department supporting such projects or, in the case of mental health projects, by the National Advisory Mental Health Council; and make, upon recommendation of this advisory council to the entity of the department involved or the National Advisory Mental Health Council, grants-in-aid to public or nonprofit universities, hospitals, laboratories, and other institutions for the general support of their research"; and

(2) in paragraph (8), by striking out "recommendations of the National Advisory Health Council" through "such additional means" and inserting in lieu thereof "recommendations of the advisory councils to the entities of the department involved or, with respect to mental health, the National Advisory Mental Health Council, such additional means".

(f) Parts I and J of title III are repealed.

(g) Section 8(w) of the Orphan Drug Act (Public Law 97-414) is repealed.

STUDY OF ANIMALS IN RESEARCH; RESEARCH PLAN

SEC. 4. (a)(1) The Secretary of Health and Human Services, through the Director of the National Institutes of Health, shall in accordance with this section arrange for the conduct of a study concerning the use of live animals in biomedical and behavorial research. The Secretary shall request the National Academy of Sciences to conduct the study under an arrangement under which the actual expenses incurred by the Academy in conducting such study will be paid by the Secretary and the Academy will prepare the report required by subsection (c). If the National Academy of Sciences is willing to do so, the Secretary shall enter into such an arrangment with the Academy for the conduct of the study.

(2) If the National Academy of Sciences is unwilling to conduct the study required by paragraph (1) under the type of arrangement described in such paragraph, the Secretary shall enter into a similar arrangement with one or more appropriate nonprofit private entities.

(b) The study requires by subsection (a) shall—

(1) assess the status of the use of live animals in biomedical and behavorial research conducted by entities receiving Federal financial assistance through the National Institutes of Health or any of its agencies to support such research and, if possible, by entities which do not receive Federal financial assistance, including—

(A) a determination of the type of animals used in such research during each of the five years in the five-year period preceding the date which is eighteen months after the date of enactment of this section;

(B) an estimate of the total number of live animals used in such research during each such year;

(C) a survey of the purposes for which live animals are used in such research;

(D) an analysis of whether the use of such animals in such research has decreased or increased over such five-year period; and

(E) an exploration of methods which can be used in the conduct of such research which are alternatives to the use of live animals;

(2) assess the impact on biomedical and behavioral research of the establishment of a requirement that, as a condition of receiving Federal financial assistance to support such research, entities conducting such research be accredited in accordance with standards promulgated by organizations which accredit such entities;

(3) estimate—

(A) the amounts that would be expended by entities which conduct biomedical and behavorial research with Federal financial assistance to equip and modernize their research facilities in order to meet the standards referred to in paragraph (2); and

(B) the amounts that would be expended by entities which have not previously conducted such research with Federal financial assistance to establish, modernize, or equip facilities in order to meet such standards;

(4) review Federal and State laws and regulations governing the use of live animals in biomedical and behavioral research conducted by research institutions, medical facilities, academic institutions, and training programs;

(5) evaluate the extent to which accredited laboratories and research facilities protect animals against inhumane treatment;

(6) evaluate the actions taken by the National Institutes of Health to support research to develop research and testing methodologies which will decrease the number of live animals used in biomedical and behavioral research;

(7) evaluate the actions taken by the National Institutes of Health to improve oversight of the use of live animals in biomedical and behavioral research by entities which receive federal financial assistance through the National Institutes of Health or any of its agencies to support such research; and

(8) evaluate the activities undertaken by the National Institutes of Health to insure the humane care and treatment, and appropriate use, of live animals in biomedical and behavioral research conducted or supported by the National Institutes of Health or any of its agencies.

(c) Within eighteen months after the date of enactment of this Act, the Secretary shall transmit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate, and make available to the public, a report—

(1) describing the study conducted under this section;

(2) containing a statement of the data obtained under such study; and

(3) specifying such recommendations for legislation and administrative action with respect to the use of live animals in biomedical and behavioral research as the Secretary considers appropriate.

(d)(1) The Director of the National Institutes of Health shall establish a plan for—

(A) research to be conducted by or through the National Institutes of Health and the national research institutes into methods of biomedical research and experimentation—

(i) which do not require the use of animals;

(ii) which reduce the number of animals used in such research; or

(iii) which produce less pain and distress in such animals than methods currently in use;

(B) establishing the validity and reliability of the methods described in subparagraph (A);

(C) the development of such methods which have been found to be valid and reliable; and

(D) the training of scientists in the use of such methods.

The plan required by this paragraph shall be prepared not later than October 1, 1985.

(2) The Director fo the National Institutes of Health shall take such actions as may be appropriate to convey to scientists and others involved with research or experimentation involving animals information respecting the methods found to be valid and reliable under paragraph (1)(B).

(3) The Director of the National Institutes of Health shall establish within the National Institutes of Health and Interagency Coordinating Committee to assist the Director of the National Institutes of Health in the development of the plan required by paragraph (1). The Director of each national research institute shall serve on the Committee.

RESEARCH ON LUPUS ERYTHEMATOSUS

SEC. 5. (a) The Secretary shall establish a Lupus Erythematosus Coordinating Committee to plan, develop, coordinate, and implement comprehensive Federal initiatives in research on Lupus erythematosus.

(b)(1) The committee shall be composed of—

(A) the Director of the National Institute of Neurological Communicative Disorders, and Stroke;

(B) the Director of the National Institute of Allergy and Infectious Diseases;

(C) the Director of the National Institute of Arthritis and Musculoskeletal Diseases;

(D) the Director of the National Institute of Child Health and Human Development;

(E) the Director of the National Institute of General Medical Sciences;

(F) the Director of the National Heart, Lung, and Blood Institute;

(G) the Director the National Institute of Diabetes and Digestive and Kidney Diseases; and

(H) the Director of the Centers for Disease Control.

(2) The Committee shall meet at least four times a year. The Secretary shall designate as chairman of the Committee the Director of the National Institute of Arthritis and Musculoskeletal and Skin Diseases.

(c) The Committee shall prepare a report for Congress on its activities. The report shall include a description of research projects on Lupus Erythematosus conducted or supported by Federal agencies in the fiscal year for which the report is made, the nature and purpose of each such project, the amounts expended for each such project, and an identification of the entity which conducted the research under each such project. Such report shall be submitted not later than 18 months after the date of the enactment of this Act. The Committee shall expire one month after the report is submitted.

NATIONAL RESEARCH SERVICE AWARD STUDY

SEC. 6. The Secretary of Health and Human Services shall conduct a study of—

(1) the effect of the service obligation requirement of section 485(c) of the Public Health Service Act on the number and quality of individuals who apply for National Research Service Awards;

(2) the effect of section 485(c)(4) of the Public Health Service Act on the number of persons who engage in health research or training as a career;

(3) the number of persons who receive National Research Service Awards and who engage in health research or training as a career; and

(4) the effectiveness of the grant authority under section 485(a)(1)(B) of the Public Health Service Act in encouraging individuals to engage in health research and training as a career.

The Secretary shall complete the study within one year of the date of the enactment of this Act and shall report the results of the study to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate.

INTERAGENCY COMMITTEE ON SPINAL CORD INJURY

SEC. 7. (a) Within ninety days after the date of enactment of this Act, the Secretary of Health and Human Services shall establish in the National Institute of Neurological and Communicative Diseases and Stroke an Interagency Committee on Spinal Cord Injury, (hereafter in this section referred to as the "Interagency Committee"). The Interagency Committee shall plan, develop, coordinate, and implement comprehensive Federal initiatives in research on spinal cord injury and regeneration.

(b)(1) The Interagency Committee shall consist of representatives from—

(A) the National Institute on Neurological and Communicative Disorders and Stroke;

(B) the Department of Defense;

(C) the Department of Education;

(D) the Veterans' Administration;

(E) the Office of Science and Technology Policy; and

(F) the National Science Foundation, designated by the heads of such entities.

(2) The Interagency Committee shall meet at least four times. The Secretary of Health and Human Services shall select the Chairman of the Interagency Committee from the members of the Interagency Committee.

(c) Within the eighteen months after the date of enactment of this Act, the Interagency Committee shall prepare and transmit to the Congress a report concerning its activities under this section. The report shall include a description of research projects on spinal cord injury and regeneration conducted or supported by Federal agencies during which eighteen-month period, the nature and purpose of each such project, the amounts expended for each such project, and an identification of the entity which conducted the research under each such project.

(d) The Interagency Committee shall terminate ninety days after the date on which the Interagency Committee transmits the report required by subsection (c) to the Congress.

STUDY OF PERSONNEL FOR HEALTH NEEDS OF THE ELDERLY

SEC. 8. (a) The Secretary shall conduct a study on the adequacy and availability of personnel to meet the current and projected health needs (including needs for home and community-based care) of elderly Americans through the year 2020.

(b) The Secretary shall report the results of the study to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate by March 1, 1986. The report on the study shall contain recommendations on—

(1) the number of primary care physicians and other health personnel needed to provide adequate care for the elderly,

(2) the training needs of physicians (including specialists) and other health personnel to provide care responsive to the particular needs of the elderly,

(3) necessary changes in medicare and other third party reimbursement necessary to support training of primary care and other physicians to meet the needs of the elderly, and

(4) necessary program changes in third party reimbursement programs (including changes in medicare programs) to support training of other health personnel in the care of the elderly.

INTERAGENCY COMMITTEE ON LEARNING DISABILITIES

SEC. 9. (a) Not later than ninety days after the date of the enactment of this Act, the Director of the National Institutes of Health shall establish an Interagency Committee on Learning Disabilities to review and assess Federal research priorities, activities, and findings regarding learning disabilities (including central nervous system dysfunction in children).

(b) The Committee shall be composed of such representatives as the Director may designate, but shall include representatives from the National Institute of Neurological and Communicative Disorders and Stroke, the National Institute of Child Health and Human Development, the National Institute of Allergy and Infectious Diseases, the National Eye Institute, the National Institute of Environmental Health Sciences, and the Division of Research Resources of the National Institutes of Health.

(c) Not later than eighteen months after the date of the enactment of this Act, the Committee shall report to the Congress on its activities under subsection (a) and shall include in the report—

(1) the number of persons affected by learning disabilities and the demographic data which describes such persons;

(2) a description of the current research findings on the cause, diagnosis, treatment, and prevention of learning disabilities, and

(3) recommendations for legislation and administrative actions—

(A) to increase the effectiveness of research on learning disabilities and to improve the dissemination of the findings of such research, and

(B) respecting specific priorities for research in the cause, diagnosis, treatment, and prevention of learning disabilities.

(d) The Committee shall terminate on the ninetieth day following the date of the submission of the report under subsection (c).

NATIONAL COMMISSION ON ORPHAN DISEASES

SEC. 10. (a) There is established the National Commission on Orphan Diseases.

(b) The Commission shall assess the activities of the National Institutes of Health, the Alcohol, Drug Abuse, and Mental Health Administration, and other public agencies and of private entities in connection with—

(1) basic research conducted on rare diseases;

(2) the use in research on rare diseases of knowledge developed in other research;

(3) applied and clinical research on the prevention, diagnosis, and treatment of rare diseases; and

(4) the dissemination of knowledge developed in research on rare diseases and other diseases to the public, health care professionals, researchers, and drug and medical device manufacturers which can be used in the prevention, diagnosis, and treatment of rare diseases.

(c) In assessing the activities of the National Institutes of Health and the Alcohol, Drug Abuse, and Mental Health Administration in connection with research on rare diseases, the Commission shall review—

(1) the appropriateness of the priorities currently placed on research on rare diseases;

(2) the relative effectiveness of grants and contracts when used to fund research on rare diseases;

(3) the appropriateness of specific requirements applicable to applications for funds for research on rare diseases taking into consideration the reasonable capacity of applicants to meet such requirements;

(4) the adequacy of the scientific basis for such research, including the adequacy of the research facilities and research resources used in such research and the appropriateness of the scientific training of the personnel engaged in such research;

(5) the effectiveness of activities undertaken to encourage such research;

(6) the organization of the peer review process applicable to applications for funds for such research to determine if the organization of the peer review process could be revised to improve the effectiveness of the review provided to proposals for research on rare diseases;

(7) the effectiveness of the coordination between the national research institutes of the National Institutes of Health, the institutes of the Alcohol, Drug Abuse, and Mental Health Administration, and private entities in supporting such research; and

(8) the effectiveness of activities undertaken to assure that knowledge developed in research on non-rare diseases is, when appropriate, used in research on rare diseases.

(d) The Commission shall be composed of twenty members appointed by the Secretary of Health and Human Services as follows:

(1) Ten members shall be appointed from individuals who are not officers or employees of the Government and who by virtue of their training or experience in research on rare diseases or in the treatment of rare diseases are qualified to serve on the Commission.

(2) Five members shall be appointed from individuals who are not officers or employees of the Government and who have a rare disease or are employed to represent or are members of an organization concerned about rare disease.

(3) Five nonvoting members shall be appointed from—

(A) directors of national research institutes of the National Institutes of Health, or

(B) directors of institutes of the Alcohol, Drug Abuse, and Mental Health Administration,

which the Secretary determines are involved with rare diseases.

A vacancy in the Commission shall be filled in the manner in which the original appointment was made.

(e) If any member of the Commission who was appointed to the Commission as a director of a national research institute or an institute of the Alcohol, Drug Abuse, and Mental Health Administration leaves that office, or if any member of the Commission who was appointed from persons who are not officers or employees of the Government becomes an officer or employee of the Government, he may continue as a member of the Commission for not longer than the ninety-day period beginning on the date he leaves that office or becomes such an officer or employee, as the case may be.

(f) Members shall be appointed for the life of the Commission.

(g)(1) Except as provided in paragraph (2), members of the Commission shall each be entitled to receive the daily equivalent of the annual rate of basic pay in effect for grade GS-18 of the General Schedule for each day (including travel-time) during which they are engaged in the actual performance of duties vested in the Commission.

(2) Members of the Commission who are full-time officers or employees of the Government shall receive no additional pay by reason of their service on the Commission.

(h) The Chairman of the Commission shall be designated by the members of the Commission.

(i) Subject to such rules as may be prescribed by the Commission, the Commission may appoint and fix the pay of such personnel as it determines are necessary to enable the Commission to carry out its functions. Personnel shall be appointed subject to the provisions of title 5, United States Code, governing appointments in the competitive service, and shall be paid in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates.

(j) Subject to such rules as may be prescribed by the Commission, the Commission may procure temporary and intermittent services under section 3109(b) of title 5 of the United States Code, but at rates for individuals not to exceed the daily equivalent of the basic pay payable for grade GS-15 of the General Schedule.

(k) Upon request of the Commission, the head of any Federal agency is authorized to detail, on a reimbursable basis, any of the presonnel of such agency to the Commission to assist the Commission in carrying out its duties under this section.

(l) The Administrator of General Services shall provide to the Commission on a reimbursable basis such administrative support services as the Commission may request.

(m) The Commission may, for the purpose of carrying out this section, hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence, as the Commission considers appropriate.

(n) The Commission may secure directly from any department or agency of the United States information necessary to enable it to carry out this section. Upon request of the Chairman, the head of such department or agency shall furnish such information to the Commission.

(o) The Commission shall transmit to the Secretary and to each House of the Congress a report not later than September 30, 1986, on the activities of the Commission. The report shall contain a detailed statement of the findings and conclusions of the Commission, together with its recommendations for—

(1) a long range plan for the use of public and private resources to improve research into rare diseases and to assist in the prevention, diagnosis, and treatment of rare diseases; and

(2) such legislation or administrative actions as it considers appropriate.

(p) The Commission shall cease to exist on the ninetieth day following the date of the submittal of its report under subsection (o).

(q) The Director of the National Institutes of Health shall make available $1,000,000 to the Commission from appropriations for fiscal year 1985 for the National Institutes of Health.

REVIEW OF DISEASE RESEARCH PROGRAMS OF THE NATIONAL INSTITUTE OF DIABETES AND DIGESTIVE AND KIDNEY DISEASES

SEC. 11. The Secretary of Health and Human Services shall conduct an administrative review of the disease research programs of the National Institute of Diabetes and Digestive and Kidney Diseases to determine if any of such programs could be more effectively and efficiently managed by other national research institutes. The Secretary shall complete such review within the one-year period beginning on the date of the enactment of this section.

BIOMEDICAL ETHICS

SEC. 12. Title III (as amended by section 3) is amended by adding at the end the following:

"PART I—BIOMEDICAL ETHICS

"SEC. 381. (a) There is established in the legislative branch of the Government the Biomedical Ethics Board (hereinafter referred to as the 'Board').

"(b)(1) The Board shall consist of twelve members as follows:

"(A) Six Members of the Senate appointed by the President pro tempore of the Senate, three from the majority party and three from the minority party.

"(B) Six Members of the House of Representatives appointed by the Speaker of the House of Representatives, three from the majority party and three from the minority party.

"(2) The term of office of a member of the Board shall expire when the member leaves the office of Senator or Representative, as the case may be, or upon the expiration of eight years from the date of the member's appointment to the Board, whichever occurs first.

"(3) Vacancies in the membership of the Board shall not affect the power of the remaining members to execute the functions of the Board and shall be filled in the same manner as in the case of the original appointment.

"(4) The Board shall select a chairman and a vice chairman from among its members at the beginning of each Congress, The vice chairman shall act as chairman in the absence of the chairman or in the event of the incapacity of the chairman. The chairmanship and vice chairmanship shall alternate between the Senate and the House of Representatives with each Congress. The chairman during each even-numbered Congress shall be selected by the Members of the House of Representatives on the Board from among their number. The vice chairman during each Congress shall be chosen in the same manner from that House of Congress other than the House of Congress of which the chairman is a Member.

"(5) The Board shall meet once every three months unless such meeting is dispensed with by the chairman, and may meet at any time upon the request of four or more members of the Board or upon the call of the chairman.

"(c)(1) The Board shall study and report to the Congress on a continuing basis on the ethical issues arising from the delivery of health care and biomedical and behavioral research, including the protection of human subjects of such research and developments in genetic engineering (including activities in recombinant DNA technology) which have implications for human genetic engineering.

"(2)(A) Except as provided in subparagraph (B), an annual report shall be transmitted to the Congress identifying the issues which were the subject of the study conducted under paragraph (1) and identifying areas, programs, and practices of medicine and biomedical and behavioral research which have significant ethical implications and which would be appropriate subjects for study.

"(B) A report on research and developments in genetic engineering (including activities in recombinant DNA technology) which have implications for human genetic engineering shall be transmitted to the Congress not later than eighteen months after the appointment of the Committee under subsection (d).

"(d)(1) To conduct the study and make the reports required by subsection (c), the Board shall appoint a Biomedical Ethics Advisory Committee (hereinafter referred to as the 'Committee'). The Committee shall consist of fourteen members as follows:

"(A) Four of the members shall be appointed by the Board from individuals who are distinguished in biomedical or behavioral research.

"(B) Three of the members shall be appointed by the Board from individuals who are distinguished in the practice of medicine or otherwise distinguished in the provision of health care.

"(C) Five of the members shall be appointed by the Board from individuals who are distinguished in one or more of the fields of ethics, theology, law, the natural sciences (other than a biomedical or behavioral science), the social sciences, the humanities, health administration government, and public affairs.

"(D) Two of the members shall be appointed by the Board from individuals who are representatives of citizens with an interest in biomedical ethics but who possess no specific expertise.

"(2)(A) The Committee, by majority vote, shall elect from its members a chairman and a vice chairman and appoint an executive director who shall serve for such time and under such conditions as the committee may prescribe. In the absence of the chairman, or in the event of his incapacity, the vice chairman shall act as chairman.

"(B) The term of office of each member of the Committee shall be four years, except that any such member appointed to fill a vacancy occuring prior to the expiration of the term for which his predecessor was appointed shall be appointed for the remainder of such term. Terms of the members shall be staggered so as to establish a rotating membership.

"(C) The members of the Committee shall receive no pay for their services as members of the Committee, but shall be allowed necessary travel expenses (or, in the alternative, mileage for use of privately owned vehicles and a per diem in lieu of subsistence at not to exceed the rate prescribed in sections 5702 and 5704 of title 5, United States Code) and other necessary expenses incurred by them in the performance of duties vested in the committee, without regard to the provisions of subchapter 1 of chapter 57 and section 5731 of title 5, United States Code, and regulations promulgated thereunder.

"(D) The executive director of the committee, with the approval of the Committee, may employ such staff and consultants as necessary to prepare studies and reports for the Committee.

"(3)(A) The Committee may, for the purpose of carrying out its functions, hold such public hearings, sit and act at such times and places, and take such testimony, as the Committee considers appropriate.

"(B) Upon request of the Committee, the head of any Federal agency is authorized to detail, on a reimbursable basis, any of the personnel of such agency to the Committee to assist the Committee in carrying out its functions.

"(C) The Committee may secure directly from any department or agency of the United States information necessary to enable it to carry out its functions. Upon request of the chairman of the Committee, the head of such department or agency shall furnish such information to the Committee.

"(D) The Committee may accept, use, and dispose of gifts or donations or services or property.

"(E) The Committee may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

"(e) To enable the Board and the Committee to carry out their functions there are authorized to be appropriated $2,000,000 for fiscal year 1985, $2,500,000 for fiscal year 1986, and $3,000,000 for fiscal year 1987.".

MISCELLANEOUS

SEC. 13. (a) From funds available under section 301 of the Public Health Act in fiscals years 1985 and 1986, the Secretary of Health and Human Services, in consultation with the Director of the National institutes of Health and Commissioner of the Food and Drug Administration, shall make a grant to an academic institution for the establishment and operation of a center to conduct research on the health effects of nuclear energy and other new energy technologies. No grant under this section may exceed $2,000,000 in any fiscal year. A grant made under this section shall be subject to the requirements of section 490 of the Public Health Service Act.

(b) In fiscal year 1985, the Secretary of Health and Human Services shall, through the National Cancer Institute, establish or support at least one clinic or health facility for cancer screening and research which is affiliated with a health science center capable of providing clinical, research, and interdisciplinary technical assistance to such clinic or facility and which is proximate and accessible to the preponderance of the residents of the area that have received the greatest fallout from the Nevada nuclear tests.

EFFECTIVE DATE

SEC. 14. This Act and the amendments made by this Act shall take effect on the date of the enactment of this Act. The authority to enter into contracts under section 4 shall be effective for any fiscal year only to the extent that appropriations are generally available for that purpose.

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title of the bill and agree to the same.

DON NICKLES,
EDWARD M. KENNEDY,
SPARK MATSUNAGA.
Managers on the Part of the Senate.

INTRODUCTORY STATEMENT

House and Senate conferees met to consider the text of S. 540, as amended by the House amendment reflecting the provisions of H.R. 2350 which passed the House on November 17, 1983. The House amendment represented a complete recodification of Title IV of the Public Health Service Act, authority for the National Institutes of Health. In addition, the amendment extended the authorization of appropriations for the National Cancer Institute, National Heart, Lung and Blood Institute, National Research Service Awards and various miscellaneous health research authorities. The Senate bill established a new National Institute of Arthritis and Musculoskeletal and Skin Diseases and an Ethics Advisory Board within the Office of Technology Assessment, and extended the authorization of appropriations for various research boards and clearinghouses.

Unless otherwise noted in the Statement of Managers the conference agreement generally reflects the House amendment. The conference agreement extends for two fiscal years the authorization of appropriations for expiring authorities of the National Institutes of Health (NIH). These authorities include the National Cancer Institute, National Heart, Lung and Blood Institute, National Library of Medicine's Library Assistance Act and the National Research Service Awards program. An authorization is also provided for research into spinal cord regeneration, Alzheimer's Disease, and bioengineering to overcome paralysis and mental retardation.

In addition, the legislation updates the statutory authority for the NIH, strengthens procedures for the investigation of scientific misconduct, provides for issuance of guidelines to assure the proper care and treatment of animals used in research, and emphasizes research related to the prevention of disease.

The Act delineates the national research institutes and other agencies which constitute the NIH, and establish NIH as an agency of the Public Health Service. The national research institutes specified include the National Institute of Environmental Health Sciences (NIEHS) and the National Institute of Allergy and Infectious Diseases (NIAID), institutes which were created administratively and are not referred to in the current Title IV.

The secretary is authorized to establish additional institutes administratively and to reorganize or abolish unnecessary ones after

submitting a report, six months in advance of such changes, to the Committee on Energy and Commerce in the House and the Committee on Labor and Human Resources in the Senate.

The conference agreement describes the method of appointment and delineates the authority of the NIH Director.

RECODIFICATION OF NIH AUTHORITY

The Senate receded to the House provisions recodifying the statutory authority of the National Institutes of Health. The conferees note that the statutory authority of the NIH was last revised in 1944 and required technical revisions to provide consistent, coordinated authority for all of the national research institutes and their $5 billion annual program. The recodification is a significant step in clarifying and delineating the research functions of the national research institutes and other agencies of the NIH. This rewrite of the law does not change the general authority of the Secretary of Health and Human Services to conduct research, investigations, experiments, and demonstrations relating to physical and mental diseases provided under Section 301 of the Public Health Service Act.

ESTABLISHMENT OF NEW NATIONAL RESEARCH INSTITUTES

The House receded, with an amendment, to the Senate provision establishing a National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS). The House amendment retained the current Arthritis Advisory Board and made technical and conforming changes to integrate the authority of the new institute into the recodification. Establishment of an arthritis institute necessitates technical revisions in the authority of the new National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK). Revisions were made in the authority for NIDDK to assure that each disease cluster has adequate and parallel authority to conduct research and education activities. Accordingly, the conference agreement establishes in statute a new Interagency Coordinating Committee for Kidney and Urologic Diseases in addition to the existing Committees for Diabetes Mellitus and Digestive Diseases. In addition, a new Kidney and Urologic Diseases Advisory Board is created to parallel the National Diabetes Advisory Board and the National Digestive Diseases Advisory Board. The conference agreement provides for establishment of research centers programs for digestive diseases and kidney and urologic diseases to parallel those for Diabetes.

The conference agreement requires the Secretary to conduct an administrative review of the disease research programs of NIDDK to determine if any program might, from both scientific and management standpoints, be more effectively and efficiently administered by other existing NIH Institutes.

DIET THERAPY FOR KIDNEY FAILURE

The House Bill required the Director of the National Institute of Diabetes and Digestive and Kidney Diseases to conduct research into the role of diet therapy in the treatment of end stage renal disease and to report the results of such research to the Congress. The House receded to the Senate, dropping the provision, in recognition of the progress that has been made by the Institute in implementing a similar mandate in the Omnibus Reconciliation Act of 1980.

The Conferees are encouraged that a panel of distinguished nephrologists was convened by the Institute and that the panel reported to the Secretary of Health and Human Services (in a letter of May 17, 1982) that "there is a distinct possibility that nutritional therapy can significantly retard the progression of chronic renal failture, as well as reducing uremic symptoms." Following this report, the Institute issued requests for cooperative agreements to explore this possibility, and the final protocols for the pilot studies will begin soon.

The conferees remain concerned, however, about the scope of the research to be conducted. For example, as extremely low-protein diets are studied, supplementation not only with keto analogues, but also with the potentially less costly essential amino acids should be considered. In addition, the nephrology panel's recommendation for studies on the effects of nutritional therapy upon growth, development and renal function in children has not been put into effect. The Conferees encourage the Institute to continue these important studies, and also to address the important issues related to renal failure in childhood.

NATIONAL INSTITUTE OF NURSING

The Senate receded to the House on the establishment of a National Institute of Nursing. The new National Institute of Nursing is intended to provide a focal point for promoting the growth and quality of nursing research, to provide leadership to expand the pool of experienced nursing researchers and to promote closer interaction with other bases of health care research. The conferees intend that nursing research activities conducted by the Division of Nursing in the Health Resources and Services Administration be transferred to the NIH.

REORGANIZATION AND ESTABLISHMENT OF NATIONAL RESEARCH INSTITUTES

The House receded to the Senate with an amendment which maintained the authority of the Secretary to reorganize the functions of any national research institute, including the abolishment of an institute or establishment of new institutes. The conference agreement provides that such administrative actions may only take effect 180 days after the Secretary has notified the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House.

PEER REVIEW OF INTRAMURAL RESEARCH

The conference agreement requires the Director of the NIH to establish procedures for periodic technical and scientific peer review of all intramural research conducted at the National Institutes of Health. It is not the conferees' intent that the review procedures for intramural research be the same as those for extramural research. The conferees recognize that there are significant differences between the intramural and extramural activities. The conferees do not intend that the review procedures established by the Director rely on the extramural model of prospective peer review of research on a project-by-project basis as a condition for support or future work. Peer review of intramural research should consider the work—past, present and future—conducted either by an entire laboratory or section of a laboratory.

Peer review may encompass the research projects of several investigators. Peer review should be conducted and reported on to the Congress at regular intervals but not less than every two years. The conferees agreed that the Director of NIH should submit, as part of the biennial report required by section 403 of the Act, an analysis of the Institute's intramural peer review procedures.

The entity conducting the peer review of an intramural laboratory is to be provided a written description of the overall research to be reviewed prior to the time of the review. This written description should present the overall past accomplishment of the laboratory and its investigators since the last review was conducted. The written description might also present: the general aims, objectives and projected directions of the research projects to be conducted; appropriate background information on possible future research projects; a brief summary of the general research plan; and an indication of the importance of the research projects.

An entity conducting peer review of intramural research is to provide the institute's advisory council with a written description of the research, the results of the review and the recommendations of the reviewing entity. The conference agreement authorizes, but does not require, the advisory council to make recommendations to the institute director regarding intramural activities conducted by the institute.

FEDERAL ADVISORY COMMITTEE ACT

The Senate receded to the House provision which would exclude scientific peer review panels from this jurisdiction. It was felt that this exclusion was needed to avoid unnessary paperwork and delays in appointment of peer review panelists.

NIH DIRECTOR'S ADVISORY BOARD

The House amendment specified membership and structure of the Director's Advisory Board. The conferees believe the activities of the Advisory Board would be more flexible if not specified in statute. According the House receded to the Senate provision which did not specify the board in statute.

BIENNIAL REPORT

The conference agreement reflects the House provision which would require that the NIH Director prepare a biennial report to the Congress and that the report contain separate reports from the Director of each national research institute. The effect of the provision is to consolidate existing reporting requirements into a single, comprehensive report from the NIH Director. The conferees intend that the report be written, edited and organized in a manner to assist the Congress in its oversight responsibilities. Reports from the individual directors of national research institutes should include reports from their respective advisory councils if the council desires to submit such a report. The conference agreement contains a minor amendment to the House provision to require that the report be submitted to the Congress not more than 90 days after the two-fiscal-year period for which the report is to be submitted.

The conferees do not intend that this provision be construed to prevent individual institutes from reporting to the Secretary or the Congress on their activities on a more frequent basis. Institutes may continue to do so, provided they participate fully in the two-year reports. Specifically, conferees are aware that the National Heart, Lung and Blood Institute has conveyed concern that research priorities may not be apparent to the Congress without annual reporting. The conferees intend that nothing in this legislation should inhibit the Director of the National Heart, Lung and Blood Institute or its Advisory Council from making individual reports to the Congress during the interim year of the biennial report.

DISEASE PREVENTION

The House amendment required that an Associate Director for Prevention be established in ten of the eleven national research institutes. Under current law an Assistant Director for Prevention is only required at the National Heart, Lung and Blood Institute. The Senate receded, with an amendment, to the House provision. In addition to the existing position at NHLBI, the conference agreement provides for the establishment of Associate Directors for Prevention within the National Cancer Institute, National Institute of Child Health and Human Development and within the Office of the NIH Director.

The Associate Director for Prevention within the Office of the NIH Director has responsibility to promote and coordinate the research programs of the national research institutes regarding the prevention of disease. The Associate Director is also responsible for coordinating NIH prevention activities with similar programs in other entities of the Department of Health and Human Services. The conferees believe the Associate Director should be a forceful, competent representative for research regarding the prevention of desease. In appointing the Associate Director of NIH should seek an individual from among the nation's outstanding public health and prevention researchers.

Although the conference agreement does not establish Associate Directors for Prevention within all national research institutes, the conferees believe each institute should give serious consideration to establishing such a position administratively. The conferees believe research into the prevention of disease is research directly related to reducing the incidence of diseases or disorders, reducing the high-risk precursors of such diseases or disorders, and reducing the adverse consequences of such precursors and early manifestations of such diseases or disorders.

PEER REVIEW OF RESOURCE CONTRACTS

The House amendment required peer review of contracts for research resources if they exceeded $500,000. The Senate bill contained no similar provision. The House receded.

ADVISORY COUNCIL REVIEW

The conference agreement increased from $35,000 to $50,000 the direct costs of grants and cooperative agreements which require advisory council review.

ADVISORY COUNCILS

The conference agreement revises the composition of institute advisory councils to increase representation by experts in public health and the behavioral or social sciences. the membership of each advisory council must include two-thirds scientists with expertise in the disciplines of the respective institute and include experts in public health and the behavioral or social sciences. The remaining one-third should be from the general public who are knowledgeable with respect to diseases funded under the respective institute, including leaders in such fields as social policy, law, health policy, economics and management. Advisory Councils were also provided authority to review contracts and intramural research programs although these activities are optional, not mandatory, requirements. The conferees retained provisions of existing law requiring the directors of national research institutes to consult with advisory councils in carrying out institute functions related to education and research.

NATIONAL CANCER INSTITUTE

The conference agreement extends for two fiscal years the authorization of appropriations for the National Cancer Institute's (NCI) research and cancer control programs. A total of $1.248 million is authorized for these activities in Fiscal Year 1985 and $1.345 million in Fiscal Year 1986.

The basic mission of the NCI was revised to require sponsorship of research on the continuing care of cancer patients and their families. The conferees agreed that a critical problem in cancer research is the growing number of patients suffering from cancer who seek alternative and unproven therapies when they have not responded to traditional methods of treatment. The cost and emotional suffering to dying patients and their families is significant. The conferees believe the Institute should give high priority to the long term care of cancer patients and to the training of physicians in providing compassionate care to the terminally ill in addition to efforts to find cures and means of preventing malignant disease.

The conferees also strengthened provisions of existing law by requiring maintenance of the NCI's international data system and by requiring that information be disseminated to the public, practicing physicians and oncological investigators.

The House amendment included specification that the National Cancer Institute maintain support for at least 55 cancer centers. The House receded to the Senate provision which does not specify the number of centers to be funded. However, conferees are in unanimous support for the cancer center program and several members in both the Senate and the House had expressed strong support for maintenance and expansion of the NCI cancer center program.

In expanding the number of cancer centers the conferees believe high priority should be given to those areas which are currently underserved or demographically unique. An example of such need is the state of Utah which offers a number of specialized opportunities for cancer research. Scientific literature has documented that the Mormon population offers unique research opportunities in cancer prevention related to diet and nutrition. Low rates of cancer found in this population appear to be related to specific dietary factors. Utah is also the site of exposure to low-level radiation which occured secondary to above ground testing of nuclear weapons in the 1940's and 1950's. Therefore, this state's population offers distinct epidemiological opportunities to study the consequence of radiation exposure. Cancer screening is a logical extension of this activity, and the establishment of a cancer center in Utah will assist in serving not only the state, but the central northwest region of the country by providing treatment now unavailable to patients in large rural areas in this region of the country. Conferees recognize that at present plans are underway to establish a regional cancer center in West Virginia, which would serve the Appalachian Plateau. This area has been identified as being significantly underserved regarding modern cancer therapy, and development of this center at the West Virginia University will accomplish a great deal to serve the citizens of this area.

Although conferees agreed not to mandate a minimum level of support for the cancer center program, there is strong bipartisan support and encouragement for the director of the National Cancer Institute to maintain current programs and expand this effort as resources permit.

NATIONAL RESEARCH SERVICE AWARDS (NRSAs)

These training grants for young scientists are deemed important by all conferees. Authorization for appropriations was recommended at a level sufficient to provide support for at least 10,100 trainees, with a modest increase in stipend. The Senate receded to the House position which would maintain the payback requirement for research trainees who elect not to pursue a career in research. However, the conferees did not agree that this provision succeeds in its stated purpose of encouraging young scientists to pursue a research career.

The conference agreement requires the Secretary to undertake a study of the NRSA program. A major concern of the study is to determine the effect of the payback requirement, both benefits or problems, on the number and quality of individuals who apply for National Research Service Awards and become career researchers.

ETHICS ADVISORY COMMISSION

CONFERENCE AGREEMENT

The conference agreement would change the ethics advisory committee located in the Office of Technology Assessment (OTA) in the Senate bill into an independent Congressional Ethics Advisory Commission patterned after the OTA. The Commission would examine a broad range of biomedical issues and report to the Congress and the public. Two studies are specifically mandated in the legislation: (1) an examination of the nature, advisability, and the biomedical and ethical implications of exercising any waiver of existing Federal protections of human fetuses in research and (2) a study of the ethical implications of developments in genetic engineering for human genetic engineering.

FETAL RESEARCH

The Conference Agreement includes provisions to define the circumstances under which research involving living human fetuses may be conducted.

In the case of living human nonviable fetuses ex utero or living human fetuses for whom viability has been determined, the Secretary may support only those research projects that (1) may enhance the well-being or meet the health needs of the fetus, (2) enhance the probability of the fetus' survival to viability, or (3) whose purpose is to develop important biomedical knowledge that cannot be obtained by other means and that will pose no added risk of suffering, injury, or death to the fetus. This standard is to be equally applied to fetuses that are aborted spontaneously or by induced abortion. It is not the intention of the Conferees that the phrase "no added risk of suffering" be construed to restrict routine diagnostic or medical procedures, such as the drawing of blood, that may themselves involve transient pain but pose no risk to the fetus of long-term suffering or injury.

In the case of living human fetuses in utero, the agreement requires that the Secretary administer regulations regarding the standard of risk in such a manner that a fetus that is intended for abortion is exposed to no greater risk than that to which a fetus that is intend to be carried to term may be exposed.

The conference agreement further provides that the Biomedical Ethics Advisory Committee, created by this legislation, is to conduct a study of the nature, advisability,

and biomedical and ethical implications of exercising any waiver of the current "minimal risk" standard (or any successor to this standard) in research involving fetuses. The Committee is to complete its report within thirty months of the enactment of this legislation and shall report its findings to the Biomedical Ethics Board. The Board is to transmit the Committee's report to the Secretary, as well as the Senate Committee on Labor and Human Resources and the House Committee on Energy and Commerce. The Conferees note that while the charge to the Committee is limited under this provision, the Committee is empowered under other provisions of this legislation to review and investigate other issues involving the protection of human subjects, including fetuses.

The Conference agreement also prohibits the Secretary from granting a waiver of the requirements of current regulations regarding research that is of unknown or greater-than-minimal risk. In addition, the conference agreement does not prohibit the Secretary from revising any regulations in effect on the day prior to the enactment of this legislation, including the waiver provision. This prohibition is intended to last for three years and is repealed as of October 31, 1987.

CONFERENCE REPORT ON H.R. 3398

Mr. ROSTENKOWSKI submitted the following conference report and statement on the bill (H.R. 3398) to amend the trade laws, authorize the negotiation of trade agreements, extend trade preferences, change the tariff treatment with respect to certain articles and for other purposes:

CONFERENCE REPORT (H. REPT. No. 98-1156)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the amendments of the Senate to the bill (H.R. 3398) to amend the trade laws, authorize the negotiations of trade agreements, extend trade preferences, change the tariff treatment with respect to certain articles and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

That this Act with the following table of contents may be cited as the "Trade and Tariff Act of 1984":

TITLE I—TARIFF SCHEDULES AMENDMENTS

Subtitle A—Reference to Tariff Schedules

Sec. 101. Reference.

Subtitle B—Permanent Changes in Tariff Treatment

Sec. 111. Coated textile fabrics.
Sec. 112. Warp knitting machines.
Sec. 113. Certain gloves.
Sec. 114. Pet toys.
Sec. 115. Water chestnuts and bamboo shoots.
Sec. 116. Gut for use in manufacture of sterile surgical sutures.
Sec. 117. Orange juice products.
Sec. 118. Reimportation of certain articles originally imported duty free.
Sec. 119. Geophysical equipment.
Sec. 120. Scrolls or tablets used in religious observances.
Sec. 121. Steel pipes and tubes used in lampposts.
Sec. 122. Wearing apparel.
Sec. 123. Recently developed dairy products.
Sec. 124. Telecommunications product classification.
Sec. 125. Fresh asparagus.
Sec. 126. Chipper knife steel.
Sec. 127. Implementation of customs convention on containers, 1972.

Subtitle C—Temporary Changes in Tariff Treatment

Sec. 131. Fresh, chilled, or frozen brussels sprouts.
Sec. 132. B-naphthol.
Sec. 133. 4-chloro-3-methylphenol.
Sec. 134. Tetraamino biphenyl.
Sec. 135. 6-amino-1-naphthol-3-sulfonic acid.
Sec. 136. DSA.
Sec. 137. Guanidines.
Sec. 138. Certain antibiotics.
Sec. 139. Acetylsulfaguanidine.
Sec. 140. Fenridazon-potassium.
Sec. 141. Uncompounded allyl resins.
Sec. 142. Sulfamethazine.
Sec. 143. Sulfaguanidine.
Sec. 144. Terfenadine.
Sec. 145. Sulfathizole.
Sec. 146. Sulfaquinoxaline and sulfanilamide.
Sec. 147. Dicyclomine hydrochloride and mepenzolate bromide.
Sec. 148. Amiodarone.
Sec. 149. Desipramine hydrochloride.
Sec. 150. Clomiphene citrate.
Sec. 151. Yttrium bearing materials and compounds.
Sec. 152. Tartaric acid and chemicals.
Sec. 153. Certain mixtures of magnesium chloride and magnesium nitrate.
Sec. 154. Nicotine resin complex.
Sec. 155. Rifampin.
Sec. 156. Lactulose.
Sec. 157. Iron-dextran complex.
Sec. 158. Natural graphite.
Sec. 159. Zinc.
Sec. 160. Certain diamond tool blanks.
Sec. 161. Clock radios.
Sec. 162. Lace-braiding machines.
Sec. 163. Certain magnetron tubes.
Sec. 164. Narrow fabric looms.
Sec. 165. Umbrella frames.
Sec. 166. Crude feathers and down.
Sec. 167. Canned corned beef.

Sec. 902. Congressional findings and purposes.
Sec. 903. Definitions.
Sec. 904. Designation of major wine trading countries.
Sec. 905. Actions to reduce or eliminate tariff and nontariff barriers affecting United States Wine.
Sec. 906. Required consultations.
Sec. 907. United States wine export promotion.

TITLE I—TARIFF SCHEDULES AMENDMENTS

Subtitle A—Reference to Tariff Schedules

SEC. 101. REFERENCE.

Whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a schedule, item, headnote or other provision, the reference shall be considered to be made to a schedule, item, headnote or other provision of the Tariff Schedules of the United States (19 U.S.C. 1202).

Subtitle B—Permanent Changes in Tariff Treatment

SEC. 111. COATED TEXTILE FABRICS.

(a) Headnote 5 of schedule 3 is amended to read as follows:

"5. (a) Except as otherwise provided in subsection (b) of this headnote, for the purposes of parts 5, 6, and 7 of this schedule and parts 1 (except subpart A), 4, and 12 of schedule 7, in determining the classification of any article which is wholly or in part of a fabric coated or filled, or laminated, with nontransparent rubber or plastics (which fabric is provided for in part 4C of this schedule), the fabric shall be regarded not as a textile material but as being wholly of rubber or plastics to the extent that (as used in the article) the nontransparent rubber or plastics forms either the outer surface of such article or the only exposed surface of such fabric.

"(b) Any fabric described in part 4C of this schedule shall be classified under part 4C whether or not also described elsewhere in the schedules.".

(b) The headnotes to subpart C of part 4 of schedule 3 are amended—

(1) by striking out clause (vii) in headnote 1; and

(2) by inserting "or value" after "quantities" in headnote 2(c).

(c) Part 12 of schedule 7 is amended by inserting immediately after headnote 1 the following new headnote:

"2. This part does not cover fabrics, coated or filled, or laminated, with rubber or plastics provided for in part 4C of schedule 3.".

SEC. 112. WARP KNITTING MACHINES.

(a) Subpart E of part 4 of schedule 6 is amended by striking out item 670.20 and inserting in lieu thereof the following new items with article descriptions at the same indentation level as the article description in item 670.19:

"670.20	Warp knitting machines	Free		40% ad val.
670.21	Other	5.6% ad val.	4.7% ad val.	40% ad val.".

(b) Item 912.14 of the Appendix is repealed.

(c)(1) The rate of duty in column numbered 1 for item 670.21 (as added by subsection (a)) shall be subject to all staged rate reductions for item 670.20 that were proclaimed by the President before the date of the enactment of this Act.

(2) Whenever the rate of duty specified in column numbered 1 for such item 670.21 is reduced to the same level as the corresponding rate of duty specified in the column entitled "LDDC" for such item, or to a lower level, the rate of duty in such "LDDC" column shall be deleted.

SEC. 113. CERTAIN GLOVES.

Subpart C of part 1 of schedule 7 is amended—

(1) by amending headnote 1—

(A) by striking out "and" at the end of paragraph (a),

(B) by striking out the period at the end of paragraph (b) and inserting, "; and", and

(C) by adding at the end thereof the following new paragraph:

"(c) the term 'with fourchettes' includes only gloves which, at a minimum, have fourchettes extending from fingertip to fingertip between each of the four fingers."; and

(2) by amending item 705.85 by striking out "textile fabric" and "or sidewalls".

SEC. 114. PET TOYS.

Subpart A of part 13 of schedule 7 is amended by inserting immediately after item 790.55 the following new item:

"790.57	Toys for pets, of textile materials	8.5% ad val.	80% ad val.".

SEC. 115. WATER CHESTNUTS AND BAMBOO SHOOTS.

(a) Items 903.45, 903.50, and 903.55 are repealed.

(b) Subpart A of part 8 of schedule 1 is amended as follows:

(1) Item 137.84 is amended by striking out "25% ad val." in column 1 and inserting in lieu thereof "Free".

(2) Item 138.40 is amended by striking out "17.5% ad val." in column 1 and inserting in lieu thereof "Free".

(c) Subpart C of part 8 of schedule 1 is amended as follows:

(1) Item 141.70 is amended by striking out "7% ad val." in column 1 and inserting in lieu thereof "Free".

(2) Item 141.78 is amended by striking out "8.1% ad val." in column 1, and inserting in lieu thereof "Free".

SEC. 116. GUT FOR USE IN MANUFACTURE OF STERILE SURGICAL SUTURES.

(a) Subpart C of part 13 of schedule 7 is amended by striking out item 792.22 and inserting in lieu thereof the following new items with the article description at the same indentation level as the article description in item 792.20:

"792.24	If imported for use in the manufacture of sterile surgical sutures	5.4% ad val.	3.5% ad val.	40% ad val.
792.26	Other	11.2% ad val.	7.7% ad val.	40% ad val.".

(b)(1) The rate of duty in column numbered 1 for item 792.24 (as added by subsection (a)) shall be subject to any staged rate reductions for item 495.10 which are proclaimed by the President before the date of the enactment of this Act.

(2) Whenever, after the application of paragraph (1), the rate of duty provided for item 792.24 in the column numbered 1 is not greater than the rate of duty provided for such item in the column designated "LDDC", no rate of duty shall be provided for such item in the column designated "LDDC".

(c) The rate of duty in column numbered 1 for item 792.26 (as added by subsection (a)) shall be subject to the same staged rate reductions that were proclaimed by the President before the date of the enactment of this Act for item 792.22.

SEC. 117. ORANGE JUICE PRODUCTS.

Subpart A of part 12 of schedule 1 is amended—

(1) by inserting after item 165.25 the following new items and the superior heading thereto, with such superior heading at the same indentation level as the article description "Lime" in item 165.25:

	Orange:		
"165.27	Not concentrated and not made from a juice having a degree of concentration of 1.5 or more (as determined before correction to the nearest 0.5 degree)	20¢ per gal.	70¢ per gal.
165.29	Other	35¢ per gal.	70¢ per gal.".

(2) by redesignating items 165.30 and 165.35 as items 165.32 and 165.36, respectively.

SEC. 118. REIMPORTATION OF CERTAIN ARTICLES ORIGINALLY IMPORTED DUTY FREE.

Item 801.00 is amended—

(1) by inserting "or which were previously entered free of duty pursuant to the Caribbean Basin Economic Recovery Act or title V of the Trade Act of 1974" after "previous importation"; and

(2) by striking out "lease to a foreign manufacturer" in clause (1) and inserting in lieu thereof "lease or similar use agreements".

SEC. 119. GEOPHYSICAL EQUIPMENT.

Part 1 of schedule 8 is amended by inserting in numerical sequence the following new item with the article description at the same indentation level as "Exhibition" in item 802.10:

"802.50	Rendition of geophysical or contracting services in connection with the exploration for, or the extraction or development of, natural resources	Free	Free".

SEC. 120. SCROLLS OR TABLETS USED IN RELIGIOUS OBSERVANCES.

Part 4 of schedules 8 is amended—

(1) by striking out "and 854.30" in headnote 1 and inserting in lieu thereof "854.30, and 854.40"; and

(2) by inserting in numercial sequence the following:

"854.40	Scrolls or tablets of wood or paper, commonly known as Gohonzon, imported for use in public or private religious observances, whether or not any of the foregoing is imported for the use of a religious institution	Free	Free".

SEC. 121. STEEL PIPES AND TUBES USED IN LAMPPOSTS.

(a) Subpart F of part 3 of schedule 6 is amended by inserting after item 653.37 the following new item with the same indentation as "Of brass" in item 653.37:

"653.38	Tapered steel pipes and tubes chiefly used as parts of illuminating articles	11.9% ad val.	7.6% ad val.	45% ad val.".

(b)(1) Notwithstanding any other provision of law, any reduction authorized under section 101 of the Trade Act of 1974 (19 U.S.C. 2111) in the rate of duty provided in any rate column for item 653.39 which takes effect after the date of enactment of this Act shall apply to the rate of duty provided in the corresponding column for item 653.38.

(2) Whenever, after the application of paragraph (1), the rate of duty provided for item 653.38 in the column numbered 1 is not greater than the rate of duty provided for such item in the column designated "LDDC", no rate of duty shall be provided for such item in the column designated "LDDC".

SEC. 122. WEARING APPAREL.

The headnotes for part 6 of schedule 3 are amended by adding at the end thereof the following new headnote:

"(3)(a) Except as provided in (b) of this headnote, each garment is to be separately classified under the appropriate tariff item, even if 2 or more garments are imported together and designed to be sold together at retail.

"(b) The provisions of paragraph (a) of this headnote shall not apply to—

"(i) suits,

"(ii) pajamas and other nightwear,

"(iii) playsuits, washsuits, and similar apparel,

"(iv) judo, karate, and other oriental martial arts uniforms,

"(v) swimwear, and

"(vi) infants' sets designed for children who are not over 2 years of age.".

SEC. 123. RECENTLY DEVELOPED DAIRY PRODUCTS.

(a) Subpart D of part 4 of schedule 1 is amended—

(1) by adding at the end thereof the following new items with the same indentation as "Malted milk" in item 118.30:

"118.35	Whey protein concentrate	10% ad val.	20% ad val.
118.40	Lactalbumin	Free	Free
118.45	Milk protein concentrate	0.2¢ per lb.	5.5¢ per lb.":

and

(2) by inserting after the title of such subpart the following:

"Subpart D headnote:

"1. For purposes of item 118.45, the term 'milk protein concentrate' means any complete milk protein (casein plus albumin) concentrate that is 40 percent or more protein by weight.".

(b) The superior heading for item 493.12 of the Tariff Schedules of the United States is amended by inserting "(other than a product described in item 118.45)" after "value thereof".

SEC. 124. TELECOMMUNICATIONS PRODUCT CLASSIFICATION.

(a) The Schedules are amended as follows:

(1) Part 5 of schedule 6 is amended—

(A) by inserting after headnote 5 the following new headnote:

"6. For purposes of the tariff schedules, the term 'entertainment broadcast band receivers' means those radio receivers designed principally to receive signals in the AM (550-1650 kHz) and FM (88-108 mHz) entertainment broadcast bands, whether or not capable of receiving signals on other bands (e.g., aviation, television, marine, public safety, industrial, and citizens band).",

(B) by striking out items 684.62 through 684.64 and inserting, in numerical sequence and subordinate to the superior heading to item 684.62, the following new items:

	"Telephonic apparatus and instruments and parts thereof:		
684.57	Telephone switching apparatus (including private branch exchange and key system switching apparatus), and parts and components thereof	8.5% ad val.	35% ad val.
684.58	Telephone sets and other terminal equipment and parts thereof	8.5% ad val.	35% ad val.
684.59	Other	8.5% ad val.	35% ad val.
684.63	If Canadian article and original motor vehicle equipment (see headnote 2, part 6B, schedule 6)	Free	
	Other:		

684.65	Switching apparatus and parts thereof	5.6% ad val.	4.7% ad val.	35% ad val.
684.66	Terminal apparatus (including teleprinting and teletypewriting machines) and parts thereof	5.6% ad val.	4.7% ad val.	35% ad val.
684.67	Other	5.6% ad val.	4.7% ad val.	35% ad val.".

(C) by inserting, in numerical sequence, the following new item:

"684.80	Communications satellites (however provided for in this part) and parts thereof		Free	Free".

(D) by redesignating 685.10, 685.11, 685.13, 685.14, 685.15, 685.16, 685.17, 685.18, 685.20, 685.22, 685.33, 685.34, and 685.36 as 684.90, 684.92, 684.94, 684.96, 684.98, 685.00, 685.02, 685.04, 685.06, 685.08, 685.36, 685.37, and 685.38 respectively.

(E) by striking out items 685.23 through 685.31, including the superior headings thereto, and inserting in lieu thereof the following new items:

	"Other:			
685.10	Radio receivers, other than solid-state (tubeless).	6% ad val.		35% ad val.
	Solid-state (tubeless) radio receivers:			
685.12	Designed for motor-vehicle installation.	8.9% ad val.	8% ad val.	35% ad val.
	Other:			
685.14	Entertainment broadcast band receivers.	7.7% ad val.	6% ad val.	35% ad val.
685.16	Other	7.7% ad val.	6% ad val.	35% ad val.
	Transceivers:			
	Citizens band:			
685.18	Hand-held	6% ad val.		35% ad val.
685.20	Other	6% ad val.		35% ad val.
685.22	Low-power radiotelephonic transceivers operating on frequencies from 49.82 to 49.90 mHz.	3.8% ad val.	2.4% ad val.	35% ad val.
685.24	Other transceivers.	6% ad val.		35% ad val.
	Other transmission apparatus incorporating reception apparatus:			
685.25	Cordless handset telephones.	6% ad val.		35% ad val.
685.28	Other	6% ad val.		35% ad val.
	Other:			
685.30	Transmitters	6% ad val.		35% ad val.
685.32	Other, including parts.	6% ad val.		35% ad val.
685.34	Radiotelegraphic and radiotelephonic transmission and reception apparatus, and radiobroadcasting transmission and reception apparatus, if certified for use in civil aircraft (see headnote 3, part 6C, schedule 6).			Free".

(F) by inserting, in numerical sequence and at the same hierarchical level as the article description for item 685.40, the following new item:

"685.39	Telephone answering machines, and parts thereof	4.5% ad val.	3.9% ad val.	35% ad val.".

(G) by striking out the article description for item 685.40 and inserting in lieu thereof the following: "Tape recorders and dictation recording and transcribing machines (other than telephone answering machines), and parts thereof",

(H) by striking out item 685.50 and inserting in lieu thereof the following:

	"Other:			
685.48	Articles designed for connection to telegraphic or telephonic apparatus or instruments or to telegraphic or telephonic networks	5.9% ad val.	4.9% ad val.	35% ad val.
685.49	Other	5.9% ad val.	4.9% ad val.	35% ad val.".

(I) by striking out item 688.15 and inserting, in numerical sequence and subordinate to the superior heading to item 688.10, the following new items:

	"Other:			
688.17	With modular telephone connectors	5.8% ad val.	5.3% ad val.	35% ad val.
688.18	Other	5.8% ad val.	5.3% ad val.	35% ad val.".

(J) by redesignating item 688.16 as item 688.19, with the article description therefor subordinate to the article description for item 688.18 (as added by subparagraph (I)), and

(K) by striking out item 688.43 and inserting, in numerical sequence and subordinate to the superior heading to item 688.34, the following new items:

	"Other:			
688.41	Articles designed for connection to telegraphic or telephonic apparatus or instruments or to telegraphic or telephonic networks	4.5% ad val.	3.9% ad val.	35% ad val.
688.42	Other	4.5% ad val.	3.9% ad val.	35% ad val.".

(2) Subpart A of part 2 of schedule 7 is amended—

(A) by inserting in numerical sequence the following new item:

"707.90	Optical fibers, whether or not in bundles, cables or otherwise put up, with or without connectors and whether mounted or not mounted	13.1% ad val.	8.4% ad val.	65% ad val.".

and

(B) by redesignating items 708.09 and 708.29 as 708.10 and 708.30, respectively.

(3) Subpart A of part 3 of schedule 8 is amended by striking out the superior heading to item 837.00 and inserting in lieu thereof the following: "Articles for the National Aeronautics and Space Administration and articles (other than communications satellites and parts thereof) imported to be launched into space under launch services agreements with the National Aeronautics and Space Administration:".

(4) Subpart B of part 3 of schedule 8 is amended by striking out the superior heading to item 842.10 and inserting in lieu thereof the following: "Upon the request of the Department of State, articles (other than communications satellites and parts thereof) which are the property of a foreign government or of a public international organization:".

(b)(1) The rate of duty in column numbered 1 of the Schedules (as added or redesignated by subsection (a)) for each item set forth below in the column headed "A" in the table under paragraph (3) shall be subject to all staged rate reductions for the corresponding item set forth below in the column headed "B" in such table which were proclaimed by the President before the date of the enactment of this Act.

(2) Whenever the rate of duty specified in column numbered 1 of the Schedules for each item set forth below in the column headed "A" in the table under paragraph (3) is reduced to the same level, or to a lower level, as the corresponding rate of duty specified in the column entitled "LDDC" of the Schedules for such item, the rate of duty in such "LDDC" column shall be deleted.

(3) The table referred to in paragraphs (1) and (2) is as follows:

A	
684.65	685.08
684.66	685.12
684.67	685.14
684.90	685.16
684.94	685.22
685.00	685.36
685.04	685.37
685.06	685.38
	685.39

685.48	685.22
685.49	685.23
688.17	685.24
688.18	685.24
688.41	685.26
688.42	685.33
707.90	685.34
708.10	685.36
708.30	685.40
B	685.50
684.64	685.50
684.64	688.15
684.64	688.15
685.10	688.43
685.13	688.43
685.16	709.29
685.18	708.09
685.20	708.29

(c) Subsection (a) of section 322 of the Tariff Act of 1930 (19 U.S.C. 1322(a)) is amended by adding at the end thereof the following new sentence: "The authority delegated to the Secretary by this subsection shall not extend to communications satellites and components and parts thereof.".

SEC. 125. FRESH ASPARAGUS.

Subpart A of part 8 of schedule 1 is amended by adding before the superior heading to items 135.10 through 135.17 (and at equivalent indentation with such heading and items) the following new items:

135.03	"Asparagus: If fresh or chilled: entered during the period from September 15 to November 15, inclusive, in any year, and transported to the United States by air	5% ad val.		50% ad val.
135.05	Other	25% ad val.		50% ad val.".

SEC. 126. CHIPPER KNIFE STEEL.

Effective with respect to articles entered, or withdrawn from warehouse for consumption—

(1) on or after April 1, 1985—

(A) item 606.93 is amended by striking out "8.3% ad val." and inserting in lieu thereof "2% ad val.", and

(B) item 911.29 of the Appendix is repealed; and

(2) on or after April 1, 1986, item 606.93 is amended by striking out "2% ad val + additional duties (see headnote 4)" and inserting in lieu thereof "Free".

SEC. 127. IMPLEMENTATION OF CUSTOMS CONVENTION ON CONTAINERS, 1972.

(a) Subpart C of part 1 of schedule 8 is amended—

(1) by amending headnote 1 to such subpart by inserting ", accessories and equipment" immediately before the period at the end thereof; and

(2) by amending the article description for item 808.00 by striking out ", and repair components" and all that follows thereafter and inserting in lieu thereof ", repair components for containers of foreign production which are instruments of international traffic, and accessories and equipment for such containers, whether the accessories and equipment are imported with a container to be reexported separately or with another container, or imported separately to be reexported with a container.".

(b) Subsection (a) of section 322 of the Tariff Act of 1930 (19 U.S.C. 1322(a)) is amended by striking out "granted the customary exceptions" and inserting in lieu thereof "excepted".

Subtitle C—Temporary Changes in Tariff Treatment

SEC. 131. FRESH, CHILLED, OR FROZEN BRUSSELS SPROUTS.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new items:

"903.29	Brussels sprouts, fresh, chilled, or frozen, but not reduced in size and not otherwise prepared or preserved (provided for in item 137.71, part 8A, schedule 1).	12.5% ad val.	No change.	On or before 12/31/87
903.33	Brussels sprouts, fresh, chilled, or frozen, and cut, sliced or otherwise reduced in size, but not otherwise prepared or preserved (provided for in item 138.46, part 8A, schedule 1).	7% ad val.	No change.	On or before 12/31/87".

SEC. 132. β-NAPHTHOL.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.31	β-Naphthol (provided for in item 403.29, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 133. 4-CHLORO-3-METHYLPHENOL.

Item 907.08 of the Appendix is amended by striking out "6/30/84" and inserting in lieu thereof "12/31/87".

SEC. 134. TETRAAMINO BIPHENYL.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.32	3,3'-Diaminobenzidine (provided for in item 404.90, part 1C, schedule 4).	Free	No change.	On or before 12/31/88".

SEC. 135. 6-AMINO-1-NAPHTHOL-3-SULFONIC ACID.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.34	6-Amino-1-naphthol-3-sulfonic acid (provided for in item 405.00, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 136. DSA.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.35	2-(4-Aminophenyl)-6-methylbenzothiazole-7-sulfonic acid (provided for in item 406.39, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 137. GUANIDINES.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"906.50	Diphenyl guanidine and di-o-tolyl guanidine (provided for in item 405.52, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 138. CERTAIN ANTIBIOTICS.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"906.51	(6R,7R)-7-[(R)-2-Amino-2-phenylacetamido]-3-methyl-8-oxo-5-thia-1-azabicyclo[4.2.0]oct-2-ene-2-carboxylic acid disolvate (provided for in item 406.42, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 139. ACETYLSULFAGUANIDINE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.33	Acetylsulfaguanidine (provided for in item 406.56, part 1B, schedule 4).	Free	No change	On or before 12/31/87".

SEC. 140. FENRIDAZON-POTASSIUM.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.41	Mixtures of potassium 1-(p-chlorophenyl)-1,4-dihydro-6-methyl-4-oxopyridazine-3-carboxylate ('fenridazon-potassium') and formulation adjuvants (provided for in item 408.38, part 1C, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 141. UNCOMPOUNDED ALLYL RESINS.

Item 907.16 of the Appendix is amended by striking out "9/30/84" and inserting in lieu thereof "12/31/87".

SEC. 142. SULFAMETHAZINE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.36	Sulfamethazine (provided for in item 411.24, part 1C, schedule 4).	Free	Free	On or before 12/31/87".

SEC. 143. SULFAGUANIDINE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.37	Sulfaguanidine (provided for in item 411.27, part 1C, schedule 4).	Free	Free	On or before 12/31/87".

SEC. 144. TERFENADINE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.25	Terfenadine (provided for in item 411.58, part 1C, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 145. SULFATHIAZOLE.

(a) Item 907.19 is amended to read as follow:

"907.19	Sulfathiazole (provided for in item 411.80, part 1C, schedule 4).	Free	Free	On or before 12/31/87".

(b) Section 136 (b) and (c) of the Act entitled "An Act to reduce certain duties, to suspend temporarily certain duties, to extend certain existing suspensions of duties, and for other purposes" (approved January 12, 1983; Public Law 97-446) is repealed.

SEC. 146. SULFAQUINOXALINE AND SULFANILAMIDE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.38	Sulfaquinoxaline and sulfanilamide (provided for in item 411.87, part 1C, schedule 4).	Free	Free	On or before 12/31/87".

SEC. 147. DICYCLOMINE HYDROCHLORIDE AND MEPENZOLATE BROMIDE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"906.53	Dicyclomine hydrochloride and mepenzolate bromide (provided for in item 412.02, part 1C, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 148. AMIODARONE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following:

"907.18	Amiodarone (provided for in item 412.12, part 1C, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 149. DESIPRAMINE HYDROCHLORIDE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"906.54	Desipramine hydrochloride (provided for in item 412.35, part 1C, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 150. CLOMIPHENE CITRATE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.42	Clomiphene citrate (provided for in item 412.50, part 1C, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 151. YTTRIUM BEARING MATERIALS AND COMPOUNDS.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.51	Yttrium bearing materials and compounds containing by weight more than 19% but less than 85% yttrium oxide equivalent (provided for in items 423.00 or 423.96, part 2C, schedule 4, or item 603.70, part 1, schedule 6).	Free	No change.	On or before 12/31/88".

SEC. 152. TARTARIC ACID AND CHEMICALS.

Items 907.65, 907.66, 907.68, and 907.69 of the Appendix are each amended by striking out "6/30/84" and inserting in lieu thereof "12/31/88".

SEC. 153. CERTAIN MIXTURES OF MAGNESIUM CHLORIDE AND MAGNESIUM NITRATE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"906.52	Mixtures of 5-chloro-2-methyl-4-isothiazolin-3-one, 2-methyl-4-isothiazolin-3-one, magnesium chloride, and magnesium nitrate (provided for in item 432.25, part 2E, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 154. NICOTINE RESIN COMPLEX.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.63	Nicotine resin complex (provided for in item 437.13, part 3B, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 155. RIFAMPIN.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"906.99	Rifampin (provided for in item 437.32, part 3B, schedule 4)	Free	No change.	On or before 12/31/87".

SEC. 156. LACTULOSE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.76	Lactulose (provided for in item 439.50, part 3C, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 157. IRON-DEXTRAN COMPLEX.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.79	Iron-dextran complex (provided for in item 440.00, part 3C, schedule 4)	Free	No change.	On or before 12/31/87".

SEC. 158. NATURAL GRAPHITE.

Item 909.01 of the Appendix is amended by striking out "12/31/84" and inserting in lieu thereof "12/31/87".

SEC. 159. ZINC.

Items 911.00, 911.01, 911.02, and 911.03 of the Appendix are each amended by striking out "6/30/84" and inserting in lieu thereof "12/31/89".

SEC. 160. CERTAIN DIAMOND TOOL BLANKS.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"910.00	Tool blanks and drill blanks, wholly or in chief value of industrial diamonds (provided for in item 520.21, part 1H, or item 523.91, part 1K, schedule 5)	Free	30% ad val.	On or before 12/31/87".

SEC. 161. CLOCK RADIOS.

Item 911.95 of the Appendix is amended by striking out "9/30/84" and inserting in lieu thereof "12/31/86".

SEC. 162. LACE-BRAIDING MACHINES.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"912.11	Decorative lace-braiding machines using the jacquard system, and parts thereof (provided for in items 670.25 and 670.74, part 4E, schedule 6)	Free	No change.	On or before 12/31/87".

SEC. 163. CERTAIN MAGNETRON TUBES.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"912.02	Magnetron tubes with an operating frequency of 2.450 GHz and a minimum power of at least 300 watts and a maximum power not greater than 2000 watts (provided for in item 684.28, part 5, schedule 6)	Free	No change.	On or before 12/31/86".	

SEC. 164. NARROW FABRIC LOOMS.

(a) Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"912.04	Power driven weaving machines for weaving fabrics not over 12 inches in width (provided for in item 670.14, part 4E, schedule 6)	Free	No change.	On or before 12/31/87".	

(b) Subpart E of part 4 of schedule 6 is amended by adding the following new headnote:

	"Subpart E headnote:				
	"1. For purposes of applying item 670.74 to parts of articles provided for under item 912.04, any such part that is entered, or withdrawn from warehouse for consumption, during the effective period of item 912.04 shall be dutiable at the rate that would apply if that item had not been enacted.".				

SEC. 165. UMBRELLA FRAMES.

Subpart B of part 1 of the Appendix is amended by inserting in numerical order the following new item:

"912.45	Frames for hand-held umbrellas chiefly used for protection against rain (provided for in item 751.20, part 8B, schedule 7)	Free	No change.	On or before 12/31/86".	

SEC. 166. CRUDE FEATHERS AND DOWN.

Items 903.70 and 903.80 of the Appendix are each amended by striking out "On or before 6/30/84" and inserting in lieu thereof "On or before 12/31/87".

SEC. 167. CANNED CORNED BEEF.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"903.15	Corned beef in airtight containers (provided for in item 107.48, part 2B, schedule 1).	3% ad val.	No change.	On or before 12/31/89".	

SEC. 168. HOVERCRAFT SKIRTS.

Item 905.40 of the Appendix is amended—

(1) by striking out "manmade" and inserting in lieu thereof "man-made", and

(2) by striking out "6/30/83" and inserting in lieu thereof "12/31/87".

SEC. 169. DISPOSABLE SURGICAL DRAPES AND STERILE GOWNS.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"905.50	Bonded fiber fabric disposable gowns, sterilized or in immediate packings ready for sterilization, for use in performing surgical procedures, of manmade fibers (provided for in items 379.96 and 383.92, part 6F, schedule 3) and bonded fiber fabric disposable surgical drapes, of manmade fibers (provided for in item 389.62, part 7B, schedule 3).	5.6% ad val	26.5% ad val.	On or before 12/31/88".	

SEC. 170. MXDA.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new items:

"907.03	m-Xylene-diamine (provided for in item 404.88, part 1B, schedule 4).	Free	No change.	On or before 12/31/87	
907.04	1,3-Bis(amino-methyl)cyclo-hexane (provided for in item 407.05, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".	

SEC. 171. 4,4-BIS(α,α-DIMETHYLBENZYL) DIPHENYLAMINE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following item:

"907.06	4,4'-Bis(α,α-dimethyl-benzyl)diphenylamine (provided for in item 404.88, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".	

SEC. 172. FLECAINIDE ACETATE.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.21	Flecainide acetate (provided for in item 412.12, part 1C, schedule 4).	Free	No change.	On or before 12/31/87".	

SEC. 173. CAFFEINE.

Item 907.22 of the Appendix is amended—

(1) by striking out "6% ad val." and inserting in lieu thereof "4.1% ad val."; and

(2) by striking out "12/31/83" and inserting in lieu thereof "12/31/87".

SEC. 174. WATCH CRYSTALS.

(a) Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

		Rates of Duty			
		1	LDDC	2	
"909.40	Watch glasses other than round watch glasses (provided for in item 547.13, part 3C, schedule 5).	5.9% ad val.	4.9% ad val.	No change.	On or before 12/31/87".

(b) Effective with respect to articles provided for in item 909.40 (as added by subsection (a)) that are entered, or withdrawn from warehouse for consumption, on or after each of the dates set forth below, column 1 for such item is amended by striking out the rate of duty in effect on the day before such date and inserting in lieu thereof the rate of duty appearing below next to each such date:

Date:	Rate of duty:
January 1, 1986	5.6% ad val.
January 1, 1987	5.2% ad val.

SEC. 175. UNWROUGHT LEAD.

(a) Item 911.50 of the Appendix is amended by striking out "6/30/83" and inserting in lieu thereof "12/31/88".

(b) Section 114 of Public Law 96-609 is amended by striking out "July 1, 1983" in subsection (b) and inserting in lieu thereof "January 1, 1989".

SEC. 176. FLAT KNITTING MACHINES.

Item 912.13 of the Appendix is amended—

(1) by striking out "(provided for in item 670.19 or 670.20," and inserting in lieu thereof ", and parts thereof (provided for in items 670.19, 670.20, and 670.74,"; and

(2) by striking out "6/30/83" and inserting in lieu thereof "12/31/88".

SEC. 177. CERTAIN MENTHOL FEEDSTOCKS.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.13	Mixtures containing not less than 90 percent by weight of stereoisomers of 2 isopropyl-5-methylcyclohexanol, but containing not more than 30 percent by weight of any one such stereoisomer (provided for in item 407.16, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 178. 2-METHYL-4-CHLOROPHENOL.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"906.97	2-Methyl-4-chlorophenol (provided for in item 403.56, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 179. UNWROUGHT ALLOYS OF COBALT.

Item 911.90 of the Appendix is amended by striking out "6/30/83" and inserting in lieu thereof "12/31/87".

SEC. 180. CIRCULAR KNITTING MACHINES.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item with a superior heading that has the same indentation as "Powerdriven" in item 912.13:

"912.17	Cylinder, double cylinder, and dial knitting machines and parts thereof all the foregoing designed for sweater strip or garment length knitting (provided for in items 670.17 and 670.74, part 4E, schedule 6).	Free	No change.	On or before 12/31/89."

SEC. 181. o-BENZYL-p-CHLOROPHENOL.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"907.23	o-Benzyl-p-chlorophenol (provided for in item 408.16, part 1C, schedule 4).	Free	No change.	On or before 12/31/87".

SEC. 182. CERTAIN BENZENOID CHEMICALS.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new items:

"906.30	3,5,6-Trichlorosalicylic acid (provided for in item 404.46, part 1B, schedule 4).	Free	Free	On or before 12/31/87
906.32	m-Aminophenol (provided for in item 404.92, part 1B, schedule 4).	Free	Free	On or before 12/31/87
906.38	p-Acetamidobenzenesulfonyl chloride (N-Acetylsulfanilyl chloride) (provided for in item 405.33, part 1B, schedule 4).	Free	Free	On or before 12/31/87".

SEC. 183. M-TOLUIC ACID.

Subpart B of part 1 of the Appendix is amended by inserting in numerical sequence the following new item:

"906.57	m-Toluic acid (provided for in item 404.28, part 1B, schedule 4).	Free	No change.	On or before 12/31/87".

Subtitle D—Technical Amendments

SEC. 191. TECHNICAL AND CONFORMING AMENDMENTS.

(a) The schedules are further amended as follows:

(1) Headnote 9(a) of the general headnotes is amended by striking out "warehouse, for consumption" and inserting in lieu thereof "warehouse for consumption,".

(2) The superior heading to items 346.05 and 346.10 and the superior heading to items 346.15 through 346.24 are each amended by striking out "Fabric" and inserting in lieu thereof "Fabrics".

(3) The article description for item 535.13 is amended by aligning the indentation of that description with that of the article description for item 535.12.

(4) Headnote 1(ii) to subpart D of part 6 of schedule 6 is amended by striking out "5(e)" and inserting in lieu thereof "5(g)".

(5) Item 642.34 is amended by striking out "12% ad val." and inserting in lieu thereof "10% ad val.".

(6) Headnote 6 to subpart E of part 2 of schedule 7 is amended—

(A) by striking out "through (h)" in paragraph (a) and inserting in lieu thereof "through (ij)";

(B) by striking out "paragraph (c)" in paragraph (b) and inserting in lieu thereof "paragraph (d)",

(C) by striking out "paragraph (d)" in subparagraph (d)(ii)(I) and inserting in lieu thereof "paragraph (e)"; and

(D) by redesignating paragraph (i) as paragraph (ij).

(7) Item 737.73 is amended by inserting a comma immediately after "ware".

(8) The article description for each of items 745.41 and 745.42 is amended by aligning the indentation of that description with that of the article description for item 745.34.

(9) The article description for each of items 870.50, 870.55, and 870.60 is amended by aligning the indentation of that description with that of the article description for item 870.25.

(b) The Appendix is amended as follows:

(1) The article description for item 903.25 is amended to read as follows: "Culled carrots, fresh or chilled, in immediate containers each holding more than 100 pounds (provided for in item 135.42, part 8A, schedule 1), if entered for consumption during the period from August 15 in any year to the 15th day of the following February, inclusive".

(2) Item 906.10 is amended by striking out "386.09" and inserting in lieu thereof "386.13".

(3) The article description for item 906.12 is amended—

(A) by aligning the indentation of that description with that of the article description for item 906.10; and

(B) by inserting ", part 6F," after "383.50".

(4) The article description for item 907.00 is amended to read as follows: "p-Hydroxybenzoic acid (provided for in item 404.42, part 1B, schedule 4)".

(5) The article description for item 907.01 is amended to read as follows: "Triphenyl phosphate (provided for in item 409.34, part 1C, schedule 4)".

(6) The article description for item 907.14 is amended to read as follows: "Mixtures of 3-ethylbiphenyl (m-ethylbiphenyl) and 4-ethylbiphenyl (p-ethylbiphenyl) (provided for in item 407.16, part 1B, schedule 4)".

(7) The article description for item 907.15 is amended to read as follows: "1,1-Bis(4-chlorophenyl)-2,2,2-trichloroethanol (Dicofol) (provided for in item 408.28, part 1C, schedule 4)".

(8) Item 912.30 is amended by striking out "737.21,".

(c) The Educational, Scientific, and Cultural Materials Importation Act of 1982 (Public Law 97-446, 19 U.S.C. 1202 note) is amended as follows:

(1) Section 162 is amended by inserting a comma after "Architectural" in the article description for item 273.52 (as set forth in paragraph (2) of such section).

(2) Section 163(c) is amended—

(A) by striking out "headnote 2 as headnote 1," in paragraph (1) and inserting in lieu thereof "headnotes 2 and 3 as headnotes 1 and 2, respectively,"; and

(B) by striking out "models) and wall charts of an educational, scientific or cultural character," and inserting in lieu thereof "models), globes, and wall charts of an educational, scientific or cultural character;" in the article description for item 870.35 (as set forth in paragraph (3) of such section).

(3) Section 165 is amended—

(A) by redesignating items 870.50, 870.55, and 870.60 (as set forth in subsection (b)(1) of such section) as items 870.65, 870.66, and 870.67, respectively;

(B) by aligning the indentation of the article description of item 870.67 (as redesignated by paragraph (1)) with the indentation of "Articles for the blind:" immediately preceding item 870.65 and 870.66 (as so redesignated);

(C) by amending headnote 2 of part 7 of schedule 8 (as set forth in subsection (b)(2) of such section)—

(i) by redesignating it as headnote 3; and

(ii) by striking out "870.50, 870.55, and 870.60—" and inserting in lieu thereof "870.65, 870.66, and 870.67—".

(d) Section 504 of the Tariff Act of 1930 (19 U.S.C. 1504) is amended—

(1) by striking out ", his consignee, or agent" in subsection (a) and inserting in lieu thereof "of record";

(2) by striking out ", his consignee, or agent" and ", consignee, or his agent" in subsection (b) and inserting in lieu thereof "of record";

(3) by striking out "or consignee" each place it appears in subsection (c) and inserting in lieu thereof "of record"; and

(4) by striking out ", his consignee, or agent" in subsection (d) and inserting in lieu thereof "of record".

(e) Headnote 3(a)(i) of the general headnotes and rules of interpretation is amended by striking out "of schedule 7, part 2, subpart E, and except as provided in headnote 4 of schedule 7, part 7, subpart A" and inserting in lieu thereof "of subpart E of part 2 of

schedule 7, and except as provided in headnote 3 of subpart A of part 7 of schedule 7".

Subtitle E—Effective Dates

SEC. 195. EFFECTIVE DATES.

(a) Except as provided in section 126 and in subsections (b) and (c), the amendments made by subtitles B, C, and D shall apply with respect to articles entered on or after the 15th day after the date of the enactment of this Act.

(b)(1) The amendment made by sections 117 and 124 shall apply with respect to articles entered on or after January 1, 1985.

(2) The amendments made by section 127 shall apply with respect to articles entered on or after a date to be proclaimed by the President which shall be consonant with the entering into force for the United States of the Customs Convention on Containers, 1972.

(c)(1) Notwithstanding section 514 of the Tariff Act of 1930 or any other provision of law, upon proper request filed with the customs officer concerned on or before the 90th day after the date of the enactment of this Act the entry of any article described in paragraph (2) or (3) shall be treated as provided in such paragraph.

(2)(A) In the case of the application of any amendment made by section 133, 145, 152, 159, 166, 168, 173, 175, 176, or 191 (a) or (b) to any entry—

(i) which was made after the applicable date and before the 15th day after the date of the enactment of this Act; and

(ii) with respect to which there would have been no duty or a lesser duty if the amendment made by such section applied to such entry;

such entry shall be liquidated or reliquidated as though such entry had been made on the 15th day after the date of the enactment of this Act.

(B) For purposes of subparagraph (A), the term "applicable date" means—

(i) in the case of section 191 (a) or (b), January 12, 1983,

(ii) in the case of sections 168, 175, and 176, June 30, 1983,

(iii) in the case of section 173, December 31, 1983,

(iv) in the case of sections 133, 152, 159, and 166, June 30, 1984,

(v) in the case of section 145, January 1, 1984, and

(vi) in the case of sections 141 and 161, September 30, 1984.

(C) In the case of the application of any amendment made by section 140 or 153 to any entry—

(1) that was made before the 15th day after the date of the enactment of this Act;

(2) that was unliquidated, or the liquidation of which was not final, on such 15th day; and

(3) with respect to which there would have been no duty if the amendment made by such section applied to such entry;

such entry shall be liquidated as though the entry had been made on such 15th day.

(d) For purposes of this section—

(1) The term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

(2) The term "entry" includes any withdrawal from warehouse.

TITLE II—CUSTOMS AND MISCELLANEOUS AMENDMENTS

Subtitle A—Amendments to the Tariff Act of 1930

SEC. 201. REFERENCE.

Except as otherwise expressly provided, whenever in this subtitle an amendment or repeal is expressed in terms of an amendment to, or repeal of, a title, subtitle, part, section, or other provision, the reference shall be considered to be made to a title, subtitle, part, section, or other provision of the Tariff Act of 1930 (19 U.S.C. 1202 et seq.).

SEC. 202. DRAWBACKS.

Section 313 of the Tariff Act of 1930 (19 U.S.C. 1313) is amended—

(1) by amending subsection (j)—

(A) by redesignating paragraph (2) as paragraph (4), and

(B) by inserting after paragraph (1) the following new paragraphs:

"(3) If there is, with respect to imported merchandise on which was paid any duty, tax, or fee imposed under Federal law because of its importation, any other merchandise (whether imported or domestic) that—

"(A) is fungible with such imported merchandise;

"(B) is, before the close of the three-year period beginning on the date of importation of the imported merchandise, either exported or destroyed under Customs supervision;

"(C) before such exportation or destruction—

"(i) is not used within the United States, and

"(ii) is in the possession of the party claiming drawback under this paragraph; and

"(D) is in the same condition at the time of exportation or destruction as was the imported merchandise at the time of its importation;

then upon the exportation or destruction of such other merchandise the amount of each such duty, tax, and fee paid regarding the imported merchandise shall be refunded as drawback, but in no case may the total drawback on the imported merchandise, whether available under this paragraph or any other provision of law or any combination thereof, exceed 99 percent of that duty, tax, or fee.

SEC. 203. PUBLIC DISCLOSURE OF CERTAIN MANIFEST INFORMATION.

Section 431 (19 U.S.C. 1431) is amended—

(1) by striking out the period at the end of the paragraph designated as "Third" in subsection (a) and inserting in lieu thereof "; and the names of the shippers of such merchandise."; and

(2) by adding at the end thereof the following new subsection:

"(c)(1) Except as provided in subparagraph (2), the following information, when contained in such manifest, shall be available for public disclosure:

"(A) The name and address of each importer or consignee and the name and address of the shipper to such importer or consignee, unless the importer or consignee has made a biennial certification, in accordance with procedures adopted by the Secretary of the Treasury, claiming confidential treatment of such information.

"(B) The general character of the cargo.

"(C) The number of packages and gross weight.

"(D) The name of the vessel or carrier.

"(E) The port of loading.

"(F) The port of discharge.

"(G) The country or origin of the shipment.

"(2) The information listed in paragraph (1) shall not be available for public disclosure if—

"(A) the Secretary of the Treasury makes an affirmative finding on a shipment-by-shipment basis that disclosure is likely to pose a threat of personal injury or property damage; or

"(B) the information is exempt under the provisions of section 552(b)(1) of title 5 of the United States Code.

"(3) The Secretary of the Treasury, in order to allow for the timely dissemination and publication of the information listed in paragraph (1), shall establish procedures to provide access to manifests. Such procedures shall include provisions for adequate protection against the public disclosure of information not available for public disclosure from such manifests.".

SEC. 204. VIRGIN ISLANDS EXCURSION VESSELS.

Section 441(3) (19 U.S.C. 1441(3)) is amended to read as follows:

"(3) Vessels carrying passengers on excursion from the United States Virgin Islands to the British Virgin Islands and returning, and licensed yachts or undocumented American pleasure vessels not engaged in trade: Provided, That such vessels do not in any way violate the customs or navigation laws of the United States and have not visited any hovering vessel: Provided further, That the master of any such vessel which has on board any article required by law to be entered shall be required to report such article to the appropriate customs officer within twenty-four hours after arrival.".

SEC. 205. UNLAWFUL IMPORTATION OR EXPORTATION OF CERTAIN VEHICLES.

Part V of title IV (19 U.S.C. 1581 et seq.) is amended by adding at the end thereof the following new section:

"*SEC. 627. UNLAWFUL IMPORTATION OR EXPORTATION OF CERTAIN VEHICLES; INSPECTIONS.*

"(a)(1) Whoever knowingly imports, exports, or attempts to import or export—

"(A) Any stolen self-propelled vehicle, vessel, aircraft, or part of a self-propelled vehicle, vessel, or aircraft; or

"(B) any self-propelled vehicle or part of a self-propelled vehicle from which the identification number has been removed, obliterated, tampered with, or altered;

shall be subject to a civil penalty in an amount determined by the Secretary, not to exceed $10,000 for each violation.

"(2) Any violation of this subsection shall make such self-propelled vehicle, vessel, aircraft, or part thereof subject to seizure and forfeiture under this Act.

"(b) A person attempting to export a used self-propelled vehicle shall present, pursuant to regulations prescribed by the Secretary, to the appropriate customs officer both the vehicle and a document describing such vehicle which includes the vehicle identification number, before lading if the vehicle is to be transported by vessel or aircraft, or before export if the vehicle is to be transported by rail, highway, or under its own power. Failure to comply with the regulations of the Secretary shall subject such person to a civil penalty of not more than $500 for each violation.

"(c) For purposes of this section—

"(1) the term 'self-propelled vehicle' includes any automobile, truck, tractor, bus, motorcycle, motor home, self-propelled agricultural machinery, self-propelled construction equipment, self-propelled special use equipment, and any other self-propelled vehicle used or designed for running on land but not on rail;

"(2) the term 'aircraft' has the meaning given it in section 101(5) of the Federal Aviation Act of 1958 (49 U.S.C. 1301(5));

"(3) the term 'used' refers to any self-propelled vehicle the equitable or legal title to which has been transferred by a manufac-

turer, distributor, or dealer to an ultimate purchaser; and

"(4) the term 'ultimate purchaser' means the first person, other than a dealer purchasing in his capacity as a dealer, who in good faith purchases a self-propelled vehicle for purposes other than resale.

"(d) Customs officers may cooperate and exchange information concerning motor vehicles, off-highway mobile equipment, vessels, or aircraft, either before exportation or after exportation or importation, with such Federal, State, local, and foreign law enforcement or governmental authorities, and with such organizations engaged in theft prevention activities, as may be designated by the Secretary.".

SEC. 206. INCREASE IN AMOUNT FOR INFORMAL ENTRY OF GOODS.

Section 498(1) (19 U.S.C. 1498(1)) is amended—

(1) by striking out "$250" and inserting in lieu thereof "$1,250"; and

(2) by inserting before the semicolon at the end thereof: ", except that this paragraph does not apply to articles valued in excess of $250 classified in—

"(A) schedule 3,

"(B) parts 1, 4A, 7B, 12A, 12D, and 13B of schedule 7, and

"(C) parts 2 and 3 of the Appendix,

of the Tariff Schedules of the United States, or to any other article for which formal entry is required without regard to value.".

SEC. 207. CERTAIN COUNTRY OF ORIGIN MARKING REQUIREMENTS.

Section 304 (19 U.S.C. 1304) is amended—

(1) by redesignating subsections (c), (d), and (e) as subsections (f), (g), and (h), respectively;

(2) by inserting immediately after subsection (b) the following new subsections:

"(c) MARKING OF CERTAIN PIPE AND FITTINGS.—No exception may be made under subsection (a)(3) with respect to pipes of iron, steel, or stainless steel, to pipe fittings of steel, stainless steel, chrome-moly steel, or cast and malleable iron each of which shall be marked with the English name of the country of origin by means of die stamping, cast-in-mold lettering, etching, or engraving.

"(d) MARKING OF COMPRESSED GAS CYLINDERS.—No exception may be made under subsection (a)(3) with respect to compressed gas cylinders designed to be used for the transport and storage of compressed gases whether or not certified prior to exportation to have been made in accordance with the safety requirements of sections 178.36 through 178.68 of title 49, Code of Federal Regulations, each of which shall be marked with the English name of the country of origin by means of die stamping, molding, etching, raised lettering, or an equally permanent method of marking.

"(e) MARKING OF CERTAIN MANHOLE RINGS OR FRAMES, COVERS, AND ASSEMBLIES THEREOF.—No exception may be made under subsection (a)(3) with respect to manhole rings or frames, covers, and assemblies thereof each of which shall be marked on the top surface with the English name of the country of origin by means of die stamping, cast-in-mold lettering, etching, or engraving."; and

(3) by striking out "subsection (c)" in subsection (g) (as so redesignated) and inserting in lieu thereof "subsection (f)".

SEC. 208. EQUIPMENTS AND REPAIRS OF CERTAIN VESSELS EXEMPT FROM DUTIES.

Section 466(e) (19 U.S.C. 1466(e)) is amended to read as follows:

"(e)(1) In the case of any vessel referred to in subsection (a) that arrives in a port of the United States two years or more after its last departure from a port in the United States, the duties imposed by this section shall apply only with respect to—

"(A) fish nets and netting, and

"(B) other equipments and parts thereof, repair parts and materials purchased, or repairs made, during the first six months after the last departure of such vessel from a port of the United States.

"(2) If such vessel is designed and used primarily for transporting passengers or property, paragraph (1) shall not apply if the vessel departed from the United States for the sole purpose of obtaining such equipments, parts, materials, or repairs.".

SEC. 209. ARTICLES RETURNED FROM SPACE.

(a) Part III of title IV (19 U.S.C. 1481 et seq.) is amended by adding the following new section:

"SEC. 484a. ARTICLES RETURNED FROM SPACE NOT TO BE CONSTRUED AS IMPORTATION.

"The return of articles from space shall not be considered an importation, and an entry of such articles shall not be required if:

"(1) such articles were previously launched into space from the customs territory of the United States aboard a spacecraft operated by, or under the control of, United States Persons and owned—

"(A) wholly by United States persons, or

"(B) in substantial part by United States persons, or

"(C) by the United States;

"(2) such articles were maintained or utilized while in space solely on board such spacecraft or aboard another spacecraft which meets the requirements of paragraph (1) (A) through (C) of this section; and

"(3) such articles were returned to the customs territory directly from space aboard such spacecraft or aboard another spacecraft which meets the requirements of paragraph (1) (A) through (C) of this section;

without regard to whether such articles have been advanced in value or improved in condition by any process of manufacture or other means while in space.".

(b) Headnote 5 of the general headnotes of the Tariff Schedules of the United States (19 U.S.C. 1202) is amended—

(A) by striking out "media; and" in subdivision (e) and inserting in lieu thereof "media,";

(B) by adding after subdivision (e) the following new subdivision:

"(f) articles returned from space within the purview of section 484a of the Tariff Act of 1930; and"; and

(C) by redesignating subdivision (f) as subdivision (g).

SEC. 210. DATE OF LIQUIDATION OR RELIQUIDATION.

(a) Section 505 of the Tariff Act of 1930 (19 U.S.C. 1505) is amended by adding at the end thereof the following new subsection:

"(c) Duties determined to be due upon liquidation or reliquidation shall be due 15 days after the date of that liquidation or reliquidation, and unless payment of the duties is received by the appropriate customs officer within 30 days after that date, shall be considered delinquent and bear interest from the 15th day after the date of liquidation or reliquidation at a rate determined by the Secretary of the Treasury.".

(b) Section 520 of the Tariff Act of 1930 (19 U.S.C. 1520) is amended by adding at the end thereof the following new subsection:

"(d) If a determination is made to reliquidate an entry as a result of a protest filed under section 514 of this Act or an application for relief made under subsection (c)(1) of this section, or if reliquidation is ordered by an appropriate court, interest shall be allowed on any amount paid as increased or additional duties under section 505(c) of this Act at the annual rate established pursuant to that section and determined as of the 15th day after the date of liquidation or reliquidation. The interest shall be calculated from the date of payment to the date of (1) the refund, or (2) the filing of a summons under section 2632 of title 28, United States Code, whichever occurs first.".

SEC. 211. OPERATION OF CERTAIN DUTY-FREE SALES ENTERPRISES.

Section 555 of the Tariff Act of 1930 (19 U.S.C. 1555) is amended—

(1) by striking out "Buildings" in the first sentence thereof and inserting in lieu thereof "(a) Subject to subsection (b), buildings"; and

(2) by inserting at the end thereof the following:

"(b) If a State or local governmental authority, incident to its jurisdiction over any airport, seaport, or other exit point facility, requires that a concession or other form of approval be obtained from that authority with respect to the operation of a duty-free sales enterprise under which merchandise is delivered to such facility for exportation, merchandise incident to such operation may not be withdrawn from a bonded warehouse and transferred to such facility unless the operator of the duty-free sales enterprise demonstrates to the Secretary of the Treasury that the concession or approval required for the enterprise has been obtained. For purposes of this subsection, the term 'duty-free sales enterprise' means an entity that sells, in less than wholesale quantities, duty-free or tax-free merchandise that is delivered from a bonded warehouse to an airport, seaport, or point of exit from the United States for exportation by, or on behalf of, individuals departing from the United States.".

SEC. 212. CUSTOMS BROKERS.

(a) Section 641 (19 U.S.C. 1641) is amended to read as follows:

"SEC. 641. CUSTOMS BROKERS.

"(a) DEFINITIONS.—As used in this section:

"(1) The term 'customs broker' means any person granted a customs broker's license by the Secretary under subsection (b).

"(2) The term 'customs business' means those activities involving transactions with the Customs Service concerning the entry and admissibility of merchandise, its classification and valuation, the payment of duties, taxes, or other charges assessed or collected by the Customs Service upon merchandise by reason of its importation, or the refund, rebate, or drawback thereof.

"(3) The term 'Secretary' means the Secretary of the Treasury.

"(b) CUSTOM BROKER'S LICENSES.—

"(1) IN GENERAL.—No person may conduct customs business (other than solely on behalf of that person) unless that person holds a valid customs broker's license issued by the Secretary under paragraph (2) or (3).

"(2) LICENSES FOR INDIVIDUALS.—The Secretary may grant an individual a customs broker's license only if that individual is a citizen of the United States. Before granting the license, the Secretary may require an applicant to show any facts deemed necessary to establish that the applicant is of good moral character and qualified to render valuable service to others in the conduct of customs business. In assessing the qualifications of an applicant, the Secretary may conduct an examination to determine the applicant's knowledge of customs and related laws, regulations and procedures, book-

keeping, accounting, and all other appropriate matters.

"(3) LICENSES FOR CORPORATIONS, ETC.—The Secretary may grant a customs broker's license to any corporation, association, or partnership that is organized or existing under the laws of any of the several States of the United States if at least one officer of the corporation or association, or one member of the partnership, holds a valid customs broker's license granted under paragraph (2).

"(4) DUTIES.—A customs broker shall exercise responsible supervision and control over the customs business that it conducts.

"(5) LAPSE OF LICENSE.—The failure of a customs broker that is licensed as a corporation, association, or partnership under paragraph (3) to have, for any continuous period of 120 days, at least one officer of the corporation or association, or at least one member of the partnership, validly licensed under paragraph (2) shall, in addition to causing the broker to be subject to any other sanction under this section (including paragraph (6)), result in the revocation by operation of law of its license.

"(6) PROHIBITED ACTS.—Any person who intentionally transacts customs business, other than solely on the behalf of that person, without holding a valid customs broker's license granted to that person under this subsection shall be liable to the United States for a monetary penalty not to exceed $10,000 for each such transaction as well as for each violation of any other provision of this section. This penalty shall be assessed in the same manner and under the same procedures as the monetary penalties provided for in subsection (d)(2)(A).

"(c) CUSTOMS BROKER'S PERMITS.—

"(1) IN GENERAL.—Each person granted a customs broker's license under subsection (b) shall—

"(A) be issued a permit, in accordance with regulations prescribed under this section, for each customs district in which that person conducts customs business; and

"(B) except as provided in paragraph (2), regularly employ in each customs district for which a permit is so issued at least one individual who is licensed under subsection (b)(2) to exercise responsible supervision and control over the customs business conducted by that person in that district.

"(2) EXCEPTION.—If a person granted a customs broker's license under subsection (b) can demonstrate to the satisfaction of the Secretary that—

"(A) he regularly employs in the region in which that district is located at least one individual who is licensed under subsection (b)(2), and

"(B) that sufficient procedures exist within the company for the person employed in that region to exercise responsible supervision and control over the customs business conducted by that person in that district,

the Secretary may waive the requirement in paragraph (1)(B).

"(3) LAPSE OF PERMIT.—The failure of a customs broker granted a permit under paragraph (1) to employ, for any continuous period of 180 days, at least one individual who is licensed under subsection (b)(2) within the district or region (if paragraph (2) applies) for which a permit was issued shall, in addition to causing the broker to be subject to any other sanction under this section (including any in subsection (d)), result in the revocation by operation of law of the permit.

"(d) DISCIPLINARY PROCEEDINGS.—

"(1) GENERAL RULE.—The Secretary may impose a monetary penalty in all cases with the exception of the infractions described in clause (iii) of subparagraph (B) of this subsection, or revoke or suspend a license or permit of any customs broker, if it is shown that the broker—

"(A) has made or caused to be made in any application for any license or permit under this section, or report filed with the Customs Service, any statement which was, at the time and in light of the circumstances under which it was made, false or misleading with respect to any material fact, or has omitted to state in any such application or report any material fact which was required to be stated therein;

"(B) has been convicted at any time after the filing of an application for license under subsection (b) of any felony or misdemeanor which the Secretary finds—

"(i) involved the importation or exportation of merchandise;

"(ii) arose out of the conduct of its customs business; or

"(iii) involved larceny, theft, robbery, extortion, forgery, counterfeiting, fraudulent concealment, embezzlement, fraudulent conversion, or misappropriation of funds;

"(C) has violated any provision of any law enforced by the Customs Service or the rules or regulations issued under any such provision;

"(D) has counseled, commanded, induced, procured, or knowingly aided or abetted the violations by any other person of any provision of any law enforced by the Customs Service, or the rules or regulations issued under any such provision;

"(E) has knowingly employed, or continues to employ, any person who has been convicted of a felony, without written approval of such employment from the Secretary; or

"(F) has, in the course of its customs business, with intent to defraud, in any manner willfully and knowingly deceived, misled or threatened any client or prospective client.

"(2) PROCEDURES.—

"(A) MONETARY PENALTY.—Unless action has been taken under subparagraph (B), the appropriate customs officer shall serve notice in writing upon any customs broker to show cause why the broker should not be subject to a monetary penalty not to exceed $30,000 in total for a violation or violations of this section. The notice shall advise the customs broker of the allegations or complaints against him and shall explain that the broker has a right to respond to the allegations or complaints in writing within 30 days of the date of the notice. Before imposing a monetary penalty, the customs officer shall consider the allegations or complaints and any timely response made by the customs broker and issue a written decision. A customs broker against whom a monetary penalty has been issued under this section shall have a reasonable opportunity under section 618 to make representations seeking remission or mitigation of the monetary penalty. Following the conclusion of any proceeding under section 618, the appropriate customs officer shall provide to the customs broker a written statement which sets forth the final determination and the findings of fact and conclusions of law on which such determination is based.

"(B) REVOCATION OR SUSPENSION.—The appropriate customs officer may, for good and sufficient reason, serve notice in writing upon any customs broker to show cause why a license or permit issued under this section should not be revoked or suspended. The notice shall be in the form of a statement specifically setting forth the grounds of the complaint, and shall allow the customs broker 30 days to respond. If no response is filed, or the appropriate customs officer determines that the revocation or suspension is still warranted, he shall notify the customs broker in writing of a hearing to be held within 15 days, or at a later date if the broker requests an extension and shows good cause therefor, before an administrative law judge appointed pursuant to section 3105 of title 5, United States Code, who shall serve as the hearing officer. If the customs broker waives the hearing, or the broker or his designated representative fails to appear at the appointed time and place, the hearing officer shall make findings and recommendations based on the record submitted by the parties. At the hearing, the customs broker may be represented by counsel, and all proceedings, including the proof of the charges and the response thereto shall be presented with testimony taken under oath and the right of cross-examination accorded to both parties. A transcript of the hearing shall be made and a copy will be provided to the appropriate customs officer and the customs broker; they shall thereafter be provided reasonable opportunity to file a post-hearing brief. Following the conclusion of the hearing, the hearing officer shall transmit promptly the record of the hearing along with his findings of fact and recommendations to the Secretary for decision. The Secretary will issue a written decision, based solely on the record, setting forth his findings of fact and the reasons for his decision. Such decision may provide for the sanction contained in the notice to show cause or any lesser sanction authorized by this subsection, including a monetary penalty not to exceed $30,000, than was contained in the notice to show cause.

"(3) SETTLEMENT AND COMPROMISE.—The Secretary may settle and compromise any disciplinary proceeding which has been instituted under this subsection according to the terms and conditions agreed to by the parties, including but not limited to the reduction of any proposed suspension or revocation to a monetary penalty.

"(4) LIMITATION OF ACTIONS.—Notwithstanding section 621, no proceeding under this subsection or subsection (b)(6) shall be commenced unless such proceeding is instituted by the appropriate service of written notice within 5 years from the date the alleged violation was committed; except that if the alleged violation consists of fraud, the 5-year period of limitation shall commence running from the time such alleged violation was discovered.

"(e) JUDICIAL APPEAL.—

"(1) IN GENERAL.—A customs broker, applicant, or other person directly affected may appeal any decision of the Secretary denying or revoking a license or permit under subsection (b) or (c), or revoking or suspending a license or permit or imposing a monetary penalty in lieu thereof under subsection (d)(2)(B), by filing in the Court of International Trade, within 60 days after the issuance of the decision or order, a written petition requesting that the decision or order be modified or set aside in whole or in part. A copy of the petition shall be transmitted promptly by the clerk of the court to the Secretary or his designee. In cases involving revocation or suspension of a license or permit or imposition of a monetary penalty in lieu thereof under subsection (d)(2)(B), after receipt of the petition, the Secretary shall file in court the record upon which the decision or order complained of was en-

tered, as provided in section 2635(d) of title 28, United States Code.

"(2) CONSIDERATION OF OBJECTIONS.—The court shall not consider any objection to the decision or order of the Secretary, or to the introduction of evidence or testimony, unless that objection was raised before the hearing officer in suspension or revocation proceedings unless there were reasonable grounds for failure to do so.

"(3) CONCLUSIVENESS OF FINDINGS.—The findings of the Secretary as to the facts, if supported by substantial evidence, shall be conclusive.

"(4) ADDITIONAL EVIDENCE.—If any party applies to the court for leave to present additional evidence and the court is satisfied that the additional evidence is material and that reasonable grounds existed for the failure to present the evidence in the proceedings before the hearing officer, the court may order the additional evidence to be taken before the hearing officer and to be presented in a manner and upon the terms and conditions prescribed by the court. The Secretary may modify the findings of facts on the basis of the additional evidence presented. The Secretary shall then file with the court any new or modified findings of fact which shall be conclusive if supported by substantial evidence, together with a recommendation, if any, for the modification or setting aside of the original decision or order.

"(5) EFFECT OF PROCEEDINGS.—The commencement of proceedings under this subsection shall, unless specifically ordered by the court, operate as a stay of the decision of the Secretary except in the case of a denial of a license or permit.

"(6) FAILURE TO APPEAL.—If an appeal is not filed within the time limits specified in this section, the decision by the Secretary shall be final and conclusive. In the case of a monetary penalty imposed under subsection (d)(2)(B) of this section, if the amount is not tendered within 60 days after the decision becomes final, the license shall automatically be suspended until payment is made to the Customs Service.

"(f) REGULATIONS BY THE SECRETARY.—The Secretary may prescribe such rules and regulations relating to the customs business of customs brokers as the Secretary considers necessary to protect importers and the revenue of the United States, and to carry out the provisions of this section, including rules and regulations governing the licensing of or issuance of permits to customs brokers, the keeping of books, accounts, and records by customs brokers, and documents and correspondence, and the furnishing by customs brokers of any other information relating to their customs business to any duly accredited officer or employee of the United States Customs Service.

"(g) TRIENNIAL REPORTS BY CUSTOMS BROKERS.—

"(1) IN GENERAL.—On February 1, 1985, and on February 1 of each third year thereafter, each person who is licensed under subsection (b) shall file with the Secretary of the Treasury a report as to—

"(A) whether such person is actively engaged in business as a customs broker; and

"(B) the name under, and the address at, which such business is being transacted.

"(2) SUSPENSION AND REVOCATION.—If a person licensed under subsection (b) fails to file the required report by March 1 of the reporting year, the license is suspended, and may be thereafter revoked subject to the following procedures:

"(A) The Secretary shall transmit written notice of suspension to the licensee no later than March 31 of the reporting year.

"(B) If the licensee files the required report within 60 days of receipt of the Secretary's notice, the license shall be reinstated.

"(C) In the event the required report is not filed within the 60-day period, the license shall be revoked without prejudice to the filing of an application for a new license.

"(h) FEES AND CHARGES.—The Secretary may prescribe reasonable fees and charges to defray the costs of the Customs Service in carrying out the provisions of this section, including, but not limited to, a fee for licenses issued under subsection (b) and fees for any test administered by him or under his direction; except that no separate fees shall be imposed to defray the costs of an individual audit or of individual disciplinary proceedings of any nature.".

(b) Title 28, United States Code, is amended as follows:

(1) Section 1581(g) is amended to read as follows:

"(g) The Court of International Trade shall have exclusive jurisdiction of any civil action commenced to review—

"(1) any decision of the Secretary of the Treasury to deny a customs broker's license under section 641(b)(2) or (3) or (c) of the Tariff Act of 1930, or to deny a customs broker's permit under section 641(c)(1) of such Act, or to revoke a license or permit under section 641(b)(5) or (c)(2) of such Act; and

"(2) any decision of the Secretary of the Treasury to revoke or suspend a customs broker's license or permit, or impose a monetary penalty in lieu thereof, under section 641(d)(2)(B) of the Tariff Act of 1930.".

(2) Section 1582(1) is amended to read as follows:

"(1) to recover a civil penalty under section 592, 641(a)(1)(C), 641(d)(2)(A), 704(i)(2), or 734(i)(2) of the Tariff Act of 1930;".

(3) Section 2631(g) is amended to read as follows:

"(g)(1) A civil action to review any decision of the Secretary of the Treasury to deny a customs broker's license under section 641(b) (2) or (3) of the Tariff Act of 1930, or to deny a customs broker's permit under section 641(c)(1) of such Act, or to revoke such license or permit under section 641(b)(5) or (c)(2) of such Act, may be commenced in the Court of International Trade by the person whose license or permit was denied or revoked.

"(2) A civil action to review any decision of the Secretary of the Treasury to revoke or suspend a customs broker's license or permit or impose a monetary penalty in lieu thereof under section 641(d)(2)(B) of the Tariff Act of 1930 may be commenced in the Court of International Trade by the person against whom the decision was issued.".

(4) Section 2636(h) is amended to read as follows:

"(h) A civil action contesting the denial or revocation by the Secretary of the Treasury of a customs broker's license or permit under subsection (b) or (c) of section 641 of the Tariff Act of 1930, or the revocation or suspension of such license or permit or the imposition of a monetary penalty in lieu thereof by such Secretary under section 641(d) of such Act, is barred unless commenced in accordance with the rules of the Court of International Trade within sixty days after the date of the entry of the decision or order of such Secretary.".

(5) Section 2640(a)(5) is amended to read as follows:

"(5) Civil actions commenced to review any decision of the Secretary of the Treasury under section 641 of the Tariff Act of 1930, with the exception of decisions under section 641(d)(2)(B), which shall be governed by subdivision (d) of this section.".

(6) Section 2643 is amended by adding the following new subsection:

"(e) In any proceeding involving assessment or collection of a monetary penalty under section 641(b)(6) or 641(d)(2)(A) of the Tariff Act of 1930, the court may not render judgment in an amount greater than that sought in the initial pleading of the United States, and may render judgment in such lesser amount as shall seem proper and just to the court.".

(7) The Tariff Act of 1930 is further amended—

(A) by adding the following sentence at the end of section 564: "The provisions of this section shall apply to licensed customs brokers who otherwise possess a lien for the purposes stated above upon the merchandise under the statutes or common law, or by order of any court of competent jurisdiction, of any State."; and

(2) by adding the following at the end of section 520(a):

"(4) PRIOR TO LIQUIDATION.—Prior to the liquidation of an entry, whenever it is ascertained that excess duties, fees, charges, or exactions have been deposited or paid by reason of clerical error.".

SEC. 213. SEIZURES AND FORFEITURES.

(a) The Tariff Act of 1930 is amended as follows:

(1) Section 602 (19 U.S.C. 1602) is amended by inserting "aircraft," after "vehicle,".

(2) The sentence beginning "All vessels," in section 605 (19 U.S.C. 1605) is amended by inserting "aircraft," after "vehicles," the first place is appears.

(3) Section 606 (19 U.S.C. 1606) is amended by inserting "aircraft," after "vehicle,".

(4) Section 607 (19 U.S.C. 1607) is amended to read as follows:

"SEC. 607. SEIZURE; VALUE $100,000 OR LESS, PROHIBITED MERCHANDISE, TRANSPORTING CONVEYANCES.

"(a) If—

"(1) the value of such seized vessel, vehicle, aircraft, merchandise, or baggage does not exceed $100,000;

"(2) such seized merchandise is merchandise the importation of which is prohibited; or

"(3) such seized vessel, vehicle, or aircraft was used to import, export, transport, or store any controlled substance;

the appropriate customs officer shall cause a notice of the seizure of such articles and the intention of forfeit and sell or otherwise dispose of the same according to law to be published for at least three successive weeks in such manner as the Secretary of the Treasury may direct. Written notice of seizure together with information on the applicable procedures shall be sent to each party who appears to have an interest in the seized article.

"(b) As used in this section, the term 'controlled substance' has the meaning given that term in section 102 of the Controlled Substances Act (21 U.S.C. 802).".

(5) Section 608 (19 U.S.C. 1608) is amended—

(A) in the sentence beginning "Any person", by inserting "aircraft," after "vehicle,"; and

(B) in the sentence beginning "Upon the filing", by inserting after "penal sum of" the following: "$2,500 or 10 percent of the value

of the claimed property, whichever is lower, but not less than".

(6) Section 609 (19 U.S.C. 1609) is amended—

(A) by striking out "If no" and inserting in lieu thereof "(a) If no";

(B) by inserting "aircraft," after "vehicle,";

(C) by inserting after "according to law, and" the following: "(except as provided in subsection (b) of this section)"; and

(D) by adding at the end the following new subsection:

"(b) During the period beginning on the date of the enactment of this subsection and ending on September 30, 1987, the appropriate customs officer shall deposit the proceeds of sale (after deducting such expenses) in the Customs Forfeiture Fund.".

(7) Section 610 (19 U.S.C. 1610) is amended—

(A) by striking out "VALUE MORE THAN $10,000" in the section heading and inserting in lieu thereof "JUDICIAL FORFEITURE PROCEEDINGS"; and

(B) by striking out "If the value of any vessel, vehicle, merchandise, or baggage so seized is greater than $10,000," and inserting in lieu thereof "If any vessel, vehicle, aircraft, merchandise, or baggage is not subject to section 607 of this Act,".

(8) Section 611 (19 U.S.C. 1611) is amended by inserting "aircraft," after "vehicle," each place it appears.

(9) Section 612 (19 U.S.C. 1612) is amended—

(A) by inserting "aircraft," after "vehicle," each place it appears;

(B) in the sentence beginning "Whenever it appears"—

(i) by striking out "Whenever" and inserting in lieu thereof "(a) Whenever";

(ii) by striking out "the value of"; and

(iii) by striking out "as determined under section 606 of this Act, does not exceed $10,000" and inserting in lieu thereof "is subject to section 607 of this Act";

(C) in the sentence beginning "If such value"—

(i) by striking out "such value of"; and

(ii) by striking out "exceed $10,000" and inserting in lieu thereof "is not subject to section 607 of this Act,"; and

(D) by adding at the end the following new subsection:

"(b) If the expense of keeping the vessel, vehicle, aircraft, merchandise, or baggage is disproportionate to the value thereof, and such value is less than $1,000, such officer may proceed forthwith to order destruction or other appropriate disposition of such property, under regulations prescribed by the Secretary of the Treasury.".

(10) Section 613 (19 U.S.C. 1613) is amended—

(A) by inserting "aircraft," after "vehicle," in the sentence beginning "Except as" in subsection (a);

(B) by striking out "with the Treasurer of the United States as a customs or navigation fine" and inserting in lieu thereof "in the general fund of the Treasury of the United States" in paragraph (3) of the sentence beginning "If no" in subsection (a); and

(C) by amending subsection (b) by inserting after "and (2) of this section" the following: "or subsection (a)(1), (a)(3), or (a)(4) of section 613A of this Act".

(11) Part V of title IV (19 U.S.C. 1581 et seq.) is amended by adding after section 613 the following new section:

"SEC. 613A. CUSTOMS FORFEITURE FUND.

"(a) There is established in the Treasury of the United States a fund to be known as the Customs Forfeiture Fund (hereinafter in this section referred to as the 'fund'), which shall be available to the United States Customs Service, subject to appropriation, during the period beginning on the date of the enactment of this section and ending on September 30, 1987. The fund shall be available with respect to seizures and forfeitures by the United States Customs Service under any law enforced or administered by it for payment (to the extent that such payment is not reimbursed under section 524 of this Act)—

"(1) of all proper expenses of the seizure or the proceedings of forfeiture and sale (not otherwise recovered under section 613(a)), including, but not limited to, expenses of inventory, security, maintaining the custody of the property, advertising and sale, and if condemned by the court and a bond for such costs was not given, the costs as taxed by the court;

"(2) of awards of compensation to informers under section 619 of this Act;

"(3) for satisfaction of—

"(A) liens for freight, charges, and contributions in general average, notice of which has been filed with the appropriate customs officer according to law; and

"(B) other liens against forfeited property;

"(4) of amounts authorized by law with respect to remission and mitigation;

"(5) for equipping for law enforcement functions of forfeited vessels, vehicles, and aircraft retained as provided by law for official use by the United States Customs Service; and

"(6) of claims of parties in interest to property disposed of under section 612(b) of this Act, in the amounts applicable to such claims at the time of seizure.

In addition to the purposes described in paragraphs (1) through (6), the fund shall be available for purchases by the United States Customs Service of evidence of (A) smuggling of controlled substances, and (B) violations of the currency and foreign transaction reporting requirements of chapter 53 of title 31, United States Code, if there is a substantial probability that the violations of these requirements are related to the smuggling of controlled substances.

"(b)(1) Payment under paragraphs (3) and (4) of subsection (a) of this section shall not exceed the value of the property at the time of the seizure.

"(2) Amounts under subsection (a) of this section shall be available, at the discretion of the Commissioner of Customs, to reimburse the applicable appropriation for expenses incurred by the Coast Guard for a purpose specified in such subsection.

"(c) There shall be deposited in the fund during the period beginning on the date of the enactment of this section, and ending on September 30, 1987, all proceeds from forfeiture under any law enforced or administered by the United States Customs Service (after reimbursement of expenses under section 524 of this Act) and all earnings on amounts invested under subsection (d) of this section.

"(d) Amounts in the fund which are not currently needed for the purposes of this section shall be invested in obligations of, or guaranteed by, the United States.

"(e) Not later than four months after the end of each fiscal year, the Commissioner of Customs shall transmit to the Congress a report on receipts and disbursements with respect to the fund for such year.

"(f)(1) There are authorized to be appropriated from the fund for each of the four fiscal years beginning with fiscal year 1984, not more than $10,000,000.

"(2) At the end of each of the first three of such four fiscal years, any amount in the fund in excess of $10,000,000 shall be deposited in the general fund of the Treasury. At the end of the last of such four fiscal years, any amount in the fund shall be deposited in the general fund of the Treasury, and the fund shall cease to exist.".

(12) Section 614 (19 U.S.C. 1614) is amended by inserting "aircraft," after "vehicle," each place it appears.

(13) Section 615 (19 U.S.C. 1615) is amended—

(A) in the matter before the proviso, by inserting "aircraft," after "vehicle," each place it appears; and

(B) in paragraph (1) of the proviso, by striking out "vessel or vehicle" and inserting in lieu thereof "vessel, vehicle, or aircraft".

(14) Part V of title IV (19 U.S.C. 1581 et seq.), as amended by paragraph (11), is further amended by adding after section 615 the following new section:

"SEC. 616. TRANSFER OF FORFEITED PROPERTY.

"(a) The Secretary of the Treasury may discontinue forfeiture proceedings under this Act in favor of forfeiture under State law. If a complaint for forfeiture is filed under this Act, the Attorney General may seek dismissal of the complaint in favor of forfeiture under State law.

"(b) If forfeiture proceedings are discontinued or dismissed under this section—

"(1) the United States may transfer the seized property to the appropriate State or local official; and

"(2) notice of the discontinuance or dismissal shall be provided to all known interested parties.

"(c) The Secretary of the Treasury may transfer any property forfeited under this Act to any State or local law enforcement agency which participated directly in the seizure or forfeiture of the property.

"(d) The United States shall not be liable in any action relating to property transferred under this section if such action is based on an act or omission occurring after the transfer.".

(15) Section 619 (19 U.S.C. 1619) is amended—

(A) by inserting "aircraft," after "vehicle," each place it appears, and

(B) by striking out "$50,000" each place it appears and inserting in lieu thereof "$250,000".

(16) The sentence beginning "Whenever any" in section 618 (19 U.S.C. 1618) is amended by inserting "aircraft," after "vehicle," each place it appears.

(17) Part V of title IV (19 U.S.C. 1581 et seq.), as amended by paragraphs (11) and (13), is further amended by adding after section 588 the following new section:

"SEC. 589. ENFORCEMENT AUTHORITY OF CUSTOMS OFFICERS.

"Subject to the direction of the Secretary of the Treasury, an officer of the customs may—

"(1) carry a firearm;

"(2) execute and serve any order, warrant, subpena, summons, or other process issued under the authority of the United States;

"(3) make an arrest without a warrant for any offense against the United States committed in the officer's presence or for a felony, cognizable under the laws of the United States committed outside the officer's presence if the officer has reasonable grounds to believe that the person be to arrested has committed or is committing a felony; and

"(4) perform any other law enforcement duty that the Secretary of the Treasury may designate.".

(b)(1) Section 7607 of the Internal Revenue Code of 1954 is repealed.

(2) The table of sections for subchapter A of chapter 78 of the Internal Revenue Code of 1954 is amended by striking out the item relating to section 7607.

SEC. 214. EFFECTIVE DATES.

(a) For purposes of this section, the term "15th day" means the 15th day after the date of the enactment of this Act.

(b) Except as provided in subsections (c) and (d), the amendments made by this title shall take effect on the 15th day.

(c)(1) The amendment made by section 204 shall apply with respect to vessels returning from the British Virgin Islands on or after the 15th day.

(2) The amendments made by section 207 shall apply with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day; except for such of those articles that, on or before the 15th day, had been taken on board for transit to the customs territory of the United States.

(3)(A) The amendment made by section 208 shall apply with respect to entries made in connection with arrivals of vessels on or after the 15th day.

(B) Upon request therefor filed with the customs officer concerned on or before the 90th day after the date of the enactment of this Act, any entry in connection with the arrival of a vessel used primarily for transporting passengers or property—

(i) made before the 15th day but not liquidated as of January 1, 1983, or

(ii) made before the 15th day but which is the subject of an action in a court of competent jurisdiction on September 19, 1983, and

(iii) with respect to which there would have been no duty if the amendment made by section 208 applied to such entry,

shall, notwithstanding the provisions of section 514 of the Tariff Act of 1930 (19 U.S.C. 1514) or any other provision of law, be liquidated or reliquidated as though such entry had been made on the 15th day.

(4) The amendments made by section 209 shall apply with respect to articles launched into space from the customs territory of the United States on or after January 1, 1985.

(5)(A) The amendment made by section 210(a) shall take effect on the 30th day after the date of the enactment of this Act.

(B) The amendment made by section 210(b) shall apply with respect to determinations made or ordered on or after the date of the enactment of this Act.

(d)(1) The amendments made by section 212 shall take effect upon the close of the 180th day following the date of the enactment of this Act with the following exceptions:

(A) Section 641(c)(1)(B) and section 641(c)(2) of the Tariff Act of 1930, as added by such section, shall take effect three years after the date of the enactment of this Act.

(B) The amendments made to the Tariff Act of 1930 by subsection (c) of section 212 shall take effect on such date of enactment.

(2) A license in effect on the date of enactment of this Act under section 641 of the Tariff Act of 1930 (as in effect before such date of enactment) shall continue in force as a license to transact customs business as a customs broker, subject to all the provisions of section 212 and such licenses shall be accepted as permits for the district or districts covered by that license.

(3) Any proceeding for revocation or suspension of a license instituted under section 641 of the Tariff Act of 1930 before the date of the enactment of this Act shall continue and be governed by the law in effect at the time the proceeding was instituted.

(4) If any provision of section 212 or its application to any person or circumstances is held invalid, it shall not affect the validity of the remaining provisions or their application to any other person or circumstances.

(e) The amendments made by section 213 shall take effect October 15, 1984.

Subtitle B—Small Business Trade Assistance

SEC. 221. ESTABLISHMENT OF TRADE REMEDY ASSISTANCE OFFICE IN THE UNITED STATES INTERNATIONAL TRADE COMMISSION.

Part 2 of title II of the Tariff Act of 1930 (19 U.S.C. 1330-1341) is amended by inserting after section 338 the following new section:

"SEC. 339. TRADE REMEDY ASSISTANCE OFFICE.

"(a) There is established in the Commission a Trade Remedy Assistance Office which shall provide full information to the public, upon request, concerning—

"(1) remedies and benefits available under the trade laws, and

"(2) the petition and application procedures, and the appropriate filing dates, with respect to such remedies and benefits.

"(b) Each agency responsible for administering a trade law shall provide technical assistance to eligible small businesses to enable them to prepare and file petitions and applications (other than those which, in the opinion of the agency, are frivolous) to obtain the remedies and benefits that may be available under that law.

"(c) For purposes of this section—

"(1) The term 'eligible small business' means any business concern which, in the agency's judgment, due to its small size, has neither adequate internal resources nor financial ability to obtain qualified outside assistance in preparing and filing petitions and applications for remedies and benefits under trade laws. In determining whether a business concern is an 'eligible small business', the agency may consult with the Small Business Administration, and shall consult with any other agency that has provided assistance under subsection (b) to that business concern. An agency decision regarding whether a business concern is an eligible small business for purposes of this section is not reviewable by any other agency or by any court.

"(2) The term 'trade laws' means—

"(A) chapter 1 of title II of the Trade Act of 1974 (19 U.S.C. 2251 et seq., relating to relief caused by import competition);

"(B) chapters 2 and 3 of such title II (relating to adjustment assistance for workers and firms);

"(C) chapter 1 of title III of the Trade Act of 1974 (19 U.S.C. 2411 et seq., relating to relief from foreign import restrictions and export subsidies);

"(D) title VII of the Tariff Act of 1930 (19 U.S.C. 1671 et seq., relating to the imposition of countervailing duties and antidumping duties);

"(E) section 232 of the Trade Expansion Act of 1962 (19 U.S.C. 1862, relating to the safeguarding of national security); and

"(F) section 337 of the Tariff Act of 1930 (19 U.S.C. 1337, relating to unfair practices in import trade)."

(b) Section 339 of the Tariff Act of 1930 (as added by subsection (a)) shall take effect on the 90th day after the date of the enactment of this Act.

Subtitle C—Miscellaneous Provisions

SEC. 231. FOREIGN TRADE ZONE PROVISIONS.

(a)(1) The Congress finds that a delicate balance of the interests of the bicycle industry and the bicycle component parts industry has been reached through repeated revision of the Tariff Schedules of the United States so as to allow duty free import of those categories of bicycle component parts which are not manufactured domestically. The Congress further finds that this balance would be destroyed by exempting otherwise dutiable bicycle component parts from the customs laws of the United States through granting foreign trade zone status to bicycle manufacturing and assembly plants in the United States and that the preservation of such balance is in the public interest and in the interest of the domestic bicycle industry.

(2) Section 3 of the Act of June 18, 1934 (commonly known as the Foreign Trade Zones Act (19 U.S.C. 81c)), is amended—

(A) by inserting "(a)" immediately before the first word thereof;

(B) by redesignating paragraphs (a) and (b) as paragraphs (1) and (2), respectively; and

(C) by adding at the end thereof the following new subsection:

"(b) The exemption from the customs laws of the United States provided under subsection (a) shall not be available before June 30, 1986, to bicycle component parts unless such parts are reexported from the United States, whether in the original package, as components of a completely assembled bicycle, or otherwise.".

(3) The amendments made by paragraph (2) shall take effect on the fifteenth day after the date of the enactment of this Act.

(b)(1) Section 15 of such Act of June 18, 1934 (19 U.S.C. 81o) is amended by adding at the end thereof the following new subsection:

"(e) Tangible personal property imported from outside the United States and held in a zone for the purpose of storage, sale, exhibition, repackaging, assembly, distribution, sorting, grading, cleaning, mixing, display, manufacturing, or processing, and tangible personal property produced in the United States and held in a zone for exportation, either in its original form or as altered by any of the above processes, shall be exempt from State and local ad valorem taxation.".

(2) The amendment made by paragraph (1) shall take effect on January 1, 1983.

SEC. 232. DENIAL OF DEDUCTION FOR CERTAIN FOREIGN ADVERTISING EXPENSES.

(a) Section 162 of the Internal Revenue Code of 1954 (relating to trade or business expenses) is amended by redesignating subsection (j) as subsection (k) and by inserting after subsection (i) the following new subsection:

"(j) CERTAIN FOREIGN ADVERTISING EXPENSES.—

"(1) IN GENERAL.—No deduction shall be allowed under subsection (a) for any expenses of an advertisement carried by a foreign broadcast undertaking and directed primarily to a market in the United States. This paragraph shall apply only to foreign broadcast undertakings located in a country which denies a similar deduction for the cost of advertising directed primarily to a market in the foreign country when placed with a United States broadcast undertaking.

"(2) BROADCAST UNDERTAKING.—For purposes of paragraph (1), the term 'broadcast undertaking' includes (but is not limited to) radio and television stations.".

(b) The amendment made by subsection (a) shall apply to taxable years beginning after the date of the enactment of this Act.

SEC. 233. CERTAIN RELICS AND CURIOS.

Section 925 of title 18, United States Code, is amended by inserting at the end thereof the following:

"(e) Notwithstanding any other provision of this title, the Secretary shall authorize the importation of, by any licensed importer, the following:

"(1) All rifles and shotguns listed as curios or relics by the Secretary pursuant to section 921(a)(13), and

"(2) All handguns, listed as curios or relics by the Secretary pursuant to section 921(a)(13), provided that such handguns are generally recognized as particularly suitable for or readily adaptable to sporting purposes.".

SEC. 234. MODIFICATION OF DUTIES ON CERTAIN ARTICLES USED IN CIVIL AVIATION.

(a) The President may proclaim modifications in the rate of duty column numbered 1 and in the article descriptions, including the superior headings thereto, for the articles provided for in the following items in Tariff Schedules of the United States (19 U.S.C. 1202) in order to provide duty-free coverage comparable to the expanded coverage provided by all other signatories to the Agreement on Trade in Civil Aircraft pursuant to the extension of the Annex to the Agreement on Trade in Civil Aircraft on October 6, 1983, and recorded in the decision of the Committee on March 22, 1984, if such articles are certified for use in civil aircraft in accordance with headnote 3 to schedule 6, part 6, subpart C of such Schedules:

646.95	680.95	708.05
660.85	681.01	708.07
660.97	681.15	708.09
661.06	681.18	708.21
661.10	681.21	708.23
661.15	681.24	708.25
661.20	682.05	708.27
661.35	683.05	708.29
680.59	683.07	711.77
680.61	683.15	711.78
680.62	708.01	711.98
680.92	708.03	712.49.

(b) For purposes of section 125 of the Trade Act of 1974, the duty-free treatment, if any, proclaimed under subsection (a) shall be considered to be trade agreement obligations entered into under the Trade Act of 1974 of benefit to foreign countries or instrumentalities.

SEC. 235. PRODUCTS OF CARIBBEAN BASIN COUNTRIES ENTERED IN PUERTO RICO.

Subsection (a) of section 213 of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703) is amended by adding at the end thereof the following new paragraph:

"(3) Notwithstanding section 311 of the Tariff Act of 1930, the products of a beneficiary country which are imported directly from such country into Puerto Rico may be entered under bond for processing or use in manufacturing in Puerto Rico. No duty shall be imposed on the withdrawal from warehouse of the product of such processing or manufacturing if, at the time of such withdrawal, such product meets the requirements of paragraph (1)(B).".

SEC. 236. USER FEE FOR CUSTOMS SERVICES AT CERTAIN SMALL AIRPORTS.

(a) The Secretary of the Treasury shall make customs services available and charge a fee for the use of such customs services at—

(1) the airport located at Lebanon, New Hampshire, and

(2) any other airport designated by the Secretary of the Treasury under subsection (c).

(b) The fee which is charged under subsection (a) shall be paid by each person using the customs services at the airport and shall be in an amount equal to the expenses incurred by the Secretary of the Treasury in providing the customs services which are rendered to such person at such airport (including the salary and expenses of individuals employed by the Secretary of the Treasury to provide such customs services).

(c) The Secretary of the Treasury may designate 4 airports under this subsection. An airport may be designated under this subsection only if—

(1) the Secretary of the Treasury has made a determination that the volume or value of business cleared through such airport is insufficient to justify the availability of customs services at such airport, and

(2) the governor of the State in which such airport is located approves such designation.

(d) Any person who, after notice and demand for payment of any fee charged under subsection (a), fails to pay such fee shall be guilty of a misdemeanor and if convicted thereof shall pay a fine that does not exceed an amount equal to 200 percent of such fee.

(e) Fees collected by the Secretary of the Treasury under subsection (a) with respect to the provision of services at an airport shall be deposited in an account within the Treasury of the United States that is specially designated for such airport. The funds in such account shall only be available, as provided by appropriation Acts, for expenditures relating to the provision of customs services at such airport (including expenditures for the salaries and expenses of individuals employed to provide such services).

SEC. 237. NOTIFICATION OF CERTAIN ACTIONS BY THE UNITED STATES CUSTOMS SERVICE.

(a) The Commissioner of Customs shall notify the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives at least 90 days prior to initiating any major field reorganization or consolidation or taking any other action which would—

(1) result in a significant reduction in force of employees other than by means of attrition;

(2) eliminate or relocate any district, regional, or border office of the United States Customs Service; or

(3) significantly reduce the number of employees assigned to any district, regional, or border office of the United States Customs Service.

(b) The provisions of this section shall not apply after September 30, 1985.

(c) The amendment made by subsection (a) shall take effect after the effective date of any provision of law enacted by the 98th Congress that would, but for this section, limit the authority of the Commission of Customs to reorganize or consolidate any district, regional, or border office of the Service.

SEC. 238. COLUMBIA-SNAKE CUSTOMS DISTRICT.

The Commissioner of the United States Customs Service shall establish a customs district that shall—

(1) be known as the Columbia-Snake Customs District;

(2) have headquarters at Portland, Oregon; and

(3) consist of the following areas:

(A) The State of Oregon.

(B) That part of the State of Idaho below 47 latitude.

(C) The following counties in the State of Washington:

Adams, Asotin, Benton, Clark, Columbia, Cowlitz, Franklin, Garfield, Klickitat, Skamania, Wahkiakum, Walla Walla, and Whitman.

(D) That area of Pacific County, State of Washington, south of a line that would be in effect if the northern boundary of Wahkiakum County were extended westward to the Pacific Ocean.

The ports of entry for Columbia-Snake Customs District are those ports of entry that were within the areas described in paragraph (3) on the date of the enactment of this Act; except that Boise, Idaho, is an additional port of entry for that District.

SEC. 239. RELIQUIDATION OF CERTAIN MASS SPECTROMETER SYSTEMS.

Notwithstanding sections 514 and 520 of the Tariff Act of 1930 and any other provision of law, the Secretary of the Treasury is authorized to reliquidate within six months of the date of enactment of this Act the entry of 2 mass spectrometer systems—

(1) which were imported into the United States for the use of Montana State University, Bozeman, Montana, and

(2) with respect to which applications were filed with the International Trade Administration of the Department of Commerce for duty-free entry of scientific instruments that were assigned the docket numbers 82-00323 and 83-108 (described in 47 Federal Register 41409 and 48 Federal Register 13214, respectively),

if the Secretary of Commerce finds that these systems are eligible to enter free of duty pursuant to headnote 6 of part 4 of schedule 8 of the Tariff Schedules of the United States.

SEC. 240. MAX PLANCK INSTITUTE FOR RADIOASTRONOMY.

(a)(1) The Secretary of the Treasury is authorized and directed to admit free of duty any article provided by the Max Planck Institute for Radioastronomy of the Federal Republic of Germany to the joint astronomical project being undertaken by the Steward Observatory of the University of Arizona and the Max Planck Institute for the construction, installation, and operation of a sub-mm telescope in the State of Arizona if—

(A) such article is an instrument or apparatus (within the meaning of headnote 6(a) of part 4 of schedule 8 of the Tariff Schedules of the United States (19 U.S.C. 1202)), and

(B) no instruments or apparatus of equivalent scientific value for the purposes for which such article is intended to be used is being manufactured in the United States.

(2) For purposes of paragraph 1(B), scientific testing equipment provided by the Max Planck Institute and necessary for aligning, calibrating, or otherwise testing an instrument or apparatus shall be considered to be part of such instrument or apparatus.

(b) The University of Arizona or the Max Planck Institute shall submit to the United States Customs Service and to the International Trade Administration descriptions of the articles sought to be admitted free of duty containing sufficient detail to allow the United States Customs Service to determine whether subsection (a)(1)(A) is satisfied and the International Trade Administration to determine whether subsection (a)(1)(B) is satisfied. The descriptions may be submitted in a single or in several submissions to each agency, as the University

of Arizona or the Max Planck Institute deem appropriate during the course of the project. The United States Customs Service and the International Trade Administration are directed to make their respective determinations under this section within ninety days of the date the agency receives a sufficient submission of information with respect to any article.

(c) The Secretary of the Treasury is authorized and directed to readmit free of duty any article admitted free of duty under subsection (a) and subsequently returned to the Federal Republic of Germany for repair, replacement, or modification.

(d) The Secretary of the Treasury is authorized and directed to admit free of duty any repair components for articles admitted free of duty under subsection (a).

(e) If any article admitted free of duty under subseciton (a) is used for any purpose other than the joint project described in subsection (a)(1) within five years after being entered, duty on the article shall be assessed in accordance with the procedures established in headnote 1 of part 4 of schedule 8 (19 U.S.C. 1202).

(f) The provisions of subsection (a) shall apply with respect to articles entered for consumption after the day which is 15 days after the date of enactment of this Act and before November 1, 1993.

SEC. 241. DUTY-FREE ENTRY FOR RESEARCH EQUIPMENT FOR NORTH DAKOTA STATE UNIVERSITY, FARGO, NORTH DAKOTA.

The research equipment that was imported for the use of North Dakota University, Fargo, North Dakota, and entered on September 15, 1983, under entry number 83-116431-9, at Seattle, Washington, shall be considered to have been admitted free of duty as of the date of such entry. If the liquidation of such entry has become final, the Secretary of the Treasury shall reliquidate such entry and make the appropriate refund of any duty paid on such equipment.

SEC. 242. DUTY-FREE ENTRY FOR PIPE ORGAN FOR THE CRYSTAL CATHEDRAL GARDEN GROVE, CALIFORNIA.

The pipe organ which was imported for the use of the Crystal Cathedral of Garden Grove, California, and entered in six shipments between April 30, 1981, and April 8, 1982, at Los Angeles, California, shall be considered to have been admitted free of duty as of the date of each such entry. If the liquidation of any such entry has become final, the Secretary of the Treasury shall reliquidate each such entry and make the appropriate refund of any duty paid on such organ.

SEC. 243. DUTY-FREE ENTRY FOR SCIENTIFIC EQUIPMENT FOR THE ELLIS FISCHEL STATE CANCER HOSPITAL, COLUMBIA, MISSOURI.

Notwithstanding any provision of the Tariff Act of 1930 or any other provisions of the law to the contrary, the Secretary of the Treasury shall reliquidate, as duty free, the entries numbered 220286 (dated November 7, 1975) and 235380 (dated January 23, 1976) made at Chicago, Illinois, and covering scientific equipment for the use of the Ellis Fischel Cancer Hospital, Columbia, Missouri, in accordance with the decision of the Department of Commerce in docket numbered 76-00199-33-00530.

SEC. 244. DUTY-FREE ENTRY OF ORGANS IMPORTED FOR THE USE OF TRINITY CATHEDRAL OF CLEVELAND, OHIO.

The organs made by Flentrop Orgel Bouw, the Netherlands, that were imported for the use of Trinity Cathedral of Cleveland, Ohio, and entered during 1973-1978 shall be considered to have been admitted free of duty on the dates of entry. If the liquidation of any such entry has become final, the Secretary of the Treasury, if request therefor is filed with the appropriate customs officer within 180 days after the date of the enactment of this Act, shall reliquidate the entry and make the appropriate refund of any duty paid.

SEC. 245. SENSE OF CONGRESS REGARDING POSSIBLE EEC ACTION ON CORN GLUTEN.

Whereas—

(1) the European Council of Ministers has directed the Commission of the European Community (EC) to initiate consultations with the United States and other interested parties under article XXVIII of the General Agreement on Tariffs and Trade (GATT) for the purpose of imposing tariff or tariff quota restrictions on imports of nongrain feed ingredients, including corn gluten feed;

(2) the EC has considered proposals to impose a domestic consumption tax on vegetable fats and oils, which would undermine the intention of the duty-free binding on certain corn and soybean products imported from the United States;

(3) the EC has bound in the GATT that it will impose no import duties on soybeans, soybean meal, corn gluten feed, and other corn by-products, and such zero-tariff bindings were agreed to in return for United States trade concessions to the EC during previous rounds of trade negotiations;

(4) the EC has not demonstrated sound economic justification for restrictions on the import of nongrain feed ingredients and such restrictions would only shift the financial burden of EC Common Agricultural Policy (CAP) reform from the EC to other countries, with negligible improvement in the current EC budget situation;

(5) action by the EC to breach a negotiated concession would severely erode the basic GATT principle of comparative advantage and set a dangerous precedent which could threaten other previously negotiated concessions and serve as a precursor to restrictions on the import of soybeans and soybean products; and

(6) the official position of the United States, as stated by the Secretary of Agriculture, is that there is strong support for the EC efforts to balance the Agricultural budget, but that the United States will oppose any efforts to limit its exports of corn gluten feed to the EC;

it is the sense of Congress that—

(A) the President should continue to firmly oppose the imposition of any restriction on European Community imports of nongrain feed ingredients, including corn gluten, and should support the current duty-free binding on such products;

(B) the President should continue to rigorously oppose any European Community proposals which would violate the intent of the existing duty-free binding in the General Agreement of Tariffs and Trade on soybeans and soybean products and reaffirm the United States conviction that the imposition of a consumption tax on vegetable fats and oils by the European Community would represent a restraint of trade; and

(C) if unilateral action is taken by the European Community to restrict or inhibit the importation of either nongrain feed ingredients, including corn gluten feed, or vegetable fats and oils, including soybean products, the United States should act immediately to restrict European Community imports of at least the aggregate value of the reduced and potentially reduced United States export products.

SEC. 246. STUDY ON HONEY IMPORTS.

(a) The Senate finds that—

(1) in 1976 the International Trade Commission found that honey imports threatened serious injury to the domestic honey industry and recommended action to control honey imports,

(2) the domestic honey industry is essential for production of many agricultural crops,

(3) a significant part of our total diet is dependent directly or indirectly on insect pollination, and

(4) it is imperative that the domestic honey bee industry be maintained at a level sufficient to provide crop pollination.

(b) It is the sense of the Senate that the Secretary of Agriculture should promptly request the President to call for an International Trade Commission investigation of honey imports, under section 22 of the Agriculture Adjustment Act.

SEC. 247. COPPER IMPORTS.

(a) The Congress finds that—

(1) the United States International Trade Commission unanimously found that the United States copper producing industry is being seriously injured by copper imports;

(2) worldwide copper prices are at record low levels;

(3) foreign copper producers have increased their copper production inspite of depressed world prices in an effort to meet their external debt obligations;

(4) United States copper production has been reduced by over forty percent and over half of the work force has been laid off;

(5) continuation of the current depressed world price for copper threatens severe economic distress for less developed countries which are dependent on copper exports as their major source of foreign exchange;

(6) the competitivness of United States copper producers could be enhanced through the investment which could be generated if worldwide copper prices returned to more historically representative levels; and

(7) a balanced reduction in foreign copper production which raises marginally the world price for copper would not disadvantage domestaic fabricators by creating a two-tier pricing system.

(b) It is the sense of Congress that the President should negotiate with the principal foreign copper-producing countries to conclude voluntary restraint agreements with those governments for the purpose of effecting a balanced reduction of total annual foreign copper production for a period of between three and five years in order to—

(1) allow the price of copper on international markets to rise modestly to levels which will permit the remaining copper operations located in the United States to attract needed capital, and

(2) achieve a secure domestic supply of copper.

(c) It is the further sense of the Congress that the President should submit a report to Congress, within twelve months of the date of enactment of this Act, explaining—

(1) the results of his negotiations; or

(2) why he felt it was inappropriate or unnecessary to undertake such negotiations.

SEC. 248. DISAPPROVAL OF PRESIDENTIAL DETERMINATIONS UNDER SECTION 203 OF THE TRADE ACT OF 1974.

(a)(1) Section 203(c)(1) of the Trade Act of 1974 (19 U.S.C. 2253(c)(1)) is amended to read as follows:

"(1) If the President reports under subsection (b) that he is taking action which dif-

fers from the action recommended by the Commission under section 201(d)(1)(A), or that he will not provide import relief, the action recommended by the Commission shall take effect (as provided in paragraph (2)) upon enactment of a joint resolution described in section 152(a)(1)(A) within the 90-day period beginning on the date on which the document referred to in subsection (b) is transmitted to the Congress.".

(2) Section 203(c)(2) of the Trade Act of 1974 (19 U.S.C. 2253(c)(2)) is amended—

(A) by striking out "adoption of such resolution" and inserting in lieu thereof "enactment of the joint resolution referred to in paragraph (1)", and

(B) by striking out "section 201(b)" and inserting in lieu thereof "section 201(d)".

(b) Section 152(a)(1)(A) of the Trade Act of 1974 (19 U.S.C. 2192(a)(1)(A) of the Trade Act of 1974 (19 U.S.C. 2192(a)(1)(A)) is amended by striking out "concurrent resolution" and inserting in lieu thereof "joint resolution".

(c) Section 330(d)(4) of the Tariff Act of 1930 (19 U.S.C. 1330(d)(4)) is amended by striking out "the concurrent resolution described in such section 152" and inserting in lieu thereof "the joint resolution described in such section 152(a)(1)(A)".

SEC. 249. SECTION 201 CRITERIA.

Section 201(b) of the Trade Act of 1974 (19 U.S.C. 2251(b)) is amended—

(1) by amending paragraph (2)—

(A) by inserting "(whether maintained by domestic producers, importers, wholesalers, or retailers)" after "inventory" in subparagraph (B),

(B) by striking out "and" at the end of subparagraph (B),

(C) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof "; and", and

(D) by adding at the end thereof the following:

"(D) the presence or absence of any factor which the Commission is required to evaluate in subparagraphs (A) and (B) shall not necessarily be dispositive of whether an article is being imported into the United States in such increased quantities as to be a substantial cause of serious injury or threat of serious injury to the domestic industry."; and

(2) by adding at the end thereof the following new paragraph:

"(7) For purposes of this section, the term 'significant idling of productive facilities' includes the closing of plants or the underutilization of production capacity."

TITLE III—INTERNATIONAL TRADE AND INVESTMENT

SEC. 301. SHORT TITLE; AMENDMENT OF TRADE ACT OF 1974.

(a) This title may be cited as the "International Trade and Investment Act".

(b) Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Trade Act of 1974.

SEC. 302. STATEMENT OF PURPOSES.

The purposes of this title are—

(1) To foster the economic growth of, and full employment in, the United States by expanding competitive United States exports through the achievement of commercial opportunities in foreign markets substantially equivalent to those accorded by the United States;

(2) to improve the ability of the President—

(A) To identify and to anlayze barriers to (and restrictions on) United States trade and investment, and

(B) to achieve the elimination of such barriers and restrictions;

(3) to encourage the expansion of—

(A) international trade in services through the negotiation of agreements (both bilateral and multilateral) which reduce or eliminate barriers to international trade in services, and

(B) United States service industries in foreign commerce; and

(4) to enhance the free flow of foreign direct investment through the negotiation of agreements (both bilateral and multilateral) which reduce or eliminate the trade distortive effects of certain investment-related measures.

SEC. 303. ANALYSIS OF FOREIGN TRADE BARRIERS.

(a) Title I (19 U.S.C. 2111 et seq.) is amended by adding at the end thereof the following new chapter:

"CHAPTER 8—BARRIERS TO MARKET ACCESS

"SEC. 181. ACTIONS CONCERNING BARRIERS TO MARKET ACCESS.

"(a) NATIONAL TRADE ESTIMATES.—

"(1) IN GENERAL.—Not later than the date on which the initial report is required under subsection (b)(1), the United States Trade Representative, through the interagency trade organization established pursuant to section 242(a) of the Trade Expansion Act of 1962 shall—

"(A) identify and analyze acts, policies, or practices which constitute significant barriers to, or distortions of—

"(i) United States exports of goods or services (including agricultural commodities; and property protected by trademarks, patents, and copyrights exported or licensed by United States persons), and

"(ii) foreign direct investment by United States persons, especially if such investment has implications for trade in goods or services; and

"(B) make an estimate of the trade-distorting impact on United States commerce of any act, policy, or practice identified under subparagraph (A).

"(2) CERTAIN FACTORS TAKEN INTO ACCOUNT IN MAKING ANALYSIS AND ESTIMATE.—In making any analysis or estimate under paragraph (1), the Trade Representative shall take into account—

"(A) the relative impact of the act, policy, or practice on United States commerce;

"(B) the availability of information to document prices, market shares, and other matters necessary to demonstrate the effects of the act, policy, or practice;

"(C) the extent to which such act, policy, or practice is subject to international agreements to which the United States is a party; and

"(D) any advice given through appropriate committees established pursuant to section 135.

"(3) ANNUAL REVISIONS AND UPDATES.—The Trade Representative shall annually revise and update the analysis and estimate under paragraph (1).

"(b) REPORT TO CONGRESS.—

"(1) IN GENERAL.—On or before the date which is one year after the date of the enactment of the International Trade and Investment Act, and each year thereafter, the Trade Representative shall submit the analysis and estimate under subsection (a) to the Committee on Finance of the Senate and to the Committee on Ways and Means of the House of Representatives.

"(2) REPORTS TO INCLUDE INFORMATION WITH RESPECT TO ACTION BEING TAKEN.—The Trade Representative shall include in each report submitted under paragraph (1) information with respect to any action taken (or the reasons for no action taken) to eliminate any act, policy, or practice identified under subsection (a), including, but not limited to—

"(A) any action under section 301, or

"(B) negotiations or consultations with foreign governments.

"(3) CONSULTATION WITH CONGRESS ON TRADE POLICY PRIORITIES.—The Trade Representative shall keep the committees described in paragraph (1) currently informed with respect to trade policy priorities for the purposes of expanding market opportunities.

"(c) ASSISTANCE OF OTHER AGENCIES.—

"(1) FURNISHING OF INFORMATION.—The head of each department or agency of the executive branch of the Government, including any independent agency, is authorized and directed to furnish to the Trade Representative or to the appropriate agency, upon request, such data, reports, and other information as is necessary for the Trade Representative to carry out his functions under this section.

"(2) RESTRICTIONS ON RELEASE OR USE OF INFORMATION.—Nothing in this subsection shall authorize the release of information to, or the use of information by, the Trade Representative in a manner inconsisten with law or any procedure established pursuant thereto.

"(3) PERSONNEL AND SERVICES.—The head of any department, agency, or instrumentality of the United States may detail such personnel and may furnish such services, with or without reimbursement, as the Trade Representative may request to assist in carrying out his functions.".

(b) The table of contents for title I is amended by adding at the end thereof the following:

"Chapter 8—Barriers to Market Access

"Sec. 181. Actions concerning barriers to market access.".

SEC. 304. AMENDMENTS TO TITLE III OF THE TRADE ACT OF 1974.

(a) Section 301(a) (19 U.S.C. 2411(a)) is amended to read as follows:

"(a) DETERMINATIONS REQUIRING ACTION.—

"(1) IN GENERAL.—If the President determines that action by the United States is appropriate—

"(A) to enforce the rights of the United States under any trade agreement; or

"(B) to respond to any act, policy, or practice of a foreign country or instrumentality that—

"(i) is inconsistent with the provisions of, or otherwise denies benefits to the United States under, any trade agreement, or

"(ii) is unjustifiable, unreasonable, or discriminatory and burdens or restricts United States commerce;

the President shall take all appropriate and feasible action within his power to enforce such rights or to obtain the elimination of such act, policy, or practice.

"(2) SCOPE OF ACTION.—The President may exercise his authority under this section with respect to any goods or sector—

"(A) on a nondiscriminatory basis or solely against the foreign country or instrumentality involved, and

"(B) without regard to whether or not such goods or sector were involved in the act, policy, or practice identified under paragraph (1).".

(b) Section 301(b) (19 U.S.C. 2411(b)) is amended—

(1) by striking out "and" at the end of paragraph (1);

(2) by inserting ", notwithstanding any other provision of law," before "fees" in paragraph (2); and

(3) by striking out "products" in paragraph (2) and inserting in lieu thereof "goods".

(c) Section 301 is amended by redesignating subsections (c) and (d) as subsections (d) and (e), respectively, and by inserting after subsection (b) the following new subsection:

"(c) ADDITIONAL ACTIONS ON SERVICES.—

"(1) IN GENERAL.—Notwithstanding any other provision of law governing any service sector access authorization, and in addition to the authority conferred in subsection (b), the President may—

"(A) restrict, in the manner and to the extent the President deems appropriate, the terms and conditions of any such authorization, or

"(B) deny the issuance of any such authorization.

"(2) AFFECTED AUTHORIZATIONS.—Actions under paragraph (1) shall apply only with respect to service sector access authorizations granted, or applications therefor pending, on or after the date on which—

"(A) a petition is filed under section 302(a), or

"(B) a determination to initiate an investigation is made by the United States Trade Representative (hereinafter in this chapter referred to as the 'Trade Representative') under section 302(c).

"(3) CONSULTATION.— Before the President takes action under subsection (b) or (c) involving the imposition of fees or other restrictions on the services of a foreign country, the Trade Representative shall, if the services involved are subject to regulation by any agency of the Federal Government or of any State, consult, as appropriate, with the head of the agency concerned.".

(d)(1) Section 302 (19 U.S.C. 2412) is amended to read as follows:

"SEC. 302. INITIATION OF INVESTIGATIONS BY UNITED STATES TRADE REPRESENTATIVE.

"(a) FILING OF PETITION.—

"(1) IN GENERAL.—Any interested person may file a petition with the United States Trade Representative (hereinafter in this chapter referred to as the 'Trade Representative') requesting the President to take action under section 301 and setting forth the allegations in support of the request.

"(2) REVIEW OF ALLEGATIONS.—The Trade Represenatative shall review the allegations in the petition and, not later than forty-five days after the date on which he received the petition, shall determine whether to initiate an investigation.

"(b) DETERMINATIONS REGARDING PETITIONS.—

"(1) NEGATIVE DETERMINATIONS.—If the Trade Representative determines not to initiate an investigation with respect to a petition, he shall inform the petitioner of the reasons therefor and shall publish notice of the determination, together with a summary of such reasons, in the Federal Register.

"(2) AFFIRMATIVE DETERMINATION.—If the Trade Representative determines to initiate an investigation with respect to a petition, he shall initiate an investigation regarding the issues raised. The Trade Representative shall publish a summary of the petition in the Federal Register and shall, as soon as possible, provide opportunity for the presentation of views concerning the issues, including a public hearing—

"(A) within the thirty-day period after the date of the determination (or on a date after such period if agreed to by the petitioner) if a public hearing within such period is requested in the petition; or

"(B) at such other time if a timely request therefor is made by the petitioner or by any interested person.

"(c) DETERMINATION TO INITIATE BY MOTION OF TRADE REPRESENTATIVE.—

"(1) DETERMINATION TO INITIATE.—If the Trade Representative determines with respect to any matter that an investigation should be initiated in order to advise the President concerning the exercise of the President's authority under section 301, the Trade Representative shall publish such determination in the Federal Register and such determination shall be treated as an affirmative determination under subsection (b)(2).

"(2) CONSULTATION BEFORE INITIATION.—The Trade Representative shall, before making any determination under paragraph (1), consult with appropriate committees established pursuant to section 135.".

(2)(A) Section 141(d) is amendment—

(i) by striking out "and" at the end of paragraph (6),

(ii) by striking out the period at the end of paragraph (7) and inserting in lieu thereof a semicolon and "and", and

(iii) by adding at the end thereof the following new paragraph:

"(8) provide, where authorized by law, copies of documents to persons at cost, except that any funds so received shall be credited to, and be available for use from, the account from which expenditures relating thereto were made.".

(B) Section 303 (19 U.S.C. 2413) is amended—

(i) by striking out "with respect to a petition";

(ii) by inserting "or the determination of the Trade Representative under section 302(c)(1)" after "in the petition"; and

(iii) by inserting "(if any)" after "petitioner".

(C) Section 304 (19 U.S.C. 2414) is amended by striking out "issues raised in the petition" and inserting in lieu thereof "matters under investigation" in paragraph (1) of subsection (a).

(D) The item relating to section 302 in the table of contents is amended to read as follows:

"Sec. 302. Initiation of Investigations by United States Trade Representative.".

(e) Section 303 (19 U.S.C. 2413) is amended—

(1) by inserting "(a) IN GENERAL.—" before "On";

(2) by adding at the end thereof the following new subsection:

"(b) DELAY OF REQUEST FOR CONSULTATIONS FOR UP TO 90 DAYS.—

"(1) IN GENERAL.—Notwithstanding the provisions of subsection (a)—

"(A) the United States Trade Representative may delay for up to 90 days any request for consultations under subsection (a) for the purpose of verifying or improving the petition to ensure an adequate basis for consultation, and

"(B) if such consultations are delayed by reason of subparagraph (A), each time limitation under section 304 shall be extended for the period of such delay.

"(2) NOTICE AND REPORT.—The Trade Representative shall—

"(A) publish notice of any delay under paragraph (1) in the Federal Register, and

"(B) report to Congress on the reasons for such delay in the report required by section 306.".

(f)(1) Paragraph (1) of section 301(e) (19 U.S.C. 2411 (e)), as redesignated by subsection (c) of this section, is amended to read as follows:

"(1) COMMERCE.—The term 'commerce' includes, but is not limited to—

"(A) services (including transfers of information) associated with international trade, whether or not such services are related to specific goods, and

"(B) foreign direct investment by United States persons with implications for trade in goods or services.".

(2) Section 301(e) (19 U.S.C. 2411(e)), as redesignated by subsection (c) of this section, is amended by adding at the end thereof the following new paragraphs:

"(3) UNREASONABLE.—The term 'unreasonable' means any act, policy, or practice which, while not necessarily in violation of or inconsistent with the international legal rights of the United States, is otherwise deemed to be unfair and inequitable. The term includes, but is not limited to, any act, policy, or practice which denies fair and equitable—

"(A) market opportunities;

"(B) opportunities for the establishment of an enterprise; or

"(C) provision of adequate and effective protection of intellectual property rights.

"(4) UNJUSTIFIABLE.—

"(A) IN GENERAL.—The term 'unjustifiable' means any act, policy, or practice which is in violation of, or inconsistent with, the international legal rights of the United States.

"(B) CERTAIN ACTIONS INCLUDED.—The term 'unjustifiable' includes, but is not limited to, any act, policy, or practice described in subparagraph (A) which denies national or most-favored-nation treatment, the right of establishment, or protection of intellectual property rights.

"(5) DEFINITION OF DISCRIMINATORY.—The term 'discriminatory' includes, where appropriate, any act, policy, or practice which denies national or most-favored-nation treatment to United States goods, services, or investment.

"(6) Service sector access authorization.—The term 'service sector access authorization' means any license, permit, order, or other authorization, issued under the authority of Federal law, that permits a foreign supplier of services access to the United States market in a service sector concerned.".

(3) Section 301(e) (19 U.S.C. 4211(e)), as redesignated by subsection (C) of this section, is amended by striking out the heading and inserting in lieu thereof:

"(e) DEFINITIONS: SPECIAL RULE FOR VESSEL CONSTRUCTION SUBSIDIES.—For purposes of this section—".

(g) Section 305 of the Trade Act of 1974 (19 U.S.C. 2415) is amended by adding at the end thereof the following new subsection:

"(c) CERTAIN BUSINESS INFORMATION NOT MADE AVAILABLE.—

"(1) IN GENERAL.—Except as provided in paragraph (2), and notwithstanding any other provision of law (including section 552 of title 5, United States Code), no information requested and received by the Trade Representative in aid of any investigation under this chapter shall be made available to any person if—

"(A) the person providing such information certifies that—

"(i) such information is business confidential,

"(ii) the disclosure of such information would endanger trade secrets or profitability, and

"(iii) such information is not generally available,

"(B) the Trade Representative determines that such certification is well-founded; and

"(C) to the extent required in regulations prescribed by the Trade Representative, the person providing such information provides an adequate nonconfidential summary of such information.

"(2) USE OF INFORMATION.—The Trade Representative may—

"(A) use such information, or make such information available (in his own discretion) to any employee of the Federal Government for use, in any investigation under this chapter, or

"(B) may make such information available to any other person in a form which cannot be associated with, or otherwise identify, the person providing the information.".

SEC. 305. NEGOTIATING OBJECTIVES WITH RESPECT TO INTERNATIONAL TRADE IN SERVICES AND INVESTMENT AND HIGH TECHNOLOGY INDUSTRIES.

(a)(1) Chapter 1 of title I is amended by inserting immediately after section 104 the following new section:

"SEC. 104A. NEGOTIATING OBJECTIVES WITH RESPECT TO TRADE IN SERVICES, FOREIGN DIRECT INVESTMENT, AND HIGH TECHNOLOGY PRODUCTS.

"(a) TRADE IN SERVICES.—

"(1) IN GENERAL.—Principal United States negotiating objectives under section 102 shall be—

"(A) to reduce or to eliminate barriers to, or other distortions of, international trade in services (particularly United States service sector trade in foreign markets), including barriers that deny national treatment and restrictions on the establishment and operation in such markets; and

"(B) to develop internationally agreed rules, including dispute settlement procedures, which—

"(i) are consistent with the commercial policies of the United States, and

"(ii) will reduce or eliminate such barriers or distortions and help ensure open international trade in services.

"(2) DOMESTIC OBJECTIVES.—In pursuing the objectives described in paragraph (1), United States negotiations shall take into account legitimate United States domestic objectives including, but not limited to, the protection of legitimate health or safety, essential security, environmental, consumer or employment opportunity interests and the laws and regulations related thereto.

"(b) FOREIGN DIRECT INVESTMENT.—

"(1) IN GENERAL.—Principal United States negotiating objectives under section 102 shall be—

"(A) to reduce or to eliminate artificial or trade-distorting barriers to foreign direct investment, to expand the principle of national treatment, and to reduce unreasonable barriers to establishment; and

"(B) to develop internationally agreed rules, including dispute settlement procedures, which—

"(i) will help ensure a free flow of foreign direct investment, and

"(ii) will reduce or eliminate the trade distortive effects of certain investment related measures.

"(2) DOMESTIC OBJECTIVES.—In pursuing the objectives described in paragraph (1), United States negotiators shall take into account legitimate United States domestic objectives including, but not limited to, the protection of legitimate health or safety, essential security, environmental, consumer or employment opportunity interests and the laws and regulations related thereto.

"(c) HIGH TECHNOLOGY PRODUCTS.—Principal United States negotiating objectives shall be—

"(1) to obtain and preserve the maximum openness with respect to international trade and investment in high technology products and related services;

"(2) to obtain the elimination or reduction of, or compensation for, the significantly distorting effects of foreign government acts, policies, or practices identified in section 181, with particular consideration given to the nature and extent of foreign government intervention affecting United States exports of high technology products or investments in high technology industries, including—

"(A) foreign industrial policies which distort international trade or investment;

"(B) measures which deny national treatment or otherwise discriminate in favor of domestic high technology industries;

"(C) measures which fail to provide adequate and effective means for foreign nationals to secure, exercise, and enforce exclusive rights in intellectual property (including trademarks, patents, and copyrights);

"(D) measures which impair access to domestic markets for key commodity products; and

"(E) measures which facilitate or encourage anticompetitive market practices or structures;

"(3) to obtain commitments that official policy of foreign countries or instrumentalities will not discourage government or private procurement of foreign high technology products and related services;

"(4) to obtain the reduction or elimination of all tariffs on, and other barriers to, United States exports of high technology products and related services;

"(5) to obtain commitments to foster national treatment;

"(6) to obtain commitments to—

"(A) foster the pursuit of joint scientific cooperation between companies, institutions or governmental entities of the United States and those of the trading partners of the United States in areas of mutual interest through such measures as financial participation and technical and personnel exchanges, and

"(B) ensure that access by all participants to the results of any such cooperative efforts should not be impaired; and

"(7) to provide effective minimum safeguards for the acquisition and enforcement of intellectual property rights and the property value of proprietary data.

"(d) DEFINITION OF BARRIERS AND OTHER DISTORTIONS.—For purposes of subsection (a), the term 'barriers to, or other distortions of, international trade in services' includes, but is not limited to—

"(1) barriers to establishment in foreign markets, and

"(2) restrictions on the operation of enterprises in foreign markets, including—

"(A) direct or indirect restrictions on the transfer of information into, or out of, the country or instrumentality concerned, and

"(B) restrictions on the use of data processing facilities within or outside of such country or instrumentality.".

(2) The table of contents for chapter 1 of title I is amended by inserting after the item relating to section 104 the following new item:

"Sec. 104A. Negotiating objectives with respect to trade in services, foreign direct investment, and high technology products.".

SEC. 306. PROVISIONS RELATING TO INTERNATIONAL TRADE IN SERVICES.

(a)(1) The Secretary of Commerce shall establish a service industries development program designed to—

(A) develop, in consultation with other Federal agencies as appropriate, policies regarding services that are designed to increase the competitiveness of United States service industries in foreign commerce;

(B) develop a data base for assessing the adequacy of Government policies and actions pertaining to services, including, but not limited to, data on trade, both aggregate and pertaining to individual service industries;

(C) collect and analyze, in consultation with appropriate agencies, information pertaining to the international operations and competitiveness of United States service industries, including information with respect to—

(i) policies of foreign governments toward foreign and United States service industries;

(ii) Federal, State, and local regulation of both foreign and United States suppliers of services, and the effect of such regulation on trade;

(iii) the adequacy of current United States policies to strengthen the competitiveness of United States service industries in foreign commerce, including export promotion activities in the service sector.

(iv) tax treatment of services, with particular emphasis on the effect of United States taxation on the international competitiveness of United States firms and exports;

(v) treatment of services under international agreements of the United States;

(vi) antitrust policies as such policies affect the competitiveness of United States firms; and

(vii) treatment of services in international agreements of the United States;

(D) conduct a program of research and analysis of services-related issues and problems, including forecasts and industrial strategies; and

(E) conduct sectoral studies of domestic service industries;

(2) For purposes of the collection and analysis required by paragraph (1), and for the purpose of any reporting the Department of Commerce makes under paragraph (3), such collection and reporting shall distinguish between income from investment and income from noninvestment services.

(3) On not less than a biennial basis beginning in 1986, the Secretary shall prepare a report which analyzes the information collected under paragraph (1). Such report shall be submitted to the Congress and to the President by not later than the date that is 120 days after the close of the period covered by the report.

(4) The Secretary of Commerce shall carry out the provisions of this subsection from funds otherwise made available to him which may be used for such purposes.

(5) For purposes of this section, the term "services" means economic activities whose outputs are other than tangible goods. Such term includes, but is not limited to, banking, insurance, transportation, communications and data processing, retail and wholesale trade, advertising, accounting, construction, design, engineering, management

consulting, real estate, professional services, entertainment, education health care, and

(b)(1) The International Investment Survey Act of 1976 (Public Law 94-472; 22 U.S.C. 3101, et seq.) is hereby redesignated the "International Investment and Trade in Services Survey Act".

(2)(A) Subsection (a) of section 2 of the International Investment and Trade in Services Survey Act (22 U.S.C. 3301) is amended—

(i) by striking out "and" at the end of paragraph (6);

(ii) by inserting "and trade in services" after "international investment" in paragraph (7);

(iii) by redesignating paragraph (7) as paragraph (9); and

(iv) by inserting after paragraph (6) the following new paragraphs:

"(7) United States service industries engaged in interstate and foreign commerce account for a substantial part of the labor force and gross national product of the United States economy, and such commerce is rapidly increasing;

"(8) international trade and services is an important issue for international negotiations and deserves priority in the attention of governments, international agencies, negotiators, and the private sector; and".

(B) Subsection (b) of section 2 of such Act is amended—

(i) by inserting "and United States foreign trade in services, whether directly or by affiliates, including related information necessary for assessing the impact of such investment and trade," after "international investment" the first place it appears; and

(ii) by inserting "and trade in services" after "international investment" the second place it appears.

(C) Subsection (c) of section 2 of such Act is amended by striking out "or United States investment abroad" and inserting in lieu thereof ", United States investment abroad, or trade in services".

(3) Paragraph (3) of section 4(a) of such Act (22 U.S.C. 3103(a)(3)) is amended—

(A) by inserting "Finance" after "to the Committees on", and

(B) by striking out "the Committee on Foreign Affairs" and inserting in lieu thereof "the Committees on Ways and Means, Energy and Commerce, and Foreign Affairs".

(4)(A) Subsection (a) of section 4 of such Act (22 U.S.C. 3103(a)) is amended—

(i) by striking out "presentation relating to international investment" in paragraph (3) and inserting in lieu thereof "presentation";

(ii) by inserting "and trade in services" after "international investment" each place it appears in paragraphs (1), (2), and (3);

(iii) by striking out "and" at the end of paragraph (3);

(iv) by redesignating paragraph (4) as paragraph (5); and

(v) by inserting after paragraph (3) the following new paragraph:

"(4) conduct (not more frequently than once every five years and in addition to any other surveys conducted pursuant to paragraphs (1) and (2)) benchmark surveys with respect to trade in services between unaffiliated United States persons and foreign persons; and".

(B) Subparagraph (C) of section 4(b)(2) of such Act is amended by inserting "(including trade in both goods and services)" after "regarding trade".

(C) Subsection (f) of section 4 of such Act is amended by inserting "and trade in services" after "international investment".

(5) Subsection (b) of section 5 of such Act (22 U.S.C. 3104) is amended by striking out "international investment" each place it appears.

(c)(1)(A) The United States Trade Representative, through the interagency trade organization established pursuant to section 242(a) of the Trade Expansion Act of 1962 or any subcommittee thereof, shall, in conformance with this Act and other provisions of law, develop (and coordinate the implementation of) United States policies concerning trade in services.

(B) In order to encourage effective development, coordination, and implementation of United States policies on trade in services—

(i) each department or agency of the United States responsible for the regulation of any service sector industry shall, as appropriate, advise and work with the United States Trade Representative concerning matters that have come to the department's or agency's attention with respect to—

(I) the treatment afforded United States service sector interest in foreign markets; or

(II) allegations of unfair practices by foreign governments or companies in a service sector; and

(ii) the Department of Commerce, together with other appropriate agencies as requested by the United States Trade Representative, shall provide staff support and other assistance for negotiations on service-related issues by the United States Trade Representatives and the domestic implementation of service-related agreements.

(C) Nothing in this paragraph shall be construed to alter any existing authority or responsibility with respect to any specific service sector.

(2)(A) The President shall, as he deems appropriate—

(i) consult with State governments on issues of trade policy, including negotiating objectives and implementation of trade agreements, affecting the regulatory authority of non-Federal governments, or their procurement of goods and services;

(ii) establish one or more intergovernmental policy advisory committees on trade which shall serve as a principal forum in which State and local governments may consult with the Federal Government with respect to the matters described in clause (i); and

(iii) provide to State and local governments and to United States service industries, upon their request, advice, assistance, and (except as may be otherwise prohibited by law) data, analyses, and information concerning United States policies on international trade in services.

(B) Section 135 (19 U.S.C. 2155) is amended—

(i) by inserting "and the non-Federal governmental sector" after "private sector" in subsection (a),

(ii) by adding at the end of subsection (c) the following new paragraph:

"(3) The President—

"(A) may establish policy advisory committees representing non-Federal governmental interests to provide, where the President finds it necessary, policy advice—

"(i) on matters referred to in subsection (a), and

"(ii) with respect to implementation of trade agreement, and

"(B) shall include as members of committees established under subparagraph (A) representatives of non-Federal governmental interests if he finds such inclusion appropriate after consultation by the United States Trade Representative with such representatives.".

(iii) by inserting "or non-Federal government" after "private" each place it appears in subsections (g) and (j);

(iv) by inserting "government," before "labor" in subsection (j); and

(v) by adding at the end thereof the following new subsection:

"(n) NON-FEDERAL GOVERNMENT DEFINED.—The term 'non-Federal government' means—

"(1) any State, territory, or possession of the United States, or the District of Columbia, or any political subdivision thereof, or

"(2) any agency or instrumentality of any entity described in paragraph (1).''; and

(vi) by inserting "or Public" after "Private" in the heading thereof.

(C)(i) Section 104(c) (19 U.S.C. 2114(c)) is amended by inserting "or non-Federal governmental" after "private".

(ii) Section 303 (19 U.S.C. 2413) and section 304(b)(2) (19 U.S.C. 2414(b)(2)) are each amended by striking out "private sector".

(iii) The table of sections for chapter 3 of title I is amended by inserting "and public" after "private" in the item relating to section 135.

SEC. 307. NEGOTIATING AUTHORITY WITH RESPECT TO FOREIGN DIRECT INVESTMENT.

(a) Paragraph (3) of section 102(g) (19 U.S.C. 2112(g)(3)) is amended to read as follows:

"(3) the term 'international trade' includes—

"(A) trade in both goods and services, and

"(B) foreign direct investment by United States persons, especially if such investment has implications for trade in goods and services.".

(b)(1) If the United States Trade Representative, with the advice of the committee established by section 242 of the Trade Expansion Act of 1962 (19 U.S.C. 1872), determines that action by the United States is appropriate to respond to any export performance requirements of any foreign country or instrumentality that adversely affect the economic interests of the United States, then the United States Trade Representative shall seek to obtain the reduction and elimination of such export performance requirements through consultations and negotiations with the foreign country or instrumentality concerned.

(2) In addition to the action referred to in subsection (1), the United States Trade Representative may impose duties or other import restrictions on the products or services of such foreign country or instrumentality for such time as he determines appropriate, including the exclusion from entry into the United States of products subject to such requirements.

(3) Nothing in paragraph (2) or paragraph (3) shall apply to any products or services with respect to which—

(A) any foreign direct investment (including a purchase of land or facilities) has been made directly or indirectly by any United States person before the date of enactment of this Act, or

(B) any written commitment relating to a foreign direct investment that is binding on the date of enactment of this Act has been made directly or indirectly by any United States person.

(4) Whenever the international obligations of the United States and actions taken under paragraph (2) make compensation necessary or appropriate, compensation may be provided by the United States Trade Representative subject to the limitations

and conditions contained in section 123 of the Trade Act of 1974 (19 U.S.C. 2133) for providing compensation for actions taken under section 203 of that Act.

SEC. 308. NEGOTIATION OF AGREEMENTS CONCERNING HIGH TECHNOLOGY INDUSTRIES.

(a) The President may enter into such bilateral or multilateral agreements as may be necessary or appropriate to achieve the objectives of this section 104A(c) of the Trade Act of 1974.

(b)(1) Chapter 2 of title I is amended by inserting at the end thereof the following new section:

"SEC. 128. MODIFICATION AND CONTINUANCE OF TREATMENT WITH RESPECT TO DUTIES ON HIGH TECHNOLOGY PRODUCTS.

"(a) In order to carry out any agreement concluded as a result of the negotiating objectives under section 104A(c), the President may proclaim, subject to the provisions of chapter 3—

"(1) such modification, elimination, or continuance of any existing duty, duty-free, or excise treatment, or

"(2) such additional duties,

as he deems appropriate.

"(b) The President shall exercise his authority under subsection (a) only with respect to the following items listed in the Tariff Schedules of the United States (19 U.S.C. 1202):

"(1) Transistors (provided for in item 587.70, part 5, schedule 6).

"(2) Diodes and rectifiers (provided for in item 687.72, part 5, schedule 6).

"(3) Monolithic integrated circuits (provided for in item 687.74, part 5, schedule 6).

"(4) Other integrated circuits (provided for in item 687.77, part 5, schedule 6).

"(5) Other components (provided for in item 687.85, part 5, schedule 6).

"(6) Parts of semiconductors (provided for in item 687.85, part 5, schedule 6).

"(7) Parts of automatic data-processing machines and units thereof (provided for in item 676.52, part 4G, schedule 6) other than parts incorporating a cathode ray tube.

"(c) TERMINATION.—The President may exercise his authority under this section only during the 5-year period beginning on the date of the enactment of the International Trade and Investment Act.".

(2) The table of contents of chapter 1 title I is amended by adding at the end thereof the following new item:

"Sec. 128. Modification and continuance of treatment with respect to duties on high technology products.".

TITLE IV—TRADE WITH ISRAEL

SEC. 401. NEGOTIATION OF TRADE AGREEMENTS TO REDUCE TRADE BARRIERS.

(a) Subsection (b) of section 102 of the Trade Act of 1974 (19 U.S.C. 2112(b)) is amended—

(1) by striking out "Whenever" and inserting in lieu thereof "(1) Whenever", and

(2) by adding at the end thereof the following new paragraphs:

"(2)(A) Trade agreements that provide for the elimination or reduction of any duty imposed by the United States may be entered into under paragraph (1) only with Israel.

"(B) The negotiation of any trade agreement entered into under paragraph (1) with Israel that provides for the elimination or reduction of any duty imposed by the United States shall take fully into account any product that benefits from a discriminatory preferential tariff arrangement between Israel and a third country if the tariff preference on such product had been the subject of a challenge by the United States Government under the authority of section 301 of the Trade Act of 1974 and the General Agreement on Tariffs and Trade.

"(C) Notwithstanding any other provision of this section, the requirements of subsections (c) and (e)(1) shall not apply to any trade agreement entered into under paragraph (1) with Israel that provides for the elimination or reduction of any duty imposed by the United States.

"(3) Notwithstanding any other provision of law, no trade benefit shall be extended to any country by reason of the extension of any trade benefit to another country under a trade agreement entered into under paragraph (1) with such other country.

"(4)(A) Notwithstanding paragraph (2), a trade agreement that provides for the elimination or reduction of any duty imposed by the United States may be entered into under paragraph (1) with any country other than Israel if—

"(i) such country requested the negotiation of such an agreement, and

"(ii) the President, at least 60 days prior to the date notice is provided under subsection (e)(1)—

"(I) provides written notice of such negotiations to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives, and

"(II) consults with such committees regarding the negotiation of such agreement.

"(B) The provisions of section 151 shall not apply to an implementing bill (within the meaning of section 151(b) if—

"(i) such implementing bill contains a provision approving of any trade agreement which—

"(I) is entered into under this section with any country other than Israel, and

"(II) provides for the elimination of reduction of any duty imposed by the United States, and

"(ii) either—

"(I) the requirements of subparagraph (A) were not met with respect to the negotiation of such agreement, or

"(II) the Committee on Finance of the Senate or the Committee on Ways and Means of the House of Representatives disapproved of the negotiation of such agreement before the close of the 60-day period which begins on the date notice is provided under subsection (A)(ii)(I) with respect to the negotiation of such agreement.

"(C) The 60-day period described in subparagraphs (A)(ii) and (B)(ii)(II) shall be computed without regard to—

"(i) the days on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain or an adjournment of the Congress sine die, and

"(ii) any Saturday and Sunday, not excluded under clause (i), which either House of Congress is not in session.".

(b) Paragraph (1) of section 102(g) of the Trade Act of 1974 (19 U.S.C. 2112(g)) is amended to read as follows:

"(1) the term 'barrier' includes—

"(A) the American selling price basis of customs evaluation as defined in section 402 or 402a of the Tariff Act of 1930, as appropriate, and

"(B) any duty or other import restriction;".

(c)(1) Section 102 of the Trade Act of 1974 (19 U.S.C. 2112) is amended by striking out "Nontariff" in the heading.

(2) The table of contents of the Trade Act of 1974 is amended by striking out "Nontariff" in the item relating to section 102.

SEC. 402. CRITERIA FOR DUTY-FREE TREATMENT OF ARTICLES.

(a)(1) Any trade agreement entered into with Israel under section 102(b)(1) of the Trade Act of 1974 may provide for the reduction or elimination of any duty imposed by the United States with respect to any article only if—

(A) that article is the growth, product, or manufacture of Israel or is a new or different article of commerce that has been grown, produced, or manufactured in Israel;

(B) that article is imported directly from Israel into the customs territory of the United States; and

(C) the sum of—

(i) the cost of value of the materials produced in Israel, plus

(ii) the direct costs of processing operations performed in Israel,

is not less than 35 percent of the appraised value of such article at the time it is entered.

If the cost or value of materials produced in the customs territory of the United States is included with respect to an article to which this subsection applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributable to such United States cost or value may be applied toward determining the percentage referred to in subparagraph (C).

(2) No article may be considered to be an eligible Israeli article by virtue of having merely undergone—

(A) simple combining or packaging operations; or

(B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(b) As used in this section, the phrase "direct costs of processing operations" includes, but is not limited to—

(1) all actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control, and similar personnel; and

(2) dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned, or are not costs of manufacturing the product, such as (A) profit, and (B) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, and salesmen's salaries, commissions or expenses.

(c) REGULATIONS.—The Secretary of the Treasury, after consultation with the United States Trade Representative, shall prescribe such regulations as may be necessary to carry out this section.

SEC. 403. APPLICATION OF CERTAIN OTHER TRADE LAW PROVISIONS.

(a) SUSPENSION OF DUTY-FREE TREATMENT.—The President may by proclamation suspend the reduction or elimination of any duty provided under any trade agreement provision entered into with Israel under the authority of section 102(b)(1) of the Trade Act of 1974 with respect to any article and may proclaim a duty rate for such article if such action is proclaimed under section 203 of

the Trade Act of 1974 or section 232 of the Trade Expansion Act of 1962.

(b) ITC REPORTS.—In any report by the United States International Trade Commission (hereinafter referred to in this title as the "Commission") to the President under section 201(d)(1) of the Trade Act of 1974 regarding any article for which a reduction or elimination of any duty is provided under a trade agreement entered into with Israel under section 102(b)(1) of the Trade Act of 1974, the Commission shall state whether and to what extent its findings or recommendations apply to such an article when imported from Israel.

(c) For purposes of subsections (a) and (c) of section 203 of the Trade Act of 1974, the suspension of the reduction or elimination of a duty under subsection (a) shall be treated as an increase in duty.

(d) No proclamation which provides solely for a suspension referred to in subsection (a) with respect to any article shall be made under subsections (a) and (c) of section 203 of the Trade Act of 1974 unless the Commission, in addition to making an affirmative determination with respect to such article under section 201(b) of the Trade Act of 1974, determines in the course of its investigation under that section that the serious injury (or threat thereof) substantially caused by imports to the domestic industry producing a like or directly competitive article results from the reduction or elimination of any duty provided under any trade agreement provision entered into with Israel under section 102(b)(1) of the Trade Act of 1974.

(e)(1) Any proclamation issued under section 203 of the Trade Act of 1974 that is in effect when an agreement with Israel is entered into under section 102(b)(1) of the Trade Act of 1974 shall remain in effect until modified or terminated.

(2) If any article is subject to import relief at the time an agreement is entered into with Israel under section 102(b)(1) of the Trade Act of 1974, the President may reduce or terminate the application of such import relief to the importation of such article before the otherwise scheduled date on which such reduction or termination would occur pursuant to the criteria and procedures of subsections (h) and (i) of section 203 of the Trade Act of 1974.

SEC. 404. FAST TRACK PROCEDURES FOR PERISHABLE ARTICLES.

(a) If a petition is filed with the Commission under the provisions of section 201 of the Trade Act of 1974 regarding a perishable product which is subject to any reduction or elimination of a duty imposed by the United States under a trade agreement entered into with Israel under section 102(b)(1) of the Trade Act of 1974 and alleges injury from imports of that product, then the petition may also be filed with the Secretary of Agriculture with a request that emergency relief be granted under subsection (c) with respect to such article.

(b) Within 14 days after the filing of a petition under subsection (a)—

(1) if the Secretary of Agriculture has reason to believe that a perishable product from Israel is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing a perishable product like or directly competitive with the imported product and that emergency action is warranted, he shall advise the President and recommend that the President take emergency action; or

(2) the Secretary of Agriculture shall publish notice of his determination not to recommend the imposition of emergency action and so advise the petitioner.

(c) Within 7 days after the President receives a recommendation from the Secretary of Agriculture to take emergency action under subsection (b), he shall issue a proclamation withdrawing the reduction or elimination of duty provided to the perishable product under any trade agreement provision entered into under section 102(b)(1) of the Trade Act of 1974 or publish a notice of his determination not to take emergency action.

(d) The emergency action provided under subsection (c) shall cease to apply—

(1) upon the proclamation of import relief under section 202(a)(1) of the Trade Act of 1974;

(2) on the day the President makes a determination under section 203(b)(2) of such Act not to impose import relief;

(3) in the event of a report of the Commission containing a negative finding, on the day the Commission's report is submitted to the President; or

(4) Whenever the President determines that because of changed circumstances such relief is no longer warranted.

(e) For purposes of this section, the term "perishable products" means any—

(1) live plant provided for in subpart A of part 6 of schedule 1 of the Tariff Schedules of the United States (19 U.S.C. 1202, hereinafter referred to as the "TSUS");

(2) vegetable provided for in schedule 1, part 8, of the TSUS;

(3) fresh mushroom provided for in item 144.10 of the TSUS;

(4) edible nut or fruit provided for in schedule 1, part 9, of the TSUS;

(5) fresh cut flower provided for in items 192.17, 192.18, and 192.21 of the TSUS; and

(6) concentrated citrus fruit provided for in items 165.25 and 165.35 of the TSUS.

(f) No trade agreement entered into with Israel under section 102(b)(1) of the Trade Act of 1974 shall affect fees imposed under section 22 of the Agricultural Adjustment Act (7 U.S.C. 624).

SEC. 406. CONSTRUCTION OF TITLE.

Neither the taking effect of any trade agreement provision entered into with Israel under section 102(b)(1), nor any proclamation issued to implement any such provision, may affect in any manner, or to any extent, the application to any Israeli articles of section 232 of the Trade Expansion Act of 1962, section 337 of title VII of the Tariff Act of 1930, chapter 1 of title II and chapter 1 of title III of the Trade Act of 1974, or any other provision of law under which relief from injury caused by import competition or by unfair import trade practices may be sought.

TITLE V—GENERALIZED SYSTEM OF PREFERENCES RENEWAL

SECTION 501. SHORT TITLE; STATEMENT OF PURPOSE.

(a) This title may be cited as the "Generalized System of Preferences Renewal Act of 1984".

(b) The purpose of this title is to—

(1) promote the development of developing countries, which often need temporary preferential advantages to compete effectively with industrialized countries;

(2) promote the notion that trade, rather than aid, is a more effective and cost-efficient way of promoting broad-based sustained economic development;

(3) take advantage of the fact that developing countries provide the fastest growing markets for United States exports and that foreign exchange earnings from trade with such countries through the Generalized System of Preferences can further stimulate United States exports;

(4) allow for the consideration of the fact that there are significant differences among developing countries with respect to their general development and international competitiveness;

(5) encourage the providing of increased trade liberalization measures, thereby setting an example to be emulated by other industrialized countries.

(6) recognize that a large number of developing countries must generate sufficient foreign exchange earnings to meet international debt obligations;

(7) promote the creation of additional opportunities for trade among the developing countries;

(8) integrate developing countries into the international trading system with its attendant responsibilities in a manner commensurate with their development;

(9) encourage developing countries—

(A) to eliminate or reduce significant barriers to trade in goods and services and to investment,

(B) to provide effective means under which foreign nationals may secure, exercise, and enforce exclusive intellectual property rights, and

(C) to afford workers internationally recognized worker rights; and

(10) address the concerns listed in the preceding paragraphs in a manner that—

(A) does not adversely affect United States producers and workers, and

(B) conforms to the international obligations of the United States under the General Agreement on Tariffs and Trade.

SEC. 502. CONSIDERATION OF A BENEFICIARY DEVELOPING COUNTRY'S COMPETITIVENESS IN EXTENDING PREFERENCES.

Section 501 of the Trade Act of 1974 (19 U.S.C. 2461) is amended—

(1) by inserting "through the expansion of their exports" before the semicolon at the end of paragraph (1);

(2) by striking out "and" at the end of paragraph (2);

(3) by striking out the period at the end of paragraph (3) and inserting in lieu thereof "; and"; and

(4) by adding at the end thereof the following new paragraph:

"(4) the extent of the beneficiary developing country's competitiveness with respect to eligible articles.".

SEC. 503. AMENDMENTS RELATING TO THE BENEFICIARY DEVELOPING COUNTRY DESIGNATION CRITERIA.

(a) Section 502 (a) of the Trade Act of 1974 (19 U.S.C. 2462(a)) is amended by adding at the end thereof the following new paragraph:

"(4) For purposes of this title, the term 'internationally recognized worker rights' includes—

"(A) the right of association;

"(B) the right to organize and bargain collectively;

"(C) a prohibition on the use of any form of forced or compulsory labor;

"(D) a minimum age for the employment of children; and

"(E) acceptable conditions of work with respect to minimum wages, hours of work, and occupational safety and health.".

(b) Section 502(b) of the Trade Act of 1974 (19 U.S.C. 2462(b)) is amended—

(1) by striking out "Hungary" in the list of countries preceding paragraph (1);

(2) by inserting ", including patents, trademarks, or copyrights" after "control of such property" in paragraph (4) (A) and (B);

(3) by inserting ", including patents, trademarks, or copyrights" after "control of such property" in paragraph (4)(C);

(4) by striking out "and" at the end of paragraph (5);

(5) by striking out the period at the end of paragraph (7) and inserting in lieu thereof "; and";

(6) by inserting after paragraph (7) the following new paragraph:

"(8) if such country has not taken or is not taking steps to afford internationally recognized workers rights to workers in the country (including any designated zone in that country)."; and

(7) by striking out "and (7)" in the unnumbered paragraph at the end of the subsection and inserting in lieu thereof "(7), and (8)".

(c) Section 502(c) of the Trade Act of 1974 (19 U.S.C. 2462) is amended—

(1) by striking out "and" at the end of paragraph (3);

(2) by striking out the period at the end of paragraph (4) and inserting in lieu thereof the following: "and the extent to which such country has assured the United States that it will refrain from engaging in unreasonable export practices;", and

(3) by adding at the end thereof the following new paragraphs:

"(5) the extent to which such country is providing adequate and effective means under its laws for foreign nationals to secure, to exercise, and to enforce exclusive rights in intellectual property, including patents, trademarks, and copyrights;

"(6) the extent to which such country has taken action to—

"(A) reduce distorting investment practices and policies (including export performance requirements); and

"(B) reduce or eliminate barriers to trade in services; and

"(7) whether or not such country has taken or is taking steps to afford to workers in that country (including any designated zone in that country) internationally recognized worker rights.".

SEC. 504. REGULATIONS; ARTICLES WHICH MAY NOT BE DESIGNATED AS ELIGIBLE ARTICLES.

(a) Section 503(b) of the Tariff Act of 1930 (19 U.S.C. 2463(b)) is amended by inserting ", after consulting with the United States Trade Representative," immediately after "The Secretary of the Treasury" in the last sentence thereof.

(b) Section 503(c)(1)(E) of the Trade Act of 1974 (19 U.S.C. 2463(c)(1)(E)) is amended to read as follows:

"(E) footwear, handbags, luggage, flat goods, work gloves, and leather wearing apparel which were not eligible articles for purposes of this title on April 1, 1984,".

SEC. 505. LIMITATIONS ON PREFERENTIAL TREATMENT.

(a) Section 504(a) of the Trade Act of 1974 (19 U.S.C. 2464) is amended—

(1) by striking out "The President" and inserting in lieu thereof "(1) The President"; and

(2) by adding at the end thereof the following new paragraph:

"(2) The President shall, as necessary, advise the Congress and, by no later than January 4, 1988, submit to the Congress a report on the application of sections 501 and 502(c), and the actions the President has taken to withdraw, to suspend, or to limit the application of duty-free treatment with respect to any country which has failed to adequately take the actions described in section 502(c).".

(b) Section 504 (c) and (d) of the Trade Act of 1974 (19 U.S.C. 2464 (c) and (d)) are amended to read as follows:

"(c)(1) Subject to paragraphs (2) through (8) and subsection (d), whenever the President determines that any country—

"(A) has exported (directly or indirectly) to the United States during a calendar year a quantity of an eligible article having an appraised value in excess of an amount which bears the same ratio to $25,000,000 as the gross national product of the United States for the preceding calendar year (as determined by the Department of Commerce) bears to the gross national product of the United States for calendar year 1974; or

"(B) has exported (either directly or indirectly) to the United States a quantity of any eligible article equal to or exceeding 50 percent of the appraised value of the total imports of such article into the United States during any calendar year;

then, not later than July 1 of the next calendar year, such country shall not be treated as a beneficiary developing country with respect to such article.

"(2)(A) Not later than January 4, 1987, and periodically thereafter, the President shall conduct a general review of eligible articles based on the considerations described in section 501 or 502(c).

"(B) If, after any review under subparagraph (A), the President determines that this subparagraph should apply because a beneficiary developing country has demonstrated a sufficient degree of competitiveness (relative to other beneficiary developing countries) with respect to any eligible article, then paragraph (1) shall be applied to such country with respect to such article by substituting—

"(i) '1984' for '1974' in subparagraph (A), and

"(ii) '25 percent' for '50 percent' in subparagraph (B).

"(3)(A) Not earlier than January 4, 1987, the President may waive the application of this subsection with respect to any eligible article of any beneficiary developing country if, before July 1 of the calendar year beginning after the calendar year for which a determination described in paragraph (1) was made with respect to such eligible article, the President—

"(i) receives the advice of the International Trade Commission on whether any industry in the United States is likely to be adversely affected by such waiver,

"(ii) determines, based on the considerations described in sections 501 and 502(c) and the advice described in clause (i), that such waiver is in the national economic interest of the United States, and

"(iii) publishes the determination described in clause (ii) in the Federal Register.

"(B) In making any determination under subparagraph (A), the President shall give great weight to—

"(i) the extent to which the beneficiary developing country has assured the United States that such country will provide equitable and reasonable access to the markets and basic commodity resources of such country, and

"(ii) the extent to which such country provides adequate and effective means under its law for foreign nationals to secure, to exercise, and to enforce exclusive rights in intellectual property, including patent, trademark, and copyright rights.

"(C) Any waiver granted pursuant to this paragraph shall remain in effect until the President determines that such waiver is no longer warranted due to changed circumstances.

"(D)(i) The President may not exercise the waiver authority provided under subparagraph (A) with respect to a quantity of eligible articles entered in any calendar year which exceeds an aggregate value equal to 30 percent of the total value of all articles which entered duty-free under this title during the preceding calendar year.

"(ii) The President may not exercise the waiver authority provided under subparagraph (A) with respect to a quantity of eligible articles entered from any beneficiary developing country during any calendar year beginning after 1984 which exceeds 15 percent of the total value of all articles that have entered duty-free under this title during the preceding calendar year if for the preceding calendar year such beneficiary developing country—

"(I) had a per capita gross national product (calculated on the basis of the best available information, including that of the World Bank) of $5,000 or more; or

"(II) had exported (either directly or indirectly) to the United States a quantity of articles that was duty-free under this title that had an appraised value of more than 10 percent of the total imports of all articles that entered duty free under this title during that year.

"(iii) There shall be counted against the limitations imposed under clauses (i) and (ii) for any calendar year only that quantity of any eligible article of any country that—

"(I) entered duty-free under this title during such calendar year; and

"(II) is in excess of the quantity of that article that would have been so entered during such calendar year if the 1974 limitation applied under paragraph (1)(A) and the 50 percent limitation applied under paragraph (1)(B).

"(4) Except in any case to which paragraph (2)(B) applies, the President may waive the application of this subsection if, before July 1 of the calendar year beginning after the calendar year for which a determination described in paragraph (1) was made, the President determines and publishes in the Federal Register that, with respect to such country—

"(A) there has been an historical preferential trade relationship between the United States and such country,

"(B) there is treaty or trade agreement in force covering economic relations between such country and the United States, and

"(C) such country does not discriminate against, or impose unjustifiable or unreasonable barriers to, United States commerce.

"(5) A country which is no longer treated as a beneficiary developing country with respect to an eligible article by reason of this subsection may be redesignated a beneficiary developing country with respect to such article, subject to the provisions of section 501 and 502, if imports of such article from such country did not exceed the limitations in paragraph (1) (after application of paragraph (2)) during the preceding calendar year.

"(6)(A) This subsection shall not apply to any beneficiary developing country which the President determines, based on the considerations described in sections 501 and 502(c), to be a least-developed beneficiary devoloping country.

"(B) The President shall—

"(i) make a determination under subparagraph (A) with respect to each beneficiary

developing country before July 4, 1985, and periodically thereafter, and

"(ii) notify the Congress at least 60 days before any such determination becomes final.

"(7) For purposes of this subsection, the term 'country' does not include an association of countries which is treated as one country under section 502(a)(3), but does include a country which is a member of any such association.

"(d)(1) Subsection (c)(1)(B) (after application of subsection (c)(2)) shall not apply with respect to any eligible article if a like a or directly competitive article is not produced in the United States on January 3, 1985.

"(2) The President may disregard subsection (c)(1)(B) with respect to any eligible article if the appraised value of the total imports of such article into the United States during the preceding calendar year is not in excess of an amount which bears the same ratio to $5,000,000 as the gross national product of the United States for that calendar year (as determined by the Department of Commerce) bears to the gross national product of the United States for calendar year 1979.".

(c) Section 504 (19 U.S.C. 2464) is amended by adding at the end thereof the following new subsection:

"(f) If the President determines that the per capita gross national product (calculated on the basis of the best available information, including that of the World Bank) of any beneficiary developing country for any calendar year (hereafter in this paragraph referred to as the 'determination year') after 1984, exceeds an amount which bears the same ratio to $8,500 as 50 percent of the increase of the gross national product of the United States for the preceding calendar year (as determined by the Department of Commerce) bears to the gross national product of the United States for calendar year 1984—

"(1) subsection (c)(1)(B) shall be applied for the 2-year period beginning on July 1 of the calendar year succeeding the determination year by substituting "25 percent" for "50 percent", and

"(2) such country shall not be treated as a beneficiary developing country under this title after the close of such 2-year period.".

SEC. 506. EXTENSION OF THE GENERALIZED SYSTEM OF PREFERENCES AND REPORTS.

(a) Section 505 of the Trade Act of 1974 (19 U.S.C. 2465) is amended to read as follows:

"SEC. 505. TERMINATION OF DUTY-FREE TREATMENT AND REPORTS.

"(a) No duty-free treatment provided under this title shall remain in effect after July 4, 1993.

"(b) On or before January 4, 1990, the President shall submit to the Congress a full and complete report regarding the operation of this title.

"(c) The President shall submit an annual report to the Congress on the status of internationally recognized worker rights within each beneficiary developing country."

(b) CONFORMING AMENDMENT.—The table of contents of the Trade Act of 1974 is amended by striking out the item relating to section 505 and inserting in lieu thereof the following:

"Sec. 505. Termination of duty-free treatment and reports.".

SEC. 507. AGRICULTURAL EXPORTS OF BENEFICIARY DEVELOPING COUNTRIES.

(a) Title V of the Trade Act of 1974 (19 U.S.C. 2461 et seq.) is further amended by adding at the end thereof the following new section:

"SEC. 506. AGRICULTURAL EXPORTS OF BENEFICIARY DEVELOPING COUNTRIES.

"The appropriate agencies of the United States shall assist beneficiary developing countries to develop and implement measures designed to assure that the agricultural sectors of their economies are not directed to export markets to the detriment of the production of foodstuffs for their citizenry."

(b) The table of contents of such Act of 1974 is amended by adding after the item relating to item 505 the following:

"Sec. 506. Agricultural exports of beneficiary developing countries.".

SEC. 508. EFFECTIVE DATE.

The amendments made by this title shall take effect on January 4, 1985.

TITLE VI—TRADE LAW REFORM

SEC 601. REFERENCE.

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a title, subtitle, part, section, or other provision, the reference shall be considered to be made to a title, subtitle, part, section, or other provision of the Tariff Act of 1930 (19 U.S.C 1202 et seq.)

SEC. 602. SALES FOR IMPORTATION.

(a)(1) Section 701(a) (19 U.S.C. 1671(a)) is amended—

(A) by inserting ", or sold (or likely to be sold) for importation," after "imported" in paragraph (1);

(B) by inserting "or by reason of sales (or the likelihood of sales) of that Merchandise for importation" immediately after "by reason of imports of that merchandise" in paragraph (2); and

(C) by adding at the end thereof the following new sentence: "For purposes of this subsection and section 705(b)(1), a reference to the sale of merchandise includes the entering into of any leasing arrangement regarding the merchandise that is equivalent to the sale of the merchandise.".

(2) Section 705(b)(1) (19 U.S.C. 1671(b)(1)) is amended by inserting ", or sales (or the likelihood of sales) for importation," immediately after "by reason of imports".

(b) Section 731 (19 U.S.C. 1673) is amended—

(1) by inserting "or by reason of sales (or the likelihood of sales) of that merchandise for importation" immediately after "by reason of imports of that merchandise" in paragraph (2), and

(2) by adding at the end thereof the following new sentence: "For purposes of this section and section 735(b)(1), a reference to the sale of foreign merchandise includes the entering into of any leasing arrangement regarding the merchandise that is equivalent to the sale of the merchandise.".

(c) Section 735(b)(1) (19 U.S.C. 1673d(b)(1)) is amended by adding ", or sales (or the likelihood of sales) for importation," after "by reason of imports".

SEC. 603. WAIVER OF VERIFICATION.

Section 703(b) (19 U.S.C. 1671b(b) is amended by adding at the end thereof the following new paragraph:

"(3) PRELIMINARY DETERMINATION UNDER WAIVER OF VERIFICATION.—Within 55 days after the initiation of an investigation the administering authority shall cause an official designated for such purpose to review the information concerning the case received during the first 50 days of the investigation, and, if there appears to be sufficient information available upon which the determination can reasonably be based, to disclose to the petitioner and any interested party, then a party to the proceedings that requests such disclosure, all available nonconfidential information and all other information which is disclosed pursuant to section 777. Within 3 days (not counting Saturdays, Sundays, or legal public holidays) after such disclosure, the petitioner and each party which is an interested party described in subparagraph (C), (D), (E), or (F) of section 771(9) to whom such disclosure was made may furnish to the administering authority an irrevocable written waiver of verification of the information received by the authority, and an agreement that it is willing to have a determination made on the basis of the record then available to the authority. If a timely waiver and agreement have been received from the petitioner and each party which is an interested party described in subparagraph (C), (D), (E), or (F) of section 771(9) to whom the disclosure was made, and the authority finds that sufficient information is then available upon which the preliminary determination can reasonably be based, a preliminary determination shall be made on an expedited basis on the basis of the record established during the first 50 days after the investigation was initiated.".

SEC. 604. TERMINATION OR SUSPENSION OF INVESTIGATION.

(a) Section 704 (19 U.S.C. 1671c) is amended—

(1) by amending subsection (a) to read as follows:

"(a) TERMINATION OF INVESTIGATION UPON WITHDRAWAL OF PETITION.—

"(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), an investigation under this subtitle may be terminated by either the administering authority or the Commission, after notice to all parties to the investigation, upon withdrawal of the petition by the petitioner or by the administering authority if the investigation was initiated under section 702(a).

"(2) SPECIAL RULES FOR QUANTITATIVE RESTRICTION AGREEMENTS.—

"(A) IN GENERAL.—Subject to subparagraphs (B) and (C), the administering authority may not terminate an investigation under paragraph (1) by accepting, with the government of the country in which the subsidy practice is alleged to occur, an understanding or other kind of agreement to limit the volume of imports into the United States of the merchandise that is subject to the investigation unless the administering authority is satisfied that termination on the basis on that agreement is in the public interest.

"(B) PUBLIC INTEREST FACTORS.—In making a decision under subparagraph (A) regarding the public interest, the administering authority shall take into account—

"(i) whether, based upon the relative impact on consumer prices and the availability of supplies of the merchandise, the agreement would have a greater adverse impact on United States consumers that the imposition of countervailing duties;

"(ii) the relative impact on the international economic interests of the United States; and

"(iii) the relative impact on the competitiveness of the domestic industry producing the like merchandise, including any such impact on employment and investment in that industry.

"(C) PRIOR CONSULTATIONS.—Before making a decision under subparagraph (A) regarding the public interest, the administering authority shall, to the extent practicable, consult with—

"(i) potentially affected consuming industries; and

"(ii) potentially affected producers and workers in the domestic industry producing the like merchandise, including producers and workers not party to the investigation.

"(3) LIMITATION ON TERMINATION BY COMMISSION.—The Commission may not terminate an investigation under paragraph (1) before a preliminary determination is made by the administering authority under section 703(b).";

(2) by amending subsection (d)—

(A) by adding at the end of paragraph (1) the following:

"In applying subparagraph (A) with respect to any quantitative restriction agreement under subsection (c), the administering authority shall take into account, in addition to such other factors as are considered necessary or appropriate, the factors set forth in subsection (a)(2)(B)(i), (ii), and (iii) as they apply to the proposed suspension and agreement, after consulting with the appropriate consuming industries, producers, and workers referred to in subsection (a)(2)(C)(i) and (ii).",

(B) by striking out paragraph (2), and

(C) by redesignating paragraph (3) as paragraph (2);

(3) by amending subsection (e)(3), by striking out "all parties to the investigation" and inserting in lieu thereof "all interested parties described in section 771(9)";

(4) by amending subsection (i)(1)—

(A) by striking out "and" at the end of subparagraph (C),

(B) by redesignating subparagraph (D) as subparagraph (E), and

(C) by inserting immediately after subparagraph (C) the following new subparagraph:

"(D) if it considers the violation to be international, notify the Commissioner of Customs who shall take appropriate action under paragraph (2), and"; and

(5) by adding at the end thereof the following new subsection:

"(k) TERMINATION OF INVESTIGATIONS INITIATED BY ADMINISTERING AUTHORITY.—The administering authority may terminate any investigation initiated by the administering authority under section 702(a) after providing notice of such termination to all parties to the investigation.".

(b) Section 734 (19 U.S.C. 1673c) is amended—

(1) by amending subsection (a) to read as follows:

"(a) TERMINATION OF INVESTIGATION UPON WITHDRAWAL OF PETITION.—

"(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), an investigation under this subtitle may be terminated by either the administering authority or the Commission, after notice to all parties to the investigation, upon withdrawal of the petition by the petitioner or by the administering authority if the investigation was initiated under section 732(a).

"(2) SPECIAL RULES FOR QUANTITATIVE RESTRICTION AGREEMENTS.—

"(A) IN GENERAL.—Subject to subparagraphs (B) and (C), the administering authority may not terminate an investigation under paragraph (1) by accepting an understanding or other kind of agreement to limit the volume of imports into the United States of the merchandise that is subject to the investigation unless the administering authority is satisfied that termination on the basis of that agreement is in the public interest.

"(B) PUBLIC INTEREST FACTORS.—In making a decision under subparagraph (A) regarding the public interest the administering authority shall take into account—

"(i) whether, based upon the relative impact on consumer prices and the availablity of supplies of the merchandise, the agreement would have a greater adverse impact on United States consumers than the imposition of antidumping duties;

"(ii) the relative impact on the international economic interests of the United States; and

"(iii) the relative impact on the competitiveness of the domestic industry producing the like merchandise including any such impact on employment and investment in that industry.

"(C) PRIOR CONSULTATIONS.—Before making a decision under subparagraph (A) regarding the public interest, the administering authority shall, to the extent practicable, consult with—

"(i) potentially affected consuming industries; and

"(ii) Potentially affected producers and workers in the domestic industry producing the like merchandise, including producers and workers not party to the investigation.

"(3) LIMITATION ON TERMINATION BY COMMISSION.—The Commission may not terminate an investigation under paragraph (1) before a preliminary determination is made by the administrative authority under section 733(b).";

(2) by amending subsection (d) to read as follows:

"(d) ADDITIONAL RULES AND CONDITIONS.—The administering authority may not accept an agreement under subsection (b) or (c) unless—

"(1) it is satisfied that suspension of the investigation is in the public interest, and

"(2) effective monitoring of the agreement by the United States is practicable.";

(3) by amending subsection (e)(3) by striking out "all parties to the investigation" and inserting in lieu thereof "all interested parties described in section 771(9)";

(4) by amending subsection (i)(1)—

(A) by striking out "and" at the end of subparagraph (C),

(B) by redesignating subparagraph (D) as subparagraph (E), and

(C) by inserting immediately after subparagraph (C) the following new subparagraph:

"(D) if it considers the violation to be intentional, notify the Commissioner of Customs who shall take appropriate action under paragraph (2), and"; and

(5) by adding at the end thereof the following new subsection:

"(k) TERMINATION OF INVESTIGATION INITIATED BY ADMINISTERING AUTHORITY.—The administering authority may terminate any investigation initiated by the administering authority under section 732(a) after providing notice of such termination to all parties to the investigation.".

SEC. 605. FINAL DETERMINATION OF CRITICAL CIRCUMSTANCES.

(a)(1) Section 705(a)(2) (19 U.S.C. 1671d(a)(2)) is amended by adding at the end thereof the following new sentence: "Such findings may be affirmative even though the preliminary determination under section 703(e)(1) was negative.".

(2) Section 705(c) is amended by adding at the end thereof the following new paragraph:

"(4) EFFECT OF AFFIRMATIVE DETERMINATION UNDER SUBSECTION (A)(2).—If the determination of the administering authority under subsection (a)(2) is affirmative, then the administering authority shall—

"(A) in cases where the preliminary determinations by the administering authority under sections 703(b) and 703(c)(1) were both affirmative, continue the retroactive suspension of liquidation and the posting of a cash deposit, bond, or other security previously ordered under section 703(e)(2);

"(B) in cases where the preliminary determination by the administering authority under section 703(b) was affirmative, but the preliminary determination under section 703(e)(1) was negative, shall modify any suspension of liquidation and security requirement previously ordered under section 703(d) to apply to unliquidated entries of merchandise entered, or withdrawn from warehouse, for consumption on or after the date which is 90 days before the date on which suspension of liquidation was first ordered; or

"(C) in cases where the preliminary determination by the administering authority under section 703(b) was negative, shall apply any suspension of liquidation and security requirement ordered under subsection 705(c)(1)(B) to unliquidated entries of merchandise entered, or withdrawn from warehouse, for consumption on or after the date which is 90 days before the date on which suspension of liquidation is first ordered.".

(3) Section 705(c)(3)(A) is amended by inserting "paragraph (4) or" after "under".

(b)(1) Section 735(a)(3) (19 U.S.C. 1673d(a)(3)) is amended by adding at the end thereof the following new sentence: "Such findings may be affirmative even though the preliminary determination under section 733(c)(1) was negative.".

(2) Section 735(c) is amended by adding at the end thereof the following new paragraph:

"(4) EFFECT OF AFFIRMATIVE DETERMINATION UNDER SUBSECTION (A)(3).—If the determination of the administering authority under subsection (a)(3) is affirmative, then the administering authority shall—

"(A) in cases where the preliminary determinations by the administering authority under sections 733(b) and 733(e)(1) were both affirmative, continue the retroactive suspension of liquidation and the posting of a cash deposit, bond, or other security previously ordered under section 733(e)(2);

"(B) in cases where the preliminary determination by the administering authority under section 733(b) was affirmative, but the preliminary determination under section 733(e)(1) was negative, shall modify any suspension of liquidation and security requirement previously ordered under section 733(d) to apply to unliquidated entries of merchandise entered, or withdrawn from warehouse, for consumption on or after the date which is 90 days before the date on which suspension of liquidation was first ordered; or

"(C) in cases where the preliminary determination by the administering authority under section 733(b) was negative, shall apply any suspension of liquidation and security requirement ordered under subsection 735(c)(1)(B) to unliquidated entries of merchandise entered, or withdrawn from warehouse, for consumption on or after the date which is 90 days before the date on which suspension of liquidation is first ordered.".

(3) Section 735(c)(3)(A) is amended by inserting "paragraph (4) or" after "under".

SEC. 606. SIMULTANEOUS INVESTIGATIONS.

Section 705(a)(1) (19 U.S.C. 1671d(a)(1)) is amended to read as follows:

"(1) IN GENERAL.—Within 75 days after the date of the preliminary determination under section 703(b), the administering authority shall make a final determination of whether or not a subsidy is being provided with re-

spect to the merchandise; except that when an investigation under this subtitle is initiated simultaneously with an investigation under subtitle B, which involves imports of the same class or kind of merchandise from the same or other countries, the administering authority, if requested by the petitioner, shall extend the date of the final determination under this paragraph to the date of the final determination of the administering authority in such investigation initiated under subtitle B.".

SEC. 607. COUNTERVAILING DUTIES APPLY ON COUNTRY-WIDE BASIS.

Section 706(a) (19 U.S.C. 1671e(a)) is amended—

(1) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(2) by adding after paragraph (1) the following new paragraph:

"(2) shall presumptively apply to all merchandise of such class or kind exported from the country investigated, except that if—

"(A) the administering authority determines there is a significant differential between companies receiving subsidy benefits, or

"(B) a State-owned enterprise is involved, the order may provide for differing countervailing duties,".

SEC. 608. CONDITIONAL PAYMENT OF COUNTERVAILING DUTIES.

Subtitle A of title VII is amended by adding at the end thereof the following new section:

"SEC. 709. CONDITIONAL PAYMENT OF COUNTERVAILING DUTY.

"(a) IN GENERAL.—For all entries, or withdrawals from warehouse, for consumption of merchandise subject to a countervailing duty order on or after the date of publication of such order, no customs officer may deliver merchandise of that class or kind to the person by whom or for whose account it was imported unless that person complies with the requirement of subsection (b) and deposits with the appropriate customs officer an estimated countervailing duty in an amount determined by the administering authority.

"(b) IMPORTER REQUIREMENTS.—In order to meet the requirements of this subsection, a person shall—

"(1) furnish, or arrange to have furnished, to the appropriate customs officer such information as the administering authority deems necessary for ascertaining any countervailing duty to be imposed under this subtitle,

"(2) maintain and furnish to the customs officer such records concerning such merchandise as the administering authority, by regulation, requires, and

"(3) pay, or agree to pay on demand, to the customs officer the amount of countervailing duty imposed under this subtitle on that merchandise.".

SEC. 609. INITIATION OF ANTIDUMPING DUTY INVESTIGATIONS.

Section 732(a) (19 U.S.C. 1673a(a)) is amended to read as follows:

"(a) INITIATION BY ADMINISTERING AUTHORITY.—

"(1) IN GENERAL.—An antidumping duty investigation shall be commenced whenever the administering authority determines, from information available to it, that a formal investigation is warranted into the question of whether the elements necessary for the imposition of a duty under section 731 exist.

"(2) CASES INVOLVING PERSISTENT DUMPING.—

"(A) MONITORING.—The administering authority may establish a monitoring program with respect to imports of a class or kind of merchandise from any additional supplier country for a period not to exceed one year if—

"(i) more than one antidumping order is in effect with respect to that class or kind of merchandise;

"(ii) in the judgment of the administering authority there is reason to believe or suspect an extraordinary pattern of persistent injurious dumping from one or more additional supplier countries; and

"(iii) in the judgment of the administering authority this extraordinary pattern is causing a serious commercial problem for the domestic industry.

"(B) If during the period of monitoring referred to in subparagraph (A), the administering authority determines that there is sufficient information to commence a formal investigation under this subsection regarding an additional supplier country, the administering authority shall immediately commence such an investigation.

"(C) DEFINITION.—For purposes of this paragraph, the term 'additional supplier country' means a country regarding which no antidumping investigation is currently pending, and no antidumping duty order is currently in effect, with respect to imports of the class or kinds of merchandise covered by subparagraph (A).

"(D) EXPEDITIOUS ACTION.—The administering authority and the Commission, to the extent practicable, shall expedite proceedings under this subtitle undertaken as a result of a formal investigation commenced under subparagraph (B)."

SEC. 610. DUTIES OF CUSTOMS OFFICERS.

(a) Subtitle B of title VII is amended by striking out section 739.

(b) The table of contents for such subtitle is amended by striking out

"Sec. 739. Duties of customs officers.".

SEC. 611. REVIEWS AND DETERMINATIONS.

(a) Subtitle C (19 U.S.C. 1675) is amended—

(1) by amending the subtitle heading to read as follows:

"Subtitle C—Reviews; Other Actions Regarding Agreements

"CHAPTER 1—REVIEW OF AMOUNT OF DUTY AND AGREEMENTS OTHER THAN QUANTITATIVE RESTRICTION AGREEMENTS";

(2) by amending section 751—

(A) by inserting "if a request for such a review has been received and" immediately before "after publication of notice" in that part of paragraph (1) of subsection (a) that precedes subparagraph (A); and

(B) by amending subsection (b)(1)—

(i) by striking out "704 or 734" and inserting in lieu there of "704 (other than a quantitative restriction agreement described in subsection (a)(2) or (c)(3)) or 734 (other than a quantitative restriction agreement described in subsection (a)(2))",

(ii) by striking out ", or 735(b)," and inserting in lieu thereof ", 735(b), 762(a)(1), or 762(a)(2),", and

(iii) by adding at the end of subsection (b)(1) the following: "During an investigation by the Commission, the party seeking revocation of an antidumping order shall have the burden of persuasion with respect to whether there are changed circumstances sufficient to warrant revocation of the antidumping order."; and

(3) by adding "The administering authority shall not revoke, in whole or in part, a countervailing duty order or terminate a suspended investigation on the basis of any export taxes, duties, or other charges levied on the export of merchandise to the United States specifically intended to offset the subsidy received." after the first sentence of subsection (c);

(4) by adding at the end thereof the following new chapter:

"CHAPTER 2—CONSULTATIONS AND DETERMINATIONS REGARDING QUANTITATIVE RESTRICTION AGREEMENTS

"SEC. 761. REQUIRED CONSULTATIONS.

"(a) AGREEMENTS IN RESPONSE OF SUBSIDIES.—Within 90 days after the administering authority accepts a quantitative restriction agreement under section 704(a)(2) or (c)(3), the President shall enter into consultations with the government that is party to the agreement for purposes of—

"(1) eliminating the subsidy completely, or

"(2) reducing the net subsidy to a level that eliminates completely the injurious effect of exports to the United States of the merchandise.

"(b) MODIFICATION OF AGREEMENTS ON BASIS OF CONSULTATIONS.—At the direction of the President, the administering authority shall modify a quantitative restriction agreement as a result of consultations entered into under subsection (a).

"(c) SPECIAL RULE REGARDING AGREEMENTS UNDER SECTION 704(c)(3).—This chaper shall cease to apply to a quantitative restriction agreement described in section 704(c)(3) at such time as that agreement ceases to have force and effect under section 704(f) or violation is found under section 704(i).

"SEC. 762. REQUIRED DETERMINATIONS.

"(a) IN GENERAL.—Before the expiration date, if any, of a quantitative restriction agreement accepted under section 704(a)(2) or 704(c)(3) (if suspension of the related investigation is still in effect)—

"(1) the administering authority shall, at the direction of the President, initiate a proceeding to determine whether any subsidy is being provided with respect to the merchandise subject to the agreement and, if being so provided , the net subsidy; and

"(2) if the administering authority initiates a proceeding under paragraph (1), the Commission shall determine whether imports of the merchandise of the kind subject to the agreement will, upon termination of the agreement, materially injure, or threaten with material injury, an industry in the United States or materially retard the establishment of such an industry.

"(b) DETERMINATIONS.—The determinations required to be made by the administering authority and the Commission under subsection (a) shall be made under such procedures as the administering authority and the Commission, respectively, shall by regulation prescribe, and shall be treated as final determinations made under section 705 for purposes of judicial review under section 516A. If the determinations by each are affirmative, the administering authority shall—

"(1) issue a countervailing duty order under section 706 effective with respect to merchandise entered on and after the date on which the agreement terminates; and

"(2) order the suspension of liquidation of all entries of merchandise subject to the order which are entered, or withdrawn from warehouse for consumption, on or after the date of publication of the order in the Federal Register.

"(c) HEARINGS.—The determination proceedings required to be prescribed under

subsection (b) shall provide that the administering authority and the Commission must, upon the request of any interested party, hold a hearing in accordance with section 774 on the issues involved.".

(b) The table of contents for subtitle C of title VII is amended to read as follows:

Subtitle C—Reviews; Other Actions Regarding Agreements

"CHAPTER 1—REVIEW OF AMOUNT OF DUTY AND AGREEMENTS OTHER THAN QUANTITATIVE RESTRICTION AGREEMENTS

"Sec. 751. Administrative review of determinations.

"CHAPTER 2—CONSULTATIONS AND DETERMINATIONS REGARDING QUANTITATIVE RESTRICTION AGREEMENTS

"Sec. 761. Required consultations
"Sec 762. Required determinations.".

(c) 104(b)(2) of the Trade Agreements Act of 1979 (19 U.S.C. 1671, note) is amended by adding at the end thereof the following new sentence: "A negative determination by the Commission under this paragraph shall not be based, in whole or in part, on any export taxes, duties, or other changes levied on the export of merchandise to the United States specifically intended to offset the subsidy received.".

SEC. 612. DEFINITIONS AND SPECIAL RULES.

(a) Section 771 (19 U.S.C. 1655) is amended as follows:

(1) Paragraph (4)(A) is amended by inserting before the peirod at the end thereof the following: ", except that in the case of wine and grape products subject to investigation under this title, the term also means the domestic producers of the principal raw agricultural product (determined on either a volume or value basis) which is included in the like domestic product, if those producers allege material injury, or threat of material injury, as a result of imports of such wine and grape products".

(2) Paragraph (7) is amended—

(A) by inserting the following new clause at the end of subparagraph (C):

"(iv) CUMULATION.—For purposes of clauses (i) and (ii), the Commission shall cumulatively assess the volume and effect of imports from two or more countries of like products subject to investigation if such imports compete with each other and with like products of the domestic industry in the United States market.";

(B) by inserting after subparagraph (E) the following new subparagraph:

"(F) THREAT OF MATERIAL INJURY.—

"(i) IN GENERAL.—In determining whether an industry in the United States is threatened with material injury by reason of imports (or sales for importation) of any merchandise, the Commission shall consider, among other relevant economic factors—

"(I) If a subsidy is involved, such information as may be presented to it by the administering authority as to the nature of the subsidy (particularly as to whether the subsidy is an export subsidy inconsistent with the Agreement),

"(II) any increase in production capacity or existing unused capacity in the exporting country likely to result in a significant increase in imports of the merchandise to the United States,

"(III) any rapid increase in United States market penetration and the likelihood that the penetration will increase to an injurious level,

"(IV) the probability that imports of the merchandise will enter the United States at prices that will have a depressing or suppressing effect on domestic prices of the merchandise,

"(V) any substantial increase in inventories of the merchandise in the United States,

"(VI) the presence of underutilized capacity for producing the merchandise in the exporting country, and

"(VII) any other demonstrable adverse trends that indicate the probability that the importation (or sale for importation) of the merchandise (whether or not it is actually being imported at the time) will be the cause of actual injury.

"(VIII) the potential for productshifting if production facilities owned or controlled by the foreign manufacturers, which can be used to produce products subject to investigation(s) under section 701 or 731 or to find orders under section 706 or 736, are also used to produce the merchandise under investigation.

(ii) BASIS FOR DETERMINATION.—Any determination by the Commission under this title that an industry in the United States is threatened with material injury shall be made on the basis of evidence that the threat of material injury is real and that actual injury is imminent. Such a determination may not be made on the basis of mere conjecture or supposition.

(3) Paragraph (9) is amended—

(A) by striking out "and" at the end of subparagraph (D);

(B) by striking out the period at the end of subparagraph (E) and inserting in lieu thereof ", and"; and

(C) by adding at the end thereof the following new subparagraph:

(F) an association, a majority of whose members is composed of interested parties described in subparagraph (C), (D), or (E) with respect to a like product.".

(4) Paragraph (14) is amended by striking out "at wholesale" and inserting in lieu thereof "in commercial quantities".

(5) Paragraph (17) is amended by striking out "wholesale quantities" each place it appears in the heading and the text and inserting in lieu thereof commercial quantities".

(b)(1) Section 514(a) (19 U.S.C. 1514(a)) is amended by striking out "771(9) (C), (D), and (E) of this Act." and inserting in lieu thereof "771(9) (C), (D), (E), and (F) of this Act.".

(2) Sections 704 (g)(2) and (h)(1) and 734 (g)(2) and (h)(1) (19 U.S.C. 1671c (g)(2) and (h)(1) and 1673c (g)(2) and (h)(1) are each amended by striking out "(C), (D), or (E)" and inserting in lieu thereof "(C), (D), (E), and (F)".

(3) Section 2631(k)(2) of title 28, United States Code, is amended—

(A) by striking out "and" at the end of subparagraph (C),

(B) by striking out the period at the end of subparagraph (D), and inserting in lieu thereof ", and", and

(C) by adding at the end thereof the following new subparagraph:

"(E) an association composed of members who represent parties-at-interest described in subparagraph (B), (C), or (D).".

SEC. 613. UPSTREAM SUBSIDIES.

(a) Subtitle D of title VII is amended by adding after section 771 the following new section:

"SEC. 771A. UPSTREAM SUBSIDIES.

"(a) DEFINITION.—The term 'upstream subsidy' means any subsidy described in section 771(5)(B) (i), (ii), or (iii) by the government of a country that—

"(1) is paid or bestowed by that government with respect to a product hereafter referred to as an ' input product that is used in the manufacture or production in that country of merchandise which is the subject of a countervailing duty proceeding;

"(2) in the judgment of the administering authority bestows a competitive benefit on the merchandise; and

"(3) has a significant effect on the cost of manufacturing or producing the merchandise.

In applying this subsection, an association of two or more foreign countries, political subdivisions, dependent territories, or possessions of foreign countries organized into a customs union outside the United States shall be treated as being one country if the subsidy is provided by the customs union.

"(b) DETERMINATION OF COMPETITIVE BENEFIT.—

(1) IN GENERAL.—Except as provided in paragraph (2), the administering authority shall decide that a competitive benefit has been bestowed when the price for the input product referred to in subsection (a)(1) for such use is lower than the price that the manufacturer or producer of merchandise which is the subject of a countervailing duty proceeding would otherwise pay for the product in obtaining it from another seller in an arms-length transaction.

(2) ADJUSTMENTS.—If the administering authority has determined in a previous proceeding that a subsidy is paid or bestowed on the input product that is used for comparison under paragraph (1), the administering authority may (A) where appropriate, adjust the price that the manufacturer or producer of merchandise which is the subject of such proceeding would otherwise pay for the product to reflect the effects of the subsidy, or (B) select in lieu of that price a price from another source.

"(c) INCLUSION OF AMOUNT OF SUBSIDY.—If the administering authority decides, during the course of a countervailing duty proceeding that an upstream subsidy is being or has been paid or bestowed regarding the merchandise under investigation, the administering authority shall include in the amount of any countervailing duty imposed on the merchandise an amount equal to the amount of the competitive benefit referred to in subparagraph (1)(B), except that in no event shall the amount be greater than the amount of subsidization determined with respect to the upstream product.".

(b) Section 701 of the Tariff Act of 1930 (19 U.S.C. 1671) is further amended by adding at the end thereof the following new subsection:

"(g) Whenever the administering authority has reasonable grounds to believe or suspect that an upstream subsidy, as defined in section 771A(a)(1), is being paid or bestowed, the administering authority shall investigate whether an upstream subsidy has in fact been paid or bestowed; and if so, shall include the amount of the upstream subsidy as provided in section 771A(a)(3)."

(c) Section 703 of the Tariff Act of 1930 (19 U.S.C. 1617b) is further amended by adding at the end thereof the following new subsection:

"(h) Time Period Where Upstream Subsidization Involved.

"(1) IN GENERAL.—Whenever the administering authority concludes prior to a preliminary determination under section 703(b), that there is a reasonable basis to believe or suspect that an upstream subsidy is being bestowed, the time period within which a preliminary determination must be made shall be extended to 250 days after the filing of a petition under section 702(b) or com-

mencement of an investigation under section 702(a) (310 days in cases declared extraordinarily complicated under section 703(c)), if the administering authority concludes that such additional time is necessary to make the required determination concerning upstream subsidization.

"(2) EXCEPTIONS.—Whenever the administering authority concludes, after a preliminary determination under section 703(b), that there is a reasonable basis to believe or suspect that an upstream subsidy is being bestowed—

"(A) in cases in which the preliminary determination was negative, the time period within which a final determination must be made shall be extended to 165 days under section 705(a)(1) or 225 days under section 705(a)(2), as appropriate; or

"(B) in cases in which the preliminary determination is affirmative, the determination concerning upstream subsidization—

"(i) need not be made until the conclusion of the first annual review under section 751 of any eventual Countervailing Duty Order, or, at the option of the petitioner, or

"(ii) will be made in the investigation and the time period within which a final determination must be made shall be extended to 165 days under section 705(a)(2), as appropriate, except that the suspension of liquidation ordered in the preliminary determination shall terminate at the end of 120 days from the date of publication of that determination and not be resumed unless and until the publication of a Countervailing Duty Order under section 706(a).

There may be an extension of time for the making of a final determination under this subsection only if the administering authority determines that such additional time is necessary to make the required determination concerning upstream subsidization.".

(b) The table of contents for title VII is amended by inserting after the entry for section 771 the following:

"Sec. 771A. Upstream subsidies.".

SEC. 614. RESELLER'S PRICE TAKEN INTO ACCOUNT IN DETERMINING PURCHASE PRICE.

Section 772(b) (19 U.S.C. 1677a(b)) is amended by inserting "a reseller or" after "date of importation, from".

SEC. 615. FOREIGN MARKET VALUE.

Section 773 (19 U.S.C. 1677b) is amended—

(1) by striking out "time of exportation of such merchandise to the United States" and inserting in lieu thereof "time such merchandise is first sold within the United States by the person for whom (or for whose account) the merchandise is imported to any other person who is not described in subsection (e)(3) with respect to such person" in subsection (a)(1);

(2) by striking out "wholesale quantities" each place it appears in the heading and the text and inserting in lieu thereof "commercial quantities"; and

(3) by adding at the end thereof the following new subsection:

"(g) EXPORTATION FROM AN INTERMEDIATE COUNTRY.—If—

"(1) a reseller purchases the merchandise from the manufacturer or producer of the merchandise,

"(2) the manufacturer or producer of the merchandise does not know (at the time of the sale to such reseller) the country to which such reseller intends to export the merchandise,

"(3) the merchandise is exported by, or on behalf of, such reseller to a country other than the United States,

"(4) the merchandise enters the commerce of such country but is not substantially transformed in such country, and

"(5) the merchandise is subsequently exported to the United States,

such country shall be treated, for purposes of this section, as the country from which the merchandise was exported.".

SEC. 616. HEARINGS.

Section 774(a) (19 U.S.C. 1677c(a)) is amended to read as follows:

"(a) INVESTIGATION HEARINGS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the administering authority and the Commission shall each hold a hearing in the course of an investigation upon the request of any party to the investigation before making a final determination under section 705 or 735.

"(2) EXCEPTION.—If investigations are initiated under subtitle A and subtitle B regarding the same merchandise from the same country within 6 months of each other (but before a final determination is made in either investigation), the holding of a hearing by the Commission in the course of one of the investigations shall be treated as compliance with paragraph (1) for both investigations, unless the Commission considers that special circumstances require that a hearing be held in the course of each of the investigations. During any investigation regarding which the holding of a hearing is waived under this paragraph, the Commission shall allow any party to submit such additional written comment as it considers relevant.".

SEC. 617. SUBSIDIES DISCOVERED DURING PROCEEDINGS.

Section 775 (19 U.S.C. 1677d) is amended by striking out "investigation" each place it appears in the text and in the heading and inserting in lieu thereof "proceeding".

SEC. 618. VERIFICATION OF INFORMATION.

Section 776(a) (19 U.S.C. 1677e(a)) is amended to read as follows:

"(a) GENERAL RULE.—The administering authority shall verify all information relied upon in making—

"(1) a final determination in an investigation,

"(2) a revocation under section 751(c), and

"(3) a review and determination under section 751(a), if—

"(A) verification is timely requested by an interested party as defined in section 771(9) (C), (D), (E), or (F), and

"(B) no verification was made under this paragraph during the 2 immediately preceding reviews and determinations under that section of the same order, finding, or notice, except that this clause shall not apply if good cause for verification is shown.

In publishing notice of any action referred to in paragraph (1), (2), or (3), the administering authority shall report the methods and procedures used to verify such information. If the administering authority is unable to verify the accuracy of the information submitted, it shall use the best information available to it as the basis for its action, which may include, in actions referred to in paragraph (1), the information submitted in support to the petition.".

SEC. 619. RECORDS OF EX PARTE MEETINGS; RELEASE OF CONFIDENTIAL INFORMATION.

Section 777 (19 U.S.C. 1677f) is amended—

(1) by amending paragraph (3) of subsection (a) to read as follows:

"(3) EX PARTE MEETINGS.—The administering authority and the Commission shall maintain a record of any ex parte meeting between—

"(A) interested parties or other persons providing factual information in connection with a proceeding, and

"(B) the person charged with making the determination, or any person charged with making a final recommendation to that person, in connection with that proceeding,

if information relating to that proceeding was presented or discussed at such meeting. The record of such an ex parte meeting shall include the identity of the persons present at the meeting, the date, time, and place of the meeting, and a summary of the matters discussed or submitted. The record of the ex parte meeting shall be included in the record of the proceeding.";

(2) by striking out "submitted)" in the first sentence of subsection (b) and inserting in lieu thereof "submitted, or an officer or employee of the United States Customs Service who is directly involved in conducting an investigation regarding fraud under this title)";

(3) by striking out the second sentence of subsection (b) and inserting in lieu thereof the following new sentence: "The administering authority and the Commission shall require that information for which confidential treatment is requested be accompanied by—

"(A) either—

"(i) a nonconfidential summary in sufficient detail to permit a reasonable understanding of the substance of the information submitted in confidence, or

"(ii) a statement that the information is not susceptible to summary accompanied by a statement of the reasons in support of the contention, and

"(B) either—

"(i) a statement which permits the administering authority to release under administrative protective order, in accordance with subsection (c), the information submitted in confidence, or

"(ii) a statement that the information should not be released under administrative protective order."; and

(4) by inserting "(before or after receipt of the information requested)" after "application," in subsection (c)(1)(A)

SEC. 620. SAMPLING AND AVERAGING IN DETERMINING UNITED STATES PRICE AND FOREIGN MARKET VALUE.

(a) Subtitle D of title VII (19 U.S.C. 1677a et seq.) is amended by adding immediately after section 777 the following new section:

"SEC. 777A. SAMPLING AND AVERAGING.

"(a) IN GENERAL.—For the purpose of determining United States price or foreign market value under sections 772 and 773, and for purposes of carrying out annual reviews under section 751, the administering authority may—

"(1) use averaging or generally recognized sampling techniques whenever a significant volume of sales, is involved or a significant number of adjustments to prices is required, and

"(2) decline to take into account adjustments which are insignificant in relation to the price or value of the merchandise.

"(b) SELECTION OF SAMPLES AND AVERAGES.—The authority to select appropriate samples and averages shall rest exclusively with the administering authority; but such samples and averages shall be representative of the transactions under investigation.".

(b) Subsection (f) of section 773 (19 U.S.C. 1677b(f)) is repealed.

(c) The table of contents for title VII is amended by inserting after the entry for section 777 the following:

"Sec. 777A. Sampling and averaging.".

SEC. 621. INTEREST.

Section 778 (19 U.S.C. 1677g) is amended to read as follows:

"SEC. 778. INTEREST ON CERTAIN OVERPAYMENTS AND UNDERPAYMENTS.

"(a) GENERAL RULE.—Interest shall be payable on overpayments and underpayments of amounts deposited on merchandise entered, or withdrawn from warehouse, for consumption on and after—

"(1) the date of publication of a countervailing or antidumping duty order under this title or section 303, or

"(2) the date of a finding under the Antidumping Act, 1921.

"(b) RATE.—The rate of interest payable under subsection (a) for any period of time is the rate of interest established under section 6621 of the Internal Revenue Code of 1954 for such period.".

SEC. 622. DRAWBACKS.

(a) Title VII is amended—

(1) by striking out section 740, and

(2) by adding at the end of subtitle D the following new section:

"SEC. 779. DRAWBACKS.

"For purposes of any law relating to the drawback of customs duties, countervailing duties and antidumping duties imposed by this title shall be treated as any other customs duties.".

(b) The table of contents for such title is amended—

(1) by striking out

"Sec. 740. Antidumping duty treated as a regular duty for drawback purposes.";

and

(2) by adding at the end thereof

"Sec. 779. Drawback.".

SEC. 623. ELIMINATION OF INTERLOCUTORY APPEALS.

(a) Section 516A(a) (19 U.S.C. 1516a(a)) is amended as follows:

(1) Paragraph (1) is amended to read as follows:

"(1) REVIEW OF CERTAIN DETERMINATIONS.—Within 30 days after the date of publication in the Federal Register of—

"(A) a determination by the administering authority, under 702(c) or 732(c) of this Act, not to initiate an investigation,

"(B) a determination by the Commission, under section 751(b) of this Act, not to review a determination based upon changed circumstances, or

"(C) a negative determination by the Commission, under section 703(a) or 733(a) of this Act, as to whether there is reasonable indication of material injury, threat of material injury, or material retardation,

an interested party who is a party to the proceeding in connection with which the matter arises may commence an action in the United States Court of International Trade by filing concurrently a summons and complaint, each with the content and in the form, manner, and style prescribed by the rules of that Court, contesting any factual findings or legal conclusions upon which the determination is based.".

(2) Paragraph (2)(A) is amended—

(A) by striking out "the date of publication in the Federal Register of" in the matter preceding clause (i); and

(B) by amending clauses (i) and (ii) to read as follows:

"(i) the date of publication in the Federal Register of—

"(I) notice of any determination described in clause (ii), (iii), (iv), or (v) of subparagraph (B), or

"(II) an antidumping or countervailing duty order based upon any determination described in clause (i) of subparagraph (B), or

"(ii) the date of mailing of a determination described in clause (vi) of subparagraph (B),".

(3) Amend paragraph (2)(B) to read as follows:

"(B) REVIEWABLE DETERMINATIONS.—The determinations which may be contested under subparagraph (A) as follows:

"(i) Final affirmative determinations by the administering authority and by the Commission under section 705 or 735 of this Act, including any negative part of such a determination (other than a part referred to in clause (ii)).

"(ii) A final negative determination by the administering authority or the Commission under section 705 or 735 of this Act, including, at the option of the appellant, any part of a final affirmative determination which specifically exludes any company or product.

"(iii) A final determination, other than a determination reviewable under paragraph (1), by the administering authority or the Commission under section 751 of this Act.

"(iv) A determination by the administering authority, under section 704 or 734 of this Act, to suspend an antidumping duty or a countervailing duty investigation, including any final determination resulting from a continued investigation which changes the size of the dumping margin or net subsidy calculated, or the reasoning underlying such calculations, at the time the suspension agreement was concluded.

"(v) An injurious effect determination by the Commission under section 704(h) or 734(h) of this Act.

"(vi) A determination by the administering authority as to whether a particular type of merchandise is within the class or kind of merchandise described in an existing finding of dumping or antidumping or countervailing duty order.".

(4) Redesignate paragraph (3) as paragraph (4) and after paragraph (2) insert the following:

"(3) EXCEPTION.—Notwithstanding the limitation imposed by paragraph (2)(A)(ii) of this subsection, a final affirmative determination by the administering authority under section 705 or 735 of this Act may be contested by commencing an action, in accordance with the provisions of paragraph (2)(A), within thirty days after the date of publication in the Federal Register of a final negative determination by the Commission under section 705 or 735 of this Act which is predicated upon the size of either the dumping margin or net subsidy determined to exist.".

(b) Title 28, United States Code, is amended as follows:

(1) Section 2636 is amended—

(A) by amending subsection (c) to read as follows:

"(c) A civil action contesting a reviewable determination listed in section 516A of the Tariff Act of 1930 is barred unless commenced in accordance with the rules of the Court of International Trade within the time specified in such section."; and

(B) by striking out subsection (d) and redesignating subsections (e) through (i) as (d) through (h), respectively.

(2) Section 2647 is amended to read as follows:

"§ 2647. Precedence of cases

"The following civil actions in the Court of International Trade shall be given precedence, in the following order, over other civil actions pending before the Court, and shall be assigned for hearing at the earliest practicable date and expedited in every way:

"(1) First, a civil action involving the exclusion of perishable merchandise or the redelivery of such merchandise.

"(2) Second, a civil action commenced under section 515 of the Tariff Act of 1930 involving the exclusion or redelivery of merchandise.

"(3) Third, a civil action commenced under section 516 or 516A of the Tariff Act of 1930.".

SEC. 624. ADJUSTMENTS STUDY.

The Secretary of Commerce shall undertake a study of the current practices that are applied in the making of adjustments to purchase prices and exporter's sales prices under section 772 (d) and (e) (19 U.S.C. 1677a (d) and (e)) and foreign market value and constructed value under section 773 (19 U.S.C. 1677b) in determining antidumping duties. The study shall include, but not be limited to—

(1) a review of the types of adjustments currently being made;

(2) a review of private sector comments and recommendations regarding the subject that were made at congressional hearings during the first session of the ninety-eighth Congress; and

(3) the manner and extent to which such adjustments led to inequitable results.

Within one year after the date of the enactment of this Act, the Secretary of Commerce shall complete the study required under this section and shall submit to Congress a written report regarding the study and containing such recommendations as the Secretary deems appropriate regarding the need, and the means, for simplifying and modifying current practices in the making of such adjustments.

SEC. 625. INDUSTRIAL TARGETING STUDIES.

The Secretary of Commerce, the Secretary of Labor, the United States Trade Representative, and the Comptroller General of the United States shall each undertake, and submit to the Congress not later than June 1, 1985, a comprehensive study of the problem of foreign industrial targeting, whereby foreign governments adopt plans or schemes of coordinated activities to foster and benefit specific industries, and of the desirability or need to amend the United States trade laws in order to provide effective remedies for domestic industries against the adverse effects of such targeting. To the extent consistent with agency jurisidiction, such studies shall include, but are not limited to—

(1) an analysis of—

(A) whether foreign industrial targeting should be considered as an unfair trade practice under United States law;

(B) whether current law, including the remedies under title VII of the Tariff Act of 1930, adequately address the subsidy element of foreign industrial policy measures; and

(C) the extent to which foreign industrial targeting practices are significantly affecting United States commerce; and

(2) any recommended legislation considered necessary based on the study results.

SEC. 626. EFFECTIVE DATES.

(a) Except as provided in subsections (b) and (c), this Act, and the amendments made by it, shall take effect on the date of the enactment of this Act.

(b)(1) The amendments made by sections 602, 609, 611, 612, and 620 shall apply with respect to investigations initiated by petition or by the administering authority under subtitles A and B of title VII of the Tariff Act of 1930 on or after such effective date.

(2) The amendments made by section 623 shall apply with respect to civil actions pending on, or filed on or after, the date of the enactment of this Act.

(c)(1) No provision of title VII of the Tariff Act of 1930 shall be interpreted to prevent the refiling of a petition under section 702 or 732 of that title that was filed before the date of the enactment of this title, if the purpose of such refiling is to avail the petitioner of the amendment made by section 612(a)(1).

(2) The amendment made by section 612(a)(1) shall not apply with respect to petitions filed (or refiled under paragraph (1) under section 702 or 732 of the Tariff Act of 1930 after September 30, 1986.

TITLE VII—AUTHORIZATION OF APPROPRIATIONS FOR CUSTOMS AND TRADE AGENCIES

SEC. 701. UNITED STATES INTERNATIONAL TRADE COMMISSION.

The first sentence of paragraph (2) of section 330(e) of the Tariff Act of 1930 (19 U.S.C. 133(e)(2)) is amended to read as follows: "There are authorized to be appropriated to the Commission for necessary expenses (including the rental of conference rooms in the District of Columbia and elsewhere) for fiscal year 1985 not to exceed $28,410,000; of which not to exceed $2,500 may be used, subject to approval by the Chairman of the Commission, for reception and entertainment expenses.".

SEC. 702. UNITED STATES CUSTOMS SERVICE.

Section 301 of the Customs Procedural Reform and Simplification Act of 1978 (19 U.S.C. 2075) is amended as follows:

(1) Subsection (b) is amended to read as follows:

"(b) There are authorized to be appropriated to the Department of the Treasury not to exceed $686,399,000 for the salaries and expenses of the United States Customs Service for fiscal year 1985; of which (A) $28,070,000 is for the operation and maintenance of the air interdiction program of the Service, and (B) not to exceed $15,000,000 is for the implementation of the 'Operation EXODUS' program and any related program designed to enforce or monitor export controls under the Export Administration Act of 1979.".

(2) Subsection (d) is redesignated as subsection (e).

(3) The following new subsection is inserted immediately after subsection (c):

"(d) No part of any sum that is appropriated under subsection (b) for fiscal years after September 30, 1984, may be used for administrative expenses to pay any employee of the United States Customs Service overtime pay in an amount exceeding $25,000; except that the Commissioner of Customs or his designee may waive this limitation in individual cases in order to prevent excessive costs or to meet emergency requirements of the Service.".

SEC. 703. OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE.

Section 141(f)(1) of the Trade Act of 1974 (19 U.S.C. 2171(f)(1)) is amended—

(1) by striking out "$11,100,000 for fiscal year 1983" and inserting in lieu thereof "$14,179,000 for fiscal year 1985"; and

(2) by striking out "$65,000" and inserting in lieu thereof "$80,000".

TITLE VIII—ENFORCEMENT AUTHORITY FOR THE NATIONAL POLICY FOR THE STEEL INDUSTRY

SEC. 801. SHORT TITLE.

This title may be cited as the "Steel Import Stabilization Act".

SEC. 802. FINDINGS AND PURPOSES.

(a) The Congress finds that—

(1) the United States steel industry has a serious need to modernize its plant and equipment in order to enhance its international competitiveness, and needs increased capital investments to effect that modernization;

(2) the ability of the domestic steel industry to be internationally competitive is, and has been, impeded by the effects of the enormous Federal budget deficit, an overvalued dollar, and increasing trade deficits, as well as serious injury due to imports of, and subsidies, dumping, and the use of other unfair and restrictive foreign trade practices regarding steel products;

(3) the extensiveness of the unfair trade practices engaged in the international market regarding such products imposes unusually harsh burdens on the United States steel industry in combating those practices through the trade remedy laws;

(4) expeditious and effective action under the President's national policy for the steel industry, including more vigorous efforts by the Executive Branch to self-initiate and pursue remedies against those practices, is needed to eliminate the adverse effects of those unfair trade practices;

(5) import relief will be ineffective and will not serve the national economic interest unless the industry during the period of relief engages in serious efforts substantially to modernize and to improve its international competitiveness; and

(6) full and effective implementation of the national policy for the steel industry will substantially improve the economy and employment in both the steel and iron ore-producing sectors.

(b) The purposes of this title are—

(1) to supplement the authority of the President to achieve the goals of the national policy for the steel industry by granting enforcement powers regarding those bilateral arrangements that are entered into or undertaken for purposes of implementing that national policy; and

(2) to make the continuation of those powers subject to the condition that the steel industry undertake a comprehensive modernization of its plant and equipment.

SEC. 803. SENSE OF CONGRESS REGARDING THE NATIONAL POLICY FOR THE STEEL INDUSTRY.

It is the sense of the Congress that—

(1) the President should, in conjunction with the authority granted under this title, implement the national policy for the steel industry in a manner to ensure that the foreign share of the United States market for steel products is commensurate with a level which would obtain under conditions of fair, unsubsidized competition; and it is further the sense of Congress that when this policy is fully implemented, it will result in a foreign share of the domestic market of 17.0 to 20.2 percent, subject to such modifications that changes in market conditions and the composition of the steel industry may require;

(2) the national policy for the steel industry should not be implemented in a manner contrary to the antitrust laws; and

(3) if the national policy for the steel industry does not produce satisfactory results within a reasonable period of time, the Congress will consider taking such legislative actions concerning steel and iron ore products as may be necessary or appropriate to stabilize conditions in the domestic market for such products.

SEC. 804. DEFINITIONS.

As used in this title—

(1) The term "bilateral arrangement" means any arrangement, agreement, or understanding (including, but not limited to, any surge control understanding or suspension agreement) entered into or undertaken, or previously entered into or undertaken, by the United States and any foreign country or customs union containing such quantitative limitations, restrictions, or other terms relating to the importation into, or exportation to, the United States of categories of steel products as may be necessary to implement the national policy for the steel industry.

(2) The term "national policy for the steel industry" means those actions and elements described in Executive Communication 4046, dated September 18, 1984 (printed as House Document 98-263).

(3) The term "steel industry" means producers in the United States of steel products.

SEC. 805. ENFORCEMENT AUTHORITY.

(a) Subject to section 806, the President is authorized to carry out such actions as may be necessary or appropriate to enforce the quantitative limitations, restrictions, and other terms agreed to between the United States and steel-exporting nations as contained in bilateral arrangements. Such actions may include, but are not limited to, requirements that valid export licenses or other documentation issued by a foreign government be presented as a condition for the entry into the United States of steel products.

(b)(1) In connection with the provisions of the Arrangement on European Communities' Export of Pipes and Tubes to the United States of America, contained in an exchange of letters dated October 21, 1982, between representatives of the United States and the Commission of the European Communities, including any modification, clarification, extension, or successor agreement thereto (collectively referred to hereinafter as "the Arrangement"), the Secretary of Commerce is authorized to request the Secretary of the Treasury to take action pursuant to paragraph (2) of this subsection whenever he determines that—

(A) the level of exports of pipes and tubes to the United States from the European Communities is exceeding the average of annual United States apparent consumption specified in the Arrangement, or

(B) distortion is occurring in the pattern of United States-European Communities trade within the pipe and tube sector taking into account the average share of annual United States apparent consumption accounted for by European communities articles within product categories developed by the Secretary of Commerce.

Any request to the Secretary of the Treasury pursuant to this subsection by the Secretary of Commerce shall identify one or more categories of pipe and tube products with respect to which action under paragraph (2) is requested.

(2) At the request of the Secretary of Commerce pursuant to paragraph (1), the Secretary of the Treasury shall take such action as may be necessary to ensure that the aggregate quantity of European Communities articles in each product category identified by the Secretary of commerce in such request

that are entered into the United States are in accordance with the terms of the Arrangement.

(3) Nothing in this subsection may be construed as prohibiting the Secretary of Commerce from permitting the importation of additional quantities of specific products in cases where the Secretary determines that conditions of short supply or emergency economic situations related to market demand exist; except that a short supply or emergency economic situation shall not be considered to exist solely because domestic producers are unwilling to supply products at prices below their costs of production (as determined by the Secretary of Commerce).

(c) For purposes of carrying out this title, the Secretary of the Treasury may provide by regulation for the terms and conditions under which steel products may be denied entry into the United States.

SEC. 806. EFFECTIVE PERIOD OF TITLE.

(a) IN GENERAL.—Section 805 shall terminate—

(1) at the close of the fifth anniversary of the effective date of this title; or

(2) at the close of the first, second, third, or fourth anniversary of the effective date of this title, unless the President, before each such anniversary, submits to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate (in writing and together with the reasons therefor) an affirmative annual determination described in subsection (b).

(b)(1) An affirmative annual determination is a determination by the President that—

(A) the major companies of the steel industry, taken as a whole, have, during the 12-month period ending at the close of an anniversary referred to in subsection (a)(2)—

(i) committed substantially all of their net cash flow from steel product operations for purposes of reinvestment in, and modernization of, that industry through investment in modern plant and equipment, research and development, and other appropriate projects, such as working capital for steel operations and programs for the retraining of workers; and

(ii) taken sufficient action to maintain their international competitiveness, including action to produce price-competitive and quality-competitive products, to control costs of production, including employment costs, and to improve productivity; and

(B) each of the major companies committed for the applicable 12-month period not less than 1 percent of net cash flow to the retraining of workers; except that this requirement may be waived by the President with respect to a major company in noncompliance, if he finds unusual economic circumstances exist with respect to that company; and

(C) the enforcement authority provided under section 905 remains necessary to maintain the effectiveness of bilateral arrangements undertaken to eliminate unfair trade practices in the steel sector.

(2) For purposes of this subsection—

(A) the term "major company" means an enterprise whose raw steel production in the United States during 1983 exceeded 1,500,000 net tons.

(B) The term "net cash flow" means annual net (after-tax) income plus depreciation, depletion allowances, amortization, and changes in reserves minus dividends and payments on short-term and long-term debts and liabilities.

(3) For purposes of carrying out this subsection, the President shall take into account such information as may be available from the United States International Trade Commission and other appropriate sources relating to the modernization efforts of the steel industry.

SEC. 807. DEPARTMENT OF LABOR WORKER ASSISTANCE PLAN.

Within 6 months after the effective date of this title, the Secretary of Labor shall prepare (in consultation with the Steel Advisory Committee established on November 3, 1983, by the Secretary of Commerce and the Secretary of Labor (48 F.R. 51165)) and submit to the Congress a proposed plan of action for assisting workers in communities that are adversely affected by imports of steel products; which assistance shall include retraining and relocation for former workers in the steel industry who will likely be unable to return to employment in that industry. The plan required under this section shall be based upon existing authorities for providing such assistance, but shall be accompanied by such recommendations for additional statutory authority as the Secretary of Labor considers necessary to carry out the purposes of the plan.

SEC. 808. EFFECTIVE DATE.

This title shall take effect on October 1, 1984.

TITLE IX—WINE TRADE

SEC. 901. SHORT TITLE.

This title may be cited as the "Wine Equity and Export Expansion Act of 1984".

SEC. 902. CONGRESSIONAL FINDINGS AND PURPOSES.

(a) Congress finds that—

(1) there is a substantial imbalance in international wine trade resulting, in part, from the relative accessibility enjoyed by foreign wines to the United States market while the United States wine industry faces restrictive tariff and nontariff barriers in virtually every existing or potential foreign market;

(2) the restricted access to foreign markets and the continued low prices for United States wine and grape products adversely affect the economic position of our Nation's winemakers and grape growers, as well as all other domestic sectors that depend upon wine production;

(3) the competitive position of United States wine in international trade has been weakened by foreign trade practices, high domestic interest rates, and unfavorable foreign exchange rates;

(4) wine consumption per capita is very low in many major non-wine producing markets and the demand potential for United States wine is significant; and

(5) The United States winemaking industry has the capacity and the ability to export substantial volumes of wine and an increase in United States wine export will create new jobs, improve this Nation's balance of trade, and otherwise strengthen the national economy.

(b) The purposes of this title are—

(1) to provide wine consumers with the greatest possible choice of wines from wine-producing countries;

(2) to encourage the initiation of an export promotion program to develop, maintain, and expand foreign markets for United States wine; and

(3) to achieve greater access to foreign markets for United States wine and grape products through the reduction or elimination of tariff barriers and nontariff barriers to (or other distortions of) trade in wine.

SEC. 903. DEFINITIONS.

For purposes of this title—

(1) The term "Committees" means the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate.

(2) The term "grape product" means grapes and any product (other than wine) made from grapes, including, but not limited to, raisins and grape juice, whether or not concentrated.

(3) The term "major wine trading country" means any foreign country, or group of foreign countries, designated as such under section 904.

(4) The phrase "nontariff barrier to (or other distortion of)", in the context of trade in United States wine, includes any measure implemented by the government of a major wine trading country that either gives a competitive advantage to the wine industry of that country or restricts the importation of United States wine into that country.

(5) The term "Trade Representative" means the United States Trade Representative.

(6) The term "United States wine" means wine produced within the customs territory of the United States.

(7) The term "wine" means any fermented alcoholic beverage that—

(A) is made from grapes or other fruit;

(B) contains not less than 0.5 percent alcohol by volume and not more than 24 percent alcohol by volume, including all dilutions and mixtures thereof by whatever process produced; and

(C) is for nonindustrial use.

SEC. 904. DESIGNATION OF MAJOR WINE TRADING COUNTRIES.

(a) The Trade Representative shall designate as a major wine trading country each foreign country, or group of foreign countries represented as an economic union, that, in the judgment of the Trade Representative—

(1) is a potential significant market for United States wine; and

(2) maintains tariff barriers on nontariff barriers to (or other distortions of) trade in United States wine.

(b) In deciding, for purposes of subsection (a)(2), whether a foreign country or group of countries maintains nontariff barriers to (or other distortions of) trade in United States wine, the Trade Representative shall take into account—

(1) the review and report required under section 854(a) of the Trade Agreements Act of 1979 (19 U.S.C. 2135 note);

(2) such relevant actions that may have been taken by that country or group since that review was conducted; and

(3) such information as may be submitted under section 906 by representatives of the wine and grape products industries in the United States, as well as other sources.

SEC. 905. ACTIONS TO REDUCE OR ELIMINATE TARIFF AND NONTARIFF BARRIERS AFFECTING UNITED STATES WINE.

(a) The President shall direct the Trade Representative to enter into consultations with each major wine trading country to seek a reduction or elimination of that country's tariff barriers and nontariff barriers to (or other distortions of) trade in United States wine.

(b)(1) the President shall notify each of the Committees regarding the extent and effect of the efforts undertaken since the submission of the report required under section 854(a) of the Trade Agreements Act of 1979, and during the 12-month period beginning on the date of the enactment of this Act, to expand opportunities in each major wine trading country for exports of United States wine. Such notification, which shall be in

the form of a separate written report (that must be submitted within 30 days after the close of that 12-month period) for each major wine trading country, shall include—

(A) a description of each act, policy, and practice (and of its legal basis and operation) in that country that constitutes a tariff barrier or nontariff barrier to (or other distortion of) trade in United States wine (and that description shall be based upon an updating of the report that was submitted to the Congress under section 844(a) of the Trade Agreements Act of 1979);

(B) an assessment of the extent to which each such act, policy, or practice is subject to international agreements to which the United States is a party;

(C) information with respect to any action taken, or proposed to be taken, under existing authority to eliminate or reduce each such act, policy, or practice, including, but not limited to—

(i) any action under the Trade Act of 1974, and

(ii) any negotiation or consultation with any foreign government;

(D) if action referred to in subparagraph (C) was not taken, an explanation of the reasons therefor; and

(E) recommendations to the Congress of any additional legislative authority or other action which the President believes is necessary and appropriate to obtain in elimination or reduction of foreign tariff barriers or nontariff barriers to (or other distortions of) trade in United States wine.

(2) The reports required under paragraph (1) shall be developed and coordinated by the Trade Representative through the interagency trade organization established by section 242(a) of the Trade Expansion Act of 1962.

(c) If the President, after taking into account information and advice received under subsections (a) and (b), section 906 or from other sources, determines that action is appropriate to respond to any act, policy or practice of a major wine trading country constitutes a tariff barrier or nontariff barrier to (or other distortion of) trade in United States wine and—

(1) is inconsistent with the provisions of, or otherwise denies benefits to the United States under, any trade agreement; or

(2) is unjustifiable, unreasonable, or discriminatory and burdens or restricts United States commerce; the President, shall take all appropriate and feasible action under the Trade Act of 1974 to enforce the rights of the United States under any such trade agreement or to obtain the elimination of such act, policy, or practice.

SEC. 906. REQUIRED CONSULTATIONS.

The Trade Representative shall consult with the Committees and with representatives of the wine and grape products industries in the United States—

(1) before identifying tariff barriers and nontariff barriers to (or other distortions of) trade in United States wine and designating major wine trading countries under section 1004;

(2) in developing the reports required under section 1005(b); and

(3) for purposes of determining whether action by the President is appropriate under any provision of the Trade Act of 1974 with respect to any act, policy, or practice referred to in section 1005(b)(1).

SEC. 907. UNITED STATES WINE EXPORT PROMOTION.

In order to develop, maintain, and expand foreign markets for United States wine, the President is encouraged to—

(1) utilize, for the fiscal year ending September 30, 1985, the authority provided under section 135 of the Omnibus Budget Reconciliation Act of 1982 to make available sufficient funds to initiate, in cooperation with nongovernmental trade associations representative of United States wineries, an export promotion program for United States; and

(2) request, for each subsequent fiscal year, an appropriation for such a wine export promotion program that will not be at the expense of any appropriations requested for export promotion programs involving other agriculture commodities.

And the House agree to the same.

BILL FRENZEL,

For consideration of title XI of the House Amendment to the Senate Amendment and sections 255, 302, 304(b)(2), 306(b), 402, and title IX of the Senate Amendment:

From the Committee on Energy and Commerce:

JOHN D. DINGELL,
JAMES J. FLORIO,
JAMES T. BROYHILL,

From the Committee on Foreign Affairs:

DON BONKER,
DAN MICA,
TOBY ROTH,

Managers on the Part of the House.

BOB DOLE,
BOB PACKWOOD,
BILL ROTH,
JOHN DANFORTH,
LLOYD BENTSEN,
SPARK M. MATSUNAGA,

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the amendments of the Senate to the bill (H.R. 3398) to amend the trade laws, authorize the negotiation of trade agreements, extend trade preferences, change the tariff treatment with respect to certain articles and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment to the text of the bill struck out all of the House bill after the enacting clause and inserted a substitute text.

The House amendment struck out all of the Senate amendment after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the House amendment and the Senate amendment. The differences between the Senate amendment, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

SUBJECT: MISCELLANEOUS TARIFF, TRADE, AND CUSTOMS MATTERS

TITLE I—TARIFF SCHEDULES AMENDMENTS

Section 111: Coated textile fabrics

House bill

Provides for the reclassification of textile fabrics and articles, coated, filled or laminated with rubber or plastics (previously covered under part 12 of schedule 7) to part 4C of schedule 3, resulting in increase in duties and imposition of import restraints under the MFA.

Senate bill

Identical to House provision.

Conference agreement

Technical correction (delete "of part 12 headnote" from paragraph (c)).

Section 112: Warp knitting machines

House bill

Provides permanent column 1 duty-free treatment for warp knitting machines and parts thereof entered after June 30, 1983.

Senate bill

Identical in substance to House provision; differences in drafting style.

Conference agreement

The conferees agreed to the Senate provision.

Section 113: Certain gloves

House bill

Provides for the reclassification of certain rubber or plastic work or dress gloves resulting in increases in duties.

Senate bill

Identical in substance to House provision; differences in drafting style.

Conference agreement

The conferees agreed to the Senate provision.

Section 114: Pet toys

House bill

Provides for uniform column 1 duty of 8.5% ad valorem on imported toys for pets, of textile materials, the same rate of duty currently assessed on toys for pets, of rubber or plastics.

Senate bill

Identical to House provision except for typographical error.

Conference agreement

The conferees agreed to the House provision.

Section 115: Water chestnuts and bamboo shoots

House bill

No provision.

Senate bill

Provides for permanent column 1 duty-free treatment for water chestnuts and bamboo shoots retroactive to June 30, 1983.

Conference agreement

The conferees agreed to the Senate provision.

Section 116: Gut for use in manufacture of sterile surgical sutures

House bill

Reduces the column 1 rate of duty for gut imported for use in the manufacture of surgical sutures from 11.2% ad valorem to 5.4% ad valorem. That rate is subsequently reduced in annual stages to 3.5% ad valorem, on January 1, 1987.

Senate bill

Identical in substance to House provision; differences in drafting style.

Conference agreement

The conferees agreed to the Senate provision subject to correction of a typographical error; the reference to item 792.20 should have read "792.22".

Section 117: Orange juice products

House bill

Provides for reclassification of orange juice to delineate between concentrated and nonconcentrated orange juice resulting in increased column 1 duties for concentrated and reconstituted orange juice, effective 15 days after enactment.

Senate bill

Identical in substance except Senate bill is effective March 31, 1985.

Conference agreement

The conferees agreed to the Senate provision with a technical amendment and with an effective date of January 1, 1985.

Section 118: Reimportation of certain articles originally imported duty free

House bill

Modifies item 801.00 of the TSUS to provide for permanent duty-free treatment of articles imported under lease or similar use agreements, if previously imported duty-paid. Effective 15 days after enactment.

Senate bill

Modifies item 801.00 of the TSUS to provide for permanent duty-free treatment of articles exported under lease to a foreign manufacturer reimported into the United States if previously entered duty-free under the Caribbean Basin Economic Recovery Act or the Generalized System of Preferences. The legislation is retroactive to June 1, 1982.

Conference agreement

The conferees agreed to make both amendments to item 801.00.

Section 124: Telecommunications product classification

House bill

No provision.

Senate bill

Revises the provisions of the Tariff Schedules applicable to telecommunications products, without changes in rates of duty, in order to better reflect the state of current technology in such products in the TSUS.

Conference agreement

The conferees agreed to the Senate provision with technical corrections. The conferees agreed to delete subsection (c) concerning modification of Schedule B. However, it is expected that the interagency Committee for Statistical Annotation of Tariff Schedules will modify Schedule B effective January 1, 1985, to make it comparable with the TSUS as modified by this provision, in accordance with the mandate of section 484(e) of the Tariff Act of 1930, as amended.

Section 125: Fresh asparagus

House bill

Provides for a 20% ad valorem reduction in the column 1 rate of duty on certain fresh or chilled asparagus air freighted to the United States and entered between September 15 and November 15 in any year.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision with technical amendments.

Section 126: Chipper knife steel

House bill

Provides permanent column 1 duty-free treatment for imports of chipper knife steel which is not cold formed, effective April 1, 1985.

Senate bill

No provision.

Conference agreement

The conferees agreed to stage in the permanent duty-free treatment over a 2 year period. Effective April 1, 1985 the column 1 rate will be reduced to 2% ad valorem. Effective April 1, 1986 the rate will go to free.

Section 127: Implementation of Customs Convention on Containers, 1972

House bill

Amends the TSUS (item 808.00) and the Tariff Act of 1930 to provide for the duty-free entry of repair parts, accessories and equipment of temporarily admitted containers, thereby bringing the U.S. customs treatment into conformity with the Customs Convention on Containers, 1972, effective upon proclamation by the President.

Senate bill

Identical to House provision except Senate effective date is January 4, 1985.

Conference agreement

The conferees agreed to the House provision.

Section 131: Fresh, chilled, or frozen Brussels sprouts

House bill

Provides for a temporary, reduction of the column 1 rate of duty on certain fresh, chilled, or frozen Brussels sprouts, until December 30, 1987.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 132: Beta-naphthol

House bill

Provides for temporary suspension of column 1 duty until September 30, 1987 on beta-naphthol.

Senate bill

Indentical to House provision except Senate expiration date is December 31, 1986.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 133: 4-Chloro-e-methylphenol

House bill

Extends expired duty suspension on 4-chloro-3-methyphenol entered after June 30, 1984, until September 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an exporation date of December 31, 1987.

Section 134: Tetraamino biphenyl

House bill

Provides for temporary suspension of column 1 duty on 3,3'-diaminobenzidine until September 30, 1988.

Senate bill

Identical to House provision except Senate description is tetraamino biphenyl and expiration date is December 31, 1988.

Conference agreement

The conferees agreed to House provision with expiration date of December 31, 1988.

Section 135: 6-Amino-1-naphthol-3-sulfonic acid

House bill

Provides for temporary suspension of column 1 duty until September 30, 1987 on 6-amino-1-naphthol-3-sulfonic acid.

Senate bill

Identical to House provision except Senate expiration date is December 31, 1986.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 133: DSA

House bill

Provides for temporary suspension of column 1 duty until September 30, 1987 on 2-(4-aminophenyl)-6-methylbenzothiazole-7-sulfonic acid.

Senate bill

Identical to House provision except Senate expiration date is December 21, 1986.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 137: Guanidines

House bill

Provides for temporary suspension of column 1 duty on diphenlyl guanidine and di-ortho-tolyl guanidine until Septemper 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with a technical correction and with an expiration date of December 31, 1987.

Section 138: Certain antibiotics

House bill

Provides for temporary suspension of column 1 duty on (6R,7R)-7-[(R)-2-amino 2-phenylacetamido]-3-methyl-8-oxo-5-thia-1-azabicyclo [4.0] oct-2-ene-2-carboxylic acid desolvate until September 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is December 31, 1986.

Conference agreement

The conferees agreed to House provision with expiration date of December 31, 1987.

Section 139: Acetylsulfaguanidine

House bill

Provides for temporary suspension of column 1 duty until September 30, 1987 on acetylsulfaguanidine.

Senate bill

Identical to House provision except Senate provides "free" instead of "no charge" in column 2 and has an expiration date of December 31, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 140: Fenridazon-potassium

House bill

Provides for temporary suspension of column 1 duty on mixtures of potassium 1-(p-chlorophenyl)-1,4-dihydro-6-methyl-4-oxopyridazine-3-carboxylate ("fenridazon-potassium") and formulation adjuvants until September 30, 1987.

Senate bill

Identical to House provision except Senate provision is not retroactive and expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 141: Uncompounded allyl resins

House bill

Extends expired suspension of duty on uncompounded allyl resins until September 30, 1986.

Senate bill

Identical to House provision except Senate expiration date is December 31, 1986 and effective date is 15 days after enactment while House effective date is September 30, 1984.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 142: Sulfamethazine

House bill

Provides for temporary suspension of column 1 duty until September 30, 1987 on sulfamethazine.

Senate bill

Identical to House provision except Senate expiration date is December 31, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 143: Sulfaguanidine

House bill

Provides for temporary suspension of column 1 duty until September 30, 1987 on sulfamethazine.

Senate bill

Identical to House provision except Senate expiration date is December 31, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 144: Terfenadine

House bill

Provides for temporary suspension of column 1 duty on terfenadine until September 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1986.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 145: Sulfathiazole

House bill

Provides for temporary suspension of column 1 duty until September 30, 1987 on sulfathiazole and repeals subsections 136 (b) and (c) of P.L. 97-446.

Senate bill

Temporary suspension of column 1 duty until December 31, 1986 on sulfathiazole, retroactive to December 31, 1983.

Conference agreement

The conferees agreed to the House Provision with an expiration date of December 31, 1987.

Section 146: Sulfaquinoxaline and sulfanilamide

House bill

Provides for temporary suspension of column 1 duty until September 30, 1987 on sulfaquinoxaline and sulfanilamide.

Senate bill

Identical to House provision except Senate expiration date is December 31, 1987.

Conference agreement

The conferees agreed to the House Provision with an expiration date of December 31, 1987.

Section 147: Dicyclomine hydrochloride and mepenzolate bromide

House bill

Provides for temporary suspension of column 1 duty on mepenzolate bromide and dicyclomine hydrochloride until September 30, 1987.

Senate bill

Identical to House provision except Senate provides separate provisions and Senate expiration date for mepenzolate bromide is December 31, 1987 and for dicyclomine hydrochloride is June 30, 1986.

Conference agreement

The conferees agreed to the House Provision with an expiration date of December 31, 1987.

Section 148: Amiodarone

House bill

Provides for a temporary suspension of the column 1 rate of duty on amiodarone, until September 30, 1987.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House Provision with an expiration date of December 31, 1987.

Section 149: Desipramine hydrochloride

House bill

Provides for temporary suspension of column 1 duty on desipramine hydrochloride until September 30, 1987.

Senate bill

Identical to House provision except expiration date is December 31, 1987.

Conference agreement

The conferees agreed to the Senate provision.

Section 150: Clomiphene citrate

House bill

Provides for temporary suspension of column 1 duty on clomiphene citrate until September 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1986.

Conference agreement

The conferees agreed to the House Provision with an expiration date of December 31, 1987.

Section 151: Yttrium bearing materials and compounds

House bill

Provides for temporary suspension of column 1 duty on yttrium bearing materials and compounds containing by weight more than 19% but lesss than 85% yttrium oxide equivalent until June 30, 1988.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1989.

Conference agreement

The conferees agreed to the House Provision with an expiration date of December 31, 1988.

Section 152: Tartaric acid and chemicals

House bill

Extends suspension of duty until June 30, 1988 on tartaric acid, potassium salts, cream of tartar and sodium tartrate (Rochelle salts).

Senate bill

Identical to House provision except Senate provision does not allow for retroactive treatment back to June 30, 1984.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1988.

Section 153: Certain mixtures of magnesium chloride and magnesium nitrate

House bill

Provides for temporary suspension of column 1 duty on mixtures of 5-chloro-2-methyl-4-isothiazolin-3-one, 2-methyl-4-isothiazolin-3-one, magnesium chloride, and magnesium nitrate until September 30, 1987.

Senate bill

Identical to House provision except Senate provision is not retroactive and expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 154: Nicotine resin complex

House bill

Provides for temporary suspension of column 1 duty on nicotine resin complex until September 30, 1987.

Senate bill

Identical to House provision except Senate has different item number and expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 155: Rifampin

House bill

Provides for temporary suspension of column 1 duty on rifampin until September 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is December 31, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 156: Lactulose

House bill

Provides for temporary suspension of column 1 duty on lactulose until September 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 157: Iron-dextran complex

House bill

Provides for temporary suspension of column 1 duty on iron-dextran complex until September 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 158: Natural graphite

House bill

Extends existing suspension of duty on natural graphite until December 31, 1987.

Senate bill

Identical to House provision except for typographical error.

Conference agreement

The conferees agreed to the House provision.

Section 159: Zinc

House bill

Extends the expired duty suspension on zinc-bearing ores, zinc dross and zinc skimmings, zinc-bearing materials and zinc waste and scrap, entered after June 30, 1984, until June 30, 1989.

Senate bill

Identical to House provision.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1989.

Section 160: Certain diamond tool blanks

House bill

Provides for a temporary suspension of the column 1 rate of duty for tool blanks and drill blanks, wholly or in chief value of industrial diamonds until September 30, 1987.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 161: Clock radios

House bill

Extends expired duty suspension on clock radios until September 30, 1986.

Senate bill

Identical to House provision except Senate expiration date is December 31, 1985, and Senate effective date is 15 days after date of enactment, while House date is September 30, 1984.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1986.

Section 162: Lace-braiding machines

House bill

Provides for temporary suspension of column 1 duty on decorative lace-braiding machines using the Jacquard system and parts thereof until September 30, 1987.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 163: Certain magnetron tubes

House bill

Provides temporary suspension of column 1 duty on magnetron tubes with an operating frequency of 2.450 GHz and a mimimum power of at least 300 watts and a maximum power not greater than 2,000 watts until December 31, 1986.

Senate bill

Identical to House provision except for typographical error.

Conference agreement

The conferees agreed to the House provision.

Section 164: Narrow fabric looms

House bill

Provides for temporary suspension of column 1 duty on narrow fabric looms until September 30, 1987.

Senate bill

Identical in substance to House provision except Senate expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 165: Umbrella frames

House bill

Provides for a temporary suspension of the column 1 rate of duty on frames for hand-held umbrellas chiefly used for protection against rain, until September 30, 1985.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the Senate provision with expiration date of December 31, 1986.

Section 166: Crude feathers and down

House bill

Extends expired duty suspension applicable to crude feathers and down from June 30, 1984 to June 30, 1987.

Senate bill

Identical in substance to House provision; differences in drafting style.

Conference agreement

The conferees agreed to the House provision with technical amendments and expiration date of December 31, 1987.

Section 167: Canned corned beef

House bill

Provides temporary reduction of column 1 duty to 3% ad valorem for canned corned beef entered after October 30, 1983, until October 29, 1989.

Senate bill

Identical except for typographical error and expiration date of December 31, 1989.

Conference agreement

The conferees agreed to the Senate provision with the typographical correction.

Section 168: Hovercraft skirts

House bill

Extends the expired duty suspension on textile fabrics for hovercraft skirts entered after June 30, 1983, until June 30, 1986.

Senate bill

Identical to House provision except for technical amendment.

Conference agreement

The conferees agreed to the Senate provision with an expiration date of December 31, 1987.

Section 169: Disposable surgical drapes and sterile gowns

House bill

Equalizes the rates of duty between certain paper products and nonwoven man-made fiber articles by temporarily reducing the duty on bonded fiber fabric disposable sterile gowns of man-made fibers and boned fiber fabric disposable surgical drapes of man-made fibers, until January 1, 1989.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

Section 170: MXDA

House bill

Provides for temporary suspension of column 1 duty on m-xylenediamine (MXDA) and 1,3-bis[aminomethyl]cyclohexane (1,3-BAC), until June 30, 1986.

Senate bill

Identical to House provision except for item number for MXDA and Senate expiration date of June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 171: 4,4'-Bis(alpha,alpha-dimethylbenzyl)diphenylamine

House bill

Provides for temporary suspension of column 1 duty on 4,4'-bis(alpha, alpha-dimethylbenzyl)diphenylamine, until June 30, 1987.

Senate bill

Identical to House provision except for item number and Senate expiration date of June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 172: Flecainide acetate

House bill

Provides for temporary suspension of column 1 duty on flecainide acetate, until June 30, 1986.

Senate bill

Identical to House provision except Senate expiration date is June 30, 1987.

Conference agreement

The conferees agreed to the House provision with an expiration date of December 31, 1987.

Section 173: Caffeine

House bill

Extends expired reduction of column 1 duty to 4.1% ad valorem for caffeine entered after December 31, 1983, until December 31, 1985.

Senate bill

Identical in substance to House provision; differences in drafting style.

Conference agreement

The conferees agreed to the House provision with technical amendments and expiration date of December 31, 1987.

Section 174: Watch crystals

House bill

Provides for temporary reduction of column 1 and LDDC rates of duty on watch glasses other than round watch glasses (watch crystals) for a three year period. Provides for a staged rate reduction from 6.2% ad valorem upon enactment to 5.2% ad valorem on January 1, 1986.

Senate bill

Substantially identical to House except Senate provides for column 1 duty rate of 5.2% by January 1, 1987.

Conference agreement

The conferees agreed to the House provision with technical amendments and with an expiration date of December 31, 1987.

Section 175: Unwrought lead

House bill

Extends expired temporary suspension of duty on unwrought lead entered after June 30, 1983, until June 30, 1986.

Senate bill

Identical to House provision except P.L. 96-609 expiration date is July 1, 1986 instead of July 1, 1988.

Conference agreement

The conferees agreed to the House provisions with an expiration date of December 31, 1988.

Section 176: Flat knitting machines

House bill

Extends the expired duty suspension on power-driven flat knitting machines entered after June 30, 1983, until June 30, 1988, and provides such duty-free treatment for parts of such machines.

Senate bill

Identical in substance to House provision; differences in drafting style.

Conference agreement

The conferees agreed to the House provision with technical amendments and expiration date of December 31, 1988.

Section 177: Certain menthol feedstocks

House bill

No provision.

Senate bill

Provides for temporary suspension of column 1 duty on certain menthol feedstocks, i.e., mixtures containing not less than 90% by weight of stereoisomers, of 2-iso-propyl-5-methylcyclohexanol, but containing not more than 30% by weight of any one such stereoisomer, until June 30, 1987.

Conference agreement

The conferees agreed to the Senate provision, subject to the correction of technical errors. The expiration date was changed to December 31, 1987.

Section 178: 2-Methyl-4-chlorophenol

House bill

No provision.

Senate bill

Provides for temporary suspension of column 1 duty on 2-methyl-4-chlorophenol until December 31, 1987.

Conference agreement

The conferees agreed to the Senate provision with a technical correction.

Section 179: Unwrought alloys of cobalt

House bill

No provision.

Senate bill

Extends expired suspension of duty on unwrought alloys of cobalt entered after June 30, 1983, until June 30, 1985.

Conference agreement

The conferees agreed to the Senate provision with an expiration date of December 31, 1987.

Section 180: Circular knitting machines

House bill

No provision.

Senate bill

Provides for temporary suspension of column 1 duty until December 31, 1989 on certain circular knitting machines, i.e., cylinder and dial machines designed for sweater strip or garment length knitting and double cylinder machines for sweater strip or garment length knitting.

Conference agreement

The conferees agreed to the Senate provision with technical amendments.

Section 181: o-Benzyl-p-chlorophenol

House bill

No provision.

Senate bill

Provides for temporary suspension of column 1 duty on o-benzyl-p-chlorophenol until December 31, 1987.

Conference agreement

The conferees agreed to the Senate provision.

Section 182: Certain benzenoid chemicals

House bill

No provision.

Senate bill

Provides for temporary suspension of duty until June 30, 1986 on trichlorosalicylic acid, m-aminophenol, 6-amino-1-naphthol-3-sulfonic acid and 4-acetaminobenzenesufonyl chloride.

Conference agreement

The conferees agreed to the Senate provision with technical corrections. The expiration date was changed to December 31, 1987.

Section 183: M-Toluic acid

House bill

No provision.

Senate bill

Extends permanent column 1 duty-free treatment to meta-toluic acid, a chemical used to manufacture certain insect repelants.

Conference agreement

The conferees agreed to suspend the column 1 rate of duty on meta-toluic acid until December 31, 1987.

Section 191(a)-(d): Technical and conforming amendments

House bill

Make a nunber of retroactive amendments to the TSUS to correct purely technical errors in the schedules.

Senate bill

No provision.

Conference agreement

The Conferees agreed to the House provision.

Section 191(e): Technical amendment

House bill

No provision.

Senate bill

Technical amendment to General Headnote 3(a)(i) correcting a cross-reference error.

Conference agreement

The Conferees agreed to the Senate provision, subject to correction of a typographical error.

Section: Apple and pear juice

House bill

Amends the Tariff Schedules of the United States to impose a column 1 rate of duty of 0.1 cent per gallon on imports of apple or pear juice.

Senate bill

No provision.

Conference agreement

The conferees agreed to delete the provision.

Section: Classification of certain cordage

House bill

Amends the Tariff Schedules of the United States to establish equal duty rates for various cordage products of virtually identical characteristics. The amendment would modify the definitions of "plexiform filaments" and "strips" resulting in certain cordage products which are currently classified as articles of rubber or plastics in schedule 7 of the TSUS being classified as textile products in schedule 3 at substantially higher rates of duty and subjecting such products to textile restraints and under the MFA.

Senate bill

No provision.

Conference agreement

The conferees agreed to delete the provision.

Section: Ferroalloys

House bill

No provision.

Senate bill

Provides duty increase for ferroalloys. The duty increase is in the amount of the "fair price differential" between the price of the imported product and the comparable domestic product. The "fair price", is to be determined annually by the Secretary of Commerce.

Conference agreement

The conferees agreed to delete the provision.

Section: Melamine

House bill

No provision.

Senate bill

Provides for temporary column 1 duty increase on melamine of additional 5.1% ad valorem, increased to 5.3% ad valorem effec-

tive on or after January 1, 1986, and on or before December 31, 1986.

Conference agreement

The conferees agreed to delete the provision.

Section: Classification of naphtha

House bill

Provides for reclassification of naphthas derived from petroleum, shale oil, natural gas, or combinations thereof (to equalize the tariff treatment of naphthas currently provided for as petroleum products and those classified as benzenoid chemicals) at the lower petroleum product rates of duty. Addition of new provision for "motor fuel blending stock" at motor fuel rates of duty resulting in a further reduction of duty for certain benzenoid chemicals.

Senate bill

Amends TSUS to add of tariff-rate quota of 190,000,000 pounds per year for naphthas derived from petroleum, shale oil, natural gas, or combinations thereof, containing by weight over 5 percent of benzenoid products, provided for in TSUS item 407.16, at below quota rates of 0.25 cent per gallon (col. 1) and 0.5 cent per gallon (col. 2).

Conference agreement

The conferees agreed to delete the provision. Both bills contained provisions relating to the tariff classification and treatment of naphtha products. In addition, the House bill would have created a new tariff item for "motor fuel blending stock."

Due to the unusual complexity of the products involved, the conferees determined that neither provision would accomplish the purposes intended by the respective Houses. The conferees therefore concluded that the Committee on Finance and the Committee on Ways and Means would request the International Trade Commission to conduct a study of the tariff classification and treatment of the entire range of products potentially affected by a reclassification of any naphtha, benzenoid chemical, or motor fuel blending stock. The Congress will better be able to address the proper method of classification after such a study is completed. Further, the study may shed particular light on the difficulties which gave rise to the motor fuel blending provision in the House bill. A significant amount of trade had developed recently with regard to these products, which has now then been cast into doubt by a reclassification decision by the Customs Service. That decision is now being reviewed, and the decision of the conferees to deter consideration of this matter should not be interpreted to reflect on this proceeding in any way.

Section: Photograph albums

House bill

No provision.

Senate bill

Provides for temporary duty increase for photograph albums to 35% ad valorem, until December 31, 1985.

Conference agreement

The conferees agreed to delete the provision.

Section: Plywood

House bill

Amends the Tariff Schedules of the United States to ensure that imports of cellular panels and tongued, grooved, lapped, or otherwise edge-worked plywood and wood-veneer panels are classified under the tariff provisions for those three products, rather than as building boards. This will result in an increase in the applicable column 1 rates of duty of about 10% ad valorem.

Senate bill

No provision.

Conference agreement

The conferees agreed to delete the provision.

Section: Certain parts for spindle motors

House bill

No provision.

Senate bill

Provides for temporary suspension of column 1 duty on parts designed for use exclusively in permanent magnet, brushless, electronically commutated, direct current, computer memory disk drive spindle motors of less than one-tenth horsepower until December 31, 1985.

Conference agreement

The conferees agreed to delete the provision.

TITLE II—CUSTOMS AND MISCELLANEOUS AMENDMENTS

Section 202(1)(B)(3): Drawback

House bill

Amends section 313(j) of the Tariff Act of 1930 to provide drawback if the same person requesting drawback, subsequent to important and within three years of importation of the merchandise, exports from the United States or destroys under Customs supervision fungible merchandise (whether imported or domestic) which is commercially identical to the merchandise imported.

Senate bill

Substantially the same as the House bill. The Senate bill specifically references the aggregation of imported and domestic merchandise. The House bill specifically states that the substitute merchandise must be in the same condition as the imported merchandise.

Conference agreement

The conferees agreed to the House provision.

Section 202(1)(B)(4): Drawback

House bill

Amends section 313(j) of the Tariff Act of 1930 to provide drawback for packaging materials used to perform incidental operations regarding packaging or repacking of imported merchandise.

Senate bill

Provides drawback for all packaging materials imported for packaging or repackaging imported merchandise.

Conference agreement

The conferees agreed to the Senate provision.

Section 202(2)(3): Drawback

House bill

No provision.

Senate bill

Amends section 313 of the Tariff Act of 1930 to provide that any domestic merchandise acquired in exchange for imported merchandise of the same kind and quality shall be treated as the use of such imported merchandise for drawback purposes under subsections (a) and (b) if no certificate of delivery is issued with respect to such imported merchandise.

Conference agreement

The conferees agreed to the Senate provision.

Section 204: Virgin Islands excursion vessels

House bill

Amends section 441(3) of the Tariff Act of 1930 to exempt from entry requirements of the customs laws certain vessels carrying passengers from the U.S. Virgin Islands to the British Virgin Islands and returning.

Senate bill

Identical in substance; differences in drafting style.

Conference agreement

The conferees agreed to the Senate provision.

Section 206: Increase in amount for informal entry of goods

House bill

Amends section 498 of the Tariff Act of 1930 to increase the allowance for informal entry from $250 to $1,250, excluding goods classified in schedule 3 of the TSUS, certain parts of schedule 7, and parts 2 and 3 of the Appendix.

Senate bill

Identical to House provision, except the Senate increased amount is $1,000.

Conference agreement

The conferees agreed to the House provision. Although the conferees adopted the $1,250 limit with respect to informal entries, we understand that the Customs Service intends, by regulation, to set the limit at $1,000. This provision gives Customs additional flexibility to modify the limit as circumstances change in the future.

Section 207: Certain country of origin marking requirements

House bill

No provision.

Senate bill

Amends section 304 of the Tariff Act of 1930 to require permanent marking of imported pipe, pipe fittings, compressed gas cylinders, and manhole rings or frames, covers, and assemblies thereof, to show the country of origin.

Conference agreement

The conferees agreed to the Senate provision.

Section 208: Equipments and repairs of certain vessels exempt from duties

House bill

Amends section 466(e) of the Tariff Act of 1930 to exempt any U.S. flag vessel that is away from a U.S. port for at least two years from the 50% ad valorem duty on repairs and equipment purchases, provided the repairs or equipment purchases were not made within 6 months of departure from a U.S. port and the vessel did not depart from a U.S. port for the purpose of obtaining overseas repairs.

Senate bill

Identical in substance: differences in drafting style.

Conference agreement

The conferees agreed to the Senate provision.

Section 209: Articles returned from space

House bill

No provision.

Senate bill

Provides that return of certain articles from space shall not be considered an importation and customs entry of such articles shall not be required.

Conference agreement

The conferees agreed to the Senate provision with technical corrections.

Section 211: Operation of certain duty-free sales enterprises

House bill

Permits State and local government authorities having jurisdiction over airports or other exit points to require that operators of duty-free sales enterprises in such locations obtain concessions or approval before beginning business.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

Section 212: Customs brokers

House bill

Makes comprehensive changes to the Tariff Act of 1930 with respect to the licensing of customs brokers. The legislation defines the term "customs business" and restricts the scope of Customs' review of customs brokers to such customs business. It also specifies that only licensed brokers may conduct customs business for third parties; sets forth licensing and permit procedures; establishes a duty for customs brokers to exercise responsibility and control over their customs business; and provides disciplinary proceedings, including monetary penalties and revocation or suspension of licenses or permits.

Senate bill

Substantially identical to House provision, except that House bill contains an exception to the requirement that each broker have at least one licensed customs broker in each customs district in which he operates, and the House bill contains a 180 day grace period with respect to this requirement while the Senate period is 120 days.

Conference agreement

The conferees agreed to the House provision.

Section 231: Foreign trade zone provisions

House bill

Amends the Foreign Trade Zones Act of 1934 to exempt bicycle component parts, not to be exported, from the exemption from the customs laws available to merchandise in foreign trade zones.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

Section 232: Denial of deduction for certain foreign advertising expenses

House bill

No provision.

Senate bill

Provides for a denial of a business expense tax deduction for expenses of an advertisement carried by a foreign broadcasting undertaking directed to the U.S. market if the country denies a similar deduction for the cost of advertising in the United States.

Conference agreement

The conferees agreed to the Senate provision.

Section 233: Certain relics and curios

House bill

No provision.

Senate bill

Amends section 925 of title 18, United States Code, to authorize the importation by a licensed importer, of all rifles and shotguns listed as curios or relics pursuant to section 921(a)(13) and all handguns listed as curios or relics, provided that such handguns are generally recognized as particularly suitable for or readily adaptable to sporting purposes.

Conference agreement

The conferees agreed to the Senate provision.

Section 234: Modification of duties on certain articles used in civil aviation

House bill

Provides the President with the authority to proclaim modifications to a number of enumerated items in the Tariff Schedules of the United States in order to provide duty-free coverage comparable to the expanded coverage provided by all other signatories to the GATT Agreement on Trade in Civil Aircraft, as recently modified.

Senate bill

Identical, except that the House bill references the GATT Aircraft Committee decision of 3/22/84.

Conference agreement

The conferees agreed to the House provision.

Section 235: Products of Caribbean Basin countries entered in Puerto Rico

House bill

No provision.

Senate bill

This provision would allow products of a beneficiary country under the Caribbean Basin Economic Recovery Act (CBERA) to enter Puerto Rico under bond for manufacture and later to be withdrawn for consumption free of duty if the products otherwise are entitled to enter duty-free under the CBERA, notwithstanding the fact that the products are not being imported directly from a beneficiary country.

Conference agreement

The conferees agreed to the Senate provision.

Section 236: User fee for customs services at certain small airports

House bill

No provision.

Senate bill

Provides for customs services at certain small airports and authority to the Secretary of the Treasury to charge a user fee for such services.

Conference agreement

The conferees agreed to the Senate provision.

Section 237: Notification of certain actions by the United States Customs Service

House bill

No provision.

Senate bill

Provides for notification of the Congress 180 days before any significant reorganization of the U.S. Customs Service.

Conference agreement

The conferees agreed to a restricted version of the Senate provision. The notification period was cut back to 90 days and the provision was limited to major field reorganizations or consolidations significantly affecting district, regional or border offices. Any more restrictive language in an appropriation bill would be superseded.

Section 238: Columbia-Snake customs district

House bill

Requires the Commissioner of Customs to establish a customs district in the Pacific Northwest to be called the "Columbia-Snake Customs District".

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

Section 239: Reliquidation of certain mass spectrometer systems

House bill

No provision.

Senate bill

Provides for the Secretary of the Treasury to reliquidate the entry of two mass spectrometer systems imported into the United States for the use of Montana State University, Bozeman, Montana.

Conference agreement

The conferees agreed to the Senate provision.

Section 240: Max Planck Institute for Radioastronomy

House bill

Provides the Secretary of the Treasury with authorization to admit free of duty any instrument or apparatus provided by the Max Planck Institute for Radioastronomy of the Federal Republic of Germany to the joint astronomical project, being undertaken by the Steward Observatory of the University of Arizona and the Max Planck Institute, for the construction, installation, and operation of a sub-mm telescope in Arizona.

Senate bill

Substantially the same. However, the Senate bill excludes instruments or apparatus if instruments or apparatus of equivalent scientific value are being manufactured in the United States. The Senate bill also specifies administrative requirements which are prerequisites to obtaining duty-free entry for the instruments and apparatus in question.

Conference agreement

The conferees agreed to the Senate provision.

Section 241: Duty-free entry for research equipment for North Dakota State University, Fargo, North Dakota

House bill

No provision.

Senate bill

Provides duty-free entry for research equipment imported for use by the Cereal Chemistry and Technology Department of North Dakota State University, Fargo, North Dakota, entered on September 15, 1983.

Conference agreement

The conferees agreed to the Senate provision.

Section 244: Duty-free entry of organs imported for the use of Trinity Cathedral of Cleveland, Ohio

House bill

Provides for the retroactive duty-free entry of pipe organs manufactured in the Netherlands, and imported for the use of

Trinity Cathedral of Cleveland, Ohio, during 1973–1978.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

Section 245: Sense of Congress regarding possible EEC action on corn gluten

House bill

Expresses the sense of the Congress that the President should continue to oppose firmly the imposition by the European Community (EC) of any restrictions of EC imports of nongrain feed ingredients, including corn gluten, and should support the current duty-free binding on such products. The section would also express the sense of Congress that the President should continue to oppose rigorously any EC proposals which would violate the intent of the existing duty-free binding in the GATT on soybeans and soybeans products, and reaffirm the U.S. conviction that imposition of a consumption tax on vegetable fats and oils by the EC would represent a restraint of trade.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

Section 246: Study on honey imports

House bill

No provision.

Senate bill

Expresses the sense of Congress that the Secretary of Agriculture should request the President to call for a United States International Trade Commission investigation into honey imports under section 22 of the Agricultural Adjustment Act.

Conference agreement

The conferees agreed to modify the provision to express the sense of the Senate only.

Section : Elimination of sureties on customs bonds

House bill

Provides that both the House Committee on Ways and Means and the Senate Finance Committee be informed 90 calendar days of continuous session of Congress before the Customs Service publishes a final rule revising any existing requirement for sureties on customs bonds (by way of submission of the rule and a report to the Committees).

Senate bill

No provision.

Conference agreement

The conferees deleted the provision.

Subject: Controlled Substances Provisions (Section 211 of House Bill)

Present law

Presently, there are three principal forfeiture statutes used against illegal drug activity. They are "in rem" proceedings under civil forfeiture as provided in 21 U.S.C. 881, and in "personam" proceedings under criminal forfeiture in the Continuing Criminal Enterprise Statute (21 U.S.C. 848) and the Racketeer Influenced Corrupt Organization Statute (18 U.S.C. 1963).

House bill

The House bill would send title 21 of the United States Code in order to substantially increase the maximum for drug offenses, provide the sanction of criminal forfeiture for all felony drug offenses and facilitate procedures for both civil and criminal forfeitures.

Senate bill

No provision.

Conference agreement

House recedes.

Subject: Customs Seizures and Forfeitures (Section 212 of House Bill)

[Section 212 of the Bill Contains a Number of Amendments to the Tariff Act of 1930 Relating to Customs Seizure and Forfeiture. These Provisions were Passed Earlier by the House as Title II of H.R. 4901, the Comprehensive Drug Penalty Act]

1. "Aircraft" Additions

Present law

Although not specifically mentioned, aircraft are subject to forfeiture provisions of the Tariff Act pursuant to 49 U.S.C. 1509 and Customs regulations.

House bill

Amends sections 602, 605, 606, and 607 of the Tariff Act to expressly include "aircraft" in the coverage of these sections.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

2. Availability of Administrative Forfeitures

Present law

Section 607 provides for administrative rather than judicial forfeiture proceedings if the value of the vessel, vehicle, merchandise or baggage does not exceed $10,000, or if merchandise is prohibited. Notice of the seizure and intent to forfeit must be published for 3 successive weeks.

House bill

Raises the value of property which can be administratively forfeited to $100,000. However, for prohibited merchandise and conveyance, including aircraft, used to import, export or otherwise transport controlled substances, there would be no limit. Notice requirement is expanded to require written notice and description of procedures be sent to interested parties.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

3. Bond Requirement for Judicial Forfeiture

Present law

Section 608 allows any person claiming an interest in a seized vessel, vehicle, merchandise or baggage to judicially contest any forfeiture by filing a claim and giving a bond in the amount of $250.

House bill

Raises the amount of the bond which must be posted to judicially contest a forfeiture to $2500 or 10 percent of the value of the claimed property, whichever is lower, but not less than $250.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

4. Deposit of Proceeds in Customs Forfeiture Fund

Present law

Section 609 provides that if no claim is filed or bond given within twenty days, the seized property may be sold at public auction and the proceeds (less expenses) deposited in the U.S. Treasury.

House bill

During the period beginning on the date of enactment and ending September 30, 1987, all proceeds of sale (after deducting expenses) be deposited in the Customs Forfeiture fund.

Senate bill

No Provision.

Conference agreement

The conferees agreed to the House provision.

5. Judicial Forfeiture

Present law

Section 610 specifies procedure for Customs to follow for judicial forfeiture if the value of the seized vessel, vehicle, merchandise or baggage is greater than $10,000.

House bill

Makes conforming changes to provide for judicial forfeiture procedures "IF any vessel, vehicle, *aircraft*, merchandise, or baggage is not subject to section 607 of this Act" (i.e., the value of the article is greater than $100,000 and was not a conveyance used to import, export, transport or store any controlled substance).

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

6. Explicit Reference to Aircraft

Present law

Although not specifically mentioned, aircraft are subject to forfeiture provisions of the Tariff Act, pursuant to 49 U.S.C. 1509 and Customs regulations.

House bill

Amends section 611 of the Tariff Act to expressly include "aircraft" in the coverage of the section.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

7. Summary Sale

Present law

Section 612 authorizes Customs to sell at auction any seized vessel, vehicle, merchandise or baggage if it is "liable to perish or to waste or to be greatly reduced in value by keeping or if the expense in keeping it will be disproportionate to the value thereof." If the value of the article exceeds $10,000, Customs must petition the Court to obtain permission to sell at auction.

House bill

Makes explicit reference to aircraft and makes conforming changes so that judicial approval of a sale at auction of the seized article is required "if the article is not subject to section 607 of this Act". Also adds a new subsection providing: "(b) if the expense of keeping the vessel, vehicle, aircraft, merchandise or baggage is disproportionate to the value thereof, and such value is less than $1,000, such officer may proceed forthwith to order, destruction or other appropriate disposition of such property under regu-

lations prescribed by the Secretary of the Treasury.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

8. Disposition of Proceeds of Forfeited Property

Present law

Section 613(a) allows for persons claiming an interest in forfeited property which has been sold to apply for a remission of the forfeiture and restoration of proceeds of such sale. It also provides for the proceeds of sale after payment of designated expenses of forfeiture and sale and satisfaction of liens to be deposited with the U.S. Treasury as a Customs or navigation fine.

House bill

Makes explicit reference to "aircraft" and other conforming changes. Also provides that the proceeds of sale would be deposited in the general fund of the U.S. Treasury.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

9. Customs Forfeiture Fund

Present law

There is currently no provision for a Customs Forfeiture Fund. The proceeds of sale of forfeited property are disposed of in accordance with section 613 described above. Under that section the costs in handling each seizure are deducted from the proceeds of that seizure, if any. The resulting "net proceeds" are then transferred to the general fund in the U.S. Treasury. But if the proceeds do not exceed the expenses, the agency must cover the expenses out of its regular budget.

House bill

Adds a new section 613A establishing a Customs Forfeiture Fund in the U.S. Treasury, to be available to the U.S. Customs Service, subject to appropriation, during the period from date of enactment until September 30, 1987, with respect to Customs' seizures and forfeitures under any law enforced or administered by it for the payment of—

(1) certain expenses of forfeiture and sale;

(2) payment of awards of compensation to informers under section 619.

(a) liens for freight, charges and contributions in general average, notice of which has been filed with the appropriate Customs officer according to the law; and

(b) other liens against forfeited property;

(4) payment of amounts authorized by law with respect to remission and mitigation;

(5) payment for equipping for law enforcement functions of forfeited vessels, vehicles, and aircraft retained as provided by law for official use by the U.S. Customs Service;

(6) claims of parties in interest to property disposed of under section 612(b) of this Act, in the amounts applicable to such claims at the time of seizure.

The fund would also be available for the purchases of evidence of violations of specified criminal Acts.

All proceeds from forfeitures would be deposited in the fund (after reimbusement of expenses under section 524 of this Act) during the period from date of enactment to September 30, 1987. Unneeded funds are to be invested and reports to the Congress of receipts and expenditures are required within four months of the close of the fiscal year. Appropriations from the fund are limited to $10 million for each fiscal year. At the end of each fiscal year any amount in the fund in excess of $10 million will be deposited in the general fund and at the end of fiscal year 1987, the fund will be terminated and all excess funds deposited in the general fund of the U.S. Treasury.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

10. Explicit Reference to Aircraft

Present law

Although not specifically mentioned, aircraft are subject to forfeiture provisions of the Tariff Act, pursuant to 49 U.S.C. 1509 and Customs regulations.

House bill

Amends section 614 and 615 to expressly include "aircraft" in the coverage of those sections.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

11. Transfer of Forfeited Property

Present law

Under current law, no authority exists for the Federal Government to discontinue Federal forfeiture proceedings where state or local forfeiture proceedings are being considered.

House bill

A new section 616 entitled "Transfer of Forfeited Property" provides that the Secretary of the Treasury may discontinue forfeiture proceedings under the Act in favor of forfeiture under state law after the proper filing of complaints by the Attorney General, and the United States shall not be liable for property forfeited under the Act to any State or local law enforcement agency which participated directly in the seizure or forfeiture.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

12. Award of Compensation to Informers

Present law

Section 619 provides for an award of compensation to informers of 25 percent of the net amount recovered but not to exceed $50,000.

House bill

Raises the maximum level of compensation which can be paid to informers to $250,000, but it is still limited to 25 percent of the net proceeds and makes explicit reference to "aircraft."

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

13. Explicit Reference to Aircraft

Present law

Although not specifically mentioned, aircraft are subject to forfeiture provision of Tariff Act, pursuant to 49 U.S.C. 1509 and Customs regulations.

House bill

Amends section 618 to expressly include "aircraft" in the coverage of the sections.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

14. Enforcement Authority of Customs Officers

Present law

Present Customs authority is limited to arrests with a warrant for any Federal offense and warrantless arrests for narcotics, marijuana (26 USC 7606), for navigation, seizure and revenue offenses (19 USC 1581) and a variety of conservation, wildlife and pollution laws. They do have the authority to carry a firearm and to execute and serve any warrant, order, subpoena, etc., issued under the authority of the United States (26 USC 7607).

House bill

Creates a new section 589 which increases the authority of Customs officers to make arrests without a warrant for those offenses against the United States committed in his presence and for those felonies which the officer has reasonable grounds to believe are or have been committed and to perform other law enforcement duties designated by the Secretary of the Treasury.

Senate bill

No provision.

Conference agreement

The conferees agreed to the House provision.

SUBJECT: AMENDMENTS RELATING TO SECTIONS 201-203 OF THE TRADE ACT OF 1974 (IMPORT RELIEF)

(Sections 252, 258 and 309 of the Senate Bill)

1. Amendments to section 201 (sec. 252 of Senate bill)

1.*a. Serious injury criteria*

Present law

In judging the existence of serious injury, the International Trade Commission (ITC) considers relevant economic factors, including (but not limited to) idling of productive facilities, inability of firms to operate profitably, and unemployment in the industry.

House bill

No provision

Senate bill

Would add to the economic factors to be considered "any significant increase in the volume or share of total imports attributable to domestic producers in the industry."

Conference agreement

Senate recedes.

1. b. Threat of serious criteria

Present law

In judging the existence of a threat of serious injury, the ITC considers relevant economic factors, including (but not limited to) a decline in sales, higher and growing inventory, and a downward trend in production, profits, wages or employment in the industry.

House bill

No provision.

Senate bill

Would add to the economic factors to be considerd by clarifying that a decline in sales is to be measured in terms of articles

that are like or directly competitive with the imported article, that a higher or growing imventory may exist whether maintained by domestic producers, importers or retailers, and by adding new criteria: an upward trend in imports or sales for importation and an upward trend in the volume or share of total imports attributable to domestic producers.

Conference agreement

House recedes with an amendment deleting sections 2(b) (i), (iii), (iv), and (v), and adding the word "wholesale" after "importers" in section 2(b)(ii).

1.c. Substantial cause criteria

Present law

In judging substantial cause, the ITC considers relevant economic factors, including (but not limited to) an increase in imports and a decline in the proportion of the domestic market supplied by domestic producers.

House bill

No provision.

Senate bill

Would clarify that increasing imports are a factor in judging substantial cause regardless of whether imports are attributable to domestic producers in the industry.

Conference agreement

Senate recedes.

1.d. Role of imports in defining industry

Present law

In determining the domestic industry producing a like article, the ITC may exclude imports by a domestic producer.

House bill

No provision.

Senate bill

Would require that the Commission exclude imports by a domestic producer in determining the domestic industry.

Conference agreement

Senate recedes.

1.f. Definition of relevant economic factors

Present law

In making its injury determination, the ITC is required to take into account all economic factors which it considers relevant.

House bill

No provision.

Senate bill

Would preclude the ITC from considering any of the following factors in judging injury although they could be considered by the Commission in recommending relief and by the President in acting on that recommendation:

1. Effectiveness of relief, efforts to adjust to import, and other considerations relative to the position of the industry in the nation's economy.

2. Effect of import relief on consumers and on domestic competition.

3. Effect of import relief on U.S. international economic interests.

4. Effect on U.S. industries of compensation obligations incurred by grantng relief.

Conference agreement

Senate recedes.

1.g. Role of profits in injury finding

Present law

The Commission may find that imports are a substantial cause of serious injury or threat thereof based, *inter alia*, on the profitability (or absence thereof) of domestic firms.

House bill

No provision.

Senate bill

Would specify that the fact that the domestic industry is profitable does not preclude an injury finding.

Conference agreement

House recede with amendment specifying that the presence or absence of any factor listed in section (201)(b)(2) is not dispositive of injury.

1.h. Probative significance of "captive imports"

Present law

The ITC may treat imports by domestic producers as evidence of the adjustment to competition which is encouraged by the statute.

House bill

No provision.

Senate bill

Would require the ITC to treat imports by domestic producers as one factor in judging injury rather than as evidence of adjustment.

Conference agreement

Senate recedes.

1.i. Role of plant closings

Present law

The Commission is not required to consider plant closings in its analysis.

House bill

No provision.

Senate bill

Would require the Commission to take account of the effect of plant closings on production, employment, capacity, capacity utilization, or domestic profits.

Conference agreement

Senate recedes.

The Senate approved amendments to section 201 of the Trade Act in response to the decision of the International Trade Commission in the non-rubber footwear case. These amendments reflected Senate dissatisfaction with the ITC's interpretation of section 201 in the nonrubber footwear case. The Senate amendments were intended to clarify congressional intent by elaborating on the language of section 201.

This amendment is intended to make clear that the presence or absence of any one factor shall not necessarily provide decisive guidance to the Commission in its determination of serious injury. It is possible, for example, that the surviving firms in an industry will be profitable, even though large numbers of firms within the industry have closed and large numbers of workers have lost their jobs. Accordingly, the Commission should not treat the industry's profit data as dispositive, but should go on to give careful consideration to the plant closings and employment trends in assessing the condition of the industry.

The Managers also believe that the Commission should, wherever possible, exclude profits derived from captive imports from the operations of the domestic industry. Profits from captive imports do not necessarily reflect the condition of production operations in the United States. Indeed, the decision of domestic producers to turn to forcing outsourcing may result in a loss of jobs and consequently have an adverse impact on employment or underemployment under subsections (b)(2)(A) and (b)(2)(B).

2. Analysis of Economic impact of Import Restrictions Recommended under Section 201(d) (sec. 258 of Senate bill)

Present law

No provision.

House bill

No provision.

Senate bill

Would require the ITC report submitted to the President pursuant to section 201(d) to be submitted to the Council of Economic Adviser (CEA); would require the CEA to submit to the President and Congress within 30 days a report analyzing effect of ITC recommendations on prices, on revenues, on employment in the industry seeking protection, on consumers and on other industries, on the the U.S. balance of payments and on U.S. competitiveness.

Conference agreement

Senate recedes.

3. Disapproval of Presidential Determinations under Section 203 of the Trade Act of 1974 (sec. 309 of Senate bill)

Present law

If the President fails to follow the recommendation of the ITC on import relief, the ITC's recommendation will take effect 90 days after the President sends his determination to Congress if each house approves a concurrent resolution, pursuant to expedited procedures under section 152, disapproving the President's determination.

House bill

No provision.

Senate bill

Would conform current procedures to the Supreme Court's *Chadha* ruling by substituting joint for concurrent resolutions. As a result, such joint resolutions disapproving the President's determinations could be vetoed by the President.

Conference agreement

House recedes.

Subject: Negotiations of Restraint of Copper Production

(Sec. 254 of Senate Bill)

Present law

No provision.

House bill

No provision.

Senate bill

Requires that the President initiate negotiations with governments of copper-producing countries to conclude voluntary restraint agreements which reduce foreign copper production for 3-5 years to allow copper prices to rise to levels with which U.S. producers can compete.

Conference agreement

House recedes with an amendment to change the provision to a Sense of the Congress that the President should negotiate with the principal foreign copper producing countries and submit a report to the Congress (1) explaining the results of his negotiations or (2) why he felt it was inappropriate or unnecessary to undertake such negotiations.

TITLE III: INTERNATIONAL TRADE AND INVESTMENT ACT

Senate Bill: (Sec. 301-308 and Sec. 255)

House Bill: Title XI (Services Industries Commerce Development)

1. Negotiating Authority

Present law

No specific authority.

House bill

Provides specific negotiating authority to reduce or eliminate barriers to or distortions of international trade in services, and to develop dispute settlement procedures to reduce or eliminate such barriers.

Senate bill

Would provide specific negotiating authority:

(a) to reduce or eliminate barriers to or distortions of international trade in services and to develop internationally agreed rules, including dispute settlement procedures, to reduce or eliminate such barriers;

(b)(1) to reduce or eliminate artificial or trade distorting barriers to foreign direct investment and the development of rules, including dispute settlement procedures to ensure the free flow of foreign direct investment, and the reduction or elimination of the trade-distortive effects of certain investment related trade measures;

(2) to seek the elimination or reduction of foreign export performance requirements for which purpose the USTR would be authorized to impose import restriction (including the exclusion of products subject to such requirements.)

(c)(1) to maintain and preserve openness of trade and investment in high technology products and related services, to eliminate or reduce distorting effects of foreign government actions which distort high technology trade; and

(2) to obtain reduction, or elimination of all tariffs and barriers on U.S. exports of high technology products, to obtain commitments to foster national treatment and to provide minimum safeguards for the acquisition and enforcement of intellectual property rights.

In pursuing objectives (a) and (b)(1), U.S. domestic objectives (e.g., health and safety, environment, etc.) shall be taken into account.

Conference agreement

House recedes with amendments to senate negotiating objectives on services and definition of barriers regarding restrictions on establishment; technical amendment to senate domestic objectives on services and investment; amendment pertaining to prospective application of export performance requirements.

2. Trade Negotiating Advice from advisory Committees

Present law

Provides for advice from the private sector.

House bill

Would authorize establishment of intergovernmental advisory committees.

Senate bill

Similar provision.

Conference agreement

Senate recedes.

3. Trade Estimates and Reports on Barriers

Present law

Annual report on trade agreements program and import relief and adjustment assistance for workers, firms, and communities.

House bill

No provision.

Senate bill

Would require annual national trade estimates on significant barriers to the exportation of U.S. goods and services and restriction on U.S. foreign direct investment; USTR required to identify, through TPC, significant barriers of distortions, estimate their impact, and report actions taken to eliminate barriers; consultations with congressional committees required on trade policy priorities to enhance market opportunities; report required within 1 year of enactment and annually thereafter.

Conference agreement

House recedes.

4. Retaliatory Authority

Present law

Provides that action may be taken against the products or services of the foreign country or instrumentality involved; President may modify trade agreement concessions and impose duties or other import restrictions.

House bill

President's authority clarified to impose restrictions on services. May restrict terms and conditions, or deny issuance of any service sector access authorization (e.g., license permit, order that allows a foreign supplier of services access) notwithstanding any other provision of law.

Applies to prospective authorizations only.

Senate bill

Would clarify President's authority by substituting "goods" for "product" and "sector" for "service"; President's authority may be exercised without regard to whether or not such goods or sector were involved in the act, policy or practice identified; President's authority clarified to impose fees or restrictions on services notwithstanding authority of other provisions of law; President authorized to propose "fast track" legislation as part of his retaliatory powers.

Conference agreement

Senate recedes to House provision on use of service sector access authorization with modifications with respect to consultations and clarifying language. Senate recedes to House on definition of service sector access authorization.

House recedes to Senate on clarification of authority to impose fees on foreign services with technical amendment.

Senate recedes to House on "fast-track".

House recedes to Senate on cross-sectoral authority, substitution of 'goods' for 'products' and 'sector' for 'service'.

The change in term from "services" to "sector" is intended solely to reflect the President's ability to exercise his authority under section 301 in response to unfair foreign practices on investment, as well as goods and services.

The Conferees recognize that at the Federal level most services are subject to the regulation of independent agencies. For example, telecommunications is regulated by the Federal Communications Commission and trucking is regulated by the Interstate Commerce Commission.

As a result, such services enter the U.S. market, not at ports of entry as do goods, but rather upon the receipt of a license, permit or other authorization issued by the appropriate regulatory authority.

For this reason, the Conferees believe the authority granted in section 304(c) of the Conference Agreement is important for the President to be able to impose effective restrictions on foreign service firms in the domestic U.S. market should he determine such restrictions are needed.

The authority under this subsection is intended to apply only to retaliatory action relating to services. Existing retaliatory authority with respect to imported goods should be used when action against foreign goods is contemplated. The authority under this subsection should only be used with respect to goods potentially subject to services access authorization to the extent that actions involving services must be taken with respect to goods associated directly with those services.

5. Definition of Commerce

Present law

Services associated with international trade.

House bill

Services associated with international trade.

Senate bill

Would include foreign direct investment by U.S. persons with implications for trade in goods and services.

Conference agreement

House recedes.

6. Definition of unreasonable, unjustifiable and discriminatory

Present law

Undefined.

House bill

No provision.

Senate bill

Would define:

(a) "unreasonable" as any act, policy, or practice which, while not necessarily in violation of or inconsistent with the international legal rights of the United States, is otherwise deemed to be unfair and inequitable, including, but not limited to, any act, policy, or practice which denies fair and equitable (A) market opportunities; (B) opportunities for the establishment of an enterprise; or (C) provision of adequate protection of intellectual property rights;

(b) "unjustifiable" as any act, policy, or practice which is in violation of, or inconsistent with, the international legal rights of the United States, including, but not limited to, any act, policy, or practice described above which denies national or most-favored-nation treatment, the right of establishment, or protection of intellectual property rights;

(c) "discriminatory" where appropriate as any act, policy, or practice which denies national or most-favored-nation treatment to United States goods, services, or investment.

Conference agreement

House recedes.

7. Initiation of Section 301 Petitions

Present law

President may take action as a result of petition-initiated investigation, or on his own motion.

House bill

No provision.

Senate bill

Would authorize USTR to self-initiate section 301 investigations as a foundation for advice to President.

Conference agreement

House recedes.

8. Initiation of International Consultations

Present law

Consultations are initiated on same date as section 301 investigation is instituted.

House bill

No provision.

Senate bill

Would authorize USTR up to 90-day delay in initiation of consultations.

Conference agreement

House recedes.

9. Confidentiality Information and Prohibited Acts

Present law

No specific exception for information submitted in connection with Trade Act investgations.

House bill

Requires Secretary to seek arrangement with private sector regarding access to information for service program; authorizes Secretary to require persons to submit critical information exept disclosure authorized in certain circumstances; persons failing to provide critical information are subject to civil penalty proceeding.

Senate bill

Would exempt business confidential information requested or received by USTR in aid of Trade Act investigations from FOIA.

Conference agreement

House recedes.

10. Defintion of International Trade

Present law

Trade in goods anmd services only, no reference to foreign direct investment.

House bill

Trade in goods and services only; no reference foreign direct investment.

Senate bill

Would specifically include foreign direct investment by U.S. persons, especially if such investment has implications for goods and services.

Conference agreement

House recedes.

11. High Technology Exports

Present law

No specific provision.

House bill

No provision.

Senate bill

Would authorize President to enter bilateral or multilateral agreements as may be necessary to achieve ojectives relevant to high technology products; President given 5-year authority to eliminate duties on certain high technology items.

Conference agreement

House recedes.

12. Services Industries Development Program

Present law

No provision.

House bill

Requires Secretary of Commerce to establish Services Industries Developing Program involving development, and analysis of data on trade, competitive factors affecting services industries, etc; requires biennial report to Congress and President containing analysis of information collected under program.

Senate bill

Similar provisions relating to establishment of a services industries development program; no reporting requirement.

Conference agreement

Senate recedes on program and biennial report with an amendment to include provisions of the Senate bill to broaden the scope of data collection and analysis.

13. Consultation/Coordination

Present law

No provision.

House bill

Requires regular consultations with services industries; provides USTR coordination of services trade policies with assistance from other agencies; requires consultations with States on trade policy issues and establishment of intergovernmental policy advisory committees.

Senate bill

Similar provisions.

Conference agreement

Senate recedes.

14. Definition of Service and Secretary

Present law

Undefined.

House bill

Defines "services" to mean economic outputs associated with international trade that are not tangible goods, including, but not limited to, certain listed services; defines "Secretary" as Secretary of Commerce.

Senate bill

No provision.

Conference agreement

House recedes on definition of "Secretary" Senate recedes to House with modification on definition of "services", to be included in Services Industries Development program.

The Conferees do not intend that the definition of services which appears in section 306 of the Conference Agreement to be exhaustive. Instead, it should be referred to and used as guidance in determining what services means for purposes of section 301 of the Trade Act of 1974 as amended by the Conference Agreement.

15. Statement of Purposes

Present law

No provision.

House bill

Purposes are: (1) to encourage expansion of international trade and investment in services; (2) promote expansion of U.S. service industries in foreign commerce.

Senate bill

Purposes are: to foster economic growth, employment by expanding competitive U.S. exports through achievement of commercial opportunities in foreign markets substantially equivalent to those accorded by U.S.; to improve President's ability to identify, analyze and eliminate barriers; to encourage expansion of services trade through trade agreements; and to enhance free flow of foreign direct investment.

Conference agreement

House recedes to Senate with modification of purpose related to trade in services.

16. Short Title

Present law

No provision.

House bill

"Services Industries Commerce Development Act of 1984".

Senate bill

"International Trade and Investment Act",

Conference agreement

House recedes.

17. Data on International Trade in Services (sec. 255 of Senate bill)

Present law

The International Investment Survey Act of 1976 requires periodic reports on international investment in the U.S. and by U.S. persons overseas.

House bill

No provision.

Senate bill

Redesignates the Act as the International Investment and Trade in Services Survey Act, adds trade in services to the periodic reporting requirements and extends reporting to transactions with unaffiliated (as well as affiliated) foreign persons.

Conference agreement

House recedes to Senate with amendments deleting definition of services and expanding access to reports.

TITLE IV: UNITED STATES-ISRAEL FREE TRADE AREA

1. Short title (sec. 401 of House bill)

Present law

No provisions.

House bill

"United States-Israel Free Trade Area Act"

Senate bill

No provision.

Conference agreement

House provision.

2. Scope of Authority to Enter Into Trade Agreements Modifying or Eliminating Tariff and Nontariff Trade Barriers. (sec. 402 of House bill; sec. 401 of Senate bill)

Present law

The President has no authority to proclaim tariff reductions, increases, or modifications. The President's basic tariff negotiating authority, set forth in section 101 of the Trade Act of 1974 expired in 1979; more limited "residual" authority, contained in section 124 of the Act expired in 1982.

The President is authorized by section102(b) of the Act to negotiate trade agreements harmonizing, reducing, or eliminating nontariff trade barriers. This authority expires January 3, 1988. The authority merely provides for expedited consideration by the Congress of any agreement negotiated pursuant to it, if the President follows the procedures the authority prescribes.

House bill

a. Authorizes the President to enter into a trade agreement with Israel providing for

(1) duty-free entry of Israeli products, and

(2) the harmonization, reduction, or elimination of nontariff trade barriers.

b. No provision.

Senate bill

a. Amends section 102(b) and 102(g) to authorize the President to negotiate trade agreements harmonizing, reducing, or eliminating tariff, as well as nontariff, trade barriers, provided that any such agreement that would eliminate or reduce tariffs may be entered into only with Israel or Canada. If any other country requests such negotiations, the President must notify the Finance and Ways and Means Committees at least 60 days before the 90 day notification and consultation period required by current law before the President enters into the agreement (as a condition of expedited Congressional consideration). If either committee disapproves of the negotiation of such agreement, before that 60-day period expires, then the President could not submit

the agreement for expedited consideration by the Congress.

b. Tariff agreements with Israel must take into account products benefitting from a discriminatory preferential arrangement and the preference has been the subject of a GATT dispute settlement proceeding initiated by the United States.

Conference agreement

Senate provisions, except that the 90-day prior notification and consultation requirement would not apply to Israel and trade agreements with Canada would be subject to the same 60-day prior disapproval provision as other countries.

3. Procedures for Implementing Agreements (sec. 402 of House bill; sec. 401 of Senate bill)

Present law

The procedures for congressional consideration of any agreement negotiated under section 102 include the "fastrack" procedures set forth in sections 102(c)-(f) and 151-154 of the Trade Act of 1974.

In general, these procedures provide for notificaton of Congress 90 days before the President enters into an agreement; submission of the agreement and implementing legislation for Congressional approval after the agreement is entered into; and approval or disapproval by both Houses within 60 days.

House bill

The President may proclaim any tariff changes resulting from such an agreement. However, the President must submit any nontariff barrier provision of the agreement for Congressional approval under the procedures of section 102 of the trade Act.

Senate bill

Same as current law for nontariff barrier agreements negotiated under the section 102 authority. Thus, both tariff and nontariff matters would be subject to Congressional approval.

Conference agreement

Senate provisions.

4. Limitation of Most-Favored-Nation Benefits (sec. 406 of House bill; sec. 401 of Senate bill)

Present law

Certain U.S. treaties may be interpreted to extend automatically to the other party, by virtue of most-favored-nation provisions, any tariff or other trade benefit accorded by the United States to any other country.

House bill

Provides that no trade benefit shall be extended to any country by reason of an agreement with Israel entered into under this authority.

Senate bill

Same as House bill, except includes any agreement with Canada.

Conference agreement

Senate provision amended to apply to any agreement entered into under the authority.

5. Rules-of-origin (sec. 403 of House bill; sec. 401 of Senate bill)

Present law

In general, an imported article is treated for customs purposes as originating where it was wholly grown, produced, or manufactured. If further work in another country "substantially transforms" the article, then it is considered a product of the other country.

The Caribbean Basin Initiative although not applicable here, is an example of legislation containing more specific rules. An eligible product is on imported directly from a beneficiary country and containing at least 35 percent cumulative local value-added, 15 percent of which can be of U.S. origin. Value is the sum of the cost or value of materials plus the direct cost of processing in the beneficiary country or countries. Products merely package or combined in the country, or merely diluted by a liquid that does not materially alter the article's essential character, do not qualify.

House bill

a. Incorporates the same rules of origin for Israeli products that were specified in the Caribbean Basin Initiative legislation.

b. Treasury must consult with USTR before issuing regulations to carry out these origin rules.

Senate bill

a. Requires that any agreement with Israel meet requirements "similar" to that the CBI.

b. No provision.

Conference agreement

a. Senate recedes.

b. Senate recedes.

6. Temporary Import Relief as Exception to Duty-free Treatment. (Sec. 404 of House bill; sec. 401 of Senate bill)

Present law

Sections 201-203 of the Trade Act of 1924 authorize the President to impose quotas, tariffs, or to negotiate export restraints in order to provide relief to an industry for which the International Trade Commission has determined that increasing imports are a substantial cause of serious injury or a threat thereof. Relief may be for up to 5 years, and may be extended after the initial period for up to 3 more years.

Section 232 of the Trade Expansion Act of 1962 authorizes the President to take such action as he deems necessary to adjust imports of articles that are being imported in such quantities or under such circumstances as to threaten to impair the national security.

House bill

a. Provides that the President may proclaim duties for Israeli products in accord with actions taken under section 203 of the Trade Act or section 232 of the Trade Expansion Act.

Senate bill

a. No provision.

House bill

b. Authorizes the President to suspend duty-free treatment for Israeli products that the ITC determines are the substantial cause of serious injury to the industry which seeks relief under section 201.

Senate bill

b. No provision.

House bill

c. Further provides that section 201 relief in effect when the Israel government becomes effective shall remain in effect until modified or terminated. Further, the President may reduce or terminate the application of the existing relief to the article.

Senate bill

c. No provision.

Conference agreement

c. Senate recedes.

7. Perishable Products (Sec. 405 of House bill; sec. 401(d) of Senate bill)

Present law

The CBI legislation provides that with regard to section 201 cases involving perishable commodities, the President, within 21 days of application to the Secretary of Agriculture and upon the Secretary's recommendation, may withdraw duty-free treatment of the commodity until a final negative determination by the ITC or a decision by the President regarding relief or until changed circumstances. Perishable products are (1) live plants; (2) fresh or chilled vegetables; (3) fresh mushrooms; (4) fresh fruit; (5) fresh cut flowers; and (6) concentrated citrus fruit juices.

House bill

Requires that any U.S.-Israel trade agreement incorporate the same emergency relief provision as contained in the Caribbean Basin Initiative legislation.

Senate bill

Requires that implementing legislation contain emergency relief provisions for perishable products similar to that in the CBI legislation. "Perishable products" are:

(1) vegetables;

(2) edible nuts and fruits;

(3) fresh cut flowers; and

(4) concentrated citrus fruit juice.

Conference agreement

Senate recedes with an amendment to include the products in its definition of perishable products

8. Section 22 Fees (sec. 405(f) of House bill)

Present law

Section 22 of the Agricultural Adjustment Act authorizes the imposition of the import fees and quotas on products rendering ineffective (or tending to do so) a domestic price support program.

House bill

Duty reductions proclaimed as a result of the U.S.-Israel trade agreement shall not affect section 22 fees.

Senate bill

No provision.

Conference agreement

Senate recedes.

9. Relationship of Other Trade Laws (sec. 406 of House bill)

Present law

Import relief is authorized under section 232 of the Trade Expansion Act of 1962 for national security reasons; under the Tariff Act of 1930 as a remedy for unfair trade practices; and under the Trade Act of 1964 for adjustment purposes or to repond to certain unfair trade practices not otherwise covered in the 1930 Act.

House bill

Implementation of U.S.-Israel trade agreement may not affect the application of laws authorizing relief from import competition.

Senate bill

No provision.

Conference agreement

Senate recedes.

10. U.S.-Canada Commission (Sec. 402 of Senate bill)

Present law

No provision.

House bill

No provision.

Senate bill

Amends section 612(b) of Trade Act of 1974 to authorize President to seek establishment of joint commission to resolve trade and other economic issues between the United States and Canada.

Conference agreement

Senate recedes.

TITLE V: GENERALIZED SYSTEM OF PREFERENCES (AMENDMENTS TO TITLE V, TRADE ACT OF 1974)

1. Title and Purposes (sec. 501 of Senate and House bills)

Present law

No provision.

House bill

Entitled "Generalized System of Preferences Renewal Act of 1984" and outlines 10 specific purposes.

Senate bill

Same provision except no specific references to intellectual property rights or internationally recognized worker rights.

Conference agreement

House provision.

2. Basic Authority and Time Limits

2. a. Authority (sec. 502 of House bill; sec. 503 of Senate bill)

Present law

Sec. 501 authorizes President to extend duty-free treatment to eligible articles as described below. President "shall have due regard for":

1. effect of such action on furthering country's economic development;

2. extent to which comparable actions taken by other developed countries, and

3. anticipated impact on such action on competing U.S. products.

House bill

Adds, phrase, "through the expansion of their exports" to the end of paragraph (1) and a new criterion (4): "the extent of the beneficiary developing country's competiveness with respect to eligible articles."

Senate bill

Includes paragraph on country's competitiveness; does not include amendments to paragraph (1)

Conference agreement

House provision.

2. b. Time Limit (sec. 506 of House bill; sec. 502 of Senate bill)

Present law

No duty-free treatment shall remain in effect after January 3, 1985 and report on program's operation must be filed after 5 years under sec. 505.

House bill

Extends expiration date until 1/3/90 and requires the President to submit a report to Congress before that date on the operation of program and annual reports on the status of internationally recognized worker rights within each beneficiary developing country.

Senate bill

Extends program to 1/3/95 and does not require reports.

Conference agreement

Program extended for 8½ years.

House provisions on reports.

With respect to the reports on workers rights, the Conferees note that the President already submits an annual report to Congress under section 116(d) of the Foreign Assistance Act of 1961 prepared by the Department of State and Labor on human rights. It is the Conferees' intent that the information required under section 505(c) be included as a separate section in that annual report. Furthermore, the report should address specifically the extent that each of the rights included in the statutory definition of internationally recognized worker rights is respected within each beneficiary developing country.

3. Eligible Countries (sec. 503 of House bill; sec. 504 of Senate bill)

3a. Procedure

Present law

President designates BDCs under sec. 502(a) by executive order after notifying Congress; same for termination.

House bill

Adds definition of term "internationally recognized worker rights" to include—

"(A) the right of association;

"(B) the right to organize and bargain collectively;

"(C) a prohibition on the use of any form of forced or compulsory labor;

"(D) a minimum age for the employment of children; and

"(E) acceptable conditions of work with respect to minimum wages, hours of work, and occupational safety and health."

Senate bill

No provision.

Conference agreement

House provisions.

It is the intention of the Conferees that this definition of internationally recognized worker rights be interpreted to be commensurate with the development level of the particular country, but that each element of the definition be reviewed with respect to the determination required by section 503(c)(3) of this bill.

3. b. Mandatory criteria

Present law

Certain named developed countries are ineligible under sec. 502(b) for benefit as are OPEC members and Communist countries, unless they are GATT and IMF members and not dominated by international communism, and countries providing preferential treatment to another developed country unless such preferences have no significant adverse effects.

House bill

Hungary deleted from list of ineligible developed countries.

Senate bill

No provision.

Conference agreement

House provisions.

3. c. Mandatory criteria, subject to national interest waiver

Present law

Unless the President determines that designation of eligibility would be in the national economic interest, despite failure to comply with the following conditions, a country also is ineligible under sec. 502(b) for GSP benefits if—

1. it has taken actions which have the effect of nationalizing, expropriating or otherwise seizing control of U.S. citizens' property without providing adequate compensation;

2. it fails to cooperate with the United States in interdicting unlawful narcotics traffic;

3. it fails to recognize or enforce arbitral awards in favor of U.S. citizens; or

4. it aids or abets international terrorism by granting sanctuary to international terrorists.

House bill

Makes explicit that provisions relating to nationalization, expropriation and seizure of property (sec. 502(b)(4) (A), (B) and (C)) include "patents, trademarks, or copyrights" and adds following new criteria:

"(8) if such country has not taken or is not taking steps to afford internationally recognized worker rights to workers in the country (including any designated zone in that country)."

Senate bill

Identical provision on intellectual property rights; does not include provision on worker rights.

Conference agreement

House provisions. The Conferees recognized that although the new subparagraph (8) language will become immediately effective, it will be difficult to make the determinations it requires because the first report required by section 506 will not be completed until 1986. The Conferees expect the President to make his determinations under this section according to the best information available to him.

3. d. Factors to be taken into account

Present law

In determining whether to designate a country as a GSP beneficiary, the President must take into account the following factors under sec. 502(c) before designation:

1. the desire of the country to receive benefits;

2. the level of the country's economic development;

3. whether other developed countries are extending benefits to the country; and

4. the extent to which the country has provided assurances of equitable and reasonable access to its markets and basic commodity resources.

House bill

Adds the following three new factors:

"(5) the extent to which such country is providing adequate and effective means under its laws for foreign nationals to secure, to exercise, and to enforce exclusive rights in intellectual property, including patents, trademarks, and copyrights;

"(6) the extent to which such country has taken action to reduce trade distorting investment practices and policies (including export performance requirements), and reduce or eliminate barriers to trade in services"; and

"(7) whether or not such country has taken or is taking such steps to afford workers in that country (including any designated zone in that country) internationally recognized worker rights".

Senate bill

Identical new criteria (5); identical criteria (6) on investment but does not include references to barriers to trade in services; does not include criteria (7) relating to worker rights; and amends criteria (4) by adding the phrase "and the extent to which such country has assured the U.S. that it will refrain from engaging in unreasonable export practices."

Conference agreement

Combines House and Senate provisions.

4. Eligible Articles

4.a. Regulations on rules-of-origin (sec. 503 of House bill)

Present law

Secretary of Treasury has authority under section 503(b) to prescribe regulations to carry out GSP rules-of-origin.

House bill

Requires the Secretary of Treasury to consult with USTR before prescribing regulations governing GSP rule-of-origin requirements.

Senate bill

No provision.

Conference agreement

House provision.

4. b. Ineligible articles (sec. 504 of House bill; sec. 505 of Senate bill)

Present law

The following import-sensitive articles may not be designated under sec. 503(c) for GSP eligibility:

1. Textile and apparel articles subject to textile agreements;
2. watches;
3. import-sensitive electronic, steel, and glass products;
4. certain footwear articles; and
5. any other article the President determines is import-sensitive in the context of GSP.

House bill

The exclusion for footwear is expanded to cover "footwear, handbags, luggage, flat goods, work gloves, and leather wearing apparel which were not eligible articles for purposes of this title on April 1, 1984".

Senate bill

Identical provision except the existing exclusion for certain footwear in subparagraph (E) is retained. Deletes watches from the list of ineligible articles.

Conference agreement

House provision.

5. Limitations on Preferential Treatment (sec. 505 of House bill; sec. 506 of Senate bill)

5. a. Study and report

Present law

Sec. 504(a) authorizes President to withdraw, suspend, or limit duty-free treatment for any eligible article or beneficiary country and requires withdrawal or suspension of beneficiary designation if after designation, circumstances change so that country does not meet initial designation criteria.

No provision.

House bill

Requires President to—

Submit report to the Congress by 1/4/87 on the application of sec. 501 and 502(c) and the actions he has taken to withdraw, suspend, or limit benefits for failure to take actions described in sec. 502(c); and

Conduct a general review of eligible articles based on initial designation criteria under sec. 501 or 502(c), to be completed by 1/4/86, and renewed periodically thereafter.

Senate bill

Similar provision, except report is not due until 1/4/88, and requires particular emphasis on country's efforts to—

1. provide market access;
2. protect intellectual property rights; and
3. reduce trade-distorting investment practices and policies.

Similar provision, except first review must be completed not later than 1/4/87.

Conference agreement

Senate provisions on report and review dates; does not include Senate provisions on particular emphasis requirement.

5. b. Competitive need limits

1. Basic limits.

Present law

Under sec. 504(c), a particular beneficiary country is eligible for GSP treatment an/a particular article within 90 days after the close of a calendar year if its exports to the U.S. in that calendar year exceeded either—

A. a dollar amount set by a formula based on growth in U.S. GNP (the 1983 limit was about $57 million); or

B. 50 percent of the total value of U.S. imports of the article.

House bill

Retains basic competitive need limits.

Senate bill

Identical provision.

Conference agreement

Identical provisions.

2. Graduation, cutback and waiver authority

Present law

Discretionary authority under sec. 504(a) to withdraw, suspend or limit benefits; no authority to waive competitive need limits, except in special circumstances applicable only to the Philippines.

House bill

Beginning on January 4, 1986, cutbacks and waivers authorized for 3 groups of countries as described below:

Countries with $9,000 GNP—Mandatory graduation for all articles over a maximum period of two years, then country no longer considered a BDC.

No waiver authority.

Countries with 10% share of GSP duty-free imports or $5,000 GNP.—Mandatory cutback in competitive need limits for all articles (from $57 million/50% to $25 million/25%).

President may waive cutbacks and restore the original competitive need limits ITC advice on whether any industry is likely to be adversely affected; (2) determining a waiver is in the national economic interest based on secs. 501 and 502(c) criteria (including market access, intellectual property rights protection and internationally negotiated worker rights); and (3) publishing his determination.

All Other Countries.—Presidential discretion to reduce competitive need limits (from $57 million/50% to $25 million/25%) on article-by-article basis if country has "demonstrated a sufficient degree of competitiveness" in such article.

President may waive limits on article-by-article basis but total waivers above present competitive need levels cannot exceed 25 percent of total U.S. GSP duty-free imports.

Senate bill

Beginning on January 4, 1987, cutbacks and waivers are authorized as follows:

Presidential discretion to reduce competitive need limits (from $57 million/50% to $25 million/25%) on article-by-article basis if country "demonstrated a sufficient degree of competitiveness" in such article.

After two years (i.e., when the above product review is completed), competitive need limits may be waived if the President (1) receives ITC advice on whether any U.S. industry is likely to be adversely affected; (2) determines a waiver is in the national economic interest based on the basic designation criteria under sections 501 and 502(c) and; (3) publishes his determination.

In making his national interest determination, the President must give great weight to (1) assurances of equitable and reasonable market access to the beneficiary country, and (2) the extent the country provides adequate and effective intellectual property rights protection.

Conference agreement

House recedes on cutback authority, with an amendment requiring graduation of countries with $8,500 GNP (indexed annually to 50 percent of change in U.S. GNP), phased out over two-year period.

Senate recedes on waiver authority with an amendment limiting total waivers for all countries above present competitive need levels to maximum 30 percent of total GSP free imports, of which maximum of one-half may apply to countries with 10 percent share of total GSP free imports or $5,000 GNP, and requiring great weight to particular factors in national interest determination.

5. c. Exceptions to application of competitive need limits

1. Philippines exception

Present law

Competitive need limits do not apply if waived by President because he finds:

A. an historical preferential trading relationship with the country exists;

B. there is a trade agreement to which the country and the U.S. are parties; and

C. the country does not impose unreasonable or discriminatory barriers to U.S. commerce.

House bill

Waiver authority is retained for the Philippines, subject to the country criteria above.

Senate bill

Waiver authority is retained, but subject to reduction in competitive need limits on article basis above.

Conference agreement

Senate provision.

2. Exception for least developed developing countries (LDDC's)

Present law

No provision.

House bill

No provision.

Senate bill

Competitive need limits shall not apply to LDDC's as determined by the President and designated 60 days after notification to Congress.

Conference agreement

Senate provisions.

No domestic production exception.

Present law

The 50-percent-of-imports competitive need limit does not apply if a like or directly competitive article was not produced in the U.S. on 1/3/75.

House bill

Changes date of production to 1/3/85.

Senate bill

The 50-percent-of-imports competitive need limit (after application of subsection (c)(2)) does not apply if a like or directly competitive article was not produced in the United States on January 3, 1985.

Conference agreement

Senate provisions.

3. No domestic production exception

Present law

The 50-percent-of-imports competitive need limit does not apply if a like or directly competitive article was not produced in the United States on 1/3/75.

House bill

Changes date of production to 1/3/75.

Senate bill

The 50-percent-of-imports competitive need limit does not apply if a like or directly competitive article was not produced in the United States on the earlier of—

a. January 3, 1985, or

b. January 1 of the calendar year for which the 50 percent limitation determination is being made.

Conference agreement

Senate provision.

4. De minimis waiver

Present law

President may waive 50-percent-of-imports competitive need limit if total imports of the particular article in the preceding year did not exceed $1 million.

House bill

Changes de minimis level to $5 million.

Senate bill

No provision.

Conference agreement

House provision.

5. d. Redesignation of articles.

Present law

A country may be redesignated in a later year for GSP on a particular eligible article if its exports of the article did not exceed the competitive need limits in the preceding calendar year.

House bill

Permits redesignation only after 2 calendar years.

Senate bill

No provision.

Conference agreement

House recedes.

5.e. Time period for implementing changes in GSP treatment relating to competitive need limits.

Present law

Changes in article designation go into effect not later than 90 days after the close of preceding calendar year.

House bill

Changes would be effective not later than July 1.

Senate bill

No provision.

Conference agreement

House provision.

6. Agricultural Exports (sec. 507 of House bill)

Present law

No provision.

House bill

Requires U.S. assistance to BDC's to assure adequate production of foodstuffs for their citizenry.

Senate bill

No provision.

Conference agreement

House provisions.

7. Effective Date (sec. 508 of House bill; sec. 509 of Senate bill)

Present law

Existing program terminates 1/3/85.

House bill

Effective 1/4/85.

Senate bill

Identical provision.

Conference agreement

Identical provisions.

TITLE VI: AMENDMENT TO THE COUNTERVAILING DUTY (CVD) AND ANTIDUMPING (AD) LAWS

1. Clarification of Coverage (likely sales, leasing) (sec. 711 of House bill; secs. 210, 716, 717, 718, of Senate bill).

Present law

Section 701(a) states the general rule that a CVD shall be imposed where (1) the administering authority finds a subsidy with respect to merchandise "*imported* into the United States" and (2) the ITC finds that an industry is materially injured or threatened with such injury "by reasons of *imports* of that merchandise." Section 731 requires the administering authority to determine in AD investigations that "foreign merchandise is being, or is likely to be *sold* in the United States at less than its fair value". [Emphasis added]

House bill

a. Amends section 701(a) and 705(b)(1) to clarify that the CVD and AD laws cover sales and likely sales, as well as imports that have already occurred; amends sections 701(a) and 731 to include certain leases.

b. No provision.

c. No provision.

Senate bill

a. Section 210 is identical; section 716 is identical, except it also includes the language on likely sales in sections 731, 735(b), 703(a), and 733(a).

b. Amends sections 702 and 732 to add a special rule that the existence of sales for future delivery or irrevocable offers to sell may be basis for an affirmative CVD or AD determination.

c. Amends sections 702 and 732 to add a special rule that the absence of a history of imports in sufficient volume to be a present cause of injury shall not be a basis for not initiating an investigation, if a sufficient allegation of threat of injury is made.

Conference agreement

The Conferees agreed to the Senate provision with modifications. The modifications are the deletion of references in the Senate provision to sections 703(a) and 733(a) and sections 702 and 732.

2. Settlement Agreement Authority

Present law

The administering authority may suspend a CVD or AD investigation under section 704(b) or 734(b) at any time before its final determination if the government of the subsidizing country agrees, or exporters who account for substanially all of the imports of the subsidized or dumped merchandise agree (1) to eliminate the subsidy completely or to offset completely the amount of the net subsidy on exports to the United States within six months after the suspension; (2) to raise the price completely to eliminate any dumping margin; or (3) to cease exports of the merchandise to the United States within six months after the suspension. No CVD or AD suspension agreement can be accepted unless the quantity exported during the 6-month period will not exceed the quantity exported during the most recent representative period.

2.a. Offsets (sec. 712 of Houe bill; sec. 705 of Senate bill)

House bill

Eliminates the authority to suspend CVD investigations based on offsets of net subsidies by the foreign government or exporters.

Senate bill

Requires verification of any amount, including offsets, subtracted from gross subsidy to determine net subsidy.

Conference agreement

The Conferees agreed to the Senate provision.

2.b. 6-month grace period (sec. 712 of House bill)

House bill

Removes the 6-month grace period for eliminating subsidies or dumping margins under suspension agreements.

Senate bill

No provision.

Conference agreement

The Conferees agreed to strike the House provision.

2.c. Quantitative restriction agreements (sec. 712 of House bill; sec. 611 of Senate bill)

Present law

In "extraordinary circumstances," the administering authority may *suspend* a CVD investigation under section 704(c) before its final determination upon acceptance of an agreement from the government to eliminate completely the injurious effects, which may take the form of a quantitative restriction agreement to restrict the volume of imports. Before *suspending* any CVD or AD investigation, sections 704(e) and 734(e) require the administering authority to (1) notify and consult the petitioner of its intention, and give 30 days advance notice to other parties and to the ITC; (2) provide a copy and explanation of the proposed agreement to the petitioner; and (3) permit all parties to submit comments and information. No form of *suspension* agreement can be accepted unless the administering authority is satisfied suspension is in the public interest and effective U.S. monitoring of the agreement is practicable. Upon withdrawal of the petition the administering authority may *terminate* a CVD or AD investigation under section 704(a) or 734(a) after notice to all parties to the investigation; law does not specify basis or criteria.

House bill

Requires the administering authority to take various public interest factors (impact on consumer prices, supplies international interests, industry competitiveness), into account and consult with potentially affected consumers, industries, producers, and workers prior to deciding whether to *terminate or suspend CVD investigations or to terminate AD investigations based on quantitative restriction agreements.*

Senate bill

Permits comments on any form of proposed CVD and AD suspension agreements from all interested parties, rather than only all parties to the investigation.

Conference agreement

The Conferees agreed to both House and Senate provisions.

2.d. AD quantitative restriction agreements (sec. 713 of Senate bill)

Present law

In "extraordinary circumstances," the administering authority may suspend an AD investigation under section 734(c) before its final determination upon acceptance of an agreement to revise prices from exporters accounting for substantially all of the imports that will eliminate completely the injurious effects, prevent domestic price sup-

pression or undercutting, and the dumping margin for each entry of each exporter does not exceed 15 percent of the weighted average margin for all entries of the exporter. Unlike CVD cases, the administering authority is not authorized to suspend AD investigations on the basis of quantitative restriction agreements.

House bill

No provision.

Senate bill

Authorizes AD quantitative restriction agreements with governments or exporters on imports if they will eliminate the injurious effects; provides authority to prescribe regulations to enforce the limits.

Conference agreement

The Conferees agreed to strike the Senate provision.

2.e. Termination of investigations (sec. 610 of Senate bill)

Present law

No specific provision.

House bill

No provision.

Senate bill

Authorizes the administering authority to terminate CVD or AD investigations it self-initiates.

Conference agreement

The Conferees agreed to the Senate provision.

2.f. Notification of Customs (sec. 712 of House bill)

Present law

No provision.

House bill

Requires notification of the Commissioner of Customs if the administering authority considers violation of an agreement to be intentional.

Senate bill

No provision.

Conference agreement

The Conferees agreed to the House provision.

3. Negotiation, Expiration of Quantitative Restriction Agreements (sec. 713 of House bill)

Present law

Section 751(b) requires the administering authority or the ITC to review any suspension agreement or affirmative determinations whenever it receives information or a request showing changed circumstances sufficient to warrant a review. If the ITC determines a suspension agreement no longer eliminates completely the injurious effect of imports, the administering authority and the ITC proceed with the investigation as if the agreement had been violated on that date. No provision of present law requires negotiations to eliminate the subsidy or dumping margin while the agreement is in effect, or imposition of DVDs or AD duties upon its expiration equal to any remaining injurious subsidy or dumping.

House bill

a. Requires that within 90 days after any quantitative restriction agreement is in effect the President enter negotiations with foreign governments to seek complete elimination of the subsidy or dumping practices or of their injurious effects; agreement can only be modified within one year if actions taken are satisfactory and public comment taken into account.

Senate bill

No provision.

House bill

b. CVD or AD duties in the amount of any residual subsidy or dumping margin on injurious imports may replace the quantitative restriction agreement if it expires.

Senate bill

No provision.

Conference agreement

The Conferees agreed to the House provision on item 3 with a modification by requiring consultations rather than negotiations.

4. Persistent Dumping Procedure (sec. 714 of House bill)

Present law

Section 732(a) requires the administering authority to self-initiate an AD investigation whenever it determines, from information available to it, that a formal investigation is warranted. There is no formal requirement regarding monitoring of products subject to existing AD orders to determine whether self-initiation with respect to additional suppliers is warranted.

House bill

Establishes a procedure for the admistering authority and the ITC to monitor imports from additional supplier countries for up to one year in order to determine whether self-initiation of additional dumping cases is warranted.

For monitoring to be required, three conditions must be met: (1) there has been a prior case on the product within the previous two years resulting in final affirmative determinations of dumping and injury; (2) the petitioner must file a formal petition on imports of the same product from another country; (3) the subsequent petition must also allege the elements necessary to impose AD duties exists on the same product, imported or likely to be imported, from one or more additional supplier countries.

Senate bill

No provision.

Conference agreement

The Conferees agreed to the House provision with certain modifications, which would permit the administrative authority in its discretion to monitor allegedly dumped imports from additional supplier countries.

5. "Natural Resource Subsidies" (sec. 715 of House bill)

Present law

Any domestic subsidy described in section 771(5) may be subject to a CVD action if it is provided or required by government action to a specific enterprise, industry, or group thereof. Thus, a domestic subsidy involving natural resources may be countervailed, if it meets the specific industry test and is a subsidy of the kind described in section 771(5).

House bill

Includes "natural resource subsidies" under CVD law if they meet the following conditions: (1) a government-regulated or controlled entity sells natural resource products to its own producers at prices which, by reason of such regulation or control are lower than the export price or the fair market value in the exporting country, whichever is appropriate; (2) the internal price must not be one which is freely available to U.S. producers for purchase and export to the U.S. market; and (3) the resource product must constitute a significant portion of the production costs of the final product subject to the investigation. The level of a natural resource subsidy for CVD purposes is the difference between the domestic price and the export price of the natural resource product; if there are no significant exports or the export price is distorted by government manipulation, the administering authority must measure the subsidy by comparing the domestic price to the "fair market value".

Senate bill

No provision.

Conference agreement

The Conferees agreed to strike the House provision.

6. "Upstream Subsidies" (sec. 715 of House bill; sec. 710 of Senate bill)

Present law

Section 771(5) defines the term subsidy as having the same meaning as the term "bounty or grant" as that term is used in section 303 of the Tariff Act of 1930, including, but not limited to, specific export and domestic subsidy practices listed. This term has never been explicitly defined to include or exclude subsidies bestowed on products at prior stages of manufacture or production. The list of domestic subsidies under section 771(5) does not explicitly refer to subsidies at prior stages, but does not refer to indirect subsidies. Recent decisions by the Department of Commerce have indicated some degree of coverage of subsidies at prior stages of manufacture or production.

House bill

a. Defines an "upstream subsidy" as a practice described in present law which (1) is paid or bestowed by a government on a product subsequently used to manufacture or produce in that country merchandise which itself becomes the subject of either a CVD or AD investigations; (2) results in a price for the intermediate product lower than the generally available price of that product in that country (adjusted to offset artificial depression due to any subsidies or dumping); and (3) has a significant effect on the cost of manufacturing or producing the final merchandise. The amount of such subsidy included in any CVD or AD duty on the final product is equal to the difference between the price for the intermediate product and the generally available price of that product in that country, adjusted for any artificial price depression.

Senate bill

a. Definition of upstream subsidy is the same. However, the provision is narrower in scope because the administering authority would only be required to investigate and assess upstream subsidies in CVD cases, rather than in both CVD and AD cases.

Conference agreement

The Conferees agreed to a modified provision which would (1) substitute for generally available price determination a determination that the upstream subsidy in the judgment of the administering authority bestows a competitive benefit on the merchandise; (2) provide greater discretion in adjusting for artificial price depression by referring to prior Commerce Department determinations; (3) establishes "reasonable grounds to believe" standard for Commerce Department investigations; and (4) permits extension of time period to enable Commerce Department to fully investigate upstream subsidy cases.

House bill

b. Foreign countries organized into any customs union would be treated as one country.

Senate bill

b. Customs union would be treated as one country if the subsidy is provided by the customs union.

Conference agreement

The Conferees agreed to the Senate provision.

The provision does not affect the basic definition of subsidy in any way. The potential for an upstream subsidy exists only when a sector-specific benefit meeting all other criteria for being a subsidy is provided to the input producer. Further, the provision is limited to subsidies bestowed by the country in which the final product is manufactured.

7. "Downstream Dumping" (sec. 715 of House bill; sec. 712 of Senate bill)

7.a. Definition

Present law

No provision.

House bill

If a product subjects to a CVD or AD investigation includes materials or components: (1) which are dumped (i.e., sold below their foreign market value); (2) with a purchase price lower than their generally available price (adjusted to offset artificial depression due to any subsidies or dumping) in the country where the final product is manufactured; and if (3) the resulting price difference has a significant effect on the cost of manufacturing or producing the merchandise under investigation, an amount attributable to "downstream dumping" would be added to the CVD or AD duty on the final product, calculated as the difference between the purchase price of the input and its generally available price (adjusted, if appropriate, for artificial depression) in the country producing the final product.

Senate bill

Same definition of downstream dumping in substance, but narrower in scope since it applies only to merchandise subject to AD investigation rather than in both CVD and AD cases. In downstream dumping cases, required determination of the constructed value of the final product, including the amount of downstream dumping in the calculation of the cost of materials or components. That amount cannot be greater than the amount by which the foreign market value of the input exceeds its purchase price.

Conference agreement

The Conferees agreed to strike the House provision and the Senate provision.

7.b. Time periods

Present law

Administering authority must make preliminary determination (PD) under section 731 within 160 days after petition filed (within 210 days if case extraordinarily complicated). Final determinations under section 735 must be made within 75 days after PD, or 135 days if postponed by request.

House bill

No provision.

Senate bill

Extends the time period for preliminary determinations (PD) in AD cases from 160 to 250 days (from 210 to 310 days in complicated cases) after the petition is filed, if the administering authority concludes such additional time is necessary to determine downstream dumping.

Extends time period for final determinations (FD), if the administering authority finds it necessary for downstream dumping determination, from 75 to 165 days (from 135 to 225 days if postponed) if PD on downstream dumping was negative. If PD was affirmative, final determination on downstream dumping need not be made until conclusion of the first annual review of the AD order; or, at the option of the petitioner, the time period for FD is extended to 165 or 225 days to include downstream dumping determination, but the suspension of liquidation terminates 120 days from the PD and cannot be resumed until publication of an AD order.

Conference agreement

The Conference agreed to strike the House provision and the Senate provision.

8. Cumulation (sec. 715 of House bill; sec. 703 of Senate bill)

Present law

Under section 771(B) the ITC, in making its determination of material injury, is required to assess both the volume of imports of the merchandise subject to investigation and the consequent effects of such imports. The decision to cumulate is made on a case-by-case basis and is solely within the discretion of each individual Commissioner. This practice has neither been ratified nor prohibited by statute.

House bill

Requires that the ITC cumulatively assess the volume and effect of imports from two or more countries of like products subject to investigation if the imports compete with each other and with like products of the domestic industry in the U.S. market.

Senate bill

Requires cumulation of imports from countries subject to final orders, as well as countries under investigation, if the ITC determines (1) the marketing of such imports is reasonably coincident, and (2) imports from each source have contributed to the overall material injury.

Conference agreement

The Conferees agreed to the House provision. The provision requires cumulation of imports from various countries that each account individually for a small percentage of total market penetration but when combined may cause material injury. The conferees do intend, however, that the marketing of imports that are accumulated be reasonably coincident of cause, imports of like products from countries, not subject to investigation would not be included in the cumulation.

9. "Threat of Material Injury" Criteria (sec. 715 of House bill; sec. 704 of Senate bill)

Present law

In making material injury determinations the ITC must consider, among other factors on a case-by-case basis, (1) the volume of imports of the merchandise, (2) the effect of such imports on prices in the United States for like products, and (3) the impact of such imports on domestic producers of like products. In determining whether there is a threat of material injury in CVD investigations, the ITC must consider such information as may be presented by the administering authority on the nature of the subsidy and the effects likely to be caused by the subsidy. There are no other factors specified in present law for determining the threat of material injury.

House bill

Adds criteria the ITC must consider in determining whether there is a probability the merchandise (whether or not actually being imported at the time) will be the cause of actual injury based on any demonstrable adverse trend, including such factors as:

(1) an increase in production capacity in the exporting country likely to result in a significant increase in exports of the merchandise to the United States;

(2) a rapid increase in the U.S. market penetration and the likelihood such penetration will increase to an injurious level;

(3) the likelihood that imports will enter at prices that will have a depressing or suppressing effect on domestic prices; or

(4) a substantial increase in inventories in the United States.

Senate bill

Same provision in substance, except:

(1) also includes any increase in existing unused capacity;

(2) refers to "probability" instead of the "likelihood";

Includes two additional factors for consideration:

(1) the presence of underutilized capacity for producing the merchandise in the exporting country; and

(2) the potential for product-shifting if production facilities owned or controlled by foreign manufacturers which can be used to produce products subject to AD or CVD investigations or final orders are also used to produce the merchandise under investigation.

Conference agreement

The Conferees agreed to strike the House provision.

This provision provides guidance to the ITC for its determination of threat of material injury. The provision lists certain factors to be considered by the ITC in assessing whether dumped or subsidized import pose a real and imminent threat to the U.S. industry.

The Managers believe that an effective threat of material injury provision is a vital element of the antidumping and countervailing duty laws of the United States. The purpose of the threat provision is to prevent actual material injury from occurring.

As stipulated in the legislative history of the Trade Agreements Act of 1979, determinates on the basis of threat cannot be made on the basis of mere supposition and conjecture, and sufficient information must exist for concluding that the threat of injury is real and actual injury is imminent.

The Managers recognize that the projection of future events is necessarily more difficult than the evaluation of current data. Accordingly, a determination of threat will require a careful assessment of identifiable current trends and competitive conditions in the marketplace. This will require the ITC to conduct a thorough, practical, and realistic evaluation of how it operates, the role of imports in the market, the rate of increase in unfairly traded imports, and their probable future impact on the industry. This assessment may show, for example, that the volume of unfairly traded imports is increasing and that industry is vulnerable to future harm. Alternatively, it may show that imports are not likely to increase to an injurious level or that the industry is able to sustain relatively high levels of import competition without apparent harm.

10. Interested Parties (sec. 715 of House bill; secs. 604, 708 of Senate bill)

Present law

Section 771(9) defines the term "interested party" for standing to file petitions on particular merchandise as (1) a foreign manufacturer, producer, or exporter, or U.S. importer, or a trade or business association, a majority of whose members are importers; (2) the foreign government; (3) a manufacturer, producer, or wholesaler of a like product; (4) a union or group of workers representative of an industry manufacturing, producing or wholesaleing a like product; and (5) a trade or business association, a majority of whose members manufacture, produce, or wholesale a like product.

House bill

Expands the definition of an interested party with standing to file AD or CVD petitions to include coalitions of firms, unions, or trade associations that have individual standing.

Senate bill

Identical provision except does not make conforming changes in title 28, USC.

Conference agreement

The Conferees agreed to adopt the House provision.

The purpose of the amendment is to broaden the class of an interested party which has standing to file petitions under the countervailing duty or antidumping laws. This standing requirement would be met as long as a majority of the combined membership of the coalition individually meets the standing requirements under present law and represents the industry producing the like product. This provision is intended to overturn the decision of the Court of International Trade in *Matsushita Electrical Co.* v. *United States*, 529 F. Supp. 664 (CIT 1981).

11. Simultaneous Investigations

11.a. Hearings (sec. 716 of House bill; sec. 605 of Senate bill)

Present law

Section 774(a) requires the administering authority and the ITC each to hold a hearing before making their final CVD or AD determinations, upon the request of any party to the investigation.

House bill

If investigations are initiated under both laws within 6 months of each other but before a final injury determination in either case regarding the same merchandise from the same country, only one ITC hearing would be required. The ITC could require a hearing in extraordinary circumstances and would allow submission of additional relevant written comments.

Senate bill

Identical, except the ITC could require hearings during each investigation in "special" rather than "extraordinary" circumstances.

Conference agrement

The Conferees agreed to the Senate provision.

11.b. Time periods (sec. 709 of Senate bill)

Present law

In normal cases, preliminary CVD determinations are required within 85 days, final determination within 75 days thereafter; AD preliminary determinations are required within 160 days, final determinations within 75 days thereafter. Time periods are extended in extraordinary complicated cases.

House bill

No provision.

Senate bill

If a CVD investigation is initiated simultaneously with an AD investigation on the same merchandise from the same countries, the administering authority, if requested by the petitioner, shall extend the date for the final CVD determination to the date of the final AD determination.

Conference agreement

The Conferees agreed to the Senate provision.

12. Verification of Information

12.a. CVD Preliminary determinations (sec. 609 of Senate bill)

Present law

No provision in CVD cases. Section 733(b)(2) provides a procedure in AD cases whereby the administering authority makes a preliminary determination within 90 rather than 160 days if sufficient information is received in the first 60 days and the petitioner and each interested party waives verification of that information.

House bill

No provision.

Senate bill

Provides for expedited CVD preliminary determinations upon waiver of verification similar to the procedure under section 733(b)(2) for AD cases, except the review would occur within 55 (rather than 75) days based on information received within first 50 (rather than 60) days.

Conference agreement

The Conferees agreed to adopt the Senate provision.

12.b. Annual review revocation (sec. 717 of House bill)

Present law

The administering authority is required by section 776(a) to verify all information relied upon in making a final CVD or AD determination. If verification is not possible, the administering authority uses the best information available to it for making the determination. Verification is not required by statute in annual review proceedings under section 751. However, the administering authority normally verifies information where it believes there is a significant issue of law or fact.

House bill

Requires verification of information whenever the administering authority revokes a CVD or AD order.

Senate bill

No provision.

House bill

Requires verification of information used in annual reviews and of outstanding CVD and AD orders if timely requested by an interested party; such verification is not required if it has occurred upon timely request in the two immediately previous annual reviews, except for good cause shown.

Senate bill

No provision.

Conference agreement

The Conferees agreed to adopt the House provision. This amendment generally codifies the current administrative practice of the Department of Commerce. As under current law, the administering authority is authorized to use the best information available as the basis for its action if it does not receive timely, complete, or accurate responses, or if it is unable to verify the accuracy of the information submitted. The express reference in the statute to the use of information submitted in support of the petition as the best information available for purposes of final determinations in investigations should not be interpreted as precluding the administering authority from using the best information available for purposes of administrative reviews.

13. Confidential Information

13.a. Release (sec. 718 of House bill; sec. 606 of Senate bill)

Present law

Information submitted to the administering authority or the ITC designated as confidential cannot be disclosed to any person (other than those directly concerned with carrying out the investigation) without the consent of the person submitting it unless pursuant to a protective order upon receipt of an application which describes the information requested and reason for the request. Legislative history states the expectation that disclosure generally will be made only to attorneys who are subject to disbarment from practice before the agency.

House bill

Permits release of confidential information to an officer or employee of the U.S. Customs Service directly involved in conducting an investigation regarding fraud; provides a standardized procedure for requesting confidential treatment and obtaining release of confidential information; and precludes any distinction between corporate and retained counsel in ITC and administering authority regulations governing issuance of protective orders.

Senate bill

Identical provision in substance, except does not include provision removing the distinction between corporate and retained counsel in issuance of protective orders.

Conference agreement

The Conferees agreed to the Senate provision.

13.b. Definition of terms (sec. 622 of Senate bill)

House bill

No provision.

Senate bill

Substitutes term "proprietary business" for "confidential" throughout section.

Conference agreement

The Conferees agreed to the Senate provision.

14. Judicial review

Present law

Title V of the Tariff Act of 1930, as amended by Title X of the Trade Agreements Act of 1979, provides for judicial review of CVD and AD proceedings initially in the U.S. Court of International Trade (CIT). The Court of Appeals for the Federal Circuit may review the CIT's decision on an appeal. Under section 516A, certain determinations by the administering authority are reviewable by the CIT prior to the issuance of a final determination or the publication of a final order, i.e., certain interlocutory determinations are reviewable immediately even though the administrative proceeding has not been concluded. Those interlocutory findings which may be reviewed immediately include a negative preliminary determination by the administering authority under section 703(a) or 733(a), a determination that a case is "extraordinarily complicated" under section 703(c) or 733(c), and any annual review determinations under section 751.

14.a. Interlocutory appeals (sec. 720 of House bill)

House bill

(1) Eliminates all interlocutory judicial reviews by the U.S. Court of International trade during the course of CVD and AD investigations. All challenges to agency determinations would be combined and reviewable by the court after final agency action has been taken.

Senate bill

No provision.

House bill

(2) Clarifies when negative portions of affirmative determinations may be reviewed: any part of a final affirmative determination by the administering authority which specifically excludes any company or product may, at the option of the appellant, be treated as a final negative determination and may be subject to appeal within 30 days of publication; other negative aspects of an affirmative determination would be appealable within 30 days after publication of a final order, and if an appellant so chooses, appeal of those portions of an affirmative finding which exclude a product or a company may also be appealed within 30 days of publication of a final order, instead of within 30 days of the determination.

Senate bill

No provision.

House bill

(3) Clarifies that a final affirmative determination by the administering authority may be contested when an appeal is based on a negative determination by the ITC that is predicated on the size of the dumping margin or net subsidy.

Senate bill

(3) No provision.

Conference agreement

The Conferees agreed to the House provision.

14.b. Court of International Trade (sec. 603 of Senate bill)

House bill

No provision.

Senate bill

Eliminates the U.S. Court of International trade from judicial review of determinations so all appeals go directly to the Court of Appeals for the Federal Circuit; makes conforming changes in section 2639(a)(1) and 2647 of 28 U.S.C.

Conference agreement

The Conferees agreed to strike the Senate provision.

15. Assessment of CVDs (sec. 711 of Senate bill)

Present law

Section 706 requires publication of CVD order assessing CVD equal to amount of net subsidy determined or estimated to exist.

House bill

No provision.

Senate bill

Presumptively applies a CVD order to all merchandise from the country, except it may provide for differing CVDs if (1) the administering authority determines there is a significant differential between companies receiving subsidy benefits; or (2) a state-owned enterprise is involved.

Conference agreement

The Conferees agreed to the Senate provision.

This provision is intended to lessen the administrative burden on the administering authority stemming from implementing company-specific rates. The amendment continues to permit individual company rates for significant differences in benefits. The administering authority is expected to determine under what conditions company-specific rates are appropriate when one of the requirements of paragraph 2 are met.

16. Security in Lieu of Estimated Duty (sec. 714 of Senate bill)

Present law

Section 736(c) allows waiver of cash deposit for 90 days if administering authority is satisfied based on evidence presented by foreign producers that it can do a review of United States price and foreign market value in 90 days.

House bill

No provision.

Senate bill

Adds the following conditions which must be met before the administering authority may permit posting of bond or other security in lieu of deposit of estimated AD duties:

1. the case was not designated extraordinarily complicated or the final determination was not postponed;

(2) the party provides credible evidence that the weighted average of the amount by which the foreign value exceeds the U.S. price is significantly less than the amount of such excess specified in the AD order; and

(3) the date on foreign market value and U.S. price apply to sales in the usual wholesale quantities and ordinary course of trade and the number of sales is sufficient to form an adequate basis for comparison.

Requires, before permitting posting of bond or other security, that the administering authority (1) make all confidential information available under protective order to all interested parties to the proceeding and (2) afford all interested parties an opportunity to file written comments.

Conference agreement

The Conferees agreed to strike the Senate provision.

17. Administrative Review of CVD or AD Determinations

17.a. Annual reviews (sec. 713 of House bill)

Present law

Section 751(a) requires that at least once during each 12-month period following publication of a CVD or AD order, or notice of suspension of an investigation, the administering authority must (1) review and determine the amount of any net subsidy; (2) review and determine the amount of any AD duty; and (3) review the current status of, and compliance with, any suspension agreement including the amount of any net subsidy or dumping margin involved.

House bill

Requires annual reviews of outstanding CVD or AD orders only upon request.

Senate bill

No provision.

Conference agreement

The Conferees agreed to the House provision. Item 17(a) is designed to limit the number of reviews in cases in which there is little or no interest, thus limiting the burden on petitioners and respondents, as well as the administering authority should provide by regulation for the assessment of antidumping and countervailing duties on entries for which review is not requested, including the elimination of suspension of liquidation, and/or the conversion of cash deposits of estimated duties, previously ordered. Further, the administering authority should be able to revoke antidumping or countervailing duties that are no longer of interest

17.b. Revocation (secs. 702, 707 of Senate bill)

Present law

The administering authority may revoke a CVD or AD order in whole or in part or terminate a suspended investigation after a section 751(a) review.

House bill

No provision.

Senate bill

Requires that during an ITC investigation, the party seeking revocation of an AD order have the burden of persuasion on whether there are changed circumstances sufficient to warrant revocation.

House bill

No provision.

Senate bill

Prohibits negative ITC determinations in its review of section 303 cases by request or revocation of CVD orders or termination of suspended investigations on the basis of offsets.

Conference agreement

The Conferees agreed to the Senate provision. Item 17(b) is intended to clarify the role of the ITC in review investigations under section 751 of the Tariff Act of 1930. In *Matsushita* v. *United States*, 569, F. Supp. 853 (CIT 1983), the court reviewed a decision of the ITC in *Television Receiving Sets from Japan*, Inv. No. 751-TA-2, USITC Pub. No. 153 (1981). The ITC had found that the domestic television industry would be threatened with material injury if the antidumping order on Japanese televisions were to be revoked. The court held that the ITC's review "failed to establish the continuing need for the injury determination", reasoning that "when the continued necessity for the antidumping duty is placed in question by a change in circumstances, the review required by section 751(b) must either find reason for continuation of the duty or lead to revocation." The court held that the ITC's determination was not supported by substantial evidence of threat and had not established the continued need for the antidumping order.

The Managers believe that the *Matsushita* decision incorrectly places the burden of persuasion on the domestic industry in section 751 review investigations. The effect of the *Matsushita* decision is that the ITC's investigation must establish through substantial evidence the continued need for the antidumping order. This standard creates a difficult task for the domestic industry, since the existence of an antidumping order is a discipline on the pricing practices of foreign manufactures. Because the order offsets the effects of any dumping, the order makes it difficult for the industry to show present material injury resulting from the effects of dumping or to point to present demonstrable adverse trends which establish a threat of material injury.

The purpose of section 751 review investigations is to determine whether there are changed circumstances sufficient to warrant revocation of an antidumping order. The ITC must evaluate the changed circumstances alleged to determine whether revo-

cation is appropriate in light of current factor and conditions of trade.

In section 751 review investigations, as in all Commission antidumping and countervailing duty investigations, neither petitioner nor respondent has a burden of proof. The Commission conducts its own fact-finding in antidumping and countervailing duty investigations. The duty of the parties is to cooperate with the Commission's requests for information. The Commission, for its part, has a duty to conduct a thorough investigation within the context of the strict time constraints of the dumping and countervailing duty law and to seek the information necessary for a reasoned determination. See *Budd Company Railway Division* v. *United States*, 507 F. Supp. 997, 1003 (CIT 1980).

The absence of any burden of proof does not mean, however, that a section 751 review is without a burden of persuasion. A foreign manufacturer, after all, is subject to an antidumping order because it was previously found to have engaged in injurious dumping. For that reason, a section 751 review does not begin from an entirely neutral starting point. The party seeking revocation of the order has a burden of persuasion, in the sense that at the end of the investigation, the ITC must be convinced that revocation of the order is appropriate. In short, the ITC must determine that, in light of the "changed circumstances," the revocation of the order will not result in material injury or threat of material injury to the U.S. industry.

18. Critical Circumstances Determinations (sec. 612 of Senate bill)

Present law

If the petitioner alleges, and the administering authority finds critical circumstances in an affirmative preliminary CVD or AD determination, suspension of liquidation applies to unliquidated entries retroactively 90 days, No explicit authority under section 705(a) or 735(a) to make affirmative critical circumstances findings in final determinations, if preliminary finding was negative.

House bill

No provision.

Senate bill

Clarifies that the final CVD or AD determination on critical circumstances may be affirmative even though the preliminary determination (PD) was negative.

If final critical circumstances determination is affirmative, then the administering authority shall—

(1) continue retroactive suspension of liquidation and posting of cash deposit or security if PD on both subsidies or dumping and critical circumstances were affirmative;

(2) apply previous suspension of liquidation and security requirement retroactively 90 days to unliquidated entries if PD on subsidies or dumping was affirmative but critical circumstances negative; or (3) apply any suspension of liquidation and security requirement under section 705(c)(1)(B) to unliquidated entries retroactively 90 days if the PD on subsidies or dumping was negative.

Conference agreement

The Conferees agreed to the Senate provision.

19. Waiver of Deposit of Estimated AD Duties (sec. 613 of Senate bill)

Present law

Scope of section 736(c)(1) covers all merchandise entered into the United States as of the date of the first affirmative AD determination (i.e. whether or not sold to an unrelated purchaser which is necessary to compute price).

House bill

No provision.

Senate bill

Changes scope of section 736(c)(1) to cover only entries entered and resold to unrelated purchasers during the period between the first affirmative AD determination and the ITC's final affirmative determination.

Conference agreement

The Conferees agreed to the Senate provision.

20. Conditional Payment of CVD Duties (sec. 614 of Senate bill)

Present law

No provision.

Section 738 requires prior deposit of estimated AD duties with Customs on all entries or removal from warehouse of merchandise subject to AD order.

House bill

No provision.

Senate bill

Adds section 708, almost identical to section 738 for AD duties, requiring that estimated CVDs be deposited by importer with Customs before merchandise subject to CVD order can be removed from warehouse.

Conference agreement

The Conferees agreed to the Senate provision.

21. Drawbacks (sec. 615 of Senate bill)

Present law

Only AD duties are currently explicitly stated to be normal duties for drawback purposes; CVD duties are not addressed.

House bill

No provision.

Senate bill

Treats CVDs as well as AD duties as other customs duties for drawback purposes.

Conference agreement

The Conferees agreed to the Senate provision.

22. Duties of Customs Officers (sec. 616 of Senate bill)

Present law

In all cases where AD order been published under which entries have not been liquidated, section 739 requires customs officer ascertain and determine or estimate the foreign market value, United States price, and other information necessary to administer Title VII.

House bill

No provision.

Senate bill

Strikes section 739.

Conference agreement

The Conferees agreed to the Senate provision.

23. Commercial Quantities of Merchandise (sec. 617 of Senate bill)

Present law

Uses term "wholesale" quantities in sections 771(14), (17), and sections 773(a)(1) and (a)(4).

House bill

No provision.

Senate bill

Substitutes the term "commercial quantities" for "wholesale quantities".

Conference agreement

The Conferees agreed to the Senate provision.

24. Reseller's Price Transshipments

24.a. Purchase price (sec. 618 of Senate bill)

Present law

No explicit provision in section 772(b).

House bill

No provision.

Senate bill

Amends section 772(b) so a reseller's price may serve as purchase price if it is prior to the date of importation and the merchandise is for exportation to the United States.

Conference agreement

The Conferees agreed to the Senate provision.

24.b. Foreign market value (sec. 619 of Senate bill)

Present law

Under section 773 the foreign market value in an exporter's sales price situation is the price at the time of exportation of the merchandise to the United States.

House bill

No provision.

Senate bill

(1) Amends section 773(a)(1) so the foreign market value in an exporter's sales price situation is the price at the time the goods are sold in the United States to an unrelated party.

Conference agreement

The Conferees agreed to the Senate provision.

House bill

No provision.

Senate bill

(2) Adds provision to treat an intermediate country as the country from which merchandise was exported if: (1) a reseller purchases the merchandise from the manufacturer or producer; (2) the manufacturer or producer does not know the country at time of sale to the reseller; (3) the merchandise is exported by or on behalf of such reseller to a country other than the U.S.; (4) the merchandise enters the commerce of that country but is not substantially transformed; and (5) the merchandise is subsequently exported to the U.S.

Conference agreement

The Conferees agreed to the Senate provision.

25. Sampling and Averaging (sec. 719 of House bill; sec. 608 of Senate bill)

Present law

For purposes of determining foreign market value only in AD investigations, section 773(1) authorizes the administering authority to use averaging or sampling techniques whenever a significant volume of sales is involved or a significant number of price adjustments is required, and to decline to take into account adjustments which are insignificant in relation to the price or value of the merchandise.

House bill

Expands the instances in which the administering authority may use sampling and averaging techniques. Authorizes the administering authority, in determining United States price or foreign market value in AD investigations under section 772 and 773 or in carrying out annual reviews of outstanding AD or CUD orders under section

751, to use averaging or generally recognized sampling techniques whenever a significant volume of sales is involved or a significant number of adjustments to price is required, and to decline to take into account adjustments which are insignificant in relation to the price or value of the merchandise.

Senate bill

Identical provision.

Conference agreement

The House and Senate provisions are identical.

26. Adjustments Study (sec. 732 of House bill; sec. 607 of Senate bill)

Present law

Various statutory adjustments are provided for to obtain comparability between United States price and foreign market value for purposes of determining dumping margins.

House bill

Requires the Secretary of Commerce to undertake a study of current practices that are applied in making adjustments to purchase price, exporter's sales price, foreign market value, and constructed value in determining dumping duties. The Secretary must complete the study within one year after the date of enactment of the bill and submit a written report to the Congress. The report would contain whatever recommendations the Secretary deems appropriate on the need and means for simplifying and modifying current adjustment practices.

Senate bill

Identical provision.

Conference agreement

The House and Senate provisions are identical.

27. Subsidies Discovered during Proceedings (sec. 620 of Senate bill)

Present law

Section 775 uses term "investigation".

House bill

No provision.

Senate bill

Substitutes term "proceeding" for "investigation".

Conference agreement

The Conferees agreed to the Senate provision.

28. Ex Parte Meetings (sec. 621 of Senate bill)

Present law

Section 777(a) requires the administering authority and the ITC to maintain a record of ex parte meetings between persons providing factual information for an "investigation" and the person making the determination or the person making a recommendation to that person.

House bill

No provision.

Senate bill

Amends section 777(a)(3) to provide that ex parte record requirement applies to "proceedings" not just investigations, and shall be written if information relating to that proceeding is presented or discussed.

Conference agreement

The Conferees agreed to the Senate provision.

29. Interest (sec. 623 of Senate bill)

Present law

Section 778 ties interest on over and under payments of AD or CVD duties to publication date of ITC affirmative determination. Interest rate is 8 percent for the rate in effect when duties determined, whichever is higher.

House bill

No provision.

Senate bill

Changes (1) date of interest payable to the date of publication of a CVD or AD order or AD findings; and (2) the interest rate to the IRC level.

Conference agreement

The Conferees agreed to the Senate provision.

30. Compromise of Cases (sec. 706 of Senate bill)

Present law

Section 617 authorizes the Secretary of the Treasury to compromise claims, upon a report by a customs officer or, district or special attorney in charge showing the facts, probability of recovery, and compromise terms.

House bill

No provision.

Senate bill

Amends section 617 not to apply to any CVD or AD duty.

Conference agreement

The Conferees agreed to strike the Senate provision.

31. Definition of Domestic Industry (see 731 of House bill; sec. 212 of Senate bill)

Present law

The term "industry" for purposes of CVD and AD investigations means the domestic producers of a "like product", and the term "like products" has been defined and interpreted to include only those products which are identical or most similar in their characteristics to the imported article. Accordingly, producers of products being incorporated into a processed or manufactured article (i.e., intermediate goods or component parts) are generally not included in the scope of the domestic industry that the ITC analyzes for the purposes of determining injury.

House bill

Defines the domestic industry for purposes of CVD or AD investigations on wine and grape products to include producers of the principal raw agricultural product, if they allege material injury or threat, as well the producers of wine and grape products. A previous petition may be refiled under the section if the purpose is to avail the petitioner of this amendment.

Senate bill

Defines the domestic industry for purposes of CVD or AD investigations on any processed agricultural product to include the producers of the principal raw agricultural products if they allege material injury or threat thereof, as well as the producers of the processed product.

Any previous petition may be refiled under this section.

Conference agreement

Senate recedes to the House with the following modification: the provision would expire after two years.

The ITC should review the possibility of developing distinctions among the types and uses of grapes in the event that dispute in this area arise at other times.

33. References (sec. 701 of House bill; secs. 601, 701 of Senate bill)

Present law

No provision.

House bill

Amendments or repeals of particular provisions refer to provisions of the Tariff Act of 1930.

Senate bill

Identical provision.

Conference agreement

Identical provisions.

32. Effective Dates (sec. 733 of House bill; sec. 625 of Senate bill)

Present law

No provision.

House bill

Date of enactment; sections 711, 713, 714, 715, 719 apply to investigations initiated after enactment; section 720 applies to civil actions pending on or filed on or after enactment.

Senate bill

Date of enactment; sections 604, 608 apply to investigations initiated after enactment; section 603 applies to determinations after enactment.

Conference agreement

Similar to House provisions, with technical amendments to reflect changes in references to section numbers. Contains provisions related section 612(a)(1) to enable refiling of a petition to avail the petitioner of the amendment and to sunset the amendment under that section as of September 30, 1986.

Subject: Small Business Trade Assistance and Trade Monitoring

1. Trade Remedy Assistance (sec. 601 of House bill; sec. 602 of Senate bill)

Present law

No provision

House bill

Establishes a Trade Remedy Assistance Office in the ITC to provide information to the public, upon request, concerning remedies and benefits available under the various trade laws and procedural requirements.

Each agency responsible for administering these laws must provide technical assistance to small businesses (without adequate internal resources nor financial ability to obtain qualified outside assistance) to enable them to prepare and file petitions and applications.

Senate bill

Identical in substance, except it establishes the office in the Commerce Department instead of the ITC and the list of trade laws covered is illustrative, not all inclusive.

Conference agreement

House provision.

2. Small Business Advocate (sec. 624 of Senate bill)

Present law

No provision.

House bill

No provision.

Senate bill

Establishes a Small Business International Trade Advocate Office in the Commerce Department to assist small businesses as (defined in Small Business Act) in preparation for, and participation in, any proceeding relating to administration of U.S. trade laws. The Advocate:

a. may, upon request, initiate a CVD or AD investigation and intervene in any AD or CVD proceeding if the small business is unable to finance initiation or participation;

b. shall have all the rights of an interested party;

c. may request the ITC to conduct not more than 3 investigations annually to assist small businesses in preparing for AD or CVD proceedings; and

d. must report to Ways and Means and Finance Committees annually on its activities.

Conference agreement

Senate recedes.

3. Targeting Monitoring Program (sec. 601 of House bill)

Present law

No provision.

House bill

Requires the ITC to establish a continuing program to monitor and analyze foreign industrial plans and policies in order to discover whether targeting subsidies are being planned or have been implemented. Priority would be given to countries and product sectors in which the U.S. has significant economic or commercial interests, after consultations with other agencies and public comments. The ITC must regularly report the information to the administering authority and make non-confidential information available to the public. Each agency must provide the ITC, upon request, such information as the ITC considers necessary or appropriate to carry out these functions.

Senate bill

No provision.

Conference agreement

House recedes.

4. Industrial targeting studies (sec. 602 of House bill).

Present law

No provision.

House bill

Requires the Secretaries of Commerce and Labor, the USTR, and the Comptroller General to each undertake and submit to Congress not later than 6/1/85 a comprehensive study of problems of foreign industrial targeting including:

a. whether it is an unfair trade practice;

b. whether existing laws adequately address the subsidy element;

c. extent targeting significantly affects U.S. commerce; and

d. any recommended legislation necessary.

Senate bill

No provision.

Conference agreement

House provisions.

Subject: Nonmarket Economy Imports (sections 801-803 of Senate Bill)

1. Establishment of Artificial Pricing Remedy for Nonmarket Economy Imports (Sec. 801 of Senate bill)

Present law

Dumping. Antidumping duties may be imposed on imported products sold at less-than-fair value and that cause or threaten material injury to a domestic industry. Less-than-fair value is the amount by which the foreign market value exceeds the U.S. price of the product.

Subsidies. Countervailing duties may be imposed on imported products benefitting directly or indirectly from a subsidy with respect to the manufacture, production, or exportation of the product. If the country of origin is a signatory to the GATT Subsidies Code or has undertaken similar commitments, then countervailing duties will be imposed only if the subsidized product is injuring or threatening material injury to a domestic industry. However, the Department of Commerce has determined that the countervailing duty laws cannot be applied to nonmarket economy imports. (This decision is pending judicial resolution).

House bill

No provision.

Senate bill

For products imported from nonmarket economy countries, "artificial pricing duties" may be imposed if the products are sold at an "artificial price." The artificial pricing duty is an amount by which the actual price of the product is less than the "minimum allowable import price." If the nonmarket economy country is a GATT member, a signatory to the Subsidies Code, or has undertaken similar commitments, then the imported article must be injuring or threatening material injury to the domestic industry making the like product before duties are imposed.

Conference agreement

The Conferees agreed to strike Senate provisions.

2. Pricing Standard (Sec. 802 of Senate bill)

Present law

In dumping cases, foreign market value is calculated according to the following methodological hierarchy:

a. Home market prices reasonably adjusted for such differences as sales level, physical characteristics, etc.;

b. Prices of exports to countries other than the U.S., similarly adjusted;

c. Constructed value, based on adjusted material cost plus general expenses and profits;

d. For state-controlled economy countries, the home-market price of similar merchandise produced in a surrogate market economy country, or the constructed value in the surrogate.

House bill

No provision.

Senate bill

The "minimum allowable import price" means:

a. the Trade-weighted average price of market economy producers of a like product in their exports to the U.S. in arms-length sales; or

b. if there are no eligible market economy producers, the constructed value of the product in a market economy country; or

c. if the price under the first method cannot be determined, then the price by which similar merchandise is sold by an eligible market economy foreign producer to the U.S., or to other countries if there are no U.S. sales.

"Eligible market economy foreign producers" are producers of like products exporting to the U.S. and not subject to antidumping or countervailing duty orders.

Conference agreement

The Conferees agreed to strike Senate provision.

3. Showing of Injury by U.S. Industry. (Sec. 801 of Senate bill)

Present law

In dumping proceedings, antidumping duties cannot be imposed unless the dumped imported articles are determined to be injuring or threatening material injury to a U.S. industry producing a like product.

In subsidy cases, injury to a domestic industry must be shown only if the imports originate in a country that is a party to the GATT Subsidies Code or has undertaken similar commitments.

House bill

No provision.

Senate bill

Material injury to a U.S. industry producing a like product must be shown only with respect to nonmarket economy countries that are members of the GATT, of the GATT Subsidies Code, or have undertaken similar commitments.

Conference agreement

The Conferees agreed to strike Senate provision.

4. Initiation of Artificial Pricing Investigation (Sec. 801 of Senate bill)

Present law

Dumping and subsidy investigations normally are initiated upon receipt of a petition from an interested party representing the industry marking a product like the imported product. The Commerce Department also may self-initiate investigations.

House bill

No provision.

Senate bill

An artificial pricing investigation may be self-initiated by the Commerce Department or initiated after receipt of a petition from an interested party making a product like the imported article.

Further, if in an ongoing antidumping or countervailing duty investigation the Commerce Department determines that the industry is not market oriented, or that there is insufficient verifiable information to proceed normally, the proceeding will be converted into an artificial pricing investigation.

Conversely, if in an on-going artificial pricing investigation sufficient verifiable information is provided to determine either foreign market value or subsidization, and that the industry under investigation is market-oriented, the investigation will be converted into an antidumping or countervailing duty proceeding, as appropriate.

Conference agreement

The Conferees agreed to strike Senate provision.

5. Procedures for Conducting Artificial Pricing Investigation (sec. 801 of Senate bill)

Present law

The following are the basic elements of both dumping and subsidy investigations:

a. Commerce initiates investigation.

b. ITC begins injury investigation of Commerce initiates.

c. ITC makes preliminary determination of whether there is reasonable indication of material injury.

d. (3) If affirmative, Commerce proceeds to determine preliminarily if there is reasonable basis to believe dumping exists.

e. Commerce makes final determination.

f. If (5) is affirmative, ITC makes final determination of injury.

g. If (6) is affirmative, antidumping order is issued.

In general, the time limits for subsidy cases are shorter than for dumping cases. Also, whether the ITC conducts an injury investigation in a subsidy case depends on the country of origin of the imported product.

House bill

No provision.

Senate bill

The elements, procedures, and time limits for artificial pricing investigations are the same as for normal subsidy investigations.

Conference agreement

The Conferees agreed to strike Senate provision.

6. Effective Date (sec. 803 of Senate bill)

Present law

No provision.

House bill

No provision.

Senate bill

Petitions, requests, resolutions after date of enactment.

Conference agreement

The Conferees agreed to strike the Senate provision.

TITLE VII: AUTHORIZATION OF APPROPRIATIONS FOR FY 1985 FOR THE U.S. INTERNATIONAL TRADE COMMISSION, U.S. CUSTOMS SERVICE, AND U.S. TRADE REPRESENTATIVE

1. U.S. International Trade Commission (ITC) (sec. 801 of House bill)

Present law

Section 330(e)(1) of the Tariff Act of 1930 (19 U.S.C. 1330(e)(1)) requires annual enactment of an authorization of appropriations for the ITC.

Section 175 of the Trade Act of 1974 (19 U.S.C. 2232) requires that the estimated expenditures and proposed appropriations of the agency be included in the President's budget without revision.

House bill

There are authorized to be appropriated for FY 1985 an amount not to exceed $28,410,000, not more than $2,500 of which may be used for entertainment expenses.

Senate bill

No provision.

Conference agreement

House provision.

2. U.S. Customs Service (sec. 802 of House bill)

Present law

Section 301 of the Customs Procedural Reform and Simplification Act of 1978 (19 U.S.C. 2075) requires annual enactment of an authorization of appropriations to the U.S. Customs Service.

House bill

For FY 1985 there are authorized to be appropriated to the Department of the Treasury for salaries and expenses of the U.S. Customs Service an amount not to exced $686,399,000, of which $28,070,000 is for operation of the air interdiction program; no more than $11,000,000 is for implementation of "Operation Exodus" and related programs.

No part of the authorized funds may be used to pay any employee more than $25,000 in overtime pay unless waived by Commissioner to meet emergency.

Senate bill

No provision.

Conference agreement

House provision with an amendment to limit authorization for Operation Exodus to $15 million.

3. Office of the U.S. Trade Representative (USTR) (sec. 803 of House bill)

Present law

Section 141(f) of the Trade Act of 1974 authorized appropriations to the Office of the U.S. Trade Representative in such amounts as may be necessary for the purpose of carrying out its functions.

House bill

Authorizes $14,179,000 for FY 1985, no more than $68,000 of which may be used for entertainment and representation expenses.

Senate bill

Same, except, no more than $80,000 may be used for entertainment and representation expenses.

Conference agreement

House provision with an amendment to provide limit of $80,000 on entertainment and representation expenses.

TITLE VIII STEEL

(The House bill contains only the provisions of the Steel Import Stabilization Act (previously H.R. 6301) The Senate bill contains no parallel to the Steel Import Stabilization Act, but does contain two separate and different provisions, sections 243 and 715, relating to authority to enforce trade restraints on certain steel products. In order to cover all provisions relating specifically to steel trade both Senate provisions appear under the column heading "Senate Bill" and are compared with similar provisions in the House bill.)

1. Short Title (sec. 901 of House bill)

Present law

No provision.

House bill

Steel Import Stabilization Act.

Senate bill

No provision.

Conference agreement

Senate recedes.

2. Findings (sec. 902(a) of House bill)

Present law

No provisions.

House bill

Six findings concerning need to reinvest and modernize; adverse effects of overvalued dollar, deficits, serious injury due to imports of and unfair trade in steel; difficulties of using trade remedy laws; need for expeditious action by Executive branch, including self-initiation; requirement that import relief be tied to commitment to modernize; benefits of full and effective implementation.

Senate bill

No provision.

Conference agreement

Senate recedes with an amendment to the House provision. Paragraph (a)(5) of the findings is amended to read "import relief will be ineffective and will not serve the national economic interest unless the industry during the period of relief engages in serious efforts substantially to modernize and to improve its international competitiveness."

3. Purposes (sec. 902(b) of House bill; sec. 715, 243 of Senate bill)

Present law

No provision.

House bill

To provide the President with authority to enforce bilateral restraint arrangements subject to the condition that the steel industry undertake comprehensive modernization.

Senate bill

Section 715. To monitor and enforce export measures required by a foreign government or customs union.

Section 243. To enforce the terms of the U.S.-E.C. Arrangement on Pipe and Tube.

Conference agreement

Senate recedes.

4. Sense of Congress regarding fair import share (sec. 903(1) of House bill)

Present law

No provision.

House bill

President should use this authority to restore the overall national import share to a level reflecting conditions of fair, unsubsidized competition, a level which the Congress believes should be approximately 17%.

Senate bill

No provision.

Conference agreement

Senate recedes with an amendment to the sense-of-Congress provision regarding fair import share. The conference agreement states the sense of Congress that full implementation of the national policy for the steel industry will result in a steel import market share in the range of 17.0 to 20.2 percent. This range covers the market shares identified both in the House bill and the President's national policy based on his September 18 announcement.

5. Sense of Congress regarding antitrust effects (sec. 903(2) of House bill)

Present law

No provision.

House bill

The national steel policy should not be implemented in a manner contrary to the antitrust laws.

Senate bill

No provision.

Conference agreement

Senate recedes.

6. Sense of Congress regarding future action (sec. 903(3) of House bill)

Present law

No provision.

House bill

If the President's program does not produce satisfactory results within a reasonable period of time, the Congress will consider taking future legislative action.

Senate bill

No provision.

Conference agreement

Senate recedes.

7. Definition of "bilateral arrangement" (sec. 904(1) of House bill)

Present law

No provision.

House bill

"Bilateral arrangement" means any arrangement, agreement, or understanding (including, but not limited to, any surge control understanding or suspension agreement) between the U.S. and any foreign country setting quantitative limitations or other restrictions on the exportation to the U.S. of carbon and alloy steel products.

Senate bill

No provision.

Conference agreement

Senate recedes with an amendment to the House provision, amending "carbon and

alloy steel products" to read "steel products."

8. Definition of "steel products" (sec. 904(2) of House bill; sec. 715, 243 of Senate bill)

Present law

Section 626 applies to "steel mill products" subject to the US-EC Arrangement on Carbon Steel.

House bill

"Carbon and alloy steel products" means articles of the kinds subject to the ITC § 201 investigation (not limited only to products with injury findings) plus TSUS items 652.97 (offshore oil and natural gas drilling and production platforms and parts thereof made of iron or steel) and 653.00 (other fabricated structural units made of iron or steel).

Senate bill

No provision. Refers to "steel products."

Section 243 applies only to steel pipe and tube export, from the EC to the U.S.

Conference agreement

House recedes.

9. Definition of "national policy for the steel industry" (sec. 904(3) of House bill)

Present law

No provision.

House bill

"National policy for the steel industry" means those actions and elements described in Exec. Comm. 4046, dated Sept. 18, 1984 (H. Doc. 98-263), transmitting the President's decision in the section 201 carbon and alloy steel case.

Senate bill

No provision.

Conference agreement

Senate recedes.

10. Definition of "steel industry" (sec. 904(4) of House bill; sec. 715 of Senate bill)

Present law

No provision.

House bill

"Steel industry" means producers in the U.S. of carbon and alloy steel products.

Senate bill

No provision. Refers to "steel products."

Conference agreement

The conference agreement provides that the term "steel industry" means producers in the United States of steel products.

11. Enforcement Authority: General provision (sec. 905(a) of House bill; sec. 715, 243 of Senate bill)

Present law

Authorizes Sec. of Treasury to require presentation of a valid export license or other documents issued by the EC for entry into the U.S. of steel mill products subject to the U.S.-EC Arrangement on Carbon Steel.

House bill

Authorizes President to enforce the quantitative limitations and restrictions (including export measures required by a foreign government) contained in each bilateral arrangement, subject to the annual renewal provisions. Such actions may include, but are not limited to, requirements that valid export licenses or other documentation issued by a foreign government be presented as a condition for the entry into the U.S.

Senate bill

Section 715. Authorizes Sec. of Treasury, upon receipt of a request by the President and by a foreign government, to require the presentation of a valid export license or other documents issued by such foreign government as a condition for entry into the U.S. of steel products specified in the request.

Section 243. Authorizes Sec. of Commerce to request the Sec. of Treasury to take action to enforce the terms of the U.S.-EC Arrangement on Pipe and Tube as identified by the Sec. of Commerce. (Sec. of Commerce determines whether exports are exceeding limits or distortion among categories is occurring).

Conference agreement

12. Senate recedes with an amendment to the House provision. The conference agreement generally is based on the House provision and incorporates compromise provisions with regard to enforcement of the U.S.-EC Arrangement on Export of Steel Pipes and Tubes and short supply circumstances. The conference agreement includes the general enforcement authority contained in the House bill. The authority applies to enforcement of all "bilateral arrangements" regarding steel products. In addition, it includes specific authority with respect to enforcement of the U.S.-E.C. Arrangement on Pipe and Tube. The enforcement authority provided under section 805(b) with respect to the EC Arrangement is subject, however, to a further provision with respect to short supply or emergency economic situations. The conference agreement allows the Secretary of Commerce to permit importation of additional quantities of specific products in cases where the Secretary determines that conditions of short supply or emergency economic situations related to market demand exist, including but not limited to demand for specific products that will be used in processing or further production. Conditions of short supply or emergency economic situations shall not be deemed to exist, however, solely because domestic producers are unwilling to supply products at prices below their costs of production. What constitutes domestic producers' cost of production shall be determined by the Secretary of Commerce. The purpose of this short supply provision is to permit existing restrictions on steel imports to be revised or temporarily altered, for example, when supplies of certain steel products from domestic and other suppliers are unable to meet the market demand for such products by domestic purchasers (including processors and fabricators). Domestic suppliers shall not be considered unable to meet such market demand, however, solely on the basis of their unwillingness to sell their products at prices below their costs of production. This provision is designed to protect domestic purchasers of steel products from undue hardship due to an inability to obtain adequate supplies from domestic sources.

13. Enforcement Authority: Application (sec. 905(b) of House bill; sec. 243 of Senate bill).

Present law

No provision.

House bill

President shall use enforcement authority, to the extent practicable, to cover all product categories, avoid distortions among categories, and cover all countries from which surges in steel exports are being or have been experienced.

Senate bill

Section 243. Regarding U.S.-EC Arrangement or Pipe & Tube, Sec. of Commerce designates limitations on product categories within overall pipe and tube restriction; determines when and to what extent distortion among categories is occurring. Increases in tonnage limits with respect to appropriate categories may be authorized in cases of emergency economic situations related to domestic market demand for pipe and tube (including domestic processing and production).

Conference agreement

Senate recedes.

14. Enforcement Authority: Regulations (secs. 243, 715 of Senate bill)

Present law

Authorizes Sec. of Treasury to provide by regulations for terms and conditions under which steel mill products from the EC attempted to be entered into the U.S. without a valid export license or other document may be denied entry into the U.S.

House bill

No provision.

Senate bill

Sections 243, 715. Authorize the Sec. of Treasury to provide by regulation for terms and conditions under which steel products may be denied entry into the U.S.

Conference agreement

House recedes.

15. Enforcement authority: Duration (sec. 906(a) of House bill)

Present law

No provision.

House bill

Limited to five years, subject to annual renewal provisions.

Senate bill

No provision

Conference agreement

Senate recedes.

16. Enforcement Authority: Annual renewal (sec. 906(a) of House bill)

Present law

No provision.

House bill

In order for enforcement authority to renew for an additional year, President must submit, prior to year-end, an affirmative determination to Ways & Means and Finance, in writing and with reasons for decision. If no such determination is submitted enforcement authority terminates (permanently).

Senate bill

No provision.

Conference agreement

Senate recedes.

17. Annual Determination: Basic test (sec. 906(b)(1) of House bill)

Present law

No provision.

House bill

President must determine that the domestic steel industry, taken as a whole, has, during the previous year, (a) committed substantially all of its net cash flow steel operations to reinvest in and modernization of the steel industry; and (b) taken sufficient action to maintain its international competitiveness, including discipline of costs and prices.

Senate bill

No provision.

Conference agreement

Senate recedes with an amendment to the House provision. The conference agreement includes an overall requirement that the major companies, taken as a whole, commit substantially all of their net cash flow from steel operations to reinvestment and modernization of their steel operations and worker retraining programs, and that the major companies, taken as a whole, take sufficient action to maintain their international competitiveness. This provision of the conference agreement reflects a compromise with respect to the industry-wide cash flow requirement and the company-specific cash flow requirement of the House bill. The conference agreement still requires an analysis of the actions of major companies, as defined by this section, but provides that the annual determination the President must make is with respect to the major companies taken as a whole. The purposes for which net cash flow may be used are generally the same as in the House bill, except that net cash flow may not be used for purposes of payment on debt, because the definition of net cash flow was amended to provide for payment of debt.

Paragraph (1)(A)(ii) requires the major companies taken as a whole, to take sufficient action to maintain their international competitiveness. Such action includes, but is not limited to, action to produce price- and quality-competitive products, to control costs of production, and to improve productivity. Control of costs of production includes employment costs, which refers broadly to wages, benefits and bonuses for both hourly and salaried employees. This compromise provision reflects a concern that both management and labor make significant contributions to the effort to maintain the domestic steel industry's international competitiveness.

18. Annual Determination: Company-specific cash flow requirement (sec. 906(b)(2)(A) of House bill)

Present law

No provision.

House bill

The industry-wide net cash flow requirement will not be met unless each of the major companies with significant reinvestment and modernization needs has committed all of its net cash flow (minus the amount required for worker retraining) to meet those needs.

Senate bill

No provision.

Conference agreement

House recedes.

19. Annual determination: Company-specific worker retraining (sec. 906(b)(2)(B) of House bill)

Present law

No provision.

House bill

The industry-wide net cash flow requirement will also not be met unless each of the major companies that has or reasonably anticipates significant unemployment has committed at least 1% of net cash flow to worker retraining.

Senate bill

No provision.

Conference agreement

Senate recedes with an amendment to the House provision.

The conference agreement requires the President to determine that each of the major companies, during the applicable 12-month period, committed not less than 1% of net cash flow to the retraining of workers. If the President finds that a major company is not in compliance with this provision, however, he is further authorized to waive the requirement with respect to that company, if he finds unusual economic circumstances exist with respect to that company. This waiver authority is not designed to allow companies to avoid the 1% retraining commitment, but is designed to allow the President's general enforcement authority to renew for another year when unusual economic circumstances justify a particular company's commitment of less than 1% of net cash flow to retraining.

The types of retraining programs and assistance which may be included in the 1% commitment and the further interpretation of this requirement with respect to the phrase "retraining of workers" are set forth in House Report 98-1089 with respect to section 6 of H.R. 6301. The retraining assistance provided under this provision shall be made available to current workers and former workers of that major company who were laid off at any time since January 1, 1982.

20. Annual determination: Definition of "major company" (sec. 906(b)(3)(A) of House bill)

Present law

No provision.

House bill

"Major company" means an enterprise whose raw steel production in 1983 exceeded 1.5 million tons; reaches the 8 largest steel producers.

Senate bill

No provision.

Conference agreement

Senate recedes.

21. Annual Determination: Definition of "net cash flow" (sec. 906(b)(3)(B) of House bill)

Present law

No provision.

House bill

"Net cash flow" means annual net (after-tax) income plus depreciation, depletion allowances, amortization, and changes in reserves minus dividends.

Senate bill

No provision.

Conference agreement

Senate recedes with an amendment to the House provision. Net cash flow shall be determined according to generally accepted accounting principles. To determine net cash flow, annual net income is increased by depreciation, depletion allowances, amortization, and changes in reserves. Reserves would generally include noncash expenses such as deferred taxes or inventory reserves. In addition, annual net income is decreased by dividends and payment on short- and long-term debt and other liabilities. The conferees intend that payment on short- and long-term debt and other liabilities means the net reduction in such debt and liabilities, i.e., net cash flow would reflect both reductions and increases in debt and liabilities.

22. Annual Determination: Source of information (sec. 906(b)(4) of House bill)

Present law

No provision.

House bill

President shall base his annual determination on information available from the ITC and other appropriate sources.

Senate bill

No provision.

Conference agreement

Senate recedes.

23. DOL Worker Assistance (sec. 907 of House bill)

Present law

No provision.

House bill

Requires the Sec. of Labor to prepare, in consultation with the tripartite Steel advisory Committee, and submit to Congress within 6 months, a proposed plan of action for assisting workers in communities adversely affected by steel imports, including retraining and relocation assistance. Such plan shall be based on existing authorities, but also recommend additional legislative authority as necessary to carry out the purposes of the plan.

Senate bill

No provision.

Conference agreement

Senate recedes.

24. TAA Authorization (sec. 908 of House bill)

Present law

The worker and firm trade adjustment assistance programs under the Trade Act of 1974 are presently authorized through September 30, 1985.

House bill

Extends the current authorization for worker and firm trade adjustment assistance under the Trade Act of 1974 for 2 additional years, through September 30, 1987.

Senate bill

No provision.

Conference agreement

House recedes.

25. Effective Date of Act (sec. 909 of House bill)

Present law

No provision.

House bill

October 1, 1984.

Senate bill

No provision.

Conference agreement

Senate recedes.

TITLE IX

1. Short Title (sec. 1001 of House and Senate bills)

Present law

No provision.

House bill

"Wine Equity and Export Expansion Act of 1984"

Senate bill

Identical provision.

Conference agreement

House provision.

2. Congressional Findings and Purposes (sec. 1002 of House and Senate bills)

Present law

No provision.

House bill

Lists various findings concerning economic factors affecting the competitiveness of the U.S. wine and grape product industries, including restrictive foreign barriers to U.S. wine exports. The purposes of the bill are to expand wine consumer choice, to encourage wine export promotion, and to achieve greater foreign market access for U.S. wine.

Senate bill

Identical provision.

Conference agreement

House provision.

3. Definitions (sec. 1003 of House and Senate bills)

Present law

No provision.

House bill

Defines various terms used in the Act.

Senate bill

Identical provision.

Conference agreement

House provision.

4. Designation of Major Wine Trading Countries (sec. 1004 of House and Senate bills)

Present law

No provision.

House bill

Requires the USTR to designate major wine trading countries, which are significant potential markets for U.S. wine and maintain tariff and nontariff barriers to (or other distortions of) U.S. wine trade.

Senate bill

Identical provision.

Conference agreement

House provision.

5. Action to Reduce or Eliminate Tariff and Nontariff Barriers Affecting Wine (sec. 1005 of House and Senate bills)

5a. Consultations

Present law

No provision.

House bill

The President must direct the USTR to consult with each country to seek reduction or elimination of its barriers or other distortions of trade in U.S. wine.

Senate bill

Identical provision.

Conference agreement

Senate provision.

5.b. Reports

Present law

No provision.

House bill

The President must submit a report to the House Committee on Ways and Means and the Senate Committee on Finance within 13 months after date of enactment on each country concerning efforts to expand wine exports. Each report would include: (1) a description of each trade barrier; (2) an assessment of the extent each barrier is subject to a trade agreement; (3) action taken or proposed under existing authority to eliminate or reduce the barrier, including, but not limited to, action under section 301 and negotiation or consultations, (4) reasons for not taking such action; and (5) recommendations to Congress on any additional authority or action necessary and appropriate.

Senate bill

Identical provision, except any action includes any action under the Trade Act of 1974 instead of reference to section 301.

Conference agreement

Senate provision.

5c. Presidental Action

Present law

Section 301 of the Trade Act of 1974 provides that basic broad authority for the President to enforce U.S. rights under trade agreements and to respond to other acts, policies, or practices which are unjustifiable, unreasonable, or discriminatory and burden or restrict U.S. commerce. If he determines action is appropriate the President must take appropriate and feasible action within his power to enforce such rights or obtain elimination of the act, policy, or practice, and may (1) suspend, withdraw, or prevent application of trade agreement benefits and (2) impose duties or other import restrictions.

House bill

If the President after taking into account information and advice, has reason to believe a barrier to, or other distortion of, trade in U.S. wine is a violation of or inconsistent with a trade agreement or is unjustifiable, unresonable, or discriminatory and burdens or restricts U.S. commerce, he must take action under section 301, if he determines such action is appropriate.

Senate bill

Identical provision except: (1) The President determines action is appropriate to respond to such acts, policies, or practices; and (2) all appropriate action refers to the Trade Act of 1974 instead of section 301.

Conference agreement

Senate provision.

6. Required Consultations (sec. 1006 of House and Senate bill)

Present law

No provision.

House bill

The USTR must consult with representatives of the wine and grape products industries and with the House Committee on Ways and Means and the Senate Committee on Finance on (1) identifying countries and trade barriers; (2) preparing the report, and (3) whether section 301 action is appropriate.

Senate bill

Identical provision, except consultations on whether action is appropriate applies to any provision of the Trade Act of 1974.

Conference agreement

Senate provision.

7. U.S. Wine Export Promotion (sec. 1007 of House and Senate bills)

Present law

Section 135 of the Omnibus Budget Reconciliation Act of the 1982 (OBRA) requires the Secretary of Agriculture to use not less than $175 million or more than $190 million in each of fiscal years 1983, 1984, and 1985 of funds of the Commodity Credit Corporation (CCC) for export activities authorized to be carried out by the Secretary or by the CCC, in addition to any authorities under other provisions of law.

House bill

Encourages the President to use FY 1985 funds under section 135 of the OBRA to initiate a wine export promotion program in cooperation with winery representatives, and to request an appropriation each following year for the program which is not at the expense of requests for promotion of other agricultural commodities.

Senate bill

Identical provision.

Conference agreement

House provision.

Subject: International Trade and Export Policy Study Commission (Sections 901–906 of Senate Bill)

Establishment of an International Trade and Export Policy Study Commission

Present law

No provision.

House bill

No provision.

Senate bill

Would establish an 18 member commission composed of 6 Senators, 6 Members of the House, and 6 individuals especially qualified because of "education, training, or experience . . ."

The commission would make recommendations regarding changes in the laws and regulations to stimulate exports and to provide for the removal of trade barriers.

The commission would deliver its report to the President by, and will pass out of existence on, 7/1/85.

Conference agreement

Senate recedes.

SENATE BILL REFERRED

A bill of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. 2518. An act for the relief of Therese Nyuwir Poupele Kpoda; to the Committee on the Judiciary.

ENROLLED BILLS SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 2838. An act entitled the "Federal Timber Contract Payment Modification Act";

H.R. 2859. An act for the relief of John Brima Charles;

H.R. 2878. An act to amend and extend the Library Services and Construction Act;

H.R. 2889. An act to amend the National Historic Preservation Act, and for other purposes;

H.R. 3601. An act to modify the boundary of the Pike National Forest in the State of Colorado, and for other purposes;

H.R. 3697. An act to modify Federal land acquisition and disposal policies carried out with respect to Fire Island National Seashore, and for other purposes;

H.R. 4932. An act to withdraw certain public lands in Lincoln County, Nevada, and for other purposes;

H.R. 4994. An act to exempt from taxation by the District of Columbia certain property of the Jewish War Veterans, U.S.A. National Memorial, Incorporated;

H.R. 5223. An act to amend the Federal Meat Inspection Act and the Poultry Products Inspection Act to exempt restaurant central kitchens under certain conditions from Federal inspection requirements;

H.R. 5513. An act to designate the Delta States Research Center in Stoneville, MS, as the "Jamie Whitten Delta States Research Center";

H.R. 5540. An act to provide for restoration of Federal recognition to the Confederated Tribes of Coos, Lower Umpqua, and Siuslaw Indians, to institute for such Tribe those Federal services provided to Indians who are recognized by the Federal Government and who receive such services because of Federal trust responsibility, and for other purposes;

H.R. 5631. An act to provide for the acquisition of a visitor contact and administrative site for the Big Thicket National Preserve in the State of Texas;

H.R. 5782. An act granting the consent of Congress to an amendment to the Delaware River Basin Compact;

H.R. 5818. An act to enable the Consumer Product Safety Commission to protect the public by ordering notice and repair, replacement or refund of certain toys or articles intended for use by children if such toys or articles contain a defect which creates a substantial risk of injury to children;

H.R. 5997. An act to designate the United States Post Office and Courthouse in Pendleton, Oregon, as the "John F. Kilkenny United States Post Office and Courthouse"; and

H.R. 6223. An act to amend the act providing for the incorporation of certain persons as Group Hospitalization, Inc.

SENATE ENROLLED BILLS AND JOINT RESOLUTION SIGNED

The SPEAKER announced his signature to enrolled bills and a joint res-

olution of the Senate of the following title:

S. 566. An act to direct the Secretary of Agriculture to release on behalf of the United States a reversionary interest in certain tracts of land conveyed to the South Carolina State Commission of Forestry, and to direct the Secretary of the Interior to convey certain mineral interests of the United States in such land to such Commission, and for other purposes;

S. 905. An act to establish the National Archives and Records Administration, and for other purposes;

S. 1097. An act to consolidate and authorize certain atmospheric and services programs and functions of the National Oceanic and Atmospheric Administration under the Department of Commerce;

S. 1868. An act to add $2,000,000 to the budget ceiling for new acquisitions at Sleeping Bear Dunes National Lakeshore; and

S.J. Res. 295. Joint resolution to provide for the designation of the week of October 14 through October 20, 1984, as "Myasthenia Gravis Awareness Week."

BILLS PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, a bill of the House of the following title:

H.J. Res. 676. Joint resolution making further continuing appropriations for fiscal year 1985.

ADJOURNMENT

The SPEAKER pro tempore. Without objection, the House will stand adjourned, to meet at 12 o'clock noon on Tuesday, October 9, 1984.

There was no objection.

Accordingly (at 5 o'clock and 55 minutes p.m.) under its previous order, the House adjourned until Tuesday, October 9, 1984, at 12 o'clock noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

4125. A letter from the Deputy Director, Defense Security Assistance Agency, transmitting notification of the Department of the Navy's proposed letter of offer to Singapore for defense articles estimated to cost in excess of $50 million (Transaction No. 85-01), pursuant to 10 U.S.C. 133b (96 Stat. 1288); to the Committee on Armed Services.

4126. A letter from the President and Chairman, Export-Import Bank of the United States, transmitting a report on loan, guarantee and insurance transactions supported by Eximbank during August 1984 to Communist countries, as a result of Presidential Determinations, pursuant to the act of July 31, 1945, chapter 341, section 2(b)(2) (88 Stat. 2334); to the Committee on Banking, Finance and Urban Affairs.

4127. A letter from the Auditor, District of Columbia, transmitting a copy of a report entitled, "Annual Report on Depository Activities, Fiscal Year 1983," pursuant to Public Law 93-198, section 455(d); to the Committee on the District of Columbia.

4128. A letter from the Auditor, District of Columbia, transmitting a copy of a report entitled, "Bi-Annual Audits of the Advisory Neighborhood Commissions for the Period January 1, 1982 Through December 31, 1983," pursuant to Public Law 93-198, section 455(d); to the Committee on the District of Columbia.

4129. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 5-177, "D.C. Unemployment Compensation Act Second Amendments Act of 1984," and report, pursuant to Public Law 93-198, section 602(c); to the Committee on the District of Columbia.

4130. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 5-178, "Real Property Tax Rates Setting Procedures Amendment Act of 1984," and report, pursuant to Public Law 93-198, section 602(c); to the Committee on the District of Columbia.

4131. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 5-179, "Closing of a Public Alley in Square 100 Act of 1984," and report, pursuant to Public Law 93-198, section 602(c); to the Committee on the District of Columbia.

4132. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 5-180, "Mandatory Mail Receptacle Temporary Act of 1984," pursuant to Public Law 93-198, section 602(c); to the Committee on the District of Columbia.

4133. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 5-181, "D.C. Confidentiality of Library Records Act of 1984," and report, pursuant to Public Law 93-198, section 602(c); to the Committee on the District of Columbia.

4134. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 5-182, "Neglect Representation Equity Act of 1984," and report, pursuant to Public Law 93-198, section 602(c); to the Committee on the District of Columbia.

4135. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 5-183, "Real Property Tax Appellate Provisions Amendment Act of 1984," and report, pursuant to Public Law 93-198, section 602(c); to the Committee on the District of Columbia.

4136. A letter from the Secretary of Health and Human Services, transmitting a report on the activities of the Public Health Service, including annual reports on the following: financial disclosure for health maintenance organizations; health maintenance organizations; disease control programs and immunization; health services research, health statistics and health care technology; 5-year plan for family planning services and population research; status of health information and health promotion; and continuation pay for dentists, pursuant to various sections of the Public Health Service Act and 37 U.S.C. 311(c); to the Committee on Energy and Commerce.

4137. A letter from the Deputy Director, Defense Security Assistance Agency, transmitting notification of the Department of the Army's proposed letter of offer to Pakistan for defense articles and services estimated to cost $30 million (Transmittal No. 84-69), pursuant to AECA, section 36(b) (90 Stat. 741; 93 Stat. 708, 709, 710; 94 Stat. 3134; 95 Stat. 1520); to the Committee on Foreign Affairs.

4138. A letter from the Deputy Director, Defense Security Assistance Agency, transmitting notification of the Department of the Army's proposed letter of offer to Switzerland for defense articles and services in excess of $50 million (Transmittal No. 84-70), pursuant to AECA, section 36(b) (90 Stat. 741; 93 Stat. 708, 709, 710; 94 Stat. 3134; 95 Stat. 1520); to the Committee on Foreign Affairs.

4139. A letter from the Deputy Director, Defense Security Assistance Agency, transmitting notification of the Department of the Navy's proposed letter of offer to Singapore for defense articles and services in excess of $50 million (Transmittal No. 85-01), pursuant to AECA, section 36(b) (90 Stat. 741; 93 Stat. 708, 709, 710; 94 Stat. 3134; 95 Stat. 1520); to the Committee on Foreign Affairs.

4140. A letter from the Attorney General, Department of Justice, transmitting a report on the recipients of the Young American Medals for Bravery for the 1983 calendar year, pursuant to the act of August 3, 1950, chapter 520, section 5; to the Committee on the Judiciary.

4141. A letter from the U.S. Trade Representative, transmitting a report on the operation of the International Coffee Agreement for the period of October 1, 1983 to September 30, 1984, pursuant to 19 U.S.C. 1356n; to the Committee on Ways and Means.

4142. A letter from the Comptroller General of the United States, transmitting a report entitled, "Community Services Block Grant: New State Role Brings Program and Administrative Changes," (GAO/HRD-84-76, September 28, 1984); jointly to the Committees on Government Operations and Education and Labor.

4143. A letter from the Secretary of Transportation, transmitting the study of high speed waterborne transportation services worldwide, pursuant to Public Law 95-599, section 320; jointly, to the Committees on Public Works and Transportation and Merchant Marine and Fisheries.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BROOKS: Committee on Government Operations. Occupational illness data collection: Fragmented, unreliable, and 70 years behind communicable disease surveillance (Rept. No. 98-1144). Referred to the Committee of the Whole House on the State of the Union.

Mr. BROOKS: Committee on Government Operations. The Women's Bureau: Is it meeting the needs of women workers? (Rept. No. 98-1145). Referred to the Committee of the Whole House on the State of the Union.

Mr. BROOKS: Committee on Government Operations. Breakdowns in the Department of the Interior's Civil Penalty Assessment and Collections Program have adversely affected the enforcement of the Surface Mining Control and Reclamation Act of 1977 (Rept. No. 98-1146). Referred to the Committee of the Whole House on the State of the Union.

Mr. BROOKS: Committee on Government Operations. Problems plague the Environmental Protection Agency's pesticide registration activities (Rept. No. 98-1147). Referred to the Committee of the Whole House on the State of the Union.

Mr. MOAKLEY: Committee on Rules. House Resolution 606. Resolution providing for agreeing the Senate amendments to H.R. 6163, a bill to amend title 28, United States Code, with respect to the places where court shall be held in certain judicial districts, and for other purposes. (Rept. No. 98-1148). Referred to the House Calendar.

Mr. WHEAT: Committee on Rules. House Resolution 607. Resolution providing for the consideration in the House of S. 2565, a bill to extend programs under the Head Start Act, and for other purposes. (Rept. No. 98-1149). Referred to the House Calendar.

Mr. BEILENSON: Committee on Rules. House Resolution 608. Resolution providing for agreeing to the Senate amendment to H.R. 999, a bill to provide for the conservation, rehabilitation, and improvement of natural and cultural resources located on public or Indian lands, and for other purposes (Rept. No. 98-1150). Referred to the House Calendar.

Mr. MOAKLEY: Committee on Rules. House Resolution 609. Resolution providing for agreeing to the Senate amendment to H.R. 5121, a bill to designate certain national forest system lands in the State of Virginia as wilderness, and for other purposes (Rept. No. 98-1151). Referred to the House Calendar.

Mr. PEPPER: Committee on Rules. H.R. 5247. A bill to amend the Congressional Budget Act of 1974 to improve the congressional budget process, and for other purposes; with amendments (Rept. No. 98-1152, Pt. I). Ordered to be printed.

Mr. MOAKLEY: Committee on Rules. House Resolution 610. Resolution providing for the consideration of House Joint Resolution 659, a joint resolution making further continuing appropriations for fiscal year 1985 (Rept. No. 98-1153). Referred to the House Calendar.

Mr. DINGELL: Committee of conference. Conference report on S. 2616 (Rept. No. 98-1154). Ordered to be printed.

Mr. DINGELL: Committee of conference. Conference report on S. 540 (Rept. No. 98-1155). Ordered to be printed.

Mr. ROSTENKOWSKI: Committee of Conference. Conference report on H.R. 3398 (Rept. No. 98-1156). Ordered to be printed.

SUBSEQUENT ACTION ON A REPORTED BILL

Under clause 5 of rule X the following action was taken by the Speaker:

H.R. 5143: Discharged from the Union Calendar and referred to the Committee on Ways and Means for consideration of such portions of the amendment as fall within that committee's jurisdiction pursuant to clause 1(v), rule X.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. FASCELL (for himself and Mr. BROOMFIELD):

H.R. 6409. A bill to authorize international development and security assistance programs and Peace Corps programs for fiscal year 1985, and for other purposes; to the Committee on Foreign Affairs.

By Mr. PANETTA:

H.R. 6410. A bill to improve and expand benefits for active duty military personnel and their dependents; to the Committee on Armed Services.

By Mr. ASPIN:

H.R. 6411. A bill to provide, through States and employer-employee committees, that services are provided to unemployed persons to facilitate transfer to new employment opportunities, to require the employer to give employees advance notice of layoffs and to give employees relocation options and assistance, and for other purposes; to the Committee on Education and Labor.

H.R. 6412. A bill to provide, in the case of mass layoffs by an employer, through States and employer-employee committees, that services are provided to unemployed persons to facilitate transfer to new employment opportunities, to require, in the case of mass layoffs by an employer, the employer to give employees advance notice of layoffs and to give employees relocation options and assistance, and for other purposes; to the Committee on Education and Labor.

By Mr. BEDELL:

H.R. 6413. A bill to direct the Secretary of Agriculture to carry out an acreage limitation program and a land diversion program for the 1985 crop of feed grains; to the Committee on Agriculture.

By Mr. ENGLISH (for himself and Mr. KINDNESS):

H.R. 6414. A bill to amend the Freedom of Information Act, and for other purposes; to the Committee on Government Operations.

By Mr. EVANS of Iowa:

H.R. 6415. A bill to amend the Internal Revenue Code of 1954 to clarify the conditions under which scholarship and fellowship grants will be excluded from gross income; to the Committee on Ways and Means.

By Mr. FOWLER (for himself, Mr. GIBBONS, Mr. PICKLE, Mr. MATSUI, Mr. THOMAS of California, Mr. DORGAN, Mr. FLIPPO, and Mrs. KENNELLY):

H.R. 6416. A bill to amend the Internal Revenue Code of 1954 to extend the residential energy credit with respect to solar renewable energy source expenditures, with declining percentages of credit, through 1990, and for other purposes; to the Committee on Ways and Means.

By Mr. FRANK:

H.R. 6417. A bill to amend the Act entitled "An Act granting a charter to the General Federation of Women's Clubs;" to the Committee on the Judiciary.

By Mr. GORE:

H.R. 6418. A bill to amend the Agricultural Adjustment Act of 1938 to prohibit the importation of tobacco which has been grown or processed using pesticides and other chemicals whose use has been prohibited in this country for health reasons; to the Committee on Ways and Means.

By Mr. HEFTEL (for himself, Mr. FAZIO, and Mrs. SCHNEIDER):

H.R. 6419. A bill to amend the Internal Revenue Code of 1954 to extend the energy tax credit for investments in certain classes of energy property, and for other purposes; to the Committee on Ways and Means.

By Mr. HEFTEL of Hawaii:

H.R. 6420. A bill to amend the Internal Revenue Code of 1954 to broaden the income tax base, to lower tax rates, and achieve a more neutral tax system by imposing a fair and simple progressive cash flow income tax, and for other purposes; to the Committee on Ways and Means.

By Mr. JONES of Oklahoma (for himself and Mr. FRENZEL):

H.R. 6421. A bill to amend the Internal Revenue Code of 1954 with respect to the treatment of incentive stock options; to the Committee on Ways and Means.

By Mr. WHITTEN:

H.J. Res. 659. Joint resolution making further continuing appropriations for fiscal year 1985; to the Committee on Appropriations.

By Mr. MORRISON of Connecticut:

H.J. Res. 660. Joint resolution to require the U.S. Postal Service to provide and sell a postage stamp issue to honor Walter Camp, the organizer of the game of football in the United States; to the Committee on Post Office and Civil Service.

By Mr. LONG of Maryland:

H.J. Res. 661. Joint resolution to designate May 18, 1985, as "Fallen Heroes Day"; to the Committee on Post Office and Civil Service.

By Mr. SOLARZ:

H. Con. Res. 370. Concurrent resolution condemning the upsurge in international terrorism; to the Committee on Foreign Affairs.

By Mr. O'NEILL:

H. Res. 611. Resolution electing the Honorable Jim Wright, a Representative from the State of Texas, Speaker pro tempore during the absence of the Speaker; considered and agreed to.

By Mr. BILIRAKIS:

H. Res. 612. Resolution to amend the Rules of the House of Representatives to provide that the House may not consider the legislative branch appropriation bill until the House and the Senate have agreed to all other general appropriation bills for the fiscal year; to the Committee on Rules.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 388: Mr. LAGOMARSINO, Mr. BADHAM, and Mr. CLINGER.

H.R. 3487: Mr. DE LA GARZA and Mr. OLIN.

H.R. 3846: Mr. HILLIS.

H.R. 4402: Mrs. BYRON.

H.R. 4466: Mr. ANDREWS of North Carolina, Mr. YOUNG of Florida, Mr. HILLIS, and Mr. BADHAM.

H.R. 5206: Mr. DINGELL, Mr. KILDEE, and Mr. MCEWEN.

H.R. 5370: Mr. GRAY.

H.R. 5396: Mr. DWYER of New Jersey and Mr. LEVIN of Michigan.

H.R. 5487: Mr. WOLF.

H.R. 5582: Mr. MACKAY, Mr. LEHMAN of Florida, Mr. BEILENSON, Mr. CONYERS, Mrs. KENNELLY, Mr. STOKES, Mr. BEDELL, Mr. WEAVER, Mr. DELLUMS, and Mr. DURBIN.

H.R. 5863: Mr. SIMON and Mr. GEJDENSON.

H.R. 5940: Mr. GRAY.

H.R. 6050: Mr. DEWINE.
H.R. 6051: Mr. DEWINE.
H.R. 6053: Mr. MARLENEE.
H.R. 6124: Mr. WALGREN.
H.R. 6158: Mr. HEFTEL of Hawaii.
H.R. 6162: Mr. SCHEUER.
H.R. 6172: Mr. LONG of Maryland.
H.R. 6239: Mr. MADIGAN.
H.R. 6370: Mr. LEVINE of California.
H.J. Res. 134: Mr. CHAPPELL and Mr. SHAW.
H.J. Res. 206: Mr. DE LA GARZA, Ms. FIEDLER, and Mr. MINETA.
H.J. Res. 460: Mr. REGULA, Ms. FIEDLER, Mr. WOLF, Mr. PHILIP M. CRANE, Mr. HILLIS, and Mr. SMITH of Florida.
H.J. Res. 582: Mr. MARTIN of New York.
H.J. Res. 588: Mr. LIPINSKI, Mr. PEPPER, Mr. CONTE, and Mr. YOUNG of Florida.
H.J. Res. 609: Mr. SCHEUER.
H. Con. Res. 158: Mr. GORE.
H. Con. Res. 320: Mr. STOKES.
H. Con. Res. 339: Mr. EMERSON, Mr. BOEHLERT, Mr. VANDER JAGT, Mr. MURPHY, Mr. MCCOLLUM, Mr. ROE, Mrs. COLLINS, and Mr. MCCURDY.
H. Res. 537: Mr. BADHAM, Mr. PHILIP M. CRANE, and Mr. HEFNER.
H. Res. 593: Mr. UDALL, Mr. JEFFORDS, Mr. SCHEUER, Mr. MCNULTY, and Mr. CONTE.

SENATE—*Friday, October 5, 1984*

(Legislative day of Monday, September 24, 1984)

The Senate met at 9:30 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

Lord of mercy and grace, Yom Kippur—Day of Atonement—reminds us that You are a God of love and forgiveness for which we are unspeakably grateful. This is a day for thanksgiving. Thank You for the privilege of working in this place and for the pleasure of associating with so many fine people. Thank You for our leadership, their strength and wisdom, their beautiful spirit of cooperation. Thank You for the Senators and their staffs. We pray especially for those who are up for reelection that You will guide them in their final days of campaigning and provide personal and financial resources to maximize their efforts.

Thank You, dear God, for all the other delightful people who make the Senate run—the officers and their staffs—those who labor so efficiently in the Congressional Record office. Thank You for committee staffs—for hard working friends in the cloak rooms, and for the pages. Thank You for elevator operators, subway workers, food service people, and all who work in maintenance inside and out. Thank You for the attending physician and associates, for the Architect and his staff.

We are profoundly grateful for those who provide security—whose jobs are routine day after day—and yet whose lives could be at risk any moment of the day or night when sudden crisis threatens. Thank You for the 20 years of faithful service of James Milton Powell, Chief of the Capitol Police. Bless him in his retirement. We commend to You our new Chief, James J. Carvino, and ask Your blessing upon him as he begins his new responsibility.

Thank You for the favor of each other's friendship, the joy of working together and thank You, Lord, for all Your blessings to all of us. Amen.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The acting majority leader is recognized.

(Mr. MURKOWSKI assumed the chair.)

SENATE SCHEDULE

Mr. STEVENS. Mr. President, today, after the recognition of the two leaders under the standing order, there is a special order for my good friend from West Virginia, the Democratic leader, [Mr. BYRD]. Following that special order, there is a period for the transaction of routine morning business. I am going to have a series of straws cut and the one who gets the shortest straw can have the 1 minute. We have 1 minute of routine morning business this morning.

Following that routine morning business we will go immediately to the debt limit extension bill, which is House Joint Resolution 654. The short-term extension which was passed last night and sent to the President will continue us through the balance of the day.

The majority leader remains hopeful that we can complete action on the continuing resolution today. I am sad to say I do not bear that confidence. The continuing resolution is not doing well in the conference so far as the defense items are concerned. I think that there is nothing to report to the Senate that is in any way hopeful that we will be able to complete that section of the continuing resolution with dispatch.

We are far below the minimum level set by the conference of the distinguished majority leader of the Senate and the distinguished Speaker of the House. I view that level as being a floor. The House conferees view that level as being a ceiling and they do not seek to come up to the ceiling. And there are very many programs in jeopardy as a consequence of that conflict.

The majority leader has alluded to the schedule of the Senate in the event the Senate does continue its work next week. We would only be here next week if the continuing resolution and the debt limit bill are not completed, as far as votes are concerned, by the beginning of the most important religious holiday for our friends of the Jewish faith. It is an important holiday. We have requests that the Senate not be in session past sundown today. That is a tradition of the Senate to recognize such requests. The leader will have a further statement to make on those requests later today.

For myself, I am hopeful that the Senate will keep in mind that that is a very, very serious request. I cannot imagine the Senate staying in session on Christmas Eve or a similar holiday for those of our Members or the Nation with regard to holidays of the Christian faith or faiths which predominate in our Nation. It does seem to me that, unless the Senate realizes that 6 p.m. is an absolute deadline for votes prior to Monday evening, we will not get finished today, Mr. President.

As I said, having spent the evening—and I think our Subcommittee on Defense Appropriations were the last people to leave the building this morning—I have little hope to report to the Senate that there will be an early resolution of the defense matters of this continuing resolution.

FEDERAL ELECTION CAMPAIGN ACT REPORTS

Mr. STEVENS. Mr. President, I ask unanimous consent that a notice concerning filing and public availability of Federal Election Campaign Act reports be inserted in the RECORD.

There being no objection, the notice was ordered to be printed in the RECORD, as follows:

NOTICE CONCERNING FILING AND PUBLIC AVAILABILITY: FEDERAL ELECTION CAMPAIGN ACT REPORTS

The principal campaign committee of each Senate candidate seeking election in 1984 must file a quarterly report by October 15, 1984. In addition, a 12 day pre-general report is due on October 25 and a 30 day post-general report must be filed by December 6, 1984. Last minute contributions of $1,000 or more received between two and 20 days before the general election must be reported within 48 hours of receipt.

All of the preceding reports must be filed with the Senate Office of Public Records, 232 Hart Building, Washington, D.C. 20510. In general, reports are available to the press, public and Federal Election Commission within 24 hours after they are received. Reports filed on a Friday or Saturday and Special Reports of Last Minute Contributions are made publicly available immediately upon receipt.

Copies of these reports may be purchased at a cost of 10¢ per page. Advance requests for copies may be made but processing will be done on an "as time permits basis".

The Public Records Office will be open, at a minimum, during this pre-election period, each business day from 9 am until 5 pm and Saturday, October 13, 20, and 27 from 10 am until 2 pm. Additional questions should be directed to the Public Records Office (224-0322).

RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER. The minority leader is recognized.

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

Mr. BYRD. Mr. President, I thank the distinguished assistant majority leader for his comments and insight with respect to the remaining work that has to be done before Congress can adjourn sine die.

FAREWELL TO A FRIEND—SENATE JENNINGS RANDOLPH

Mr. BYRD. Mr. President, in Troilus and Cressida, Shakespeare speaks of, "As many farewells as be stars in heaven." To be human is to know the dilemma of a multitude of such farewells. To bid a friend well on his departure is a bittersweet experience at best—a hybrid attended by warm hopes for his future and by sorrow at his leaving.

Such a farewell is my task now.

In 1958, I was elected a Senator from West Virginia in tandem with my good friend and distinguished colleague Senator JENNINGS RANDOLPH—he in 1958 campaigned for the U.S. Senate to serve an uncompleted term. I was elected in 1958 to a full term. For more than a quarter-century, Senator RANDOLPH and I have shared the honor and the duty of representing one of America's most beautiful States, and some of our country's finest people.

In those years, I have often been moved to gratitude and admiration by Senator RANDOLPH. An inveterate humanitarian, Senator RANDOLPH has been tireless in looking for, discovering, and laboring for programs and efforts to help people improve their lives or to take advantage of their opportunities and possibilities. He by nature and temperament thoughtful and courtly, and he has been a study in cooperation and helpfulness.

I have said many times that if every Senator would show the same understanding, cooperation, and patience, as has my senior colleague, leadership in the Senate would be much more enjoyable, and a great deal less burdensome.

No man in the Senate over all our years of service together could have been more fortunate in sharing representation for his State than I have been fortunate in working together with JENNINGS RANDOLPH on behalf of the State and people of West Virginia.

Senator RANDOLPH did not choose to run for reelection this fall. Instead, after a career in the Senate and the House of Representatives which amounts to a commulative 40 years of service spanning 50 years, JENNINGS RANDOLPH is voluntarily retiring from this body, and, in a way, from Capitol Hill. But I hope that he will return to us on Capitol Hill from time to time so that we will indeed continue to be blessed with his counsel and advice. His life spans most of the great events of our century. JENNINGS RANDOLPH has lived during an era when he has seen more progress for mankind than perhaps occurred in all of the previous years, decades, and centuries. His public years span most of the great moments, I would say, of our contemporary era. From that wide prespective and experience of more than fourscore years, JENNINGS RANDOLPH has brought to his Senate duties and to our collective resources a priceless wisdom and a dauntless spirit.

True to his mettle, Senator RANDOLPH may be retiring from the Senate, but not to go sit in a rocking chair. JENNINGS RANDOLPH's life has been full to overflowing with broad and diverse interests—education, health care, rehabilitation, youth, the church, aviation, and industry, to name but a few. As he contributed his challenging, creative ideas and bouyant enthusiasm to those causes in the past, so he will continue to do in the future. The Senate's loss is the gain of the several foundations and institutions with which we have shared Senator RANDOLPH's loyalties and energies, lo, these 26 years.

I know that I speak for all of our colleagues in wishing Senator RANDOLPH the most satisfying experiences in the years ahead, and in offering him the pledge of our everlasting gratitude and appreciation to him for the countless personal courtesies and the fathomless assistance, inspiration, and wisdom that he has given to us as men and women, as friends, and as fellow-public servants.

Mr. President, I ask unanimous consent that an article from today's New York Times with respect to Senator JENNINGS RANDOLPH's pending retirement be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

FROM ROOSEVELT'S OUTINGS TO REAGAN'S GREETINGS

(By Marjorie Hunter)

WASHINGTON.—Within hours after taking his seat in Congress one March day in 1933, Jennings Randolph cast his first vote. Fifty-one years and thousands of votes later, Senator Randolph is ending a Congressional career that spanned nine Presidencies.

The departure of the 82-year-old West Virginia Democrat will ring down a curtain on an era. He is the only member of the current Congress who served in those heady First Hundred Days in which the framework of Franklin D. Roosevelt's New Deal came into being.

He is not only older but also perhaps a bit heavier than when he came to Capitol Hill as a 32-year-old freshman Representative. But his face is nearly unlined, he is still mentally and physically alert and he is considered one of the best-dressed members of Congress.

This week, sitting in an office cluttered with hundreds of pictures and other memorabilia of a past about which he loves to talk, Senator Randolph recalled those early days in Congress.

LACK OF DISCIPLINE IN SENATE

"We were not just a nation on our knees," he said. "We were prone on our backs. Unemployment then was 26 percent. Why, in one area of West Virginia it was over 60 percent."

The Congress he came to as a freshman member of the House, he said, hardly resembles the Congress he is now leaving as a member of the Senate.

"The changes here on Capitol Hill have been dramatic," he said. "There is a lack of discipline in the Senate—a deterioration every year I have been here. I just don't understand it.

"Why, I haven't even been able to get members of the Senate to vote from their desks, as they should. It's like a soccer game down there in the well of the Senate."

A MODERN DIVISIVENESS

There is a divisiveness now in Washington, he said, that did not exist in those early days of Roosevelt's Administration. "We had differences," he went on, "but not deep cleavages. Today, there are fights constantly going one between the White House and Capitol Hill."

However, he said he would miss being in Congress, despite the confusion, because it has become so much of his life. He served 14 years in the House, spent the next 11 years in the airline industry and has served in the Senate for 26 years.

In those Senate years alone, he served with 283 men and women and cast about 10,720 votes.

He is leaving now because of age and, friends says, because he encountered an unexpectedly close race for re-election six years ago.

THE ISSUES HE FOUGHT FOR

Over his years in Congress, principally his long tenure as chairman of the Senate Public Works Committee before Republicans won control of the Senate four years ago, he has been in the forefront of legislation for coal mine safety, help for those suffering from black lung disease, water pollution control, clear air, lowering the voting age to 18, aid to the poor and blind, and development of the Appalachian region and other underdeveloped areas.

He was a prime sponsor, too, of airline safety legislation. Some have called him the "father" of modern American commercial aviation. He led the fight for the Interstate highway system and the fight for creation of the National Air and Space Museum, now Washington's most popular tourist attraction.

His final legislative legacy, Senator Randolph said, was Congressional approval last week of a United States Institute of Peace, a variation on the idea that he espoused 39 years ago when he offered a bill to create a Department of Peace. The institute is to disburse $16 million to universities, research groups and scholars to promote the study of international diplomacy and resolution of conflicts.

ROOSEVELT WAS HIS FAVORITE

It is perhaps not surprising that of the nine men who occupied the White House in Jennings Randolph's years in Congress, Roosevelt was his favorite.

Early in his Administration, President Roosevelt befriended the young West Virginian, inviting him to the White House and on outings. The walls of Senator Randolph's office display numerous framed photographs of President Roosevelt at work and at play.

"Yes, I still consider myself a New Dealer," the Senator said. "We were like a close-knit family. Those were very exciting days."

He also gives high marks to Harry S. Truman ("a great President, one of our best"), John F. Kennedy ("he gave great promise of leadership") and Lyndon B. Johnson ("he was good on education, one of our better chief executives").

BIRTHDAY GREETINGS FROM REAGAN

But Senator Randolph refuses to list those he considers the worst and he prides himself on "working with all our Presidents."

Last March 8, on his 82nd birthday, President Reagan telephoned him from Air Force One on his way to Atlanta, to wish him a happy birthday.

The mementos of four decades in Congress are being packed up now, many of them to be sent to the newly created Jennings Randolph Center for Public Service at Salem College in Salem, W. Va., the college from which he was graduated and which he has served as a trustee for more than half a century.

The center will be housed in the red brick Victorian house in which the Senator was born. It is being moved from Main Street to the college campus.

FOR THE FUTURE, WRITING

Even though the packing-up has begun, Senator Randolph is not leaving Washington for good. He will keep his home here on Cathedral Avenue and divide his time between Washington and an apartment in an Elkins, W. Va., hotel.

Now that his days in Congress are coming to an end, Senator Randolph wants to resume a writing career. While he was at Salem College he covered sports for The Clarksburg (W. Va.) Daily Telegram. Later, he became associate editor of The West Virginia Review in Charleston and then a professor of journalism and public speaking at Davis and Elkins College. He recently completed an article for the magazine U.S. Air, appealing to Americans to get out the vote.

"I'm not going to retire," Senator Randolph said. "I'm just changing jobs."

ORDER OF PROCEDURE

Mr. BYRD. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator has 2 minutes left, and 15 minutes under the special order.

Mr. BYRD. Does any Senator wish time?

Mr. PACKWOOD. Mr. President, I would like some time simply to explain the situation for the record regarding the bill on cable television which has not yet gone to conference.

Mr. BYRD. I yield to the distinguished Senator.

Mr. STEVENS. I will be happy to yield 2 minutes to the Senator.

The PRESIDING OFFICER. The Senator from Oregon.

S. 66—CABLE TELEVISION

Mr. PACKWOOD. Mr. President, about 1 year ago the Senate passed S. 66, a bill relating to cable television. It went to the House and languished in the House for almost a year. Earlier this week after negotiations between all of the parties involved, a bill was passed, but to it was appended a provision relating to affirmative action and employment in the cable television industry. That provision was not on the bill as it passed the Senate. It has come back to the Senate with a message from the House asking for the appointment of conferees. At the moment there are objections from two Senators to the appointments of those conferees because of the addition in the House bill of these affirmative action provisions. We hope we can get agreement on the last day of the Senate. But, if not, we are very close to it. And as the Senate knows, any single Senator can stop the passage of a bill if that Senator chooses to do so. If the leader were to move to appoint conferees, the people who object to the provisions in the bill could object. They could debate that motion, and if by chance the leader simply said, "I am going to do it without them" and the conference report came back with the language they did not like, they could easily filibuster the conference report to the end of the session.

So that is the dilemma I am in today. I cannot get consent to appoint the conferees, and there will be objection if the leader attempts to motion up the message from the House and the appointment of the conferees. If the bill dies—I am not here commenting on the substance of the provision added in the House—it will die because these provisions were added relating to affirmative action in the House and met objection from some Members of the Senate in the closing days when they were able in essence to threaten to kill the bill.

Mr. STEVENS. Why do we not strip off that provision and send it back to the House?

Mr. PACKWOOD. We could well do that. At the moment we have objection to taking up the bill for conferees or otherwise. That is the problem.

Mr. STEVENS. I thank the Senator. I reserve the balance of our time.

I also ask unanimous consent that the time for the distinguished Democratic leader under the special order be reserved for his use later in the day. Does the Senator from Montana seek recognition?

Mr. MELCHER. Mr. President, will the assistant majority leader yield the floor?

Mr. STEVENS. I yield for a question.

SENATE SCHEDULE

Mr. MELCHER. Yes. Have we gotten any indication about the schedule for this morning?

Mr. STEVENS. Mr. President, I would say to my friend that the schedule is that after we have 1 minute of routine morning business, the debt limitation bill will be before the Senate. It will be open to amendment. I do not want to see that 1 minute run until everybody is at the gate, if the Senator knows what I mean. I was about ready to put in a quorum call to assure that everyone was here before the 1 minute started.

Mr. MELCHER. Will the assistant majority leader yield for another question?

Mr. STEVENS. Yes, I would be delighted to.

Mr. MELCHER. Is there any plan, either formal or otherwise, on what amendments will be first offered? The point of my question is that many of us have been waiting to bring up the question of imputed interest.

Mr. STEVENS. I might say to my friend it was my understanding that the Senator from Massachusetts had an amendment dealing with the nuclear freeze. It is generally felt that that would be first. However, there is no way of determining that. Whichever Senator is here and is recognized by the Chair first is the one who is going to present the first amendment today. Knowing the distinguished occupant as I do, I think that he will have a broad spectrum view of the Senate and listen very attentively because I expect there will be several people on their feet seeking recognition.

Mr. President, I ask unanimous consent that the distinguished Democratic leader and I may proceed on separate matters without reaching morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

SURFACE TRANSPORTATION AND UNIFORM RELOCATION ASSISTANCE ACT OF 1984

Mr. STEVENS. Mr. President, I ask that the Chair lay before the Senate H.R. 5504, Calendar 1009.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 5504) to apportion funds for construction of the National System of Interstate and Defense Highways for fiscal years 1985 and 1986, to revise authorizations for mass transportation, to expand and improve the relocation assistance program, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

Mr. BYRD. Mr. President, I have no objection.

There being no objection, the Senate proceeded to consider the bill.

Mr. STEVENS. Mr. President, I move that the Senate strike all after the enacting clause and insert the text of S. 3024, as amended, and that the Senate insist on its amendment and request a conference with the House thereon, and that the Chair be authorized to appoint conferees on the part of the Senate.

The motion was agreed to; and the Presiding Officer appointed Mr. STAFFORD, Mr. SYMMS, Mr. CHAFEE, Mr. DOMENICI, Mr. ABDNOR, Mr. EVANS, Mr. RANDOLPH, Mr. BENTSEN, Mr. BURDICK, Mr. MOYNIHAN, Mr. LAUTENBERG, for title I; and Mr. ROTH, Mr. DURENBERGER, and Mr. SASSER for title II conferees on the part of the Senate.

FOR THE RELIEF OF THERESE NYUWIUR POUPELE KPODA

Mr. STEVENS. Mr. President, I ask the Chair to lay before the Senate Calendar No. 1277, S. 2518.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 2518) for the relief of Therese Nyuwiur Poupele Kpoda.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported by the Committee on the Judiciary.

AMENDMENT NO. 7066

(Purpose: To amend the Immigration and Nationality Act and for other purposes)

Mr. STEVENS. Mr. President, I send an amendment to the desk on behalf of the Senator from Wyoming [Mr. SIMPSON] and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for Mr. SIMPSON, proposes an amendment numbered 7066.

Mr. STEVENS. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 1, line 3, insert the following: "(a)"

On page 2, after line 4, add the following: "(b) Section 101(a)(9) of the Immigration & Nationality Act (8 U.S.C. 1101(a)(9)) is amended by deleting the second sentence thereof."

Mr. SIMPSON. Mr. President, this amendment will delete a provision of the Immigration and Nationality Act which permits the Governors of the Canal Zone and of our "outlying possessions" to issue immigrant and nonimmigrant visas under our immigration laws. This is unwise and unusual. In all other cases, visas are issued by "consular officers" of our State Department. Determining the qualifications of an applicant and the issuance of the visa is an extremely technical process requiring expertise in our immigration laws; a function which should not be delegated to officials without the necessary training or expertise.

This amendment is strongly supported by the administration and is noncontroversial.

Mr. STEVENS. Mr. President, I move adoption of the amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 7066) was agreed to.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on the engrossment and the third reading of the bill.

The bill (S. 2518) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 2518

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, (a) for the purposes of the Immigration and Nationality Act, Therese Nyuwur Poupele Kpoda shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fee. Upon the granting of permanent residence to such alien as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by the proper number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas which are made available to natives of the country of the alien's birth under section 203(a) of the Immigration and Nationality Act or, if applicable, the total number of immigrant visas which are made available to natives of the country of the alien's birth under section 202(e) of such Act.

(b) Section 101(a)(9) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(9)) is amended by deleting the second sentence thereof.

Mr. STEVENS. Mr. President, I move to reconsider the vote by which the bill, as amended, was passed.

Mr. BYRD. Mr. President, I vote to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER OF PROCEDURE

Mr. STEVENS. Mr. President, I see no one seeking time. I reserve the remainder of the majority leader's time. We have reserved the special order for the distinguished minority leader.

ROUTINE MORNING BUSINESS

Mr. STEVENS. Mr. President, I ask for routine morning business.

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business, not to exceed 1 minute.

GENOCIDE CONTINUES TO OCCUR EVEN TODAY

Mr. PROXMIRE. Mr. President, with any luck, we will open our debate on the Genocide Convention later today, after the Senate concludes its debate on the debt ceiling extension bill.

As we prepare for that debate it is important to remember that evidence is mounting that genocide is taking place in two areas of the world even as we debate.

In Iran, the Islamic regime of Khomeini has been engaging in a bloodthirsty campaign against the Baha'is, a peaceful religious group. While Khomeini's regime has reportedly murdered 40,000 people over the last 3 years and incarcerated and tortured another 120,000, the Baha'is seem to be singled out for special treatment solely because of their religion. As Firuz Kazemzadeh, the vice chairman of the National Spiritual Assembly of the Baha'is of the United States, pointed out in a recent letter to Senator PERCY, U.S. ratification of the Genocide Convention may well help their cause. It is unconscionable that Khomeini's actions go unanswered and here is one place where the United States should take the lead once we have ratified the Genocide Convention.

A second country with which we need to be considered is Uganda. In 1978 the United States adopted legislation which recognized genocide as an international crime and joined the international economic boycott of Uganda in an effort to halt genocidal actions there. Today, according to a September 23 story in the Wisconsin State Journal, genocide is still the rule in Uganda. While the article refers to random violence that continues as a result of roving army bands, there does appear to be a systematic campaign against members of the Baganda tribe.

Mr. President, the United States should take the lead in securing international pressure on the Khomeini regime and the Ugandan Government to bring a halt to these terrible tragedies. With the action that we will take on the Genocide Convention, we will be in a position to do just that.

The unfortunate fact is that today, 35 years after President Truman sent the Genocide Convention to the Senate for our advice and consent, we still have our work cut out for us. Genocide continues to plague our world.

Mr. President, I ask unanimous consent that the letter from the Baha'is to Senator PERCY be reprinted in the RECORD as well as the Wisconsin State Journal news report on Uganda.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL SPIRITUAL ASSEMBLY OF THE BAHA'IS OF THE UNITED STATES,

Wilmette, IL, September 25, 1984.

Hon. CHARLES H. PERCY,
U.S. Senate.

DEAR SENATOR PERCY: The American Baha'i community was delighted to learn that the Senate Foreign Relations Committee under your capable chairmanship has decided to ask the Senate to ratify the Genocide Convention. Genocide, though an ancient crime that has been committed too many times in history, is an evil with which the Baha'is are well acquainted, for it is practiced today by the Islamic regime of Iran against Iranian Baha'is.

We hope that the United States Senate will, at long last, ratify the Convention and permit this great country to resume its traditional championship of the first and foremost of human rights, the right to life itself.

Very sincerely yours,

FIRUZ KAZEMZADEH,
Vice Chairman.

GENOCIDE STILL THE RULE IN UGANDA

(By Michael Killan)

At the worst, there is still an element of randomness. A roving army patrol will choose and occupy a village. Soldiers will select a house, if they do not select all houses.

If the man of the house has fled, he is well off, for he would be killed merely because he is a member of the Baganda tribe. If the woman is comely, or even if not, she is in trouble. She is likely to be teased and abused, beaten and tortured—and raped, probably repeatedly. Then she is likely to be killed. Her children will also be murdered. What possessions she has, if any, will be taken. Perhaps her rude hut will be burned.

At the best, if the soldiers do not intrude upon her life, she will merely starve to death. As will her children. Or they will succumb to disease. There is food and medicine enough for them, but it is not to be theirs; a penalty of their tribal birth. It is government policy.

HEAVY CASUALTIES

This is Uganda, the Uganda of the post-Idi Amin, reformist, pro-Western, pro-American regime of the "eminently civil" President Milton Obote, whom Amin, the thug-buffoon-sergeant-turned-field-marshal, had ousted in 1971 and who returned to power in 1980 in what many viewed as the deliverance of this tortured East African country. Since then, he has been fighting "guerrillas," and the casualties have been heavy.

The State Department's most conservative estimate is that 100,000 people, most of them innocents, have died in Uganda since Obote regained power. Other assessments have ranged as high as 200,000. The Obote government acknowledges that a minimum of 15,000 have died violently. A principal death weapon is the machete.

Some 800,000 are believed homeless, many of them crowded into concentration camps. The British, who invented concentration camps in Africa's Boer War and killed more than 20,000 Afrikaaner women and children in the process of exploring the camps' usefulness, were once the colonial masters of Uganda. Their heirs have followed their lessons well.

In the Luwero Triangle southwest of the capital of Kampala, a region Obote considers a hotbed of sedition, the family size has shrunk an astounding 22.5 percent since Obote took power. The death rate for males ages 16 through 40 is 78 percent. For females in that age group it is 22 percent.

COMPLEX DILEMMA

The mass starvation and much of the military brutality are obvious government dictate. Government corruption, charges of rigged elections and a rapidly deteriorating economy have provoked widespread rebellion against the Obote regime, and President Obote has reacted predictably. Much of the carnage, however, is simply being waged by an ill-paid, ill-trained army that is utterly out of control, treating its African victims like so much vermin and shooting helpless Europeans for their wristwatches.

A driving force in all of this is the long-standing rivalry between the majority Baganda tribe and Obote's minority Lango tribe. There also is a north-south rivalry, an Anglican-Catholic rivalry and even a Christian-Moslem rivalry. The Uganda dilemma is as complex as the Northern Ireland and Lebanese conflicts.

But it is genocide, plain and simple. The Reagan administration, said to suffer with "the Jewish vote" for its too-public political embrace of Southern fundamentalist Protestant sects, suddenly has called for ratification of a 35-year-old international treaty against genocide. Ninety-six other countries ratified it long ago.

The treaty defines unlawful genocide as "certain specified acts undertaken with the intent to destroy a national, ethnic or religious group." Uganda more than qualifies under its terms.

The Reagan administration is pressing ahead with its ratification drive despite opposition from ultra-conservatives who assert that the treaty would allow an unconstitutional intervention by foreign powers, should the international community act against American international camps.

But that is all Washington is doing. Elliot Abrams, the heretofore ineffectual State Department major domo for human rights, angrily denounced the Obote-generated genocide when its atrocities were disclosed. For this outburst, the State Department establishment kicked him in the shins and consigned him to Coventry. Quickly afterwards, the "African desk" boys moved in to soothe the ruffled feelings of Obote, who in response to Abrams had ordered an American military attache out of the country and canceled an officer training program.

The State Department establishmentarians argued that there is no politically viable alternative to Obote in Uganda; that without him the country would tear itself apart and further destabilize the region. Also at work is the doctrine promulgated for the Reagan administration by United Nations Ambassador Jeane Kirkpatrick: "totalitarian" communists are evil and must be resisted; "authoritarian" regimes such as Obote's must be tolerated if they are friendly to the United States.

The genocide can be stopped. If it used its clout, the United States could quickly organize a concerted effort by European and amicable African states to put a collective pressure on Obote to do the following: Permit the International Committee of the Red Cross to break open the grain-stuffed warehouses of Kampala and distribute the foodstuff to all the starving of Uganda. Guarantee the Red Cross access to the entire country and so bring world attention to bear upon the machete-wielders. Launch an investigation into a human crime that is every bit as vile as those investigated and prosecuted at Nuremberg. And, most important, immediately confine the Ugandan army to barracks or other garrison posts.

It won't happen. The Ugandan genocide has fallen into a crack of international diplomacy. The U.S. has no great commercial or political interest there, Britain, Uganda's nominal big sister, is content with Prime Minister Margaret Thatcher's policy of not-so-benign neglect, and sniffily resists any notion of American intervention in "a Commonwealth matter."

Unlike the Jewish holocaust survivors of Israel, the Turk-hating Greeks of Cyprus or even the boat people of Vietnam, the victims of Uganda are dying in a genocide that has no diplomatic constituency.

However brutal, however compelling, their deaths are internationally irrelevant. When the crazed, hungry, lustful soldiers come crashing into their huts, the doomed mothers of Luwero and the rest of Uganda must by now realize that they go to their awful fates without anyone in the world willing to do anything about them, most especially including the government of the United States, defender of the free world—and of "authoritarian states."

THE GENOCIDE CONVENTION—AN IDEA WHOSE TIME HAS COME

Mr. GORTON. Mr. President more than 35 years ago, the United States led efforts which produced the Convention on the Prevention and Punishment of the Crime of Genocide. In June 1949, this treaty was submitted to the U.S. Senate for its advice and consent. Today, the Senate still has yet to vote on this matter, reportedly distinguishing the Genocide Convention as the longest standing order of business in the history of this body. I urge my colleagues to resolve this matter once and for all, by overwhelmingly granting their advice and consent before the adjournment of this session of Congress.

Over the years, certain constitutional questions have been raised regarding ratification of the Genocide Convention. These vital and legitimate concerns could not be dismissed lightly. Rather, they have required full airing, analysis, and careful deliberation; the preservation of our constitutional system demands no less. Today, we can say with certainty that the legal questions posed regarding this treaty have been given the attention and deference they so surely have required. Thirty-five years of rigorous debate and review and meticulous analysis by several administrations, by Senate committees, by the professional bar, and by scholars and groups around the country have determined unequivocally, as stated some time ago by William Rehnquist, that "there are no constitutional obstacles to U.S. ratification" of the Genocide Convention.

Nevertheless, I feel that the Senate would be wise to address two concerns which may necessitate that clarifying language be attached to the instrument of ratification. The first deals with the relationship between the U.S. Constitution and the treaty. Although

the Supreme Court has consistently recognized the supremacy of the Constitution over treaties, ambiguity in the instance of the Genocide Convention could be eliminated through an explicit statement of understanding which asserts this supremacy. The second concern has to do with the possible jurisdiction of the International Court of Justice over the U.S. Government or its citizens. While article V of the treaty protects the rights of citizens accused of committing genocide within the United States, I urge consideration of the Foreign Relations Committee recommendation that an understanding be attached which clarifies the provision in article VI dealing with trials of citizens accused of genocide committed outside the borders of the United States.

Just as dedication to the American Constitution and system of government dictated the steady review which has occurred, so too commitment to the democratic ideals for which this country stands requires that we now move forward with the ratification process. The Genocide Convention clearly bears the imprint of the U.S. delegates who served as its principal architects. Some of its specific provisions derive directly from American jurisprudential concepts concerning the rights of the accused. More significantly, the document embodies the most basic of American principles in recognizing the right of all peoples to live freely, under protection of the rule of law, and shielded from those antidemocratic regimes and individuals who might seek their elimination simply because of their race, religion, or ethnic origin.

In a recent statement, President Reagan eloquently underscored the importance of this treaty, and I am proud to lend my voice to the President's request for final action on the matter. I urge my colleagues to do likewise and, in President Reagan's words, to "vigorously support, consistent with the United States Constitution, the ratification of the Genocide Convention."

WHY EXPORT NUCLEAR TECHNOLOGY TO COMMUNIST CHINA?

Mr. PROXMIRE. Mr. President, on October 1 China showed off its arsenal of nuclear missiles for the first time ever. The big show sent shivers down this Senator's spine. Now, it is true that China has its differences with Russia. And the Chinese have been much less hostile to this country since President Nixon pioneered the breakthrough with the Chinese more than a decade ago. And that is not all. The Chinese have departed from the strict Marxist economic doctrine enforced by Mao during his long dictatorship. The October 1 display featured pompom girls, Olympic athletes, and even a release of 10,000 balloons. So, why did this Senator get the icy shivers in reading about this 35th anniversary of China's Communist rule?

There was nothing in the story by Christopher Wren of the New York Times that was specially new and disturbing. But the picture on the front page of the New York Times on October 2 was something else. Dominating the square and the impressive display of conventional and nuclear weapons in Peking, China, were massive pictures—not of any Chinese figure, but of two Russian Communists: Lenin and Stalin. In spite of all the talk of the independence and even the military opposition of the Chinese and the Russians, the two figures that still dominate China were two Russian revolutionaries, both of them vigorous promoters of international Communist revolution by force and violence, if necessary. Those pictures should jar all of us back to reality. China is the biggest country in population on the face of the Earth. It is a full-fledged nuclear power. Is it hard to imagine how quick and easy it would be for China sometime in the near future to align itself militarily once again with Russia?

The New York Times account reported that one missile—China's largest—was capable of carrying a 50-megaton warhead, equivalent to 50 million tons of TNT over a range of 8,000 miles. That happens to be 2,500 times the power of the U.S. missile that blasted Hiroshima to kingdom come. The display also sported missiles that had been test fired from submarines under water and had a range of 2,500 miles. The Times reported that many of the tanks and rocket launchers, though made in China, looked like copies of Soviet equipment.

Mr. President, China has not signed the Nuclear Non-Proliferation Treaty, and yet earlier this year the administration reported a tentative agreement for this country to export nuclear technology to China. That nuclear technology was, of course, designed for peaceful purposes. China presently has no nuclear energy industry. But it does have a powerful and rapidly growing nuclear weapons arsenal. It has a clear record of exporting nuclear military technology to Pakistan and possibly even to South Africa. Unless we provide the most painstakingly careful safeguards, the Chinese could easily divert the weapons grade plutonium byproduct of the nuclear energy fuel and technology we export to them to their own military purposes or to other nations.

Let us put the history of that United States-to-China nuclear export agreement into up-to-date perspective. Last winter the White House announced its intention to reach an agreement for our export of peaceful nuclear technology to China. The White House made the terms of this agreement public. It implicitly recognized that the Chinese would automatically produce weapons grade plutonium from this technology transfer in the course of producing energy in U.S.-supplied reactors. On what did we rely for protection against the diversion of this vital element for the production of nuclear weapons to military purposes?

As far as China itself is concerned, it is already a military power and has ample supplies of weapons grade plutonium. But China as an exporter or proliferator of nuclear technology that could provide plutonium and nuclear weapons potential to other countries was something else. The White House placed its prime reliance on a White House toast by the Chinese Premier, who is reported to have said in the toast, "China does not proliferate." Note the tense. The Premier did not say China had not proliferated. Indeed, he could not have said that because China has been a notorious proliferator. He didn't say "will not." Armed with our peaceful nuclear technology, China could proliferate more than ever in the future. A little after this toast was announced as the prime basis for our making a nuclear technology transfer agreement with the Chinese, the Senate passed an amendment to the Export Administration Act—last February—requiring that every nuclear cooperation agreement negotiated by the President would not become effective until it had received the majority approval of both the House and the Senate. In view of the overwhelming 74-to-16 vote in favor of that amendment in the Republican Senate and the virtual certainty it would have received even more emphatic approval in the Democratic House, the administration recognized that it was in jeopardy of sharing its power to negotiate nuclear cooperation agreements with the Congress. It recognized that it would have to kill or gut the amendment giving Congress the power to debate, discuss and decide approval of nuclear export agreements. The one place it could do the amendment in: the conference between the House and Senate. So it put the Chinese agreement tentatively on the back burner. It reported that the negotiations with China were still in progress.

As we know, the administration was completely successful in destroying the antiproliferation amendment in conference. It succeeded in completely nullifying the Senate amendment that would have given the Congress an effective voice and a decision in nuclear export agreements. With that out of the way, I predict that shortly the administration will announce the consummation of its nuclear export agree-

ment with China with any safeguards, strictly window dressing.

Mr. President, here is one Senator haunted, and I mean haunted, by the vision of the massive Chinese nuclear display with the king-size pictures of Lenin and Stalin watching in the background.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, the matter I am about to deal with has been cleared on both sides. I am advised by staff the minority leader has indicated there is no objection on his part to proceeding.

SAN JUAN BASIN WILDERNESS PROTECTION ACT OF 1984

Mr. BAKER. I ask unanimous consent that the Senate now turn to consideration of H.R. 6296.

The PRESIDING OFFICER. Is there objection? Hearing none, it is so ordered.

The clerk will state the measure.

The legislative clerk read as follows:

A bill (H.R. 6296) entitled "The San Juan Basin Wilderness Act of 1984."

The Senate proceeded to consider the bill.

AMENDMENT NO. 7070

Mr. BAKER. Mr. President, I send five amendments to the desk in behalf of the distinguished Senators from New Mexico, Mr. DOMENICI and Mr. BINGAMAN, and ask unanimous consent that they be considered en bloc.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The clerk will state the amendments.

The legislative clerk read as follows:

The Senator from Tennessee [Mr. BAKER], for Mr. DOMENICI and Mr. BINGAMAN, proposes amendments numbered 7070 en bloc.

(Purpose: To clarify a land exchange between the Bureau of Land Management and the Navajo Tribe in Arizona and New Mexico; for the transfer of certain interests in lands in Dona Ana County, New Mexico, to New Mexico State University, Las Cruces, New Mexico; to provide for the addition of about twenty acres to the Sandia Mountain Wilderness; and to authorize the Secretary of the Interior to sell certain property located in Lake Sumner State Park, in the State of New Mexico)

At the appropriate place, add the following new section:

SEC. . Section 11(a) of Public Law 93-531 (25 U.S.C. 640d-10) is amended—

(1) in paragraph (1) by striking out the last sentence, which begins "Such lands";

(2) by inserting after paragraph (2) the following:

"Subject to the provisions of the following sentences of this subsection, all rights, title and interests of the United States in the lands described in paragraph (1), including such interests the United States as lessor has in such lands under the Mineral Leasing Act of 1920, as amended, will, subject to existing leasehold interests, be transferred without cost to the Navajo Tribe and title thereto shall be taken by the United States in trust for the benefit of the Navajo Tribe as a part of the Navajo Reservation. So long as selected lands coincide with pending noncompetitive coal lease applications under the Mineral Leasing Act of 1920, as amended, the Secretary may not transfer any United States interests in such lands until the noncompetitive coal lease applications have been fully adjudicated. If such adjudication results in issuance of Federal coal leases to the applicants, such transfer shall be subject to such leases. The leaseholders rights and interests in such coal leases will in no way be diminished by the transfer of the rights, title and interests of the United States in such lands to the Navajo Tribe. If any selected lands are subject to valid claims located under the Mining Law of 1872 the transfer of the selected lands may be made subject to those claims."; and

(3) by inserting the following new paragraph:

(2) Those interests in lands acquired in the State of New Mexico by the Navajo Tribe pursuant to subsection 2 of this section shall be subject to the right of the State of New Mexico to receive the same value from any sales, bonuses, rentals, royalties and interest charges from the conveyance, sale, lease, development, and production of coal as would have been received had the subsurface interest in such lands remained with the United States and been leased pursuant to the Mineral Lands Leasing Act of 1920 as amended or any successor Act; or otherwise developed. The state's interest shall be accounted for in the same manner as it would have been if a lease had issued pursuant to the Mineral Lands Leasing Act of 1920, as amended.

At the appropriate place in the bill insert the following:

SEC. . (a) Subject to valid existing rights and except as provided in subsection (b), the Secretary of the Interior is authorized and directed to convey to the New Mexico State University, Las Cruces, New Mexico, at a cost of $2.50 per acre, all right, title, and interest of the United States in and to the following described public lands aggregating approximately 5,711.39 acres in Dona Ana County, New Mexico, to be used for the purpose of conducting educational, demonstrative, and experimental development with livestock, grazing methods, and range forage plants and other agricultural related research:

NEW MEXICO PRINCIPAL MERIDIAN

Township 20 South, Range 1 West

Secs. 16, 32, and 36 all.

Township 21 South, Range 1 East

Sec. 2, and 16 all.

Township 20 South, Range 1 West

Sec. 2, and 16 all;

Sec. 26, north half northeast quarter, northeast quarter northwest quarter;

Sec. 32, north half, north half southwest quarter, north half southeast quarter, southeast quarter southeast quarter; and

Sec. 36, all.

(b) There are reserved to the United States all minerals that may be found in the lands described in subsection (a), together with the right of the United States, its permittees, lessees, or grantees, at any time, to prospect for, mine and remove such minerals.

(c) In the event that the lands described in subsection (b), or any part thereof, are used for any purpose other than those for which conveyance is authorized, title to the entire tract shall immediately revert to the United States without the necessity for further action to accomplish the reversion of title to the United States.

At the appropriate place in the bill, insert the following:

SECTION . In order to relieve the Elephant Butte Irrigation District of any obligation to reimburse the Bureau of Reclamation for leave and severance payments to certain employees of the Rio Grande project separated as a result of the transfer of operation and maintenance responsibilities to the Elephant Butte District, miscellaneous revenues having been collected by the Bureau of Reclamation from the sale or lease of project lands, interests in lands or other sources may be credited to the Elephant Butte Irrigation District for such leave and severance payments and accrued interest penalties on the District's obligations. Penalties shall be assessed up till September 23, 1983.

At the appropriate place in the bill, insert the following new title:

SEC. . An approximate twenty-acre area as shown on a map entitled Sandia Mountain Wilderness additions, dated March 26, 1981, on file in the Office of the Chief of the Forest Service, Department of Agriculture, is hereby added to and made a part of the Sandia Mountain Wilderness: *Provided*, That the Secretary of Agriculture may allow the continuance of the existing diversion dam and existing related facilities conforming to the terms and conditions of maintenance he deems appropriate, including the provision for access and the use of mechanized equipment only for construction and maintenance of existing structures: *Provided further*, That any upgrading of the existing diversion dam shall be completed within four years of the date of this section in accord with the plans approved by the Secretary of Agriculture. The Secretary of Agriculture may extend the time of such reconstruction if he deems such extension is necessary and in the public interest.

At the appropriate place in the bill, insert the following:

SEC. . (a)(1) The Secretary of the Interior (hereafter in this section referred to as the "Secretary") may convey to Sumner Lake Corporation of the State of New Mexico all right, title, and interest of the United States in and to the real property described in paragraph (2), but such conveyance to such corporation may be made only in the event that the State of New Mexico has given a written release to the United States Government from the State's lease of such property.

(2) The real property referred to in paragraph (1) is located in Lake Sumner State Park, in the State of New Mexico, and is more particularly described as follows: all portions of sections 28 and 34 in township 5 north, range 24 east, that are more than 4,280 feet above sea level. The acreage and legal description of such real property shall be determined by the Secretary after consulting with Sumner Lake Corporation.

(b)(1) In consideration for the conveyance authorized in subsection (a), Sumner Lake Corporation shall pay to the Secretary for deposit in the United States Treasury the fair market value of the real property conveyed as determined on the date of such conveyance. Such fair market value shall be determined by the Secretary by means of an appraisal conducted in accordance with established appraisal procedures.

(2) Any administrative cost incurred by the Secretary incident to any conveyance under subsection (a), including any surveying cost, recording cost, or legal cost, shall be reimbursed by Sumner Lake Corporation.

(c)(1) Any conveyance under subsection (a) shall reserve to the United States all oil, coal, and other minerals in the real property conveyed, and the right to prospect for, mine, and remove such oil, coal, and other minerals. Any damage sustained by any surface owner as a result of the exercise of any right reserved in this paragraph shall be reimbursed by the United States or the lessee of such right.

(2) Any conveyance under subsection (a) shall not affect any easement, servitude, or right-of-way existing with respect to the real property conveyed on the date of such conveyance.

(3) The Secretary may attach to any conveyance under subsection (a) any additional conditions and reservations that the Secretary determines to be appropriate.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 7070) was agreed to.

Mr. DOMENICI. Mr. President, I thank the distinguished majority leader for helping us expedite this important matter. This is of very great importance to New Mexico. It creates some wilderness area in our State and clarifies the existing situation with regard to coal leases in some very special areas in our State. I am very grateful to all those who helped us get the matter to this point so it is now passed.

Mr. BAKER. Mr. President, I thank the distinguished senior Senator from New Mexico. I yield now to the junior Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I join in thanking the Senator from Tennessee, the majority leader, for his help and the help of many others in getting this measure cleared for action in the Senate.

I am pleased to sponsor the San Juan Wilderness Act of 1984, a wilderness bill that has broad public and private support in New Mexico. This act designates the first Bureau of Land Management [BLM] Wilderness areas in New Mexico. The Bisti and De-na-zin Wilderness areas are significant additions to the National Wilderness Preservation System. The act also directs BLM to manage the 2,720 acres comprising the fossil forest in a manner to protect and enhance its unique natural, paleontological and scientific values. This act demonstrates that it is possible to find solutions to complex land status and resource problems within wilderness study areas and other unique lands in ways that serve the needs of all parties.

It was important to take this action at this time even though the Department of the Interior had not finalized its wilderness recommendations. This was necessary to ensure that the wilderness option would not be precluded by other conflicting land use decisions in the region. The BLM in New Mexico accelerated the study process for these lands for the same reason and has issued draft recommendations for the areas. Because of the coal leasing schedule and the complex nature of land ownership, land patterns and land uses in the area, it was necessary to exchange lands and/or leases in order to provide for wilderness protection. It was, therefore, important that the wilderness decision be made concurrent with the other land use decisions for the San Juan basin.

After consultation with the State of New Mexico, the BLM study area boundaries have been modified in De-na-zin to include 2,520 acres of lands owned by the State of New Mexico. This modification will significantly enhance the wilderness proposals by providing a more logical geographical and topographical unit. The De-na-zin area also contains one section of split-estate land, that is, land where the surface is under Federal control and the subsurface is owned by the State. In the case of the De-na-zin, we were able to reach an agreement with the State to exchange for its interests in the one section of land within the De-na-zin area.

The act also directs the Secretary of the Interior to negotiate land exchanges to acquire all state lands and interests within the proposed boundaries of the De-na-zin. The language sets specific time frames and procedures for this exchange to ensure that the exchanges are initiated and completed as soon as possible.

There is an inholding of 1,280 acres of Indian allotment trust lands within the De-na-zin, which will become wilderness only if a land exchange which is agreeable with the individual allottees can be arranged. The act also provides rights of historic access to the occupants of the Navajo trust lands.

The act does not include mention of the Wilderness Study Area known as Ah-she-sle-pah; however, I understand the Ah-she-sle-pah remains a BLM wilderness study area, to be managed under the provisions of section 603 of the Federal Land Policy and Management Act. Although the area is not being designated as wilderness by this act, support for its eventual inclusion in the National Wilderness Preservation system remains strong. The State of New Mexico, New Mexico conservationists and the Navajo Nation all agree that the Ah-she-sle-pah is a unique area which deserves protection. It is my hope that after the complex issues surrounding the Ah-she-sle-pah, preference right lease applications, Navajo selections, and so forth, are resolved, we can work together to provide protection for the area.

In recognition of the paleontological and scientific values of the fossil forest, the act directs the BLM to conduct a long-range study to determine how to manage the resource values of the area. To ensure that these resources are protected, the area has been withdrawn from all forms of appropriation under the mining laws and from disposition under all laws pertaining to mineral leasing and geothermal leasing.

The scientific resources of the fossil forest are unparalleled in this country, and perhaps unique in the world. It was agreed that because of the scientific significance of the area, the Bureau should prepare a detailed, long range management plan for the area and forward this plan to the Congress within 8 years. Additionally, a large portion of the fossil forest area has been selected by the Navajo tribe pursuant to the Navajo/Hopi Resettlement Act; however, the tribal leadership has assured me that it wishes to protect the unique scientific values of those lands. Additionally, the act provides for lieu selections by the Navajos in the fossil forest area.

KEY AMENDMENTS

There are two amendments to this bill that are important to the Navajo tribe, the State of New Mexico, and the economic development opportunities in the San Juan Basin.

One amendment clarifies the Navajo/Hopi Resettlement Act to recognize that the Navajo tribe will receive the surface and subsurface rights to all Federal lands transferred to the tribe under the act. It further provides that the Secretary of the Interior will not transfer any U.S. interests in the lands where there are noncompetitive coal lease applications that have not been fully adjudicated. It the adjudication results in the issuance of Federal coals leases to the applicants, the transfer will be subject to these leases. Thus, any rights of the leaseholders will be protected.

A second amendment will preserve the State's existing share of royalities from the conveyance, sale, lease, development, and production of coal on Federal lands transferred to the Navajo tribe under the Navajo/Hopi Act.

The San Juan Wilderness Act of 1984 represents a compromise of many diverse interests in New Mexico. I am grateful to those who made this legislation possible. I urge my colleagues to support this bill.

The PRESIDING OFFICER. Is there further amendment?

There being no further amendments, the question is on the engrossment of the amendment and the third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill (H.R. 6296), as amended, was read the third time and passed.

Mr. BAKER. I move to reconsider the vote by which the bill was passed.

Mr. DOMENICI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

COLORADO RIVER BASIN SALINITY CONTROL ACT

Mr. BAKER. Mr. President, this has been cleared with the minority leader, I am advised, through staff.

I ask unanimous consent that the Senate turn to consideration of H.R. 2790.

The PRESIDING OFFICER. Without objection, the clerk will state the bill by title.

The legislative clerk read as follows:

A bill (H.R. 2790) to amend the Colorado River Basin Salinity Control Act to authorize certain additional measures to assure accomplishment of the objectives of title II of such Act, and for other purposes.

AMENDMENT NO. 7071

(Purpose: To increase non-Federal cost sharing for salinity control, and to provide for a minimum non-Federal cost-sharing contribution toward the cost of certain on-farm salinity control measures)

Mr. METZENBAUM, Mr. President, I send two amendments to the desk and ask unanimous consent that they be considered as if they were one.

The PRESIDING OFFICER. Is there objection?

Mr. BAKER. Mr. President, I was distracted. What was the request?

Mr. METZENBAUM. That the two separate amendments I have sent to the desk be considered as one.

Mr. BAKER. I have no objection, Mr. President.

The PRESIDING OFFICER. Without objection, the clerk will state the amendments en bloc.

The legislative clerk read as follows:

The Senator from Ohio [Mr. Metzenbaum] proposes an amendment numbered 7071 en bloc.

Strike section 4(b) of the bill in its entirety and insert in lieu there of the following, and re-identify the subsequent paragraphs of section 4 of the bill accordingly:

(b) Section 205(a)(1) of such Act is amended by inserting before "shall be non-reimbursable." the words "authorized by section 202(a) (1), (2), and (3), including 75 per centum of the total costs of construction, operation, and maintenance of the associated measures to replace incidental fish and wildlife values foregone, 70 per centum of the total costs of construction, operation, maintenance, and replacement of each unit or separable feature thereof authorized by section 202(a) (4) and (5), including 70 per centum of the total costs of construction, operation, and maintenance of the associated measures to replace incidental fish and wildlife values foregone, and 70 per centum of the total costs of implementation of the on-farm measures authorized by section 202(c), including 70 per centum of the total costs of the associated measures to replace incidental fish and wildlife values foregone,". Section 205(a)(1) of such Act is further amended by adding at the end thereof "The total costs remaining after these allocations shall be reimbursable as provided for in paragraphs (2), (3), (4), and (5), of section 205(a)".

(c) Section 205(a)(2) of such Act is amended by striking "Twenty-five per centum" and inserting in lieu thereof "The reimbursable portion".

In section 2(c) of H.R. 2790, after "research, demonstration, and education activities.", add the following:

"(F) in entering into contracts or agreements pursuant to section 202(c)(2)(C), require a minimum of 30 per centum cost-sharing contribution from individuals or groups of owners and operators of farms, ranches, and other lands as well as from local governmental and non-governmental entities such as irrigation districts and canal companies, unless the Secretary finds in his discretion that such cost-sharing requirement would result in a failure to proceed with needed on-farm measures.".

Mr. METZENBAUM. Mr. President, the two amendments I am offering today represent an important advance in the ongoing effort to require greater local cost sharing of western water resource projects.

The first amendment increases the State share of the Salinity Control Program from 25 percent up-front payment to 30 percent.

When the salinity bill was originally offered in the Senate more than 2 years ago, it required the State to pay 25 percent of the program cost, without interest, over 50 years. That translates into roughly a 5-percent up-front payment, in 1984 dollars. I opposed that level as ridiculously and unacceptable low. This amendment establishes the local share at a level six times the original amount.

The second amendment requires the Secretary of Agriculture to recover a minimum of 30 percent from farmers participating in the on-farm Salinity Control Program. This farmer contribution is in addition to the 30-percent State share.

The original bill left the cost-sharing requirement of farmers entirely up to the discretion of the Department of Agriculture. While USDA has sought responsibile cost-sharing levels to date, this amendment ensures that we will continue to receive a healthy payment from local beneficiaries of salinity control.

In sum, assuming a $456 million program through the year 2000, including an $84 million contribution from farmers, the local-State share of the program would rise from $102 million or 22 percent under the original bill, to almost $200 million, or 43 percent under the pending bill. That 43 percent level is comparable to the 45-percent cost-sharing burden imposed on States participating in the EPA Wastewater Treatment Program, the Government's other major water quality effort.

I want to take note of the role played by the Colorado River Basin salinity control forum, which represented the seven States affected by this measure. I have spent a great deal of time in recent years criticizing western water interests for refusing to accept their obligation to bear a greater share of the costs of projects in their region. But members of the salinity control forum brought an enlightened, flexible, and responsible attitude to this issue. They demonstrated exceptional willingness to meet and resolve the concerns I raised, as well as those concerns raised by the environmental community.

I hope that the constructive atmosphere in which this issue was handled becomes the hallmark for future negotiations between those of us with deep, though differing, concerns about western—and national—water development policies. For example, it was particularly noteworthy that the States, recognizing that the 25 percent, interest-free, 50-year repayment language would never be enacted, voluntarily amended their proposal to bring the level to 25 percent up-front. It is that kind of realism and responsibility that has brought us to the point where this bill can be enacted.

Mr. President, I point out that the National Wildlife Federation does enthusiastically support this amendment and has indicated their recognition of the fact that it is a major accomplishment both to assure more active and responsible participation in the program by the States of the Colorado Basin and to divide the financial responsibility for the program in a manner that approximates the Federal and non-Federal shares of the Nation's other water quality projects and programs.

Mr. President, I ask unanimous consent that the National Wildlife Federation letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

NATIONAL WILDLIFE FEDERATION,
Washington, DC, October 4, 1984.

Hon. HOWARD METZENBAUM,
Russell Building,
Washington, DC.

DEAR SENATOR METZENBAUM: The National Wildlife Federation enthusiastically supports your amendment to H.R. 2790, the Colorado River Basin Salinity Control Act Amendments. This amendment, which would require an increase in locally-derived contributions to the salinity control program, is a significant advance in the drive toward greater cost sharing for Federal water resource development projects. It is a major accomplishment both to ensure more active and responsible participation in this program by the states of the Colorado Basin, and to divide the financial responsibility for the program in a manner that approximates the Federal and non-Federal shares of the Nation's other water quality projects and programs.

When I wrote to members of the Senate Committee on Energy & Natural Resources about this legislation on August 24, the Federation had deep reservations about the bill and urged greater attention to such issues

as cost-sharing, cost-recovery, improved project planning, and fish and wildlife mitigation. With your support and involvement, the basin states and the conservation community have been able to achieve an unprecedented agreement on what promises to be a workable and innovative approach to water resource management.

In summary, we support enactment of H.R. 2790, with the Metzenbaum Amendment, because the bill and its associated legislative history:

Maintains and strengthens planning and evaluation criteria for salinity control projects;

Improves the procedures for the repayment of reimbursable costs;

Ensures that fish and wildlife habitat will be replaced whenever salinity control projects are implemented; and

Requires significantly greater levels of non-Federal support than would be achieved under current law or under the House-passed bill.

We commend you for your sponsorship of this important amendment.

Sincerely,

JAY D. HAIR.

Mr. BAKER. Mr. President, there was a unanimous consent request granted that the two amendments, that is, a first- and second-degree amendment, be considered en bloc; is that correct?

The PRESIDING OFFICER. That is correct.

Mr. BAKER. That is the question before the Senate?

The PRESIDING OFFICER. That is the question before the Senate.

Mr. METZENBAUM. Mr. President, I do not think they are first- and second-degree amendments. They are two separate amendments.

The PRESIDING OFFICER. The Senator is correct; they are two separate amendments considered en bloc.

The question is on agreeing to the amendment.

The amendment (No. 7071) was agreed to.

Mr. METZENBAUM. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BAKER. Mr. President, is there a second-degree amendment?

Mr. METZENBAUM. No.

Mr. BAKER. I thank the Senator.

Mr. METZENBAUM. That takes care of the entire matter. I thank the majority leader for his cooperation.

Mr. BAKER. I thank the Senator from Ohio.

Mr. ARMSTRONG. Mr. President, I begin by thanking the chairman of the Agriculture Committee, Senator HELMS the chairman of the Senate Energy and Natural Resources Committee, Senator MCCLURE, and Senate Energy Water and Power Subcommittee chairman, DON NICKLES, and their staffs for their untiring efforts and support in scheduling hearings and moving the Colorado River Basin salinity control amendment legislation (H.R. 2790/S. 752 and H.R. 3903/S. 1842) forward for Senate consideration.

Fifteen million people in the seven States from Wyoming to California depend upon the waters of the Colorado River to irrigate over 1.5 million acres of farmland, to quench the thirst of thriving metropolitan areas, to provide numerous and diverse recreational opportunities, and to generate substantial amounts of clean, renewable hydroelectric power. Simply put, the Colorado is one of the Nation's most relied upon rivers. Moreover, the river is important from an international standpoint and is the subject of a treaty with the Republic of Mexico.

Therefore, it should come as no surprise that the seven Colorado River Basin States have a vested interest in protecting the river's water quality for present and future generations. The object of our mutual concern is salt loading—about 9 million tons per year, resulting in estimated economic damages, primarily in the lower basin States, of over $100 million per year.

The salt entering the river comes from both natural and man made sources. The contribution from the latter comes in large part from irrigated agriculture. This is a consequence of the saline soils and sedimentary rocks in the basin, from which salts are leached as irrigation water percolates through the soil and runs off fields on its way back to the river.

In recognition of the Federal responsibility to address this water quality problem, Congress passed the Colorado River Basin Salinity Control Act in 1974 (P.L. 93-320). The act authorized the Bureau of Reclamation to plan and construct salinity control units which would reduce salt loading of the river from both natural and man-made sources. The Bureau's activities have focused on salinity control measures such as canal and lateral lining and capture of saline springs before their waters reach the river.

Since the passage of the 1974 act, it has become evident that the Bureau's program and the Department of Agriculture program for improvements in on-farm irrigation practices are an efficient and cost-effective means of reducing salt loading to the Colorado River. However, it is apparent that the Department of Agriculture's existing authorities for the on-farm program are inadequate for the job at hand.

For this reason, the bill authorizes the Department of Agriculture to implement a voluntary, cooperative program of technical and cost-sharing assistance for private landowners in order to improve on-farm water management practices. From practical experience in the Grand Valley in Colorado, we know the importance of on-farm practices and the need for specific authorizing legislation to enable the Department to take steps to assist interested farmers in improving their irrigation practices.

H.R. 2790—the comprehensive salinity bill passed by the House on October 2, 1984, gives the Department of Agriculture a comprehensive on-farm program and makes needed amendments to the Bureau of Reclamation ongoing salinity control program. With a few exceptions, this bill is essentially the same as the amended version of S. 752, sponsored by myself and the other 13 Colorado River Basin State Senators last March.

H.R. 2790 and its Senate companion version are unanimously supported by the seven basin States of Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming and their 14 Senators. As passed by the House, it also has the support of many environmental organizations, including the Environmental Policy Institute and the National Wildlife Federation. In addition, the seven States have agreed to an additional Senate amendment relating to the State and local cost share of the projects authorized under this bill. As written, H.R. 2790, provides for a cost share of 25 percent. The Colorado Salinity Basin Control Forum, representing the seven Colorado River Basin States, has agreed to raise that cost share to 30 percent, including interest. In dollar terms, this agreement will raise the State and local share from approximately $84 million to $112 million.

H.R. 2790, as amended, represents a very workable and reasonable compromise, and I wish to commend all the parties on their efforts to reach this point.

I am extremely grateful to my colleagues for all their help in getting this very important legislation enacted. It is a critical step forward in the battle against salt pollution of the Colorado River.

Thank you.

Mr. HART. Mr. President, I rise today to urge support for H.R. 2790, legislation authorizing certain additional salinity control measures in the Colorado River Basin. I strongly support enactment of this legislation and urge favorable and expeditious consideration by the Senate today.

Colorado River is the water lifeline for over 17 million people in the seven Colorado River Basin States of Arizona, California, Nevada, New Mexico, Utah, Wyoming, and Colorado. The River supplies water for a host of uses, including agricultural and municipal needs. In addition, the river has been harnessed to generate hydroelectric power, and provide a variety of recreational opportunities. It is no wonder that the quality of this important river is of utmost concern to the seven basin States.

The single most prevalent water quality problem is that of salt loading in the river. Salt and minerals in the water are derived from both natural and artificial sources. With respect to the latter, return flows and groundwater percolation from irrigated agriculture account for a large percentage of the salt leaching.

A much larger percentage, however, is derived from sources on Federal lands and subsoils under federal irrigation projects financed years ago when if was clear Federal policy to encourage settlement in our part of the country. Seventy percent of the lands in the Colorado River Basin are federally owned and it is estimated that one-half the salt contribution to the river is derived form sources on these lands.

This fact and existing treaty obligations with Mexico clearly establish some Federal responsibility to water quality in the river.

The Colorado River salinity problem was first addressed by Congress with passage of the Colorado River Basin Salinity Control Act of 1974 (P.L. 93-320). This act directed the Secretary of the Interior to establish salinity control units and study and plan for others. Much of Interior's subsequent work has been directed at improving water delivery and distribution systems.

With the experience and success which has been gained during the first 10 years of the salinity control program, it has become evident that these measures are a cost effective means of reducing salt loading in the river. However, after detailed review and long discussions about the existing program, it has been determined that the original 1974 act is in need of revision.

The legislation before the Senate today, H.R. 2790, provides for the authorization of certain revisions and four additional salinity control units. After extensive consultation with a variety of different interests, including local and national environmental groups, I believe this legislation accommodates all the formal requests and concerns of the various parties. The continued reduction of salt loading which can be achieved through these additional program efforts is critical to the overall efforts to maintain salinity concentration in the lower mainstem of the Colorado River. This program will enable local landowners, the States, and Federal Government to maintain salt at the level occurring in 1972 while the basin States continue to plan development of their compact apportioned waters.

In summary, I reiterate my support and urge the Senate's support of this legislation which is critical to maintain and reduce the salt content of Colorado River waters. I commend the efforts of all those who have tirelessly worked toward passage of this legislation, including representatives of the individual States, the Colorado River Basin Salinity Control Forum, and elected officials from the Colorado River Basin.

Mr. WALLOP. Mr. President, yesterday the House passed H.R. 2790, a bill to authorize additional measures for the Colorado River salinity control program.

One of the driving forces behind this legislation is the desire of the Colorado River Basin States to construct the water projects necessary to reduce the salinity levels in the Colorado River. This, in turn, will help us move closer to the regional and national goals which underpin the Colorado River Basin Salinity Control Act.

Despite all efforts to date, the saline content of the Colorado is rising. Ten million tons of salt enters Lake Meade annually in the lower Colorado, and salinity concentrations now reach 820 miligrams per litre at the Imperial Dam. Imperial Dam is the last major Colorado diversion point in the United States for delivery to Mexico of the quantity and saline quality of the water due them from the Colorado by treaty with the United States.

The trend of rising salinity must be stopped, as it costs the Nation in lost production more than 1 million acres of irrigated farmland annually through lower yields or increased production and management costs.

The bill being sent over the House is designed to implement additional measures to combat salinity in the Colorado by authorizing new control units and by authorizing the implementation of a new onfarm salinity control program. The onfarm provisions would reduce salinity entering the river from agricultural practices. Cost sharing would be authorized, and the Secretary would be authorized to enter into joint ventures with non-Federal entities.

The intervention of the National Wildlife Federation in the ninth hour, so to speak, has caused the Upper and Lower Colorado River Basin States to restate their position on the cost sharing provisions. The Basin States had been willing to pick up 25 percent of the costs for salinity control projects. Now, rather than risk losing this important legislation for this Congress, the States have agreed to up their share to 30 percent. I understand an amendment to this effect may be offered.

That same amendment in the nature of a substitute will also delete from the bill authorization for the Big Sandy River unit, which was included in the bill at my recommendation and with the concurrence of Wyoming and the other Basin States. The primary reason that Big Sandy is being dropped as an authorized project is because the National Wildlife Federation was concerned about the authorization of projects by Congress prior to the completion of feasibility reports. While there may be some merit to this position where Aquatrain is concerned, I fail to see the logic for stopping construction authorization for Big Sandy.

This unit is currently authorized for planning and is under study by the Bureau of Reclamation. The Bureau of Reclamation has already suggested a plan to remove the salts from the Big Sandy by installing a system of collection wells in the spring and seep areas of the river. Pumps would take the water through a pipeline to a proposed Chevron fertilizer plant near Rock Springs for use and disposal. While it is true that Chevron has cut back on their plans for the size of the plant, it nevertheless remains a viable option for disposal of the saline waters.

Salinity from the Big Sandy has been a major problem in Wyoming. As the snow-melt waters move toward their ultimate confluence with the Green River, and ultimately into the Colorado, they pick up dissolved saline solids from the springs below irrigated fields near Farson, WY. As water percolates through the Sandy subsoil, it takes salts with it to the river below. Authorizing the construction of the project would allow us to further reduce salinity concentrations at Imperial Dam by 7.8 miligrams a litre of dissolved solids. Since Big Sandy's construction would help water quality, which is an environmental goal, the rationale for the National Wildlife Federation's position on this issue escapes me, unless their involvement in this legislation is based on the obstruction of water projects, per se. Nevertheless, the sponsors of this measure, and the Colorado River Basin States, are anxious to see this bill enacted. An amendment will be proposed to delete authority in the bill as introduced for the construction of the Big Sandy River unit, construction of the Big Sandy River unit.

This deletion does not mean, however, that all work by the Bureau of Reclamation on the Big Sandy feasibility study will stop. It won't. This unit is currently authorized for planning and is under study. In fiscal 1985, $1.3 million will be allocated by the Bureau for the completion of a preconstruction report, which is due to be released by September 1987. If Congress appropriates the funds for fiscal 1986, another $1 million will be spent to continue this effort. The plan proposed by the Bureau for removal of 77,300 tons of salt annually from the Colorado is being reevaluated since Chevron made its decision to scale down the scope of their proposed phosphate plant. Since the State of Wyoming is actively seeking other industrial users for the Big Sandy water, alternatives

should be available in the trona or phosphate industry in Wyoming.

Although the planning process for the Big Sandy unit will continue even though Congress may not now authorize the unit for construction, I am disappointed about this turn of events. So are the farmers and ranchers in Farson, WY. They would like to see this project underway and believe that we know enough about the nature of the Big Sandy salinity problems to start construction now on the collection well system.

In any event, Mr. President, I endorse the bill. Agreement among the seven Colorado River Basin States represents a remarkable political solution through cooperation to achieve common water quality goals while each State proceeds with their individual water resource objectives. Passage of the bill would help foster that spirit of cooperation and result in reduced salinity levels in the Colorado. This would benefit the environment, and the productivity of this great Nation.

Mr. NICKLES. Mr. President, I am personally pleased that the House was able to send to the Senate what I consider to be a responsible and prudent measure to address the continuing problem of salinity of the Colorado River.

As my colleagues know, S. 752 the companion measure to H.R. 2790, is sponsored in the Senate by all 14 Senators from the 7 States of the Colorado River Basin. Rarely in matters affecting the Basin States, and in particular matters pertaining to water, has such unanimity been demonstrated. I congratulate the sponsors of the Senate bill, and the Colorado River Basin Salinity Control Forum in achieving this formidable task.

As chairman of the Subcommittee on Water and Power, I chaired the hearings on S. 752. One of my major concerns during consideration of the legislation by the subcommittee was the cost of the program. I believe that the legislation before us today responsibly addresses my concerns and those raised by the administration during the hearings.

First, the bill does not increase the authorization ceiling established by the Colorado River Basin Salinity Control Act of 1974. Rather than simply throwing more money at the problem, the bill redirects the program toward a cost-effective evaluation of the various opportunities available for reducing the salinity of the Colorado River. This approach will result in a more effective use of available funds with a greater benefit to the water consumers of the Basin and to the Nation at large.

Second, the measure would reduce the burden to the Federal Treasury by establishing a reasonable rate of interest to be charged of the non-Federal participants.

Third, the bill authorizes only those projects for which feasibility investigations have been completed and does not authorize those which require additional planning. In addition, in light of further study, the measure deauthorizes a project which had been authorized in the 1974 act.

And finally, and probably most significant, H.R. 2790 draws upon 10 years of experience and provides the perfecting language to fine tune the programs established in the 1974 act. The Department of the Interior, the Department of Agriculture, the seven Basin States, and the Colorado River Salinity Control Forum have worked closely in a spirit of cooperation to resolve both the physical problems of the Colorado River and the policy issues addressed by H.R. 2790.

A thorough analysis of the 10-year history of the salinity control program has resulted in what I believe to be a rational response and redirection through the legislative process. The Colorado River Salinity Control Program will continue to benefit from additional experience and I am confident that as the need arises Congress will continue to exercise the responsible leadership and oversight which is demonstrated by the legislation we have before us today.

Mr. President, although H.R. 2790 as amended differs in detail from S. 752 as introduced, the objective remains the same and that is to preserve one of our Nation's most important river systems as a beneficial tool for the use of our citizens.

Mr. President, a lot of hard work has gone into the passing of this legislation. Among the many who were involved, I would like to particularly commend the efforts of Mr. Jack Barnett, executive director of the Colorado River Basin Salinity Control Forum. He has served to coordinate efforts among the State and congressional offices, in both the Senate and the House, and I would commend him for the many hours he has spent with members and their staffs in explaining the complexities of and the need for this legislation.

Mr. President, I ask unanimous consent that a brief summary of the highlights of H.R. 2790 as passed by the House appear in the RECORD at this point as follows:

Section 1 amends the 1974 act to ensure that cost-effectiveness is the principle criteria used to establish the priority for implementation of salinity control efforts undertaken pursuant to the act.

Section 2(b)(5) de-authorizes the Crystal Geyser Unit in Utah which was authorized by the original 1974 act. The Bureau of Reclamation has determined that this project is not cost-effective at this time.

Section 2(b)(7) authorizes construction of stage I of the lower Gunnison basin salinity control unit. The section also authorizes portions of the McElmo Creek salinity control unit as components of the Delores participating project. It should be noted that measures to replace incidental fish and wildlife values foregone are authorized for each salinity control project.

Among other purposes, section 2(c) amends the 1974 act to provide that in implementing the units authorized to be constructed, the Secretary shall comply with procedural and substantive State water laws.

Section 2(c) also amends the 1974 act to authorize the Secretary of Agriculture to establish a voluntary cooperative salinity control program with landowners to improve on-farm water management and reduce watershed erosion on non-Federal lands and lands under the control of the Department of Agriculture. The section goes on to describe the duties and obligations of the Secretary and the parameters of the on-farm program.

Section 4 (b), (c) and (d) provide for an increased level of non-Federal cost sharing for the salinity control program and the application of an interest rate based upon market yield in certain circumstances as defined in the legislation.

The balance of the measure provides for technical and conforming amendments to the 1974 act and the Colorado River Storage Project Act.

Mr. JEPSEN. Mr. President, I would like to address an inquiry to the distinguished Senator from Utah regarding the impact this legislation will have on existing soil conservation programs. It is my understanding that the distinguished Senator from Utah has corresponded with the Department of Agriculture on this point.

Mr. HATCH. I thank the distinguished Senator from Iowa for raising this point. The Department has assured me that this program is not intended to take personnel from existing technical assistance programs, and that USDA will take any increased personnel demands which may be caused by this program into account when establishing full-time employee personnel limitations in States with Colorado River Basin Salinity Control Programs.

I appreciate the Senator raising this point, however, because I believe it is deserving of clarification.

Mr. JEPSEN. I thank the Senator for his clarification.

Mr. HATCH. Mr. President, I ask unanimous consent that the department's response to my questions be printed in the RECORD.

There being no objection, the information was ordered to be printed in the RECORD, as follows:

DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
Washington, DC, May 1, 1984.

Hon. ORRIN G. HATCH,
U.S. Senate,
Washington, DC.

DEAR SENATOR HATCH: Thank you for your letter of April 18, 1984, enclosing several questions regarding S. 1842 and H.R. 3903—legislation to allow the Secretary of Agriculture to conduct a coordinated, voluntary, on-farm salinity program.

We are pleased to provide the enclosed responses to your questions for your use at the markup of this legislation scheduled for the week of April 30, 1984.

Sincerely,

JOHN B. CROWELL, Jr.,
Assistant Secretary for
Natural Resources and Environment.

USDA'S ANSWERS TO SENATOR ORRIN G. HATCH'S QUESTIONS ON S. 1842 AND H.R. 3903

1. It is my understanding that the historical level of the Imperial Dam is approximately 850 milligrams per liter. How will the enactment of this legislation effect this level?

Colorado River salinity concentrations at the Imperial Dam have been approximately 825 milligrams per liter (mg/1) in recent years. These levels are projected to increase to approximately 1,100 mg/1 by the year 2000 without further upstream salinity control. This legislation, if enacted, would provide a more efficient vehicle for implementing USDA on-farm salinity control programs. By the year 2000, the projected USDA program will reduce salinity levels by approximately 100 mg/1 at the Imperial Dam.

2. How many farmers have signed up for the program to date in both the Grand Valley and Uinta Basin projects? Does the "demand" exceed the "supply?"

In the Uinta Basin, 433 participants on 61,590 acres have requested assistance since 1980. In the Grand Valley, where the program runs almost exclusively on individual annual requests, there have been over 1,600 requests since 1979. Based upon current funding levels and program restrictions, demands currently exceed the supply of cost-shared funds. However, more salinity control can be accomplished if current restrictions are lifted and funding would be increased.

3. Will the enactment of this program require the involvement of additional personnel at the current on-farm program sites? If so, how many and where will they come from? Will they be transferred from other areas of the state and/or country?

As evidenced by the Uinta Basin and Grand Valley projects, technical assistance personnel requirements are approximately eight man-years per $1-million dollars of cost-shared funds. New authorities will likely reduce this need because of efficiencies in administering the program and the ability to increase cost shares with individuals, irrigation districts, and canal companies. If additional personnel are needed, they will be provided through new employees, other States, and within individual States. Grants or cooperative agreements may be used for obtaining personnel.

4. What guarantees do the states have that current SCS activities will be maintained and not sacrificed as funding for the salinity program is increased? Particularly in light of SCS personnel ceilings?

It is not intended for the program to take personnel from existing conservation technical assistance programs. Most personnel decreases in recent years can be attributed to decreased funding, inflationary costs, and the establishment of full-time equivalent (FTE) personnel limitations. USDA recognizes the concerns in staffing existing programs and will take the increased personnel demands into consideration when establishing FTE personnel limitations in those States with the Colorado River Basin Salinity Control Program.

5. How many personnel are currently working on the Uinta Basin and Grand Valley projects. Where were those individuals transferred from?

SCS personnel assigned to the Uinta Basin totals 25. In Grand Valley, personnel total 23. Some of these employees initially came from within the respective States when the program began in 1979. Since then, some of the personnel were employed specifically for the program and some were transferred from other States.

6. Has the SCS capability dropped in any areas where a transfer has occurred in either Colorado and/or Utah?

Some of the technical capability was dropped when existing employees were reassigned to the Colorado River Basin Salinity Control Program. In many cases these personnel positions would have been eliminated otherwise because of decreased overall funding levels for that State. Every attempt is made to minimize the overall State-wide impact of employee transfers and reassignments.

Mr. WILSON. Mr. President, the rising salinity pollution of the Colorado River water has been of major concern to the seven Colorado River Basin States for many years. This pollution threatens the water supply quality for all users, creates economic waste, damages irrigated crops causing accelerated pipe corrosion, and requires us to use excessive amounts of water in areas where water shortages are critical.

Salt is a natural element in our Nation's waters. In normal amounts, it is used in our homes, on our farms, and in our industrial processes without impact or adverse effect. But when it reaches the levels in the lower Colorado River experienced today and projected for the future, it becomes a serious problem. The Environmental Protection Agency has recommended that total dissolved salts in drinking water not exceed 500 miligrams per liter and this standard is already exceeded in the lower basin from Hoover Dam to the border.

The Colorado's heavy salt load of 9 million tons annually already is costing more than $113 million a year. Costs are projected to be $267 million annually by 2010 if controls are not implemented. The Colorado River, at its headwaters, has a salinity concentration of only about 50 miligrams per liter. The salinity concentrations progressively increase downstream. In 1982, the salinity was 879 miligrams per liter at Imperial Dam, the last major diversion point on the Colorado River in the United States. Salinity could reach a level of 1,140 miligrams per liter at Imperial Dam by 2000 if corrective measures are not taken. Increased salt concentrations in applied irrigation water are resulting in agricultural losses on more than 1 million acres of irrigated farmlands.

California, particularly the Imperial Valley, is greatly affected by the salinity problem. Agricultural production in the Imperial Valley is threatened by the increasing salinity levels.

The bill has four principal objectives to solve the salinity problem:

First, authorization of two new off-farm salinity control units, to be constructed by the Department of the Interior. These units typically consist of lining irrigation canals and ditches or placing them in pipe, to reduce contact between saline western soils and the river.

Second, authorization of new on-farm programs, to be administered by the Department of Agriculture. These will be entirely voluntary and in cooperation with private landowners. These projects typically consist of installing automated irrigation equipment to reduce the amount of water washing salt into the river.

Third, cost-sharing arrangements so the Federal Government will be reimbursed for all but the salinity benefits of the units.

Fourth, replacement of incidental wildlife or other environmental values that may be impaired by construction of these units.

The salinity problems requires our farmers to use excessive amounts of water for leaching to avoid salt buildups in the soil in an area that produces a substantial percentage of our Nation's winter vegetables and fruits. It affects the health of those required to maintain low sodium diets and requires them to purchase distilled or other treated waters. It shortens the life of water piping, water heaters, and other water using equipment in our homes and our factories and industrial plants. If the problem is not resolved, the salinity levels are projected to increase dramatically.

The bill further provides for the protection of fish and wildlife and other environmental values that may be impaired through the implementation of the salinity control measures.

I believe this is a strong program which is necessary to clean up the Colorado and avoid further serious impacts in the lower basin States. I am pleased that all seven basin States are strongly supporting its adoption. California and the other basin States have suffered far too much damage from the salinity problem and this legislation will do a great deal toward implementing a comprehensive salinity control program. I urge your approval of H.R. 2790.

Mr. HELMS. Mr. President, Congress took the first step toward salinity control in the Colorado River Basin

area 10 years ago when the Colorado River Basin Salinity Control Act was adopted. Since that time, farmers in the Colorado River Basin area have been assisted by the Department of Agriculture in installing irrigation water management systems to control the buildup of salinity concentrations in the Colorado River.

The impact of this activity has been at a pilot project level for the past 10 years. These 10 years of experience have answered many technical questions of how to best manage the salinity problem. Onfarm salinity control through cost-sharing water management practices with agricultural producers has been identified as a cost effective, technically feasible control measure.

Recognizing the importance of salinity control in the Colorado River Basin area to sustained agricultural production and the cost effectiveness of onfarm salinity control measures, the Committee on Agriculture, Nutrition, and Forestry has reported legislation, the Colorado River Basin Agricultural Conservation Program, to authorize the Secretary of Agriculture to develop and implement a coordinated agricultural conservation program in the Colorado River Basin. This program would improve onfarm water management and reduce watershed erosion on lands in the Colorado River Basin. The Onfarm Salinity Control Program established by this bill is also established in H.R. 2790. The Onfarm Control Program established in H.R. 2790 has the support of the Department of Agriculture and all Senators from the Colorado River Basin States.

Mr. President, an explanation of the salinity problem in the Colorado River Basin, a summary of current Department of Agriculture activities in the area, and an explanation of the impacts of this legislation on the salinity control program follows:

THE COLORADO RIVER BASIN

The Colorado River Basin encompasses portions of seven States: Colorado, Wyoming, Utah, Nevada, New Mexico, California, and Arizona. The Colorado River flows over 1,400 miles from its head waters in Wyoming and Colorado and is a source of drinking water and energy for the 14.5 million people it serves. In addition to meeting individual water supply needs, the Colorado River is a source of water for irrigated agriculture. In fact, irrigated agriculture is the largest consumer of water from the river taking 85 to 90 percent of the river's water available to the basin States. Approximately 2.6 million acres of private cropland and 44 million acres of non-Federal forest and rangeland are irrigated with water from the Colorado River.

The water available for use from the Colorado River is overallocated due to the growing demands on the Colorado River's resources resulting from development in the basin area. A combination of water allocation legislation and judicial interpretation has resulted in the allocation of 17.5 million acre/feet annually. However, recent scientific evidence shows that the historic flow of the Colorado River is only 13.5 million acre/feet per year. More effective conservation practices are vital to the continuation of agricultural production in the basin area.

THE SALINITY PROBLEM

In addition to the problems of over allocation of the water of the Colorado River, the salinity level is increasing in the Colorado River. As salinity concentrations increase, economic damage to downstream users occurs. For irrigated agriculture, salinity levels of 500 to 700 milligrams of salt per liter of water begin to have a detrimental impact on agricultural production, including decreased crop yields, increased water management costs, the need for adaptive practices such as changes in crop patterns to more salt-tolerant but lower-income-producing crops, and implementation of improved drainage systems. In the municipal and industrial sectors, damage arises primarily from increased water treatment costs, accelerated pipe corrosion and appliance wear, increased use of soap and detergents, and decreased palatability of the drinking water. The level of salt concentration for safe drinking water is set at 500 milligrams of salt per liter of water by the Environmental Protection Agency.

Historically, the average annual salinity concentrations of the Colorado River have ranged from 50 milligrams of salt per liter of water at the headwaters in Wyoming and Colorado to 762 milligrams of salt per liter of water at Imperial Dam in Arizona, the last U.S. dam before the Colorado River reaches the Mexican border. Development of the basin has contributed large amounts of salinity to the river so that in 1981 salinity concentrations at Imperial Dam were 816 milligrams of salt per liter of water, a level well above the agricultural damage threshold. With the increased development of the basin area, the salinity levels at Imperial Dam are expected to increase dramatically if no control measures are taken. The U.S. Department of the Interior estimates that, without control measures, the salinity concentration at Imperial Dam could reach 1,089 milligrams pe liter by the year 2010.

Approximately one-half of the salinity in the Colorado River is caused by natural sources; the remaining half is man made. Of the total salinity problem, 37 percent is caused by irrigated agriculture.

CURRENT DEPARTMENT OF AGRICULTURE ACTIVITIES

In 1974, Congress enacted the Colorado River Basin Salinity Control Act, Public Law 93-320. The act directs the Secretary of the Interior, working with the Department of Agriculture and the Environmental Protection Agency, to investigate, plan, design, and install projects that would address the salinity problems of the Colorado River. The act contains two titles: Title I of the act authorizes salinity control projects between Imperial Dam and the Mexican border and therefore, is primarily focused on maintaining the water quality agreement with Mexico as established in minute No. 242 as an amendment to the Mexican Water Treaty of 1944; title II of the act authorizes salinity control projects above the Imperial Dam by both the Department of Agriculture and the Department of the Interior.

Under title II of the act, the Department of Agriculture, in cooperation with the Department of the Interior, has initiated two salinity control projects, one in Grand Valley, CO, and one in the Unita basin in Utah. The Department of Agriculture is conducting these salinity control projects through the existing Soil Conservation Service Technical Assistance Programs and the Agriculture Stabilization and Conservation Service Agricultural Conservation Program.

The Soil Conservation Service assists landowners in planning and installing irrigation system improvements, such as concrete linings for ditches, pipelines, and water control structures and in planning better water management practices, such as regulating the length, time, and frequency of irrigation to avoid salinity buildup problems. The Agricultural Stabilization and Conservation Service assists landowners through the Agricultural Conservation Program by sharing the costs of installing irrigation system improvements. The Bureau of Reclamation of the Department of the Interior supports the Department's onfarm improvements to irrigation systems and to water management by constructing and lining major and lateral canals. Since the Department of Agriculture began the Grand Valley project in 1979, the Soil Conservation Service has planned and applied 245 irrigation water management plans on 7,740 acres. In the Unita basin project, initiated in 1980, irrigation water management plans have been completed on 7,850 acres.

Both the Grand Valley and Unita basin projects have resulted in decreases in salt loading—the addition of salt to the river flow. In Grand Valley the salt load has been decreased at an amount that would result in a 1.84 milligrams of salt per liter of water reduction in salinity concentrations at Imperial Dam; the Unita basin project has resulted in a possible 1.34 milligrams of salt per liter of water reduction on salinity concentration.

In addition to the Grand Valley and Unita basin projects, the Department of Agriculture plans to implement onfarm salinity control programs in five other areas: Big Sandy, WY; Moapa Valley, NV; Lower Gunnison and McElms Creek, CO; and Virgin Valley, in both Nevada and Arizona. When the seven projects are completed, the Department estimates that salinity concentrations at Imperial Dam will be reduced by 93.7 milligrams per liter.

The Department of Agriculture has tentatively scheduled three additional salt source areas for planning to develop salinity control measures: Price-San Rafael, UT; Upper Virgin River, UT; and Mancos Valley, CO.

NEED FOR THE COLORADO RIVER BASIN AGRICULTURAL CONSERVATION PROGRAM

While the Department of Agriculture has been able to make some progress with onfarm measures to reduce salinity concentrations through the use of existing authorities, a single, comprehensive legislative authority is necessary to effectively control the increasing concentrations of salt in the Colorado River. Currently, a patchwork of authorities is being used by the Department of Agriculture to carry out the Salinity Control Program: The Agricultural Conservation Program for cost-sharing assistance, the Conservation Technical Assistance and River Basin Programs of the Soil Conservation Service, and the Information and Education Programs of the Extension Service. Each of these programs was authorized by Congress prior to the enactment of the 1974 Colorado River Basin Salinity Control Act to meet a variety of conservation needs. The Department of Agriculture has coordinated these programs to create a salinity control program, yet this patchwork approach limits the ability of the Department of Agriculture to effectively deal with salinity problems. A single authority for salinity control will better address the unique and complicated problems of salinity concentrations in the Colorado River.

One of the limitations often sited as a hinderance to the effectiveness of the current Salinity Control Program is the annual cap on Agriculture Conservation Program cost-sharing payments to one producer of $3,500. In the opinion of both the Department of Agriculture and the agricultural producers who testified before the committee, this maximum amount is not enough to cover the full cost-share needed for most irrigation and salinity control systems. The cost of an irrigation management system for 100 acres is between $60,000 and $80,000. The current cost-sharing restriction requires that irrigation work be stretched out over several years, when the entire project could be completed in 1 year under more flexible cost-share rules. A new authority without the cost-sharing cap currently imposed by the Agricultural Conservation Program will provide an additional incentive for producers to participate in the voluntary salinity control program and will better address the salinity and water conservation problems in the basin area.

Another limitation on the existing Salinity Control Program is that Agricultural Conservation Program cost-sharing funds may be awarded only to agricultural producers. Therefore, the Department of Agriculture may not contract with irrigation districts and canal companies for cost-sharing irrigation system improvements. The bill will remove this restriction on cost-sharing with irrigation districts and canal companies. The ability to deal directly with irrigation districts and canal companies may offer a more effective solution for salinity problems.

This legislation will improve the management of the very limited water resources available in the Colorado River Basin. Water will be conserved and agricultural productivity will improve through efficiencies in irrigation and water management. The benefits of an improved Salinity Control Program inures to a range of industrial municipal users and will benefit all persons in the United States and Mexico who use water drawn from the Colorado River.

Mr. HUDDLESTON. Mr. President, H.R. 2790 would amend the Colorado River Basin Salinity Control Act. That act established a program to reduce the concentration of salts in the Colorado River below Imperial Dam so the United States could honor the commitments it made to Mexico. It also established a program which allowed the States and the Federal government to work together to prevent salinity increases in the Colorado River above the Imperial Dam. The high level of salinity in the Colorado River has created serious problems in several Western States and in Mexico. Many municipalities that are dependent on the river for their water supply must use expensive treatment methods to make the water drinkable. In addition, agricultural production in the Colorado River basin is adversely affected by the current excess salt content of irrigation water from the river.

Under the act, the Department of the Interior was authorized to construct four salinity-control units and to study the cost-effectiveness of several others. The Secretary of Agriculture was given responsibility to assist in this effort.

H.R. 2790 would authorize the construction of one new salinity-control unit and a portion of a second new unit. The Secretary of the Interior would be given the latitude to proceed with those units, or portions thereof, which are the most cost effective. Cost effectiveness will be the principal criterion for the selection of salinity-control units.

H.R. 2790 would amend the act to increase the amount of locally derived funds to be used for newly authorized Department of the Interior salinity-control units and for the Department of Agriculture efforts. These new cost-sharing provisions call for payback to the Federal Treasury from the two basin power accounts of 25 percent of the Federal expenditures by both Interior and Agriculture concurrently with the expenditure of the funds, or for payback of 25 percent over time with interest.

This legislation would also clarify the authority for the replacement of incidental fish and wildlife values foregone when wildlife habitat is disrupted by the salinity-control effort.

Under the provisions of H.R. 2790, the Secretary of Agriculture would be authorized to establish a voluntary cooperative salinity control program to protect the water quality of the Colorado River. The purpose of the program is to improve onfarm water management and to reduce watershed erosion on land in the Colorado River basin.

Since 1974, the Department of Agriculture has used a number of its programs, agencies, and authorities to formulate, develop, and implement an initiative to reduce the amount of salt added to the river from irrigated cropland and irrigation canals.

The effectiveness of these efforts has been hindered by limitations in the separate authorities under which the Department is currently operating. H.R. 2790 would provide the Department with the single legislative authority that is needed to effectively deal with this serious problem.

Specifically, H.R. 2790 would authorize the Secretary of Agriculture, among other things, to identify salt-source areas, determine the salt load resulting from irrigation and watershed management practices, develop plans to reduce the salt load, and provide technical and cost-sharing assistance to farmers, ranchers, and others for improving their irrigation water management practices.

The provisions of H.R. 2790 relating to the Secretary of Agriculture are essentially identical to the provisions of H.R. 3903, which was reported to the Senate by the Agriculture Committee on May 24, 1984.

I understand that Senator METZENBAUM plans to offer an amendment to further clarify the authority for the replacement of incidental fish and wildlife values and to provide for a minimum 30 per centum cost-sharing contribution by farmers and others participating in the voluntary program to be operated by the Secretary of Agriculture.

I urge my colleagues to accept this amendment and approve H.R. 2790, as amended.

The PRESIDING OFFICER. Are there further amendments? If there be no further amendment to be proposed, the question is on the engrossment and third reading of the bill.

The bill (H.R. 2790), as amended, was ordered to be engrossed for a third reading, was read the third time, and passsed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. MITCHELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BAKER. Mr. President, I thank all Senators.

SDI: A SMALL INVESTMENT IN OUR FUTURE

Mr. HATCH. Mr. President, I rise in unmitigated opposition to any cuts whatsoever in Strategic Defense Initiatives Program funding; I take this position on the following grounds:

First, we are now on the threshold of developing the first really effective defense against intercontinental and other ballistic missiles targeted on the United States.

Second, a relatively small investment over the midterm can result in long term budgetary savings; these are as incalculable as the many benefits that SDI-related technologies can be reliably expected to produce. I refer here to the American and allied warfighting, defensive and deterrent capabilities which could be revolutionized at both the strategic and conventional levels.

Third, the cost effectiveness of the SDI Research and Development [R&D] Program, especially where it incorporates existing aerospace R&D, is precisely the model of efficiency that this body has urged DOD to create.

Allow me, Mr. President, to develop each categorical advantage more fully.

AN EFFECTIVE BALLISTIC MISSILE DEFENSE

SDI promises a high technology defense against attacking ballistic missiles. Technologies are now emerging rapidly that will give us an unprecedentedly effective deterrent and, if necessary, the capability to intercept a very high percentage of offensive nuclear weapons without destroying humanity itself. This is the difference between a mutual assured destruction strategy, and the new mutual assured survival strategy of the Reagan era. I echo the analysis of such distinguished scientists as Drs. George Keyworth, James Fletcher, and Robert Jastrow who have staked their reputations on the postulation that a survivable, multilayered missile defense system will work. Their opinions are rooted in the very effectiveness of our SDI precursor and ongoing techological research and development [R&D] programs that now find themselves threatened by SDI Program cuts. Without this research the future of mankind may be held hostage.

LONG-TERM BUDGETARY SAVINGS WILL ALSO BE REALIZED

Support for R&D in SDI, as well as in other emerging technology areas will allow us to shift gradually from strategies reliant upon a resource in increasingly short supply, manpower, to a resource which we have in unlimited amounts, our technological genius. Nearly 10 percent of all 16 to 19 year olds entering the work force at present are needed for Defense Department enlistments. Imagine the boost to our skilled manpower reservoir that would derive from shifting to technology-intensive strategies. A precept of modern warfare dictates that what can be detected can be destroyed. Thus, technology makes most forces increasingly vulnerable. The Soviets are acutely aware of this, and the development of SDI program was, in the eyes of most Kremlinologists, a very powerful incentive for Soviet Foreign Minister Andrei Gromyko to meet with President Reagan. With effective arms control, and force reductions, everyone gains. With 40 percent of our defense budget consumed by manpower costs, and with nearly one-half million Americans serving overseas, I can forecast budgetary savings in the conventional and strategic force arena over the next decade that we all will share.

SDI R&D IS COST-EFFECTIVE

This Nation cannot afford to suffer any further reductions in basic technology research. Yet, any SDI cutbacks are certain to affect this critical area, which is less than 3 percent of all R&D moneys requested by DOD. Most basic research is done by the Federal Government, nonprofit institutions, and universities and colleges, thus representing a near-optimal situation for the production of quality, low-cost research. Any corporate or public beneficiary of American technology will tell you that the basic research programs in our universities are the real source of our scientific leadership. It is unimaginable to me that we should cripple ourselves in this area. In my State alone, Utah State University's Space Dynamics Laboratory, a pioneer in critical infrared technologies for use in outer space, could suffer a premature setback; including the possible abandonment of an investment of millions of dollars of work already underway.

Let me add that at least one university in each of the 50 States will be affected by SDI R&D cutbacks. Collectively and individually, these basic research programs are a national treasure and a gift to the future of mankind; these programs are perhaps our greatest opportunity for American scientific leadership for both peace and economic prosperity in the 21st century.

TECHNOLOGY IN EDUCATION

Mr. HATCH. Mr. President, one of the more interesting and exciting developments in the field of education has been the increased use of technology, especially computers in our Nation's schools.

The department of instructional technology at Utah State University, located in Logan, UT, hosted a very important meeting in this field—the Association for Educational Communications and Technology [AECT] instructional technology seminar. This meeting reviewed such critical education topics as designing videodiscs and microcomputers and the theory and practice of instructional technology.

The conference was addressed by Dr. Donald J. Senese, Assistant Secretary of Education for Educational Research and Improvement of the U.S. Department of Education, who spoke on "Instructional Technology: Realizing the Potential." This conference attracted such attention that the Salt Lake Tribune (July 21, 1984) devoted a special editorial to the topic of the importance of computer instruction in Utah's schools—"Keep Class Computers Coming."

Mr. President, my State of Utah has responded to the development of instructional technology and has been responsible for pioneering efforts in developing videodiscs in the field of math for use by the handicapped.

Because this is a topic I feel warrants the widest possible attention, Mr. President, I ask unanimous consent that the speech by Assistant Secretary Senese along with the editorial from the Salt Lake Tribune be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

INSTRUCTIONAL TECHNOLOGY: REALIZING THE POTENTIAL

One of the most important functions of secondary schools, colleges, and universities is to prepare the young people of our nation to become responsible members of society—a part of which includes preparing them with a means for earning a living and for being productive. Having enough skilled workers is an essential aspect of our economy and having the means to increase productivity of those workers will be essential to keeping our nation a dynamic world economic power.

The challenges are great. Just over a year ago, on April 26, 1983, the National Commission on Excellence in Education released its report, entitled "A Nation At Risk: The Imperative for Educational Reform." The Commission members spent almost two years studying and reviewing education in America as well as in other industrialized nations. In their report they documented a decline in education in the United States

that was not only frightening but disheartening. "A Nation at Risk" and other subsequent reports issued a clarion call for action to turn back the tide of mediocrity and open the floodgates toward excellence.

The advent of the "information-age" despite all its complexities brings with it the means and tools to improve education. It is important for educators to realize this—and to begin to utilize the vast resources at their disposal in order to improve education.

By utilizing the technological means we now have access to, we have the capacity to improve the productivity of the classroom. Teachers can become more effective in their teaching practices; students can become more effective learners. We can through technology enhance learning for students, increase teacher productivity, and develop more effective schools.

The computer, as well as other technological innovations, can provide us with a means of offering improved educational opportunities in a cost-effective manner. They can help us develop our human resources to their greatest potential.

Many educators, while aware of the potential benefits these technological innovations hold, may lack the knowledge to adopt technology for use in their educational programs. They eagerly seek guidance and direction.

In order to assist educators in the development of worthwhile programs in technology, U.S. Secretary of Education, T.H. Bell has made technology a primary initiative of the U.S. Department of Education. The Office of Educational Research and Improvement has been given the department's lead role in implementing the "Technology Initiative."

The federal government will continue programs at both the kindergarten through 12th grade and higher education levels which assist directly and indirectly with the ability of schools, colleges and universities to participate in the technology revolution. The student loan program will continue to provide grants and loans to students so they follow studies preparing themselves for the new work opportunities in technology.

There is also the FIPSE program (Fund for the Improvement of Postsecondary Education) which operates from our Office of Postsecondary Education. FIPSE makes specific grants for innovative projects in higher education and in recent years under the Reagan Administration these grants have favored projects in technology. These grants provide the important funds to develop programs which can be disseminated to other postsecondary institutions.

At the kindergarten through secondary level, other programs are being implemented. The Educational Technology and Science Staff of the Office of Educational Research and Improvement along with the National Center of Education Statistics are involved in a multi-year effort to gather data on "computer use and computer literacy in elementary and secondary education." In the NCES report, "Computer Literacy: Definition and Survey Items for Assessment in Schools," the purpose of the project is identified as: ". . . the development of a definition of computer literacy, a glossary of computer terminology, a short bibliography of computer literacy, and a pool of questions on the use and application of computers in education."

OERI sponsored a conference at the University of Pittsburgh and Carnegie Mellon University in November of 1982. The focus was on research needs of computers. The report of that conference "Computers in Education: Realizing the Potential" should be helpful to all educators.

Secretary Bell announced at the end of last year awards totalling more than 1.5 million dollars to 12 school-based technology demonstration sites. The purpose of these demonstration sites is to provide examples which other schools and/or school districts can follow. Through this program, we have identified excellent programs which are already being offered, and utilized successfully, in various local districts throughout the United States. The demonstration sites which were selected are representative of urban, suburban, and rural areas. Educators can look at these programs and see ways that they might be able to utilize technology in their own programs.

Another effective tool of dissemination is the National Diffusion Network which identifies exemplary programs and assists school districts in the adoption and implementation of these programs. It utilizes the knowledge of successful programs which can be used in other areas to bring the knowledge of good educational practices to other school districts and to avoid duplication of effort. The NDN network has already assisted many school districts in their entry into the age of technology. We have identified through the NDN ten "lighthouse schools"—outstanding models of the use of technology in education and have provided funding to assist in training other educators to replicate these models in their own school systems.

The main thing we must remember is that we should not be overwhelmed by all of the complexities that face us into a frenzy of inaction. There is one thing certain about our entry into the information age—education will be the hallmark of that new age. And that does not mean just one "formal" education but rather a lifetime of education. Up to the present decade one education would prepare you for a lifetime in most careers. Today, most adults will require re-education, or re-training every 5 to 10 years—four or five re-educations throughout a lifetime.

During the 1960s and 1970s our nation suffered a malaise—a lowering of expectations and a decline in hope. The feeling seemed to be pervasive that our great accomplishments were in the past and that the future presented a hopelessness for ourselves and our society as we experienced more pollution, running out of resources and supposed problems like over-population and nuclear war. The prognostications of the Club of Rome became a club of doom, a sword of Damocles hanging over our heads and the heads of our young people.

However, there does seem to be a spirit of renewed optimism in our nation. we have a tendency to accept as routine the benefits in a society while concentrating on the negatives. Fortunately technology presents to us an unlimited capacity to imagine greater developments in our economy, our standard of living, the expansion of cultural opportunities and increased productivity. In his last book, "The Coming Boom," the late Herman Kahn noted that he expected high and sustained growth through the 1980s and 1990s because of a whole host of new technologies and technological improvements ready for large scale development. We need as a nation a collective optimism and enthusiasm and will to develop this technology so that we will not become the tired and burdened and have our nation slump into the roll call of nations which once had been great but lost the will to survive. We as a nation once conquered the plains and the forests of this new nation to build our cities and our farms; the challenge of technology represents a new frontier for the United States to further develop an opportunity oriented society for all.

It is an awesome challenge but one for which all are becoming more and more prepared.

[From the Salt Lake Tribune, July 21, 1984]

KEEP CLASS COMPUTERS COMING

So far, Utah educators apparently have reacted responsibly to the need for more computer education. Now it's time to improve and expand upon that foundation.

Additional steps should be taken statewide to use the state's technological wealth wisely and to spread it evenly among students of all ages and backgrounds.

Donald Senese, assistant secretary in the U.S. Department of Education, urged Utah parents the other day to make sure their children are learning about computers at school. His message reflects the conclusion of various national advisory groups the past few years that computer literacy has become a basic skill for living and working in the information age.

These parents should be pleased to know that Utah educators already have established a basic framework for full-fledged, cost-effective computer education programs around the state.

The Utah State Office of Education operates a computer center that helps state agencies choose the best computers for their financial, administrative and classroom situations.

Last year, the Utah State Board of Education added computer literacy to its academic requirements for public school students. Since then, businesses and parent groups have donated more computer equipment to the schools, and greater attention has been paid to buying or developing computer-oriented curricula.

Utah's public school system ranks fourth nationally in making computers accessible to public school students.

Market Data Retrieval, a Connecticut research firm, found this year that 86 percent of Utah's public schools use microcomputers in teaching, compared to 68 percent nationally. Specifically, Utah schools have one microcomputer for every 84 students.

However, these accomplishments and national averages shouldn't hide shortcomings.

Although Utah's senior high schools surpass their national counterparts in the computer competition, the state's elementary and junior high schools lag behind.

Utah elementary schools have one computer for every 131 pupils, while elementary schools across the nation have one for every 112. The spread is similar for junior high schools, where the computer-student ratio is 103 to 1 in Utah and 92 to 1 nationally.

It makes sense to concentrate, while getting computer training under way, on high school students who soon will spill out into the world of work. But more attention obviously must be paid to younger students, who could be fine-tuning other academic skills while establishing a base for advance computer learning.

Computer equity also needs to be formally addressed to assure all students equal access to computer training.

A dilemma is created, giving rise to discrimination complaints, when one school is the recipient of computer donations and an-

other is not. Before such problems surface, educators would be wise to develop policies that balance the opportunity of enhancing programs for a few students with the obligation of offering all students the best education possible within district means.

Of course schools cannot fully assimilate computers into the classroom overnight. But educators must tackle the tough issues early, and stay on top of them, if they hope to prepare students for the world of technology at the lowest possible public expense.

JENNINGS RANDOLPH: THE CONSCIENCE OF THE SENATE

Mr. DOLE. Mr. President, in our Nation's great history, the Congress has been privileged to be the working place of many superb public servants. Some have served only briefly, before moving on to other venues. But a few have found this branch of Government to be the one forum from which they could best serve their country. These dedicated Americans devoted their adult lives to their constituents and these few should be saluted.

The Senator from Kansas wishes to take this time to thank one such selfless man who, after his first election to the House some 52 years ago, will leave the Senate at the end of this session. Of Course, the Senator is speaking of West Virginia's JENNINGS RANDOLPH.

It was 1932 when a 30-year-old JENNINGS RANDOLPH first became a Member of Congress. Representative RANDOLPH was an original New Dealer, and he was among the members of the Democratic Party that helped pass the historic programs of FDR. Mr. RANDOLPH served in the House until 1946, when he left Capitol Hill to work in the private sector. Twelve years later, he was elected to the U.S. Senate.

In the opinion of this Senator, JENNINGS RANDOLPH has served as the conscience of the Senate. It has been his concern that the level of debate has drifted somewhat from the Senate he remembers. We know he is right. And, that is why, when we hear the Senator from West Virginia demand order, we heed his call. Senator RANDOLPH believes in debate, not confrontation; persuasion, not intimidation; action, not image. Like West Virginia's junior Senator, Mr. BYRD, Senator RANDOLPH's sense of history has served this body well.

This Senator hopes that we've learned from Senator RANDOLPH about parliamentary order, because our conscience will no longer be among us, come January.

As his colleagues, we can only thank his fellow West Virginians for sending JENNINGS RANDOLPH to Washington.

FAREWELL TO A LONE STAR LEGEND

Mr. DOLE. Mr. President, our distinguished colleague from Texas, Mr. TOWER, is serving in his last few months as a Member of the Senate.

As we know, JOHN TOWER replaced one of this body's most legendary Members, Lyndon B. Johnson. For anyone, that would be a tough act to follow. But 24 years later, Senator TOWER has carved out a piece of history for himself that his own predecessor just might find a little bit intimidating. As chairman of the Senate Armed Services Committee and the Senate Republican Policy Committee, he has managed a parliamentary double-hitter—one that he has scored with consistently.

Senator TOWER is not just a politician, he is a true political scientist—by training, and by trade. Once JOHN became a member of the majority in this body, we all saw his capabilities shine as a committee chairman. His legislative expertise was never more obvious than this year, when he masterfully managed the defense authorization bill. As part of that bill, it fell upon Senator TOWER to address this country's allegiance to NATO. America's commitment to the alliance is secure today in large part because of the deft skill of the chairman of the Armed Services Committee.

Mr. President, JOHN TOWER has given much, not only to Texas, but to America. Our Armed Forces around the globe, and our peaceful might owe a tremendous debt to Senator JOHN TOWER.

Although his tenure here will soon be over, the Senator from Texas will remain a wellspring of wisdom for this body.

WILLIAM C. PLOWDEN, JR., ASSISTANT SECRETARY OF LABOR FOR VETERANS' EMPLOYMENT AND TRAINING

Mr. THURMOND. Mr. President, our veterans have rendered a valuable service to this Nation, and one of the best ways to express our gratitude to them is by helping these special citizens find meaningful employment after military life.

Over 3 years ago, Congress approved legislation to create a position in the U.S. Department of Labor which would ensure that veterans find productive work in the marketplace. It was my pleasure to introduce that legislation, and I am particularly pleased that President Reagan nominated, at my recommendation, my good friend, William C. Plowden of New Zion, SC, to become the first Assistant Secretary of Labor for Veterans' Employment and Training.

Once sworn into office on December 15, 1981, Bill Plowden, a retired U.S. Army Reserve colonel, eagerly took on the challenges of his duties, and for 2½ years, performed his responsibilities with distinction. This past June, Colonel Plowden resigned from this post, leaving behind a long list of outstanding accomplishments and a standard of excellence for his successors to emulate.

Colonel Plowden brought to the U.S. Department of Labor many years of experience in veterans affairs. As State director for veterans' employment and training in South Carolina, Colonel Plowden enjoyed an outstanding reputation for his administrative and organizational skills.

Shortly after taking office as Assistant Secretary of Veterans' Employment and Training, Colonel Plowden immediately reorganized job services for veterans within the department, establishing effective policy control over employment and training services for our veterans. Through his efforts, the congressionally mandated veterans preference requirement was administered more vigorously and monitored more closely.

During his tenure as Assistant Secretary, Congress passed three significant measures extending job services for veterans. These were: the Job Training Partnership Act, which included training grants specifically targeted for veterans programs; the Veterans' Employment Assistance Act of 1982; and the Emergency Veterans' Job Training Act of 1983.

Under Colonel Plowden's direction, the Office of Veterans' Employment and Training Services effectively and efficiently increased its capacity to serve our veterans, while, at the same time, decentralized its policy, planning, legislative and, management analysis activities.

In order to maximize the contributions of his office, Colonel Plowden frequently met with representatives of the major veterans organizations, and the seven Federal departments and agencies that provide special services to veterans.

Mr. President, Col. Bill Plowden's able leadership will sorely be missed by all who had the pleasure of working with him. However, I am confident that he will continue to render a valuable and necessary service to our veterans as he returns to South Carolina to resume his duties as State director for veterans' employment and training. I know my colleagues join me in congratulating Colonel Plowden on a job superbly done—one which has set the stage for even greater achievements in the quest to meet the employment needs of our veterans.

A TRIBUTE TO SENATOR PAUL TSONGAS

Mr. WEICKER. Mr. President, I rise today to pay a parting tribute to Senator PAUL TSONGAS, who will retire at the end of this Congress.

To be perfectly frank, having stood shoulder to shoulder with Senator Ed

Brooke on so many an issue, I was not disposed to welcome with open arms the man who retired him in 1978. But the past 6 years have taught me to admire and respect PAUL TSONGAS, for his deeply-felt compassion toward the underprivileged and for his cool-headed, reasoned approach to policy-making.

When Senator TSONGAS came to Washington he brought with him a unique set of experiences that enabled him to make the most of his time here. Drawing on his experience as a Peace Corps volunteer in Ethiopia, Senator TSONGAS soon distinguished himself on the Foreign Relations Committee as a forceful advocate for humanitarian assistance, rather than military aid, as the best means for furthering democratic prinicples abroad. Over the years, he has fought against the apartheid policies of the South African Government and defended the rights of Soviet Jews to worship in their homeland or emigrate to another.

The son of an emigrant to this country, PAUL TSONGAS learned growing up in Lowell, MA, that while it was possible for some Americans to pull themselves up by their bootstraps, there would always be others who need a helping hand. As a Senator, he has voted to restore Federal funds and programs for those who depend on them while at the same time seeking to eliminate water and redtape.

PAUL TSONGAS is also the son of a small businessman and that has helped make him an eager and effective member of the Small Business Committee, which I chair. As the ranking Democrat on the Productivity and Competition Subcommittee, he has shown great thoughtfulness and care in considering and creating legislation to enhance the Government's programs for small firms, increase access to capital and new technologies, and generally cultivate entrepeneurship in the United States.

Senator TSONGAS' work is particularly apparent in two existing laws. He was both an original cosponsor of the Small Business Innovation Development Act and a skillful proponent when it faced significant opposition 2 years ago. The junior Senator from Massachusetts also championed the cause of computer security in this session, and the result was the Small Business Computer Security and Education Act, which became law last July. Computer crime costs businesses millions of dollars each year and Senator TSONGAS has helped ensure that we assist those most vulnerable to this sort of thievery—the small entrepeneurs.

Mr. President, we will very much miss PAUL TSONGAS' participation on the Small Business Committee, just as this body will be diminished by his absence. Whatever the issue—be it the environment, energy independence, or the equal rights amendment—he has spoken from the heart and voted his conscience. Because he takes his responsibilities as husband and father as seriously as he has his Senatorial duties, PAUL TSONGAS has decided to retire. I'm sure I speak for all my colleagues when I congratulate him on keeping his priorities straight and wishing him only the best in the future.

A TRIBUTE TO SENATOR JENNINGS RANDOLPH

Mr. WEICKER. Mr. President, I rise today to perform what can only be described as a bittersweet task, that of recognizing a retiring colleague whose accomplishments on behalf of disabled Americans have set a standard of excellence for all who follow him. That colleague is, of course, JENNINGS RANDOLPH of West Virginia who after 40 years of congressional service will retire from the Senate at the close of the 98th Congress.

Senator RANDOLPH no sooner came to Congress in 1932 than he became involved in New Deal legislation creating Social Security, the National Labor Relations Act, the Fair Labor Standards Act, and numerous other laws which brought social conscience to Federal policy.

His commitment to meeting the needs of all Americans is deep rooted and constant. But it is his determination on behalf of disabled Americans that I wish to dwell on today. For it was JENNINGS RANDOLPH who ventured that handicapped citizens could, if given the chance, participate in and contribute to our society rather than be relegated to the backwaters of its far-off institutions.

He began in 1936 by authoring the Randolph-Sheppard Act giving blind vendors the opportunity to become independent entrepeneurs. He powered the breakthrough of the 1973 Vocational Rehabilitation Act, providing job training and civil rights protection to the handicapped, and in supervised the creation of Public Law 94-142, the landmark Education for All Handicapped Children Act, setting in place the same educational opportunities for disabled youngsters as our Nation has been so justifiably proud to provide to those without disabilities.

From the special centers of excellence for deaf persons at Gallaudet College and the National Technical Institute for the Deaf to the statewide advocacy and protection systems for persons with lifelong and multiple disabilities, there has not been a single modern Federal initiative for the disabled in which JENNINGS RANDOLPH has not been instrumental.

Here in the Senate, JENNINGS RANDOLPH created the Subcommittee on the Handicapped and became its first chairman. He remains our chairman emeritus, guiding the ongoing oversight and refinement of those laws which he helped establish.

Senator RANDOLPH's father once told him, "Remember the man and woman by the wayside of the road." The Senator has done more than "remember," he has set the disabled on the road to productive independence and self-worth and in so doing has tapped a most valuable natural resource—the human potential of America's 36 million disabled citizens.

For that reason among many JENNINGS RANDOLPH will be long remembered by those of us who had the privilege of knowing him.

THE CENTENNIAL OF ELEANOR ROOSEVELT'S BIRTH

Mr. MOYNIHAN. Mr. President, October 11, 1984, will mark the 100th anniversary of the birth of Eleanor Roosevelt, one of the most remarkable women of the 20th century. The event will be celebrated at the Roosevelt Hyde Park estate with a wreath laying ceremony, the dedication of a commemorative stamp, and the opening of the Eleanor Roosevelt National Historic Site [Val-Kill].

Eleanor Roosevelt will forever be remembered as the dynamic First Lady and United Nations delegate who championed the cause of the underprivileged and the oppressed. She redefined the role of the American political wife, and, in her own right, had an enduring influence in domestic and international politics.

I knew Eleanor Roosevelt. In December 1961, President Kennedy created a President's Commission on the Status of Women, and asked Mrs. Roosevelt to serve as chairman. I was an assistant to the Secretary of Labor at the time and represented him on the commission. Mrs. Roosevelt was an energetic chairman. She was gracious but firm minded, and helped guide the Commission to its conclusion that the role of women in American economic affairs was unfairly and unwisely circumscribed. A conclusion, I might add, not without basis still.

On November 28, 1983, I introduced legislation (S.J. Res. 139) to establish an Eleanor Roosevelt Centennial Commission for the purpose of coordinating commemoration of the Eleanor Roosevelt centennial. This legislation was the outgrowth of a suggestion made to me by Lucille Pattison, the energetic county executive of Dutchess County, NY—the county in which Franklin and Eleanor Roosevelt's home is located. Senate Joint Resolution 139 was passed by the Senate on November 2, 1983, and by the House of Representatives 2 days later. I have been honored to serve as

a Commission member since its inception.

Mr. President, Adlai Stevenson once said of Eleanor Roosevelt, "she would rather light a candle than curse the darkness, and her glow warmed the world." Winston Churchill once wrote to her, saying, "You have certainly left golden footprints behind you." I might add that few have championed the cause of the disenfranchised and the oppressed better than she. It is most fitting that the past year has been marked with commemorative activities and events; hers was a life to be remembered. I urge my colleagues to remember her over the next few days, and particularly on October 11.

Mr. President, the October 15, 1984, issue of the New Republic contains an article on Eleanor Roosevelt, "Golden Footprints," authored by civil rights attorney and cofounder of Americans for Democratic Action, Joseph L. Rauh, Jr. It is an excellent article, and I recommend it to my colleagues. I ask unanimous consent that the text of the article be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

GOLDEN FOOTPRINTS

(By Joseph L. Rauh, Jr.)

In the mid-1930's, a young child asked to name the President replied, "Franklin Eleanor Roosevelt." The answer wasn't far off the mark. Franklin Delano Roosevelt and Eleanor Roosevelt were truly partners, and the electric, inspirational atmosphere of Washington in early New Deal days was almost as much her creation as his. October 11 is the one hundredth anniversay of Eleanor Roosevelt's birth. The spirit of idealism and of total dedication to affirmative government that she and her husband evoked is, for the moment, out of fashion. As one who experienced that spirit in full force—I arrived in Washington in 1935 to work for the New Deal—I may be forgiven for wishing passionately to see it reborn.

Eleanor Roosevelt was the eyes and ears of the crippled President. Traveling from one end of the country to the other, visiting mines, factories, relief projects, and every conceivable place about which the President should know, she was his roving ambassador. In 1933 it was she who visited and fraternized with the returning "bonus army" of needy World War I veterans; a year earlier, the veterans had been run out of town by General MacArthur's troops. "Hoover sent the Army," went the slogan of the time, "Roosevelt sent his wife." No wonder that an appeal letter F.D.R. received from an especially needy black woman seeking funds ended with these words: "If you can't help me, Mr. President, I guess I'll have to write to Mrs. Roosevelt."

She was the President's conscience, prodding him in conversation or by memorandum whenever she felt him straying from the idealistic course for political considerations. She was the agitator for change and for reform; he decided whether her ideas, with which he usually agreed, were politically feasible. Her role as conscience cum agitator was right out on the table between the two. In his loving book, *Centenary Portrait of Eleanor Roosevelt*, Joseph P. Lash tells of her bemoaning, Franco's victory one night to a dinner guest, like her a supporter of the Spanish Loyalist. "We were morally right, but too weak," she said, and, looking directly at the President, added: "We should have pushed him harder."

For even the lowliest of New Dealers, working in the Roosevelt's government was heady stuff. We all knew we were building a new society upon the lessons learned from the failures of the old. As the welfare state emerged brick by brick from the earlier stark capitalism, each of us was made to feel that he or she was a participant in the transformation. And even at a White House reception for a thousand people, like one my wife and I attended in 1936, Franklin and Eleanor Roosevelt made us feel it had been given for us.

Mrs. Roosevelt's spirit pervaded Washington. Whatever the issue, her voice would always be lifted for the underdog, for the cause of idealism. Loyalist Spain was one such cause. Trade unionism was another, with Walter Reuther her young favorite and adviser. Civil liberties was still another. The Supreme Court's decision requiring school children to salute the flag, even though written by her long-time friend Felix Franfurter, received quick condemnation from her.

Civil rights were her special domain. She was one of the first to earn an epithet that has always seemed to me a title of honor, "nigger-lover." When the Daughters of the American Revolution refused to let Marian Anderson sing in Constitution Hall, Mrs. Roosevelt promptly resigned from the organization—and just as promptly helped arrange Miss Anderson's unforgettable performance at the Lincoln Memorial. Mrs. Roosevelt's spirit hovered over the Memorial that day, and for many of us it was still there when Martin Luther King Jr. gave his historic speech a quarter of a century later.

There was doubt in Mrs. Roosevelt's own mind as to the role she would play after the President's death. Her first act after informing Vice President Truman what had happened was to cable her three sons, "Father slept away. He would expect you to carry on and finish your job." She might have been addressing herself, for she certainly followed her own admonition. Duty and work were her way of life and her antidote to loneliness. As she wrote in her autobiography, "I am not sure whether this"—her devotion to work after she was widowed—"was due to my own planning or simply to curcumstances. But my philosophy has been that if you have work to do and do it to the best of your ability you will not have much time to think about yourself." For the seventeen years between her husband's death and her own, she had work and she did it.

Mrs. Roosevelt saw the United Nations as a bright hope for peace. President Truman appointed her to the U.S. delegation; perhaps the greatest achievement of her life was the drafting under her guidance of the Universal Declaration of Human Rights. Her support for the U.N. continued after she left official duties there. Possibly her final attempt to strengthen the U.N. was in 1962, not long before her death, when she went to the White House with F.D.R.'s old adviser Benjamin Cohen to urge, unsuccessfully, that the U.N. be brought into the deepening Vietnam difficulties. A few years later, with Mrs. Roosevelt gone and the Vietnam War escalating many times further, Mr. Cohen urged me to repeat Mrs. Roosevelt's suggestion to President Johnson when an Americans for Democratic Action delegation met with him in 1965. Sadly for the nation and for the world, President Johnson scorned Mrs. Roosevelt's wisdom.

Mrs. Roosevelt's role as a civil libertarian has not always received proper attention. In the early 1950s Senator Joseph McCarthy and F.B.I. Director J. Edgar Hoover turned the cold war period into a time of degrading fear, timid speech, and totalitarian methods. "McCarthyism," she said, "is a question on which public officials must stand up and be counted." Unfortunately too many liberal political leaders failed the test. Hubert Humphrey led the fight for the infamous Communist Control Act of 1954; John Kennedy refused to support the Senate's resolution of censure against McCarthy that same year, other great Senators like Paul Douglas and Wayne Morse could not find voice to challenge McCarthy. Secretary of State Dean Acheson fired Jack Service, and President Eisenhower ran from General Marshall. But Mrs. Roosevelt never wavered, even sheltering the heavily attacked Americans for Democratic Action by accepting its honorary chairmanship.

To the end, she gave to these and the other great causes of the day—help to the poor, women's rights, Israel, full employment—every ounce of strength her declining health could still command. No sacrifice was too much for her: taking long night flights so that she could lend her support to some meeting whose success depended upon her presence; inspiring groups of all sizes and shapes through discussions at her own Hyde Park; lending her wisdom to conferences that hardly warranted her participation; sitting through tedious resolution-drafting sessions, utterly and charmingly unembarrassed to be seen taking a catnap now and then.

Mrs. Roosevelt found her happiness not in her personal life, but in caring for and serving others. Her childhood had been marred by the death of her mother when she was 8 and of her adored father when she was 10. She suffered her husband's infidelities in dignity and she kept their marriage going for family and nation. She wrote, "If anyone were to ask me what I want out of life I would say—the opportunity for doing something useful, for no other way, I am convinced, can true happiness be attained." She achieved happiness in her own way and shared it with the world.

Winston Churchill once wrote Mrs. Roosevelt, "You have certainly left golden footprints behind you." No one can fill those footprints. But they will always remain a compass for the caring, a compass never more needed than today.

SENATOR JOHN TOWER

Mr. GOLDWATER. Mr. President, it first became my privilege to know JOHN TOWER as chairman of the Republican Senatorial Campaign Committee. At that time, I was asked to appear in the State of Texas to campaign for him. And, that seems like a long, long time ago. In those days, I might add, a Republican appearing anywhere in Texas had about as much chance of getting out with all of his skin as someone who had just desecrated the Alamo.

JOHN immediately impressed me. He was highly educated and very determined, an honest type of young man who wanted, above all else, to serve his

country. His record as a Senator will stand and speak for itself more eloquently than anything I might say. However, his many years of devotion to the task of keeping this country strong will never be forgotten in our country's history by those people in the military or by those who recognize the necessity of a strong America.

I will admit that I do not like to see him go. He is a relatively young man and has a long life in front of him. But, I will abide by his decision, because any such question is based upon his best intentions for the most productive way he feels he can serve his country in the future. He is a man whose friendship I cherish. He has the word of a gentleman, which he keeps, and he is a man who can be depended upon, whether fair or foul weather is the order of the day.

I take the occasion to salute JOHN and to thank him for his years of service, not just to the Senate but, more important, to our country. It is a service that will stand as an example down through the years, not just to men who want to seek office, but also to young men who want to grow up and serve their country. So I say to you, JOHN, buenos suerte, which is good luck, and a long and happy life.

Mr. SYMMS. Mr. President, I wish to join in the remarks of the distinguished senior Senator from Arizona with respect to our good friend the distinguished Senator from Texas [Mr. TOWER].

I believe that Senator TOWER has made a great contribution to this country, and I, as one Member of the Senate, regret to see him leave. I was disappointed when I read of his decision; but after having spent 4 years in this body, I can understand why someone who has been here in excess of 20 years would want the opportunity to seek other pursuits. I wish him all the best in the future.

SENATOR JENNINGS RANDOPLH

Mr. GOLDWATER. Mr. President, when we stop and think of JENNINGS RANDOLPH, we think of a man who has served not only his State of West Virginia but, also, and more important, his country, longer than anyone else in this body.

We think of his long record in connection with public works and all the good he has accomplished in the building of highways and bridges, and helping in the construction of dams, waterways, and other worthy projects. We think of him as a loyal friend, one whose dedication to the conduct and the rules of the Senate serves constantly as an exemplary model for the rest of us.

What few of us remember, though, about this wonderful man is his great contribution to American aviation. I speak not as a U.S. Senator, but as a man who has been a licensed pilot for almost 56 years of his life. I can look back on things like the visible marking of runways, the establishment of an airway system, the placing of radio beacons on those airway systems, and the writing of basic rules and regulations to govern flight in this country, and I keep getting back to one name—JENNINGS RANDOLPH.

When I look at the splendid Air and Space Museum on The Mall at the Smithsonian, I think of JENNINGS and his unending efforts to bring the construction of that museum to fruition.

We who fly and love the air are indebted, not just today, but forever, for the pioneering efforts of this man in the field of aviation.

So I say to you, JENNINGS, as you take off on your flight back home to West Virginia, to recline in comfort for the remainder of your life, that you go with the heartfelt thanks of all of us who have ever known, enjoyed and lived with the advancement of aviation. We salute you, respect you and, as we say, "safe landings, old boy." You deserve it.

TRIBUTE TO SENATOR JOHN TOWER

Mr. NUNN. Mr. President, on Wednesday, October 4, the members of the Senate Armed Services Committee, the committee staff, and the personal staffs that work with our committee gathered to pay our respects to our chairman, JOHN TOWER.

It was a special event for all who have worked with JOHN TOWER over the years, and we all wanted to recognize his outstanding career before the Congress adjourned and while he was still our chairman.

I used some of the following remarks in paying him this special respect and thanks on behalf of those gathered. I would like to provide the full text in the RECORD at this time.

There being no objection, the full text was ordered to be printed in the RECORD, as follows:

TRIBUTE TO SENATOR JOHN TOWER

In a few days, the 98th Congress will, hopefully, be history. When this Congress adjourns, it will bring to an end the remarkable and outstanding Senate career of our Committee's chairman, Senator John Tower. I am certain it will not mark the end of Senator Tower's involvement in national security policy.

Before adjournment, we wanted to gather together our Armed Services Committee family—the members, the committee staff and the personal staff—for a recognition of Senator Tower's career by those of us who have worked closely with him.

There will be other events to honor Senator Tower's great career, but the Committee wanted to get together as a group for probably the last time with Senator Tower as Chairman so that we could pay our respects and express our admiration in a personal way.

John Tower has served on the Armed Services Committee since 1965. He has served with the legends of our Committee from the past as Richard Russell and Scoop Jackson and he is serving with the legends of the present—John Stennis, Strom Thurmond and Barry Goldwater. He will leave his own legend. John Tower is recognized as one of the most knowledgeable, articulate, and effective leaders for a strong national defense that had ever served in the Senate.

Throughout his career, John Tower has never lost sight of the fact that our men and women in uniform are our most important national security asset. He has continually stressed the importance of meeting the needs and maintaining the morale of the rank-and-file soldier, sailor, airman, and marine in the field. His frequent visits to the field always include contact and discussions with soldiers of every rank. During the Vietnam War, John Tower made 9 trips to Southeast Asia to visit the troops and review conditions first-hand, more than any other Senator.

His empathy and understanding of our soldiers' needs stem in part from his own personal experience. We all know how proud he is of his service in World War II and his rank as a Master Chief Petty Officer of the Navy.

When I was in Senator Tower's office recently, I couldn't help noticing a picture of John Tower with another prominent Naval Reservist, John Lehman, both of them in uniform. The inscription to Senator Tower from Secretary Lehman read: "All my life I've heard that the chiefs run the Navy, but this is ridiculous!"

Since 1981, John Tower has served as Chairman of the Armed Services Committee. All of us in this room can attest to his skill, his leadership, and his successes in guiding a strong defense program through Congress.

Senator Tower's success on national security issues can, in part, be attributed to his remarkable understanding of foreign policy. He came to the Senate with a strong background on foreign relations based upon his education at the London School of Economics and his early career as a college political science professor.

But since coming to the Senate, he has devoted a considerable amount of time to the study of world events. In particular, Senator Tower has taken tremendous amounts of time to meet with foreign officials—Heads of State, Foreign Ministers, Defense Ministers, parliamentarians, and military leaders—during their visits to Washington, as well as in his official travels on behalf of our Committee.

So not only does he know the issues, he also knows well the foreign officials who influence them. This combination has been a tremendous asset to the work of this Committee and the Senate as a whole.

To try and get a sense of what Senator Tower has accomplished in his 19 years on the Armed Services Committee, I went back and took a look at the FY1966 Defense Authorization Bill, which was the first one passed after Senator Tower joined this committee. Comparing the FY1966 and FY1985 Defense Authorization Bills proved to be very revealing.

The FY1966 Defense Authorization Bill passed the Senate in a single day, April 2, 1965 by a unanimous vote. There were no floor amendments.

The Conference Committee met once; the Conference Report was 8 pages long; and the actual Public Law was 2 pages long. It

authorized $15 billion in defense procurement.

The FY1985 Defense Authorization Bill is a very different story.

We spent 10 unforgetable days and nights on the floor, and debated 107 amendments.

Conference began on June 22 and stretched out until September 26. We met on 10 different days, the last one a marathon session notable for the violence that the diet of M&Ms and C-rations did to our digestion.

Our Committee Report this year was 527 pages long, a 25-fold increase over FY1966; the Conference Report was 354 pages long, a 44-fold increase over FY1966; and the length of our Public Law this year is still a mystery because our counsels Alan Yuspeh and Jeff Smith haven't finished making their "technical corrections" to the bill that both Houses passed last week. But the bill is at least 400 pages long. I know the "technical corrections" alone will be longer than the entire fiscal 66 bill. The 85 bill represents $211 billion in authorized spending,—so from 2 pages to 400 pages and from $15 billion to $211 billion gives some indication of the sweep of his service.

John Tower was supporting, and indeed leading the way, for a strong national defense when this was not the prevailing view in the country and the Congress. He never waivered and he now sees his positions espoused by a majority in the country and the Congress.

As a token of our respect, esteem, and gratitude for John Tower's contributions, we wanted to leave him with a momento of his years of service in this Committee. We have in preparation a shadow box containing some items to try and represent symbolically what John Tower has meant to this Committee, to the Senate, and to our national security. We have on display here in the Committee today an artist rendering of what the shadow box will look like when completed.

The shadow box will contain the most recent committee photograph. It will contain the gavel used by Senator Tower to chair dozens and dozens of Committee hearings and Committee meetings during his four years as Chairman—and it is also the gavel he used to close out his final conference on the FY1985 Defense Authorization Bill. The Committee wants to present this gavel to you as a symbol of your leadership. It will contain copies of the public law for fiscal 66 and for fiscal 85 for defense authorizations to indicate the span of time and the major changes in defense during his illustrious career.

The shadow box will contain messages from past Secretaries of Defense and from Senators who have served with John Tower on the Armed Services Committee over the years. I want to take just a moment to read some of these messages we have already received:

"Your contribution to the security of our country in planning and maintaining a realistic deterrent will be lasting memorial to your twenty-four years of service in the U.S. Senate." (Melvin Laird, Secretary of Defense, 1969-1973).

"To Towering John Tower of Texas. I dislike to see you go, but am pleased that you came this way. You served your country well. Special good wishes." (Senator John C. Stennis).

"Leadership is said to consist of action, not position. To our great and good fortune, you have throughout your career in the Senate, refused to bend to the pressure of popular sentiment and instead, have chosen to stand in the center of the battle. Once, a solitary figure armed only with the truth, you have become the majority." (Senator Bill Cohen).

John, it is our hope that this small momento will serve as a reminder to you of our appreciation for what you've done for the Committee, the Senate and the country.

You have our thanks, our admiration, and our respect.

RICO CIVIL CAUSE OF ACTION

Mr. THURMOND. Mr. President, on July 25, 1984, the U.S. Court of Appeals for the Second Circuit decided the case of Sedima against Imrex Company, Inc. This particular case involved allegations of business fraud, and the plaintiff therein alleged, among other things, that the defendant had engaged in violations of the Racketeer Influenced and Corrupt Organizations Act—RICO.

Mr. President, as the Members of the Senate are well aware, enactment of RICO resulted from public and congressional concern about the growing activity of organized crime during the 1950's and 1960's. The act was included as title IX in the Organized Crime Control Act of 1970 and was designed to assist in the eradication of organized crime in the United States by providing new remedies to deal with the unlawful activities of those engaged in such criminal activities.

The main part of the RICO statute included a list of predicate offenses which are defined as "racketeering activity." The commission of two or more of these predicate acts within a 10-year period constitutes a pattern of racketeering activity which triggers the civil remedy claim under 18 U.S.C. 1964(c). Included in the list of predicate offenses are such crimes as murder, extortion, embezzlement, kidnapping, bribery, and other similar hard core criminal acts which the Congress believed to be those most frequently associated with organized crime activity.

In addition, when Congress enacted the Organized Crime Control Act, a provision was included in the law which would permit any victim of racketeering to sue in Federal court and recover treble damages and attorney's fees. This private remedy, 18 U.S.C. 1964(c), was included in the law with the intended purpose of creating an incentive for the victims of organized crime activity to bring a private lawsuit to redress the wrongful actions of organized crime against legitimate businesses. Because of the limited resources available to assist in the Government's fight against organized crime, this private, treble-damage remedy was believed to be useful. In brief, the civil RICO part of title IX was crafted to enhance the protection of legitimate businesses against the syndicate's infiltration by dealing with the organized crime as an economic phenomenon.

Unfortunately, the scope and intent of the RICO provisions have been the subject of widespread uncertainty and discussion in the courts since their enactment. Specifically, courts have wrestled with whether Congress intended to create broad civil causes of action in the legislation or something less. Some court opinions have held that RICO's language is ambigious as it relates to private civil RICO causes of action. Other opinions hold that, on its face, RICO allows for private suits by people injured by defendants who have committed two so-called predicate acts.

Further uncertainty regarding RICO concerns the question of whether a prior criminal conviction is a prerequisite to a civil RICO action. In the Sedima decision, for example, the second circuit court of appeals held that, in order to bring a private civil action, there must first be a criminal conviction on an underlying predicate offense. Other courts have not required such a conviction as a condition precedent to a private suit.

Mr. President, when we acted on this RICO statute as part of the Organized Crime Control Act of 1970, I think it is fair to observe that we might not have envisioned the full use of the statute by private civil litigants to include a civil RICO count in their ordinary business litigation alleging misstatements and fraud. In an effort to reach all kinds of racketeering activity, the Congress wrote the statute in broad, sweeping terms. To allege a RICO charge is relatively simple in today's complex, interstate commercial environment. The added appeal of a Federal forum, of a treble damage money recovery, and attorney's fees increases incentives to allege a RICO statute violation in the context of an ordinary commerical law or contract cause of action ordinarily bought in State courts.

Mr. President, it would seem from preliminary information coming into my office that a problem may be developing involving the sudden growth of the private suit remedy of the RICO statute. According to the American Bar Association's special RICO task force about 118 private civil RICO cases have been reported in the last 3 years. Of those, the majority alleged securities fraud, commercial fraud, tender offer disputes, and the life. This apparent pattern in current civil RICO use has prompted the American Bar Association to provide a professional education course intitled "RICO: The Ultimate Weapon in Business and Commercial Litigation."

As a result of the varying judicial interpretations of RICO, numerous questions now exist with respect to legislation which was designed to be a

vital addition to our arsenal of weapons against organized crime. These questions and uncertainties have undermined the effectiveness of this weapon and must be resolved. In addition, the members of the accounting, financial, and other business professions in this country deserve to be able to make reasonable judgments concerning the impact of RICO provisions on their business. It is, therefore, imperative that the Congress hold hearings as soon as possible on this issue to determine if the intention of the Congress in enacting RICO is being carried out, and, if not, what legislative changes are necessary to bring that about. It is my intention to hold such hearings as soon as possible next year after the Congress convenes.

I ask unanimous consent that a letter on this subject from Theodore C. Barreaux of the American Institute of Certified Public Accountants be inserted in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

AMERICAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS,
Washington, DC, October 2, 1984.

Hon. STROM THURMOND,
Chairman, Committee on the Judiciary, U.S. Senate, Washington DC.

DEAR MR. CHAIRMAN: The American Institute of Certified Public Accountants is the national professional organization representing over 215,000 CPAs in the United States.

In the last year, we have become increasingly concerned about the proliferation of civil suits being brought under the Racketeer Influenced and Corrupt Organizations Act (RICO) against members of the accounting profession and others engaged in lawful business pursuits. These suits, based upon allegations of marginal substance, have exposed professionals and legitimate businesses to substantial monetary liabilities. Moreover, the branding of individuals and business entities as "racketeers" during the pendency of a case has led to unfair damage to professional reputations. The expense of the legal contest is great and—given the breadth of the civil remedy provided under RICO—the success of even a vigorous and well-founded defense cannot be assured.

Several respected jurists have joined in the pleas of the accounting profession and many legitimate businesses to ask the Congress to re-examine the RICO civil remedy and stem the tide of abuse that is now rising in the Federal courts. The need for Congressional action is clear. Each week, legal periodicals report additional cases and some practitioners have counseled their colleagues that it may even constitute malpractice to fail to allege a RICO claim in any commercial dispute in which fraud might also be asserted, inasmuch as RICO holds out the promise of treble damages and the recovery of attorneys' fees.

Your earliest attention to this important matter is requested.

Sincerely,

THEODORE C. BARREAUX,
Vice President, Washington.

RICO CIVIL CAUSE OF ACTION

Mr. DECONCINI. I rise in support of the distinguished Chairman of the Judiciary Committee, Senator THURMOND, in his call for hearings on the RICO Act as it relates to civil RICO language. As the chairman has stated, uncertainty in interpreting the civil RICO language exists and ought to be the subject of hearings in the next session.

I have long been a supporter of broad interpretation of the RICO statute in the area of criminal prosecutions. I continue to believe that it is one of law enforcement's most useful and effective tools in fighting organized crime.

I am further interested in seeing to it that the RICO language is equally effective in reducing the tremendous profits made by organized crime through civil suits. To date, the RICO statute has not been as effective in the civil area as in the criminal area.

It is readily apparent that the civil RICO language has been the focus of varying interpretations both in court and in legal articles. The implication of such interpretations, as the senior Senator from South Carolina has stated, are farranging. It is, therefore, imperative that hearings be held to air out the views of all those concerned.

These hearings will provide the forum to determine whether or not the civil RICO language needs to be modified, clarified or left unchanged. Only after hearing the statements of all those concerned will we be able to determine whether congressional intent in enacting this legislation is being carried out and remedial action is necessary.

I commend the senior Senator from South Carolina for his foresight in this important matter.

TRIBUTE TO SENATOR HOWARD BAKER

Mr. KENNEDY. Mr. President, as the Senate prepares to adjourn and the 98th Congress comes to an end, all of us in this Chamber, on both sides of the aisle, regret that our distinguished Majority Leader HOWARD BAKER has decided to take his leave—and move on to other things.

Over the years, all of us have come to respect HOWARD BAKER for his intellect and integrity, and to love him for his country eloquence.

HOWARD BAKER is one of the most able and most decent human beings I have ever met. He may just be the finest Senator Tennessee has sent to Washington since Andrew Jackson—who also left the Senate to go on to other things.

HOWARD BAKER is also a leader with great patience—and, I might say, with a reputation for patience even greater than the patience itself.

Of course, as we all know, HOWARD BAKER got his start in politics because his father-in-law was Senator Everett McKinley Dirksen. And I for one have always been a little wary of anyone who tries to get ahead on the basis of a famous family connection.

Actually, HOWARD BAKER likes to tell the story how his career began—at a Republican campaign rally in 1960 when my brother was running for President. At the time, HOWARD had been driving Senator Dirksen around the State of Illinois for a round of campaign appearances. And at this particular rally, in Aldan, IL, Senator Dirksen complained that my brother was becoming famous for serving on a PT boat—but that no one had ever suggested that his son-in-law and chauffeur, Howard Baker, who had also served on a PT boat, was qualified for public office.

From that point on though, people did start to notice HOWARD BAKER, with results that are plain for all to see and that obviously are not concluded yet. Certainly, he is not being carried back to Tennessee on his shield.

We will remember HOWARD BAKER in the Senate for many things: poet, philosopher, photographer—and politician in the finest sense of the word. Surely, he will be in Bartlett's next edition for his famous epigram in Watergate about what the President knew and when he knew it.

We will miss HOWARD BAKER in the 99th and future Congresses—but his leave-taking now from the Senate is unusual in one other important respect. For HOWARD BAKER is departing, not in an atmosphere of sadness, but with an air of anticipation and at the height of his powers.

For HOWARD BAKER, it may well be that the best is yet to come—and I suspect that all 99 of us who have valued his friendship in this body these many years will say, "It couldn't happen to a nicer guy."

TRIBUTE TO SENATOR JENNINGS RANDOLPH

Mr. MITCHELL. Mr. President, it is my priviledge to pay tribute to Senator JENNINGS RANDOLPH and his long and distinguished career of public service. Senator RANDOLPH has served in the U.S. Congress for 40 years; 14 years as a Member of the House of Representatives and the past 26 years as the senior Senator from West Virginia. Throughout his years in the Senate he has been a member of the Committee on Environment and Public Works where he served as chairman for over 14 years.

Senator RANDOLPH's record in the Senate is one that he can be justly proud of. While his accomplishments are too numerous to be fully acknowl-

edged here, they include the Coal Mine Health and Safety Act, the Black Lung Benefits Act, the National Institute of Peace, and lowering the voting age to 18.

As a member of the Committee on Environment and Public Works, his initiatives include the Solid Waste Disposal Act, creation of the Appalachian Regional Commission, and legislation to complete our interstate highway system and repair and rehabilitate our bridges. In addition, he has contributed substantially to measures concerning nuclear energy, fish and wildlife conservation, water resources development, economic development, public buildings, and air and water pollution control.

It has been my good fortune to have served with Senator RANDOLPH in the Senate on the Committee on Environment and Public Works and on the Veterans' Affairs Committee for the past 4 years. I have great respect for him as an able and committed legislator and as a fair and honest man who has tirelessly worked for the people of West Virginia and the Nation. Through his efforts and many accomplishments millions of people live fuller and healthier lives.

TWO STORIES OF DRUG ABUSE

Mrs. HAWKINS. Mr. President, we too often see examples of what happens when young people fall victim to the horrors of drug abuse.

But no matter how many times we see and hear similar stories of our youth succumbing to drug abuse, we are equally affected each time. I am attaching two columns which recently appeared in USA Today that demonstrate in different ways how devastating, in one case to an individual and in the other to an entire community, the problem of drug abuse can be.

One column, entitled, "I Blew Away 10 Years of My Life," states this with poignancy. In attempting to deal with the problems of early adolescence and peer pressure, a 12-year-old girl started using drugs, and fell into the downward spiral of drug abuse. Fortunately this story, unlike too many others, ends with the author's rehabilitation.

The other column, entitled, "They Talk of Cows—And Cocaine," presents aspects of the problem of youth drug abuse by providing some hard hitting statistical information. National statistics are cited indicating that 90 percent of all high school students drink alcohol regularly or have tried it; 50 percent use marijuana; 30 percent use caffeine hyped speed tablets; and 10 percent use cocaine.

Articles such as these, Mr. President, demonstrate vividly that we must not relax in our efforts to curb drug abuse in our nation.

I ask unanimous consent that the attached articles, found in USA Today, issue dated May 2, 1984, be printed in the RECORD.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

I BLEW AWAY 10 YEARS OF MY LIFE

NEW YORK CITY.—It's real easy to blow away five or 10 years of your life on drugs. And the simplest part is getting started.

I started when I was 12. My family had just moved and I was afraid of never having any friends again. I remember walking around my new school and feeling so alone. If only someone would talk to me.

Then, one day, a group of kids did talk to me. They asked if I smoked marijuana. I lied. I said yes. And that was the first time I got high.

I was scared, but that didn't seem to matter as much as being accepted. I remember it all so clearly, almost as though it happened yesterday. But it wasn't yesterday. Because now I'm 22 and just beginning to turn my life around, after nearly 10 years of drug abuse.

I thought that first time was so harmless. It was all fun and friendship. But the first time led to other times, and then to other drugs. By age 18, I had barely made it through high school, and my parents were hurt and angry with me.

I thought if I left home and went away to college, if I left my old friends behind, then I would be OK. But I wasn't. It was the same story all over again. Only at college it was more serious, because I was using a lot of cocaine.

When I flunked out of college, I knew it was time to do something drastic. I was out of control. I thought if I could go back home and stay away from everyone, then I'd be OK.

The only problem was I couldn't stay away from myself. I was 21 and miserable. I had no direction. I was going nowhere except down. I thought I would be a drug abuser for the rest of my life.

Maybe I would have been, if my father hadn't persuaded me to enter treatment at Phoenix House. I didn't really believe it would work, but I was willing to try anything.

I've been in treatment seven months now, and it looks as though my story might have a happy ending after all. It's not easy. How can it be easy to start growing up when you're 22? But I'm learning about myself and what real friends are.

I can never get back the years wasted on drugs. But I have goals now, and I have the rest of my life to reach them.

I'm lucky because I got a second chance. There are thousands of kids who didn't. And there are probably millions of kids who are growing up the way I did. Not all of them are going to blow away five or 10 years on drugs. But plenty will.

THEY TALK OF COWS—AND COCAINE

SIOUX FALLS, S.D.—This is a sunny, tree-lined city of 85,000 people on the east end of a windy prairie. The assets are fresh air and cattle. The people talk about God, rain, children, and school.

It's also a city with a drug problem in high places. This year a cocaine trial involved the county prosecutor—he was acquitted of perjury. Several other lawyers were defendants or witnesses.

Our drug problem extends to teen-agers, too.

"Adults have their coffee. We have our drugs," one 17-year-old girl says: "Over half in high school drink and smoke pot. People in school always have it. You have the right connections, and you get it."

A 19-year-old dropout tells of drinking beer in the fifth grade and smoking done in the sixth: "One day, one of my buddy's sisters lit up a joint. We all tried it. It was nothing serious."

Compared to larger cities, the problem is small in Sioux Falls. The dropout rate here is less than 5 percent; standardized test scores are high. This is no drug ghetto.

Still, the problem can't be ignored.

National statistics show that 90 percent of all high school students drink alcohol regularly or at least have tried it. They also show that 50 percent use marijuana, 30 percent use caffeine-hyped speed tablets, 10 percent use cocaine.

Dan Deal, director of a counseling center, estimates that 30 percent of all Sioux Falls teen-agers are regular drug users. His agency gets 150 referrals a year from the schools.

Bob Carr, the director of a city center where students pay $200 for a seven-week out-patient program, says, "We're a permissive society. Society gets what society accepts."

Dr. Donald Frost, a Sioux Falls physician, calls alcohol the nation's No. 1 drug and health problem.

"I'm not a WCTU-er," Frost says in reference to the Women's Christian Temperance Union, which helped get Prohibition enacted. "I happen to be a non-drinker. But a parent has a very difficult time saying to a kid. 'Don't you dare use pot,' when he's got booze in the refrigerator."

Frost's logic is precise. And it is painful. A nation that glamorizes booze is now passing along a drug problem to its children in a way that no one ever expected.

The PRESIDING OFFICER. Is there further morning business?

Mr. MELCHER addressed the Chair.

The PRESIDING OFFICER. The Senator from Montana.

THE LEGISLATIVE CRUNCH

Mr. MELCHER. Mr. President, I do not know whether there is any likelihood of all the work of Congress being completed today. It seems to me that that is virtually impossible. There will be rather startled glances made at any Senator who brings up a bill in the form of an amendment to the debt ceiling bill—startled because the general feeling is that we would like to complete all business of the Senate and the Congress and have sine die adjournment rather soon. Yet, Mr. President, there is a lot of unfinished business and the only opportunity for any completion of action by Congress on some bills that have been delayed will be on the debt ceiling bill.

I merely make these comments at this time, Mr. President, to emphasize that, at least in the case of this Senator and, I am sure, in the case of other Senators, it is not our choice to be offering these bills as amendments to the debt ceiling bill. It is the only chance we have, however, having been delayed by various means throughout the past several months, of bringing

up the bills and having them considered prior to the crunch of adjournment time. So, Mr. President, it is not with any great delight that Senators like myself offering amendments to this bill are offering them under these circumstances. We would have preferred to offer them in the normal course of business of the Senate weeks ago.

I apologize for taking the time of the Senate during these harried hours just prior to adjournment, but, having said that, I have to very stoutly say that had we been given the chance earlier, we would have done so, but that opportunity and chance were not provided.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. The time for morning business has expired.

PUBLIC DEBT LIMIT INCREASE

The PRESIDING OFFICER. The clerk will now state the pending business.

The assistant legislative clerk read as follows:

A joint resolution (H.J. Res. 654) increasing the statutory limit on the public debt.

The Senate resumed the consideration of the joint resolution.

Mr. DOLE. Mr. President, this resolution will increase the public debt limit to $1,823.8 billion for fiscal year 1985. The conference report on the budget resolution—which has been approved by both Houses—indicated that this amount is the appropriate public debt limit for the new fiscal year. Approval of this resolution means an increase in the public debt limit of about $250 billion.

There should be little dispute about the public debt limit that will be set by this resolution because the budget estimates underlying the limit have been approved just in the past week. Since we have waited 4½ months past the legislative budget schedule to adopt the resolution, we ought to feel certain that this amount of debt increase is the most refined and polished ever brought to the Senate floor.

Today and for the next several days, there is no immediate danger that the Treasury will not be able to pay the bills Congress has authorized. The operating cash balance was about $15 billion on Thursday morning which may be enough to pay the Government's bills for 2 or 3 days next week. These bills will include daily payrolls and defense and all other procurement contracts. Fortunately, the amount of cash needed to pay for Social Security benefit payments, military and civilian Government-employee retirement benefits, and VA benefits during the first 3 days of last week was on hand.

The pinch, right now, however, is in the debt management area. There is not enough margin under the present debt limit to continue normal debt management responsibilities. Last month, Treasury postponed regularly scheduled auctions of 4-year and 7-year notes and 20-year 1-month bonds.

In addition to these postponements, Treasury was not able last weekend to make trust fund investments. Under more normal conditions, Treasury would have invested $15 billion from the Civil Service Trust Fund on September 28 and $9 billion from the Military Retirement Trust Fund and $12 billion from the Social Security Trust Funds on October 1. These investments will not be made until after a higher debt limit has been authorized. The trust funds will lose about $6 million a day in interest earnings because of the delayed investments. The loss is permanent unless Congress enacts authority for Treasury to make the trust funds whole.

I urge the Senate to approve this resolution quickly and without amendment so that we can speed its passage to the President for his signature. Nothing can be gained by delaying enactment of this resolution.

Mr. PACKWOOD. Mr. President, I ask my colleague what his plans are for the educational assistance bill and for the employer-provided legal assistance bill, two bills that are now on the calendar and that have been passed by the House. Is it the Senator's intention to call up those bills?

Mr. DOLE. That is my hope, but I know for a fact that there are a number of people who have amendments they would like to apply to the vehicle. We are not going to take up those amendments until we complete action on the debt ceiling.

Mr. PACKWOOD. Let me ask my distinguished chairman this: If we complete action on the debt ceiling and the concurrent resolution, which we hope to do today, and the chairman calls up the bills relating to educational assistance and prepaid legal and others offer amendments and they become bogged down, those bills will die. We are going to adjourn and they are not going to pass.

Given that situation and given the fact that the House has passed these two bills, what objection is there to adding these bills which have House acceptance as long as they are their bills, because they have passed them?

Mr. DOLE. My only objection is that if we attach anything to the debt ceiling, there is no reason not to attach other things to the debt ceiling. My hope is that nothing will be attached.

Mr. PACKWOOD. I think we can make a good case for attaching something that has already passed here and passed in the House.

Mr. DOLE. I must say I have talked to several other Members who have other little amendments that they know the House has no objection to. I see a contest developing on who is going to be first on imputed interest, for example. I hope neither one is first. I think we have that worked out. But that is another amendment that Members would like to offer to the debt ceiling. I would prefer not to have any amendments.

Mr. PACKWOOD. Why could we not, by unanimous consent, call up the prepaid legal and education bills, pass these by unanimous consent, and send them to the President.

Mr. DOLE. We may want to do that later on, but I say to my colleague from Oregon that we are going to need all the help we can get to pay off the debt ceiling. If we take care of those interested in those two bills, we are not going to be able to accommodate others. I know there are others who have interest in those bills and we need their active assistance in keeping other amendments off the debt ceiling. If we fail, then obviously, we could add those two matters to the debt ceiling, too.

Mr. PACKWOOD. Mr. President, I do not want to prolong this, but it seems we could deal with these other two matters. One program has already expired, the education program and another expires at the end of this year. There are literally millions of employees in this country wondering what is going to happen to the employer-provided education benefits and the employer-provided legal aid. It would be my intention—if we reach 2 o'clock, or 3 o'clock, and we are still debating the debt ceiling and it is clear we are going to adjourn soon, I wonder if we could offer these to the debt ceiling, because there is no hope at all of if the debt ceiling goes first.

Mr. DOLE. I know one Senator is looking at the education one as a vehicle for his amendment because he knows the House wants it and he knows that it has a lot of support. Obviously, they have their right to offer them. In one particular case, it is because the House will not accept the bill. We believe it noncontroversial, it passed the Senate, an equal access bill. But I have been advised by the chairman of the Ways and Means Committee that they will not entertain that proposal.

Mr. President, I suggest the absence of a quorum.

Mr. MELCHER. Will the Senator yield, Mr. President?

Mr. DOLE. I yield only for a question.

Mr. MELCHER. The Senator is well aware of our efforts to get to imputed interest and of our intention to offer it to the debt ceiling bill, if no other opportunity is available prior to that time. Here we are at the debt ceiling now. What does the Senator contem-

plate for that opportunity to offer an imputed interest rate bill?

Mr. DOLE. I would hope, if I may respond—we have been working with the Senator from Montana, I might add, with his staff and with about—we have been working at a staff level with Treasury, with the Joint Committee on Taxation, with the American Land Development Association, the National Apartment Association, the National Association of Home Builders, the National Association of Realtors, the National Federation of Independent Businesses, the National Multihousing Council, the National Small Business Association.

We believe that we now have an agreement with all these groups. In fact, they are circulating a letter to Members on both the Senate and the house side. That letter is signed by the American Land Development Association, National Apartment Association, National Association of Homebuilders, National Association of Realtors, the National Federation of Independent Businesses, the National Multihousing Council, and the Small Business Association.

It goes much further, I might add, than the previous amendment offered by the Senator from Montana and even the amendment offered by the Senator from Kansas. This has a revenue estimate of about $400 million as compared to a $100 million revenue estimate. So I say to my friend from Montana, who first raised this issue along with the distinguished Congressman from Texas, Congressman ARCHER, that we are going to pass this sometime today but, hopefully, not on the debt ceiling.

Mr. MELCHER. Is the Senator aware that the American Hotel and Motel Association, the Building Owners and Managers Association, International Coalition for Low and Moderate Income Housing, the International Council of Shopping Centers, the National Association of Industrial and Office Parks, the National Association of Real Estate Cos., the National Realty Committee, the Real Estate Tax Institute, the Montana Realtors, and the Montana Independent Small Business Group vigorously oppose the proposal that the Senator has just mentioned and cite their reasons for opposing it and have distributed to Members of the Senate at least—I do not know about the House—their objections to that proposal and their reasons for it and their vigorous request, almost demand, that this problem be addressed in its entirety, and short of repeal of the provisions in the recently passed tax bill they are demanding that the corrections be broader than what the Senator has proposed in his package?

Mr. DOLE. Again I say to the Senator from Montana, the compromise that we hope to offer later today goes much further than the original amendment of the Senator from Montana. Obviously, some do not want to change it. Some want to continue tax abuse. The estimates of revenue loss over the next 3 years is $2.2 billion. Some of the organizations the Senator mentioned have members who do very well, and they do not want to give up what they have been able to do under the old law. And again I would indicate, it is not my amendment. It is an amendment recommended by the President in his budget. It is one that the Treasury brought to this Congress.

We think we have made substantial changes, but I am prepared to debate that from now to next week. We are not going to come to a vote on repeal, if that is what the Senator has in mind on this issue, as long as this Senator is chairman of the Finance Committee, so we can stay here next week and the next week and the week after that.

Mr. MELCHER. Will the Senator yield for one more question? He has been gracious about yielding for questions.

Mr. DOLE. Right.

Mr. MELCHER. As a matter of fact, I see no reason for a quorum call; I think we have plenty of time to discuss this. I hope it is not intruding too much on the Senate or the chairman's time. But is the Senator aware that the statement about going further than the original amendment I offered, that my original amendment has been modified as these situations have unfolded and that the latest version of my amendment now also incorporates the provisions that the Senator has stated that go further than my original amendment?

Mr. DOLE. Right. Based on the Senator's amendment, I think we have enlarged the $1 million farm exemption to $2 million, so I think it is fair to say that we took the Senator's amendment and then enlarged upon it. We think it is much better. Now, some will want to repeal the entire seller financing provision. And again, I must say if we really want to help some of these homebuilders and realtors, then we ought to take the compromise and try to sell that to the House. I would say as chairman of the Senate Finance Committee that is not going to be easy. I understand the chairman of the Ways and Means Committee will not entertain any change in the seller financing provision this year. Now, we hope that we can encourage Members on both sides to go to the chairman today and try to persuade the chairman that if we do pass a compromise, he should accept it. I hope that we could focus on something that may be realistic. We can run around here and talk about repeal, but repeal is not going to happen. I am going to do all I can to prevent that on the Senate side. We may be able to pass a compromise. I know the Senator from Ohio [Mr. METZENBAUM] has some serious questions about even the compromise, and we have to go over the compromise with the Senator from Ohio, so there are others who have serious questions about that. But if we really want to help the realtors and the homebuilders and the small businessmen and the farmers, we ought to take some legitimate compromise and pass it and then try to persuade the House to take it. But if we are going to talk about repeal—and I do not suggest the Senator from Montana has that in mind—then I think it is a whole different ballgame.

Mr. MELCHER. Will the Senator tell us when we are going to get on this debate? Because, while I am willing for it to be next week, I think there are a lot of other Senators who would like to know it is going to be next week and also the House.

Mr. DOLE. We will be on the debate sometime today, but I am in no hurry to take up imputed interest, I can say that to the Senator from Montana.

Mr. MELCHER. That is the debate I am talking about.

Mr. DOLE. We are here to debate the debt ceiling. I think first we ought to debate that, and then we can entertain amendments. We have not even made the opening statements on the debt ceiling.

Mr. MELCHER. Is there any guarantee that we are going to get to imputed interest if it is not on the debt ceiling, and what guarantee is there——

Mr. DOLE. We have a vehicle that we have been sort of saving; the boat bill is still floating around the Senate, and we thought we would call that up and attach this compromise to the boat bill and send it to the House.

Mr. MELCHER. That is not very reassuring, and until we know when we are going to have a debate on it, I think there are a lot of us who are going to be questioning what procedures we are going under, because we have been waiting ever since the end of June. That is about 3 months ago.

Mr. DOLE. I can say to the Senator from Montana he ought to be spending his time on the telephone to the chairman of the Ways and Means Committee. Persuade him to accept it. There are a lot of vehicles on which we can ship it over there, but I must say in all candor, unless there has been a big change since last evening, they do not intend to take it up on the House side whether it is on the debt ceiling, the boat bill, or the two bills mentioned earlier by the distinguished Senator from Oregon, or any other revenue bill. Now, we have one little bill in which the chairman of the Ways and Means Committee has a

deep interest. We thought about maybe putting it on that bill.

Mr. MELCHER. What the Senator is saying is that we can make a run at it some time, but when that will be he does not know yet, or what vehicle it will be on. Whether it is an important vehicle that the House will take up, he does not know. The debt ceiling does happen to be an important bill, and the House will consider whatever is attached to the debt ceiling, but I do not know anything about the boat bill or some other bill that might be floating around, whether the House would ever stick around long enough to even have it brought from this Chamber to theirs before adjourning. It places us in an impossible situation, I remind the chairman; if we are not going to get on with the debate in the Senate on the matter, we are simply left in a position of having to continually strive to arrange with the chairman and other Senators when this debate can come about. Until that is assured and we are assured it will be on a bill that will have the attention of the House, I think we are in a position where we are going to have to just redouble our efforts to attach the imputed interest amendment to this vehicle.

Mr. DOLE. The Senator from Kansas, having spent considerable time on this matter himself, certainly wants it addressed this year. Unfortunately, I have no control over what happens on the House side. If the Senator from Montana and the Senator from Idaho can be helpful there, I would certainly be pleased to have their assistance.

Mr. MELCHER. I might mention to the able chairman that there are 300 House Members who are on either the companion bill to what I have proposed or a companion bill to what the junior Senator from Idaho has offered. So it seems to us there is no doubt that the vast majority of the House, three-fourths, wants to take up the measure. There is no doubt that more than 50 Senators want to take up the measure. It does have a certain amount of priority.

One of the two stumbling blocks we have found has been the able chairman of the Finance Committee, the Senator from Kansas. He is proposing to us that, somehow, the chairman of the Ways and Means Committee can thwart the efforts of 300 House Members to consider the subject before adjournment. I do not believe that should be the situation—that two people, one in the Senate and one in the House, could thwart the consideration of a measure that has been before both bodies since the first of the year and has the overwhelming pressure and demands from business groups and homeowners and others throughout the country, including small business people, to make corrections in it before we adjourn.

Mr. DOLE. I do not think it is appropriate to characterize the chairman of the Finance Committee as a stumbling block. We have been working with all the groups I have mentioned. I have attended some of the meetings. We spent all day yesterday going over drafting with these groups.

I am also realistic enough to know that we have to deal with the House. If we could just pass it in the Senate, we could put it on anything.

I hope that perhaps today or tomorrow or sometime next week the chairman of the Ways and Means Committee might have a little different view on this issue. He issued a statement last night—I do not have a copy with me—that he is not about to accept any revenue measure on the debt ceiling that is going to cost hundreds of millions of dollars. Obviously, that includes nuclear freeze and all the other amendments floating around as a sort of farewell political party before we leave here. They do not have any interest in that. They play a lot of games in the House, but they play them differently. I would like to get into the debt ceiling now and see what happens later on.

Mr. MELCHER. I thank the Senator for entering into this discussion or colloquy or debate—however we term it.

I suppose the real stumbling block is the false notion of the Internal Revenue Service and the Treasury Department that somehow they can ram down the throats of Americans the very unrealistic proposition that they can get interest rates on transactions involving a willing seller and a willing buyer. That is what imputed interest is all about.

I hope that both the chairman of the Finance Committee in this body and the chairman of the Ways and Means Committee in the other body will not continue to shield the Internal Revenue Service and the Treasury Department from correction of what is truly abuse of the American taxpayers.

Mr. DOLE. I hope the Senator from Montana does not cave in to every special interest group that comes along.

There are a lot of people out there paying their taxes who get tired of us trying to shield income for the rich. I hear all this stuff on television from candidate Mondale about the party of the rich. A lot of special interests have done very well here for a long time. They have been able to shield income and make a lot of money, and we are trying to tighten up those loopholes.

If the Senator wants to join those who abuse the IRS and the Tax Code, as opposed to those in his State who have their taxes withheld from their wages, that is all right with me. I am not going to join that crowd. If that is the group he supports, that is fine.

You can always charge the IRS with everything. We have gone to the Treasury and said we think this went too far. It was not the Senator's proposal. It came from the President's budget and it came from the Treasury. We passed it in the Senate, passed it in the House, it became law, and shortly after that, a lot of people complained about it.

What we tried to do is go back to the Treasury, pull them along, and make some substantial changes. Estimated revenue loss over 2 years is $3.2 billion which we hope to collect by tightening up this loopholes. We are going to give away about a half billion dollars of that. I think that is a substantial weakening of the provison.

If it should be addressed even further, we are going to be back here next year. There will be a Finance Committee meeting sometime next year, and I assume there may even be some talk with tax legislation next year.

I just cannot believe that we can stand up and say it is all the fault of the IRS. I can give some examples here that will curl your hair, of people who have made money in this area with little investment. If the Senator from Montana supports that, that is all right.

My view is that everybody should pay some tax. It should not all be taken out of the working people's checks. We can discuss that later. I would like to get on with the debt ceiling, because if we do not pass it, I understand that it will have a rather adverse impact on a lot of people.

Mr. SYMMS. Mr. President, I say to the distinguished chairman that I am not happy about being in a head-on confrontation with him. I have high respect for him.

However, 80 percent of the commercial and real estate transactions that take place in my State—and probably in most other States—are taking place during this period of high interest rates because of seller-financed transactions. That has nothing to do with abuse or the things the chairman is mentioning or people not paying their share of taxes.

I think the statisticians and the number crunchers at the Treasury and the IRS who come up with these numbers about how much this will cost the Treasury are missing the point—that slowing down this commercial transaction activity is what the problem is.

I wish the chairman could bend on this and let this issue come before the Senate on the debt limit; because I think that if we put it on the boat bill or some other bill, it will languish and not ever become law. Starting January 1, we are talking about imposing some complex rules and regulations on transactions. The compromise that the chairman has worked out and that the staff has come up with will probably

comprise 8 or 10 pages added to the Tax Code, which is very complicated.

It is the same old story, that in order to try to correct two or three big abuses which I think could be corrected much simpler, we end up punishing all those small people out there who are trying to buy and sell real estate and homes. For most people selling their home, farm, or business, it is the biggest transaction of their lives. It puts the Government in the situation where it is dictating higher interest rates at a time when we should be trying to get interest rates down.

The Senator from Montana and the Senator from Idaho have been up front on this. I have been constantly in touch with the chairman and his staff, and I think we should vote on this on the debt ceiling. It is the logical vehicle to put it on.

There are 52 sponsors in the Senate, as of yesterday, who want to repeal this Tax Code and want to go back to the situation before July of 1984.

If there are abuses, I will be happy to work with the chairman to straighten out the abuses.

If we let this go ahead and become law, it is just making a field day for the tax accountants and tax lawyers in the country and it complicates the job for the working people in the country. I think it is just the opposite analysis that the chairman is drawing. So I hope he will reconsider this and allow us to bring this to a vote.

This Senator has no desire to hold up the business of the Senate. I would like to have a vote on whether or not we want to repeal this and then fix it next year, and I am willing to stay here next week and the next week if that is what it takes, but I would prefer to go ahead and do it today, settle the issue, and I think that in the long run the chairman of the Finance Committee, the chairman of the Ways and Means Committee in the other body, the Secretary of the Treasury, and the President will all be better off if they would do it this way rather than get themselves in another fight like bank withholding that we had to go through here and it kept coming up and coming up and finally the American people said they had enough of this kind of policy, they do not want it, and we will win this issue sooner or later. I think it would be much better if we would just do it now and admit that there is a big overdone job that took place last summer.

I do not blame the chairman or I do not blame the chairman of the Ways and Means Committee. I do not blame the Treasury necessarily. Those things happen. We have just simply gone too far in order to try to stop some abuse that may exist, but it has a very bad effect on the 80 percent or 90 percent or 100 percent of the good transactions.

And it is not only real estate we are talking about. It is all business that this affects.

I just appeal to my colleagues to try to take heed of what we are doing here. This compromise that has been worked out I must say to the chairman that has been written by the staff of the committee is very, very complex and complicated. It would be a lot better, in my judgment, just to outright repeal it and announce that next year the Finance Committee is going to take another look at it, and there are some things I think we could do to close up the loopholes.

I thank the chairman for yielding.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The Senator from Kansas is recognized.

Mr. DOLE. Mr. President, I will be very happy to yield to the Senator from Ohio.

But let me thank the Senator from Idaho. Again I do not quarrel with anyone in this Chamber. I know everyone is sincere in what they hope to do.

I bet we have taken care of Idaho, Montana, and Kansas and probably every other State for those who are in some legitimate transaction and some normal average taxpayer, and in fact even above average, but let me just indicate what we are told is happening.

This is the one argument against repeal. Real estate tax shelter syndications are skyrocketing. The most recent statistics of the income data show that one-third of all partnerships in 1981 were engaged primarily in real estate transactions. Of the over 1.5 million real estate partnerships, 59 percent reported no taxable income, and instead claimed tax losses of $17.8 billion.

That is what we are trying to correct in this legislation. These tax losses increased 56 percent from 1980 to 1981.

According to the National Association of Security Dealers, the value of registered partnerships increased at an annual rate of 72 percent from 1979 to 1982.

What we have done is tried to take a look at all the different concerns and the reason it is a little complex, and I agree with the Senator from Idaho that we have tried to address the concerns of each of the organizations we met with. We really believe we have satisfied all the legitimate concens that anyone had.

We cannot unless we just totally repeal it, and if the Senator from Idaho and the Senator from Montana can get a letter from President Reagan this morning saying repeal it it will be all right with me. It is not my provision and never was my provision. It came from the President's budget. It went to Treasury. Treasury made the recommendation.

I think the President should be commended for trying to tighten up some of these loopholes to make certain that some people, some partnerships, and some in the real estate business are not making millions and millions of dollars through tax shelters and tax abuses.

That is not the purpose of the Tax Code. So we can get into that later on in the day, but I would hope that we might be able to figure it out. We have a good compromise and if all the Members of the Senate would really want to help the people who own residences, own a farm or small business or a vacation home, if we really want to help those people, we have to compromise to do it.

So if we stop talking about repeal and start discussing the compromise, maybe I can convince the Senator from Ohio that it is not a bad compromise. It is something we should address and something we should pass.

But I would guess that, unless I am mistaken, there will be a number of Senators who are just as strongly opposed to repeal as some may be in favor of repeal.

I am happy to yield to the Senator from Ohio for a question without losing my right to the floor.

Mr. METZENBAUM. Mr. President, I just want to ask the Senator from Kansas whether this is not a subject for revisiting. As a matter of fact, it was a subject in which he and I were on opposite sides and when the legislation was passed it was so-called a technical corrections bill.

I think if my recollection serves me right, the Senator from Kansas was a bit irritated when I tried to provide some limitations with respect to this whole matter of imputed interest and the Senator from Kansas at that time was attempting to make some changes that eliminated the abuse that had developed in the real estate industry where smart lawyers and tax accountants had been able to change the purchase price and the selling price and also the interest rate in order to get more tax advantages, and as a consequence the Treasury found that they were being shortchanged while the small operators were getting by.

Is it not also the fact that since that time, after the passage of that measure, the real estate industry has awakened to the fact that there may be some problems in connection with the matter of imputed interest that has caused them to rouse all their troops and to attempt to repeal the changes as proposed by the distinguished Senator from Montana?

The Senator from Kansas, as I understand it, has been in negotiations with the representatives of those groups and has at this point worked out a compromise with he and I guess Treasury and the Joint Economic Committee, although I am not sure about that——

Mr. DOLE. I cannot speak for Treasury.

Mr. METZENBAUM. The Joint Tax Committee and the chairman of the Finance Committee that meets the major problems about which the industry was concerned without providing a repeal and that matter has been circulated.

The Senator from Ohio has seen it. The Senator form Ohio has not signed off, as the Senator from Kansas very aptly puts it, and what we are faced with at the moment is something similar to what lawyers have when they have a damage case or a case in court. That is whether or not we conclude to take that which may be described by some as a poor settlement, but if you do not get that you may get no verdict at all, if you do not get the poor settlement.

I do not care if there are 80 people sign on or 99 people sign on in this body, if there are not 100 signed on, you have a tough road to go.

As I see it, the Senator from Kansas is attempting to get all of his troops lined up and to work out this kind of a compromise, and I am not at all certain that he is doing as much as I think he should be doing, and I am prepared at the appropriate time to discuss the merits, but I do not want to tie up this debate.

It seems to me that what you are really saying is you are working on it, if you put it on the debt ceiling matter we are going to tie up the debt ceiling for God only knows how long because, as strongly as some feel about repeal, that is how strongly I feel about nonrepeal and that we are doing too much for the real estate industry, but that does not mean to say that around here you do not try to work out compromises and, as I have said, I am still looking at the compromise and maybe it can fly.

But absent a compromise, we are going to be here not only for a long day in October but for a long day for many weeks thereafter.

So I want to say that I think the Senator from Kansas is moving in the right direction, I am not at all sure it is as far as I think he should go or can go, but that is a matter to be resolved. If we get into a debate on this issue on the debt ceiling bill and unless the matter is tabled if it is offered, the Senator from Ohio is prepared to discuss and explain to the Members of this body and all others as well what the real estate industry is trying to do to the tax laws of this country.

We have done a lot for the real estate industry. We have changed the depreciation schedules. We have done a lot more for them. It is a fact that under the present laws you can deal in real estate and get all the tax shelters in the world.

Now, we are talking about this imputed interest question. There may be some reason to modify the present law, but if there is an effort to repeal the present law, we have a long debate ahead of us. And when the real estate industry takes out an ad, the National Association of Realtors: "Members of Congress, don't hurt homeowners, renters, farmers, and small business," if the money were available you could have an ad on the other side saying, "Members of Congress, don't permit the real estate industry to rip off the tax laws of this country." And if somebody took out a third ad, perhaps that would say:

Why don't you try to work out something that is fair to the homeowners, renters, farmers, and small business without permitting people on Wall Street to figure out tax gimmicks in order to keep from paying their fair share of taxes?

So I want to say that I support the Senator from Kansas in his efforts to work out a compromise, but I want to say loud and clear that, if no compromise is effected and if there is going to be an effort to totally repeal the law, I feel as strongly about that as some others feel about the fact that it should be repealed.

Mr. MELCHER. Will the Senator yield?

Mr. DOLE. Let me just comment and then I promise to yield to the Senator from Alaska.

I think before we all start choosing up sides, we ought to at least know what the compromise does. That is why I would hope we do not get locked in here on repeal or nonrepeal before we address the issue.

I must say that we have been working with experts in the real estate business, and the home builders and other people who have been working in our committee are in the business. They are out there making a living. They are creating jobs. I really believe we can say this compromise is not one drafted by staff or drafted by joint committee or drafted by some bureaucrats. It is drafted in cooperation and in the right spirit with those who are out there who think the law ought to be changed.

Obviously, if they had their druthers, they would like to have it repealed. They are like anybody else. "Why change the law? If I have got a pretty good deal, don't change it."

But they also recognize there probably are some reasons for the changes recommended by President Reagan, suggestions made by the Treasury and acted on by the Congress. So what we have tried to do, as pointed out by the Senator from Ohio, is to spend a lot of time trying to massage this little problem and try to come up with a solution that I think is satisfactory.

Before I yield to the Senator from Alaska—and I think if the Senator from Idaho and the Senator from Montana and others who have an interest in this would carefully look at this; it is complicated, but we are doing a lot—let me sort of summarize very quickly.

What is the basic rule for homeowners? That is the first question you ought to be asked when you go back to Kansas, Idaho, Alaska, Louisiana, Ohio, Montana, everywhere.

Any individual selling a principal residence or vacation home, which is an expansion of the present exceptions, for less than $250,000 can set a 9-percent compound interest rate.

Now, that is pretty good—$250,000. I understand that you could buy a pretty good house, pretty good home with that.

For homes costing more than $250,000, a blended test rate applies. The blend is simple. It is a weighted average. For example, a $500,000 home can be financed at a rate of 11 percent, halfway between 9 percent and the long-term Treasury rate, now 13 percent.

What homes qualify for this rule? Any home that has not been either inventory, or depreciable property during the 2 years prior to the sale. In short, anything other than rental properties and homes held for sale by a business to its customers. So that is a broad rule. That takes care of people in Idaho, Kansas, and other States.

What is the rule for farms and ranches? The farm rule is similar to the personal residence rule: a 9-percent rate applies to $2 million of farm property. Above $2 million, a blended interest rate applies.

What property is eligible for the farm rule? Any type of land, buildings, and used personal property actively used in the trade or business or farming or ranching for at least 5 years before the sale can qualify. The buyer must intend to use the property as a farm or ranch.

Again, that is a broad rule. I do not think anybody could criticize that particular change.

What is the rule for small businesses, which is another thing the Senator for Montana properly addressed a few month ago and we did not get around to that. A special 9-percent compound interest rate is also allowed for sales of active businesses costing less than $1 million. For a sale involving more than $1 million, a blended interest rate applies.

What type of business sales qualify? Any type of used property can be sold under this rule, as long as the sale involves the liquidation of a complete active business, the sale of a line of business, or the complete termination of a major partner's or shareholder's interest in a business. For example, one partner can buy out another partner's interest in a grocery store. Or, a corporation owning a dry cleaning store and a shoe store can sell the

shoe store and keep the dry cleaning store.

What is the rule for real estate sold by investor? This is the area I know that has been trouble to many in the business and probably some Members of Congress. Real estate builders, owners, and investors qualify for several favorable rules. First, moderate priced properties can be financed with up to $4 million of deferred payments at only 80 percent of the Treasury bond rate—and $4 million is a fairly substantial transaction—they can be financed now with deferred payments at only 80 percent of the Treasury bond rate as long as the note is no longer than 12 years. Today that means a seller cannot sell a $4 million property with a 12-year note providing for annual interest paid at a 10.5-percent interest rate.

If interest is not paid currently, but deferred, then the benefits are cut back somewhat.

What about larger properties costing more than $4 million? This is where some of those broke off in the meetings and said, "We can't support the compromise." For larger properties, below market seller financing is permitted, as long as the interest rate is at least 100 percent of the Treasury rate, and substantially all of the interest is paid currently. For example, the sale of a $100 million office building can provide seller financing with 10.5 percent interest paid currently, and 2.6 percent deferred interest. That is a total rate of 13.1 percent, still substantially below current bank rates.

Another question asked is, do these real estate rules involve a "cliff"? If it is $1 million and 1, do you fall over the cliff? No. A $100 million sale can provide for two notes, one subject to the small transaction rules—that is, the 80 percent of Treasury rate for 12 years—and another under the large transaction rules—that is, 100 percent of the Treasury rate, with substantially all interest paid currently. Large transactions must use the OID method for all notes, while transactions subject to the small transaction rules only can use the cash method.

So I would just say that we have got a lot of information we want to explain when we get into this debate, which I am going to shut off here in about 30 seconds to go onto the debt ceiling. But we have tried to work out a general rule. We tried to work out dealer property, farms and ranches, small businesses, medium-size real estate transactions and large real estate transactions, and we believe we have addressed most of the concerns raised. Obviously, those who do not want the law changed at all still do not want the law changed at all, and the Senator from Kansas understands that.

Again, if the President is willing to back off and send up a note here and say, "Repeal it," that is all right with me. I did not dream it up, he did.

I am happy to yield to the Senator from Alaska.

Mr. MURKOWSKI. I thank my friend, the Senator from Kansas.

I wish to make a couple of observations. I think that the proposed compromise, particularly as it affects the limitation for housing of $250,000 with a waiver, is reasonable. I commend my colleague.

I think one of the difficulties has been the inability to circulate the language to allow the Senate to address the other concerns. I am wondering if my colleague from Kansas would not consider trying to work out some compromise for imputed interest as it affects housing and the $250,000 waiver. In other words, the current imputed interest rules would not fall principle residences valued at $250,000 or less. There is a perception among the public that, as a consequence of high interest rates, people have made contracts of sales at whatever a buyer and seller could agree. Many times that meant interest rates which were below the market rate. It has been pointed out that the current rules would effectively raise the average interest rate from 9 percent to 14.3 percent.

I understand that the compromise as explained to me, would take care of that problem. This $250,000 limitation is reasonable. Without it, we would strangle activity in the area. People will not borrow conventionally at these high rates. They must make their own arrangements.

However, I would like the chairman of the Finance Committee to consider that many additional questions will remain unanswered unless the compromise language is circulated. This will bog down the Senate through the day. Questions such as, what happens if the interest is not calculated on variable rates? If the rate goes down below the Treasury bill rate, for example, what provision is made? Does the IRS come back at a later time? What happens if you rent a vacation house? Does IRS come back and throw it out? What do you do on the sale of a farm if it is several million dollars and there is nonperformance?

I think this is the stage that is going to require a significant explanation to the Members for them to be satisfied that these questions are answered. I commend my friend from Kansas for his commitment, and the rest of my colleagues in attempting to close these loopholes and some of these tax shelters that have been around far too long. But I think we are mixing apples and oranges. I wonder again, if in his opinion, we have the time to circulate the language. I understand the compromise has just been made, and I recognize the time factors we are under here. Would he consider taking care of the sale of principal residences valued at less than $250,000 and agreeing to come back, and go through these other things that I think are going to require an awful lot of time and detail to satisfy the Members of this body.

Mr. DOLE. Let me thank the Senator from Alaska. We do provide, if the interest rates, of course, come down, the Treasury has the authority to lower the rate. But he cannot raise it. That is the protection that we think is a good one. It is a 9-percent compound rate. It was a 9-percent simple rate. But he could always raise it. Now we say, OK, it is going to be compounded but the Treasury cannot raise that rate as far as the $250,000 home is concerned, or vacation home. We would be happy to work with the distinguished Senator from Alaska who has had a lot of experience in this area. Again, I am willing to confess in front of everyone that I do not understand all of this technical material.

Mr. MURKOWSKI. What happens if the variable rate goes down?

Mr. DOLE. The Secretary lowers it.

Mr. MURKOWSKI. If it was covered at a certain rate, the variable rate is set so that the change is tied to the bill rate, the discount rate, any number of things, and the variable rate moves up and down, how does IRS come back and recompute if the variable rate falls below the bill rate? These are questions I do not expect the Senator from Kansas to answer. I just suggest to him that this area has not been addressed by the body of the Senate.

It is a reasonable question. I think there are a lot more out there that are going to have to be addressed because this—and I commend my colleague—language has not been circulated. I am not suggesting it is not a reasonable compromise. Nobody has had the chance to look at it. But the big thing I understand and feel very good about is the $250,000 as a waiver. So this means all the small things that happened that are meaningful to small houses and sold on contract will continue. I simply suggest for clarification and simplification so we can move along that we consider splitting this thing up, accept the amendment of the $250,000, give us some time to go into this other area because in all due respect we will be bogged down in an awful lot of detailed explanation throughout the day, and have a more qualified answer. I intend to review this.

Mr. DOLE. We will have the draft language available. We also have staff available. They did discuss the variable rates. That is taken care of. But again I would rather have one expert explain it to another expert than a nonexpert explaining it to the Senator from Alaska. But we will have the draft language in fact in the next 20 or 30 minutes. Again, we will have the

staff and I think also, I am just suggesting that those who are involved in negotiations who are active in the business might also make themselves available at the appropriate place off the Senate floor to explain any of these things to Senators who want to talk to somebody who is in the business rather than some member of the staff or some member of the joint committee staff. But we believe based on not what staff tells me but the letter I have from these groups—again the American Land Development Association and the National Apartment Association, National Association of Homebuilders, National Association of Realtors, National Federation of Independent Business, National Multihousing Council, National Small Business Association—that we have that support. They have been actively involved in negotiations for 2 weeks. So we think we have addressed many of the concerns.

Mr. President, I suggest the absence of a quorum.

Mr. MELCHER. Mr Chairman, will you withhold that for a unanimous consent?

Mr. President, my bill will obviously have to be an amendment to some other bill. My bill on the imputed interest has been characterized by the Senator from Ohio—I am sure innocently—nevertheless mistakenly, as a repeal.

Section 1275 of the 1984 tax act passed last June does not allow a buyer to deduct the full amount of the interest paid on a property sale that is financed by the seller.

I have developed the necessary provisions to correct that gross inequity for the property or business sales for those transactions up to $250,000 for homes, for those transactions of business up to $1 million, and for farms and ranchlands up to $2 million.

I am submitting a section-by-section analysis of my bill which is cosponsored by 34 Senators.

I have closely reviewed the proposal of Senator DOLE and I am submitting the differences between his proposed corrections as compared to mine.

The following organizations join in endorsing both of our proposals.

American Land Development Association.

Council of State Housing Agencies.

National Apartment Association.

National Association of Home Builders.

National Association of Realtors.

National Farmers Union.

National Federation of Independent Business.

National Housing Conference.

National Housing Rehabilitation Association.

National Leased Housing Association.

National Lumber and Building Material Dealers Association.

National Multi Housing Council.

National Parking Association.

Small Business United.

The Associated General Contractors of America.

The National Grange.

The National Small Business Association.

The American Farm Bureau.

The U.S. Chamber of Commerce.

I ask unanimous consent that I might at this point in the RECORD insert a section-by-section analysis of the bill, and also to cite the differences between my bill and what is proposed by the able chairman of the Senate Finance Committee, the Senator from Kansas.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SECTION-BY-SECTION ANALYSIS

(1) The first part of the amendment establishes three direct categories of seller-financed property sales exempt from the recent changes in imputed interest rate rules and original issue discount rules. They are:

(a) The first $2 million in the sale price of farm and ranch land;

(b) The first $1 million in the sale price of small business or commercial property; and

(c) The first $250,000 in the sale price of residential property.

Below these amounts the contract is required to carry the current minimum interest rate of 9 percent and the new OID rules will not apply. If that is not done the Treasury will impute an interest of 10 percent. To the extent that the sale price exceeds these exempt levels, the amount of the mortgage that qualifies for the 9 percent rate will be prorated according to the amount of the sale price that is exempt as compared to the total sale price, and the overall rate will be a blend with the higher rates prescribed.

(2) The second section of the bill sets variable imputed interest rates for the other categories of seller-financed sales of property as follows:

(a) For the amount of certain qualified sales that are above limits set in the first section but below $4 million, the contract will have to carry an interest rate of 80 percent of the applicable Treasury rate as described in the 1984 Tax Act. If that is not done, the Treasury will impute an interest rate of 120 percent of the applicable Treasury rates.

(b) For that portion of a qualified sale that might exceed $4 million, the amendment provides that the contract must carry an interest rate equal to at least 100 percent of applicable Treasury rates. If that is not done, the Treasury will impute an interest rate of 120 percent of applicable Treasury rates.

(3) This part of the amendment contains special rules for phasing in the variable imputed interest rates described in (2)(a) and (b). The test rate for part (2)(a) above will begin at 10.5 percent on January 1, 1985 and Treasury may increase it 500 basis points each six months until they reach no more than 80 percent of applicable Treasury rates. The test rate for part (2)(b) above will begin on January 1, 1985 at 11 percent and Treasury may increase them 500 basis points each six months until they reach no more than 100 percent of applicable Treasury rates.

(4) This part of the amendment provides that all debt instruments arising from any transaction must be aggregated for purposes of this provision of the law.

(5) This part of the amendment prohibits the application of the new imputed interest rules or original issue discount rules to mortgage assumptions.

(6) The final part of the amendment sets the effect date for these modifications the same as if they had been enacted as part of the 1984 Tax Bill.

PROBLEMS WITH THE DOLE PROPOSAL

1. Residential property

A. It limits the exemption for residential property so that no property for which the seller has claimed depreciation during the 2 years immediately before the sale may be exempt for the 9 percent rate. For example, if a seller was temporarily assigned overseas or somewhere away from home and rented his residence during his absence, that seller wouldn't be eligible for the lower rates unless they went back and lived in the house for two years. Again, if the seller used part of their home for a business office or some other business activity, they would be penalized with a higher imputed interest rate. This is an unneeded limitation.

B. The seller may not lease the property back from the buyer. The merits of the sale-lease back provisions of the tax code should be judged on their own merits. They have nothing to do with imputed interest rates and should not be tied to them.

2. Farms and ranches.

A. The farm and ranch land must have been used actively in farming for the previous 3 years and the land must be intended for further farming. Such provisions in the existing tax law have always been very difficult to prove and the burden is always put on the taxpayer.

B. If the sale exceeds $2 million, the complicated OID rules apply for the entire purchase.

C. The purchaser may not lease the property back to the seller.

3. Trades and businesses

A. The business must have been active for previous 5 years. Why should there be such an arbitrary dead line? Is it more likely that a seller of a small business who has only been in business for 4 years is more likely to cheat on their taxes than one who has been in business 5 years?

B. The seller must be getting out of the line of business to qualify for the lower interest rates. Why shouldn't a seller who needs or wishes to sell off part of the business be allowed the lower rates? Likewise, why shouldn't someone who has owned property that was rented to a business be allowed to sell under the lower interet rates?

C. Sale-leasebacks and new investment tax credit property will not be permitted the lower rate. Again, the investment tax credit was enacted as an incentive to invest. Why should it be tied to imputed interest rates? It should stand or fail on its own merits.

4. Loans made after October 5, 1984 will be subjected to the new OID rules if the loan is assumed by a new buyer. It was not the intention of the Senate in my opinion to subject loan assumptions to new limitations and higher interest rates. There is no good reason for grandfathering in existing loans and penalizing new loans.

5. The language in the Dole proposal is too complicated. It will lead to unintended errors by taxpayers and subject taxpayers

acting in good faith to possible penalties they do not deserve. Our tax laws are already too complicated. This just adds more red tape.

Mr. MELCHER. The following groups say they cannot support the Dole proposal:

American Hotel and Motel Association;

Building Owners and Managers Association, International;

Coalition for Low and Moderate Income Housing;

International Council of Shopping Centers;

National Association of Industrial and Office Parks;

National Association of Real Estate Companies;

National Realty Committee; and

Real Estate Tax Institute.

They cannot support the Dole proposal because of the proposal's complexity; future assumptions are not protected from the new OID rules; businesses must for all practical purposes be liquidated in order to be able to use the existing 9 percent imputed interest rate.

I ask unanimous consent that the complete text of the proposal be printed at this point.

There being no objection, the proposal was ordered to be printed in the RECORD, as follows:

At the appropriate place, insert the following new section:

SEC. . (a) Subsection (e) of section 483 of the Internal Revenue Code of 1954 (relating to reduced rate of interest in case of sales of principal residences or farms) is amended to read as follows:

"(e) Reduced Rate of Interest in Case of Sales of Residences, Farms, or Real Property Used in a Trade or Business.—

"(1) IN GENERAL.—In the case of any debt instrument arising from a sale or exchange to which this subsection applies, the discount rate under subsections (b) and (c)(1)(B) shall not be greater than 10 percent and 9 percent, respectively.

"(2) SALES OR EXCHANGES TO WHICH THIS SUBSECTION APPLIES.—This subsection shall apply to any sale or exchange—

"(A) of property for use as a residence by an individual,

"(B) of a farm (within the meaning of section 6420(c)(2))—

"(i) by an individual, estate, or testamentary trust,

"(ii) by a corporation which as of the date of the sale or exchange is a small business corporation (as defined in section 1244(c)(3)), or

"(iii) by a partnership which as of the date of the sale or exchange meets requirements similar to those of section 1244(c)(3), or

"(C) of real property by any person (whether or not described in subparagraph (A)) used in a trade or business of such person or held by such person for the production of income.

"(3) DOLLAR LIMITATION.—

"(A) IN GENERAL.—Paragraph (1) shall not apply to the portion of the stated principal amount of the debt instrument arising from the transaction which exceeds the applicable limit.

"(B) APPLICABLE LIMIT.—For purposes of this paragraph, the term 'applicable limit' means the limit determined in accordance with the following table:

"If the transaction is described in:	The limit is:
Paragraph (2) (A)	$250,000
Paragraph (2) (B)	2,000,000
Paragraph (2) (C)	1,000,000

"(C) REDUCTION IN APPLICABLE LIMIT WHERE SALES PRICE EXCEEDS APPLICABLE LIMIT.—In the case of any transaction with respect to which the sales price exceeds the applicable limit, the applicable limit shall be the amount which bears the same ratio to the applicable limit as—

"(i) as the applicable limit, bears to

"(ii) the sales price.

"(f) SPECIAL TEST RATES FOR SALES OR EXCHANGES INVOLVING CERTAIN REAL PROPERTY.—

"(1) IN GENERAL.—In the case of any sale or exchange to which this subsection applies, subsection (c)(1)(B) shall be applied by substituting—

"(A) '80 percent' for '110 percent' in the case of any debt instrument described in paragraph (3), and

"(B) '100 percent' for '110 percent' in the case of any debt instrument described in paragraph (4).

"(2) SALES OR EXCHANGES TO WHICH THIS SUBSECTION APPLIES.—

"(A) IN GENERAL.—Except as provided in this paragraph, this subsection applies to any sale or exchange of—

"(i) land, or

"(ii) 15-year or 18-year real property (within the meaning of section 168), disregarding de minimis amounts of personality associated with such real property.

"(3) DEBT INSTRUMENTS TO WHICH 80 PERCENT RATE APPLIES.—A debt instrument is described in this paragraph if—

"(A) the term of the instrument (determined with regard to any extension or renewal) is not greater than the lesser of—

"(i) 12 years, or

"(ii) in the case of a debt instrument involving recovery property, ⅔ of the recovery period under section 168 for such property, and

"(B) the total deferred payments under such instrument, when added to the sum of the total deferred payments under all other debt instruments issued in connection with the sale or exchange—

"(i) to which this paragraph applies, and

"(ii) which were issued before such instrument was issued,

do not exceed $4,000,000.

"(4) DEBT INSTRUMENTS TO WHICH 100 PERCENT RATE APPLIES.—A debt instrument is described in this paragraph if—

"(A) the rate of interest stated in the instrument is not less than the applicable Federal rate,

"(B) such instrument provides for—

"(i) the unconditional payment each year of at least 80 percent of the interest so stated, or

"(ii) after the close of the 2-year period beginning on the date such instrument was issued the instrument provides the unconditional payment each year of the total interest accruing thereunder, and

"(C) such instrument is not described in paragraph (3).

"(5) SPECIAL RULES FOR DETERMINATION OF DISCOUNT RATES.—

"(A) IN GENERAL.—If the applicable Federal rate determined under section 1274(d) for any period (other than the Federal short-term rate) exceeds by more than 2 percent such rate for the preceding period, such applicable Federal rate for purposes of applying this section to any debt instrument to which this subsection applies shall be equal to the greater of—

"(i) the sum of—

"(I) such applicable Federal rate for such preceding period, plus

"(II) the greater of 1 percent or one-half of such excess, or

"(ii) the highest such applicable Federal rate during the 2-year period before the period for which such determination was made after the application of this paragraph.

"(B) SPECIAL RULES FOR 1985 AND 1986.—Notwithstanding any other provision of this section, in the case of any sale or exchange with respect to which a binding contract was entered into during 1985 or 1986—

"(i) TEST RATE.—The discount rate for purposes of applying subsection (c)(1)(B) to any debt instrument described in paragraph (3) shall not be greater than the rate determined in accordance with the following table:

"For contracts entered into during the period:	The rate is:
Jan. 1–June 30, 1985	10.5
July 1–Dec. 31, 1985	11.0
Jan. 1–June 30, 1986	11.5
July 1–Dec. 31, 1986	12.0

For purposes of applying subsection (c)(1)(B) to any debt instrument described in paragraph (4), the discount rate shall not be greater than the rate determined in accordance with the table, plus one-half percentage point.

"(ii) IMPUTED RATE.—The discount rate for purposes of applying subsection (b) to any debt instrument described in paragraph (3) or (4) shall not be greater than the rate determined under clause (i), plus 1 percentage point.

"(6) AGGREGATION RULES.—For purposes of this subsection—

"(i) all debt instruments arising from any transaction (or any series of related transactions) shall be treated as 1 sale or exchange.

"( ) SALES PRICE.—For purposes of this paragraph, the sales price shall be determined as of the time of the sale or exchange.

"(7) APPLICATION WITH SUBSECTION (f).—In the cases of any qualified sale (as defined in subsection (f)(2)), the applicable limit determined under paragraph (3) shall be reduced by the amount of any debt instrument to which subsection (f)(1) applies."

(b) Special rule for determination of Applicable Federal Rate for 1984.

In the case of any debt instrument issued during the first 6 months of 1985 pursuant to a sale or exchange for which a binding contract was entered into during 1984, the applicable Federal rate for purposes of Section 483 and 1274 of the Internal Revenue Code of 1954 shall be 10 percent.

(c) Subparagraphs (A) and (B) of Section 1274(c)(2) (relating to exceptions from the determination of the issue price in the case of certain debt instruments issued for property) are amended to read as follows:

"(A) SALES OF FARMS AND REAL PROPERTY USED IN A TRADE OR BUSINESS.—Any debt instrument arising from a sale or exchange described in subparagraph (B) or (C) of section 483 (e) (2) but only to the extent of that portion of the stated principal amount to which Section 483(e) applies."

"(B) RESIDENCES.—Any debt instrument arising from the sale or exchange of any

property for use as the residence of the obligor under such instrument."

(d)(1) Section 483 (d) of the Internal Revenue Code of 1954 (relating to exceptions and limitations) is amended by adding at the end thereof the following new paragraph:

"(5) ASSUMPTIONS.—This section shall not apply to any debt instrument which is assumed (or taken subject to) by the transferee as part of the sale or exchange of property, or to the portion or any wraparound mortgage equal to the unpaid balance of the seller's existing financing."

(2) Section 1274 (c) (4) of such Code (relating to exceptions) is amended by adding at the end thereof the following new subparagraph:

"(G) ASSUMPTIONS.—Any debt instrument which is assumed (or taken subject to) by the transferee as part of the sale or exchange of property, or to the portion of any wraparound mortgage equal to the unpaid balance of the seller's existing financing."

(e) Subparagraph (F) of section 1274(c) (relating to exceptions for sales or exchanges to which section 483(e) applies) is amended by striking out "section 483(e)" in the text and heading thereof and inserting in lieu thereof "section 483(f)."

(f) The amendments made by this section shall take effect as if included in the amendments made by the Tax Reform Act of 1984.

Mr. DOLE. Can I ask the Senator from Montana a question? Have you had a chance to review the compromise which I dare say was started by the Senator from Montana? Are you in a position to endorse the compromise?

Mr. MELCHER. No. I am not in the position to endorse it because some of the key points are not addressed in the Senator's proposal. But I outline that in the section-by-section analysis of my proposal, and how it varies on two very significant points from the provision of the Senator from Kansas.

Mr. METZENBAUM addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio is recognized.

Mr. METZENBAUM. Mr. President, I am pleased to hear the Senator from Montana does not have a repeal, and if I incorrectly described it, I certainly apologize to him. It was my understanding that the Senator from Idaho was told it was a repeal. But I think this matter will work its way out in the next few hours I hope.

Mr. DOLE. Mr. President, I hope so too because it is still my hope—I may be the only one who believes we are going to get out of here this evening or tomorrow—that we can accommodate the majority leader's wishes not to load up the debt-ceiling proposal. I hope all those who have an interest in this legislation in the next 2 or 3 hours—rather than try that which is not possible to repeal, which I do not think is possible—will try to see if we cannot come to some agreement. We believe we have done that. I do not suggest it is perfect. Obviously, the question should be answered. We should make a record. We are prepared to do that. We may even find areas that should be modified to some extent. So I hope that we will spend our time and energy on what we consider to be a good compromise, and we believe has some possibility of passage. I am certainly willing along with my colleagues on both sides to do what I can to persuade the chairman of the Ways and Means Committee to accept this compromise.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. METZENBAUM. Will the Senator withhold?

The PRESIDING OFFICER. Will the Senator withhold?

Mr. DOLE. Yes.

Mr. METZENBAUM. Mr. President, has the Senator from Kansas indicated his position—and I am just asking this as a matter of inquiry—that he intends to resist any and all amendments to the debt ceiling proposal?

Mr. DOLE. The Senator from Kansas made that announcement last night and repeated it this morning. The majority leader is not here right now, but last night that was also his hope. Obviously, that does not mean we will not lose some, but I will oppose amendments, yes.

Mr. KENNEDY addressed the Chair.

The PRESIDING OFFICER. The Senator from Massachusetts.

AMENDMENT NO. 7067

(Purpose: To call for a mutual and verifiable freeze and reduction in nuclear weapons)

Mr. KENNEDY. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Massachusetts [Mr. KENNEDY], for himself, Mr. HATFIELD, Mr. PELL, Mr. BAUCUS, Mr. BINGAMAN, Mr. BRADLEY, Mr. BUMPERS, Mr. BURDICK, Mr. CRANSTON, Mr. DODD, Mr. EAGLETON, Mr. GLENN, Mr. HUDDLESTON, Mr. INOUYE, Mr. LAUTENBERG, Mr. LEVIN, Mr. MATSUNAGA, Mr. MELCHER, Mr. MITCHELL, Mr. MOYNIHAN, Mr. PROXMIRE, Mr. RIEGLE, Mr. SARBANES, and Mr. TSONGAS, proposes an amendment numbered 7067.

Mr. KENNEDY. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the joint resolution, insert the following:

NUCLEAR WEAPONS FREEZE AND REDUCTIONS

SEC. . The Congress finds that the greatest challenge facing the Earth is to prevent the occurrence of nuclear war by accident or design.

Mr. KENNEDY. Mr. President, I offer this amendment on behalf of myself and Senator HATFIELD. We are joined by 23 cosponsors.

Mr. HATFIELD. Mr. President, will the Senator yield for the purpose of my offering a perfecting amendment?

Mr. KENNEDY. I yield.

AMENDMENT NO. 7068 TO AMENDMENT NO. 7067

(Purpose: To call for a mutual and verifiable freeze and reduction in nuclear weapons)

Mr. HATFIELD. Mr. President, I send a perfecting amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Oregon [Mr. HATFIELD], for himself, Mr. KENNEDY, Mr. PELL, Mr. BAUCUS, Mr. BINGAMAN, Mr. BRADLEY, Mr. BUMPERS, Mr. BURDICK, Mr. CRANSTON, Mr. DODD, Mr. EAGLETON, Mr. GLENN, Mr. HART, Mr. HUDDLESTON, Mr. INOUYE, Mr. LAUTENBERG, Mr. LEVIN, Mr. MATSUNAGA, Mr. MELCHER, Mr. MITCHELL, Mr. MOYNIHAN, Mr. PROXMIRE, Mr. RIEGLE, Mr. SARBANES, Mr. STAFFORD, and Mr. TSONGAS, proposes an amendment numbered 7068 to amendment No. 7067.

Mr. HATFIELD. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the amendment add the following:

(2) the nuclear arms race is dangerously increasing the risk of a holocaust that would be humanity's final war; and

(3) a mutual and verifiable freeze followed by reductions in nuclear warheads, missiles, and other delivery systems is needed to halt the nuclear arms race and to reduce the risk of a nuclear war.

(b) As an immediate arms control objective, the United States and the Soviets should—

(1) pursue an immediate and complete halt to the nuclear arms race;

(2) decide when and how to achieve a mutual verifiable freeze on the testing, production, and further deployment of nuclear warheads, missiles, and other delivery systems; and

(3) give special attention to destabilizing weapons whose deployment would make such a freeze more difficult to achieve.

(c) Proceeding from the freeze, the United States and the Soviet Union should pursue major, mutual, and verifiable reductions in nuclear warheads, missiles, and other delivery systems, through annual percentages or equally effective means, in a manner that enhances stability.

Mr. HATFIELD. Mr. President, I thank the Senator from Massachusetts.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, this amendment effectively puts the Senate in a position to vote on the nuclear freeze and reductions resolution which Senator HATFIELD and I have introduced in the past 2 years.

In this effort, Senators PELL, BAUCUS, BINGAMAN, BRADLEY, BUMPERS, BURDICK, CRANSTON, DODD, EAGLETON, GLENN, HART, HUDDLESTON, INOUYE, LAUTENBERG, LEVIN, MATSUNAGA, MEL-

CHER, MITCHELL, MOYNIHAN, PROXMIRE, RIEGLE, SARBANES, and TSONGAS, have joined us as cosponsors of this amendment. Other Members have indicated they would support our particular proposal.

Mr. President, ending the nuclear arms race is the most important issue facing our Nation and the world today. A nuclear weapons freeze offers the best chance to stop the madness of nuclear escalation before it is too late. All across America, citizens have joined together to call on their elected officials to act decisively and adopt the freeze as the critical first step toward nuclear arms reduction. Last year, the House of Representatives voted overwhelmingly for the freeze. The time has come for the Senate to add its voice of support to this fundamental arms control proposal.

Our amendment calls for a mutual and verifiable freeze on the testing, production, and deployment of nuclear weapons. It is premised on the essential nuclear parity that exists today. It is the only realistic proposal that can stop the steady Soviet nuclear buildup, and that can begin the difficult process of achieving real reductions in the nuclear arsenals of both superpowers.

Mr. President, we consider this amendment at a critical point in United States-Soviet relations. President Reagan's long overdue meeting with Soviet Foreign Minister Gromyko was a welcome sign that we may be on the road to getting United States-Soviet relations back on track. But, however one interprets this meeting, one fundamental fact remains clear. There has been no progress on arms control for the past 3½ years.

Since the Senate first voted on the Kennedy-Hatfield nuclear freeze and reductions resolution last October, both the INF and the START negotiations have broken off. We could enter into a debate about which side is at fault: the United States or the Soviet Union. But such a debate would miss the fundamental question: What are we doing today to achieve a nuclear arms control agreement that reduces the risk of nuclear war?

The Soviet Union and the United States are now at a dangerous point in their relationship when the direction of arms control for the foreseeable future will be determined. We will move either toward nuclear war or toward nuclear peace. The first step is frequently the most difficult but also the most important. As our first step, the United States should propose a mutual and verifiable nuclear weapons freeze to the Soviet Union.

Opponents will claim that they oppose the freeze because they are for nuclear reductions. This is an argument for the nuclear freeze, not against it. The history of strategic arms control has shown us that when the two superpowers agree to limitations in one area, they cannot resist the temptation to deploy the newest, most sophisticated weaponry in areas which are unconstrained by arms control agreements. Even President Reagan, who has called for nuclear reductions in his START proposal, is committed to deploying the B-1, the MX, and new nuclear-tipped SLCM's.

Both sides should renounce forever the pursuit of the phantom of nuclear superiority. We must free our diplomacy from the myth that more megatons mean bigger bargaining chips. We must reject the foolish theory that we can have fewer bombs tomorrow if only we have more bombs today. The administration defends this as a negotiating strategy. I call it voodoo arms control.

We must ask a simple question of them. Instead of overkill upon overkill, why not start now with a freeze? Why not stop where we are—so that, at least, we can begin to turn the arms race around.

If Members of the Senate are serious about reducing nuclear weapons, they should be supporting this amendment. We face an uncertain future. The advance of technology seems inexorable but we cannot permit that to move us inexorably away from the possibility of peace. A nuclear freeze will give the two great powers breathing room, a time to pause and reconsider before rushing into a nuclear future that may threaten the future itself. The freeze can halt new technologies that are dangerous and destabilizing, technologies that may be impossible to stop once they are started. The nuclear freeze is a necessary first step to achieving the reductions in nuclear weaponry that all Americans and all peoples of the world support.

Opponents also claim that a freeze is not a practical idea, because it will be too difficult to verify. Just the opposite is true. In fact, a freeze may well be easier to verify than a complex arms reduction treaty.

One critical element of the freeze, halting the deployment of new nuclear weapons systems, can be verified with high confidence through national technical means—that is, satellites and listening posts equipped with sensors—and through data exchange and restrictions on concealment.

A second element of the freeze, testing, can also be verified by national technical means, together with unmanned seismic stations and opportunities for onsite inspection. To presume that the Russians will not permit any such inspection ignores one of the most important advances secured in past negotiations for a comprehensive test-ban treaty. As we all know, that treaty has been shelved by the Reagan administration—but during the negotiations, the Soviets actually agreed to the principle of onsite verification.

The third aspect of the freeze, production, may be more difficult to verify, but our intelligence is so highly developed that, according to former Under Secretary of Defense William Perry, we have been able to "monitor Soviet activity at the design bureaus and production plans well enough so that we have been able to predict every ICBM before it began its tests."

We can expect that some people will raise the issue of Soviet compliance with arms control agreements as an objection to the freeze. If there are questions about Soviet compliance with existing treaties, and in some cases, such as the ABM Treaty, I believe there may be, they should be dealt with thoroughly in the standing consultative commission, which is the diplomatic channel constructed specifically for this purpose.

But on the question of verification, we should remember one important aspect of the nuclear freeze that was described by the former Deputy Director of CIA, Herbert Scoville: A freeze is actually easier to verify than a treaty like SALT I or SALT II. Such treaties contain complicated limits on numbers and on modifications of missiles and planes; to detect a violation requires continuing and exact measurements of a vast array of possible prohibited activity. With a freeze, however, a violation would occur and be discovered the instant the other side does anything new at all.

Some opponents of the freeze argue that it is untimely or inappropriate to press the issue now, because we can not pull back from our commitment to continue deploying the Pershing II and ground-launched-cruise-missiles in Europe. The Kennedy-Hatfield amendment calls for a global nuclear weapons freeze between the two superpowers. We reject the idea of a freeze in Europe alone. We must not put the nuclear weapons cart before the arms control horse. Our overridng goal should be to secure a nuclear weapons freeze that prevents any further escalation of the nuclear arms race—across the board—not only in Europe but in every region of the world.

Moreover, the opponents who make this argument against the freeze seem to imply that the United States could not, or would not, call on its entire nuclear arsenal in response to a Soviet nuclear attack on NATO. We have known for many years that the Soviets have an edge in land-based missiles in Europe. There is nothing new in that. But we have always relied on the certainty of our ability to retaliate with the full arsenals of the American nuclear triad against any Soviet threat. The weapons in a single Poseidon submarine could devastate dozens of cities in the Soviet Union on virtually a moment's notice. We know this for a fact; the Europeans know it—and, most im-

portantly, the Soviets know it. Any suggestion that the United States no longer relies on this avenue of retaliation signals a major and destabilizing change to NATO policy, in which Europe can no longer depend upon America's nuclear umbrella.

The overall nuclear parity between the United States and the Soviet Union applies as well to theater nuclear forces in Europe—including not only land-based missiles, but American forward-based bombers and submarines. Britian and France, too, possess strong nuclear forces of their own, which are also capable of responding to any Soviet nuclear attack on Europe.

A nuclear weapons freeze would, of course, be negotiated only after complete and constant consultation with our allies. However, now that the INF negotiations have broken off, a global freeze is even more essential, because it will halt the new round in the nuclear arms race that is now underway—not only in Europe but worldwide.

The opponents of the nuclear freeze contend that we cannot halt the arms race now, after the Soviets have just completed a massive buildup. In fact, a bilateral freeze is the best way to protect against the effects of that buildup. It would halt an entire new generation of nuclear weapons which the Soviets are now developing—including the blackjack bomber, a new submarine-launched ballistic missile, and new cruise and land-based mobile missiles. The cries of alarm about Soviet plans for the future actually constitute a compelling reason to freeze the present balance of forces—and to prevent future destabilizing imbalances.

The administration instead prefers to respond with billions of dollars in more military spending and a massive American military buildup. But we should know by now that the Soviets will not accept a status of military inferiority, that they will match us bomber for bomber, missile for missile, warhead for warhead.

Finally, we are told that a freeze at this time would keep us from perfecting our own deterrent—for example, by creating a new type of bomber which, for at least a while, will be less vulnerable to Soviet defenses. But at any time, there will always be some imperfections in the military forces on either side. That reality can be used every time to justify just one more round in the arms race. "This is all we want," they say, "and then we will have enough." But the Soviets have learned to make that same argument. And so we drift, as Einstein said, "toward unparalleled catastrophe." We must reject policies which claim for the moment to make the world a little more secure, but in the end make the world a more unsafe and unstable place.

In closing, let me respond briefly to those who have questioned the idea of offering the freeze as an amendment to the Debt Ceiling Act. The freeze is hardly irrelevant to the Debt Ceiling Act. If a nuclear weapons freeze is successfully negotiated, it will have more of an impact on reducing the dangerous Federal deficit than any other single proposal I have heard of. A freeze will save America $100 billion over the next 5 years—an average of $20 billion a year. Under the circumstances, the freeze is not only appropriate, it is also timely and relevant as an amendment to the Debt Ceiling Act.

There is no morality in the mushroom cloud. The black rain of nuclear ashes will fall alike on the just and unjust. And then it will be too late to wish that we had done the real work of this atomic age—which is to seek a world that is neither red nor dead, to prevent a planet divided from becoming a planet destroyed.

I urge the Senate to vote for the nuclear weapons freeze and reduction resolution, as a clear sign of our commitment to stop the nuclear arms race before it stops the human race.

Mr. President, I yield to the Senator from Oregon.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. CRANSTON. Mr. President, will the Senator yield for a moment?

Mr. HATFIELD. I am happy to yield.

Mr. CRANSTON. Mr. President, I want to pay tribute to Senators KENNEDY and HATFIELD for their leadership in the effort to freeze nuclear arms. It is a matter that is terribly germane to the matter before us, because the budget is out of balance and the debt limit is going through the sky, in good part because of the tremendous defense expenditures imposed upon us by an arms race. The freeze is a way to deal with this problem. I am delighted to be associated with their effort.

Today we share a responsibility more immense than that borne by people of any other time or place in human history. We have amassed weapons which could end our civilization and exterminate the human race. Our mission is clear—we must do everything in our power to halt the nuclear arms race and to prevent a nuclear holocaust.

I am convinced that the mutual, verifiable nuclear freeze is the most practical and achievable step we can now take to slow this arms race. It is a simple, sound and specific step toward ending the arms race which can halt the qualitative and quantitative growth in the superpowers' nuclear arsenals.

As a crucial component of the effort to achieve a negotiated nuclear freeze, I have advanced the idea that the President should propose to the Soviet Union an immediate halt to the testing and deployment of new strategic weapons. This mutual halt would also encompass a comprehensive warhead test ban and a halt to the escalation of the arms race into space. This is a verifiable freeze the United States could initiate, and continue in place, so long as the Soviets responded with a similar halt. I believe this U.S.-initiated quick-freeze is the most promising way to end the spiral upward of new weapons deployments which always outpace the efforts of negotiators to contain them.

It is appalling to me as a father, a citizen, and as a Senator that the Reagan administration has done little that has effectively increased our security. The administration has pursued policies that have heightened world tensions and that have brought us closer to the brink of war.

In the shadow of the threat of nuclear annihilation, Ronald Reagan has failed during his administration to achieve a single arms control agreement with the Soviet Union. And it was not until last week that he met with Soviet Foreign Minister Andrei Gromyko—his first and only working encounter with a senior Kremlin official since he came to the highest office of our land. And this meeting came a mere 6 weeks before the November elections.

This is why we must move beyond the rhetoric, the posturing, and propaganda and to advance a mutual, verifiable nuclear freeze.

Mr. DOLE. Mr. President, the distinguished senior Senator from Oregon wants to speak on the pending amendment, but he is temporarily delayed in the conference, so I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, many years ago, Albert Einstein observed that the "unleased power of the atom has changed everything save our modes of thinking." Today, there is hope that the people of this country are beginning to prove him wrong.

The American people have been demanding since 1981 that nuclear arms control become a priority for our Government.

The issue in the nuclear debate is survival. Not Democratic survival or Republican survival, but the survival of our Nation and our civilization.

The NATO and Warsaw Pact nations today possess some 50,000 nuclear warheads, some more powerful—

many times more powerful—than the bomb dropped on Hiroshima.

The NATO and Warsaw Pact nations possess 17,400 intercontinental nuclear warheads, each sufficient to destroy a city. But there are only 3,000 cities with 100,000 people or more in the entire world. So-called battlefield nuclear weapons, such as artillery shells, are virtually all the same size as the 1945 bomb which destroyed the center of Hiroshima. To call such weapons tactical is to strain the sense of the English language.

The United States currently deploys the equivalent of 3,875 megatons of explosive power. The total explosive power detonated in the Second World War, including the atomic bombs, is estimated at 2 megatons. A fraction of our arsenal could completely destroy the Soviet Union. It could virtually destroy the Northern Hemisphere of our planet as well.

The loss of human life in a nuclear war would be catastrophic. In an all-out exchange, more people would die in the first few hours than have died in all the wars of history combined. The World Health Organization estimates that over 1 billion people would die immediately, 1 billion more would be severely injured, and most of them would die. Two billion people is over half the world's population. No catastrophe of comparable scale has ever faced the human race. The loss of 50 million lives in World War II pales by comparison.

Last year, Dr. Carl Sagan of Cornell University described a study based on information from Mariner I, which measured the effects and duration of huge dust clouds on Mars.

A 1-megaton nuclear explosion raises 100,000 tons of fine dust. Nuclear explosions also cause fires and smoke. A computer simulation of the effects of exploding 5,000 megatons demonstrated that dust and smoke would blanket the Northern Hemisphere so that sunlight could not penetrate. Land temperatures would fall to 13 below zero, Fahrenheit. The blanketing could last for months, long enough to assure the virtual extinction of most plants and animals in the Northern Hemisphere. The dust cloud cover, when it finally began to move, would have similar effects on the Southern Hemisphere. By the most conservative reckoning, in such a world what we know of as civilization would not exist. The human race could barely survive, if at all.

But the computer simulation also found a far more omnibus fact: That even a 100-megaton exchange, a so-called limited nuclear war, would have a similar outcome. Such an exchange would not use even 1 percent of the existing nuclear forces, but it could threaten the survival of half of the world.

The idea of a nuclear arms freeze is a response to that prospect.

The freeze proposal is straightforward. A freeze would be mutual, not one-sided. It would be verifiable, not taken on trust. And it would preserve our ability to deter nuclear blackmail and nuclear war.

The conservative columnist, James J. Kilpatrick, has observed that the freeze is simply a new element in an idea as old as warfare: The idea of calling a truce, Kilpatrick asks why opponents object to it and finds no answer.

It is not easy to understand why the freeze has been the subject of denunciation rather than debate.

The freeze has been attacked as too simplistic.

That charge is a red herring. A nuclear freeze—like any other arms control suggestion—would have to be negotiated. And negotiations would have to result in a mutual freeze, applying to both sides. They would have to result in a verifable freeze, so both sides would know neither could cheat. That is what the amendment before us provides.

The issues now being negotiated in the START talks would all be negotiated in a freeze. We would negotiate how to count the different kinds of weapons, modernization, replacement rates, reduction rates, satellite monitoring, and onsite verification. These are issues in every arms negotiation, and it is misleading to suggest that they would not be part of a negotiated moratorium.

The difference is in approach: Instead of starting from a premise that allows the Soviets to modernize and catch up where they are behind us, both sides would simply agree to a moratorium on their present relative positions. They would, as Kilpatrick says, "call a truce."

The argument is made that a moratorium would lock us into some kind of inferiority as against the Soviets.

But that is an assertion that the President's own Commission on Strategic Forces—the Scowcroft Commission—has put to rest. The Scowcroft Commission clearly said that we have now, as of this moment, the ability to reliably deter an attack on us, because we have the ability to respond with devastation against any attack the Soviet Union could launch.

There are no grounds for asserting that the United States lags behind the Soviets in nuclear deterrence.

One-quarter of our nuclear deterrent forces, the land-based missiles, have been said to be potentially vulnerable to the Soviet first strike; the so-called window of vulnerability. But the Scowcroft Commission exploded that myth.

> To deter * * * surprise attacks we can reasonably rely both on our other strategic forces and on the range of operational uncertainties that the Soviets have to consider in planning such aggression * * *.

That is what the Scowcroft Commission said about the window of vulnerability.

The Commission confirmed that our forces are strong and effective enough now to deter attack. It confirmed that the Soviets do not have the capacity to launch such an attack in any event. The basis for the Commission's conclusion is straightforward. Because only one-quarter of our total forces are in land-based missiles, three-quarters of our forces would in such an attack be untouched. In the unlikely event of a 100-percent successful Soviet strike that entirely eliminated our land-based forces, the vast majority of our nuclear deterrent would remain. We could still totally destroy the Soviet Union many times over. Just 1 ballistic missile-carrying American submarine can destroy 160 Soviet cities.

So, contrary to the assertion that a freeze would lock us into some kind of inferiority, the fact is that we have now the ability to deter attack. And deterrence is the only purpose of nuclear weapons.

We should be able to debate the elements of a nuclear freeze without implying that our Nation is defenseless against the Soviet Union or that we stand in imminent danger of an all-out nuclear strike with no ability to respond. That is untrue. The Scowcroft Commission has confirmed it. And the administration has accepted it.

Soviet missiles are heavier in payload to make up for being less accurate than ours. Our missiles are both more accurate and more numerous. We do not need the heavy payload to reach and destroy targets. They do. Most of their missiles use unstable, unreliable liquid fuel; the bulk of ours use solid fuel. Seventy percent of Soviet missiles are in land-based silos, potentially vulnerable to a U.S. strike. Seventy-five percent of ours are on intercontinental bombers, and on nuclear submarines, which can either evade a first strike or are, for the foreseeable future, invulnerable.

The Soviets have more submarines than we do, but their submarines are noisier and far more detectable. They can only keep some 15 percent of their submarine force at sea at any one time. Our submarines are virtually undetectable, our submarine-based missiles are longer range and more accurate, and half of them patrol continuously. The Soviets are now moving to the quieter Typhoon class of submarine, armed with better missiles. A nuclear freeze could freeze that modernization.

Our bomber fleet consists of B-52's which, despite their age, remain superior to anything the Soviets can put into the air. The fleet has been effectively modernized and continues to be modernized. The B-52's carry ad-

vanced air-launched cruise missiles and the shorter range gravity missiles, against which there is no known defense possible. The Soviets have no comparable missile. The Soviet intercontinental bomber fleet has never been equal, let alone superior to ours. For the most part it consists of propeller-driven Bear planes. The Backfire bomber must be fitted for midair refueling to achieve intercontinental range. But the Soviets are now planning to build a true intercontinental bomber, the Blackjack. The freeze could freeze that modernization.

Our cruise missiles are small, light, and accurate. They are infinitely superior to the Soviets, whose cruise technology is years behind ours—at the moment. A freeze would freeze this relative disparity in place.

The Soviets are moving toward building heavier land-based missiles, equivalent to the proposed MX. But if their current missiles do not credibly threaten us, why allow a buildup that could result in a real threat in future? The freeze would stop that planned deployment.

A freeze would not give us overwhelming superiority. The Soviets would not agree to anything that gives us a huge margin, any more than we would agree to allow them a huge margin. We do not need overwhelming superiority because we don't plan an attack. We need reliable deterrent ability, and that we have.

Both sides now have the capacity to deter attack. Neither has the ability to launch an attack without committing suicide. The nuclear force levels of both the United States and the Soviet Union are roughly equivalent, although not parallel. Both are a deterrent to nuclear war. The nuclear freeze would simply maintain that status quo as a preliminary to mutual reductions.

Supporters of a freeze have been accused of naivety and of overlooking the reality of Soviet brutality. The shooting down of KAL 007 is presented as evidence that the Soviets do not share Western values, and that they will never consider the human cost when it is a question of their power or prestige at stake.

But that is precisely why arms agreements—mutual and verifiable agreements—are so essential. We do not have to negotiate arms agreements with countries which share our values. If the Soviet Union shared our values, there would be little need for negotiation.

I have served on active duty in our Armed Forces in Berlin, where the reality of the Soviet presence is tangible. I do not underestimate either Soviet brutality or Soviet determination to sacrifice whatever they think necessary for political and military security. They will make sacrifices for their power and prestige. But there has never been any evidence that they will risk suicide.

The belief that we can build up our nuclear weapons at a tremendous rate and spend the Soviets into collapse or defeat is an illusion. Neither an appallingly mismanaged economy nor a series of political reverses and difficulties in recent years has deterred Soviet pursuit of their security goals. Nothing in the Soviet political system prevents the diversion of resources to match a U.S. arms buildup. And nothing in Soviet history suggests they would not do so.

The belief that if we can maintain a technological edge on the Soviets we will assure our security flies in the face of nuclear arms developments over the decades. The Soviets have eventually matched each technological advance.

In 1960, we fielded the first submarine-launched missile. It took them 8 years, but in 1968, the Soviets had their own. In 1966, we developed the first multiple warhead missile. In 1968, the Soviets had one too. In 1970, we developed the first multiple warhead missile that could be independently targeted. But by 1975, the Soviets had that, as well.

Today we have a technological edge in long-range cruise missile development, in neutron bomb production and in some other fields. How long will it be before the Soviets catch up? They may never surpass us—they have not done so in the past. But whenever they catch up, we simply ratchet the arms race up another step to keep ahead. The freeze proposes that we stop now, in our relative positions, instead of perpetuating this dangerous technological spiral.

The nuclear freeze has been attacked on the grounds that we cannot trust the Soviets.

But the freeze does not require us to trust anyone. Like any other arms agreement, it would be subject to verification and monitoring. No advocate of a nuclear freeze has claimed we should trust the Soviets. Those who claim a freeze could not be verified are overlooking some very fundamental facts.

Under a freeze banning all new deployments, any new weapon being put into place for potential use would be immediately visible by satellite monitoring. Any testing would be immediately verifiable in a situation where no testing is permitted. A ban on deployment would be at least as easy to verify as a ban on weapon modifications where detecting violations requires continuing and exact measurements of a large number of possible activities.

A production ban would be harder to verify, but not necessarily impossible. As former Under Secretary of Defense, William Perry, has pointed out, our intelligence gathering in the past has permitted us to monitor Soviet production so that we have predicted every new ICBM before it was even tested by the Soviets.

Those who claim that onsite verification is essential have never explained why the Soviets could be persuaded to agree to it in a complex proposal like START, but not on a proposal like the freeze. The Soviets agreed to onsite testing in principle, on the Comprehensive Test Ban Treaty, a treaty which the current administration has mothballed. That agreement does not meet all the needs of comprehensive verification of a freeze—but it is a clear contradiction of the oft-heard claim that the Soviets would never agree to onsite inspection. They have done so in the past.

In all the debate over verification, one factor has been ignored. What could not be verified would not be frozen. So, if the Soviets did not agree to acceptable verification of development, our weapons developments would not be stalled either. If they failed to reach a satisfactory verification agreement on production, our production need not be frozen. That is, after all, the essence of a negotiated position.

Opponents of the freeze maintain that the Soviets have no incentives to negotiate, such as public opinion pressures or the needs of their allies, both of which are felt in the West. By that reading the Soviets did not need to negotiate SALT I and SALT II. There were no fewer pressures on them to negotiate agreements in the past than there are today.

As to why a freeze is preferable to the far more complicated and uncertain outcomes of the START proposal or some version of the build-down suggestion, which the administration is also pursuing, there is a simple answer. Time. Last year, the administration said that START might take as long as 10 years to reach conclusion. Nothing in the build-down proposal promises a faster outcome. But a freeze could be reasonably pursued on a shorter timescale.

A freeze would help counteract the bargaining chip mentality which has dominated arms controls for so long and so unproductively. The bargaining chip gave us deployed MIRV's, which everyone now agrees are the most destabilizing step taken in the last decade. Former Secretary Kissinger has said that if he had it to do over again, he would not have insisted on moving forward with MIRV's.

Today's bargaining chip is equally destabilizing: The MX missile, whose accuracy and throw-weight directly threaten the only part of their nuclear arsenal in which the Soviets can have any confidence. Can we seriously expect them to leave us with such a threat in place and not move to pro-

tect their major source of deterrence? Would we allow our submarines to be subjected to a threat without taking action? I think not.

Yet the bargaining chip theory is alive and well at the arms talks now, and will, unless we stop, again dominate the development of the nuclear arms race in the coming years.

If START does, indeed, take a decade to negotiate, as the administration says, in 10 years' time, we will be debating ways to overcome Soviet advances in the areas where we now outpace them. That is certain.

But the fundamental facts will not have changed. We will both still have enough weapons to annihilate each other and the rest of the world. We will both face retaliatory capacity which will make any first strike suicidal. That much is predictable.

Surely it is time to recognize what we all know to be true: Nuclear weapons do not deter war. Since 1945, wars have been all too frequent and common. The only purpose of nuclear weapons is to deter the use of other nuclear weapons.

Our past nuclear superiority in all categories has never deterred Soviet aggression. It did not prevent aggression in East Germany in 1953, in Hungary in 1956, or in Czechoslovakia in 1968.

Those who claim that Soviet actions in Afghanistan and Poland somehow result from Soviet nuclear strength are ignoring history.

The only use for nuclear weapons is to deter the use of nuclear weapons, not to project power or to overawe adversaries. When we consider the military actions in which both the United States and the Soviets are engaged right now, it is clear that our ownership of nuclear weapons has not stopped Soviet adventurism any more than their possession of weapons has prevented our acting as we deem necessary for our interests.

The amendment before us would assure that the option of a nuclear freeze is considered in the arms negotiations now underway. There is no valid substantive or strategic reason why it cannot and should not be a negotiating option. There are only political objections. But when we are dealing with the potential of world destruction, political objections are not good enough.

(Mr. CHAFEE assumed the chair.)

Mr. WARNER. Mr. President, will the Senator yield for a question?

Mr. MITCHELL. I yield.

Mr. WARNER. The question is, how would he propose that a freeze be verified? What verification procedures, what methods beyond existing national technical means would the Senator consider appropriate?

Mr. MITCHELL. As I said earlier in my remarks, I believe that the question of verification for a freeze would have to be negotiated just as would the question of verification on any other arms control proposal have to be negotiated.

If I may complete my answer, for example, I assume the Senator is a supporter of the so-called builddown concept. Am I correct in that?

Mr. WARNER. The Senator is correct.

Mr. MITCHELL. Is it not true that the builddown would require verification to be negotiated as between the two sides?

Mr. WARNER. The Senator is correct. But in that context, it is much easier to count systems that are taken out of service and new ones that are introduced.

The concern that I have with the proposal that the Senator has aligned himself with is that there are 10,000 Soviet factories building different weapons components, factories doing different types of weapons research. I know of no adequate national technical means thus far by which we can effectively verify such research and development of systems under a freeze.

Second, so far as I know, the Soviets—with the exception of some very preliminary discussions in the area of chemical and biological warfare—have indicated that they would not permit any intrusive devices or indeed persons themselves onsite to verify the cessation of the types of activity that this freeze proposal would cover.

Mr. MITCHELL. The precise argument that the Senator has made regarding the existence of Soviet facilities applies with equal force to every control concept that has been proposed, including the START talks or any other. The necessity of developing a method of verification exists with respect to every proposal and each one confronts the same difficulty.

Mr. WARNER. Mr. President, I respectfully disagree with my colleague on that, because in the other areas such as START and INF, there are established means by which we can with some confidence verify certain aspects of those proposals that have been put on the table by the President. In both cases, we are trying to limit numbers, not research and development activities.

I thank the Senator.

Mr. MITCHELL. I had originally made my remarks because the distinguished Senator from Oregon had to return to the conference and I had agreed to that upon his return I would yield to him.

I note that the Senator from Oregon is now here and I yield to him.

The PRESIDING OFFICER. The Senator from Oregon is recognized.

Mr. HATFIELD. Mr. President, I thank the Senator from Maine for his assistance with this rather difficult schedule we have been trying to conclude the continuing resolution conference and get back and forth between that and the Chamber.

I shall be very brief. I merely want to say that in support of the nuclear freeze resolution the Senator from Massachusetts and I have introduced, I know of no subject that has more deeply penetrated every facet of our society or that has spurred the level of anxiety and the concern as much as the whole question of nuclear arms and the potential of nuclear war.

I visit retirement centers. I visit senior citizens groups of all kinds. Usually the first or second question in the question and answer period is: What are you doing for survival of the human race in this mad rush to oblivion? Why is it that the superpowers seem to have little or no understanding or interest in constraint?

You go to a high school, you go to a university campus, and usually again the first or second question in the question and answer period is: What are you politicians doing about the survival of the human race? All we can see is your desire to escalate military expenditures and more madness in this whole area of nuclear arms.

You go to a business group, small business, medium-sized business, whether it is a rotary club or a chamber of commerce, they are naturally concerned about the economics, and they say, "We think there is a very interesting economic theory in Washington today that only nonmilitary spending creates the deficit, and that military spending does not create deficits." They get that right out of Mr. Stockman's little shop downtown that comes up to the Appropriations Committee and tells us "Oh, any escalation of military spending does not contribute to the budget deficit. The only deficit that is created is in nonmilitary spending." That is economics a la Stockman.

That gets around the country and the small businessman out there or any other businessman does not buy that. No one learned that in Economics 101, whether at the London School of Economics, Stanford, or Harvard, or any other school of economics, that somehow spending in one area creates deficits but spending in another area does not create deficits.

They realize that the military spending policies of this country are in themselves creating this horrible deficit and they realize that until we start beginning to get control of that, we are not going to get out of the economic woods no matter what siren songs they may hear sung out of Washington whether it is on the Democratic side or on the Republican side.

Now, Mr. President, this indeed is a people's issue. Dwight Eisenhower once said that many times the people are ahead of the politicians in perceiv-

ing what the problems and the solutions are. Wherever you go in this country you will find that people are far more concerned and far ahead of the political leadership here in Congress and elsewhere in Washington that says, "Oh, everything is just fine, just keep escalating, just keep escalating." That seems to be the only answer.

Let me illustrate that. Ten States had a referendum on the nuclear freeze. Nine of those States passed it—9 out of 10.

Three hundred seventy city councils took up the issue of the nuclear freeze and passed a resolution in support of it. Seventy-one county commissions took it up, including county commissions from North Carolina to Wisconsin, from New England to the Southeast, from the Southwest to the Far West. Fifteen State legislatures resolved on this question as well. All of these people were elected by local citizens and reflecting local sentiment.

This is a people's issue.

Mr. President, let me just take two or three of the arguments against the nuclear freeze. First of all, we hear that the Soviets are racing ahead of us. We get little blue graphs and little red bars on television—"This is the Soviet arsenal; this is our arsenal." We get all of these numbers games.

Let me say, we have over 11,000 warheads and the Soviet Union has over 8,000. It is simply wrong to say the Soviets are ahead of us in that sense. Sure, you can play with numbers. You can say, well, in Europe they are stronger than we are here. But let us take a qualitative analysis and not just the numbers of the quantitative analysis. You have to take into consideration the number of warheads on a missile. You have to take into consideration the accuracy and crank it into the qualitative analysis.

We have record testimony from the Joint Chiefs of Staff when asked the question—and I posed the question—"Would you trade our arsenal for the Soviet arsenal across-the-board?" Of course, the answer is negative. No one in their right mind in this body or elsewhere who has even an elementary understanding of the facts would want to trade the Soviet arsenal for our arsenal.

Then we heard the word that we have got to "modernize." That is another one of those great words we use for escalation. But in 1984, the term is "modernize"—trade in two old Volkswagens for a Rolls Royce. That is one of the ways we modernize. Modernize is nothing but, again, a facade for escalate.

I think we have to look at the basis for the call to "modernize," too. They say, "All of our weapons are becoming obsolete and old while theirs are all new."

Well, last year, Senator KENNEDY and I had a very interesting 1-day hearing in which we invited five of the top American scientists and five of the top Soviet scientists. We asked them to speak to each other and to the world not in scientific nomenclature, but to speak in terms of the question of the real consequences of a nuclear war.

Dr. Carl Sagan was one of those men. He has developed the theory or the idea of the "nuclear winter."

We asked what it would mean to have a first strike against one of the two super powers. Dr. Sagan said:

> A convincing first strike, . . . that would have a significant chance of taking out the fixed-site retaliatory capability of the adversary, and some hardened command posts, would very likely trigger the nuclear winter. If country "A" were to launch a major first strike against country "B" and country "B" did not lift a finger to retaliate, there is a significant chance that country "A" is destroyed by its own action: [A] cloud of dust and smoke [would be] raised over the attacked country. . . . Ten days later, the winds carry it to the aggressor nation . . . the temperatures drop, the light turns off, the radioactivity starts coming down, and the aggressor nation is in deep trouble.

Every one of the five American scientists, as well as every one of the Soviet scientists, agreed with this conclusion by Dr. Carl Sagan.

Now, Mr. President, you may come up with all kinds of responses to that—well, that is a theory or that is a possibility but not necessarily a probability.

Dare we risk it? I am not suggesting today, nor have I at any other time suggested, that the strategy of—the Soviet Union or the United States—would be to deliberately launch a first strike, because, frankly, I think both countries have no political strategy that would risk that. But that is a viewpoint.

But let me say this: The concern I have is that by mistake, by mistake, an error of a computer chip or something else giving us an erroneous signal from our advanced warning system that some major attack has been launched. We will stumble into a nuclear war. And this has happened time after time after time. Fortunately, we have had some breathing space to verify the falseness of that computer chip error or whatever it was that caused that false signal. But one of these days, as we escalate further into counterforce weaponry, that half hour will be reduced and that time to verify may not be enough to be able to avoid a possible wrong response. We better start considering that possibility now and the mistakes that will come.

Let me also say, it is a matter of public record the number of people that have been taken off of access to nuclear responsibilities because of drug abuse and have been courtmartialed for it. Now, that in no way denigrates the quality of our Armed Services. All I am saying is we have all kinds of very interesting variables for possible mistake or error.

Now, the second thing that concerns me is that by 1999 or 2000, which is only about 16 years away, 60 countries of the world could have the capability of transforming nuclear material into nuclear weapons. We hear Colonel Qadhafi talking about the Islamic bomb that he is building, whatever the Islamic bomb is. I guess that is to only wipe out non-Islamic people and preserve Islamic people, sort of like that wonderful weapon that is only going to destroy people and not property. So we get a specialty here with religious bombs.

But it is part of that madness, part of that nuclear madness that penetrates every part of the world today. We better start showing some control or the ability to at least initiate or challenge the Soviet Union to mutual restraints before some of these 60 countries go into the business of international nuclear blackmail.

I do not think we can stand up then and say, "Well, now, you little countries, you less responsible countries, better not do that." It is about like some of our efforts to try to get some of those developing countries to develop some kind of environmental quality while they say, "You have exploited the environment up to this point to develop your industrial society. Now you are telling us we should not do that, we should stay in a different economic status because of the quality of the environment that you are suddenly so concerned about."

Well, that's about the same kind of response that they will give to us when we tell them you must not develop those nuclear weapons because they are too dangerous.

We hear about verifiability; "it is not verifiable," they say. Well, this is a smokescreen. Was START verifiable? In all instances, verifiability is a function of mutual national will. Given the will—and we have the support of people like former CIA Director William Colby to prove it—a freeze is infinitely more verifiable than more limited arms agreements, because it is far easier to detect infractions in a total freeze than it is in a partial arms control agreement.

And that is from Mr. Colby and others. I am not asking the Senate to accept me as an expert in technology or verifiability. But these are the words of people who I think do have credentials to speak to that subject.

The fact is that anyone can attach a condition for verifiability—such as on-site inspection—that will never be agreed to and say that their arms control program is verifiable. This is intellectually dishonest and the world does not have time for it.

Now, I have heard also, in a campaign year, that somehow this is a partisan issue, that it is a Republican versus a Democratic issue. Well, that is also untrue.

Let me tell you at that convention that met in Dallas, TX, of my party not too many weeks ago, they took a survey and they found that 62 percent of the Republican delegates supported the freeze. I do not think there were very many people down there from my wing of the party from whom you might expect support for a freeze.

I might say it was a major part of one wing of my party at the convention. But, whatever label you want to attach to their political ideology, you cannot sight the Dallas, TX, Republican Convention as a nest of wild-eyed liberals or even moderates for that matter. So to say that it is a partisan issue is not true. Let me tell you something. I remember Senator KENNEDY sharing with me a thought or two about this matter. When we introduced this resolution, I think Senator KENNEDY would agree, we were not really initiating an idea but we were responding to an idea already out in the public. The Senator told me there were town halls in Massachusetts representing areas that neither he nor his brother ever carried because of the strong Republican commitments and traditions. They had been discussing the nuclear freeze and they had resolved in favor of the nuclear freeze. Those were some of the areas of Republican Massachusetts. I did not know that there were that many up there but I understand there are such villages up there that are pretty strongly Republican.

But also let me say that the nuclear freeze was supported in Charlotte, NC, down there in the heart of Dixie. Those are not wild-eyed liberal Democrats either. Those are conservative Democrats and conservative Republicans. All I am saying is simply that to try to put this in a partisan context will not hold up. We have conservative Democrats, conservative Republicans; moderate Democrats, moderate Republicans; and liberal Republicans and liberal Democrats because I said in the beginning this is a people issue more than it is a political issue. It is a people issue because people are interested in survival.

One last point. Some people say it is idealistic. You know, every time you want to change the status quo you are called either idealistic or not realistic. That is once again two code words thrown up by people who usually do not have an answer to your point. I say it is realistic because if you want to look at the situation we are in today the problem we face stems from the increased accuracy of these weapons and the increasingly sophisticated technology that is being applied to them. The freeze would bring that technology to a grinding halt. We can discuss the technical merits all night. I suspect if we get right down to it, the problem really is not technical.

The problem is psychological, moral, and intellectual because when you have obliterated all the antifreeze arguments you are left with the ones that are not on display; that is, charges of "weakness"; or "is it not the right time;" or "we have to modernize first and feel secure about our own superiority in every single category of comparative strength;" or "we simply cannot risk it." Let me tell you, those arguments are not really relevant because there is only one bottom line issue; that is, survivability of the human race. We had better think about the need to challenge the Soviet Union to get off its dime and come to some kind of a realistic discussion on this thing. I am not a unilateral disarmament person. I am not a unilateral freeze person. But let me tell you I am coming close to it because we had better address the real vulnerability of our security and national defense. Let me tell you, my friends, it is not in the arsenal.

In my view, in my memory, there is only one President of the United States that really ever understood national security and national defense, and he was a five-star general. His name was Dwight David Eisenhower. People forget that when he announced his policy for the Interstate Highway System that it was not announced solely as a transportation program. He announced it as a component of our national defense, to tie this country together in a strong infrastructure of transportation. Arsenals are vital to our national security. But so is an infrastructure. Today, our infrastructure is deteriorating. You ask any mayor of any major city. Some cities have been on 30-day water supplies, and their utilities are being held together by baling wire. National security depends on a strong economy. Today, America's defense vulnerability is on its economic front. Security is to have access to raw materials, access to fuel, and energy and to reduce our overdependence on Middle Eastern oil. Those are some of our vulnerabilities today in national security. Let me close with one last quote from that great President.

General Eisenhower said there will come a time in this country's life when in the name of national security more money will be requested for bombs and rockets, when there are people who are hungry and not fed, cold and not clothed. And far from strengthening national security, it will actually weaken national security. He saw the totality of our national security as a strong well-housed, well-fed, well-educated people, and a strong productive economy with rivals of no consequence in the world of international trade.

I am not suggesting that it is all the fault of the United States that we do not have a freeze today. All I am saying is let us take this freeze proposal, let us go to the court of world opinion and say to the Soviet Union, we challenge you to beat us on this basis. Let the Soviet Union be put on the spot. Let us take the offense in international diplomacy. Let us take the offense in a real way in arms control. That is why I think it is important to support this nuclear freeze resolution at this time as a reflection of the will of the people.

Mr. TOWER addressed the Chair.

The PRESIDING OFFICER (Mr. COHEN). The Senator from Texas.

Mr. TOWER. Mr. President, I will be brief. Let me first say in response to one comment made by my distinguished friend from Oregon; that is, I will have to agree that defense spending—as does all Government spending—contributes to the deficit. I think we could have a stipulation to the effect that all Federal spending that is not funded through user fees or user taxes contributes to the deficit. The question is how do we order our priorities, and can we discipline ourselves to prioritize spending and reduce spending or abolish spending for those low priority items? That is not really the issue. I think that one would have to observe, however, that if you are confronted by a powerful, armed adversary, spending money on ensuring a minimum standard of living for your people alone will not deter attack against you.

It seems that most of the time given over to debate on this issue has been consumed with discussing how terrible nuclear war would be, and by citing the numbers of weapons that we have in our arsenal.

The Senator from Oregon said the bottom line issue is the survivability of the human race. I submit that that is not an issue, because it is not arguable. There is universal agreement that the human race should and must survive. So I do not take issue with my friend from Oregon on the survivability of the human race.

On the matter of the destructiveness and the consequences for the human race of nuclear war, I would be inclined to agree with the worst horror story that has been painted. It may be even worse than Carl Sagan and other scientists say that it is. Let us assume that it would indeed be global holocaust. That is not at issue. Nuclear war is terrible. To say that the fact that nuclear war would be so pervasively destructive is an argument for the nuclear freeze is incorrect. The issue is how do we best avoid this holocaust. That is the issue. Let us focus on that. What does the proposal for the freeze contribute to the potential for an arms agreement that would drastically

reduce the likelihood of nuclear war, and the ensuing holocaust that we all fear?

It is suggested by proponents of the freeze that we have greater numbers of nuclear systems than the Soviets. Then they say let us not play this numbers game. We are talking about a numbers game. We talk about a freeze in numbers. I say that it is those who raise the point of numbers of systems that have injected the numbers game into this.

I think what you have to look at is how the numbers are distributed; what kind of systems are we talking about.

It is axiomatic in the military that you can concentrate superior force out of inferior resources and accomplish a military objective.

This is precisely what the German Wehrmacht did with such effectiveness during World War II. We had superior numbers in the west, vastly superior numbers, vastly superior industrial capacity. But it did not deter the Germans from an armored first strike because they had a superior convention first strike capability, and they demonstrated that very clearly.

What we have to ask ourselves is whether or not we can maintain, not just in terms of numbers but in terms of capability, that which is a credible deterrent, an adequate deterrent, to a first strike against us.

If you look at the numbers, the numbers are impressive on our side. There is an imbalance of numbers of warheads in our favor. But there is also an asymmetry of types of systems and how they are deployed that should give us concern.

The fact is the bulk of the Soviet nuclear capability lies in land-based systems that are at this point in time not only superior in numbers but at least equal in capability and probably superior in survivability.

This is what must give us pause. The systems that we have at sea, and the air-breathing systems we have, are designed as retaliatory systems, defensive systems, defensive in the sense that they are designed to deter. They are not first-strike weapons.

The Soviets have a clearly superior first-strike capability. That is what we must fear and that is why we must not preserve the status quo, but seek genuine reductions—reductions in nuclear arms.

Let us think in terms of what the psychological impact and the practical effect of the nuclear-freeze proposal would be.

Would it enhance our negotiating position? Would it hasten the day when agreements were arrived at that reduced the potential for nuclear war?

I suggest that the nuclear-freeze advocates, honestly motivated, seized of very strong convictions, and I admire them for their zeal, are proposing something that would be counterproductive and that might, in fact, enhance the prospects ultimately for the very nuclear holocaust that all of us so earnestly desire to avoid. I believe that if there were simply a nuclear freeze, even if it could be adequately verified—and I have some serious questions as to the possibility of that—I think that would militate against arms reduction because the nuclear freeze, in effect, limits seeing what we have and seeing what they have.

Let us give them a favorable imbalance from the standpoint of urgent, hard-target kill capability. Those land-based systems are the most destabilizing weapons in the nuclear inventories, far more destabilizing than those that are carried in submarines or borne by air. Those are the most destabilizing elements in the nuclear equation.

Once the freeze has been achieved, assuming that it could be, and assuming that it could be verified—which is the precondition that my friends advocating the freeze quite correctly included in their proposal—if that were to be the case, in my view this would militate against the negotiations that would result in the reduction of these inventories of nuclear arms to the extent that no one—no one—would have a first-strike capability. That is the bottom line, I suggest to my friend from Oregon, that nuclear arsenals must be reduced to the point that no nation has a first-strike capability.

So what my friend proposes in my view, and in the view of our President, in the view of our Secretary of State, in the view of the Arms Control and Disarmament Agency, in the view of very capable men, most of whom have served both Democratic and Republican administrations, the adoption of this freeze as national policy, would militate strongly against and perhaps be conclusively destructive to any prospect of getting meaningful arms reduction in the foreseeable future.

That is what we are talking about.

I think the psychological impact, the perceptions that would flow from the action of this body in mandating a nuclear freeze negotiating posture, would give pause to those of us who understand that the only way to achieve the significant nuclear arms reductions that the Reagan administration is trying to negotiate is to negotiate from a position of strength, not weakness as embodied in the freeze. The freeze, even if instituted and verifiable, would lock us into inferior negotiating positions from the standpoint of negotiating further reductions in these weapons.

If the freeze were adopted, the Soviets would walk away from the table saying, "We now have an arms agreement. You keep your number of retaliatory weapons. We have our superior number of first strike numbers. We feel perfectly secure. We need negotiate no more." The freeze is the antithesis of reductions. The only sure way we are going to avoid a nuclear holocaust is to deny to any nation the power to strike first at minimal risk to their own safety and security.

Let us not take this step which would convince the Soviets that we are prepared to concede certain advantages. That is what we would be doing. If we mandate this negotiating posture, we are saying to the Soviets, "We are prepared to concede to you certain strategic advantages."

And this will militate so strongly against our ability to achieve the reductions in numbers and overall capability that are essential if we are to be assured—and succeeding generations are to be assured—that there will be no nuclear holocaust.

Mr. President, I hope that this proposal, offered in good faith by Mr. KENNEDY and Mr. HATFIELD and others is defeated. They are all men who, I believe, strive to do what is best for the cause of peace and the preservation of the security of this country and the safety of mankind. I applaud that. I believe they are honestly motivated. I believe also, Mr. President, that they are tragically wrong in the means by which they seek to achieve the end that we all desire.

Mr. EAST addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. EAST. Mr. President, I would like to take a few minutes to comment on my opposition to this proposed amendment.

It is very difficult to follow the distinguished chairman of the Senate Committee on Armed Services. I have found that when you enter into debate or discussion with him on matters involving the military, as well as many other things, he has no equal, so he is a very difficult person to follow. I would like to add my feeble comments to his already cogent arguments against this freeze. I only wish I were able to follow a more inarticulate spokesman, hence to enhance my own presentation, but I am in the unfortunate position of following him. I have the deepest respect and admiration for his ability to explain very complex matters over which he has great mastery with great precision, decisiveness, and understandability. I am not suggesting that I can improve upon anything he has said, but I would like to make just one attempt to add my voice on this matter.

Several points I shall try to make as quickly as I can. I know there are others, Mr. President, who would like to speak on this issue on both sides.

First, the Senator from Oregon raised the deficit question, that this would help reduce the deficit, which is probably the weakest argument in the arsenal of the supporters of this

amendment. First, I point out that the deficit caused by the defense budget has been shrinking dramatically in recent years. In 1960, the defense budget was 50 percent of the total budget. Today, it is less than 30 percent. In 1960, the defense budget was about 9 percent of the GNP, today it is less than 6 percent.

Second, I point out in terms of Federal expenditures that national defense is the prime responsibility of the Congress. We cannot leave it to the State and local levels; hence, if we do not meet it, it does not get met.

Also, I point out that the great cause of the deficit lies not in defense expenditures nor in a problem of taxation but in terms of nondefense spending growth—entitlement programs, for example. Everybody knows that.

I also point out that as regards the military budget, well over 50 percent, 60 percent of it goes for pay. So the defense argument in support of the freeze that this is needed to reduce the deficit, I think, pales away when a few figures are produced.

National defense, I repeat, is the prime responsibility of the Federal Government under article I, section 8, of the Constitution. If we do not provide it, it does not get done.

I agree with Secretary of Defense Weinberger that the reality of the military threat to the United States from the Soviet Union and her surrogates is a reality. We ignore it at our peril. It is real, not imagined; hence, we must spend that which is necessary to defend this country. That is the prime responsiblity of the Federal Government.

Second, I point out that the Chairman of the Joint Chiefs of Staff, General John Vessey, has pointed out that if the current imbalances in defense capability at the strategic—which this nuclear freeze amendment deals with—as well as at the conventional levels continue, the Soviet Union will eclipse the United States in terms of military capability, and that will set the stage for greater instability in the world and the greater potential for war.

If we learned nothing else from the experience of the 1920's and the 1930's, it is that self-induced, self-inflicted military weakness produces the greater potential for war, it does not lessen it. If I am saying there is peace through strength, yes, that is precisely what I am saying. I suspect the common sense of the American people would agree with that; at least, I would hope so.

Isolationism and unilateral disarmament in whatever guise it takes will not lead to a more peaceful world for you and your children, but to one of greater instability, one of greater potential for war, as the events leading up to World War II did.

It was the feeling in the 1920's and 1930's that if we did not arm, if we were isolationist, we could escape the great war, and precisely the opposite occurred because we became involved in the worst war in our history, World War II.

I wish to see us avoid that great calamity of potential of a third world war. The way we do that is not by playing ostrich, as Jeane Kirkpatrick has pointed out, but by assessing calmly and prudently and realistically the nature of the military threat that we face from the Soviet Union and her proxies and responding accordingly. I think Mr. Gromyko, et al, will be more impressed with that than the politics of fear, of disarmament and isolationism, which is being preached in certain quarters in this country and, I think is manifested in some degree in the nuclear freeze movement and in this particular amendment now offered on the floor of the U.S. Senate.

Let me turn to some of the particulars of the freeze proposal. First, it is a mutual and verifiable freeze, followed by arms reduction. It shall freeze what, testing? That, I presume—it is a very broad and vague term—means research, it means productivity. It says it shall freeze productivity and deployment. As former Chairman of the Joint Chiefs of Staff David Jones put it, it has a certain seductive appeal to it. The appeal, though, is based upon fear and irrationality, that some way or other by being strong, and resolute, and prudent, and wise, and realistic in our assessment of the world situation, it is best we panic, it is best we seek, at whatever cost, agreement. It is based on political, I hate to say it, fear. And again I am sure that at that point Mr. Gromyko, who quite rarely does, does smile, smile at the naivete, and the foolishness, and the factlessness of the thinking behind the freeze mentality. Seductive appeal, fear, the politics of fear.

First of all, this nuclear freeze, if we should put it into operation, would freeze the Soviet Union into a position of superiority in the nuclear field. Secretary Weinberger has so said and there is ample expert military testimony to that end—freeze us into a position of inferiority because the United States has foregone advancement in development technologically in this area in recent decades and the Soviet Union has moved ahead without inhibition and unfettered. What thinking is that, freezing us into a position of inferiority? Will that contribute to greater peace and stability in the world for you, and our generation, and our children, and our grandchildren? I daresay no, on the basis of historical evidence. As Santayana said: "Those who cannot remember the past are condemned to repeat it." I think that is true in this case. If we learned nothing from the twenties and thirties and simply repeat the same folly in the eighties, we give a less secure, a less safe world to ourselves, to our children, and to our grandchildren. I do not think that is stating the proposition in an overly emotional way. I think it is an accurate, prudent, realistic assessment of where we stand in the year of our Lord, 1984, at the close of the 98th Congress.

Verifiable, we are told. Really? The record of the Soviet Union and verifiability is absurd. It does not exist. They have violated the SALT accords. They have violated the Helsinki agreement. They have violated the Biological Weapons Agreement, and the list goes on and on. The Soviet Union in its mentality looks upon agreements as mere scraps of paper to be ignored or circumvented to suit the national self-interests of the Soviet Union and the cause of the revolution. And any serious student of international affairs in our time can find ample evidence of that. So you enter into a so-called mutual, verifiable freeze with the Soviet Union. You cannot verify it. How can you verify, for example, testing and research? Can you examine every square inch of the Soviet Union? Can you examine every research laboratory in Siberia, in the West, in the Eastern European countries, in the East? No. It is a false hope. You cannot verify testing, research. How could you? Laboratories. Impossible. It sounds good—seductive appeal, as David Jones put it. But it cannot be done. It cannot be done. We are told it shall be mutual, bilateral between the Soviet Union and the United States. What if China does not honor it? Communist China is developing its own capability. Other members of the Third World—Qadhafi in Libya—what if they do not follow it?

Even assuming the Soviet Union does—for purposes of discussion I will demur, assume they do—if China does not and they race ahead in the technological race and gain superiority, is there any question in your mind what the country founded by Mao Tse-tung and Deng Xiaoping would do if they had nuclear superiority over the United States? You see, this is merely a bilateral agreement between us and the Soviet Union. It assumes a static geopolitical situation which you could not do. Life by true definition is change, so we are locked in while Third World countries—there are what, 145 of them in the world. Only the United States and Russia would be frozen, even assuming the Soviet Union honored it—would be free to do what they wanted to do. Why, that is sheer lunacy. China, if they had this capability, under a Maoist mentality, would intimidate, and threaten, and reduce us to a point of impotence in terms of Asia and ultimately the whole world geopolitical situation.

Another point in opposition is that it must be understood that the key component to survivability in terms of defense and weaponry is the technological superiority of the United States. That is the key. We are only 5 percent of the world's population. Mr. President, do you realize that if we disarm to the point where all you could use, let us say, would be spears, we are through? Communist China has 1 billion people. We have, what, 240 million. The Soviet Union has more than that. We are a very small country in terms of population, so to the extent that we are able to provide the defense capability to keep our people free and to be the leader of the Free world, it is our technology in which we must maintain qualitative superiority. The Soviet Union understands that. They want it. They are going to try to get it from us. No wonder they are against proposals now against possible space defense programs. They want to cut out our nuclear superiority, in terms of technologically rooted superiority, and ultimately reduce it to a purely conventional force, and they would win because we cannot match them man for man in Europe or any place else in the world.

Remember, we must maintain our flexibility to have technological superiority. Our NATO allies oppose this—again, part of the isolationism feature of the nuclear-freeze movement.

Let me quote German Chancellor Helmut Schmidt, who spoke about the freeze in addressing a convention of his party on April 20, 1982. He warned advocates of a nuclear freeze today that its enactment in Europe would amount to accepting the "unbelievable Soviet armada that is aimed at us."

Meaning that without the technological advantage and superiority of nuclear capability, the Soviet conventional forces could move right over Europe as the Wehrmacht did in the 1930's. NATO is no match conventionally for the Soviet forces in the Warsaw Pact nations. This is Helmut Schmidt, the West German Chancellor speaking now.

He goes on to say:

> I want to say this to those who want to offer unilateral disarmament in the place of mutually binding disarmament agreements; historically experience shows that one-sided powerlessness never stopped aggression by a force possessing power. This is the experience of neighbors of the Soviet Union, and the case of Afghanistan is still fresh in our minds. The same was true of states neighboring Hitler's dictatorship.

So says the current Chancellor of West Germany. In short, he says that the freeze movement is a very bad, misconceived idea—well intentioned, of course, but irrational, based upon the politics of fear, confusion, and irrationality.

Moving beyond the deficit point which I have discussed, plus what I think is the extreme military weakness involved in the freeze concept, in terms of the posture it could put us in militarily in a strictly technological sense, vis-a-vis that of the Soviet Union, let me turn, in conclusion, to the geopolitical implications of it.

I repeat: I think it again fails to understand the great lessons in the broadest perspective that we must remember historically and politically in the 20th century, our time, that the two great threats to the survival of the United States and those who share our values, and our institutions, and our goals, and our ends have come first from the totalitarian right—Nazi Germany in the 1930's—and now from the totalitarian left—the Soviet Union.

Those are the two great political cancers of our century. They have different rationales, but they come out at the same place, do they not? In the case of Nazi Germany, to simplify, Dachau and Buchenwald. In the case of the Soviet Union, you end up with the Gulag. What is the difference? None.

It is the hideousness of totalitarianism. It is the hideousness of the two great political cancers and moral, political aberrations of our time. Whether you like it or not, the United States, in the 20th century, has been thrust out as the only people in the world that has the capability of meeting that challenge. If we do not meet it, there is an enormous vacuum of power there that can be filled by no other nation in the West, and it will go by default to our enemy, the Soviet Union—just as in the 1930's, by default, when we opted out on fortress America, isolationism, unilateral disarmament. It gave Hitler the green light, and he marched. He marched into the Sudetenland, Czechoslovakia; he marched into the Rhineland, into Austria; and ultimately, in 1939, the full-fledged attack on Poland, and World War II was underway. Then Pearl Harbor, and then the worst war we have known in our history.

So what we see here, in a geopolitical sense, is that in meeting the great totalitarian threat of the 1920's and 1930's, is it not true that isolationism and disarmament, weakness militarily, did not bring peace? As the politics of fear of that time said, it brought us war; and we sacrificed our finest manhood in those years between 1941 and 1945.

I hate to see us repeat that folly in the 1980's or the 1990's, with your children or their grandchildren. I do not think that is overemotionally stated. I think it is the fact of the matter. Weakness will bring us closer to war, not further away from war.

Let me put it in local government terms. If you are having a local crime wave, what do you advocate doing—abolishing the police department? No. You say: "Let us strengthen it." That would be the best deterrent, would it not? Sure, strengthen it, not weaken it.

So when you are dealing with the problem of international gangsterism, whether it is the Hitlerian mentality or the Marxist-Leninist mentality, why, all of a sudden, do you think that by eliminating the police department, which is the defense superiority of this country, it would eliminate the threat of international gangsterism? It encourages it; it rewards it. they interpret it as weakness, which it is, and they move accordingly.

This would encourage Soviet adventurism throughout the world, such as is currently going on in Central America with Cuban and Nicaraguan forces, going on in Africa through Cuban and Soviet forces, going on in the Middle East through Syrian, and PLO, and Soviet forces, going on in the Far East between the Soviet Union and her new proxies, the Vietnamese, against Cambodia, threatening Thailand, and so forth.

As Alexander Solzhenitsyn, the great Soviet Nobel writer, put it, you need not fear nuclear war. Why? Because they have superiority at this point. As Solzhenitsyn put it: "They are taking you with their bare hands"—meaning one country after another falls.

You will notice, as occurred in the discussion and debate yesterday over whether we should give aid to the Contras, that always with those opposing aid in trying to resist Communist advance, their territory is always sacred—be it Grenada, be it Nicaragua. Always the conflict takes place in the non-Communist world.

I submit if you play under those rules of the game you lose. The world is finite geographically and eventually the parameter shrinks and that was the Marxist-Leninist strategy. Take the soft underbelly, surround the major industrial powers, United States, Western Europe, Japan, they will fall like ripe fruit, you will strangle them.

They used the same tactics, you will note, in the more limited context of the warfare in Vietnam. They take the countryside, surround the city of Saigon, and then eventually take that and the helicopters come in over the embassies and try to get people out, take them where they can.

In the broader global context they do the same thing. Take Africa, take Asia, take Central America, South America, Latin America, the Middle East, they are doing it, are they not? Is that imagined?

I submit that the domino theory is alive and well. And at some point they leave us, Western Europe, Japan isolated.

Do you think that puts us in a strong position to maintain peace and freedom, security in the world for you,

your children, your grandchildren? I submit not. I submit not. I does not.

No. Politically, geopolitically this would encourage Soviet adventurism throughout the world. So-called wars of national liberation, double-time George Orwell's 1984. They are wars of terrorism. They are the wars of the totalitarian threat of our time.

The Soviet Union whose ultimate contribution to the political history of our time will be what, the Gulag Archipelago, just as the greatest contribution of Adoph Hitler in our time was the holocaust, the holocaust, the two great political cancers of our time.

I think we have a moral responsibility to respond to that and I think we have in a very practical realistic sense in terms of the actual self-interest to respond to it and if we do not we are derelict to a point of being criminally negligent to ourselves, to our country, to our allies, again to our children and our grandchildren.

And I could not let this warning pass, late in the session, with people tired, fatigued, but I could not let this moment go by without at least being able to put one small voice in the RECORD. This is a very bad amendment and it ought to be repudiated, by a large margin, not to show disrespect for its sponsors for whom I have the greatest personal admiration, the Senator from Massachusetts and the Senator from Oregon, but to let there be a signal loud and clear from the U.S. Senate that it understands the realities of our time in terms of the need for, first, great defense preparation and capability and in terms of self-interest of this country and our allies that we cannot, we will not, lose the resolve and the will and that we do in fact have an appreciation of who our enemies are in the world and what they are attempting to do.

I hope some way or other in some small manner my comments this morning will help contribute at least to a better public understanding of the greatest political issue of our time, the survival of this country and the survival of its great traditions and its great institutions and what it means as a model to the rest of the world.

I hope that this Senate will reject this amendment overwhelming so the signal will go out loud and clear, we intend to stand here. If I may quote from a great person of history, not to mix politics and religion not doing that at all, in any intentional sense, Martin Luther said "Here I stand; I cannot do otherwise," and I am simply saying on this issue here I stand; I could not do otherwise. It is a matter of great principle to me, great principle and I hope that the American people will join the President of the United States and others such as this small voice from the junior Senator of North Carolina. This is a bad approach. It is irresponsible and should be repudiated, and I hope my colleagues repudiate it by a very large margin.

Thank you, Mr. President, and I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. HART. Mr. President, I wish to support the amendment offered by the Senator from Massachusetts and respond in part to some of the points and arguments made by the Senator from North Carolina, understanding that those are not personal responses but rather to a point of view which the Senator from North Carolina so well expressed.

Mr. President, we all wish, particularly in this complicated hour, that we could simplify issues, particularly, as the Senator from North Carolina so accurately says, issues of survival, of life and death, and the greatest issue of time, survival from and prevention of nuclear war.

We all wish that somehow we could divide the world that we live in into those who are for strength and those who are for weakness; because if that were the case we could rid this Chamber, the U.S. Senate, the Congress, the political system, of everyone who is for weakness. I certainly want to do that. I do not want anyone in the Senate who is for a weak United States.

The Senator's comments here today and others who oppose this resolution and other points of view seem to believe that it is very easy, very simple to separate the United States, the U.S. Senate, our society, into those who are for strength and those who are for weakness.

Would that were that easy because we would get rid of everyone who is for weakness. We do not want them around. I do not want any Senators here who are for weakness.

That is not an acceptable point of view.

The Senator from North Carolina has described once again why it is not acceptable. No more Chamberlains, no more concessions, no more world wars by mistake or accident or miscalculation. Indeed, Mr. President, that is why we have a nuclear deterrent at all. Unhappy as that situation is, it is brought about by the fact that none of us want another world war by accident.

But that is also the reason why this amendment has been offered. It is to prevent that world war, next world war, by accident. I wish that we could prevent the next world war simply by being strong, if only we could all agree on what strong meant. And that is really the issue here. It is not between those who are for strength and those who are for weakness. All of us can inveigh by the hour against weakness. That is pretty easy. Describing strength is what the task is all about. Not just talking about it, not just being for it, not just pointing out what happens if we do not have it, but getting 100 U.S. Senators representing 240-plus million Americans to decide collectively what strength means.

Well, it certainly means, Mr. President, not blowing the world up by accident. I do not think we are going to be a very strong nation if we have a nuclear war—and there are more ways to have a nuclear war than just disarmament or just arms control. There is the accidental or miscalculated use of nuclear weapons, something, by the way, this amendment and resolution does not address but which must be addressed.

We can be the strongest nation on Earth by anyone's definition and still have a nuclear war by accident. So I would hope that we would leave behind, if I may say, some outdated and sophmoric debates about strength and weakness and start debating about what strength is.

The Senator from North Carolina and others have equally inveighed against isolationism and unilateral disarmament. Well I am against both of those things. By the way, it would be the history of the Senator from North Carolina's own party that might be the best source for what the implications of isolation and isolationism are. But no one in any serious capacity in the Democratic Party that I am aware of is for isolationism. I hear no candidates for the Presidency, the Senate, the Congress, or Governorships, or, for that matter, anywhere else putting forward a case for isolationism.

The Senator can argue against the nuclear freeze movement. I am not here to defend that movement, certainly not to defend everyone in that movement.

But the nuclear freeze movement is not what is presently before the Senate of the United States. It is a specific resolution and amendment that is very carefully worded. And I invite, indeed, I defy, any U.S. Senator to point out in any respect how that resolution and amendment leads to unilateral disarmament. There is no word in it, there is no phrase in it, there is no concept in it, and there is no interpretation of it that can possibly be made to stand for unilateral disarmament.

Now the Senator from North Carolina is certainly within his right to argue against those in this country, unspecified and unnamed, who are for isolationism—that is an interesting debate historically and currently—and for unilateral disarmament. But when he comes to the floor of the U.S. Senate and says, if not says, suggests, that those who support this amendment are for both, then I think it behooves anyone who makes that argument to start naming names.

I certainly would like to know if my support for this amendment categorizes me as someone for unilateral disarmament and if so, I want to debate that. I want the charges made against me in very great detail and I want to respond to them. I do not want vague allegations and accusations about those in the Senate who are for isolation and unilateral disarmament. I have a 10-year record on the Senate Armed Services Committee that I will put up against any Senator of the United States, including the Senator from North Carolina, on the issue of whether he is for unilateral disarmament or not.

The Senator and others talk about our inferiority. I would like to know where all the hundreds of millions of dollars that I and this Senate have voted for national security and defense have gone if this country is now inferior. I want to know the categories. It certainly is not strategic bombers. I want to know, if we are inferior to the Soviets or any other country in strategic bombers, what that country is and where the inferiority lies.

I want to know if it is strategic ballistic submarines. It is certainly not there that we are inferior to the Soviet Union. Is it cruise missiles? No, we are not inferior to the Soviet Union in cruise missiles—quantities, range, sophistication, guidance systems? Where is this inferiority? We could go on and on.

I presume what the Senator is talking about is intercontinental strategic ballistic missiles, ICBM's. Well, where is that inferiority? Size, to some degree warheads. Is that some failing, is that some fault on the part of the Joint Chiefs of Staff and the current and former Presidents?

By the way, this President has been on the job for almost 4 years now. If we are inferior, then I think the buck stops on his desk. He is not running against Jimmy Carter any more. He has had 4 years on his watch. And if he came into office when we were inferior, then why are we not superior now? Well, primarily, in those categories of size of land-based ICBM's, because our own military has consciously year after year said we do not need those sized missiles to deter aggression and to deter nuclear war.

Is that inferiority, when our generals and admirals make a conscious decision not to build missiles as large as the Soviets? Well, it is certainly not a decision made by the politicians. It is a decision made by military experts, and they have made it year after year.

The Senator talks about how we have weakened this country by conscious decisions, by, in his phrase, foregoing improvements. I want to know what those improvements are that we have foregone. They certainly are not the improvements in the hearings on the SALT II Treaty that the Joint Chiefs of Staff approved; the 18 improvements in guidance systems, in accuracy, in modernization that the Joint Chiefs of Staff unilaterally and uniformly said we would be able to carry out and would carry out if we had a SALT II Treaty.

The Senator talks about fear. There is fear in this country. But the politicians did not create it except to invite and continue an unlimited, uncontrolled nuclear arms race. If people are afraid in this country, it is not because politicians have gone out there and told them to be afraid. It is because they have seen the failure of the political system and that has caused them to be afraid.

Now, there are several reactions to fear. One of them we see here today, an effort to stop the nuclear arms race where it is, to stop it. Now, that is a reaction to fear and I think a very valid and intelligent reaction to fear.

People are afraid in this country and they are afraid around the world. They are afraid of what is going to happen when, by design or by accident, the nuclear missiles start being launched.

The Senator tells us we ought to vote against this because of "what if?" He says it is only a bilateral agreement. Well, I suppose we could fashion a freeze that involved the People's Republic of China, Libya, and Mozambique if we had any fear that Libya and Mozambique or indeed the People's Republic of China anytime in the near future was about to surpass this country in nuclear capability. But it is in fact this administration that has been increasingly cozy with the Government of the People's Republic of China. If this President is afraid of the People's Republic of China, he ought to be telling the American people about that. But to defeat and to vote against this resolution because it does not prevent the Government of Mozambique from catching up with us in nuclear technology—well, I need not even comment any further.

The Senator says we have to verify agreements, and I could not agree with him more. Senators do not determine verification, indeed Presidents do not. Uniformed military commanders decide verification.

There will not be a treaty, a freeze, a SALT II, a SALT III, a START or anything else that the Joint Chiefs of Staff do not certify as verifiable with present and projected technology.

We will not have a freeze treaty unless the Joint Chiefs of Staff tell us it is verifiable. We do not decide that. The President does not decide it. The military commanders decide it.

Mr. President, this amendment is both an arms control policy and it is a symbolic statement. It is not sufficient as a policy to control the nuclear arms race. It is certainly one piece of what ought to be and must be an overall arms control policy. But most important, it is a symbolic expression of concern on the part of elected officials and Americans that enough is enough.

If 4 years have gone by in a critical period of weapons expansion and no progress, no progress on arms control, then I think it is time for this deliberative body on behalf of the people of this Nation, and indeed the world, to say enough is enough.

Mr. President, go back to the bargaining table, offer to stop this arms race in its tracks, and let us begin to reinsert some common sense and good judgment into the policy decisions of this Nation's national security.

I hope the U.S. Senate will take that step today.

Mr. COHEN addressed the Chair.

The PRESIDING OFFICER (Mr. NICKLES). The Senator from Maine.

Mr. COHEN. Mr. President, I was interested in listening to the comments of my friend from Colorado, because I serve with him on the Armed Services Committee and have enjoyed that service. One of the statements that he has made, and did make during the course of the last year or so during a quest for higher office, was that "More is not better and less is not better. Only better is better." I can recall time after time where inquisitive journalists would say, "What do you mean by that, Senator Hart?"

He went off into a very rational explanation of exactly what he meant, and it is an observation and a statement that I support, because we have this essential paradox. More weapons will not guarantee security. Fewer weapons will not guarantee peace. So we have to find a way in which we can have fewer weapons in our society, both our countries, and we have to have weapons which in fact do deter each other from launching any sort of a nuclear attack.

So more is not better and less is not better. Only better is better.

I think what is most striking about the debate to date is that some would seek to characterize this debate as: if you are for a resolution in favor of a nuclear freeze, somehow this makes you for peace. If you are against it, then somehow you are for war. That of course is an absurdity. All of us are searching for the right approach in terms of seeking the ultimate goal; that is, a world in which there are fewer weapons, fewer antagonisms, lower risk of any sort of confrontation.

On issues as critical as nuclear arms and world peace, there is no monopoly on reasonable approaches. It is essential for all of us to continue to talk and to listen to each other. That is precisely what we have been doing in this body for a number of months and indeed years, and today we continue that debate.

I think my colleagues who have advanced or supported the concept of a nuclear weapons freeze have done a great service in advancing the debate over nuclear arms, and in focusing attention on the imperatives that confront us. But a valid point should not be confused with a valid policy.

That is what I would like to comment on for just a moment today.

I believe the nuclear freeze movement began and took root in this country because of a clear perception that we were not doing much in the way of a constructive attempt to reach some sort of arms control agreement. We heard comments about let us fire a little blast across the bow. That scared some people. And we heard talk about let us have a limited nuclear war, to see if we cannot confine it to a few countries like our NATO allies. That frightened a lot of people. Then we had a talk about survivability, just get a shovel and dig yourself a hole, put a hole in the back yard, and you will be safe. That caused real alarm for a lot of people.

So the movement took root, and there was this dangerous talk about the possibility, the likelihood, of a nuclear exchange, and indeed the possibility of surviving it. I have watched with interest the movie called "The Day After." I thought it was a fair television movie. But one thing seemed to be lacking in terms of its reality; that is, there was the notion that somehow if you took some supplies and you put them in your cellar, you waited a few weeks, maybe a couple of months—it was not clear from the movie—you somehow could emerge into an atmosphere that was survivable. I, from my perspective, completely disagree with that view. I do not think there will be a survivable world if a nuclear war is ever started. I do not think it will be contained or limited to a few isolated areas or countries.

But the issue today is not whether you think that this resolution is going to produce peace or whether opposition will produce war. The question is how do we move out of our current situation to a much safer world? So I share key objectives with my colleagues who support a nuclear weapons freeze proposal: to lessen the risk of nuclear war, and to reduce our nuclear arsenals.

My colleagues believe the first step toward these goals should be a freeze on the production, testing, and deployment of nuclear weapons and their delivery systems. But I have some serious concerns about this as a policy. I heard some of my colleagues raise the issue this afternoon saying, Well, people are calling your freeze proposal too simplistic." Who is calling it simplistic? It is not the Reagan White House. It is not William F. Buckley, of the National Review. It is not Jerry Falwell of the Moral Majority. It happens to be the New York Times in an editorial which pointed out clearly some of the defects in the nuclear weapons freeze proposal. They said it was simplistic, sloganeering. I do not know that the New York Times suddeny climbed on the bandwagon of Ronald Reagan's quest for a second term.

There was another item that happened to appear in The New Republic. They said as a goal, the freeze was laudable. As a policy, it would be a disaster. That is in The New Republic, not the National Review, not exactly a conservative right-wing magazine. So there has been some serious thought devoted to some of the deficiencies of the approach taken.

I heard the Scowcroft Commission cited this afternoon. It has been cited selectively because the Scowcroft Commission explicitly rejects the freeze proposal for a number of reasons and makes recommendations that we move toward a system of reduced levels of nuclear weapons with our concentration on trying to deploy those that are more survivable against a preemptive attack.

I did not hear that particular part of the Scowcroft Commission report cited.

Let me mention three key points that I think are critical to this debate. First, the issue of verification: there are serious questions as to whether any freeze proposal could possibly be verified. Even though it is called a negotiated verification, we have to point out that President Carter and Walter Mondale's own national security adviser on national television just a few short weeks ago said such a proposal is inherently unverifiable—inherently unverifiable—and to suggest otherwise is to mislead the American people. That did not come from Ronald Reagan. It did not come from Secretary Shultz. It did not come from the national security advisers of this administration. It came from President Carter's own national security adviser.

So there is a serious question about verification.

Second, there is a serious question about mutuality; not whether we should embrace and try to incorporate the People's Republic of China or Libya or anybody else. Let us confine it just to the two major superpowers. If in fact we had a freeze today or indeed a year ago or longer, when this resolution was first introduced, what would that have meant to our European allies? It would have meant that they were frozen out of any kind of a response to this unprecedented buildup of SS-20 missiles now targeted at Europe.

While we have been sitting at a table negotiating, the Soviet Union has been deploying one SS-20 per week—while we have been at the table. When we finally went forward and began deploying the Pershing II, they got up and walked out. So if we had had a freeze a year ago, or indeed even today, the Europeans would have been frozen out of any sort of response to what they saw as not only strategic but also political intimidation.

I might point out that former Vice President Mondale has said that he favors the deployment of Pershing II. I might point out that Mrs. FERRARO says that she favors the deployment of the Pershing II. How is that consistent with a freeze, which they also advocate?

I might point out that the former Vice President says he favors the deployment of the Trident. There are people in this Chamber right now who say they are for a freeze and yet they support the deployment of the Trident. How is that possible?

It is possible, I submit to you, because they recognize that the Trident, and increased capability of our submarine force, is indispensable to the security and the survivability of this country. So they support a freeze but they also support the Trident.

There are others who support the freeze and also support the B-1, for whatever reason.

So we have these very clear inconsistencies.

But coming back to the point of mutuality, it would not be mutual as it applies to our allies, and our allies are of critical importance to us. We have some 330,000 or 340,000 men and women who are stationed in those European countries. We would be repudiating the efforts, the courageous steps that have been taken by our British friends, by our German friends, by our Italian friends and others, were we to have adopted the freeze proposal last year prior to that deployment.

Finally, assuming that you had a verifiable treaty and assuming it were mutual, you would be left with what I believe to be an inherently unstable mix of forces.

What we are trying to do is to encourage the Soviet Union, along with ourselves, to reduce the number of warheads that we have in our respective inventories, and to encourage each side to move away from what are classified as destabilizing systems, such as large, fixed, land-based ICBM's.

If we have a freeze imposed as of today or tomorrow, then what we are left with are either vulnerable systems—vulnerable to a first-strike attack—or we are left with bombers in their third-decade, and aging submarines, which are due to be retired in the early 1990's. That does not build stability. That creates instability. At a time of crisis, you have a situation in which one nation might be tempted in fact to fire upon the other, to attack those old systems or those that are

vulnerable. We have to avoid that at all cost.

What I and 44 other Members of this Senate have done is to suggest another approach. This approach recognizes, yes, there is a valid and legitimate goal to be achieved by those who advocate a freeze. Put a cap on the total number of nuclear warheads right now and start reducing those numbers by rather dramatic amounts in a short period of time. It is called the build-down. It seeks to achieve the very goals, shared by some who advocate a freeze, of allowing the construction of Tridents, of permitting the replacement of the B-52's, and at the same time forcing down the numbers dramatically.

I would simply point out to this body that I traveled to the Soviet Union back in February at their invitation, and I spent 5 days along with my colleague from Delaware, Senator BIDEN, talking with Soviet scientists and Soviet political leaders about the concept of the build-down, which they found quite attractive in its content.

So I think that what we have is a sharing of the goal but a different approach to be taken. I find it frustrating at times to hear either side try to characterize the other: characterize those who advocate the build-down approach as supporting a facade and characterize those on the other side, people calling for a freeze, as calling for unilateral disarmament. That is clearly not the case. They clearly are seeking something that is mutual.

So I hope, Mr. President, that this particular debate can continue to focus on the merits of both policies as such; that we can keep the level of the dialog on that high plane and not question the motivations of the others, recognizing that we are all seeking the same thing: a world with fewer nuclear weapons, and, hopefully, no nuclear weapons eventually; and that as we proceed down the road to disarmament, we do it with caution and with prudence and with an eye toward the safety and security of this country.

Mr. McCLURE. Will the Senator yield for a comment?

Mr. COHEN. I yield.

Mr. McCLURE. Mr. President, I want to compliment the Senator for the statement he has just made. I want to particularly underscore perhaps one aspect of it. That is, I am afraid the term nuclear freeze has become symbolic; that the public sees not the painstaking detail but, as a consequence, as the Senator has laid out, they see only a symbol. I think the Senator is entirely correct, that we need to be very careful to keep the emotional response very low and look at the facts of the case very carefully, as the Senator from Maine has done. I compliment him on his speech. I hope a great many people will heed the advice he has given us today.

Mr. COHEN. I thank the Senator. I yield the floor.

Mr. PELL addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, I am pleased to be a cosponsor of the nuclear freeze amendment being offered by the Senators from Massachusetts [Mr. KENNEDY] and Oregon [Mr. HATFIELD].

In November 1981, convinced that something had to be done to stop the arms race and halt the drift toward nuclear war, I became the first U.S. Senator to endorse the nuclear freeze. In 1982 and 1983, as ranking minority member of the Committee on Foreign Relations, I sponsored amendments to endorse the nuclear freeze. I remain convinced that the nuclear freeze proposal is a practical and realistic way to bring an end to the misguided infatuation with nuclear weapons.

Unfortunately, the administration has condemned the freeze without ever giving it fair consideration. The folly of the administration's unreceptiveness to the freeze has become clear as months and, now, years have passed with no progress in arms control negotiations and no evidence of productive activity in other arms control areas. Although the two sides are now talking at the highest levels for the first time in years, it is not at all evident that either side has any significant proposals in mind which might break the present arms control impasse. I believe that the nuclear freeze could provide the formula to get arms control moving again.

Mr. President, the freeze resolution is not a proposal to simply stop—in effect to beat our nuclear swords into highly radioactive wastes. Rather, it is a carefully thought-through program of arms control which would begin with an effort by the Soviet Union and the United States to decide when and how to achieve a mutual and verifiable freeze. The two sides would have the leeway to decide how to implement the freeze. The negotiators would be expected to give special attention to the deployment of destabilizing weapons—such as a new generation of super-accurate ICBM's—whose deployment would make a freeze more difficult to achieve.

With the freeze in place, the two sides would be expected to pursue major, mutual, and verifiable reductions in a manner which enhances stability.

Thus, the freeze would be a critically important first step toward reductions. The freeze would stop the arms race in place to prepare the way for reduction. A number of proposals for reduction have been offered in recent years. However, I know of no proposal which can match the combination of a freeze and reductions as a rational way to ensure strategic stability while negotiated reductions occur.

Some have expressed the concern that an across-the-board freeze might be very time consuming, if not impossible, to negotiate. Since each control applied under the freeze must be negotiated and must be verifiable, it is clear that some controls might be worked out more readily than others. Both sides should be willing, if necessary, to proceed on a step-by-step basis, ensuring all the while that stragetic stability was maintained. I should point out that witnesses with long experience in negotiating and dealing with the Soviet Union expressed no doubts to the Committee on Foreign Relations as to the feasibility of negotiating a freeze with the Soviets.

Mr. President, many seem to have forgotten that the best national security policy combines defense programs and arms control. While it is true that we need a strong defense to deter our adversaries, it is equally true that arms control must be an integral part of our national security fabric if we are to be truly secure.

In the past, arms control agreements by a succession of Democratic and Republican Presidents have served to curb, and even stop, threatening military programs and activities. With the necessary will and resolve, we and our adversaries could build upon the achievements of the past two decades and build a truly safer world through such measures as the nuclear freeze.

The lack of any prospect for arms control success has strengthened the hand of those in the United States and the Soviet Union with the misbegotten notion that one can "prevail" in a nuclear arms race and, if it comes to that, to "prevail" in a nuclear war. These unrelenting enemies of arms control have succeeded in setting us on a course which holds little prospect other than steadily deepening nuclear peril. It will be no solace at all when they are proved wrong as the rubble is bounced and vaporized in a nuclear holocaust.

We and the Russians had the talent and ingenuity to develop and build tens of thousands of nuclear weapons. Having shown the ability to create a holocaust, we must have the wisdom to turn away from those weapons.

The simple first step we need to take is a nuclear freeze. Next, we must reduce in a simple and straightforward way. Step by step, we must walk away from the terror we have created. There is no greater challenge. But we must do no less.

Mr. SYMMS. Mr. President, I join with those who oppose this nuclear freeze. I would like to go through a few charts here. The reason I do that—and it will take just a little time—is that I am more an observer of

the nuclear arms control negotiations process, since I am a member of the committees that do not deal with it daily. Usually I spend my time with public works, highways, the Finance Committee and Budget Committee and I am not directly involved as some of the other Senators have been with the question. My observation is that most of the real arms negotiations takes place, a great deal of it, right here in this body with different factions and different points of view being argued back and forth. We had a very thoughtful presentation by the distinguished Senator from Maine here a few moments ago. Other Senators negotiate back and forth with respect to where we should go with arms control and arms negotiations. But there is one party that manages to stay out of the area of negotiations among American factions. That is the Soviets. Americans spent more time negotiating arms control among themselves than between America and the U.S.S.R. I think in order to really put this into perspective, I would like to go through these charts to show what they say. These six charts are all official unclassified U.S. Defense Department prepared charts.

What I am saying is that on arms control, as far as what really happens in the real world, most of the discussion takes place in the West. As far as the Soviets and their people are concerned, they have very little to do about it. When Soviet leaders do get into negotiations, they only do it to suit their own elitest needs and their own aggressive aims directed toward unilateral Soviet strategic advantages.

This first chart up here was used on national television by President Reagan on November 22, 1982.

It shows that the Soviets have over 1,000 more missiles and intercontinental bombers than the United States, carrying over 1,000 more nuclear warheads than the United States. The Soviets have about 9,600 strategic warheads carried on over 2,754 delivery vehicles compared to only about 8,500 U.S. warheads carried on only 1,850 delivery vehicles. This Soviet strategic superiority does not even count the military implications of the Soviet SALT violations, and this Soviet strategic superiority would be codified by a nuclear weapons freeze.

I think that is something we should consider.

This second chart shows a 3-to-1 Soviet advantage in ICBM warheads, the most important measure of overall military capability in the world.

If Soviet advantages in missile and warhead accuracy and warhead explosive power are considered, the Soviet ICBM counterforce, first strike advantage rises to 6 to 1, again not even counting Soviet SALT violations or refire capabilities. As I have already stated, a nuclear weapons freeze would codify this Soviet strategic superiority. I do not think that is really what we want to do.

The third chart is the one that really gets to what I said in my opening comments about the so-called arms race. This chart shows very graphically and very clearly that the arms race really has not been an arms race since the signing of SALT I in 1972. The United States has been going backward since 1972, rather than arms racing. The United States deactivated or canceled over 700 nuclear delivery vehicles carrying over 6,000 warheads deployed or planned since 1972. Since SALT I, the Soviets have deployed over 35 new strategic systems, while the United States has deployed only 2. A nuclear weapons freeze would freeze Soviet strategic superiority. The Soviet Union, in contrast, since 1972, has added over 1,000 new strategic intercontinental missile launchers, over 250 new intercontinental bombers, all carrying over 6,000 additional nuclear warheads. Thus while U.S. strategic forces have been declining since SALT I in 1972, Soviet strategic forces have been engaged in the most awesome military buildup in the history of the world.

It is all right for our colleagues here to look at these charts, and I think it is very interesting, in a simple graphic form that we can see, that there really has not been much of an arms race. The arms race has been the Soviets doing the racing and the United States standing on the sidelines and even going backward, through Carter-Mondale administration cutbacks and cancellations of most U.S. strategic programs.

The fourth chart also shows that there has been no nuclear arms race since the mid-1960's. It shows that since the mid-1960's the U.S. nuclear weapons stockpile was one-third higher in 1967 than it is today, and the current yield of U.S. nuclear weapons is today only one-quarter of the peak yield in the mid-1960's.

Chart No. 5 is the summary paragraph of President Reagan's report to Congress on Soviet SALT violations of January 23, 1984. It demonstrates that the Soviets probably would not comply with a nuclear weapons freeze.

I just want to read a few things from this chart for my colleagues. As I mentioned the other night in a debate on the defense portion of the continuing resolution, the administration is going to file with the Congress very shortly the entire Presidential General Advisory Committee on Arms Control Report, the report of Soviet compliance or noncompliance with the arms control treaties since 1958. I want to read from the statement. This is the President's report of Soviet arms control violations given on January 23, 1984:

The U.S. Governemnt has determined that the Soviet Union is violating: One, the Geneva Protocol on Chemical Weapons; Two, the Biological Weapons Convention; Three, the Helsinki Final Act; and two provisions of SALT II: Four, telemetry encryption; and five, a rule concerning ICBM modernization.

In other words, they are illegally modernizing ICBM weapons systems that were prohibited by the SALT II provisions that they have signed and are supposed to be complying with, which they are not.

In addition, President Reagan has determined that the Soviet Union has: Sixth, almost certainly violated the ABM treaty, seventh, probably violated the SALT II limit on new type ICBM's, eighth, probably violated the SS-16 deployment provision of SALT II; and ninth, likely to have violated the nuclear testing yield limits of the Threshold Test Ban Treaty.

The President has confirmed that the Soviets have violated six treaties in nine cases, five of which are unqualified, four of which are violations relating to SALT II.

Mr. President, it is very nice to talk about a nuclear freeze, but it would make more sense if we could see some interest by the Soviets in a verifiable true reduction to equal, verifiable, and stable levels of these very awesome nuclear weapons, which President Reagan and I strongly advocate.

Chart 6 demonstrates that the Soviets lead the United States in intermediate range nuclear forces in Europe by over 1,300 warheads to only 25 for the United States and NATO. A nuclear freeze would also codify this huge, overwhelming Soviet strategic superiority. The Soviets argued continually throughout their INF deployment of SS-20's that their constantly growing superiority merely represented "equality" and "parity" and "balance" But 1,300 to 25 is in no way an equal or balanced level.

I am quoting the Soviets' own arguments. The Soviets have a very elastic concept of equality if that is their definition of it. So, I think it would be a great mistake for the Senate to go on record as supporting a nuclear freeze in view of the fact of the attitude that the Soviets, our adversaries in this situation, have.

Mr. GOLDWATER. Mr. President, as I speak, we have maybe 1 or 2 days left in this session of Congress unless we are called back for a lameduck session, which, in my opinion, would be unfortunate.

I know that many of my colleagues share with me the idea that we need not be in the bind that we find ourselves in; working around the clock night after night; where we find Members of the Congress physically suffering from this, reportedly some even in the hospital. However, I think colleagues of mine in this Congress know

very well why we are in this predicament. Mr. President, this Congress just has not worked. And let me try to explain a little of what I mean without getting into all the details.

For 2 years, we have not worked on Mondays and we have not worked on Fridays except on very rare occasions. What we have done is come to work Tuesday late in the morning; gone out in the early evening; doing the same on Wednesday, and Thursday, and then going out for Friday. In essence, Mr. President, we have worked Tuesday, Wednesday, and Thursday in a lackadaisical, halfway, fashion. To be true, the committee work goes on and it is the most important part of the work of the Congress. However, even committee work is difficult, because of the great proliferation of committees that we have suffered through the past several years. It is simply impossible for any Senator to pay attention to 100 percent of the committee assignments that he has been given.

I told myself when I started this that I would not ramble on with all of our deficiencies but that I wanted to dwell on the No. 1 major mistake that we have made during this Congress: We must go to work Monday morning and work through Friday evening and, if necessary, on Saturday. If we will do this, and I think my colleagues would agree, we could work toward the sensible end of Congress without going through the frightening mental and physical gymnastics that we have been forced to go through at the end of this Congress.

On another point, the majority whip, Senator STEVENS, the other day made a very telling statement when he said to another Senator: "Your problem is your staff has too many typewriters." I agree that this is a part of the problem, too. I do not believe any one Senator could dream up 8, or 9, or 10 amendments a day, the likes of which some of our brethren have done during the past several days. And these amendments were presented on the floor, one after the other, causing nothing but confusion and delay. I have serious doubts that many of our colleagues really know what is in the amendments they have been offering. I think this is something that we also have to give attention to: The number of amendments that are prepared; who prepares them; why they are prepared, and is it really the business of the Senate or the Senator? But those are things that will have to be attended to, hopefully, as we prepare for the next Congress.

Mr. President, I have to admit that a lot of my unhappiness stems from the fact that those of us from distant States just cannot jump in our car or a plane and be home in a matter of an hour or two. It just is not a simple matter for we Westerners to get reservations to go home on these prolonged weekends.

However, I am hopeful that, come the next Congress, we will start to operate as we should; we are people elected by our constituents to come to Washington and take care of the duties of the Congress and the problems of the country.

Mr. President, I yield the floor.

Mr. DODD. Mr. President, first of all I intend to address the pending resolution before us, but I commend my colleague from Arizona for his statement about how we get business done. He has spent many more years here than I have or I probably will. My hope would be that we might return to some order in the legislative process. I have begun to believe I made a mistake by even requesting to sit on authorizing committees. What I should do is serve on the Budget Committee and Appropriations Committee; that is where the business is done. I suppose I made an error by going on the Banking Committee and the Foreign Relations Committee because, although we meet a lot and we work a lot, I do not know what for because we ultimately do it in the continuing resolution, which is hardly the way to legislate. I would be hard pressed to go home tonight or tomorrow, or whenever we get out of here, and explain to my constituency what is in the continuing resolution after we spent almost 48 straight hours on the floor. So I would hope as well, as we approach this next Congress, that we might restore some order to the process so we can bring up matters intelligently, and rationally, and debate them in the normal course of our business, and reach some conclusions on things that are of importance to us. But it really is a rather disappointing state of affairs that we have to conduct our business in the waning hours of the session. Staying up two straight nights and having to deal with 11 appropriations bills in one continuing resolution is hardly the way to be doing the people's business. So I congratulate the Senator on his remarks.

Mr. GOLDWATER. Will the Senator yield?

Mr. DODD. I will be happy to yield.

Mr. GOLDWATER. I am sure the Senator would agree with me that we do not operate here like we would operate in our own businesses or law offices at home. If people think we can, in 3 days, do the work of a country that is now costing over $1 trillion a year to run, they are just plain out of their heads. I am very hopeful that both sides, the Democratic side and the Republican side, can address this problem. It stems chiefly, I believe, from the opinion that the day after you are elected, you have to start running for the next election, so the first job you have is to come back to Washington and start raising money for the next election 6 years away, and this has been going on, and on, and on. I think a lot of people have become convinced that if they do not get reelected, the country is going to pot. I looked it up the other day just for the heck of it and we have had 11,600 Members of this Senate and there have only been 15 that have served more than four terms, only one that has served over 50 years, so the turnover is something that is absolutely normal. And I found that about, oh, 2 weeks, maybe less, after a person leaves this body, they say: "Smith! Smith who? Well, he has gone home, and he is a happy man."

So I am grateful to my friend from Connecticut, a young man with a future ahead of him, recognizes that we have to go to work, just like we do at home. You do not put bread on the table by working 3 days a week, and we do not solve the problems of our country by working 3 days a week—we make them a little worse.

Mr. DODD. I thank my colleague. I could not agree with him more.

Mr. President, my remarks on this pending resolution will be relatively brief. Much has been said today and over the last several years about this nuclear freeze proposal. I do not have any illusions about it. I do not think it is going to carry this afternoon. That is No. 1.

No. 2, it is not going to reduce the already-existing threat of nuclear war, even if it were adopted. I would also suggest that negotiating nuclear arms agreements, negotiating any kind of a treaty is really not the business of the legislative branch of government. It is the business of the executive branch of government. Our responsibility is, of course, to ratify those agreements once reached, to debate them, and to add additions, understandings, or amendments that we think might improve them. So the purpose of this resolution, as I perceive it anyway, is to merely give us an opportunity to discuss the merits of a proposition which may, I believe, contribute to the reduction of nuclear war.

We had an amendment offered the other day by the distinguished Senator from California [Mr. CRANSTON] dealing with the possibility of the acquisition of nuclear weaponry by the country of Pakistan. I opposed that amendment because I felt existing legislation on the books was more than adequate to protect us if we decided to invoke the provisions of law which already exist to cut off military or economic aid to a country that we felt had violated agreements with regard to the acquiring of nuclear equipment or nuclear weaponry.

I think it also should be noted—and I did not make the point at that particular time—that: "Follow what I say, not what I do" in some ways could

have added to that discussion and debate.

We have increased our nuclear arsenal over the last 40 years because of a perceived or real threat from the Soviet Union. We do not want them to enjoy a superiority which would threaten our Nation and threaten peace in the world.

It could be argued as well in various other parts of the world, certainly between Brazil and Argentina, that they perceive themselves as potential enemies and adversaries. So we play sort of catchup all with each other. Certainly, everybody in this body is familiar with the longstanding hostilities between Pakistan and India. They both feel that if they do not maintain some degree of superiority relative to the other, their security would be jeopardized.

So they tell us, when we raise some of these nuclear nonproliferation issues, that it would be helpful if we would follow our own advice and if we would make an attempt to reduce the threat of nuclear war between us and our principal adversary: "Then it might make it easier for us to make the case against nuclear weaponry in our own country."

At any rate, with regard to the nuclear freeze, this proposition before us, I feel that it is worthwhile for a number of reasons, but mostly for the basic and fundamental reason that I believe future testing, production, and deployment of nuclear weapons and the means of deliver them serve to imperil and not protect the vital security of the United States. If we think about the nuclear-freeze proposition in that regard, it makes sense to all of us.

I take the position in support of this resolution not because I believe in unilateral disarmament. I do not. I do not know of anybody in this body who does. I take this position not because I have any doubts or illusions about our adversaries in the Soviet Union. I do not. Nor do I take this position because I question the motives or intentions of those who oppose this proposition. I do not.

I take this position in support of this resolution for one reason only: Because it makes good, common sense—something that always seems to be in short supply in Washington, and I note particularly in these days the absence of that commodity, of just basic common sense.

It seems, as has often happened in our history, the rest of the country seems to be in possession of more basic common sense than their Government; and while they may not have gone into the details of a freeze proposition, they have been out in front of their legislators.

The freeze movement, as we all know, began as a community movement. It did not begin in this Chamber or the other one. It began outside, in the small towns and counties across this country, from one end of the Nation to the other, not just in the New England area, where there has been active involvement. It proves, once again, that there is convincing evidence that the American people are often ahead of their politicians. It is a movement that brings to mind Victor Hugo's famous observation: "An invasion of armies can be resisted, but not an idea whose time has come."

I submit to my colleagues today that the nuclear freeze concept—and I emphasize the word "concept"—and the massive movement in support of it represent just such an idea. To understand why, to appreciate the public's legitimate concerns and deep anxieties, one has only to examine the record of nuclear weapons and their development over the last 40 years.

The story begins in July 1945, when the United States successfully tested the first atomic device in the desert sands of Alamagordo, NM. The results of that test quickly gave rise to the atomic bombs dropped less than a month later on Hiroshima and Nagasaki. The nuclear age was born: two 15 kiloton bombs, the equivalent of 15,000 tons of TNT. As Churchill did on so many other occasions, he may have summed it up best when he reportedly told Truman, "this is the Second Coming, in wrath."

By then, of course, Churchill's warning had come too late. The proverbial genie was out of the bottle. And if any further proof was needed, the Soviets provided it with their own successful atomic testing in 1949. And so the story goes, a story of deadly, if not terrifying, competition between the two nuclear powers.

In 1948, the United States produced the B-36 aircraft, the first intercontinental bomber specifically designed to ferry nuclear warheads to targets in the Soviet Union. The Soviet Union responded with the unveiling of its Bison intercontinental bomber in May 1954.

In 1952, the United States detonated the first hydrogen bomb. The Soviet Union followed suit in 1955.

In 1957, the Soviet Union produced Sputnik and perfected the first intercontinental ballistic missile. The following year, the United States did the same.

In 1960, the U.S. fired the first submarine-launched ballistic missile. The Soviet Union matched this effort in 1968.

In 1964, the United States upped the ante with the development of a multiple-warhead missile. The Soviet Union scored a similar development in 1973.

In 1970, the United States achieved another major breakthrough with the first multiple independently targetable reentry vehicle, better known by the acronym MIRV. The Soviet Union came through with its own MIRV system in 1975.

In 1982, the United States successfully completed testing of the first long-range cruise missile. Recently, the Soviet Union has done the same. I am sure, as we sit here this afternoon, in October of 1984, we can be confident that there are Soviet technicians working around the clock to overcome our lead in that area.

The record to date is clear: Nuclear weapons beget nuclear weapons, and nuclear delivery systems beget nuclear delivery systems. Actions begets reaction. Reaction begets counterreaction. And so it goes, on and on.

Today, because of the nuclear syndrome, the strategic scoreboard looks something like this. You will receive some debate and argument over this, perhaps, but generally I think these figures are accepted.

First, nuclear warheads: The United States 10,500-plus; the Soviet Union, 9,000. Second, strategic nuclear delivery vehicles: The United States 2,000-plus; the Soviet Union 2,500. Third, total strategic force megatonnage: The United States about 3,500; the Soviet Union 6,500.

While this is a large part of the nuclear picture, there is of course more to it. In addition, for example, both superpowers have available some 20,000-plus warheads in their tactical nuclear inventories.

All of this suggests, as George Kennan has observed:

> We have gone on piling weapon upon weapon, missile upon missile, new levels of destructiveness upon old ones, helplessly, almost involuntarily, like victims of some sort of hypnotism, like lemmings headed for the sea.

To underscore this point—and it is worth underscoring—we have only to remember that the total destructive power of all nuclear weapons represents about 5,000 tons of TNT for every man, woman, and child on the face of the Earth. Remember, it was only some 40 years ago when we dropped the first two atomic bombs, which each had a total equivalent of 15,000 tons of TNT. Now we have the equivalent of 5,000 tons of TNT for every human being on the face of this planet.

As we ponder this dizzying calculation, we soon realize that even the term "overkill" does not do justice to the nuclear arsenals amassed by the two superpowers. New terms are needed; maybe, "super-overkill." Or perhaps a new formula, something like NM^2, where "N" stands for nuclear and "M" stands for madness. These designations, I suspect, actually come closer to depicting the reality of the present nuclear age. Moreover, such descriptions or designations stand as a stark reminder that our skills at the negotiating table have been—and con-

tinue to be—far out distanced by our skills in the laboratory.

Yes, there is the Test-Ban Treaty, the Nuclear Non-Proliferation Agreement, and the SALT I accord. And, yes, we are better off with them than without them. But I do not think anyone seriously contends that these arrangements, either individually or collectively, have had a major impact on the nuclear arms race. No, the escalating balance of terror speaks for itself. And the fundamental problem remains the same today as it was back in the forties.

Gen. Omar Bradley, not exactly a shrinking violet as a battlefield commander, viewed the problem in these terms: Speaking on Armistice Day, 1948, he bluntly observed: "The world has achieved brilliance without conscience. Ours is a world of nuclear giants and ethical infants."

Regrettably, of course, General Bradley's words have not prevailed. Over time, such voices have been consistently drowned out by those concerned with mundane matters such as: "Assured destruction;" "counterforce capability;" "deterrence;" "encryption;" "fractionation;" "telemetry;" "throw-weight;" "thermal radiation;" and the whole nuclear weapons lexicon.

But we must not allow the jargon to mask the reality. And the reality is that any nuclear imbalance between the United States and the Soviet Union quickly pales by comparison to the fact that each nation, as I hope I have made clear, has enough weaponry to inflict hundreds of thousands of "Hiroshimas" on the other in the days in which we live. In these terms, then, the only reasonable conclusion to be drawn is that the strategic nuclear forces of the United States and the Soviet Union are, for all practical purposes, equivalent in strength.

Yes, it is true that the Soviets have more missiles and bombers than we do, and it would be foolish to argue otherwise. But it is also just as true that our missiles and bombers can deliver more nuclear warheads, and it would be foolish to argue otherwise.

Yes, it is true that the Soviets have more megatonnage than we do. But it is also just as true that our megatonnage can be delivered with far greater accuracy.

Yes, it is true that our land-based missile system is increasingly vulnerable to the Soviet system. But it is also true that our submarine-based system is pretty much invulnerable and that, should the Soviets ever move against our ICBM's, they would be the recipients of some 5,000 submarine-launched nuclear warheads.

So much for Soviet superiority. I happen to believe it is illusory. It is illusory for the Soviets and it is illusory for us, as many of those who were intimately involved in the Cuban missile crisis recently reminded the American people on the occasion of the 20th anniversary of that historic confrontation. Writing in the September 27, 1982, issue of Time magazine, Dean Rusk, Robert McNamara, George Ball and others who were officially connected, as we will all recall, with the October missile crisis of 1962 jointly offered this observation:

I quote them. They said:

> American nuclear superiority was not in our view a critical factor, for the fundamental and controlling reason that nuclear war, already in 1962, would have been an unexampled catastrophe for both sides.

In sum, they went on to say,

> The Cuban missile crisis illustrates not the significance but the insignificance of nuclear superiority in the face of survivable thermonuclear retaliatory forces.

This is a commonsense assessment, Mr. President, a commonsense judgment, and a commonsense conclusion by three individuals who were intimately involved in that crisis. Similar assessments, similar judgments and similar conclusions lie at the heart of the nuclear freeze movement.

We either can perpetuate the competition in nuclear weapons or try and do something about it. The freeze resolution offers us that alternative.

We either can think in terms of "nuclear warning shots" or proposals to prohibit them.

We either can plan for "limited nuclear engagements" or we can negotiate serious arms control arrangements.

Mr. President, I recognize that while we cannot put the nuclear genie back in the bottle I believe we can at least stop feeding it, and this resolution offers this body the opportunity to go on record as saying that we would like to stop feeding that nuclear genie.

I hope that this resolution will be adopted. Still, I am a realist. I do not believe that is probably going to be the case. But I hope that we, at least in the conclusion of this Congress, go on record by a significant minority if not a majority saying that this is a proposition that should be embraced by people regardless of political party or ideology.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. ANDREWS). The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, we are quite prepared to move toward a vote on our amendment in this particular issue. I am not aware of other Senators who wish to address this particular issue who are supporting our amendment. I have some brief concluding remarks and then I hope that we get a vote.

Mr. President, have the yeas and nays been ordered on this amendment?

The PRESIDING OFFICER. No; they have not.

Mr. KENNEDY. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. KENNEDY. Mr. President, we are in the final hours of this session of Congress. We have debated many issues. I believe no issue is more important than the issue which is before us today. It is the overriding issue of our time and the overriding issue for future generations. It is a simple idea—an idea of challenging the Soviet Union to put in place a freeze on the production, testing and deployment of nuclear weapons, and then move toward mutual and deep reductions. We are asking the President of the United States to put this proposal forward and challenge the Soviet Union to accept it or reject it. Then the American people would have a keen awareness and understanding that our Nation is truly committed to the cause of peace. Putting forth this proposal would send a powerful message to the 230 million American citizens to the 250 million citizens of the Soviet Union, and to the millions of people who live all over the world—in Central America, in Africa, in Asia, and in South America—that the United States is interested and committed to the cause of peace.

The Soviet Union may reject a mutual and verifiable nuclear freeze. But what the supporters of this proposal are asking is really very simple. We are saying to the President: Put this proposal on the table in arms control negotiations. Let us challenge the Soviet Union to this idea whose time has come. As I mentioned, it is simple, but it is not simplistic. It recognizes that we have more than enough nuclear weapons. If the Soviet Union launched a surprise nuclear attack on the United States of America, we would have at least 3,300 nuclear weapons that could be landed on the Soviet Union. We recognize that this would virtually extinguish all life in the Soviet Union. The atomic rubble would bounce all the way from Moscow to Vladivostok. The Soviet Union has the capability to deliver the same destruction upon the United States.

We offer this resolution, Mr. President, not because we approve of what the Soviet Union has done in Afghanistan or Poland; not because we approve of their violations of basic human rights to people who have a keen devotion to their religion who wish to be reunited with their families in other parts of the world. We offer this amendment not because we trust the Soviet Union, Mr. President, we offer this amendment because we believe that a mutual and verifiable nuclear freeze is in the vital security in-

terests of the United States. We believe it must be debated, and discussed by the American people. We are not asking the U.S. Senate to approve of Soviet activity or to trust the Soviet Union. What we are saying, Mr. President, is that only the Soviet Union and the United States have the capability of destroying life on this planet. Let us at least challenge the Soviet Union to recognize that we are the two nations which must face up to this reality.

We believe that a mutual and verifiable nuclear weapons freeze offers a significant and important step forward to stop the madness which is the nuclear arms race.

We have heard a great deal about the question: Are you better off today than you were 4 years ago? I think we should ask the American people: Are you more secure today than you thought you were 4 years ago? Who among the American people would feel greater security from the nuclear arms buildup that has increased the possibility of nuclear holocaust over the past 4 years?

Mr. President, 6 years ago my family and I visited ground zero at Hiroshima. I believe that any person who visited that community where the first atomic bomb was detonated, who saw the area and the pictures, and who talked to some of the survivors of that devastation could do anything less than to resolve that they would do everything in their lives to reduce the possibility of a nuclear exchange, a nuclear confrontation or a nuclear war.

There will be no winners, there will be no survivors.

This is the issue which is before us here this afternoon. The American people are watching. I hope my friends will support this proposal that is submitted by Senator HATFIELD and myself and cosponsored by more than 22 Members of this body and say on the issue of nuclear esclation, "Enough is enough." Let us bring an end to this arms race madness and vote in supprt of our resolution.

Mr. President, we are prepared to vote.

Mr. DOLE. Mr. President, we have not even got around to debating the debt ceiling yet, but I guess that is not too important.

I have discussed with the majority leader if we could work out some little arrangement here where there would be a vote on this amendment. Then I understand there is a budget freeze amendment, and then I understand the Senator from Idaho would like to offer a repeal of the imputed interest. It would seem to me if we can dispose of these three amendments—that means killing them—and then go on and pass the debt ceiling it would certainly, even though we might have to come back Tuesday, be very helpful.

Mr. BINGAMAN. Mr. President, it seems to me that today's debate is really over the goals and objectives which we should set for ourselves in our arms control negotiations with the Soviet Union. Should we or should we not seek to negotiate the most severe mutual and verifiable limits on the modernization of United States and Soviet strategic forces? Those of us who support the Kennedy-Hatfield freeze amendment believe that we should. How many involved in this debate today regret that we ever let the MIRV genie out of the bottle? A ban on the testing and deployment of MIRV's in SALT I would have led to a far more stable strategic balance. Our ICBM's would not be theoretically vulnerable to Soviet attack, as they are now.

Today we are about to let many additional genies out of the bottle, most notably sea-launched cruise missiles [SLCM's] and antisatellite weapons [ASAT's] which we may soon equally come to regret. A great many people in this country are convinced that the world would be better off without a proliferation of new nuclear weapons.

I would be the first to admit that the verification problems posed by some of these new weapons are severe. If the Soviet Union will not accept the measures needed for verification, then we may have no choice but to continue our modernization programs. But should we not make the effort? Should we not take the high ground, and place the burden of world opinion squarely on the Soviet Union's shoulders?

Technology has consistently outpaced our negotiators' ability to control it. And, as a result, we find ourselves in a less and less secure world even as we reduce the number of nuclear warheads in our arsenal.

So the question before this body today, Mr. President, truly goes to the heart of how to control the strategic arms race. Unlike the SALT I and SALT II agreements and the President's START proposal, we would not be seeking to channel the race in new directions and we would not be allowing both sides to continue all their planned modernization efforts. Instead, we would be attempting to close off the new channels of competition and then to negotiate reductions and changes in the status quo, leading to a more stable balance. A mutual and verifiable freeze is really the most conservative approach to arms control. Let us give our negotiators a chance to negotiate the most comprehensive freeze possible with their Soviet counterparts.

Mr. DURENBERGER. Mr. President, once again we are confronted with a fundamental—and crucial—question about arms control: should this body go on record in favor of a nuclear freeze?

As all Senators know, the freeze concept has a great deal going for it. It is a comparatively simple framework for negotiations; it would signal, perhaps once and for all, a genuine commitment to reverse the direction of the arms race; it enjoys, in contrast to other proposals and treaties, a good deal of public support.

Why, then, have I consistently opposed the Kennedy-Hatfield freeze resolution, particularly since I am an original cosponsor of the so-called quick freeze resolution?

Fundamentally, as I have argued from the outset, I see three major problems with this approach to arms control. Let me briefly recap them, but first let me dispose of a couple of arguments which are often raised.

I do not, for instance, oppose the freeze resolution because it is a grassroots measure rather than an idea cooled up by the so-called experts. More often than not, the experts are either wrong or irrelevant, and few of us can take much pride in the record of arms control as it has been practiced by the arms controllers over the past 20 years. While there are some undeniable successes, there are many failures: the prolonged nature of such negotiations as the MBFR and test ban talks; the inability of the Senate to ratify even such a simple and needed measure as the Threshold Test Ban Treaty; and the failure of any agreement, except for the ABM Treaty, to put a significant crimp in the arms race. So to argue that we should oppose the freeze resolution because it is a grassroots idea is no argument at all.

In a related vein, we often hear that we should oppose the freeze resolution because it will prevent the kinds of intragovernmental negotiations and horse-trading which we saw when the build-down idea, which I strongly support, was accepted in return for endorsement of the MX missile, which I strongly oppose. This kind of swap may make sense to politicians, but it doesn't make much sense at all to the people of this country, who recognize that the precise merit of the build-down is to make highly-MIRV'd systems like the MX incompatible with our arms control posture.

I could go on, for there are a host of superficial arguments offered against the freeze. But it is not my intention to say why I am not opposing the freeze. Instead, I want to commment on why I do, in fact, oppose the freeze.

First, and perhaps foremost, an arms agreement cannot be examined in isolation from specific weapons systems and specific verification schemes. It does no good, as the House debate last year clearly illustrated, to talk about an abstraction such as freezing "nuclear delivery systems." That may sound precise, but it isn't, for we have to start defining our terms with respect to existing and potential weapons. The

House tried to do so, and in doing so, it diluted the freeze severely.

For instance, in making the altogether reasonable exception for replacement systems in the event, for instance, that a B-52 bomber might crash, the House opened the door to cheating. In exempting systems which cannot be fully and adequately monitored, a huge loophole was created. Intouching upon dual-capable systems, more questions were raised than answered.

The net effect of this process—a process which is both necessary and inevitable, here in Washington as well as in Moscow and later in Geneva—is to vastly complicate what appears to be a simple proposition. In other words, Mr. President, as both sides come to grips with just what they will submit for negotiations, and as practical questions intrude into the concept, the virtues of the freeze disappear. The result, simply put, is that we are left either with an outcome very different from what is now envisioned or with an agreement which cannot be adequately verified.

A second drawback of the freeze resolution is that it represents a substantial change in the arms control "rules of the road" which have been painfully eked out with the Soviet Union over the past 15 years. The Soviets approach their negotiations—as they approach all their foreign relations—with a degree of inherent conservatism.

Moreover, when we negotiate with the Soviet Union over strategic systems, we are negotiating over very asymmetric and noncomparable forces. For instance, as we all know, some 70 percent of Soviet force loadings are deployed in their land-based ICBM's, in contrast to perhaps 30 percent for the United States.

Given these major dissimilarities, it is tough to reach an agreement on concepts with the Soviet Union, for they necessarily view the strategic arms question from a different perspective.

What this means is that once a basic conceptual agreement on rules of the road has been reached, we violate it at our own peril, for we invite years of painful negotiations over terms like "stability." This is tough enough already, thanks to the emerging technology which the freeze properly seeks to close off. But it will be even tougher if we change out conceptual underpinnings. The experience this administration faced when it proposed its superficially reasonable deep cuts proposal should remind us of that.

Finally, Mr. President, I object to the freeze resolution because in its attempt to be a blanket arms control approach, it throws the baby out with the bathwater. for instance, a freeze on manned bombers—something clearly contemplated by the freeze—would leave us with a force of B-52's and FB-111's. The latter, by most accounts, are comparatively insignificant, since they are restricted in numbers, payload, and range. The B-52's, on the other hand, constitute the mainstay of our manned bomber fleet. It is almost universally accepted in this body that that fleet is facing obsolescence. The only question we debate is whether to replace it with a fleet of B-1 bombers or Stealth bombers.

Imagine, however, that the freeze were to come into effect. We would be prohibited from replacing the B-52's with any aircraft, whether the B-1 or the Stealth. The real issue in the obsolescence of the B-52's is literally the further life of the airframe. We will soon face the time when B-52's cannot fly. And when that happens, we must replace them, unless we want a strategic force posture solely reliant on ballistic missiles—the most threatening weapons systems, by which I mean those most capable of threatening a first strike.

Our choice at such a time will be either to allow ourselves to live with a force posture even more heavily oriented around destabilizing technology, or else to violate the freeze. If, on the other hand, we allow the replacement of B-52's as needed to retain an operational bomber force, we open up the question of verification. How will the Soviets, for instance, know that we haven't altered the aircraft design? And if they can't know, why will they agree to a freeze in the first place? Would we?

So the real issue behind the freeze resolution, Mr. President, is whether some weapons are more dangerous than others, and whether some alteration of the force posture is possibly a good trend. To both these questions, I answer yes.

That's why I support the quick freeze resolution, which focuses on the most destabilizing technology only, such as ballistic missiles, antisatellite weapons, and new nuclear warhead designs. And it's why as a general tenet I think that the build-down can prove stabilizing, for it is a self-policing disincentive against the MIRV'ing of our missiles.

So in conclusion, Mr. President, I intend to vote against this resolution as I have before. I intend to do so because I feel that it would not represent sound arms control as it was translated from concept into reality. But I intend as well to seek passage of the quick freeze resolution as soon as possible, for I feel that something must be done if we are to head off a particularly menacing round in the arms race.

I thank the Chair.

Mr. GRASSLEY. Mr. President, I am a strong supporter of verifiable, negotiated arms reductions. Let me stress the term, "reductions," as my primary goal. The status quo is not stable strategically, and it is not stable diplomatically. The status quo is a nuclear face-off, which, if left as it is, will probably deteriorate. Negotiated reductions offer the only hope in an otherwise hopelessly complex, strategic puzzle.

My distaste for this dangerous status quo situation convinces me that the so-called nuclear freeze resolution would not only be diplomatically suspect. It could, if enacted, also prove to be strategically destabilizing. It would freeze us into astonishingly high levels of nuclear arms. It could freeze the Soviets, psychologically, into the dangerous assumption that they had won a great victory and need not go on to reductions. A freeze on nuclear arms is a freeze on nuclear development and that would mean that newer, less destructive weapons could not be made. A freeze on nuclear weapons would freeze our nuclear strategies into the outdated and morally-suspect military doctrine of mutual assured destruction, set in motion by Robert McNamara in the 1960's. A freeze would freeze us into holding older nuclear weapons which have, in the past, been targeted primarily at populations, instead of military targets.

Freezing, without physical verification assumed in the resolution language, would not necessarily result in real limits. Freezing nuclear weapons development today would have no impact at all on the development of weapon systems designed to destroy submarines. With such anticipated results, it is not a wonder that Dr. Zbigniew Brezezinski, President Carter's former chief of the National Security Council, has called the nuclear freeze a dangerous "hoax."

One of the arguments which I find most unsettling about the so-called nuclear weapons freeze is that is appears to derive from a view of the Soviet Union which is more based on hope than on fact. Allow me to provide a brief overview of the Soviet reactions to various defense actions by the United States. The United States has frozen its defense capabilities before; as a matter of fact, several times in several crucial areas.

First, the U.S. froze deployment of its B-52 bomber force in 1962 and those numbers have dwindled since then. The Soviets have deployed more than 250 intercontinental-range Backfire bombers and will soon deploy the Blackjack bomber.

Second, the U.S. froze deployment of new strategic submarines [SSBN] from 1969 to 1982. The Soviets deployed six new classes of SSBN's involving 62 new strategic submarines during the same period.

Third, the U.S. deployed only one new type of strategic submarine missile [SLBM] during the last 13 years.

The Soviets deployed five new types, involving hundreds of new missiles during the same period.

Fourth, the U.S. deployed no new land-based strategic missiles [ICBM] since 1969—undertaking armament improvements for a portion of the Minuteman force. The Soviets, since 1972, have deployed 12 variants of three highly-improved new systems involving over 800 new missiles and are testing two more new types.

Fifth, the U.S. destroyed large stocks of biological warfare weapons in 1969. The Soviets greatly expanded production, and its proxies have used those weapons against tribesmen in three countries in Asia.

Sixth, in 1980, the United States removed over 1,000 shorter range nuclear weapons in Europe. The Soviets have steadily increased their shorter range weaponry. That litany of horrors raises serious questions about Soviet intention and planning. I will stand by my desire for reductions, not a freeze.

KGB FREEZE AMENDMENT

Mr. EAGLETON. Mr. President, last May I voted against this amendment because I discerned some inequities in its approach and because it did not encompass any new revenues to cope with our colossal budgetary problems. I felt that we could devise a better budget plan and a better revenue plan.

The intervening months since May have only exacerbated the budget crisis. Up to now we have not divined a better plan. Our revenue shortfall is still acute.

I will support the KGB freeze with its inequities and tax revenue inadequacies because I believe we simply must make a significant beginning somewhere on our budget deficits. If I wait for the perfect plan, I will probably never find it.

I realize that we simply must do something significant on the tax revenue side next year. Mr. Mondale, to his credit, has boldly faced up to that inevitability. President Reagan refuses to do so despite the overwhelming thrust of sound economic opinion.

Back to KGB freeze. It is a beginning, a beginning we simply must make.

Mr. SPECTER. Mr. President, once again I am voting for this resolution for a mutual, verifiable freeze on nuclear weapons because I believe it reinforces President Reagan's stated willingness to negotiate, in good faith, with the Soviet Union to reduce the threat of nuclear war.

I believe that it is in our country's best interests to follow a policy which emphasizes negotiation now, under appropriate arrangements, to end the arms race. This resolution, which constitutes an offer to negotiate, is in keeping with the sense of the Senate resolutions, which I have proposed, calling for an immediate summit between our President and the Soviet President on arms reduction. This body has overwhelmingly approved this resolution in May 1982, June 1983, and again on June 20, 1984.

After we voted on this freeze resolution 1 year ago on October 31, 1983, I visited Geneva and spoke with the START delegates. At that time, the Soviets had walked out of the INF talks and, though we did not know it at the time, the START talks were soon to be terminated without a date for renewing those negotiations. Yet even in that discouraging climate, there were signs of hope. Both Ambassador Paul Nitze, our negotiator at the INF talks, and Gen. Edward Rowny, our START negotiator, saw signs that the two superpowers were making some progress on agreement.

The recent meeting between President Reagan and Soviet Foreign Minister Gromyko offers further reason for optimism, and I am hopeful that we will see renewed negotiations early next year.

This resolution does not weaken our defense or our negotiating power. A vote in favor of this resolution does not constitute a commitment against new weapons systems or continued research and development to protect our security.

My vote in favor of this resolution is consistent with my commitment to maintain a strong and secure defense. We now have in place in Europe the Pershings and the GLCM's, strengthening our ability to protect our NATO allies. We have the Trident submarines and the air-launched cruise missiles. And we are continuing our modernization, and will continue until we have a secure, mutual, and verifiable agreement.

The objective of this resolution—a mutual, verifiable freeze—obviously will not be achieved instantaneously. Regrettably, the possibility is present that the Soviets would reject the proposition outright or that the difficulties of verification might preclude implementation of the resolution even if there were agreement on the basic objective. Until those complex issues are answered, the United States must continue to maintain its strength.

I believe there is now rough parity in nuclear arms between the United States and the U.S.S.R. In the nuclear age, I do not believe there is any such thing as superiority. On the issue of superiority versus inferiority, I believe that there is only inferiority in the sense that the Soviet Union is inferior to the United States because the United States could destroy the Soviet Union; and similarly, the United States is inferior to the Soviet Union because the Soviet Union could destroy the United States.

In my judgment this resolution is consistent with President Reagan's pending offers to discuss arms control with the Soviet Union and an affirmative vote would support that general position.

Mr. THURMOND. Mr. President, I rise in opposition to the pending amendment concerning a nuclear freeze. This issue has been debated thoroughly before in the Senate and was found to lack merit. It has gained no merit in the interim.

The supporters of this amendment claim they desire a verifiable freeze, but unfortunately, a freeze would not be verifiable, and experience clearly shows that the Soviets would not abide by it. The Soviets have been violating SALT I, the ABM Treaty, and SALT II, since they signed them. Unfortunately, our means of ensuring compliance are so slow, that it is only recently that we have confirmed the extent of Soviet cheating.

Mr. President, the Soviet Union would love for us to enter into a nuclear freeze because they will exploit it to their advantage. Although the idea of a nuclear freeze has popular appeal, it is a very unwise policy to concede to the Soviets a permanent nuclear advantage.

Mr. President, this amendment also calls for a halt to the production and deployment of the systems that may be used to deliver nuclear weapons. That is most unwise, for it would require that we stop buying planes, artillery, and submarines. This would be disasterous to our defense modernization efforts.

Mr. President, it is in the best interest of our Nation to continue with our strategic modernization programs while urging that Soviets to negotiate reductions in our nuclear arsenals. I urge all of my colleagues to oppose this amendment.

Mr. BAKER. Mr. President, as far as I can tell, the debate on this particular matter is concluded, and I am prepared to make a tabling motion unless somebody else is seeking time to speak. I see no requests.

Mr. President, I now move to table the Kennedy amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. BAKER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is on agreeing to the motion of the Senator from Tennessee [Mr. BAKER] to table the amendment of the Senator from Massachusetts

[Mr. KENNEDY]. The yeas and nays have been ordered and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. STEVENS: I announce that the Senator from Illinois [Mr. PERCY] is necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN] and the Senator from Arkansas [Mr. PRYOR] are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber wishing to vote?

The result was announced—yeas 55, nays 42, as follows:

[Rollcall Vote No. 283 Leg.]

YEAS—55

Abdnor	Gorton	Nickles
Armstrong	Grassley	Nunn
Baker	Hatch	Pressler
Bentsen	Hawkins	Quayle
Boschwitz	Hecht	Roth
Chiles	Heflin	Rudman
Cochran	Heinz	Simpson
Cohen	Helms	Stennis
D'Amato	Humphrey	Stevens
Danforth	Jepsen	Symms
Denton	Johnston	Thurmond
Dole	Kassebaum	Tower
Domenici	Kasten	Trible
Durenberger	Laxalt	Wallop
East	Long	Warner
Evans	Lugar	Wilson
Exon	Mattingly	Zorinsky
Garn	McClure	
Goldwater	Murkowski	

NAYS—42

Andrews	Ford	Metzenbaum
Baucus	Glenn	Mitchell
Biden	Hart	Moynihan
Bingaman	Hatfield	Packwood
Bradley	Hollings	Pell
Bumpers	Huddleston	Proxmire
Burdick	Inouye	Randolph
Byrd	Kennedy	Riegle
Chafee	Lautenberg	Sarbanes
Cranston	Leahy	Sasser
DeConcini	Levin	Specter
Dixon	Mathias	Stafford
Dodd	Matsunaga	Tsongas
Eagleton	Melcher	Weicker

NOT VOTING—3

Boren	Percy	Pryor

So the motion to lay on the table amendment No. 7067 was agreed to.

Mr. DOLE. I move to reconsider the vote, Mr. President.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, we have a few things on the table here. I have just a suggestion which may help us move along.

I have been discussing the debt extension with the chairman of the Ways and Means Committee. He has indicated rather bluntly that if we amend the bill—which is our province, not his—he will not go to conference, he will simply send us back an extension until January 30, 1985. That may not make a difference to some, but it does to others.

I just suggest, I do not know how many other amendments there may be or whether we can finish this debt ceiling measure this afternoon. If not, I guess we can finish it next Tuesday or Wednesday. I know one of the amendments floating around is the so-called repeal of imputed interest. I do not know how many are choosing up sides, but we have been working on a compromise, which has finally been worked out and agreed to by the National Apartment Association, the National Association of Homebuilders, the American Land Development Association, the National Association of Realtors, the National Federation of Independent Businesses, the National Multihousing Council, and the National Small Business Association, which I think is a fairly credible group. If we want to help these people, we ought to adopt the compromise and get it done this year.

Let me say one more time, I cannot control the chairman of the Ways and Means Committee, and he does not try to control anybody here. But if we really want to help the realtors and the homebuilders, then we want to understand that the chairman of the House Ways and Means Committee is saying if we amend this bill, he is not going to conference, he is just going to send us an extension over until the 30th of January. I suggest, while they are taking whip checks and other things, that we keep that in mind. If we just want to vote, have an issue, we can have it. But if we really want to help the realtors and homebuilders, we should adopt this compromise and not try to persuade the chairman of the Ways and Means Committee to take it on another vehicle yet this afternoon.

I believe the Senator from Massachusetts has an amendment.

AMENDMENT NO. 7072

(Purpose: To limit the increase in the limit on the public debt and to provide for consideration of a deficit reduction bill prior to consideratin of another increase in such limit)

Mr. TSONGAS. Mr. President, I have an amendment at the desk. I ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Massachusetts [Mr. TSONGAS], for himself, Mr. BAUCUS, Mr. BIDEN, Mr. GRASSLEY, Mrs. KASSEBAUM, Mr. ARMSTRONG, Mrs. HAWKINS, Mr. INOUYE, Mr. LEVIN, Mr. MELCHER, Mr. EXON, Mr. PRYOR, Mr. PROXMIRE, Mr. EVANS, Mr. MATTINGLY, Mr. ANDREWS, Mr. JEPSEN, Mr. BOREN, Mr. NICKLES, and Mr. LEAHY proposes an amendment numbered 7072.

Strike out all after the resolving clause and insert in lieu thereof the following:

SECTION 1. INCREASE IN PUBLIC DEBT LIMIT.

Subsection (b) of section 3101 of title 31, United States Code, is amended by striking out "may not be more" and all that follows through "outstanding at one time" and inserting in lieu thereof "may not be more than $1,730,000,000,000.00 outstanding at one time".

SEC. 2. CONSIDERATION OF A SUBSTANTIAL REDUCTION IN THE FEDERAL DEFICIT.

(a)(1) Notwithstanding any other provision of law, any concurrent resolution, any resolution, or the Standing Rules of the Senate or the Rules of the House of Representatives, it shall not be in order in either the Senate or the House of Representatives to consider, or to vote upon the question of agreeing to, a bill, a joint resolution, or an amendment that would, upon becoming law, authorize the United States Government to issue or insure a face amount of obligations authorized to be issued or insured under chapter 31 of title 31, United States Code, pursuant to subsection (b) of section 3101 of such title (as such section is amended by section 1 of this joint resolution) prior to consideration of, and a vote upon the question of agreeing to, a Federal deficit reduction bill conforming with the requirements of paragraph (3).

(2)(A) The Federal deficit reduction bill required to be considered in a House of the Congress pursuant to paragraph (1) shall be introduced by the presiding officer of such House.

(B) Time for debate on the Federal deficit reduction bill required to be considered in a House of the Congress pursuant to paragraph (1) (and any amendments thereto) shall be equally divided between the majority and minority parties, and shall be controlled by the majority leader and the minority leader of such House, or their designees.

(3) For the purpose of this subsection, a Federal deficit reduction bill means, with respect to a House of the Congress, a bill of such House, the matter after the enacting clause of which reads as follows:

"LIMITATIONS ON BUDGET AUTHORITY

"SECTION 1. (a) It shall not be in order in the Senate or House of Representatives to consider any bill or resolution making appropriations, if the enactment of such bill or resolution, as recommended by the respective committee on appropriations, would cause the aggregate total budget authority for function 050, National Defense, to exceed $292,900,000,000 in fiscal year 1986.

"(b) It shall not be in order in the Senate or House of Representatives to consider any bill or resolution making appropriations, if the enactment of such bill or resolution, as recommended by the respective committee on appropriations, would cause the aggregate total budget authority for nondefense discretionary activities to exceed $139,800,000,000 in fiscal year 1986.

"(c) For the purposes of this section, budget authority shall be determined on the basis applicable for fiscal year 1985.

"(d) The provisions of subsection (a) or (b) of this section may be waived or suspended in the Senate by a majority vote of the Members voting, a quorum being present, or by unanimous consent of the Senate.

"(e) It is the sense of Congress that the unprecedented magnitude and persistence of current and projected Federal budget deficits must be addressed in a comprehensive strategy to moderate increases in defense spending while continuing the effective constraints on nondefense discretionary programs. To assure the success of such an initiative, the foregoing procedural restraints, in addition to the total aggregate spending limitations pursuant to the Congressional Budget Act of 1974, as amended,

are necessary on budget authority both for defense and for nondefense discretionary programs for fiscal year 1986.

"MEDICARE FREEZE

"SEC. 2. (a) Notwithstanding any other provision of law, the "applicable percentage increase" under section 1886(b)(3)(B) of the Social Security Act for any 12-month cost reporting period or fiscal year beginning on or after October 1, 1985, and before October 1, 1986, shall be zero percent.

"(b) The Secretary of Health and Human Services shall report to the Congress within 45 days after the date of the enactment of this Act with respect to suggested methods for assuring that hospitals will not increase amounts charged to patients who are not entitled to benefits under title XVIII of the Social Security Act in order to compensate for amounts not paid by reason of the limitation under subsection (a).

"LIMITATIONS ON COST-OF-LIVING ADJUSTMENTS

"SEC. 3. (a) Notwithstanding any other provision of law, no increase shall be made in payments or benefit amounts under any provision of law which would otherwise require such increase to become effective during fiscal year 1986 as a result of changes in—

"(1) the Consumer Price Index (or any component thereof); or

"(2) any other index which measures costs, prices, or wages.

"(b) No person shall be entitled to any increase in payments or benefit amounts under any provision of law if payment thereof is denied by reason of this section.

"(c) Notwithstanding any other provision of law, any change in—

"(1) the Consumer Price Index (or any component thereof); or

"(2) any other index which measures costs, prices, or wages,

which would have resulted in any increase in payments or benefit amounts during fiscal year 1986 but for the provisions of subsection (a) shall not be taken into account for purposes of determining any increase in payments or benefit amounts during fiscal year 1987 or any fiscal year thereafter.".

(4) The provisions of this subsection are enacted by the Congress—

(A) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they shall be considered as part of the rules of each House, respectively, or of that House to which they specifically apply, and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

(B) with full recognition of the constitutional right of either House to change such rules (so far as relating to such House) at any time, in the same manner, and to the same extent as in the case of any other rule of such House.

(b)(1) Notwithstanding any other provision of law, the head of each agency of the Federal Government shall take such actions as may be necessary to ensure that such agency is prepared to carry out promptly any provisions of law enacted pursuant to this section that require action to be taken by such agency. Actions taken by an agency pursuant to this paragraph shall include the development of contingency plans for carrying out the programs, projects, and activities of such agency in the event that the amounts available for obligation and expenditure by such agency during fiscal year 1986 are reduced pursuant to this section.

(2) For purposes of this subsection, the term "agency" has the meaning given to such term in section 101 of title 31, United States Code.

Mr. TSONGAS. Mr. President, this is an issue that was to be brought up previously but was always taken down because there was a pressing need by the leadership not to have it resolved in prior discussions. This being the last shot we have at the issue this session, I would like to express my appreciation that we have at last achieved a consensus that it should be taken up.

This is the Federal budget freeze, an issue that we have voted upon before, so I do not see that we have to take very much time discussing it. That is an issue that was brought to us by Senators KASSEBAUM, GRASSLEY, BIDEN, and BAUCUS, and which got remarkable bipartisan and bi-ideological support. I would like to thank my colleagues I have just mentioned and Senator ARMSTRONG, as well, for the hard work he put into developing this amendment with us. In addition, we have as cosponsors Senators MELCHER, EXON, PRYOR, PROXMIRE, EVANS, MATTINGLY, ANDREWS, JEPSEN, HAWKINS, INOUYE, BOREN, NICKLES, LEVIN, and LEAHY. The last time that coalition came together was on commending the Olympic athletes for winning the gold medals, so I suggest that this is an amendment that has a great deal of support.

Mr. President, let me briefly summarize this amendment. It has two objectives: first, to make discussions and voting on a 1-year spending freeze the pending business of the Senate prior to any further increases in the public debt ceiling next year.

In other words, the next time we go through today's process of raising the debt ceiling, a budget freeze would have to be discussed and voted upon so we do not, in essence, freeze the budget here. What we are doing is calling upon the Senate to address that issue on the next round.

Second, the amendment would limit the size of the debt-ceiling increase that we vote today so that the Senate will have to consider the freeze or other action to reduce the deficit early in the next session. The sooner the action the better, as far as all of us are concerned.

Specifically, the House passed a $1.824 trillion debt ceiling limit. This would reduce that by some $94 billion to $1.73 trillion. That would, according to the estimates, run out on April 15 of next year. So we would anticipate a vote in that time frame.

The 1-year spending freeze that we are advocating freezes appropriations at their 1985 baseline levels for fiscal year 1986. Entitlement programs, individual payments, and reimbursements for health providers would be frozen at their 1985 baseline, while allowing an expansion in the baseline for increased caseload and medical care utilization. Federal pay and benefits for both civilian and military personnel would also be frozen.

This freeze is nearly identical to the bipartisn plan, the so-called KGB freeze introduced last spring which was narrowly defeated in the Budget Committee and which had substantial floor support. The only difference between the two is that our amendment would freeze spending in fiscal year 1986. Had we done it last year, we would have saved something like $40 billion this year. That opportunity was lost, which argues for doing it at this time.

The advantage of a spending freeze seems, to me, obvious: There is no clearer message that we could send to the country that demonstrates that we are doing something about the deficit crisis. Unlike the so-called downpayment that we voted this summer, a freeze would have an immediate impact on the deficit rather than resulting in savings 2 to 3 years hence.

Given the magnitude of the deficit problem, I also believe that the freeze is one of the fairest options available for consideration. It would require that nearly all of us share the burden of controlling the deficit. No one would receive more—or less—than they do right now. Individuals newly eligible for Federal benefits would get them, but benefit levels would be frozen for all.

Mr. President, the problems presented by our present and projected budget deficits are well known. High real interest rates, an overvalued dollar, unprecedented trade deficits, and a dramatic increase in protectionist sentiment can all be directly linked to the budget deficit.

There is an additional factor which is potentially even more threatening to our economic well-being: the exploding cost of financing the public debt. The fastest growing item in the Federal budget is not welfare programs, health care, social security, or defense. It is interest payments on the Federal debt. In 1980, interest payments amounted to $53 billion. This year they will be more than double—$111 billion. By 1989, they will again double—to $219 billion.

The problem with this is that it is generating an unstable situation. Just like any household, as we continue to spend beyond our means year after year, the interest payments that we make to finance our ever-growing debt is becoming an increasing share of the household budget. So it is with interest on the Federal debt. And, if it goes on increasing at this rate because we continue to run these huge deficits, we will soon be borrowing money just to pay the interest.

What this situation means is that with each passing year that we fail to take meaningful action to reduce the deficit, it becomes increasingly harder to cut the red ink. We can cut defense spending or domestic programs but not spending on interest because interest payments are an obligation of the U.S. Government that cannot be repudiated.

I am not going to take a lot of time because there are other cosponsors who wish to speak.

If we are not all familiar with the deficit at this point, then I do not know what I can say that will change it. I will not take the time to go through the numbers of the deficit but before I yield to the Senator from Kansas let me make two points.

Mr. President, I address myself now to the conservatives in the Senate. There are 69 of our colleagues who have cosponsored the balanced budget amendment. This in essence is an anti-hypocrisy bill so you never have to go out and worry about somebody saying to you, "Senator, you want a balanced budget amendment which would mean you cut out $200 billion from the deficit but you are not in favor of a freeze. Can you explain that?" I would suggest you cannot. And if you are going to be in favor, as 69 Members are, of a balanced budget amendment, a freeze on the Federal budget is a piece of cake. And to be truly consistent in dealing with the deficit, not rhetorically but actually, I suggest that an aye vote on this amendment is imperative.

Second, let me address the Democratic side of the aisle, or even a few of those Republicans who have been labeled "big spenders" in their time. The Democrats, according to the polls out this morning, are not doing very well. The reason is that even though the country is supportive of our position on things like arms control and the environment, human rights, civil rights, you name it, the country does not believe that Democrats know how to manage the economy, and they have learned that through bitter experience.

Now, whether that is true or not, we can argue, but that is not the point. The point is they really believe that. The label that the President has managed to attach to us is that we are the party of tax and spend, and that label, whether rightly or wrongly, has stuck. The budget freeze is the result of an opportunity given to us by President Reagan who has given us these deficits. So what we are coming along and saying, hopefully, is that the Democrats in this Senate are capable once and for all to say no to spending.

Now, we are all very good at saying no to somebody else's spending. The question is whether we as Democrats have the discipline to say no to spending across the board, because the principle of this amendment is shared sacrifice; we are all going to be hurt by the deficits and therefore we all should participate in reducing them. The budget freeze is the unique opportunity for Democrats to finally demonstrate fiscal discipline, and it astonishes me how little enthusiasm there was in the beginning of this year for this amendment. That has changed. I hope, speaking if I may from a partisan point of view, that when this amendment passes there will be more Democrats than Republicans because I think even though this may be viewed as a conservative measure, in fact it is we Democrats who have the most to gain by introducing the capacity to finally engage in fiscal discipline. It is rather ironic—and this will be the last time I address my colleagues—that as someone who came to the Senate a liberal, and still so considers himself, my last speech in the Senate should be fiscal discipline. I do not think that reflects a change in me; it reflects a change in the fortune of my party and perhaps indicates the directions you all are going to have to go long after I have left.

I yield to the Senator from Kansas.

Mrs. KASSEBAUM. Mr. President, I rise in support of the amendment offered by the Senator from Massachusetts. I do so, Mr. President, because I continue to hope—against hope—that the conscious decision of this body to whistle through the deficit graveyard will—at some point—be reversed.

Earlier this year, a number of the cosponsors of this amendment proposed a total freeze on Federal spending. At that time we argued that there was a need to take immediate, effective action against deficits. We lost that battle on the floor. In lieu of a freeze, this body opted for the so-called deficit reduction down payment.

When the down payment package was debated and approved by this body we were told that the measure would result in $141 billion in deficit reduction over 3 years. The Congressional Budget Office August Economic and Budget Update reduces that 3-year figure to $67 billion. Of that total, $51 billion in deficit reduction comes from tax increases—only $13 billion is achieved from spending reduction.

Compare those figures with the ones cited by the proponents of the down payment. We were told the plan would achieve $77.46 billion in outlay savings over 3 years. That savings has now been reduced to $16 billion. And that is after the measure was changed in conference with the other body to require increased defense savings.

Mr. President, I submit that we have not achieved significant deficit reduction through the enacted legislation. CBO's latest estimate projects a trend line of growing deficits from $178 billion in fiscal year 1985 to $263 billion in fiscal year 1989.

I do not propose to offer a lecture on the dangers of deficits. The economic consequences of uncontrolled deficit spending are well known. What I would like to point out, however, is the magnitude of the challenge we face if we are to get deficits under control.

The current policy spending path we are following is a prescription for economic disaster. Between now and 1989, CBO projects that outlays will grow at a rate of 9 percent a year. Defense spending will increase by 76 percent. Entitlement spending will grow 39 percent. Nondefense discretionary spending will increase by 29 percent—and interest payments on the debt will almost double at a growth rate of 93 percent. Spending is growing—not only in nominal terms—but also as a percent of GNP.

I support the amendment now before us because I believe it incorporates the general approach to effective deficit reduction that will ultimately find its way through Congress. We cannot eliminate deficits through budget plans that are carefully crafted to protect vocal special interest groups. We cannot eliminate deficits by enacting legislation that addresses only discretionary appropriated accounts—or entitlements—or defense spending. It's impossible from a fiscal perspective—and it's impossible from a political perspective.

A politically and economically realistic approach to deficit reduction must incorporate equitable restraint in an across-the-board plan. That's the only type of approach that has any realistic chance of generating both the savings and the votes necessary for success.

In May of this year I cosponsored such a plan. The so-called KGB freeze received bipartisan support from one-third of the Members of this body. That plan would have achieved six times the first year outlay savings and four times the 3-year deficit reduction of the plan we ultimately adopted.

We can continue to ignore deficits. Or worse, we can continue to proclaim that we—as individual Senators—have the political courage necessary to control spending but can't act because our colleagues are unreasonable. We can continue to hide behind the painless political sham known as the balanced budget constitutional amendment. We can continue to find innumerable excuses for our inaction—or we can begin to take action responsibly.

Deficits are not going to go away. We most assuredly are not going to grow out of our fiscal problems. Left alone, the deficit problem will grow, not diminish. CBO's August update makes these facts abundantly clear.

This amendment does not impose a spending freeze. In fact, it doesn't di-

rectly impose spending restraint at all. It is, however, an important initiative.

Adoption of the pending amendment would guarantee early deliberation, and with it the possibility of early action on a comprehensive spending freeze when Congress reconvenes next year. The courage demonstrated by one-third of the members of the body earlier this year gives me hope that we will see greater courage after the November elections.

Mr. President, this is a mechanism to bring us back to a budget discussion that I believe personally has great merit. At such point, 6 months from now, April 15, when we would address the debt ceiling again, then the 1-year budget freeze would be pending legislation on the Senate floor, at which time we would involve ourselves in that debate. But we are worn and weary at this point and certainly it is not our intention to take any further time, other than to say that I think it is a thoughful, constructive approach and I hope my colleagues would join me in support of this very important measure.

Mr. TSONGAS. Mr. President, I ask unanimous consent that Senator BOREN be listed as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. TSONGAS. I yield to the Senator from Delaware.

Mr. BIDEN. Mr. President, I read frequently these days the confident assertion that, after this election, the President and the Congress will take decisive action on the deficit problem. I would like to believe that will be the case. But I think that prudence and past performance indicate that such action would be more likely if we could put in place now a strong incentive to act next spring. And I believe it might be wiser to spell out now the parameters of the action we will take next spring, rather than take pot luck when the spring of 1985 comes.

That is why, Mr. President, I have joined many of my colleagues in offering this amendment today. It will provide the incentive to act next spring. It will do so because it says that we cannot increase the debt limit again until we have acted on a budget freeze. And this amendment does not leave the question of what action to take up in the air. Rather it says that Congress must act on a measure to freeze Government at its fiscal year 1985 level for 1 year.

Nothing could illustrate the critical need to do this better than the budget which Congress has just adopted. Since work began on the budget in February, two major fiscal and economic events have occurred. First, the health of the economy has been demonstrated to be much better than anyone dreamed in February. In other words, conditions have been ideal for natural economic forces to reduce the budget deficit. The other thing that has happened is that the Congress has adopted deficit reduction legislation—clearly the only such legislation that will pass this year.

Mr. President, what has been the impact of these two events upon the budget deficits that now stretch before us?

First, Mr. President, deficits have not stopped rising. The budget now estimates that the deficit in fiscal year 1987 will climb to $208 billion, an increase of $27 billion above the fiscal year 1985 deficit of $181 billion. Those figures make it clear that the deficit problem is not going to get better as time passes, it is going to get worse. With every day that goes by, the deficit problem gets harder to solve. And we have already lost a year's time in putting a budget freeze in place.

Obviously, Mr. President, neither the current levels of economic growth nor the deficit reduction actions by Congress have had a significant impact on the deficits. CBO says that under its revised economic assumptions, reflecting greater economic growth, the deficit would be $2 billion greater in fiscal year 1985 than it had estimated in February, presumably due to rising interest rates. By fiscal year 1987 under improved economic conditions, deficits will be increased by $16 billion over February's estimates. So much for claims that improved economic conditions will lower deficits to a point where they become insignificant.

Deficits have been lowered to some extent because of congressional actions and technical reestimates. In fiscal year 1985 the deficit will now be $181 billion, $14 billion less than CBO estimated in February. In 1987, the deficit is estimated to be $208 billion, $40 billion less than the February estimate. That is not really much of a result from the much vaunted downpayment on the deficit originally proposed by President Reagan.

We can no longer afford to fool around with this problem. Half hearted deficit reduction plans will not work. And even a most cooperative economy cannot save us. We must go back to the idea of a budget freeze and we must lay the groundwork for a freeze now. Our proposal today does that.

Why do I say the problem is critical? Why do I say we must begin now to plan a budget freeze next spring?

Mr. President, the rise in interest rates that we have been experiencing—and that we will continue to experience—is largely caused by the massive Federal deficits which distort credit markets. Those interest rates in turn have exacerbated many underlying problems in our economy: huge trade deficits; loss of export markets; the threat that we will become a debtor Nation; the waste of limited Federal resources on interest payments; the threat of renewed inflation; and a general instability in our financial markets.

The mere existence of $200 billion deficits destroys economic stability. Their damage is incalculable. When one realizes that these deficits are using up most of the net private savings in the country, then one understands the instability that these deficits bring and the urgent need to act.

Over the next 3 years, our deficits—conservatively—will cumulatively amount to $582 billion according to the latest CBO figures. This staggering deficit takes account of the Omnibus Deficit Reduction Act, recently enacted, which will produce $64 billion in deficit reduction over 3 years. That is not much deficit reduction, only a 10-percent reduction. Only a $64 billion decrease in nearly $600 billion in prospective deficits. No wonder the main reaction of the financial markets to congressional deficit action has been negligible.

All of this is to explain why I am convinced that the Senate must act on further deficit reduction if our economic fundamentals are not to become much worse. And I still believe that a total budget freeze is the most effective way to achieve additional reductions in the deficits. Such a freeze should be similar to the one that Senators KASSEBAUM, GRASSLEY, BAUCUS, and I sought to add to the Omnibus Deficit Reduction Act. That freeze would basically hold Federal programs to their fiscal year 1985 spending or benefit levels. It would hold defense activities to the budget that it will have in fiscal year 1985 with no adjustment for inflation. It similarly proposes no cost-of-living adjustments for 1 year for all indexed programs. It would freeze authority for all discretionary domestic programs at fiscal year 1985 levels for a year. It allows no pay raise for Federal employees.

The Congress has only just approved a fiscal year 1985 budget and the 1985 fiscal year is just getting underway. It is now clearly too late to freeze Federal spending at fiscal year 1984 levels through the 1985 fiscal year. Instead, this freeze, if adopted by the next Congress would freeze Federal spending at fiscal year 1985 levels for the 1986 fiscal year. It is difficult to estimate right now what the savings from such a freeze would be if it were put in place for fiscal year 1986. However, the savings would be comparable to those in our original freeze.

Using May calculations, had our budget freeze been adopted earlier this year, the deficit level for fiscal year 1987 would have been set at $162 billion. That would have been $46 billion lower than the budget now estimates the deficit to be. Under the bipartisan freeze, spending in fiscal year 1987

would have been $96.9 billion lower than it would have otherwise been. The 4-year deficit reduction impact of the bipartisan budget freeze would have been $241.8 billion.

Mr. President, what is the problem that may force the Congress—willingly or unwillingly—to return to the consideration of further ways to reduce the deficit? Why am I so certain that, sooner or later, further action on deficits will occur?

The condition of the U.S. economy presents, to say the least, a paradox these days. The economy gives the surface appearance of strength and vigor. Yet, its underpinnings are weak.

According to the Commerce Department, growth in the first quarter of the year was a booming 10.1 percent, while the second quarter was 7.1 percent. Millions of new jobs have been created and unemployment, while high at 7.5 percent, is the lowest it has been in several years. Inflation, measured by the Consumer Price Index, was an annual rate of 6 percent in August. There seems every reason for the American people to be optimistic about their economic future.

But underneath that surface performance, there are troubling signals. Interest rates are extraordinarily high for such a period in our economy. The prime rate is 12¾ percent. Agriculture and real estate are already hurting badly. High interest rates have strengthened the dollar and attracted foreign investment. The result is trade deficits currently estimated to exceed $130 billion this year. There is a surge of imports and a loss of export markets that threatens our otherwise good job creation performance. These deficits are now so high that they threaten to turn the United States into a debtor nation and eat away at our fundamental standard of living. Our financial markets are further distressed by the problem of foreign debt owed to the U.S. banking system. There are recurring crises as to whether interest payments will be met on time. Climbing U.S. interest rates threaten to make these loans wholly unaffordable to developing nations of the world.

And the U.S. financial system is further shocked by distress in some of our financial institutions.

In remarks before the Senate on September 24, the Senator from Texas, Senator BENTSEN, brought to our attention something even more disturbing. The Joint Economic Committee has reestimated the growth of GNP, using more appropriate techniques than those used by the Commerce Department. These figures show real GNP slumping from 7.8 percent in the second quarter to only 2.2 percent in the third quarter. This dramatic fall off in economic activity suggests that the economy could be poised to slip back into recession. Such a possibility is strengthened by the index of leading indicators which fell 12 percent in August and personal consumption expenditures barely grew at all in July and August. Corporate plans for plant and equipment spending have shrunk from 12 percent to almost nothing in the fourth quarter.

As Senator BENTSEN said, it is too early to say a recession is here. But is none too early to begin to take actions to contain any recession that may await us. And those answers must start with Federal fiscal policy and interest rates.

Mr. President, Congress should not adjourn this fall without preparing for early action on deficits when it reconvenes in 1985. It is always difficult to obtain early action in a new Congress. However, it is important to put a budget freeze in place before action begins next year on the budget for fiscal year 1986 and beyond. With such a freeze in place, budget planners can then begin work on long-range plans to eliminate deficits.

It is essential to have the simplified and expedited procedure provided by this amendment in place for action on a freeze next year. Otherwise, all energies may well go toward working a freeze proposal through the committees and floor action at a time when legislation typically moves very slowly. If we do not act now, Congress will not be able to accomplish next year all that must be accomplished if deficits are to be dealt with finally and conclusively.

Mr. President, I should like to emphasize several points. No. 1, is that the Senator from Massachusetts is to be complimented for a whole number of things, but as it relates to this amendment, quite frankly, we had sort of lost hope that we could focus this issue again. This mechanism that the Senator from Massachusetts and others came up with is designed, I would respectfully suggest, to do two things—to immediately focus our attention next year, assuming some Senators are back and assuming I am back—at the most critical time attention should be focused on taking on tough measures. And that is when you have to raise the debt ceiling again. My mother says that there is nothing like looking over the precipice to focus one's attention. We are looking over the precipice. I do not know whether we will pass the debt limit, but we are beyond the stage where we are likely to get a freeze accomplished this year and it is a shame, by the way, because that vaunted deficit reduction package, the rose garden package and the Democratic package and others, but the one we adopted in fact, turned out to be what Senators BAUCUS and KASSEBAUM and myself and others said it would be, little or nothing. And we had a chance to cut from this deficit $45 billion. Senator GRASSLEY made that point over and over and over again during the last debate. We lost that opportunity. But I think in light of the fact that interest rates and deficits went the direction we predicted they would, after that loss, there is more sentiment for this type of approach.

So the first reason is to focus our attention at the appropriate time. But the second reason is—I think all the sponsors share this view—we have a similar perception of human nature. If we get you all to vote for the principle of voting on the budget freeze and you all go home and find out you are not in trouble like you think you are going to be, then we might get you. Courage is not the hallmark of legislators in this country or any other country. We are a timid group by and large. And when in fact we first proposed this idea in my caucus, the Democrats said, "Oh, don't do this, don't raise this. We will get in trouble with the elderly. We will be viewed as having abandoned our commitment to Social Security." And the Republicans, the conservatives said, "Oh, don't do this, your opponent will be able to say you are against defense." And so we had an unholy alliance. We had a President who did not want us to face the music, we had a Speaker of the House who hoped this would not come up because he did not want the Democrats to "lose the Social Security issue," and we had our conservative colleagues in the Senate say that it is bad because it affects defense. Really, what they are all saying in the Cloakroom—Senators, by and large—is that a budget freeze is a good idea. But they are not taking a chance going out there and allow their opponent to say what my opponent is saying in this election. He is saying, "The freeze points out that BIDEN is weak on defense." Then he is saying, "The freeze points out that BIDEN wants to cut Social Security for old folks."

Then he goes into the day center and says, "The freeze points out that BIDEN is against you." The more he talks about being against the freeze and my being for it, the polls go up for BIDEN. The fact is that the polls may be wrong, but one thing is not wrong: The folks like the budget freeze. They understand that in order to get something done, everybody has to be in the barrel—everybody. They are not stupid, I say to the Members of the Senate. They are not dumb. These folks understand. They know that to cut the deficit, everybody has to be in it.

If you say, "We are going to cut defense and we are going to deal with Social Security and social programs and taxes but not touch defense," they know it is malarky; or if you say, "We are going to cut defense but not touch social programs." They are smarter then we are. They figure it out.

For those of you who agree in your heart of hearts that if you were able to cast a secret ballot we should freeze it all, for those of you who believe it—and I realize some of you truly believe it is bad business—but for those who really believe it but are being told by our staffs, as was told by mine, as Senator BAUCUS was told by his, and as most of us were, we were cautioned: "Don't do it." Try it. Just take a little step. Just try. Vote to agree to vote on it next time. Then try it at home. You will find that the folks like it.

You will be able to get off it if it turns out that Senator BAUCUS, Senator KASSEBAUM, and Senator BIDEN, all of whom are up for reelection, join Senator TSONGAS in retirement. Then you will get a message that probably you were right and we were wrong, that it is susceptible to demagoguery, and that can be fatal.

The PRESIDING OFFICER (Mr. EAST). If the Senator will withhold, the Senate is not in order. The distinguished Senator from Delaware is entitled to order in the Chamber, and the accumulated noise from Members and staff make it impossible for him to be heard.

Under the rules of this Chamber, the Senator holding the floor is entitled to be heard. The distinguished Senator has the floor, and the Chair insists that he have the opportunity to be heard.

Mr. BIDEN. I thank the Chair for its courtesy.

I have been around here 12 years, and I have learned that as the noise rises in direct proportion to the length of one's speech, it means that you should stop talking.

I appreciate the Chair's efforts, and I appreciate my colleagues' being less noisy. I understand that you have heard it all before, but I want to conclude by saying, "Try it."

To those of you who really, truly, and honestly believe, examine your conscience; and if you think this is a good idea, try it.

It is a nice, first step on deficit reductions. If it works, you do it and you get away with it at home, which I predict you will be congratulated for and not criticized for. Then, maybe the next time, you will be able to give it a try. Those of you who truly believe it is a bad idea on its merits will vote against it. But my speech is directed to the faint hearted who may want to think about giving it a try at this time.

I yield the floor.

Mr. TSONGAS. I wish the Senator would not look at me when he says faint hearted.

Mr. President, I ask unanimous consent that the names of Mr. MURKOWSKI and Mr. MITCHELL be added as cosponsors of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. TSONGAS. That makes 20 cosponsors, equally divided between Democrats and Republicans.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, I am one of the four original cosponsors of the freeze proposal. As the Senator from Massachusetts has said, since the time we first introduced that proposal, many Senators have joined us.

Let me explain why we have proposed the freeze.

THE DEFICIT

Three days ago, somewhere deep in the bowels of the Treasury Department, the Government's accountants closed the books for fiscal 1984. Once again, the Goverment was overdrawn by almost $200 billion.

And the debt keeps piling up, by $21 million an hour.

At this rate, we will accumulate a debt of $3 trillion by 1990. At that point, almost 50 cents of every income tax dollar will be needed just to keep up with the interest on the debt.

This debt is not an abstract problem whose effect will be postponed for years.

No, it is an immediate problem.

Our huge deficits drive up interest rates, which are already so high that many farms and small businesses are going under and the housing industry is declining sharply.

These deficits inflate the international value of the dollar, making imports cheaper and exports more expensive. As a result, it's hard for American products to compete against Canadian timber, Australian wheat, and Chilean copper. And our economic stability depends on foreign speculators who can withdraw their capital overnight.

What is more, these deficits are inconsistent with an important American tradition.

Until now, each generation of Americans has worked hard to create better conditions for the next generation.

Now, we are running up an enormous tab, and hoping that the next generation can figure out some way to pay it off. This is fundamentally wrong. As Thomas Jefferson said, "We should consider ourselves unauthorized to saddle posterity with our debts, and morally bound to pay them ourselves."

CAUSES

So what has caused this gigantic deficit?

In large part it is caused by a "me first" attitude.

Everyone wants lower deficits but no one is willing to pay the price.

Special interest politics continue to dominate Washington.

And the deficits continue to skyrocket.

What can we do about it?

How do we break this deficit spending psychology?

The first step is simple:

We must make this common problem our highest priority.

And we must work together to solve it.

THE BUDGET FREEZE

That is precisely what a group of us decided to do.

Early this year, four of us—Senators BIDEN, GRASSLEY, KASSEBAUM, and myself—decided that the only way to get control over the deficit is to ask everybody to contribute to the solution. So we proposed a 1-year budget freeze on all Federal spending.

That is right. All Federal spending: The Pentagon is included; social programs are included; every American is included; no exceptions; no sacred cows; no one off limits.

The freeze would have cut spending by $28 billion this year—$23 billion more than the "deficit reduction downpayment package."

And the freeze would set the right tone, of belt-tightening and shared sacrifice.

SUPPORT

Mr. President, we did not propose the freeze as an ideological or partisan measure. It was supported by both conservatives and liberals, by both Republicans and Democrats.

And it was supported by many organizations, including: The U.S. Chamber of Commerce; the National Federation of Independent Businesses; the American Farm Bureau; the National Grange; the National Association of Manufacturers; and the National Taxpayers Union.

In early May, we offered the freeze proposal as an amendment to the budget resolution.

Unfortunately, it was defeated. But, that very day, we promised we would be back again.

So here we are.

The freeze is gaining more and more support, from distinguished Senators on both sides of the aisle: Senator ARMSTRONG of Colorado, Senator TSONGAS of Massachusetts, Senator HAWKINS of Florida, and Senator LEVIN of Michigan.

The amendment we are offering today will move us one step closer to a freeze and, hence, one step closer to a substantial reduction in the deficit.

The amendment simply provides that, when the Senate considers the next debt limit bill, the pending order of business will be the bipartisan across-the-board spending freeze.

Therefore, we are not today debating the substantive merits of the freeze. We are, rather, debating whether we should set the stage for a second, focused, consideration of the freeze.

For the life of me, I cannot understand why this body would not auto-

matically, indeed unanimously, want to do this.

I know the arguments on the other side: it is an election year. Why take a risk? Why get yourself in trouble? We will worry about the problem next year.

But we all know what would happen then. In January of 1985, those same people would say, "Well, we have plenty of time to look at this. Let's slow down."

I am not saying that our across-the-board freeze is the very best solution—although I happen to think it is a good first step. Rather, I am saying that we should force ourselves to face the issue.

The Senator from Delaware is right. It is sad but true. This legislative body, like most legislative bodies, tends not to lead, but to follow. That's natural, because most legislators want to get reelected. But the people want legislators who not only reflect their basic attitudes, but who also are willing to lead.

When I talk about the freeze at home—and believe me, I talk about it all over the State—I always get the exact same reaction; namely, "By gosh, why isn't everybody automatically for it? It sounds like such a common sense first start. Why isn't everybody for it?"

Sure, I get isolated criticism.

Someone might initially say, "What might it do to me? What might happen to my program?" But when I explain that the freeze applies across the board, to every program, they begin to nod their heads in agreement.

Mr. DOMENICI. Mr. President, will the Senator yield for a question?

Mr. BAUCUS. I tell my colleages that the American people will support the freeze.

But, until now, the American people have gotten the same old finger-pointing and name-calling, with Republicans blaming Democrats and Democrats blaming Republicans.

We can't afford this. As Benjamin Franklin once said, "Either we hang together or we hang separately."

Lately, we have been hanging separately.

It is about time we hang together, as a country. Remember, our national motto is "e pluribus unum." I think we are spending too much time on the "pluribus" and not enough time on the "unum."

CONCLUSION

Mr. President, when people read through recorded proceedings of the 98th Congress, they will find millions of words about the deficit. But as Shakespeare wrote, "words pay no debts"

This amendment gives us one more opportunity to do something about the deficit. I urge all my colleagues to take advantage of this opportunity by supporting the amendment.

Mr. President, I yield the floor.

Mr. GRASSLEY addressed the Chair.

Mr. DOMENICI. Mr. President, will the Senator yield for a question?

The PRESIDING OFFICER. The Senator from Iowa is recognized.

Mr. DOMENICI. Will the Senator yield for a question?

The PRESIDING OFFICER. The Chair understood the Senator yielded the floor.

Mr. BAUCUS. I yield the floor.

Mr. DOMENICI. I wish to ask the Senator a question.

The PRESIDING OFFICER. If the Chair can explain its position, the Senator from Montana had yielded the floor, and only the Chair, of course, can grant recognition, and the Senator from Iowa was seeking recognition so I granted him recognition, and the Senator from Iowa now holds the floor. If he wishes to ask unanimous consent that the Senator from New Mexico can inquire of the Senator from Montana, obviously the Chair will be happy to entertain that request. At the current moment the Senator from Iowa holds the floor.

Mr. GRASSLEY. I ask unanimous consent.

Mr. DOMENICI. I only have two questions and they will not take too long.

I thank the Chair. I ask unanimous consent that I be permitted to ask the Senator from Montana two questions.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. I do not know if I was here for the Senator's entire discussion of this proposal. But did I hear him say that this amendment was a budget freeze?

Mr. BAUCUS. No. This amendment has two operative provisions. The first provision shortens the extension of the debt limit increase to hasten the date by which we have to consider the debt limit again. Specifically, it shortens the date to next April. The second provision mandates that, before we vote on that next debt limit increase, we must first vote on the freeze.

Mr. DOMENICI. Am I wrong? I thought the amendment said, in addition to the first point of lowering the debt extension such that it will expire on or about April 15, that before we vote on the debt limit we will vote on a budget freeze. However, by a majority vote of this Senate we can waive any provision of the freeze. Did I read the amendment right?

Mr. BAUCUS. That is correct. But, in that case, there would still be a vote, albeit a procedural vote on the waiver motion.

Mr. DOMENICI. I thank the Senator.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. I thank the President for recognizing me. I would like to first of all remind my colleagues what the general tenor of the debate was here during May on the Kassebaum-Grassley-Biden-Baucus budget freeze, from people on both sides of the aisle. I think the 33 votes we had would have been a majority. But there were so many people saying that we are just a year or two early; we are going to have to do this, but this was the wrong year to do it.

This town is famous and noted for the mañana treatment, that we ought to wait until tomorrow. Tomorrow is not quite here yet, but I think we better start getting ready for it.

I thank the Senator from Massachusetts for his leadership in this area.

This amendment sets the stage and gives us time to anticipate what we are dealing with I have 3 years of speeches on the record about the need for a freeze in the Federal budget. But it has only been within the last 6 months that it really got the attention it should get.

I would like to indicate one thing, Mr. President, that Congress has monkeyed around for the past 4 years in giving this country an additional $600 billion worth of debt. That figure alone, that figure in and of itself, is the true and unadulterated reflection of our planning incompetence.

I am speaking about something larger than just economics, of dollars and cents. I am talking about the inability of this Congress to plan. It reflects managerial incompetence from the board of directors of this Nation. This debt alone is the primary cause of the extraordinarily high real interest rates which threaten sustained growth. The 4-year party is over, and there is one big mess to clean up.

There is no doubt about the fact that dramatic action must now be taken. This sets the stage for mañana's dramatic action.

But to take such action we not only need to change the way we do business, but we also need to rethink the problem in terms of a coherent whole.

In January, for the third consecutive year, I again plan to introduce this concept of a budget freeze. The major obstacle to the budget freeze last year, if you recall the debate during those 3 or 4 hours on May 2, was mostly due to defense budget, and mostly from Republicans. There was very little said from the other side of the aisle, and I appreciate that, in opposition to the budget freeze because of what it might do to programs. The Senator from Massachusetts has demonstrated his leadership in this area against the trend in this country which is in the other direction. He is asking all of us, in this his last speech to this body, to consider the dramatic action that ought to be taken.

The primary focus of the debate on this issue in May was on the defense part of the freeze.

Mr. NICKLES. Will the Senator yield for a question?

Mr. GRASSLEY. For a question?

Mr. NICKLES. Just for a comment. I wish to compliment the Senator for his leadership. He has brought up this issue before. He is bringing it or will be bringing it up next year. I also at the same time wish to compliment the Senator from Massachusetts for his diligence in bringing this before the Senate, as well. I ask unanimous consent to be added as a cosponsor of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, most of the debate last time was on the defense budget. There has long been an erroneous assumption that money means more defense. We think that because we appropriate more, we are going to get more defense. That groundless assumption has long ago been blown out of the water.

I have reviewed exhaustively, through the hearing process, a system by which the military makes too much money spent by the Congress look like it is not enough. The evidence of this is the uncontrollable waste process which pervades the management and administration of our defense budget. That waste process is both systemic and uncorrected. That waste process itself is on automatic pilot. Why else is there evidence of such waste under any stone that happens to be turned? That waste will continue as long as Congress continues to pour more money into the system than the system itself can absorb.

Enough said about the defense budget. The defense budget is only a microcosm of a larger Federal budget. And the problems of the defense budget are a microcosm of those of the entire Federal budget; that is, managerial incompetence.

Mr. President, we must begin immediately to systematically rethink our budgeting and spending processes. They need a major overhaul. We must rethink them through a coherent budgetary rationale. If the budget is a reflection of our planning incompetence, then it is evident that we have failed the course. There is only one thing, Mr. President, that will enable this Congress to control deficits and that is to learn to control ourselves. That is called self-discipline. The only way to self-discipline is to assume the moral responsibilities needed for true leadership.

The alternative to self-discipline is, as has occurred in parliamentary democracies around the world, to turn to external disciplines, such as the IMF, to get their budgets under control—countries like Argentina, Brazil, Mexico. Do we want to—the brave Nation we are—have an external source of discipline forcing us to solve our own problems, or are we going to wait until we have 400 percent inflation, as Israel has, or the terrible imbalance of payments that Argentina and Brazil now have?

If real spending restraint is to be accomplished in the next Congress, a consensus for doing so must be built among the public. We must have the moral support of the American people. This amendment by the Senator from Massachusetts is part of that process of building moral support among the American people. But a prerequisite for this is for us in Congress to provide proper moral leadership so the public will understand the nature of the sacrifice to be shared.

Without moral leadership there can be no consensus and without consensus there can be no solution. It is my belief that the way to create a moral bond between the Congress and the people we represent is to present them with solutions which they perceive as fair. In the case of the Federal budget, then, no solution is fair unless it is handled in an across-the-board manner. Defense must be included in that across-the-board handling. Unless the freeze applies to the defense budget as well, we run the risk of losing the moral support of our people.

I commend my colleague from Massachusetts, Mr. TSONGAS, for his persistence and his leadership in bringing this issue once again before this body. It is an issue which I feel and I think we all must realize will not go away. It will not go away because it makes too much sense. As I indicated, it will surface again next year when I will introduce it on the Senate floor and in the Budget Committee.

I am confident it is what the American people want and what this Congress will deliver next year. I look forward to working on this issue again with my colleagues, Senators KASSEBAUM, BIDEN, BAUCUS, ARMSTRONG, NICKLES, EVANS, and many others who have worked exhaustively to keep this concept an ongoing concern.

Mr. JEPSEN. Mr. President, in order to get control of our budget we have to control spending and the first thing we have got to do is bring it to a standstill.

I have made the analogy of comparing the Federal budget to a car racing down the highway about 90 miles an hour. Suddenly the motor explodes; the car begins to smoke and vibrate. To correct this dilemma, you have to first stop the car immediately and then carefully analyze the damage and make necessary repairs.

Now, our Federal spending budget is out of control, going down the road 100 miles an hour. The only way to bring it under control is to bring it to a stop, analyze it, and then make the necessary corrections. The first step is to freeze, too. That is what this amendment takes a major step in doing. I support it and recommend it.

I thank the Chair.

Mr. ARMSTRONG. Mr. President, I want to join the others who have congratulated and complimented the sponsors of this resolution. I am honored to be a cosponsor. I think it really a fine public service that the Senator from Kansas, the Senator from Iowa, and the Senator from Massachusetts came up with this so-called KGB freeze plan because it so neatly puts into perspective the principal fiscal issue facing the Congress.

The resolution which is before us now, that is the pending amendment, really is not a very drastic approach to the problem. And in consulting previously with the sponsors of it, I actually urged a somewhat bolder course. I have deferred to their judgment. My thought was that we ought to again offer the freeze resolution as such; that at the very moment we are being asked to increase the debt limit that instead we opt to freeze spending, in effect, to put us on a cash basis for a few months. I thought that would be a wholesome thing.

But in defense to those who have taken the lead on this issue, I have agreed to cosponsor their proposal which really is a very, very modest step and a proper one in my opinion. It only does two things. It says, first of all, instead of increasing the debt limit by $250 billion or so, that we will do it by about half that amount, and the effect is to bring the issue back before us on or about April 15. It is symbolically fitting, is it not, that this question should arise again on exactly the day when most Americans will be sending in their income tax return. So probably that is a good idea to bring the issue of increasing the national debt and paying our taxes all on the same day or approximately the same day.

Second, it merely says that, before we vote next time to again impose another $100 billion or $200 billion or $300 billion in debt on future generations of Americans, we at least consider the freeze proposal. It does not say we have to pass it and in fact you do not even have to be in favor of the freeze proposal, although I am, in order to be in favor of the idea of considering the matter at that time.

What we are really talking about in this resolution is precipitating the annual budget crisis—and we have one every year—at an earlier time in the budget cycle, to do it in the spring instead of on the last day of the session or in the last week or last month of the legislative session when we still have a chance to do something about it. So, while this is a modest step, a step which is years overdue, it none-

theless seems to me a very proper one and I hope that we will all vote for it.

The Senator from Massachusetts pointed out there was some political implication to this. I think he is absolutely right although, Mr. President, I noted that he said this would be his last opportunity to speak here in the Senate. And it crossed my mind that it may be the last opportunity some of the rest of us will have as well. Even some of the other sponsors of this resolution may not be back to pick up where we left off. So we may leave behind to the Senator from Iowa and others whose terms will extend into next year this task. But I promise you if I am back I will pick up where we left off and we will carry the banner for the Senator from Massachusetts and others of our comrades and finish this task next year if we can.

Mr. SYMMS. Mr. President, would my colleague yield?

Mr. ARMSTRONG. Sure. I am just rambling on. I would be happy to yield.

Mr. SYMMS. I want you to yield for a question because I had wanted to be supportive of this budget freeze but I have had genuine concerns about the defense modernization program that we have undertaken here in the early eighties.

Mr. ARMSTRONG. You do not have to be in favor of the budget freeze to be in favor of this particular amendment. This is not a vote on the freeze. This is a vote on reducing the amount of the debt limit to a more manageable number, and to bring back the freeze as pending business at that time. So you can reserve judgment on how you feel about the freeze itself.

Mr. SYMMS. In other words, if this passes, we will only be giving a credit extension to the Treasury until the 1st of April. Is that correct?

Mr. ARMSTRONG. About the 1st of April or maybe April 15.

Mr. SYMMS. That would be kind of an appropriate time. It is too bad we do not have elections on the first Tuesday after April 15. We could pass this freeze very rapidly.

I say to my colleague, then, I think that sounds like a good proposition. I did not vote for this last May. But the way this is presented here this afternoon, I compliment the Senator from Kansas, the Senator from Iowa, and others who have brought this forward. That seems like a very reasonable proposition. You are saying we are going to force the budget issue next April if this passes.

Mr. ARMSTRONG. That is it exactly. We are going to have a crisis next year sometime. I say let us have it early in the year when we can still do something about it. I am about to yield the floor unless the Senator from Idaho has other observations. I would like to yield the floor, but as I do so I want to say publicly what I have sometimes said privately. I do not think this budget freeze is all such a good idea. I bet I could think of at least 100 different ways to bring Federal spending under control that would be preferable to me than an across-the-board freeze because the result of an across-the-board freeze is to prevent the increase in spending for worthy programs and at the same time freeze at unrealistically highl levels programs that ought to be phased down or even abolished.

It sort of reminds me of what Winston Churchill said when he was asked about democratic government. He said, "It is the worst form of government known to man except all the others we have tried." The beauty of this notion is not that it is really very scientific, precise, or satisfactory to anybody, but as the Senator from Massachusetts has pointed out and other speakers as well, it is a form of burden-sharing. It hurts everybody a little. It has sort of the sense of rough justice about it. While it really is not very good, it may turn out that next April we will want to adopt something like this simply because it is the only thing that has a chance of passing.

In the meantime, we certainly ought to adopt the amendment prior to voting on the debt limit itself.

Mr. DURENBERGER addressed the Chair.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. DURENBERGER. Mr. President, I came to the floor for other reasons and discovered my colleague from Massachusetts making what he alleged to be his final statement. As I listened to him speak—particularly as I listened to him speak about his party and my party; and send one message on behalf of his amendment to this side of the aisle and another message to the other side; and one up for those up for reelection and one for those not—I was reminded of an event about a year and a half ago before the Senator made his decision not to run in which I was a guest at an occasion in which the Senator from Massachusetts was invited to speak to one of the more conservative business organizations in the United States of America. I came late. I could not find whoever was there from Minnesota. So they happened to seat me at a table with three or four of these conservative business people from the State of Massachusetts. One of the first questions they asked me after they found out I was a Republican was why is the main speaker tonight this liberal Democrat from Massachusetts by the name of PAUL TSONGAS. And I had a little time between courses to tell them a little of what I knew of their Senator. But I finally said, "Why do you not just wait until he gets to his speech and perhaps you will then hear the answer to your question." They waited. They listened, and when the speech was over everyone of them along with most of the people in the room went up to compliment the Senator from Massachusetts on his concern that evening for the future of the country on a speech entitled "The High Cost of Capital to American Investment", an unlikely speech from a liberal Democrat with whom a number of us came to office.

I want to thank my colleague from Massachusetts for being here during my first 6 years in the U.S. Senate. I want to compliment him today for not lecturing us on this particular subject. He has lectured us on foreign policy issues. Those are fleeting issues. Today they are in Central America and tomorrow they are in Africa and somewhere else. But on the issue to which I sense he was committing his term in the Senate, the future of this country and its economic institutions, I want to say that this colleague will be particularly missed because despite the Appalachian liberal Democrat, he came here understanding that unless we cured the economic problems that we have built up in this country over 30 years, there was no way we would solve the impact that those economic problems were having on our social, and now on our political institutions.

Mr. TSONGAS. Will the Senator yield?

Mr. DURENBERGER. I am very glad to yield.

Mr. TSONGAS. I am very moved by what the Senator said. At this point a question: Will you vote with me on the amendment?

Mr. DURENBERGER. That will provide me, if you will, with a transition to a brief set of remarks that says that I will not vote with you on this particular amendment. In fact, I intend to support a motion to table this amendment. And it is not because you have raised before us today the particular standard that I have described in the form of this motion. In fact, I think if you had your choice of where you might make your last speech in the Senate, it might not necessarily be on this particular amendment. It would be on the underlying subject, and the subject is whether or not this body will ever help the people of this country address the problems of debt; the problem of debt.

We look on it as $1.5 trillion going up to $1.8 trillion. Yes; the folks back home in Montana say everywhere that our colleague, Senator BAUCUS, from Montana goes, they all say I am for a freeze. In Minnesota they all think RUDY BOSCHWITZ's 3-percent freeze is a really great thing. That is because they cannot come here and see what it takes to narrow the difference between $925 billion a year and $700 and some billion in revenue. They do not understand that, if you took away all

the programs for the truly needy out of this budget, every bit of welfare, you still would not balance the budget. If you take away all of the tax breaks for the truly greedy in this country, you still would not balance the budget.

So I compliment my colleague from Massachusetts for this resolution as I do all of us who are on the balanced budget amendment, and in an hour or two I might offer the Durenberger-Gorton-Domenici balanced budget resolution. But I am not sure I am going to ask for a vote on it because I have come to the conclusion, as I have listened to these speeches about how well everybody receives these freezes back home, that we are conning those folks out there. We really are. We are trying to get them to believe that what we have been doing in the last 2 weeks is the salvation of the American people. If you look at the Federal budget, a spending freeze covers one part of the Federal budget.

What does it do for the $327 billion in spending that is in the Finance Committee? $30 billion a year we are giving away so that Chrysler can give away $6,000 a year worth of health benefits to the employees, paid for by 32 million taxpayers that themselves cannot even get health insurance in this country. I heard the Senator from Kansas this morning talk about tax shelters and millionaires that do not pay taxes. That is not because of this contract for imputed interest. That is because in the Finance Committee we have built this elaborate accelerated cost recovery system for all kinds of people in all parts of this country that in effect gives the money away: We are not the only sinners. Many of them are folks out there that think it is a good idea that we freeze the budget. This country is almost $7 trillion in debt. We are all spending this debt with this plastic credit card money, and we are sending the bills to our kids.

We are inventing novel things like zero coupon bonds. Sell 7 billion dollars' worth of today's debts to the Japanese, and the bill does not come due till the year 2019, when the 25 year olds are about ready to retire.

That is the dimension of this problem, and it is not just us in this body. I would suggest, yes, we do need to lead by example. We have to be the leader. We have to face the moral issue. We have to get out there and speak. But we have to start telling the folks that the problem is not just here; it is in plenty of other places.

My only fear, I say to my colleague from Massachusetts, if we come here and the first act is to deal with the freeze, I will bet we spend all of 1985 with the freeze. We will debate whether it affects defense modernization, or DURENBERGER's medicare and the elderly, or something else, and forget about the need to get behind those numbers and find out what the role of government really is in health care, really is in national security.

Mr. SYMMS. Will my colleague yield for 1 second?

Mr. DURENBERGER. I yield.

Mr. SYMMS. I appreciate his comments. One thing he said was if we come in here and that is all we can debate, the merits of the freeze and what our priorities are so we can argue the constitutional priorities and defense and other items in the budget, if that is what we are debating in June, July, and August 1985, then we will not be debating raising more taxes. That will be the good thing. That is one of the reasons I will vote for this.

Mr. TSONGAS. If I might inquire, the Senator has made a very strong speech. If he could explain, when he goes home and says, "I am for a balanced budget amendment, but I am not for a freeze," has anybody in the audience ever asked the question about how that could be possible?

Mr. DURENBERGER. Yes. In fact, I have gone through that experience with several other related examples.

I say two things about being for the balanced budget constitutional amendment.

One, I was opposed to it for my first 4 years here, and finally in desperation, because I could find little else that I thought woud help the process, I said I would endorse the constitutional amendment. I did that because I thought it gave us in this body the same kind of breathing space that if Michigan and Montana were able to send us that 35th and 36th vote in favor of a constitutional convention, or whatever, it would give us 4 or 5 years of breathing space to finally do something sensible around here relative to the decisions we make and how they relate to the debt.

Yours does not. Yours says that the first thing next year, or somewhere between then and April 15, we are putting this freeze in place, and I am not sure it would accomplish the same end.

Mr. TSONGAS. The answer is to call on the President to submit a balanced budget, but he cannot. The point of this amendment is for us to do something that will stay across the board.

Mr. DURENBERGER. Mr. President, I yield the floor.

Mr. DOMENICI addressed the Chair.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I will not take very long.

First, I compliment those who have worked on this amendment. Obviously, we need all kinds of ideas about how to make our process better. But at the same time, I would like to tell the Senate what I think about the amendment and to explain it as I see it. If I say anything that is not correct, I certainly would expect those who proposed it to get up following me and correct me. I apologize in advance if I do that.

Let me suggest that there has been some talk today about this being a 1-year freeze on budget authority for the Government of the United States. This is not what the amendment says. There is nothing in this amendment concerning a 1-year freeze of budget authority for domestic and defense spending.

But, it is ingenious because people can go home and say they voted for a freeze.

This is no vote for a freeze. This is a vote to change the process now so that next year, around April 15, those who want to vote for a freeze get a chance to do so before the next extension of the debt limit.

Is that a freeze?

Does my good friend from Arkansas want to offer a freeze next year on the debt limit? I do not know anything that would preclude him from offering it. This amendment would require the President of this institution to submit a budget freeze to be voted on when we bring up the debt limit the next time.

That is good. It is commendable. And it can all be accomplished by a simple majority vote.

We will come down here and debate it all over again because we are not precluded from amending that proposal. There is nothing in this amendment that says somebody else could not offer their freeze proposal. There is nothing in the rules of the Senate that say you cannot offer this freeze proposal next year. All the amendment is, is a change in procedure. It is not a budget freeze. It says, "We get to offer this freeze next year."

What is this freeze? It is a rule that says if budget authority exceeds a certain figure, you can raise a point of order. Then right along side of it, it says, "However, you can waive it and you can amend it by majority vote."

So it seems to me that those on this side of the aisle would get up and say, "The President is wonderful; he is for restraining spending. We do not even want to see his budget before we ask the Presiding Officer to submit a freeze on April 15. We do not want to see anybody else's proposals. We want to vote for this process about April 15 of next year. It is sort of a superduper, 1-year procedure that says we are bound by two provisions: One says the budget authority of domestic programs is frozen, and the second says the budget authority for defense spending is frozen. If you bring anything to the floor that exceeds those levels, it is subject to a point of order."

If this amendment passes, we are going to debate that next year when they bring it up on April 15.

"You can amend it then. You can offer your budget then."

All we are doing today, it seems to me, is deciding that next year we want to guarantee an opportunity to debate a freeze. I submit that it is a lot different than saying we are voting for a budget freeze tonight.

I assure you that I know of no way that anybody could preclude any Senator from offering a freeze amendment next year to the debt limit bill. If you would like to make it April 15, amend the bill so you get a vote on a new debt limit next April 15. We all have a chance to offer things to the debt limit whenever it is brought up, including this idea of a freeze.

I recommend this to all of those who would like to go home and say that they voted for a freeze, and that a freeze is really a wonderful thing. They say that if the American people could just have a plebiscite out there they would vote for a freeze.

I do not think it is the best way to handle the affairs of this Government. I am not prepared to freeze defense spending today at $292.8 billion without a full discussion of what that really means.

I am not about to vote for a procedure which makes us vote on that next year prior to the debt limit. I think we have ample time to look at the defense budget and see if $292.8 billion, which is this year's level, is the right level for next year.

I think we have to restrain Government on the domestic side by many, many billions of dollars. I am a long way from thinking the fairest policy for the American people is to freeze discretionary accounts.

You can say that, but that is not the best and fairest way.

I repeat, it may be that you will find the Senator from New Mexico a proponent of the freeze. Maybe that is the only thing we can do. It is simple; that is one of its qualities. In fact, that is a great quality, because we may have to restrain this deficit by simple concepts rather than very complicated ones.

But I submit to you when you get around to freezing all the accounts of Government, including the entitlements, it is not fair. It is a long way from being fair.

It is not fair because you are freezing those who really need the help of Government along with those who do not. I believe you ought to exclude and exempt all means-tested programs right off the top. You ought to look at the rest of the spending programs; those that least need the help might even have to get cut instead of just frozen.

I am not sure that 1 year is going to do all that much damage, Mr. President. I will tell you that many notions of fairness consist of 2- or 3-year freeze, and I have done good numbers on that. A freeze on domestic programs for a couple of years would hurt those who need help most in this country and not those who need help less. So while it has the flavor of fairness because, as somebody said, it is all in one barrel, we had better be careful, because it is simple, and because it has a chance of passing.

It may pass because it sounds like, "Boy, isn't that great for everyone"—I tell you, when the people start to understand what freeze means for all of those people that have programs that need to grow a little bit, like social security or medicare or medicaid, we will hear about it. They will see that they are getting treated just like all the other programs that we pay for—water programs, all the other things that are in the discretionary and entitlement accounts, and we will hear about it. I think we will never pass the laws to make the freeze effective.

I will summarize it once more. I do not think the time is now, on a debt limit bill, to set preferential treatment for a vote next year on a freeze proposal which is purely procedural. We will vote on a process next year—not now. And everybody here has the right to offer a freeze proposal next year.

In fact, they can offer anything they want. But at least we ought to wait to see what the President's budget is. We ought to see what the Senate Budget Committee does, what the House does, and what other people think we can do after we have met with the President. We ought not kid ourselves by giving a preferential right to vote on a new process for 1 year, we ought not kid ourselves and say this is a freeze. It is not politically the right thing to do. We cannot say that we ought to do it now because it has a great quality of fairness and the people, if they just understood it, would love it.

I do not think that is even relevant. What is relevant is whether you want to establish a new process, here today, of voting on a budget freeze prior to the debt limit or not. I do not think we know enough about that and I think there are a lot of things we ought to look at.

In conclusion, Mr. President, for those who wish to take the opportunity, they can produce budgets for the Senate and vote on them next year many times. You can vote on a debt limit, you can vote on it as part of the process, you can probably take the first bill that comes down the pike next year and offer this new, superduper 1-year process for resolving the deficit problems of the country. Frankly, I think we ought to deliver a clean extension of the debt limit and take this matter up next year in due course.

I yield the floor, Mr. President.

Mr. MATHIAS addressed the Chair.

Mr. TSONGAS. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. The yeas and nays have been called for. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. TSONGAS. Mr. President, I yield to the Senator from Nebraska.

Mr. EXON. I thank the distinguished Senator.

Mr. President, I am a cosponsor of this amendment to make a spending freeze the first order of business prior to the consideration of the next debt limit increase because I feel the amount of attention being given to these routine increases in the debt ceiling is shamefully inadequate.

I have listened with great interest to my friend and colleague, the chairman of the Budget Committee [Mr. DOMENICI]. I recognize some of the complaints that he has tied to this measure have some degree of accuracy. You could complain about that if you wanted to complain about this particular amendment. Nevertheless, I think it is clear that, for far too long, we have done little, if anything, about restraining debt increases.

It is interesting to note that here, when we are considering a debt increase in the U.S. Senate today, we are already talking about what we are going to do on the next increase that the President is going to request in an extension of the debt ceiling of this Government.

Not too long ago, debt ceilings were temporary. Today they are permanent. It is as if Congress has given up the hope of ever coming to terms with deficit spending.

I am no born again deficit cutter. As a small businessman in Lincoln, NE, I had to make the books balance at the end of each year, as Governor of the great State of Nebraska, I had to struggle each year with the State legislature to produce a constitutionally required balanced budget and as Senator, I have repeatedly come to this floor to plead the case of fiscal conservatism and realism.

This proposal will force the Senate to consider the budget situation along with the debt ceiling level. It will provide an opportunity to finally address the deficit in a meaningful way early in the 99th Congress.

What is wrong with that?

An across-the-board approach allows all groups to be treated fairly. It is an approach that stresses shared and equal sacrifice.

I think that the American people are willing to pitch in to reduce the deficit. The benefits of less spending will certainly be shared by all. However, the American people are unwilling to see one sector of the economy chosen as the scapegoat of overspending. Some say that the budget can be balanced on the back of the Social Security system. Others say that the budget

can be balanced on the back of the Pentagon, and others say the budget can be balanced on the back of the Welfare recipient. We all know that such claims are politically unrealistic, economically untrue, and morally improper.

Mr. President, the problem is so immense that the only solution is to restrain all spending increases. I firmly believe that the concept of fair treatment will garner the necessary political support to restore fiscal sanity to the Federal Government.

Perhaps a freeze in military spending is a false economy. But that can be addressed when this matter is on the floor of the Senate early next year. I personally believe that given our international and contractural commitments, that a sustainable defense rate of growth is necessary. However, I can say with confidence that there is plenty of room for savings within the Department of Defense. This proposal will facilitate such a debate and much needed examination.

This amendment is a fair, workable means to make reductions in Federal spending a top priority. I am happy to be a part of this initiative and I strongly urge my colleagues to vote for the adoption of this amendment.

Mr. CHILES addressed the Chair.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. DOLE. I yield to the Senator from Florida.

Mr. CHILES. Mr. President, I am going to support this amendment because I think it provides us a safety valve on deficit reduction.

This amendment limits the increase in the ceiling on national debt to an amount that will only run through next April. The President is required under current law to submit his budget by the end of January, so we will know by then whether he is serious about taking on the deficit. The budget committees are required to report a budget resolution by April 15, so we will know whether the Congress is going to take on the deficit.

What this amendment says is that by next April we must take serious action on the deficit, action that is long overdue. In fact, it is 3 years overdue.

I want to be clear that I do not support the particular policies of the freeze described in this amendment. It would force cuts in defense programs so deep and so soon that it would disrupt our Armed Forces. It would not merely put things on hold.

In addition, it freezes out cost-of-living increases entirely for elderly and disabled people receiving Social Security, veterans' benefits, or Federal retirement. It would prohibit inflation adjustments for critical appropriations like education, biomedical research, veterans' medical care, and law enforcement. It would force personnel cuts in law enforcement and the space program.

At the same time as forcing these deep sacrifices on the spending side of the budget, it would do nothing on the revenue side. It would not even freeze out further scheduled tax cuts which have not yet gone into effect.

But, fortunately, this amendment would not enact that freeze. It says that we must act on some deficit reduction. I think then we could start with this KGB freeze as pending business. It would at least force us to bring up the alternatives that could generate serious work on much-needed deficit reduction.

Mr. President, I take this opportunity to say that I support this partially because Senator TSONGAS is a principal sponsor. He has demonstrated the kind of residue that is tremendously important if we are ever going to get this done. He has always favored people programs, the social programs needed so much by so many. But at the same time, he has recognized that if we do not control this deficit, we are not doing anything to help the poor and the disadvantaged; we are instead putting a tremendous burden on their backs. And the only way that we can make fair choices on which programs are good, and how we defend this country, is to reverse the trend that is making interest payments on the national debt, the fastest-growing element in the Federal budget.

I applaud Senator TSONGAS for demonstrating that you can be a moderate on social issues while at the same time be a fiscal conservative.

While Senator TSONGAS is not going to be in the Senate next year, I trust he is going to be out in the countryside speaking this same message. I think it is a message that both sides need to hear and everbody in the political spectrum needs to hear, regardless of what program they favor. If we do not take control of this budget, we cannot rationally debate the deficit.

The Senate has profited from the thoughtful approach Senator TSONGAS has always taken during his all too brief tenure in the Senate. He has, without question, paved the way for a new generation of perspectives on the needs and problems of the Federal Government. His service here has been refreshing and substantive, and I commend him for it.

Mr. President, I urge adoption of the amendment.

Mr. DOLE. Mr. President, I suggest that managing the debt ceiling is not fun and games, although I know a lot of people have fun with it, a lot of people like to load it up. I think I have done that a time or two myself. I suggest that there is some hope, if we can table this amendment, we might be able to vote on final passage of the debt ceiling before 5 or 5:30 today. There is at least one other amendment on imputed interest. We hope we can get the principals, the Senator from Idaho, the Senator from Montana [Mr. MELCHER], myself, and others to try to work out some agreement to put that on another vehicle.

However, again let me say as clearly as I can that I understand there is a lot of interest in this amendment. It may have some merit.

Let me repeat what I was told on the telephone a couple of hours ago by the chairman of the Ways and Means Committee. He said, "If you amend the debt ceiling"—and he has the authority to do this on the House side—"I am not going to conference." He is going to send us an extension that expires January 30, 1985. So I hope that we can at the appropriate time table this amendment and then go on and pass the debt ceiling so the Government can carry on its normal business transactions.

Mr. LEVIN. I am pleased to cosponsor this amendment because it puts the emphasis where it should be when it comes to deficit reduction—it should be one of the first orders of business when the Congress reconvenes next year. We all know why we have to act soon and in a meaningful way. Huge deficits at the same time we have an economic expansion will push interest rates even higher and eventually cut short that economic recovery. Continued recovery is especially important in my State of Michigan where unemployment still exceeds 10 percent. I would like to clarify a point about this amendment for the record with its sponsor.

Is the freeze, which this amendment makes the pending order of business when we are next called upon to raise the debt ceiling, subject to amendment? I believe that in order to reduce the deficit we are going to have to have some sort of spending freeze. I have favored the Hollings type freeze so I do not agree in every respect with the formulation recommended by this amendment. Will attempts to modify it be in order under the terms of this amendment?

Mr. TSONGAS. Yes; the freeze recommended by this amendment would certainly be amendable when it became the pending order of business upon the next consideration of the debt ceiling and its final form would determine, of course, whether Senators, even its cosponsors, would vote for it.

Mr. BAKER. Mr. President, I am sympathetic to this and other amendments. I have just been talking to two Senators who are interested in a matter of great interest to me on another subject, but I have just got through the unpleasant chore of telling both of them that I hope that a particular amendment will not be of-

fered to the debt limit because I feel obligated to try to get this debt limit bill passed, get it out of here, and not have to go through the process of sending it back to the House and all that entails.

I have requested the chairman of the Finance Committee to try to keep this thing clean, so once more when Members have exhausted their debate on this particular amendment, it is my purpose to move to table. I do not now do that, Mr. President. I see one Senator on the floor, and perhaps he wishes to speak—two. But let me say that as soon as the debate has run its course, I would like to make a tabling motion and get a vote on this amendment as soon as possible.

Mr. HOLLINGS addressed the Chair.

The PRESIDING OFFICER. The Senator from South Carolina is recognized.

Mr. TSONGAS. Will the Senator yield?

Mr. HOLLINGS. Yes.

Mr. TSONGAS. Mr. President, I believe we have only one more speaker on our side, and so we would be prepared to vote at, say, 4:15 p.m.

Mr. BAKER. That will be fine. I thank the Senator from Massachusetts.

Mr. HOLLINGS. Mr. President, I thank the distinguished Presiding Officer and the majority leader.

I have prepared an amendment, Mr. President, and I ask unanimous consent that it be printed at this point in the RECORD.

There being no objection, the amendment was ordered to be printed in the RECORD, as follows:

At the appropriate place, add the following new sections:

"SEC. —. CONGRESSIONAL COMMISSION ON THE DEFICIT.

The Congress finds that large Federal budget deficits have serious economic consequences, including high interest rates, the possibility of recession, record trade deficits, high unemployment, and declining housing and agriculture sectors;

The Congress finds that there is a consensus in the Nation and in the Congress that such deficits should be reduced and that the budget should be balanced as soon as possible;

The Congress finds that election-year politics forbid any bipartisan solution to the deficit problem prior to November 6;

The Congress finds that bipartisanship will be the only way to wrest the Nation from this dilemma;

The Congress finds that the next President will want and should want any consensus solutions and recommendations prior to submitting his budget for the fiscal year 1986; and

The Congress finds that the window of opportunity for a bipartisan, comprehensive, long-term approach to the deficit predicament will be short-lived requiring that the President and the Congress begin working together immediately after the convening of the 99th Congress and the submission of the President's Budget: Now, there, be it that

(a) There is established a Congressional Commission on the Deficit (hereinafter referred to as the "Commission").

(b) The Commission shall be composed of eighteen members, who shall be appointed as follows:

(1) three members of the Majority Party of the Senate shall be appointed by the Majority Leader of the Senate;

(2) three members of the Minority Party of the Senate shall be appointed by the Minority Leader of the Senate;

(3) three members of the Majority Party of the House of Representatives shall be appointed by the Speaker of the House of Representatives;

(4) three members of the Minority Party of the House of Representatives shall be appointed by the Minority Leader of the House of Representatives; and

(5) six members of the general public who are not employees of the Federal Government and who are experts on fiscal or economic matters (or both), three of whom shall be appointed by the Majority Leader of the Senate and three of whom shall be appointed by the Speaker of the House of Representatives.

A vacancy in the Commission shall be filled in the manner in which the original appointment was made.

(c) The Commission shall elect a Chairman from among the members of the Commission.

(d) Members of the Commission shall serve without additional compensation for the performance of their responsibilities on the Commission. Members appointed from among the public shall be reimbursed for travel expenses, including per diem in lieu of subsistence, in the same manner as authorized by section 5703 of title 5, United States Code, for persons in Government service employed intermittently.

(e) The Commission shall consider all relevant fiscal and economic matters regarding the causes of Federal budget deficits, and shall consider alternative solutions to the reduction of such deficits.

(f) Not later than January 10, 1985, the Commission shall submit to the President a budget plan for Fiscal Year 1985 through 1990 which is projected to result in a balanced Federal budget not later than Fiscal Year 1990. The plan shall include such specific recommendations for alterations in spending and revenue programs and practices of the Federal Government and amendments to such statutes and regulations as the Commission considers necessary and desirable.

(g) In carrying out its responsibilities under this section, the Commission, or any member authorized by the Commission, may hold hearings, conduct meetings, take testimony, request the assistance of and consult with individuals, agencies and organizations within and outside the Federal Government. The Commission may administer oaths or affirmations to witnesses appearing before the Commission.

(h)(1) The Commission may issue subpoenas requiring the attendance and testimony of witnesses and the production of any evidence that relates to any matter which the Commission is authorized to consider. Such attendance of witnesses and the production of such evidence may be required from any place within the United States at any designated place of hearing within the United States.

(2) If a person to whom a subpoena is issued under pagargaph (1) of this subsection refuses to obey such subpoena or is guilty of contumacy, any court of the United States within the judicial district within which the hearing is conducted or within the judicial district within which such person is found, resides or transacts business may (upon application by the Commission) order such person to appear before the Commission to produce evidence or to give testimony relating to the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt thereof.

(3) Any subpoena of the Commission shall be served in the manner provided for subpoenas issued by a United States district court under the Federal Rules of Civil Procedure for the United States district courts.

(4) All process of any court to which application may be made under this section may be served in the judicial district in which the person required to be served resides or may be found.

(i) The Commission may appoint and fix the compensation of such staff as it determines to be necessary to carry out its responsibilities under this resolution.

(j)(1) The Commission may request from individuals, Federal agencies and departments, and other organizations such information as it may require in order to carry out its responsibilities under this resolution.

(2) To the extent permitted by law, such Federal agencies and departments and organizations shall provide the Commission with such information.

(k) The Commission may make expenditures from the contingent funds of the Senate and House of Representatives in such amounts as it may require to carry out its responsibilities under this resolution. Such expenditures shall be made on an equal basis from such contingent funds.

(l) The Commission shall cease to exist on January 10, 1985, or on the date of submission of the report required by subsection (f) of this section, whichever is earlier.

Mr. HOLLINGS. Mr. President, we will not call up this amendment in compliance with the Senate majority and minority leaders wishes to expedite the pending legislation. I give notice, however, that we will be back and we will get before the Congress a balanced budget. We cannot afford these crazy deficits and the danger they bring to our economic future.

I offer the amendment on behalf of myself, Mr. ANDREWS, Mr. EXON, Mr. BOREN, Mr. JOHNSTON, Mr. STENNIS, Mr. PRYOR, Mr. NUNN, Mr. LEVIN, Mr. DECONCINI, Mr. BUMPERS, Mrs. KASSEBAUM, Mr. LEAHY, and other Senators relative to a bipartisan effort with respect to a commission on the deficit. It is next to impossible to discuss anything in these closing hours that does not relate to the Presidential race or does not relate to other elections in November. I have talked to the majority leader. I have talked to others on the Republican side, and there is a general feeling that next year, whoever he is, the President is going to have a very short, brief window of opportunity to right the fiscal ship, of our Nation. We are running deficits now whereby the interest costs of the U.S. exceed its annual deficit.

I heard some of the earlier discussion of the distinguished Senator from New York. [Mr. MOYNIHAN], where he said that we should have the CBO look to see when the deficit gets so large it is almost to a point of no return.

We need not have a study from the CBO. We can look at the CBO's projections today. The gross interest costs for the fiscal year 1985 will be $187 billion. Some say it is lower but that's because they have a bad habit of taking credit for revenues that we get from assorted U.S. fees and funds.

We must also remember that we are taking from the general revenue in order to keep on an even keel the Social Security fund and make its payments.

It is almost impossible to bring home to my colleagues the real impact of the size of this cost of doing business, just the interest costs, the real carrying charges on the national debt. I remember well the last time we balanced this Nation's budget. It was in 1968-69. We met in December 1968 after the start of the fiscal year, which at that time commenced on July 1. We called on the White House and talked to President Johnson. We asked permission to cut spending to bring the deficit down and President Johnson was anxious to do the same thing. So we cut $5 billion from his budget.

If you look at the 1968-69 budget, you will see that not only was it balanced, but also, we have a surplus. Can you imagine our talking about a surplus today in this Congress of any amount let alone the $3.2 billion in that time? Of course not.

The reason I make this point is to remember back to that particular budget. There was the war in Vietnam, the Great Society programs, and all the rest of Government; and the total cost of all Government—Defense, Congress, the FBI, Interior, Agriculture, Commerce, and all other departments of Government—was $184 billion.

Now—in today's budget—just the interest cost or carrying charges on the national debt—is jumping up in what you might call algebraic numbers a total of $25 billion over the past year. This amounts to a $25 billion new spending program. We are all talking about cutting spending. That $25 billion new spending program, had we been operating on a pay-as-you-go basis, could have gone for cracks in roads and bridges, researching cancer, education, the Export-Import Bank, to promote trade and create jobs. But we just frittered it away on our own profligacy.

This year, that carrying charge will jump another $33 billion. So we are about to spend an additional $33 billion this fiscal year on a new spending program.

We are always talking about new programs. I remember when the distinguished senior Senator from Massachusetts came up with a health insurance bill that would cost $30 billion. Many of our conservative Members proclaimed: "Heavens above, we have never heard of that. A national health insurance program of $30 billion; we can't afford it." At least we would have had health insurance. For this $33 billion today, we get nothing.

So on both sides of the aisle today, many Members agree that nothing can be done until after the election. It's sad but it's true. Many of us favor having a commission appointed after the election, to meet in good faith, with the best available minds on economic financial matters—in the Congress and in the private sector—and present a balanced budget plan to whomever is President. We would like to see a bipartisan panel attack the horrendous deficits facing us.

All sides will have to give—Democrat, Republican, conservative, liberal, or whatever we have—in this Government. And all areas will. The problem is that big. It is not a situation in which we should do something on defense, do something on nondefense discretionary spending, do something on entitlements, do something on revenues. It is all the above, if we are to do this in an effective and intelligent fashion.

We have those in the private sector who have been interested in this and who have been meeting over and over for the past 2 years. We have the former chairman of the Budget Committee in the House, Bob Giaimo. We have a bipartisan business group, the Pete Peterson crowd. They are all intelligent and well-intentioned people who have expertise in what they say.

We all have been talking and meeting; but, unfortunately, we have just been talking and meeting. We have not been acting.

Creating a bipartisan panel to stop deficit spending has to be entered into voluntarily and in an appreciative atmosphere. With the ox in the ditch, we are all in trouble; and unless we all can pull together, the entire Nation and the Nation's future is going to suffer.

Mr. President, I ask unanimous consent that some detailed comments on the budget crisis be inserted at this point.

Mr. President, once more, the Senate is faced with the harsh reality of a Federal budget deficit out of control. Last year, the budget deficit was $195 billion, which amounted to 6.1 percent of GNP. This is larger than deficits in any year since World War II. The compromise on the budget resolution provides no relief to the staggering deficits that threaten our economic future—both here and abroad—as projected deficits continue near or above the $250 billion level by 1989. We are talking about huge, unprecedented deficits stretching off into the future as far as the eye can see.

The President blames Congress. Congress blames the President. Both sides delude themselves into thinking the deficits do not really matter. After all, we are in a recovery.

Recovery will not wipe these deficits out. The deficit problem is really only a matter of simple arithmetic according to Dr. Rudolph Penner. Spending is much higher than revenue, and the two are not projected to come together any time soon by themselves.

To finance the current deficit, the Government will have to borrow more than two-thirds of all private savings—money available for lending and investment in the United States. These deficits are soaking up the capital that our businesses need to finance the new investment that provides new jobs. Even during economic recovery, interest rates will rise, if the Federal Government continues to compete in the private credit markets.

The failure to reduce deficits holds interest rates high and prolongs the U.S. dependence on foreign capital to finance the national debt. But how long can this go on? What if foreigners lose confidence in us and the huge net inflow of savings from abroad were to stop? Would the Federal Reserve finance the huge deficits and risk inflation, or refuse to finance them and risk depression?

We do not want to risk inflation or depression. We believe that a consensus exists in the Nation and in the Congress that large Federal deficits should be reduced and that the budget should be balanced as soon as possible. We also recognize that election year politics forbid any bipartisan solution to the deficit problem prior to the election on November 6.

But it will take bipartisanship to break the devastating pattern that has created the deficit crisis. Now is the time to act to ensure that a bipartisan approach is given the opportunity to solve the dilemma.

We are proposing that the Congress establish a Commission on the Deficit whose objective shall be the following: One, consider all relevant fiscal and economic matters regarding the causes of Federal budget deficits and alternative solutions to the reduction of such deficits. Two, not later than January 10, 1985, submit to the President a budget plan for fiscal year 1985 through 1990 which is projected to result in a balanced Federal budget not later than fiscal year 1990.

The Commission would consist of six members each from the Senate and the House—six for the majority, six for the minority. Further, there would be six members of the general public who are experts on fiscal or economic matters or both—three chosen by the

majority leader of the Senate and three by the Speaker of the House.

Much has been said about deficits. We are all on record stating how we vehemently oppose runaway deficits. We all recognize the danger of continuing down the path of $200 billion deficits. But what have we done: nothing. Nothing but to offer the American people election year pablum. We say we cannot take a position, this is an election year and the election is near. And by not doing anything, we risk American jobs, the ability to put our kids through college and buy a home.

We can no longer wait. The time to act is now. We must get the ball rolling and set a long-term agenda for getting us back on the road to fiscal responsibility. If we do not do this, I fear there will be only more proposals, more talk, and another election and we will accomplish exactly what we have up to now: nothing.

My colleagues, it is time to get serious. Ultimately, we have to take action, and the longer we take, the more difficult the choices. But let us act together in a bipartisan manner—over the next 3 months—to work on a solution to these crippling deficits. Let us for once give a little attention to the next generaton rather than the next election.

Mr. President, I express my gratitude to all Senators—on both sides of the aisle—who have expressed a willingness to meet here after the election, in November or December or early January, and again try to come up with some kind of solution to the deficit to present as a guideline to the President. I did not include presidential appointees to the panel. Whoever the President is, he will have his own team.

I think that we in Congress are all responsible, and a responsible act at this point would be to furnish some kind of guidelines.

Incidentally, I also want to express my support for Senators BAUCUS, KASSEBAUM, BIDEN, and GRASSLEY, in their freeze amendment at this time. It is a good initiative. It keeps to the front what I have tried to do for the past 3 years.

I remember when Senators BAKER, DOLE, DOMENICI, BOREN, and STENNIS were trying to get a freeze 2 or 3 years ago. In September 1981, we had passed Reaganomics. People forget that on September 24 of that year, the President appeared on national TV and said we have to raise taxes. We realized at that time that we were getting into very serious trouble.

Then, back to the point we had proposed a freeze in that lame duck session, but we got into politics again.

If anyone wants to discuss this matter further, I will be glad to do so.

Mr. STENNIS. Mr. President, will the Senator yield?

Mr. HOLLINGS. I yield.

Mr. STENNIS. Mr. President, I commend the Senators from South Carolina for his work heretofore, and particularly with this special effort now in connection with a commission, in which I am privileged to join. I hope I can make some contribution.

Mr. HOLLINGS. I hope we can work out something along this line immediately after the election, even though we do not enact it.

Mr. STENNIS. I am glad the Senator is not offering it as an amendment now. It does not belong as an amendment with these other matters.

The PRESIDING OFFICER. Is there further debate?

Mr. BAUCUS. Mr. President, I know the Senate is ready to vote. I am not going to take much time.

I want to pay a personal tribute to the Senator from Massachusetts, Senator TSONGAS. The amendment he has offered today is a fitting reflection of his work in the Senate, because it is courageous and innovative.

I came to the other body in January 1975 with the Senator from Massachusetts. Even then, I was struck by his perceptiveness, his ability to analyze problems more deeply than most people, his ability to solve problems, and by his courage to stand by his convictions. He has always been at the head of the herd. He has always been a little more refreshing, always been a little more intelligent, a little more imaginative, a little more daring, a little more courageous—a little more of what it takes to be a leader, and a little more of what we like to think we all are as U.S. Senators.

I have watched the Senator from Massachusetts in his hard work on the Chrysler bill. I have watched him in this body in many areas, as well as in the courageous speeches he has made before many organizations. I have watched him today as he came up with another idea, and advocated it vigorously.

He also perhaps is being a little more innovative and courageous by deciding to leave this body voluntarily.

Most of us do not have that courage. Most of us feel we have to stay here. Most of us think there is not another life, not another vocation, not another pursuit for us.

I know the Senator from Massachusetts well. He has been a close personal friend of mine and will always have my friendship and respect.

I know that all of us look forward to maintaining his friendship in the years ahead, and wish him well whatever he does.

Finally, Mr. President, let me just say that, typically, this last amendment offered by the Senator from Massachusetts embodies an innovative idea. It is an attempt to bring this country together. It is an attempt to go beyond the rhetoric, beyond the partisanship, beyond the finger pointing and name calling. It is an attempt to take the first step, not the only step, but at least the first step to solve probably the country's greatest domestic problem.

I urge all of us to vote for this amendment. It is not an amendment to lock the freeze into place. It is just an amendment to discuss the freeze next year, next April

Mr. President, I yield the floor.

Mr. DOLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. TSONGAS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. TSONGAS. Mr. President, I am a bit confused here because when the majority leader was here we agreed to vote at 4:15 p.m. I am just wondering why we are not voting.

Mr. DOLE. Excuse me. Why are we not voting? We are taking whip checks to see if we have the votes. Otherwise, we vote next week.

Mr. TSONGAS. I appreciate the frankness of the answer.

If I could, for the sake of those who need a translation, it looks like we are going to win.

Mr. DOLE. I think the people are going to lose. The Senator may win, but I try to make it clear. I do not quarrel with people who want to load up the debt ceiling. I may want to do that myself sometime. But I have to consult with the chairman of the Ways and Means Committee, and he is rather a mild-mannered person, but he made it rather clear to me on the telephone that if we sent any amendment on the debt ceiling, he is not going to conference.

So if you really want this, maybe figure out some way to put this up separately somehow in a separate piece of legislation. He is just going to send us back another debt extension. If we amend that, he will send us back another debt extension.

Mr. ARMSTRONG. Mr. President, will the Senator yield to me a moment?

Mr. DOLE. I yield.

Mr. ARMSTRONG. I want to make an observation, without relitigating the merits of the amendment which I happen to be for. If there is any Senator in doubt about how he wants to vote, what the Senator has just said ought to convince him to vote for this amendment. The arrogance of the other body in repeatedly sending this particular measure over here under a no amendment rule, under "we won't go to conference" rule, as far as I am concerned they can go fly a kite. We ought to lay down the gauntlet. We

are not going to legislate with a gun at our head.

I understand the problem the chairman of the Finance Committee has in trying to do the business of this body in a regular and routine way, but the fact of the matter is that that is not the kind of comity that should exist between the two bodies.

Mr. TSONGAS. Mr. President, if the Senator will yield, I will make the point this is the third time that I intended to bring this up and the other times I was appealed to by the leadership that I was somehow thwarting the normal process, that "you will have a chance to do it later on." Like a nice guy, I believed them and pulled it down.

This is the last chance. What happens here? We have a real chance of winning, this, and what happens? We have a quorum call to delay this so they can somehow by procedure turn it around.

The message is clear at least to me. If I had to do it over again I would have done it 3 months ago and put the body through the agony.

It seems to me there should be some corresponding obligation to those of us who did indeed step down two or three times previously that we could at least get a vote up or down now on this issue.

Mr. DOLE. Mr. President, I certainly have no quarrel with the proponents of the amendment that they have the perfect right to offer; we have a perfect right to try to defeat it as long as we operate within the rules. I listened to the debate on the amendment. But again, I think now and then we have to be realistic around here. It is not a requirement; it does not happen very often. But every year or 2 it is not a bad idea.

We would like to extend the debt ceiling. We would like to extend the debt ceiling until next September 30 and, again, it may be arrogance in the other body, but I do not want to characterize my colleagues in the House of Representatives. They have a responsibility, but we will see what happens after we complete the whip check and I suggest the absence of a quorum.

Mr. BIDEN. Mr. President, will the Senator before he does that yield for a question?

Mr. DOLE. I yield.

Mr. BIDEN. Assuming that this amendment were taken off the debt limit, would the Senator suggest to the leadership that we be able to get a vote today on the issue all by itself, a separate piece of legislation.

Mr. DOLE. I would be happy to do that, yes.

I do not know whether I would quarrel with the intent of the sponsor of the amendment. I never argued the amendment. I have not done that. My role is a little different. I am responsible for the debt ceiling and not the Budget Committee. I leave those arguments to my colleague from New Mexico, Senator DOMENICI.

It would seem to me unless there is just some great desire to have it on the debt ceiling, it might be better to pass it separately, and again maybe the House Ways and Means Committee will change their collective minds, but it is not just the chairman over there who feels that way about the debt ceiling; it is others. They use a different procedure in the House of Representatives because they find it very difficult to pass debt ceiling extensions.

Many of those who vote for all the spending vote no on the debt ceiling. Many of those who do otherwise vote no on the debt ceiling. They believe that if they did not give it to us in a budget resolution they would never pass the debt ceiling. That is a problem the House of Representatives has.

We will abide by whatever the Senate does. I think we should do the best we can to keep it clean.

Mr. TSONGAS. If the Senator will yield, I think it would be intriguing to put the House of Representatives in position where it would state it would not pass the debt ceiling because the Senate has voted to have the budget freeze which is supported around the country voted upon in April. That, in my opinion, is an untenable position for them to be in, and I think they would recognize that.

Mr. DOLE. Why not just have a separate freestanding bill that says we should vote on this in April? Why put it on the debt ceiling?

Mr. TSONGAS. Because I have some hope it will become the law.

Mr. DOLE. I can tell the Senator there is no hope if it is on the debt ceiling. That is my opinion.

Mr. SYMMS. Mr. President, will the Senator from Kansas yield for another inquiry.

Mr. DOLE. I yield.

Mr. SYMMS. I appreciate the dilemma that the chairman of the Finance Committee finds himself in here, but I know as soon as he gets this issue resolved with respect to the budget freeze, I am standing here with another one to repeal that section of the 1984 Tax Code or the 1984 Tax Reduction Act that deals with imputed interest to put us back pre-June of 1984.

The thought occurred to me for the chairman just to think about it here, and I would not expect him to give me an answer, if we were to deal with the imputed interest issue which has over 300 sponsors in the House of Representatives, the chairman of the Ways and Means Committee might find it easier to pass the debt increase if he had the imputed interest repealer attached to it.

Because at least if there are two issues there that would somewhat confuse it. I think it might be worth the chairman's consideration.

I would very much like to get a vote in the Senate to take us back to the pre-1984 Debt Reduction Act so that next year we can come in and work out these differences between the Senator from Ohio and the Senator from Kansas and others on the question of the imputed interest in our Tax Code. That is all this Senator is trying to do is get a vote on the debt ceiling so it will become law.

I agree with my friend from Massachusetts, this is the last train leaving that will probably get to the station. I think that is why we want to be on that train.

Mr. DOLE. I think the problem is we thought the train was leaving today, but now we know it is not leaving until next week so nobody really cares and everybody can vote for everything next week.

I share the view expressed by the Senator from Idaho. We are trying to find out in advance, if we can, what might be acceptable in the other body. I know they do operate a bit differently than we do. We would like to resolve it, at least as far as a compromise on the so-called imputed interest matter.

But if that is going to follow this amendment, I do not see any reason to even worry about voting on the pending amendment today. If the Senator from Idaho intends to send his amendment to the desk on imputed interest, we are right back where we were. We would not be able to reach final passage by 5:30.

But let me consult with the majority leader who is responsible for the general direction of the flow of legislation.

Mr. SYMMS. I would say to the good chairman that I would enter into a time agreement on it.

Mr. DOLE. I do not think that is the problem. I think the question is who has the votes. I think things could change.

Mr. METZENBAUM. It takes unanimous consent.

Mr. DOLE. That is true.

Mr. MOYNIHAN. Mr. President, as I calculate, today's decision to increase the debt ceiling, if we reach that point, will mark the latest in a quite extraordinary series of actions by this body with respect to a matter which was once thought to be routine. Certainly the levels of the debt in the past seem almost trivial constrasted with those we are dealing with today.

On February 7, 1981, we voted to increase the temporary debt limit to a total of $985 billion. That would be a fair assessment of the debt level when the present administration came to the office. The limit had been $935. It had been changed in the very last days of the previous administration on De-

cember 19, and an increase was in order, not a huge increase, but an increase.

And since then we have made a succession of increases—on September 30, 1981, to almost a trillion dollars, $999.8 billion. That number is trivializing a real problem to pretend that something is less than a trillion dollars by $200 million, as if we were a retail department store of some kind. Then in June, 1982, we went to $1.143 trillion. The following September to $1.290 trillion. Then in May of 1983 to $1.389 trillion; in November, last year, $1.490 trillion. We suddenly went to $1.575 trillion. And now to $1.8238 trillion.

We have just about exactly doubled the debt in 4 years. We have more than doubled the debt. We have put ourselves into a situation that is literally without equivalent in the history of the American Nation as formed under this Constitution. We are now in a situation where each year an extraordinary increase in Government expenditure will be required not to maintain the levels of Government activity, but to pay the interest on Government debt.

The last budget resolution, which we adopted last week, is a kind of act of obeisance to the fact that the Budget Act required us to do so last spring. The continuing resolution we have yet to pass, necessitated by the fact that only 4 of 13 appropriations bills have been enacted, has raised for many persons the question of what has happened to the Congress. Why can it not seem to do its work? Why does it wait until the very last minute and then undertake quite mammoth—momentous in some cases—enterprises in states of near exhaustion and depletion?

What may well be the most important crime bill ever passed by the United States was pasted together by half-dazed men and women between 5 a.m. and 8 a.m. on Thursday morning. And if the courts find it difficult to interpret, they need do no more than to consult this particular form of legislative history; and absent the CONGRESSIONAL RECORD, it will not appear in the official reports.

Why can we not get our work done? Why do we do it so badly? What has happened suddenly to change our work pattern, that had been stable over two centuries and had been reasonably effective? It is very simple, Mr. President. we have found ourselves dealing with an unprecedented fiscal situation, we have an administration that came to office with fiscal probity as almost its central, single theme, pledging to balance the budget within a time certain, fiscal year 1984, which is to say 3 years. A administration which proclaimed at its very outset on the "West Front" of this Capitol, that an extraordinary economic emergency existed, and this administration then came out and endangered the public by proceeding to dismantle the finances, the fiscal structure of the American Nation. A more irresponsible act, if deliberate—and I shall undertake to suggest it was deliberate, and demonstrate it was deliberate—has not taken place in the history of American Government that I am aware of apart from those measures that led to the Civil War itself.

The actions of Government in the crisis months of 1930, which took a stock market crash which turned into a decade-long depression, were certainly ineffective and indeed calamitous, but they were not irresponsible at the level of persons acting in the absence of knowledge that was available. But in this case they either did not have the knowledge or chose not to acknowledge. Limited men with limited information acted to the best of their likes. Their lights were dimmed and the consequences were dark, but one could not say, had they only known certain facts, or a certain set of relationships, they would have acted differently. Indeed, the economic revolutions, revolution of economic thought which we so saw in the 1930's, came in response to the manifest failure of what had previously been thought to be adequate economic understanding, and adequate understanding of public policy and political economy.

Not so the events of 1981. Seventeen days into office, the President of the United States addressed the Nation. He said:

> We had been told that it is not possible to cut taxes until we have cut programs." I paraphrase, but my meaning will be found fully in the President's statement, and he used most of these words. He said, "I say otherwise."

He then went on to say:

> "What do you say to a child that will not behave? What do you do with a child that will not behave?"

The characteristic presumption was that the Federal Government and the people it represents were childish in their incapacity and incomprehension. He said, "You can talk yourself until you are blue in the face or you can cut its allowance." Cut its allowance. And we then proceeded in the full confidence that the objective of the administration was to sharply reduce the size of Government, restore fiscal stability, probity and responsibility. And this could be brought about by dismantling the finances, and the revenues of the Federal Government. That was done by August, and then all was to be swell, and in that very moment it became clear that things were ominously wrong. There were two decisions, two sets of facts fundamentally opposed to such a course of policy that the Nation then set upon. But there was a complaint Congress and this Senator is not to be excepted. The first was the assumption that the Federal budget was filled with activities which at very minimum were optional, and in the largest measure were wasteful and unnecessary. This was an illusion, an illusion that had been developed. I do not think it is wrong to say that in this particular body, where one party held office for 44 of 50 years, that there was not enough learning experience for the other party, which had derived what meager advantage it could from constant railing against an increasingly imagined set of budgetary realities.

It was thought that the compulsion of the deficit would lead to a wholesale reduction in the activities of the Government. But if there was to be a measure of how much reduction could be proposed, let it be the measure of the very Office of Management and Budget which contrived the specific policies to accompany the President's strategy, the policy of revenue reduction. Not once from the day they came to office has that administration proposed a balanced budget—not once. Scarcely four times to my knowledge have they vetoed an appropriation bill. Why? Because they encountered reality. They encountered the fact the entitlement programs of the Social Security system are paid for by the recipients in an intergenerational transfer, that people in the system pay for what comes out of the system from paychecks, from payrolls. And when you add these to defense, and you count service of the debt, you have nearly 85 percent of the Government.

Then two things happen. Having created a situation in which economic instability, fiscal instability was almost certain, the Federal Reserve Board—having created a situation in which this form of instability was manifest and imminent—proceeded to reduce money supply levels to a negative number in the summer of 1982. And the sharpest depreciation since the 1930's took effect, with consequences on revenues.

In December 1982 steel production had dropped below 30 percent in the United States. You could not find such a period until you went back to the early 1930's. There then proceeded to be a set of program activities which were a caricature of those programs which were said to be in place, such as the agricultural program of the Federal Government.

Mr. TSONGAS. Would the Senator yield for an inquiry?

Mr. MOYNIHAN. Yes.

Mr. TSONGAS. The pending amendment is the budget freeze amendment. There is no other Senator wishing to speak on this.

Mr. MOYNIHAN. I am speaking to the point and I will be done. It will not be long.

Mr. TSONGAS. Does the Senator have any objection to our having a vote on that this evening?

Mr. MOYNIHAN. Not at all. I mean to be speaking for another 10 minutes.

Certain of the programs put in place by the new administration, still mesmerized by its own rhetoric, became caricatures of those in place. The fram program went from $9 billion in 1 year to $24 billion in 3 years. If that happende under a Democratic administration, can you imagine the howls you would be hearing? Then the defense program went up out of any conceivable proportion. In the end, they list the rate of growth along the path President Carter had proposed in his last budget.

But little by little, interest payments began to assume a larger and larger proportion of the deficit. And this fact could not be comprehended, or was denied in the White House, on that side of the aisle, and part of this side of the aisle.

Mr. DOLE. Would the Senator from New York yield? I am enjoying every minute of it. does the Senator have any idea how long he might be? [Laughter.]

Mr. MOYNIHAN. I do not yield.

In the coming years, we will be paying a quarter of all Federal revenue for interest on the debt.

Very shortly now, one-half of the revenue on the personal income tax will be required to pay the interest on the debt. Of the personal income tax, 85 percent is withheld from wages. Eighty-five percent of the personal income tax is withheld from wages. It is elementary, a capital tax on labor.

The interest on the Federal debt, in denominations of up to $1 billion, is quite essentially the return to capital. We are going to have the largest transfer of wealth from labor to capital as a result of these policies that we have known in our history. We are going to find ourselves, by the end of the decade, with a deficit—in terms of the budget resolution we passed just last week—where three quarters of the deficit in fiscal year 1987 will be interest payments. That interest accumulates at a compound rate, which very quickly become unstable.

If it becomes unstable, if the public budget of the U.S. Government becomes unstable, our economy becomes unstable. If that is so, we face an unstable world.

This is what has been happening in 4 years, a fact not comprehended or denied by a majority, which assumes that it can be dismissed by a remark about who wants to talk about the subject?

Mr. President, I want to talk about the subject. I would talk a great deal longer if we were not into this recurring crisis which this administration has created, and which will go on as a crisis, and may indeed explode as one. It will, surely, unless those who have some part in the making of it will assume some responsibility for dealing with it in terms that accept reality and put an end to this denial. As if having known all the years the charges made about Washington were not so, the people involved today cannot believe that what they once said to be true has become true, what they once said to be an untenable and unstable situation is increasingly just that.

SEVERAL SENATORS. Vote! Vote!

The PRESIDING OFFICER. The question is on agreeing to the amendment.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. DOLE. Mr. President, I understand the distinguished majority leader will be here momentarily. Then we can determine whether or not there will be a vote. There will be a motion to table that will be made today. I know a number of Members have other commitments. We want to accommodate as many Members as we can. I was not trying to interrupt the distinguished Senator from New York while he was blasting the Republicans, but I am glad he permitted me to ask the question.

Mr. MOYNIHAN. I am glad you recognize the genesis. I did not use the term.

Mr. DOLE. Seriously, you pointed out a serious problem. We do have a problem and we will have to address it quickly.

For those who are anxious to leave, if they can give us a minute or two, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, what is the pending question?

The PRESIDING OFFICER. The pending question is the amendment of the Senator from Massachusetts [Mr. TSONGAS].

Mr. BAKER addressed the Chair.

Mr. BYRD. Mr. President, I have a question.

Would it be possible following this vote to vote on the debt limit extension itself, with the understanding that Mr. MELCHER and Mr. DOLE will work out some arrangement whereby there will be an imputed interest amendment on another matter?

Mr. BAKER. Mr. President, I would be most pleased to do that. If the minority leader will permit me, I would like to make a unanimous-consent request that immediately after the disposition of this amendment, the Senate proceed without further debate to vote on the resolution itself.

Mr. BYRD. Without further debate or——

Mr. SYMMS. Reserving the right to object, Mr. President, may I just say to the leader, if we could have a vote on my amendment in that time agreement, I would be happy to agree to it.

Several Senators addressed the Chair.

Mr. BAKER. Mr. President, I have the floor.

Let me do this: Let me move to table this amendment and maybe negotiations can go on in the meantime to see what we can work out.

Mr. President, I move to lay the pending amendment on the table and I ask for the yeas and nays.

The PRESIDING OFFICER (Mr. GORTON). Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on laying the amendment of the Senator from Massachusetts on the table. The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. STEVENS. I announce that the Senator from Oregon [Mr. HATFIELD], the Senator from Florida [Mrs. HAWKINS], the Senator from Pennsylvania [Mr. HEINZ], the Senator from Alaska [Mr. MURKOWSKI], and the Senator from Illinois [Mr. PERCY] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN], the Senator from Louisiana [Mr. JOHNSTON], and the Senator from Arkansas [Mr. PRYOR] are necessarily absent.

I also announce that the Senator from New Jersey [Mr. LAUTENBERG] is absent due to reason religious observance.

I further announce that if present and voting, the Senator from Oklahoma [Mr. BOREN] would vote "nay."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 30, nays 61, as follows:

[Rollcall Vote No. 284 Leg.]

YEAS—30

Baker	Domenici	Quayle
Boschwitz	Durenberger	Roth
Bradley	East	Sarbanes
Byrd	Goldwater	Stafford
Chafee	Gorton	Stevens
Cochran	Kennedy	Thurmond
Cranston	Laxalt	Tower
Danforth	Lugar	Wallop
Denton	Mathias	Weicker
Dole	Packwood	Wilson

NAYS—61

Abdnor	Bumpers	Dodd
Andrews	Burdick	Eagleton
Armstrong	Chiles	Evans
Baucus	Cohen	Exon
Bentsen	D'Amato	Ford
Biden	DeConcini	Garn
Bingaman	Dixon	Glenn

Grassley	Levin	Randolph
Hart	Long	Riegle
Hatch	Matsunaga	Rudman
Hecht	Mattingly	Sasser
Heflin	McClure	Simpson
Helms	Melcher	Specter
Hollings	Metzenbaum	Stennis
Huddleston	Mitchell	Symms
Humphrey	Moynihan	Trible
Inouye	Nickles	Tsongas
Jepsen	Nunn	Warner
Kassebaum	Pell	Zorinsky
Kasten	Pressler	
Leahy	Proxmire	

NOT VOTING—9

Boren	Heinz	Murkowski
Hatfield	Johnston	Percy
Hawkins	Lautenberg	Pryor

So the motion to lay on the table was rejected.

Mr. DOLE. Mr. President, we are negotiating with the distinguished Senator from Idaho. We might work out some arrangement. I would rather not accept this amendment until we have worked out that arrangement.

So I guess that might be contingent on going to final passage.

If we can work out an arrangement with the distinguished Senator from Idaho and the Senator from Montana, Senator MELCHER, to offer various amendments on imputed interest on another vehicle, then I am prepared to accept the amendments now pending and go to final passage. Otherwise, I would be constrained to discuss it more and come back Tuesday.

Mr. BAKER. Mr. President, I think Senators should know that we are within inches of being able to pass this resolution, I hope. I base this on conversations I have had with the minority leader and other Senators.

I understand the concerns of some Senators. I know Senator MELCHER and Senator SYMMS, and others, still have amendments that they feel keenly about and they would like to offer to this resolution.

But, Mr. President, I believe that the distinguished chairman of the Finance Committee can supply a vehicle to which other amendments can be offered and I am willing to pledge now that if he asks me to do that, and I expect he will, I will try to schedule that and we will do it next week, and I am sorry to tell you I think we will have lots of time next week to do that.

But, Mr. President, I really urge Members to consider that we have an opportunity to pass this debt limit now and get it out of the way.

This is one of the two items that have to be done before we can adjourn sine die. We have already missed Friday and we are going to come back on Tuesday. I hope we are not here on Wednesday but I bet we are. And we are going to have trouble with the continuing resolution.

I would like to see this bill passed tonight if we can and once again I will cooperate with Senators, with the chairman, and ranking minority member of this committee in trying to find another vehicle on which these amendments can be offered if we could come to agreement on final passage of the debt limit before 6 o'clock tonight.

Mr. BYRD. Mr. President, will the majority leader yield?

Mr. BAKER. I yield.

Mr. BYRD. Mr. President, I have not talked with every Member on our side of the aisle. I suggest that the majority leader propose a unanimous-consent agreement which would call for a voice vote on the pending amendment, inasmuch as it was not tabled, with the understanding that arrangements would be worked out as Mr. DOLE has indicated, arrangements which would give those who are interested in the imputed interest amendment an opportunity to have a vote and then, say, begin voting on final passage of the debt limit extension at, say, 5:40 p.m. with a strict 15-minute vote on that and in the event that the motion to reconsider is offered and should there have to be another vote on reconsideration, it would begin no later than 5:55 p.m. today.

Mr. BAKER. Mr. President, I will do that. I sense an omen of distress in that formulation. It makes me wonder if I am going to have to do the debt limit vote twice. I do not look forward to that. Let me take the best deal I can get.

Let me say first I believe I am correct in saying I could not by unanimous consent deprive Senators for asking for the yeas and nays on the next amendment. But let me put it this way:
